The purpose of the hearing is to receive comments and suggestions on the published materials. Parties interested in attending the hearing should notify the Office of Education, 400 Maryland Avenue, S.W., Room 2085, FOB 6, Washington, D.C. 20202, Attention: Chairman, Office of Education Task Force on Section 503, and are urged to submit a written copy of their comments with such notification. Each party planning to make oral comments at the hearing is urged to limit his or her presentation to a maximum of fifteen minutes.

Written comments and recommendations may also be sent to the above address. All relevant material received on or before December 29, 1975, will be considered. Comments and suggestions submitted in writing will be available for review in the above office between the hours of 9:00 a.m. and 4:30 p.m., Monday through Friday of each week.

(Catalog of Federal Domestic Assistance Program Number 13.492, Upward Bound)

Dated: October 10, 1975.

T. H. BELL,
U.S. Commissioner of Education.

Approved: December 5, 1975.

DAVID MATHEWS,
Secretary of Health, Education, and Welfare.

Part 155 of Title 45 of the Code of Federal Regulations is revised to read as follows:

PART 155—UPWARD BOUND PROGRAM

Sec.

155.1 Scope and purpose-general provisions.
155.2 Definitions.
155.3 Project size and selection of students.
155.4 Eligible project participants.
155.5 Summer residential and academic year components.
155.6 Eligible applicants.
155.7 Applications.
155.8 Funding criteria.
155.9 Program requirements.
155.10 Veteran's projects.
155.11 National demonstration projects.
155.12 Allowable costs—stipends.
155.13 Salary and wage rates.
155.14 Student records.
155.15 Travel.
155.16 Functional relationship and unification among Talent Search, Upward Bound, Special Services for Disadvantaged Students, and Educational Opportunity Centers projects.

AUTHORITY: Sec. 417A–417B, Title IV of the Higher Education Act of 1965 as amended by sec. 131(b), Title I, Pub. L. 92–318, 86 Stat. 258–259 (20 U.S.C. 1070d–1070d–1), unless otherwise noted.

§ 155.1 Scope and purpose—general provisions.

(a) The regulations in this part govern the administration of the Upward Bound Program. This program is designed to generate skills and motivation necessary for success in education beyond high school for enrollees from low-income backgrounds who have inadequate secondary school preparation. Upward Bound projects provide a summer residential program during which participants receive (1) intensive instruction in basic communication skills, such as reading, public speaking and writing, mathematics and science, and (2) guidance and counseling with regard to educational and career opportunities. Such projects also provide, during the school year, tutoring and counseling services. The goal of the program and projects funded under this part is to increase the academic performance and motivational levels of eligible enrollees so that such persons may complete secondary school and successfully pursue postsecondary educational programs.

(b) Assistance provided under this part is subject to applicable provisions

contained in subchapter A of this chapter relating to fiscal, administrative, and other matters (General Provisions for Office of Education Programs—45 CFR 100a).

(20 U.S.C. 1070d–1070d–1)

§ 155.2 Definitions.

For the purpose of this part:

(a) "Act" means the Higher Education Act of 1965, as amended.

(20 U.S.C. 1001 *et seq.*)

(b) "Academic potential" means a capacity for success in post-secondary education which is documented either by traditional measurements, including standardized achievement tests, or other verifiable indicators.

(20 U.S.C. 1070d–1)

(c) "Combination of institutions of higher education" means (1) a group of institutions of higher education that have entered into a cooperative arrangement for the purpose (although not necessarily for the exclusive purpose) of carrying out a project or (2) a public or private agency, organization, or institution designed or created by a group of institutions of higher education for the purpose (although not necessarily for the exclusive purpose) of carrying out a project on their behalf.

(20 U.S.C. 1141(j))

(d) "Institution of higher education" means an educational institution in any State which (1) admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate, (2) is legally authorized within such State to provide a program of education beyond secondary education, (3) provides an educational program for which it awards a bachelor's degree or provides not less than a 2-year program which is acceptable for full credit toward such a degree, (4) is a public or other nonprofit institution, and (5) is accredited by a nationally recognized accrediting agency or association or, if not so accredited, (i) is an institution with respect to which the Commissioner has determined that there is satisfactory assurance, considering the resources available to the institution, the period of time, if any, during which it has operated, the effort it is making to meet accreditation standards, and the purpose for which this determination is being made, that the institution will meet the accreditation standards of such an agency or association within a reasonable time, or (ii) is an institution whose credits are accepted on transfer, by not less than three institutions which are so accredited, for credit on the same basis as if transferred from an institution so accredited. Such term also includes any school which provides not less than a 1-year program of training to prepare students for gainful employment in a recognized occupation and which meets the provision of paragraphs (d) (1), (2), (4), and (5) of this section, unless the school is a public institution, in which case it may also be accredited by the State agency in that State which has been listed by the Commissioner as a reliable authority as to the quality of public postsecondary vocational education in that State, and any proprietary institution of higher education, as defined in paragraph (e) of this section, which has an agreement with the Commissioner containing such terms and conditions as the Commissioner determines to be necessary to insure that the availability of assistance to students at the school under this part has not resulted, and will not result, in an increase in the tuition, fees, or other charges to such students.

(20 U.S.C. 1141(a), 20 U.S.C. 1088(b)(3))

(e) "Proprietary institution of higher education" means a school which (1) provides not less than a 6-month program of training to prepare students for gainful employment in a recognized occupation, (2) admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate, (3) is legally authorized by the State in which it is located to provide a program of education beyond secondary education, (4) is accredited by a nationally recognized accrediting agency or association approved by the Commissioner for this purpose, (5) is not a public or other nonprofit institution, and (6) has been in existence for at least two years.

(20 U.S.C. 1088(b)(3))

(f) "State" means, in addition to the several States of the Union, the Commonwealth of Puerto Rico, the District of Columbia, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands.

(20 U.S.C. 1141(b); 1088(a))

(g) "Target school" means a secondary school which has a large number and/or high percentage of students from families whose annual adjusted family income is less than the low-income level prescribed annually by the Commissioner, has a large number and/or high percentage of dropouts and has a low number and/or percentage of students entering postsecondary educational institutions.

(20 U.S.C. 1070d–1070d–1)

(h) "Veteran" means a person who served in the active military, naval or air service of the United States, and who was discharged or released therefrom under conditions other than dishonorable.

(38 U.S.C. 101(2))

(i) "Youth" means (i) a veteran or (ii) a person between the ages of 15 to 22.

(20 U.S.C. 1070d–1070d–1, unless otherwise noted)

§ 155.3 Project size and selection of students.

(a) Each project funded under this part shall serve between fifty and one hundred fifty participants. Participants may include students enrolled in target schools situated not more than 50 miles from the institution administering the project, and secondary school dropouts and veterans residing within such fifty mile radius. Upward Bound projects serving veterans shall be composed exclusively of veterans.

(b) [Reserved]

(c) The Commissioner may authorize exceptions to any limitations set forth in paragraph (a) of this section if it can be shown that such exceptions will not hinder the effectiveness of the project nor prevent the Upward Bound program from achieving its stated goals and objectives.

(20 U.S.C. 1070d–1)

§ 155.4 Eligible project participants.

A youth is eligible to participate in a project funded under this part if such youth:

(a) Is a citizen or national of the United States, or is in the United States for other than a temporary purpose and is, or intends to become, a permanent resident thereof, or is a permanent resident of the Trust Territory of the Pacific Islands;

(b) Comes from a family whose annual adjusted family income is not more than the low-income level prescribed annually by the Commissioner;

(c) Has academic potential but is unlikely to apply for admission to, or be accepted for enrollment in, an institution of postsecondary education because of a lack of preparation, or underachievement, or both, in secondary school; and

(d) Has completed the 10th grade.

(20 U.S.C. 1070d–1)

§ 155.5 Summer residential and academic year components.

(a) Except as provided in paragraph (d) of this section, each project funded under this part shall consist of a summer residential component and an academic year component.

(b) Summer residential components shall be of at least six weeks in duration and shall:

(1) Provide residential facilities, including room and board, on a postsecondary institution's campus;

(2) Provide for participants who have not completed secondary school basic skills development on an intensive basis in those academic subjects required for secondary school graduation and postsecondary school admission;

(3) Provide intensive postsecondary orientation and preparatory instruction for participants who have graduated from secondary school and have been accepted for enrollment at a postsecondary institution;

(4) Provide motivational activities through (i) individualized guidance and counseling, and (ii) such activities as field trips to museums, educational institutions, theaters, and movies that have as their purpose the intellectual and cultural development of such students;

(5) Provide a staff composed of (i) teachers from the target schools the participants are attending, (ii) postsecondary instructors from the host institution

V 40242 DEC 16 75 XUM

above the graduate assistant level, and (iii) other individuals with areas of specialization that will enhance the learning potential of participants;

(6) Provide tutor-counselors, that is, postsecondary school students with backgrounds similar to those of the participants, who have demonstrated success in postsecondary education and can serve as peer models for participants; and

(7) Provide such other services that have as their purpose the educational preparation of participants for postsecondary admissions, including assisting participants in the preparation of admissions and financial aid forms and ensuring that participants take national standardized tests required for postsecondary admission.

(c) Academic year components shall:

(1) Provide on a weekly basis one or more of the following activities and services to participants: (i) Individualized guidance, counseling and orientation in career opportunities and requirements for postsecondary education including preparation of admission and financial aid applications and preparation for national standardized tests required for postsecondary admission, (ii) academic instruction and tutoring within the context of courses being studied by the student at the secondary school, and (iii) activities such as field trips to museums, educational institutions, theaters, and movies that have as their purpose the intellectual and cultural development of such students;

(2) Provide an on-going evaluation of each participant's progress toward achieving adequate academic skills and motivation necessary for success in postsecondary education, including an assessment of each participant's realistic postsecondary educational opportunities;

(3) Provide such other activities that have as their purpose the educational preparation of participants for postsecondary admissions which have the specific approval of the Commissioner; and

(4) Provide for a staff that is adequate to perform such activities.

(d) A summer *residential* component may not be provided for projects for veterans and need not be provided if residential facilities are not available in the area to be served and the project can provide equivalent services and activities to participants that such students would receive from a summer residential component. Veteran's projects and projects which the Commissioner has determined need not provide residential facilities shall carry out those activities enumerated in subparagraphs (b)(2) through (b)(7) of this section.

(20 U.S.C. 1070d–1)

§ 155.6 Eligible applicants.

(a) The Commissioner is authorized to make grants to and contracts with institutions of higher education or combinations of such institutions and, in exceptional cases, secondary schools and secondary vocational schools.

(b) A combination of institutions receiving a grant or contract under this part shall vest responsibility for the administration of that grant or contract in one of its participating institutions or in a public or private agency established by the combination for that purpose.

(c) A secondary school or secondary vocational school may receive funds under this part in the event no other institution capable of providing such facilities is available in the geographic area to be served by the project and provided that the school has facilities for providing a residential summer component.

(20 U.S.C. 1070d–1)

§ 155.7 Applications.

(a) Applicants for grants or contracts under this part shall file an application with the Commissioner before the closing date for such applications established annually by the Commissioner. Such applications shall contain the following information and such other information as the Commissioner may from time to time prescribe:

(1) A documented description of the target schools in terms of the number of students from families whose annual adjusted family income is not more than the low-income level prescribed annually by the Commissioner, the number and percentage of their students who subsequently enroll in postsecondary education, the quality of the school's counseling program, the dropout rate for each school, and the number of students from low-income families with inadequate academic preparation but with academic potential for postsecondary education;

(2) The ethnic/racial composition of low-income youths enrolled in the target school and residing in the geographic area to be served;

(3) The number of participants to be selected and the grade levels to be served;

(4) A description of the applicant's plan for (i) the identification and selection of eligible participants from academic and non-academic sources, (ii) the assessment of participants in terms of their academic potential for postsecondary education and their academic and motivational needs at the time of entry into the project, (iii) the provision of career and academic counseling and guidance, (iv) the provision of academic, cultural and recreational services and activities, and (v) the evaluation of each participant's progress toward achieving the academic skills and motivation needed for success in postsecondary education;

(5) A description of the summer residential and academic year components; for applicant not proposing a summer residential component, the reasons for not conducting such a component and an explanation of how equivalent services will be provided;

(6) A description of (i) the project's staffing pattern including the professional requirements for each position and the duties to be performed by each staff member, and (ii) the plan for staff selection and in-service training;

(7) A description of the applicant's plan to (i) orient the target schools and postsecondary schools in the geographic area to be served to the goals of the Upward Bound project and (ii) utilize community and other resources to supplement authorized activities;

(8) A description of the applicant's plan for evaluating the effectiveness of the project;

(9) If the applicant has carried out a project that was not funded under the Upward Bound Program, the applicant shall provide a description of that project, including (i) the number of students served, (ii) the method used to select participants, (iii) the services offered, (iv) the number of such participants attaining a minimum of one year's growth in reading, communication skills, and mathematics, (v) the number of participants who gained admission to postsecondary institutions, and (vi) any evaluation reports made on that project; and

(10) A detailed budget.

(b) Where the applicant is a combination of institutions of higher education, the applicant shall describe the role and function that each member of the combination will play in the operation of the project, and shall include written commitments from each institution that it will perform the activities ascribed to it.

(c) Applications for veterans projects shall, in addition to the requirements set forth in paragraphs (a) and (b) of this section, provide a description of the educational services and activities already available for veterans residing in the target area who do not possess a high school equivalency certificate.

(d) Applications for national demonstration projects shall, in addition to the requirements set forth in paragraphs (a) and (b) of this section, detail the innovative and experimental approaches to be taken in the provision of project services and shall otherwise provide the information needed to determine whether the project satisfies the requirements of § 155.11.

(20 U.S.C. 1070d–1)

§ 155.8 Funding criteria.

(a) *Continuation awards.* Priority will be given to a request for funds for the continuation of a project that (1) was begun in a prior fiscal year and (2) was approved for a multi-year work period that has not expired. (continuation award)

(b) *Conditions for approval.* Requests for contribution awards will be approved only if,

(1) The need continues to exist for the services provided by the project;

(2) Satisfactory progress has been made in implementing the approved work plan and in achieving the project's goals and objectives, as indicated by site visits, progress, and other relevant data;

(3) The project continues to offer promise of success in enabling youths to enter postsecondary education with an adequate academic background;

(4) All required reports, including data collection reports, quarterly fiscal reports, and semi-annual and annual narrative reports, have been received and accepted by the Commissioner; and

(5) Funds are available to continue the project.

(c) *New awards.* Except as provided in paragraphs (a) and (b) of this section, the Commissioner will select applicants to be funded for new awards, including veterans awards, under this part on the basis of the criteria set forth in 45 CFR 100a.26(b), as well as the following additional criteria:

(1) The number of persons who would qualify to participate under this part who will be enrolled in the target schools or reside in the area to be served during the project period and who were enrolled in such schools or resided in such area for the three years preceding the year for which the application is submitted;

(2) The extent to which the applicant has successfully carried out a project that is comparable or identical to those authorized under this part;

(3) The extent to which the project will (i) generate academic skills and motivation that will enable the participants to gain admission to postsecondary educational institutions other than the institution administering the project and (ii) assist participants to attain a minimum of one year's growth, as measured by nationally standardized testing instruments stipulated in the application, in those academic subjects such as reading communication skills and writing which are essential for postsecondary education and in which participants are deficient;

(4) The comprehensiveness of the applicant's plan for (i) identifying and selecting eligible participants, (ii) assessing and documenting their educational needs and potential for postsecondary education through the use of nationally standardized tests and such other evaluative methods the applicant may choose to use, (iii) providing career and academic guidance and counseling, (iv) preparing and motivating project participants for admission to postsecondary institutions, and (v) assisting participants in applying for admission to postsecondary institutions which are appropriate for such participants' abilities and ambitions;

(5) The reasonableness of the allocation of resources among project activities;

(6) The extent to which the applicant has provided for the orientation of target school and applicant staff to the goals and objectives of the Upward Bound Program and has provided for the utilization of community and other resources to supplement authorized activities;

(7) The quality of the applicant's plan to evaluate project services in terms of increasing participants' performance levels, motivating participants to enroll in postsecondary educational programs and assisting them to obtain adequate financial aid; and

(8) The extent to which the proposed budget reflects the activities to be undertaken.

(d) Preference will be given to those applicants for new awards that propose to carry out a summer residential component.

(e) *National demonstration awards.* The Commissioner will select a limited number of applications to be funded as Upward Bound national demonstration projects on the basis of the criteria set forth in paragraph (c) and the following additional criteria:

(1) Whether the proposed project is national or inter-regional in scope and does not duplicate nor compete with existing regional or national programs nor consolidate existing regional or inter-regional educational activities under the aegis of a single agency or institution;

(2) Whether the proposal presents a clearly new or experimental technique or design for the provision of Upward Bound services for eligible participants;

(3) Whether the proposed activities and results can be readily replicated and utilized by other educational programs concerned with the provision of services for similar youths;

(4) Whether the proposed project will provide services not readily available on a local or regional basis for such youths; and

(5) Whether the proposed project will provide disadvantaged students a variety of educational opportunities and options for postsecondary education.

(20 U.S.C. 1070d–1)

§ 155.9 Program requirements.

(a) Each project funded under this part shall:

(1) Develop and utilize objective procedures to identify participants from a variety of sources and select eligible participants on the basis of a comprehensive needs assessment including standardized and other instruments which will diagnose specific areas of academic strengths and weaknesses;

(2) Set specific objectives, stated in quantifiable terms, that each participant shall attain in order to be able to secure admissions on a regular basis at an institution appropriate for the abilities and career ambitions of each student;

(3) Engage a project director with sufficient professional qualifications, administrative skills and a clear commitment to the goals of the program to serve in a full-time capacity for the summer residential component and in a full or part-time capacity for the academic year component;

(4) provide the project director with sufficient authority to conduct the project effectively and expend project funds as required;

(5) design and implement an evaluation mechanism to test the effectiveness of (i) project progress in meeting approved goals and objectives, (ii) project efforts in remedying academic deficiencies diagnosed when students initially entered the project, and (iii) project activities designed to effect other changes in the academic and personal skills or project participants which are necessary for success in postsecondary education;

(6) assure that all the facilities of the host institution, both academic and non-academic, will be made available to all project participants;

(7) utilize institutional and community resources to provide diagnostic health services to identify physical impediments to learning and to remedy those impediments;

(8) implement a plan for following participants through their postsecondary educational program; and

(9) make every effort (i) with regard to successful graduates from the project, to secure admissions, with adequate financial aid, to an institution of postsecondary education which is appropriate to such students' abilities and ambitions, or, (ii) in the event such graduates are unable to secure regular admissions at a postsecondary institution, to secure special review from the admissions and financial aid personnel of the host institution.

(b) [Reserved]

(20 U.S.C. 1070d–1)

§ 155.10 Veterans projects.

(a) The Commissioner may fund Upward Bound projects for veterans. Such projects shall:

(1) Provide basic skills development on an intensive basis to individual participants in those academic subjects required for the successful completion of a high school equivalency certification program;

(2) Provide supportive activities through (i) individualized guidance and counseling, (ii) liaison with personnel of the Veterans Administration and State veterans agencies with regard to educational benefits for participants, and (iii) assistance in gaining admission to postsecondary educational programs and in obtaining financial aid where necessary; and

(3) Engage (i) a full-time project director with sufficient administrative skills and professional qualifications to conduct a special educational program for veterans who will be provided sufficient latitude to conduct the project effectively and to expand project funds as required, and (ii) a staff, including tutoring personnel, that has adequate professional qualifications to teach equivalency programs and to carry out proposed activities and services.

(b) Veterans projects may not conduct a summer residential component nor may they pay stipends.

(c) Projects funded under this subpart must secure certification for the payment of veterans education benefits by appropriate State and Federal agencies prior to the beginning of educational activities.

(20 U.S.C. 1070d–1)

§ 155.11 National demonstration projects.

(a) The Commissioner may reserve funds to conduct innovative and experimental Upward Bound projects.

V 40 242 DEC 16 75 XUM

(b) National demonstration projects shall:

(1) Be national or inter-regional in scope; they may not duplicate nor compete with existing regional or national programs or consolidate existing regional or inter-regional educational activities under the aegis of a single agency or institution;

(2) Present a clearly new or experimental technique or design for the provision of Upward Bound services and activities for eligible participants;

(3) Be readily replicated and utilized by other educational programs concerned with the provision of services and activities for similar youths;

(4) Provide services not readily available on a local or regional basis for such youth; and

(5) Provide disadvantaged youth a variety of educational opportunities and options for postsecondary education.

(20 U.S.C. 1070d–1)

§ 155.12 Allowable costs—stipends.

(a) The Commissioner will pay those costs that are reasonably related to carrying out the project. Such costs may include:

(1) In-service training of project staff;

(2) The rental of space if space is not available at the sponsoring institution and if the space rented is not owned by the sponsoring institution;

(3) Room and board expenses for Upward Bound participants computed on a weekly basis if the expenses are consistent with those rates charged regularly enrolled students at the sponsoring institution during the summer session. In the event the host institution does not have a summer school operating at the same time as the Upward Bound project, room and board fees may be no higher than those fees charged regularly enrolled students during the academic year computed on a weekly basis. Room and board fees may be provided for the residential staff of the project only if the staff members are required to live in the dormitories with students;

(4) Student activity fees;

(5) Admission fees to educational activities, theaters, movies and other cultural events which have as their purpose the intellectual and cultural development of participants; and

(6) Entertainment costs for project sponsored banquets, social activities, and ceremonies during the summer component.

(b) Costs that may not be supported by funds under this part shall include:

(1) The construction, modification, or major repairs of buildings or the purchase of land or buildings;

(2) The duplication of services specifically available to students at the institution or through such local facilities as vocational rehabilitation centers, medical clinics, and social service organizations;

(3) Research;

(4) Tuition costs or instructional costs associated with courses carrying college credit;

(5) Purchase of any equipment unless it is demonstrated that purchase is less expensive than renting;

(6) Meals for staff except as provided in subparagraph (a)(3) of this section; and

(7) Clothing.

(c) Grantees under this part will be allowed indirect costs as authorized in accordance with item 4c, Appendix A, parts 100 thru 100d of the General Provisions for Office of Education Programs.

(d)(1) Projects shall provide stipends to all participants who are enrolled on a full-time basis in the summer component of an Upward Bound project. Such payments may not exceed a rate of $30 per month except in exceptional cases, as determined by the Commissioner;

(2) Stipends shall be paid to students who are in attendance during the summer component on a full-time basis; and

(3) Stipends may not be paid for the academic year component.

(20 U.S.C. 1070d–1)

§ 155.13 Salary and wage rates.

(a) The salaries paid to project staff under this part shall be comparable to the salaries paid to persons with similar positions within the sponsoring institution.

(b) The minimum rate of compensation that may be paid to project employees, including students, shall be the minimum wage required under any applicable Federal, State, or local laws.

(20 U.S.C. 1070d–1)

§ 155.14 Student records.

(a) Projects shall develop and utilize a data collection system which allows for accurate student accountability.

(b) To document the progress of each student participating in the project, student files shall include, but are not limited to, the following:

(1) Procedures used to select individual participants, including records of interviews;

(2) High school transcripts and all available test scores;

(3) Documents pertaining to student eligibility as defined in § 155.4;

(4) Diagnostic analysis of the student's academic strengths and weaknesses at the time of entry into the project, and the program support developed to improve the student's skills;

(5) Documentation of counseling activity, such as records, family contacts, career explorations, college visits, and referrals;

(6) Sequential activity reports that show continuous contacts with the student, the services provided, the measurements of progress, and other reports that relate to the academic and other types of assistance provided the student;

(7) A medical consent form signed by the student's parent(s) or guardian;

(8) Student health records which show medical or dental diagnostic services provided through the efforts of the project;

(9) Project efforts in assisting students in gaining admission to and financial assistance for attendance at postsecondary institutions;

(10) Project follow-up on students with particular emphasis on postsecondary enrollment and status;

(11) The recommendations made to the student upon the student's completion of the project regarding his educational and career potentials; and

(12) The reasons for a student's leaving the project if he left prior to enrollment in a postsecondary educational institution.

(20 U.S.C. 1070d–1)

§ 155.15 Travel.

In accordance with the cost principals set forth in Appendix C to parts 100 through 100d of this title, the following travel is authorized:

(a) Field trips for educational purposes which are in reasonable proximity to the project's regular location;

(b) Student travel to and from regularly schedule project activities;

(c) Staff travel to professional and eductional conferences specifically related to project development and to Office of Education-sponsored meetings when approved in writing by the Commissioner;

(d) Transportation costs for formal visits to the campus of the sponsoring institution for parents, foster parents, or legal guardians of Upward Bound students, and overnight accommodation costs for such persons when necessary because of distance;

(e) Other travel specifically approved by the Commissioner in writing and in advance of such travel.

(20 U.S.C. 1070d–1)

§ 155.16 Functional relationships and unification among Talent Search, Upward Bound, Special Services for Disadvantaged Students, and Educational Opportunity Centers.

In addition to the requirements set forth in 45 CFR 100a.275, if an applicant under this part also requests funds to carry out one or more of the following programs, Talent Search, Special Services for Disadvantaged Students, or Educational Opportunity Centers, the application must reflect the following:

(a) Provision for a single, unified administrative program operation;

(b) Provision for separate program identities, activities and budget;

(c) Consolidation of personnel and program functions to the fullest extent possible while still maintaining separate program identities; and

(d) Coordination and liaison with other Talent Search, Upward Bound, Special Services and Educational Opportunity Centers projects operating in close geographic proximity, including, where feasible, the sharing of facilities, staff, services and activities.

(20 U.S.C. 1070d–1; 1232c(b)(1))

[FR Doc.75–33700 Filed 12–15–75;8:45 am]

[45 CFR Part 157]

SPECIAL SERVICES FOR DISADVANTAGED STUDENTS

Notice of Proposed Rulemaking

In accordance with section 503 of the Education Amendments of 1972 (Pub. L. 92–318) and pursuant to the authority contained in Title IV–A–4 of the Higher Education Act of 1965, as amended (20 U.S.C. 1070d–1070d–1), the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to amend Chapter I of Title 45 of the Code of Federal Regulations by adding Part 157, which governs the administration of the Special Services for Disadvantaged Students Program, to read as set forth below.

1. *Program purposes.* The Special Services for Disadvantaged Students Program, authorized by section 417B of the Higher Education Act, is designed to assist students who, by reason of deprived educational, cultural, or economic background, or physical handicap, or limited English-speaking ability, are in need of remedial and other special services to initiate or complete their postsecondary educational program. Discretionary grants are made directly to post-secondary educational institutions to benefit students enrolled or accepted for enrollment at the beneficiary institution.

2. *Section 503 procedures and effect.* Section 503 of the Education Amendments of 1972 requires the Commissioner to study all rules, regulations, guidelines, or other published interpretations or orders issued by him or by the Secretary after June 30, 1965, in connection with, or affecting, the administration of Office of Educaiton programs; to report to the Committee on Labor and Public Welfare of the Senate and the Committee on Education and Labor of the House of Representatives concerning such study; and to publish in the FEDERAL REGISTER such rules, regulations, guidelines, interpretations, and orders, with an opportunity for public hearing on the matters so published. The regulations proposed below reflect the results of this study as it pertains to the Special Services for Disadvantaged Students Program. Upon publication of these proposed regulations in final form, after comments and a hearing, all preceding rules, regulations, guidelines, and other published interpretations and orders issued in connection with or affecting the Special Services for Disadvantaged Students Program will be superseded, effective 30 days after such publication.

3. *Effect of Office of Education general provisions regulations.* The proposed regulations do not include provisions relating to general fiscal and administrative matters which are covered in the overall Office of Education general provisions regulations (45 CFR 100a).

4. *Citations of legal authority.* As required by section 431(a) of the General Education Provisions Act (20 U.S.C. 1232(a)) and section 503 of the Education Amendments of 1972, a citation of statutory or other legal authority for each section of the regulations has been placed in parentheses on the line following the text of the section.

On occasion, a citation appears at the end of a subdivision of the section. In that case the citation is to all that appears in that section between the citation and the next preceding citation. When the citation appears only at the end of the section, it applies to the entire section.

5. *Opportunity for public hearing.* Pursuant to Section 503(c) of the Education Amendments of 1972, the Commissioner will provide interested parties an opportunity for a public hearing on these regulations. Hearings will be held in the following places on the dates below and will commence at 10:00 a.m. on each of the days specified.

a. Washington, D.C.

Auditorium—Regional Office Building Three, 7th and D Streets, S.W., Washington, D.C. 20202

Public hearing will be held on January 12, 1976.

b. Dallas, Texas

Room 1130–1132, 1200 Main Tower Building, Dallas, Texas 75202

Public hearing will be held on January 12, 1976.

c. San Francisco, California

Room 15018, Federal Office Building, 450 Golden Gate Avenue, San Francisco, California 94102

Public hearing will be held on January 12, 1976.

The purpose of the hearing is to receive comments and suggestions on the published materials. Parties interested in attending the hearing should notify the Office of Education, 400 Maryland Avenue, S.W., Room 2085, FOB–6, Washington, D.C. 20202, Attention: Chairman, Office of Education Task Force on Section 503, and are urged to submit a written copy of their comments with such notification. Each party planning to make oral comments at the hearing is urged to limit his or her presentation to a maximum of fifteen minutes.

Written comments and recommendations may also be sent to the above address. All relevant material received on or before December 29, 1975, will be considered. Comments and suggestions submitted in writing will be available for review in the above office between the hours of 9:00 a.m. and 4:30 p.m. Monday through Friday of each week.

(Catalog of Federal Domestic Assistance Program Number 13.482, Special Services for Disadvantaged Students)

Dated: October 10, 1975.

T. H. BELL,
U.S. Commissioner of Education.

Approved: December 5, 1975.

DAVID MATHEWS,
Secretary of Health, Education, and Welfare

Chapter I, Title 45 of the Code of Federal Regulations is amended by adding a new part, Part 157, to read as follows:

PART 157—SPECIAL SERVICES FOR DISADVANTAGED STUDENTS

Sec.
157.1 Scope and purpose—general provisions regulations.
157.2 Definitions.
157.3 Eligible project participants.
157.4 Eligible applicants.
157.5 Applications.
157.6 Funding criteria.
157.7 Program requirements.
157.8 Bilingual educational projects.
157.9 National demonstration projects.
157.10 Allowable costs.
157.11 Salary and wage rates.
157.12 Student records.
157.13 Travel.
159.14 Functional relationships and unification among Talent Search, Upward Bound, Special Services and Educational Opportunity Centers.

AUTHORITY: Sec. 417A–417B, Title IV of the Higher Education Act of 1965 as amended by sec. 131(b) of Title I, Pub. L. 92–318, 86 Stat. 258–259 and 88 Stat. 603–604 (20 U.S.C. 1070d—1070d–1), unless otherwise noted.

§ 157.1 Scope and purpose—general provisions regulations.

(a) The regulations in this part govern the administration of the Special Services for Disadvantaged Students (Special Services) Program. This program is designed to provide remedial and other special services for students with academic potential who (1) are enrolled or accepted for enrollment at an institution of higher education which is a beneficiary of a grant or contract made under this part and (2) by reason of deprived educational, cultural, or economic background, or physical handicap, or limited English-speaking ability, are in need of such services to assist them to initiate, continue, or resume their postsecondary education. The goal of the program and projects under this part shall be to increase the retention and graduation rates of such students.

(b) Assistance provided under this part is subject to applicable provisions contained in subchapter A of this chapter relating to fiscal, administrative, and other matters (General Provisions for Office of Education Programs—45 CFR 100a).

(20 U.S.C. 1070d–1070d–1)

§ 157.2 Definitions.

For the purpose of this part:

(a) "Academic potential" means a capacity for success in postsecondary education which is documented either by traditional measurements, including standardized achievement tests, or other verifiable indicators.

(20 U.S.C. 1070d–1)

(b) "Act" means the Higher Education Act of 1965, as amended.

(20 U.S.C. 1001 et seq.)

(c) "Bilingual educational teaching, guidance, and counseling" means teaching, guidance, and counseling in two languages, one of which is English.

(20 U.S.C. 1070d–1)

V 40 242 DEC 16 75 XUM

(d) "Combinations of institutions of higher education" means (1) a group of institutions of higher education that have entered into a cooperative arrangement for the purpose (although not necessarily for the exclusive purpose) of carrying out a project or (2) a public or private agency, organization, or institution designed or created by a group of institutions of higher education for the purpose (although not necessarily for the exclusive purpose) of carrying out a project on their behalf.

(20 U.S.C. 1141(j))

(e) "Deprived cultural background," with regard to a student, means a student's lack of exposure to, or insufficient knowledge of, those values of society which are necessary to succeed in postsecondary education.

(f) "Deprived educational background," with regard to a student, means that a student attended a secondary school which did not adequately prepare him to participate successfully in postsecondary education.

(20 U.S.C. 1070d–1)

(g) "Institution of higher education" means an educational institution in any State which (1) admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate, (2) is legally authorized within such State to provide a program of education beyond secondary education, (3) provides an educational program for which it awards a bachelor's degree or provides not less than a 2-year program which is acceptable for full credit toward such a degree, (4) is a public or other nonprofit institution, and (5) is accredited by a nationally recognized accrediting agency or association or, if not so accredited, (i) is an institution with respect to which the Commissioner has determined that there is satisfactory assurance, considering the resources available to the institution, the period of time, if any, during which it has operated, the effort it is making to meet accreditation standards, and the purpose for which this determination is being made, that the institution will meet the accreditation standards of such an agency or association within a reasonable time, or (ii) is an institution whose credits are accepted on transfer, by not less than three institutions which are so accredited, for credit on the same basis as if transferred from an institution so accredited. Such term also includes any school which provides not less than a 1-year program of training to prepare students for gainful employment in a recognized occupation and which meets the provision of subparagraphs (1), (2), (4), and (5) of this paragraph unless the school is a public institution, in which case it may also be accredited by the State agency in that State, which has been listed by the Commissioner as a reliable authority as to the quality of public postsecondary vocational education in that State, and any proprietary institution of higher education, as defined in paragraph (j), which has an agreement with the Commissioner containing such terms and conditions as the Commissioner determines to be necessary to insure that the availability of assistance to students at the school under this title has not resulted, and will not result, in an increase in the tuition, fees, or other charges to such students,

(20 U.S.C. 1141(a); 1088(b)(3))

(h) "Limited English-speaking ability" means a command of the English language that is inadequate for success in education beyond high school.

(i) "Physically handicapped students" means those students who, because of their physical disabilities, need specifically designed instructional materials or programs, modified physical facilities, or related services to participate fully in the experience and opportunities offered by postsecondary institutions. Physical disabilities include but are not limited to:

(1) Legal blindness,
(2) Deafness,
(3) Cerebral palsy,
(4) Epilepsy,
(5) Mobility difficulties due to use of appliances or prosthetics,
(6) Quadriplegia, paraplegia, or hemiplegia.
(7) Severe heart condition, and
(8) Multiple disabilities or any combination of the above conditions.

(20 U.S.C. 1070d–1)

(j) "Proprietary institution of higher education" means a school (1) which provides not less than a 6-month program of training to prepare students for gainful employment in a recognized occupation, (2) which admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate, (3) which is legally authorized by the State in which it is located to provide a program of education beyond secondary education, (4) which is accredited by a nationally recognized accrediting agency or association approved by the Commissioner for this purpose, (5) which is not a public or other nonprofit institution, and (6) which has been in existence for at least two years.

(20 U.S.C. 1088(b)(3))

(k) "State" means, in addition to the several States of the Union, the Commonwealth of Puerto Rico, the District of Columbia, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands.

(20 U.S.C. 1141(b); 1088(a))

(20 U.S.C. 1070d–1070d–1, unless otherwise noted)

§ 157.3 Eligible project participants.

(a) A student is eligible to participate in a program or project authorized under this part if such student:

(1) Is enrolled or accepted for enrollment at an institution which is the beneficiary of a grant or contract made under this part;

(2) Is a citizen or national of the U.S., is in the U.S. for other than a temporary purpose and is or intends to become a permanent resident thereof, or is a permanent resident of the Trust Territory of the Pacific Islands;

(3) Is an individual with academic potential who demonstrates a need for the remedial and special services authorized under this part as a result of (i) a deprived educational, cultural or economic background or (ii) physical handicap or (iii) a limited English-speaking ability; and

(4) Comes from a family whose annual adjusted family income is not more than the low-income level prescribed annually by the Commissioner unless that student is physically handicapped or is of limited English-speaking ability and is in need of bilingual education, teaching, guidance and counseling in order to successfully pursue postsecondary education.

(b) Students of limited English-speaking ability or with physical handicaps may be served under this part without regard to their families' adjusted family income.

(20 U.S.C. 1070d–1)

§ 157.4 Eligible applicant.

(a) The Commissioner is authorized to make grants to and contracts with institutions of higher education and combinations of such institutions.

(b) A combination of institutions receiving a grant or contract under this part shall vest responsibility for administering the project in one of the participating institutions or in an agency established by the institutions for carrying out the project on their behalf.

(20 U.S.C 1070d–1)

§ 157.5 Applications.

(a) Applicants for grants or contracts under this part shall file an application with the Commissioner before the closing date for such applications established annually by the Commissioner. Such applications shall contain the following information and such other information as the Commissioner may from time to time prescribe:

(1) The number of low-income students, physically handicapped students and students of limited English-speaking ability enrolled or accepted for enrollment at the institution who are eligible for program services and a description of the ethnic/racial background of the students to be served by the project;

(2) A description of the methods by which project participants will be selected and their needs assessed;

(3) A description of the comprehensive services that will be provided to meet the students' needs;

(4) A description of the academic and cultural problems these students have at the time of entry into the institution and continue to encounter while pursuing their education at the institution;

(5) The amount and type of student financial aid available at the applicant institution that can be awarded to participants;

(6) A description of the administrative and academic policies that bear on the ability of the project participants to graduate from the institution;

(7) A description of (i) the project's staffing pattern, including the professional requirements and duties of each staff member, and (ii) its plan for staff selection and in-service training;

(8) If the applicant has carried out a project that was not funded under this part but was comparable or identical to one authorized under this part, a description of that project, including the number of students served, the methods used to select students, the services offered, the number of such students who graduated from the institution, and any evaluation reports made on that project;

(9) A description of the manner in which the applicant will orient the institutional community to the goals and objectives of the Special Services Program and a description of the community resources available to the project and the manner in which those resources will be used;

(10) A description of the applicant's plan for evaluating the effectiveness of the project; and

(11) The proposed budget.

(b) Where the applicant is a combination of institutions of higher education, the applicant shall describe the role and function that each member of the combination will play in the operation of the project, and shall include written commitments from each institution that it will perform the activities ascribed to it.

(c) Applications for bilingual educational projects shall provide the information necessary to determine whether the proposed project satisfies the requirements of § 157.8.

(d) Applications for national demonstration projects shall detail the innovative and experimental approaches to be taken in the provision of project services and shall otherwise provide the information needed to determine whether the proposed project satisfies the requirements of § 157.9.

(20 U.S.C. 1070d–1)

§ 157.6 Funding criteria.

(a) *Continuation awards.* Priority will be given to a request for funds for the continuation of a project that (1) was begun in a prior fiscal year and (2) was approved for a multi-year work period that has not expired. (continuation award)

(b) *Conditions for approval.* Requests for continuation awards will be approved only if (1) the need continues to exist for the services provided by the project;

(2) Satisfactory progress has been made in implementing the approved work plan and in achieving the project's goals and objectives, as indicated by site visits, progress reports, and other relevant data;

(3) The project continues to offer promise of success in enabling students to complete their postsecondary education;

(4) All required reports, including data collection reports, quarterly fiscal reports, and semi-annual and annual narrative reports have been received and accepted by the Commissioner; and

(5) Funds are available to continue the project.

(c) *New awards.* Except as provided in paragraphs (a) and (b) of this section, the Commissioner will select applicants to be funded under this part on the basis of the criteria set forth in 45 CFR 100a.26(b), as well as the following additional criteria:

(1) The number of students enrolled at the institution who are eligible, by reason of deprived economic, cultural, or academic backgrounds, or physical handicaps, or limited English-speaking ability, to participate in the project;

(2) The degree to which student financial assistance at the applicant institution will be used to meet the needs of students who will be participating in the project;

(3) The degree to which administrative and academic policies have as their purpose the maximization of a student's chances for graduating from the host institution;

(4) The comprehensiveness of the applicant's plan for (i) selecting students to be served by the project, (ii) conducting an assessment of supportive services needed by the students, and (iii) providing the services;

(5) The extent to which the applicant proposes to orient the institutional community to the goals and objectives of the Special Services Program and utilize institutional and community resources available to the project;

(6) The quality of the applicant's plan to evaluate the project in terms of the effects of project services on the progress made by students participating in the project and the extent to which project participants graduate from the institution;

(7) The reasonableness of the allocation of resources among the project activities;

(8) The extent to which the proposed budget reflects the activities to be undertaken; and

(9) The extent to which the applicant has successfully carried out a project that is comparable or identical to one authorized under this part.

(d) *National demonstration awards.* The Commissioner will select a limited number of applications to be funded as Special Services national demonstration projects on the basis of the criteria set forth in paragraph (c) of this section and the following additional criteria:

(1) Whether the proposed project is national or interregional in scope and does not duplicate or compete with existing regional or national programs or consolidate existing regional or interregional educational activities under the aegis of a single agency or institution;

(2) Whether the proposal presents a clearly new or experimental technique or design for the provision of special services for students from deprived educational, cultural, or economic backgrounds, or for students with physical disabilities, or for students of limited English-speaking ability enrolled at the institution which is the beneficiary of the award;

(3) Whether the applicant's proposed activities and expected results can be readily replicated and utilized by other educational programs concerned with the provision of special supportive services for similar students;

(4) Whether the proposed project will provide services not readily available on a local or regional basis for participants; and

(5) Whether the proposed project will provide disadvantaged students a variety of educational opportunities and career options.

(20 U.S.C. 1070d–1)

§ 157.7 Program requirements.

(a) Each project funded under this part shall:

(1) Develop and utilize procedures to identify and select eligible students. Such procedures shall include a comprehensive needs assessment of the individual student to determine those academic and other educational deficiencies which need to be corrected to enable that student to graduate;

(2) Provide career and academic guidance and counseling and, within the professional and economic constraints of the project, personal counseling;

(3) Provide remedial and special classes, tutoring, and such other activities that will enable project participants to compete with sufficient academic skills at the institution, without creating a long-range dependency on the project;

(4) Develop and utilize special curricular and instructional methods which will enable students to complete required and prerequisite courses in a reasonable period of time; and

(5) Document the effects of project activities on students' performance and progress while they are participating in the project.

(b) Each institution receiving funds under this part shall:

(1) Obtain and provide adequate financial aid for students enrolled in the project to enable them to continue their academic program;

(2) Retain such students at the institution for a period of time sufficient to enable them to adjust to and participate meaningfully in the academic program at the institution (a minimum of two years for a 4-year program, one year for a 2-year program);

(3) Make all resources and facilities which are available to regular students of the institution available to project participants;

(4) Place the project within an integral department of the institution's academic structure;

(5) Locate the project in an area that is accessible to the students to be served;

(6) Engage (i) a full-time project director with sufficient administrative skills and a clear commitment to the goals of the program, who will be provided sufficient latitude to conduct the

V 40 242 DEC 16 75 XUM

project effectively and expend project funds, and (ii) a staff that has adequate professional qualifications and commitment to carry out the proposed activities and services;

(7) Utilize institutional facilities and, when possible, staff, to provide pre-service and in-service training for the project staff; and

(8) Develop an administrative and faculty commitment to the goals of the Special Services Program.

(20 U.S.C. 1070d–1)

§ 157.8 Bilingual educational projects.

(a) Projects serving students of limited English-speaking ability shall provide special instruction in the use of the English language to such students, either through the project or the institution's regular program of instruction.

(b) Projects serving only students of limited English-speaking ability, or projects with a specific component to serve such students, shall provide bilingual personal, career, and academic counseling and guidance; bilingual remedial and special classes that enable students to complete required and prerequisite courses; bilingual tutorial services; and other bilingual supportive services necessary to meet the educational needs of the participants.

(c) Projects serving only students with limited English-speaking ability or projects with a specific component serving such students shall select each student for participation in the project on the basis of the degree of difficulty that the student has in speaking and understanding instructions in the English language, if the project cannot serve all such students who are enrolled or accepted for enrollment at the institution.

(20 U.S.C. 1070d–1)

§ 157.9 National demonstration projects.

(a) The Commissioner may reserve funds to conduct national demonstration projects which will involve innovative and experimental approaches to the provision of remedial and other special services to project participants.

(b) National demonstration projects shall:

(1) Be national or inter-regional in scope; they may not duplicate nor compete with existing regional or national programs nor consolidate existing regional or inter-regional educational activities under the aegis of a single agency or institution;

(2) Present a clearly new or experimental technique or design for the provision of special services for students from deprived educational, cultural, or economic backgrounds, or for students with physical disabilities, or for students of limited English-speaking ability enrolled at the institution which is the beneficiary of the award;

(3) Be readily replicated and utilized by other educational programs concerned with the provision of special supportive services for similar students;

(4) Provide services not readily available on a local or regional basis for participants; and

(5) Provide disadvantaged students a variety of educational opportunities and career options.

(20 U.S.C. 1070d–1)

§ 157.10 Allowable costs.

(a) The Commissioner will pay for those costs that are reasonably related to the operation of a project. Such costs may include the following:

(1) Remedial and special classes if such classes are limited to project participants and the grantee institution does not provide such services as part of its program of instruction;

(2) Courses in English language instruction for students of limited English-speaking ability if the institution does not provide such instruction as part of its program of instruction and such instruction is limited to project participants; and

(3) In-service training of project staff.

(b) Costs that may not be charged against the grant include the following:

(1) The costs involved in the recruitment of students for enrollment at the grantee institution;

(2) The construction or purchase of new buildings and the extensive modification or major repair of existing buildings;

(3) The purchase of major equipment;

(4) The payment of tuition, stipends, or any other form of student financial support;

(5) Research; and

(6) Activities of a recreational or cultural nature that are not directly related to gaining proficiency in a required academic subject.

(c) Grantees under this part will be allowed indirect cost as authorized in accordance with item 4c, Appendix A, parts 100 thru 100d of the General Provisions for Office of Education Programs.

(20 U.S.C. 1070d–1)

§ 157.11 Salary and wage rates.

(a) The salaries paid to project staff under this part shall be comparable to the salaries paid to persons with similar positions within the grantee institution.

(b) The minimum rate of compensation that may be paid to project employees, including sutdents, shall be the minimum wage required to be paid by the institution under applicable Federal, State, or local law.

(20 U.S.C. 1070d–1)

§ 157.12 Student records.

(a) Projects shall develop and utilize a data collection system which allows for accurate student accountability.

(b) To document the progress of each student participating in the project, student files shall include, but are not limited to, the following:

(1) Procedures used to select individual participants;

(2) High school transcripts and all available test scores;

(3) Documents supporting student's eligibility as defined in § 157.3;

(4) Diagnostic analysis of the student's academic strengths and weaknesses and the program support developed to improve the student's skills;

(5) Documentation of counseling activity, such as family contacts, career explorations, referrals;

(6) Sequential activity reports that show continuous contacts with the student, the services provided, the measurements of progress, and other reports that relate to the academic and other types of assistance provided the student;

(7) A summary at the end of each academic term of credit-hours attempted and earned, grade point average, credit hours earned toward graduation, and courses dropped and the reason for dropping them;

(8) Documentation of an exit interview which shall include, but not be limited to (i) the reason for student's leaving the project, (ii) a permanent mailing address, and (iii) the recommendations made to the student upon the student's completion of the project regarding his educational and career potentials.

(20 U.S.C. 1070d–1)

§ 157.13 Travel.

In accordance with the cost principals set forth in Appendix C to parts 100 through 100d of this title, the following travel is authorized:

(a) Transportation of students to and from educational activities sponsored by the project and approved in writing by the Commissioner;

(b) Project staff travel to professional and educational conferences specifically related to project development and to Office of Education sponsored meetings, when approved by the Commissioner;

(c) Other travel specifically approved by the Commissioner in writing and in advance of such travel.

(20 U.S.C. 1070d–1)

§ 157.14 Functional relationship and unification among Talent Search, Upward Bound, Special Services for Disadvantaged Students, and Educational Opportunity Centers.

In addition to the requirements set forth in 45 CFR 100a.275, when an applicant under this part also requests funds to carry out one or more of the following programs, Talent Search, Upward Bound, or Educational Opportunity Centers, the application must reflect the following:

(a) Provisions for a single unified administrative program operation;

(b) Provision for separate program identities, activities, and budget;

(c) Consolidation of personnel and program functions to the fullest extent possible while still maintaining separate program identities; and

(d) Coordination and liaison with other Talent Search, Upward Bound, Special Services and Educational Opportunity Centers operating in close geographic proximity, including, where feasible, the sharing of facilities, staff, services and activities.

(20 U.S.C. 1070d–1; 1232c(b)(1))

[FR Doc.75-33701 Filed 12-15-75;8:45 am]

[45 CFR Part 159]

TALENT SEARCH

Notice of Proposed Rulemaking

In accordance with section 503 of the Education Amendments of 1972 (Pub. L. 92-318) and pursuant to the authority contained in Title IV-A-4 of the Higher Education Act of 1965, as amended, (20 U.S.C. 1070d–1070d–1), the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to amend Chapter I of Title 45 of the Code of Federal Regulations by adding Part 159, which governs the administration of the Talent Search Program, to read as set forth below.

1. *Program purpose.* The Talent Search Program, authorized by section 417B of the Higher Education Act, is designed to identify qualified youths of financial or cultural need with an exceptional potential for postsecondary educational training and encourage them to complete secondary school and undertake postsecondary educational training, publicize existing forms of student financial aid, and encourage secondary school or college dropouts of demonstrated aptitude to reenter educational programs, including postsecondary school programs.

2. *Section 503 procedures and effect.* Section 503 of the Education Amendments of 1972 requires the Commissioner to study all rules, regulations, guidelines, or other published interpretations or orders issued by him or by the Secretary after June 30, 1965, in connection with, or affecting, the administration of Office of Education programs; to report to the Committee on Labor and Public Welfare of the Senate and the Committee on Education and Labor of the House of Representatives concerning such study; and to publish in the FEDERAL REGISTER such rules, regulations, guidelines, interpretations, and orders, with an opportunity for public hearing on the matters so published. The regulations proposed below reflect the results of this study as it pertains to the Talent Search Program. Upon publication of the proposed regulations in final form, after comments and a hearing, all preceding rules, regulations, guidelines, and other published interpretations and orders issued in connection with or affecting the Talent Search Program will be superseded, effective 30 days after such publication.

3. *Effect of Office of Education general provisions regulations.* The proposed regulations do not include provisions relating to general fiscal and administrative matters which are covered in the overall Office of Education general provisions regulations (45 CFR 100a).

4. *Citations of legal autohrity.* As required by section 431(a) of the General Education Provisions Act (20 U.S.C. 1232(a)) and section 503 of the Education Amendments of 1972, a citation of statutory or other legal authority for each section of the regulations has been placed in parentheses on the line following the text of the section.

On occasion, a citation appears at the end of a subdivision of the section. In that case the citation is to all that appears in that section between the citation and the next preceding citation. When the citation appears only at the end of the section, it applies to the entire section.

5. *Opportunity for public hearing.* Pursuant to Section 503(c) of the Education Amendments of 1972, the Commissioner will provide interested parties an opportunity for a public hearing on these regulations. Hearings will be held in the following places on the dates below and will commence at 10:00 a.m. on each of the days specified.

a. Washington, D.C.

Auditorium—Regional Office Building Three, 7th and D Streets SW., Washington, D.C. 20202.

Public hearing will be held on January 12, 1976.

b. Dallas, Texas

Room 1130–1132, 1200 Main Tower Building, Dallas, Texas 75202.

Public hearing will be held on January 12, 1976.

c. San Francisco, California

Room 15018, Federal Office Building, 450 Golden Gate Avenue, San Francisco, California 94102.

Public hearing will be held on January 12, 1976.

The purpose of the hearing is to receive comments and suggestions on the published materials. Parties interested in attending the hearing should notify the Office of Education, 400 Maryland Avenue SW., Room 2085, Fob 6, Washington, D.C. 20202, Attention: Chairman, Office of Education Task Force on Section 503, and are urged to submit a written copy of their comments with such notification. Each party planning to make oral comments at the hearing is urged to limit his or her presentation to a maximum of fifteen minutes.

Written comments and recommendations may also be sent to the above address. All relevant material received prior to the thirtieth day from the date these regulations are published in the FEDERAL REGISTER will be considered. Comments and suggestions submitted in writing will be available for review in the above office between the hours of 9:00 a.m. and 4:30 p.m., Monday through Friday of each week.

(Catalog of Federal Domestic Assistance Number 13.488, Talent Search)

Dated: October 10, 1975.

T. H. BELL,
U.S. Commissioner of Education.

Approved: December 5, 1975.

DAVID MATHEWS,
Secretary of Health, Education, and Welfare.

Chapter I of Title 45 of the Code of Federal Regulations is amended by adding a new part, Part 159, to read as follows:

PART 159—TALENT SEARCH PROGRAMS

Sec.
159.1 Scope and purpose-general provisions regulations.
159.2 Definitions.
159.3 Project setting-target area.
159.4 Eligible project participants.
159.5 Eligible applicants.
159.6 Applications.
159.7 Funding criteria.
159.8 Project activities and services-project requirements.
159.9 National demonstration projects.
159.10 Allowable costs.
159.11 Salary and wage rates.
159.12 Youth records.
159.13 Travel.
159.14 Functional relationships and unification among Talent Search, Upward Bound, Special Services for Disadvantaged Students, and Educational Opportunity Centers.

AUTHORITY: Sec. 417A–417B, Title IV of the Higher Education Act of 1965 as amended by sec. 131(b), Title I, Pub. L. 92-318, 86 Stat. 258–259 (20 U.S.C. 1070d–1070d–1), unless otherwise noted.

§ 159.1 Scope and purpose—general provisions regulations.

(a) The regulations in this part govern the administration of the Talent Search Program. This program is designed to (1) identify youths of financial or cultural need with an exceptional potential for postsecondary educational training and encourage them to complete secondary school and undertake postsecondary educational training, (2) publicize existing forms of student financial aid, and (3) encourage secondary school or college dropouts of demonstrated aptitude to reenter educational programs, including postsecondary school programs. The goal of the projects funded under this part shall be to increase the rate at which youths of financial or cultural need complete secondary school and enroll, with adequate financial aid, in postsecondary educational programs.

(b) Assistance provided under this part is subject to applicable provisions contained in subchapter A of this chapter relating to fiscal, administrative, and other matters (General Provisions for Office of Education Programs—45 CFR 100a).

(20 U.S.C. 1070d—1070d–1)

§ 159.2 Definitions.

For the purpose of this part: (a) "Act" means the Higher Education Act of 1965, as amended.

(20 U.S.C. 1001 et seq.)

(b) "Combination of institutions of higher education" means (1) a group of institutions of higher education that have entered into a cooperative arrangement for the purpose (although not necessarily for the exclusive purpose) of carrying out a Talent Search project or (2) a public or private agency, organization or

V 40 242 DEC 16 75 XUM

institution designated or created by a group of institutions of higher education for the purpose (although not necessarily for the exclusive purpose) of carrying out a Talent Search project on their behalf.

(20 U.S.C. 1141(j))

(c) "Cultural need" means with regard to a youth the lack of exposure to or insufficient knowledge of the values of society which are necessary for success in postsecondary education.

(20 U.S.C. 1070d–1)

(d) "Demonstrated aptitude" means with regard to secondary and postsecondary dropouts a documented competence in those skills necessary to enter, reenter or complete postsecondary education.

(20 U.S.C. 1070d–1)

(e) "Exceptional potential" means a capacity for success in postsecondary education which is documented either by traditional measurements, including standardized achievement tests, or other verifiable indicators;

(20 U.S.C. 1070d–1)

(f) "Institution of higher education" means an educational institution in any State which (1) admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate, (2) is legally authorized within such State to provide a program of education beyond secondary education, (3) provides an educational program for which it awards a bachelor's degree or provides not less than a 2-year program which is acceptable for full credit toward such a degree, (4) is a public or other nonprofit institution, and (5) is accredited by a nationally recognized accrediting agency or association or, if not so accredited, (i) is an institution with respect to which the Commissioner has determined that there is satisfactory assurance, considering the resources available to the institution, the period of time, if any, during which it has operated, the effort it is making to meet accreditation standards, and the purpose for which this determination is being made, that the institution will meet the accreditation standards of such an agency or association within a reasonable time, or (ii) is an institution whose credits are accepted on transfer, by not less than three institutions which are so accredited for credit on the same basis as if transferred from an institution so accredited. Such term also includes any school which provides not less than a 1-year program of training to prepare students for gainful employment in a recognized occupation and which meets the provision of subparagraphs (1), (2), (4), and (5) of this paragraph, unless the school is a public institution, in which case it may also be accredited by the State agency in that State which has been listed by the Commissioner as a reliable authority as to the quality of public postsecondary vocational education in that State, and any proprietary institution of higher education as defined in paragraph (g) of this section, which has an agreement with the Commissioner containing such terms and conditions as the Commissioner determines to be necessary to insure that the availability of assistance to students at the school under this part has not resulted, and will not result, in an increase in the tuition, fees, or other charges to such students.

(20 U.S.C. 1141(a); 20 U.S.C. 1088(b)(3))

(g) "Proprietary institution of higher education" means a school which (1) provides not less than a 6-month program of training to prepare students for gainful employment in a recognized occupation, (2) admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate, (3) is legally authorized by the State in which it is located to provide a program of education beyond secondary education, (4) is accredited by a nationally recognized accrediting agency or association approved by the Commissioner for this purpose, (5) is not a public or other nonprofit institution, and (6) has been in existence for at least two years.

(20 U.S.C. 1088(b)(3))

(h) "Secondary school" means a school which provides secondary education as determined under State law, except that it does not include any education provided beyond grade 12.

(20 U.S.C. 1141(d))

(i) "State" means, in addition to the several States of the Union, the Commonwealth of Puerto Rico, the District of Columbia, Guam, American Samoa, the U.S. Virgin Islands, and the Trust Territory of the Pacific Islands.

(20 U.S.C. 1141(b); 1088(a))

(j) "Veteran" means a person who served in the active military, naval, or air service of the United States, and who was discharged or released therefrom under conditions other than dishonorable.

(38 U.S.C. 101(2))

(k) "Youth" means (i) a veteran or (ii) a person between the ages of 15 to 22.

(20 U.S.C. 1070d–1070d–1, unless otherwise noted)

§ 159.3 Project setting-target area.

Talent Search projects, except national demonstration projects, shall provide their services to qualified youths residing or attending school in a discrete geographic area. (target area) A target area is characterized by a large number of families whose annual adjusted family income is not more than the low-income level prescribed annually by the Commissioner, a large number of youth from low-income families, a high secondary school dropout rate, and a low level of postsecondary attendance.

(20 U.S.C. 1070d–1)

§ 159.4 Eligible project participants.

A youth is eligible to receive services under this part if he: (a) Is a citizen or national of the United States, or is in the United States for other than a temporary purpose, and is, or intends to become a permanent resident thereof, or is a permanent resident of the Trust Territory of the Pacific Islands;

(b) Comes from a family whose annual adjusted family income is not more than the low-income level prescribed annually by the Commissioner;

(c) Has "exceptional potential" for success in postsecondary education or, in the case of secondary or postsecondary school dropouts, a "demonstrated aptitude" for reentry into secondary or postsecondary educational programs;

(d) Is of financial or cultural need; and

(e) Is in need of (i) guidance and counseling to complete secondary school, (ii) information and counseling on postsecondary educational opportunities, (iii) assistance in gaining admisson or readmission to postsecondary educational institutions, or (iv) assistance in applying for financial aid to attend such institutions.

(20 U.S.C. 1070d–1)

§ 159.5 Eligible applicants.

(a) The Commissioner may make grants to and contracts with the following agencies, institutions, and organizations to carry out Talent Search projects: (1) Institutions of higher education, including institutions with vocational and career education programs;

(2) Combinations of institutions of higher education;

(3) Public and private agencies and organizations (including professional and scholarly organizations); and

(4) In exceptional cases, secondary schools and secondary vocational schools, if there are no institutions of higher education or public or private agencies within a reasonable geographic distance of such secondary or vocational school providing educational services similar to the services authorized under this part.

(b) A combination of institutions receiving a grant or contract under this part shall vest responsibility for the administration of that grant or contract in one of its participating institutions or in a public or private agency established by the combination for that purpose.

(20 U.S.C. 1070d–1)

§ 159.6 Applications.

(a) Applicants for grants or contracts under this part shall file an application with the Commissioner before the closing date established annually by the Commissioner, and shall provide the following information and such other information as the Commissioner may from time to time prescribe: (1) The geographic area to be served (target area);

(2) A documented description of the target area in terms of (i) the income level of the area residents, the number and percentage of families in the area whose annual adjusted family income is not more than the low-income level prescribed annually by the Commissioner, (ii) the number and percentage of youths from low-income families residing or attending school in the area, (iii) the number and percentage of dropouts from secondary schools in the area for the three years preceding the year for which the application is submitted, and (iv) the number and percentage of youths who have attended school, or are residing, in the area and who have entered postsecondary institutions during the three years preceding the year for which the application is submitted;

(3) A description of the individual secondary schools in the target area including (i) for the three years preceding the year for which the application is being submitted, the dropout rate for each school, and the number and percentage of students from each school who subsequently enroll in postsecondary institutions, (ii) the number of students in the school from low-income families; and (iii) the quality of the school's counseling program;

(4) The ethnic/racial composition of youth from low-income families attending secondary school, or residing, in the target area;

(5) The number of youths of financial or cultural need who reside or attend school in the target area who have an exceptional potential or a demonstrated aptitude for postsecondary education and are in need of project services to complete secondary school and enroll in postsecondary institutions;

(6) A projection of the effect of the project in the target area on the secondary school dropout rate, the rate of postsecondary school admissions and the number of secondary and postsecondary dropouts who reenter educational programs;

(7) A description of the applicant's plan for (i) the identification and selection of eligible participants, (ii) the assessment and documentation of their potential for postsecondary education, (iii) the provision of career and academic counseling and guidance, (iv) the dissemination of information on student financial aid in the target area, and (v) the provision of assistance to project participants in gaining admission to secondary and postsecondary institutions, and in obtaining student financial aid;

(8) A description of the applicant's plan to orient the secondary and postsecondary schools in the target area to the goals of the Talent Search project and to utilize community and other resources to supplement authorized activities;

(9) A description of (i) the project's staffing pattern including the professional requirements and duties of each staff member, and (ii) the plan for staff selection and in-service training;

(10) If the applicant has carried out a project that was not funded under this part but was comparable or identical to one authorized under this part, a description of that project including the number of youth served, the methods used to select participants, the services offered, the rate of increase of postsecondary admissions in the area served, the rate of decrease in secondary and postsecondary school dropouts, the rate of increase of secondary and postsecondary school dropouts who reenter educational programs, and any evaluation reports made on that project; and

(11) A description of the applicant's plan for evaluating the effectiveness of the project.

(b) Where the applicant is a combination of institutions of higher education, the applicant shall describe the role and function that each member of the combination will play in the operation of the project, and shall include written commitments from each institution that it will perform the activities ascribed to it.

(c) Applications for national demonstration projects shall detail the innovative and experimental approaches to be taken in the provision of project services and shall otherwise provide the information needed to determine whether the project satisfies the requirements of § 159.9.

(20 U.S.C. 1070d–1)

§ 159.7 Funding criteria.

(a) *Continuation awards.* Priority will be given to a request for funds for the continuation of a project that (1) was begun in a prior fiscal year and (2) was approved for a multi-year work period that has not expired.

(b) *Conditions for approval.* Requests for continuation awards will be approved only if:

(1) The need continues to exist for the services provided by the project;

(2) Satisfactory progress has been made in implementing the approved work plan and in achieving the project's goals and objectives, as indicated by site visits, progress reports, and other relevant data;

(3) The project continues to offer promis of success in enabling youths to resume, or continue their secondary education, or to enter, resume, or continue their post . condary education with adequate financial aid;

(4) All required reports, including data collection reports, quarterly fiscal reports, and annual and semi-annual narrative reports, have been received and accepted by the Commissioner; and

(5) Funds are available to continue the project.

(c) *New awards.* Except as provided in paragraphs (a) and (b) of this section, the Commissioner will select applicants to be funded under this part on the basis of the criteria set forth in 45 CFR 100a.26(b), as well as the following additional criteria:

(1) The extent to which the target area of the project is characterized by (i) a high number or percentage of secondary school dropouts, (ii) a low level of postsecondary school attendance, (iii) a high percentage of families whose annual adjusted family income is not more than the low-income level prescribed annually by the Commissioner, and (iv) students from low-income families having low aspiration levels and special needs.

(2) The number of youths of financial or cultural need who reside or attend schools in the target area, have exceptional potential for succes in postsecondary education, and are in need of project services to complete secondary school and enroll in postsecondary educational programs, obtain student financial aid to pursue postsecondary education, or return to secondary or postsecondary educational programs;

(3) The extent to which the applicant has successfully carried out a project that is comparable or identical to those authorized under this part;

(4) The extent to which the project will, in the target area, increase the rate of postsecondary admissions, decrease the rate of secondary school and postsecondary school dropouts, and increase the number of secondary and postsecondary dropouts who reenter educational programs;

(5) The comprehensiveness of the applicant's plan for (i) identifying and selecting eligible participants and assessing and documenting their potential for postsecondary education, (ii) providing career and academic guidance and counseling, (iii) disseminating information on student financial aid to the target population, and (iv) assisting youths in gaining admission to secondary and postsecondary institutions and in obtaining student financial aid;

(6) The reasonableness of the allocation of resources among the proposed project activities;

(7) The extent to which the applicant has provided for the orientation of secondary and postsecondary schools in the target area to the goals and objectives of the Talent Search Program and has provided for the utilization of community and other resources to supplement authorized activities;

(8) The quality of the applicant's plan to evaluate the effects of project services in enrolling participants in postsecondary educational programs with adequate financial aid and returning participants to secondary and post secondary educational programs; and

(9) The extent to which the proposed budget reflects the activities to be undertaken.

(d) *National demonstration projects.* The Commissioner will select a limited number of applications to be funded as Talent Search national demonstration projects on the basis of the criteria set forth in paragraph (c) of this section and the following additional criteria:

(1) Whether the proposed project is national or inter-regional in scope, and does not duplicate nor compete with existing regional or national programs nor consolidate existing regional or interregional educational activities under the aegis of a single agency or institution;

V 40 242 DEC 16 75 D XUM

(2) Whether the proposal presents a clearly new or experimental technique or design for the provision of Talent Search services for eligible participants;

(3) Whether the proposed activities and results can be readily replicated and utilized by other educational programs concerned with the provision of services for similar youths;

(4) Whether the proposed project will provide services not readily available on a local or regional basis for such youths; and

(5) Whether the proposed project will provide disadvantaged students a variety of educational opportunities and options for postsecondary education.

(20 U.S.C. 1070d–1)

§ 159.8 Project activities and services-project requirements.

(a) Each project funded under this part shall provide the following services:

(1) Collection and dissemination of information regarding the variety of postsecondary educational opportunities, student financial aid, academic assistance and career options available to project participants;

(2) Counseling and guidance to each project participant with regard to the appropriate postsecondary institution for that person;

(3) Counseling with regard to career options available to project participants; and

(4) Assistance to project participants in applying for admission to postsecondary institutions and for student financial aid.

(b) Each project shall: (1) Serve a minimum of 1,000 youths;

(2) Develop and utilize a comprehensive needs assessment process, which includes traditional and nontraditional measuring techniques, to determine each participant's interests, career goals, academic potential, and financial need;

(3) Focus project activities at secondary schools that have had over the three years preceding the year for which the project application is submitted (i) less than 30 percent of their graduating classes enroll in postsecondary institutions, or a high dropout rate and (ii) an inadequate counseling program with regard to postsecondary educational opportunities;

(4) Develop and implement a strategy to identify, encourage, and return to educational institutions those secondary and postsecondary school dropouts who have a demonstrated aptitude for postsecondary education;

(5) Not duplicate services offered by an Educational Opportunity Center, another Talent Search project or other similar programs in the target area;

(6) Establish cooperative relationships with service agencies in the target area which have resources needed by the project participants;

(7) Establish a direct relationship with educational institutions to determine admission requirements, filing and deadline dates for the submission of admission and financial aid applications, course requirements, and appropriate supportive services available for project participants; and

(8) Engage (i) a full-time project director with sufficient administrative skills and a clear commitment to the goals of the program, who will be provided sufficient latitude to conduct the project effectively and to expend project funds as required, and (ii) a staff that has adequate professional qualifications and commitment to carry out the proposed activities and services.

(20 U.S.C. 1070d–1)

§ 159.9 National demonstration projects.

(a) The Commissioner may reserve funds to conduct innovative and experimental Talent Search projects.

(b) National demonstration projects shall: (1) Be national or inter-regional in scope; they may not duplicate nor compete with existing regional or national programs or consolidate existing regional or inter-regional educational activities under the aegis of a single agency or institution;

(2) Present a clearly new or experimental technique or design for the provision of Talent Search services for eligible participants;

(3) Be readily replicable and utilized by other educational programs concerned with the provision of services for similar youth;

(4) Provide services not readily available on a local or regional basis for such youth; and

(5) Provide disadvantaged youth a variety of educational opportunities and options for postsecondary education.

(20 U.S.C. 1070d–1)

§ 159.10 Allowable costs.

(a) The Commissioner will pay those costs that are reasonably related to carrying out the project.

(b) Costs that may not be charged against the project include: (1) Tutoring or any instructional costs;

(2) Tuition, fees, stipends or other forms of direct financial support for youths participating in project activities;

(3) Application fees for enrollment or financial aid;

(4) Duplication of services that are otherwise provided by the institution or agency sponsoring the project or by such local agencies as vocational rehabilitation centers and social service organization;

(5) Construction, major remodeling or major repair; and

(6) Meals and lodging.

(c) Grantees under this part will be allowed indirect costs as authorized in accordance with item 4c, Appendix A, parts 100 thru 100d of the General Provisions for Office of Education Programs.

(20 U.S.C. 1070d–1)

§ 159.11 Salary and wage rates.

(a) The salaries paid to project staff under this part shall be comparable to the salaries paid to persons with similar positions within the sponsoring institution or agency.

(b) The minimum rate of compensation that may be paid to project employees, including students, shall be the minimum wage required under any applicable Federal, State, or local law.

(20 U.S.C. 1070d–1)

§ 159.12 Youth records.

Projects shall develop and utilize a data collection system which allows the project to establish accurate participant records, including, but not limited to, the following: (a) The method used to select the participant;

(b) The participant's high school transcripts and all available aptitude and achievement test scores;

(c) Information concerning the participant's eligibility to receive services under the project;

(d) Documentation of counseling services received by the student;

(e) Documentation of visits made to postsecondary institutions;

(f) Documentation of assistance provided the participant in applying for admission to postsecondary institutions and for student financial aid;

(g) The postsecondary institutions which accepted the participant for admisison and the one in which he or she enrolled;

(h) The amount and type of student financial aid received by the participant; and

(i) The participant's age, sex, race, family income, grade level and permanent address.

(20 U.S.C. 1070d–1)

§ 159.13 Travel.

In accordance with the cost principals set forth in Appendix C to parts 100 through 100d of this title, the following travel is authorized: (a) Travel to enable youths (i) to visit campuses of postsecondary institutions which are in reasonable proximity to the project's target area, (ii) to participate in "College Days" or their equivalent or (iii) to develop career potential;

(b) Staff travel to professional and educational conferences specifically related to project development and

(c) Other travel specifically approved by the Commissioner in writing and in advance of such travel.

(20 U.S.C. 1070d–1)

§ 159.14 Functional relationships and unification among Talent Search, Upward Bound, Special Services for Disadvantaged Students, and Educational Opportunity Centers.

In addition to the requirements set forth in CFR 100a.275, when an applicant under this part also requests funds to carry out one or more of the following programs, Upward Bound, Special Services for Disadvantaged Students or Educational Opportunity Centers, the application must reflect the following:

(a) Provision for a single, unified administrative program operation;

(b) Provision for separate program identities, activities, and budget;

(c) Consolidation of personnel and program functions to the fullest extent possible while still maintaining separate program identity; and

(d) Coordination and liaison with other Talent Search, Upward Bound, Special Services and Educational Opportunity Centers projects operating in close geographic proximity, including, where feasible, the sharing of facilities, staff, services and activities.

(20 U.S.C. 1070d–1; 1232c(b)(1))

PART IV:

ENVIRONMENTAL PROTECTION AGENCY

STANDARDS OF PERFORMANCE FOR NEW STATIONARY SOURCES

Modification, Notification and Reconstruction

V40242 DEC 16 75 XUM

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

[FRL 402-8]

PART 60—STANDARDS OF PERFORMANCE FOR NEW STATIONARY SOURCES

Modification, Notification, and Reconstruction

On October 15, 1974 (39 FR 36946), under section 111 of the Clean Air Act, as amended (42 U.S.C. 1857), the Environmental Protection Agency (EPA) proposed amendments to the general provisions of 40 CFR Part 60. These amendments included additions and revisions to clarify the definition of the term "modification" appearing in the Act, to require notification of construction or potential modification, and to clarify when standards of performance are applicable to reconstructed sources. These regulations apply to all stationary sources constructed or modified after the proposal date of an applicable standard of performance.

Interested parties participated in the rulemaking by sending comments to EPA. Fifty-three comment letters were received, 43 of which came from industry, with the remainder coming from State and Federal agencies. Copies of the comment letters received and a summary of the comments with EPA's responses are available for public inspection and copying at the EPA Public Information Reference Unit, Room 2922 (EPA Library), 401 M Street SW., Washington, D.C. In addition, copies of the comment summary and Agency responses may be obtained upon written request from the EPA Public Information Center (PM-215), 401 M Street SW., Washington, D.C. 20460 (specify Public Comment Summary—Modification, Notification, and Reconstruction). The comments have been carefully considered, and where determined by the Administrator to be appropriate, changes have been made to the proposed regulations and are incorporated in the regulations promulgated herein. The most significant comments and the differences between the proposed and promulgated regulations are discussed below.

Terminology

Understandably there has been some confusion as to the difference between the various types of "sources" and "facilities" defined in § 60.2 of these regulations. Generally speaking, "sources" are entire plants, while "facilities" are identifiable pieces of process equipment or individual components which when taken together would comprise a source. "Affected facilities" are facilities subject to standards of performance, and are specifically identified in the first section of each subpart of Part 60. An "existing facility" is generally a piece of equipment or component of the same type as an affected facility, but which differs in that it was constructed prior to the date of proposal of an applicable standard of performance. This distinction is somewhat complicated because an existing facility which undergoes a modification within the meaning of the Act and these regulations becomes an affected facility. However, generally speaking, the distinction between "affected facilities" and "existing facilities" depends on the date of construction. The terms are intended to be the direct regulatory counterparts of the statutory definitions of "new source" and "existing source" appearing in section 111 of the Act.

"Designated facilities" form a subcategory of "existing facilities." A "designated facility" is an existing facility which emits a "designated pollutant," i.e., a pollutant which is neither a hazardous pollutant, as defined by section 112 of the Act, nor a pollutant subject to national ambient air quality standards. The term "designated facilities," however, has no special relevance to the issue of modification.

Definition of "Capital Expenditure"

Several commentators argued that the proposed definition of "capital expenditure," as applicable to the exemption for increasing the production rate of an existing facility in § 60.14(e)(2), was too vague. The regulations promulgated herein correct this deficiency by incorporating by reference and by requiring the application of the procedure contained in Internal Revenue Service Publication 534, which is available from any IRS office. The procedure set forth in IRS Publication 534 is relatively straightforward. First, the total cost of increasing the production or operating rate must be determined. All expenditures necessary to increasing the facility's operating rate must be included in this total. However, for purposes of § 60.14(e)(2) this amount must not be reduced by any "excluded additions," as defined in IRS Publication 534, as would be done for tax purposes. Next, the facility's basis (usually its cost), as defined by Section 1012 of the Internal Revenue Code, must be determined. If the product of the appropriate "annual asset guideline repair allowance percentage" tabulated in Publication 534 and the facility's basis exceeds the cost of increasing the operating rate, the change will not be treated as a modification. Conversely, if the cost of making the change is more than the above product and the emissions have increased, the change will be treated as a modification.

The advantage of adopting the procedure in IRS Publication 534 is that firm and precise guidance is provided as to what constitutes a capital expenditure. The procedure involves concepts and information which are available to all owners and operators and with which they are familiar, and it is the Administrator's opinion that it adequately responds to the complaints of vagueness made in comments.

Notification of Construction

The regulations promulgated herein contain a requirement that owners or operators notify EPA within 30 days of the commencement of construction of an affected facility. Some commentators, however, questioned the Agency's legal authority to require such a notification and questioned the need for such information.

Section 301(a) of the Act provides the Administrator authority to issue regulations "necessary to carry out his functions under [the] Act." The Agency has learned through experience with administering the new source performance standards that knowledge of the sources which may become subject to the standards is important to the effective implementation of section 111. This notification will not be used for approval or disapproval of the planned construction; the purpose is to allow the Administrator to locate sources which will be subject to the regulations appearing in this part, and to enable the Administrator to inform the sources about applicable regulations in an effort to minimize future problems. In the case of mass produced facilities, which are purchased by the ultimate user when construction is completed, the construction notification requirement will not apply. Notification prior to startup, however will still be required.

Use of Emission Factors

The proposed regulations listed emission factors as one possible method to be used in determining whether a facility has increased its emissions. Emission factors have two major advantages. First, they are inexpensive to use. Second, they may be applied prospectively, i.e., they can be used in some cases to determine whether a particular change *will* increase a facility's emissions before the change is implemented. This is important to owners or operators since they can thereby obtain advance notice of the consequences of proposed changes they are planning prior to commitment to a particular course of action. Emission factors do not, however, provide results as precise as other methods, such as actual stack testing. Nevertheless, in many cases the emission consequences of a proposed change can be reliably predicted by the use of emission factors. In such cases, where emissions will clearly increase or will clearly [illegible] increase, the Agency will rely primarily on emission factors. Only where the resulting change in emission rate is ambiguous, or where a dispute arises as to the result obtained by the use of emission factors, will other methods be used. Section 60.14(b) has been revised to reflect this policy.

The "Bubble Concept"

The phrase "bubble concept" has been used to refer to the trading off of emission increases from one facility undergoing a physical or operational change with emission reductions from another facility, in order to achieve no net increase in the amount of any air pollutant (to which a standard applies) emitted into the atmosphere by the stationary source taken as a whole.

Several commentators suggested that the "bubble concept" be extended to cover "new construction." Under the proposed regulations, the "bubble concept" could be utilized to offset emission increases from a facility undergoing a physical or operational change (as distinguished from a "new facility") at a lower economic cost than would arise if the facility undergoing the change were to be considered by EPA as being modified within the meaning of section 111 of the Act and consequently required to meet standards of performance. Under the suggested approach a new facility could be added to an existing source without having to meet otherwise applicable standards of performance, provided the amount of any air pollutant (to which a standard applies) emitted into the atmosphere by the stationary source taken as a whole did not increase. If adopted, this suggestion could exempt most new construction at existing sources from having to comply with otherwise applicable standards of performance. Such an interpretation of the section 111 provisions of the Act would grant a significant and unfair economic advantage to owners or operators of existing sources replacing facilities with new construction as compared to someone wishing to construct an entirely new source.

If the bubble concept were extended to cover new construction, large sources of air pollution could avoid the application of new source performance standards indefinitely. Such sources could continually replace obsolete or worn out facilities with new facilities of the same type. If the same emission controls were adopted, no overall emission increase would result. In this manner, the source could continue indefinitely without ever being required to upgrade air pollution control systems to meet standards of performance for new facilities. The Administrator interprets section 111 to require that new producers of emissions be subject to the standards whether constructed at a new plant site or an existing one. Therefore, where a new facility is constructed, new source performance standards must be met. In situations involving physical or operational changes to an existing facility which increase emissions from that facility, greater flexibility is permitted to avoid the imposition of large control costs if the projected increase can be offset by controlling other plant facilities.

Several commentators argued that if the Administrator adopted the proposed interpretation of the term "modification", which would consider a modification to have occurred even if there was only a relatively minor detectable emission rate increase (thus requiring application of standards of performance), the Administrator would in effect prevent owners or operators from implementing physical or operational changes necessary to switch from gas and oil to coal in comport with the President's policy of reducing gas and oil consumption. The Administrator has concluded that if such situations exist, they will be relatively rare and, in any event, will be peculiar to the group of facilities covered by a particular standard of performance rather than to all facilities in general. Therefore, the Administrator has further concluded that it would be more appropriate to consider such circumstances and possible avenues of relief in connection with the promulgation of or amendment to particular standards of performance rather than through the amendment of the general provisions of 40 CFR Part 60.

Where the use of the bubble concept is elected by an owner or operator, some guarantee is necessary to insure that emissions do not subsequently increase above the level present before the physical or operational change in question. For example, reducing a facility's operating rate is a permissible means of offsetting emission increases from another facility undergoing a physical or operational change. If the exemption provided by § 60.14(e)(2) as promulgated herein were subsequently used to increase the first facility's operating rate back to the prior level, the intent of the Act would be circumvented and the compliance measures previously adopted would be nullified. Therefore, in those cases where utilization of the exemptions under § 60.14(e)(2), (3), or (4) as promulgated herein would effectively negate the compliance measures originally adopted, use of those exemptions will not be permitted.

One limitation placed on utilization of the "bubble concept" by the proposed regulation was that emission reductions could be credited only if achieved at an "existing" or "affected" facility. The purpose of this requirement was to limit the "bubble concept" to those facilities which could be source tested by EPA reference methods. One commentator pointed out that some facilities other than "existing" or "affected" facilities (i.e., facilities of the type for which no standards have been promulgated) lend themselves to accurate emission measurement. Therefore, § 60.14(d) has been revised to permit emission reductions to be credited from all facilities whose emissions can be measured by reference, equivalent, or alternative methods, as defined in § 60.2(s), (t), and (u). In addition, when a facility which cannot be tested by any of these methods is permanently closed, the regulations have been revised to permit emission rate reductions from such closures to be used to offset emission rate increases if methods such as emission factors clearly show, to the Administrator's satisfaction that the reduction offsets any increase. The regulation does not allow facilities which cannot be tested by any of these methods to reduce their production as a means of reducing emissions to offset emission rate increases because establishing allowable emissions for such facilities and monitoring compliance to insure that the allowable emissions are not exceeded would be very difficult and even impossible in many cases.

Also, under the proposed regulations applicable to the "bubble concept," actual emission testing was the only permissible method for demonstrating that there has been no increase in the total emission rate of any pollutant to which a standard applies from all facilities within the stationary source. Several commentators correctly argued that if methods such as emission factors are sufficiently accurate to determine emission rates under other sections of the regulation [i.e. § 60.14(b)], they should be adequate for the purposes of utilization of the bubble concept. Thus, the regulations have been revised to permit the use of emission factors in those cases where it can be demonstrated to the Administrator's satisfaction that they will clearly show that total emissions will or will not increase. Where the Administrator is not convinced of the reliability of emission factors in a particular case, other methods will be required.

Ownership Change

The regulation has been amended by adding § 60.14(e)(6) which states that a change in ownership or relocating a source does not by itself bring a source under these modification regulations.

Reconstruction

Several commentators questioned the Agency's legal authority to propose standards of performance on reconstructed sources. Many commentators further believed that the Agency is attempting to delete the emission increase requirement from the definition of modification. The Agency's actual intent is to prevent circumvention of the law. Section 111 of the Act requires compliance with standards of performance in two cases, new construction and modification. The reconstruction provision is intended to apply where an existing facility's components are replaced to such an extent that it is technologically and economically feasible for the reconstructed facility to comply with the applicable standards of performance. In the case of an entirely new facility the proper time to apply the best adequately demonstrated control technology is when the facility is originally constructed. As explained in the preamble to the proposed regulation, the purpose of the reconstruction provision is to recognize that replacement of many of the components of a facility can be substantially equivalent to totally replacing it at the end of its useful life with a newly constructed affected facility. For existing facilities which substantially retain their character as existing facilities, application of best adequately demonstrated control technology is considered appropriate when any physical or operational change is made which causes an increase in emissions to the atmosphere (this is modification). Thus, the criteria for "reconstruction" are independent from the criteria for "modification."

Sections 60.14 and 60.15 set up the procedures and criteria to be used in making the determination to apply best adequately demonstrated control technology to existing facilities to which some changes have been made.

Under the proposed regulations, the replacement of a substantial portion of an existing facility's components constituted reconstruction. Many commentators questioned the meaning of "substantial portion." After considering the comments and the vagueness of this term, the Agency decided to revise the proposed reconstruction provisions to

V 40 242 DEC 16 75 XUM

better clarify to owners or operators what actions they must take and what action the Administrator will take. Section 60.15 of the regulations as revised specifies that reconstruction occurs upon replacement of components if the fixed capital cost of the new components exceeds 50 percent of the fixed capital cost that would be required to construct a comparable entirely new facility and it is technologically and econbmically feasible for the facility after the replacements to comply with the applicable standards of performance. The 50 percent replacement criteria is designed merely to key the notification to the Administrator; it is not an independent basis for the Administrator's determination. The term "fixed capital cost" is defined as the capital needed to provide all the depreciable components and is intended to include such things as the costs of engineering, purchase, and installation of major process equipment, contractors' fees, instrumentation, auxiliary facilities, buildings, and structures. Costs associated with the purchase and installation of air pollution control equipment (e.g., baghouses, electrostatic precipitators, scrubbers, etc.) are not considered in estimating the fixed capital cost of a comparable entirely new facility unless that control equipment is required as part of the process (e.g., product recovery).

The revised § 60.15 leaves the final determination with the Administrator as to when it is technologically and economically feasible to comply with the applicable standards of performance. Further clarification and definition is not possible because the spectrum of replacement projects that will take place in the future at existing facilities is so broad that it is not possible to be any more specific. Section 60.15 sets forth the criteria which the Administrator will use in making his determination. For example, if the estimated life of the facility after the replacements is significantly less than the estimated life of a new facility, the replacement may not be considered reconstruction. If the equipment being replaced does not emit or cause an emission of an air pollutant, it may be determined that controlling the components that do emit air pollutants is not reasonable considering cost, and standards of performance for new sources should not be applied. If there is insufficient space after the replacements at an existing facility to install the necessary air pollution control system to comply with the standards of performance, then reconstruction would not be determined to have occurred. Finally, the Administrator will consider all technical and economic limitations the facility may have in complying with the applicable standards of performance after the proposed replacements.

While § 60.15 expresses the basic Agency policy and interpretation regarding reconstruction, individual subparts may refine and delimit the concept as applied to individual categories of facilities.

RESPONSE TO REQUESTS FOR DETERMINATION

Section 60.5 has been revised to indicate that the Administrator will make a determination of whether an action by an owner or operator constitutes reconstruction within the meaning of § 60.15. Also, in response to a public comment, a new § 60.5(b) has been added to indicate the Administrator's intention to respond to requests for determinations within 30 days of receipt of the request.

STATISTICAL TEST

Appendix C of the regulation incorporates a statistical procedure for determining whether an emission increase has occurred. Several individuals commented on the procedure as proposed. After considering all these comments and conducting further study into the subject, the Administrator has determined that a statistical procedure is substantially superior to a method comparing average emissions, and that no other statistical procedure is clearly superior to the one adopted (Student's t test). A more detailed analysis of this issue can be found in EPA's responses to the comments mentioned previously.

Effective date. These regulations are effective on December 16, 1975. Since they represent a clarification of the Agency's existing enforcement policy, good cause is found for not delaying the effective date, as required by 5 U.S.C. 553(d)(3). However, the regulations will, in effect, apply retroactively to any enforcement activity now in progress since they do reflect present Agency policy.

(Sections 111, 114, and 301 of the Clean Air Act, as amended (42 U.S.C. 1857c–6, 1857c–9, and 1857g))

Dated: December 8, 1975.

RUSSELL E. TRAIN,
Administrator.

Part 60 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

1. The table of sections is amended by adding §§ 60.14 and 60.15 and Appendix C as follows:

Subpart A—General Provisions

* * * * *

Sec.
60.14 Modification..
60.15 Reconstruction.

* * * * *

Appendix C—Determination of Emission Rate Change.

2. In § 60.2, paragraphs (d) and (h) are revised and paragraphs (aa) and (bb) are added as follows:

§ 60.2 Definitions.

* * * * *

(d) "Stationary source" means any building, structure, facility, or installation which emits or may emit any air pollutant and which contains any one or combination of the following:

(1) Affected facilities.

(2) Existing facilities.

(3) Facilities of the type for which no standards have been promulgated in this part.

* * * * *

(h) "Modification" means any physical change in, or change in the method of operation of, an existing facility which increases the amount of any air pollutant (to which a standard applies) emitted into the atmosphere by that facility or which results in the emission of any air pollutant (to which a standard applies) into the atmosphere not previously emitted.

* * * * *

(aa) "Existing facility" means, with reference to a stationary source, any apparatus of the type for which a standard is promulgated in this part, and the construction or modification of which was commenced before the date of proposal of that standard; or any apparatus which could be altered in such a way as to be of that type.

(bb) "Capital expenditure" means an expenditure for a physical or operational change to an existing facility which exceeds the product of the applicable "annual asset guideline repair allowance percentage" specified in the latest edition of Internal Revenue Service Publication 534 and the existing facility's basis, as defined by section 1012 of the Internal Revenue Code.

3. Section 60.5 is revised to read as follows:

§ 60.5 Determination of construction or modification.

(a) When requested to do so by an owner or operator, the Administrator will make a determination of whether action taken or intended to be taken by such owner or operator constitutes construction (including reconstruction) or modification or the commencement thereof within the meaning of this part.

(b) The Administrator will respond to any request for a determination under paragraph (a) of this section within 30 days of receipt of such request.

4. In § 60.7, paragraphs (a)(1) and (a)(2) are revised, and paragraphs (a)(3), (a)(4), and (e) are added as follows:

§ 60.7 Notification and recordkeeping.

(a) Any owner or operator subject to the provisions of this part shall furnish the Administrator written notification as follows:

(1) A notification of the date construction (or reconstruction as defined under § 60.15) of an affected facility is commenced postmarked no later than 30 days after such date. This requirement shall not apply in the case of mass-produced facilities which are purchased in completed form.

(2) A notification of the anticipated date of initial startup of an affected facility postmarked not more than 60 days nor less than 30 days prior to such date.

(3) A notification of the actual date of initial startup of an affected facility postmarked within 15 days after such date.

(4) A notification of any physical or operational change to an existing facility which may increase the emission rate of any air pollutant to which a standard applies, unless that change is specifically exempted under an applicable subpart or in § 60.14(e) and the exemption is not denied under § 60.14(d)(4). This notice shall be postmarked 60 days or as soon as practicable before the change is commenced and shall include information describing the precise nature of the change, present and proposed emission control systems, productive capacity of the facility before and after the change, and the expected completion date of the change. The Administrator may request additional relevant information subsequent to this notice.

* * * * *

(e) If notification substantially similar to that in paragraph (a) of this section is required by any other State or local agency, sending the Administrator a copy of that notification will satisfy the requirements of paragraph (a) of this section.

5. Subpart A is amended by adding §§ 60.14 and 60.15 as follows:

§ 60.14 Modification.

(a) Except as provided under paragraphs (d), (e) and (f) of this section, any physical or operational change to an existing facility which results in an increase in the emission rate to the atmosphere of any pollutant to which a standard applies shall be considered a modification within the meaning of section 111 of the Act. Upon modification, an existing facility shall become an affected facility for each pollutant to which a standard applies and for which there is an increase in the emission rate to the atmosphere.

(b) Emission rate shall be expressed as kg/hr of any pollutant discharged into the atmosphere for which a standard is applicable. The Administrator shall use the following to determine emission rate:

(1) Emission factors as specified in the latest issue of "Compilation of Air Pollutant Emission Factors," EPA Publication No. AP–42, or other emission factors determined by the Administrator to be superior to AP–42 emission factors, in cases where utilization of emission factors demonstrate that the emission level resulting from the physical or operational change will either clearly increase or clearly not increase.

(2) Material balances, continuous monitor data, or manual emission tests in cases where utilization of emission factors as referenced in paragraph (b)(1) of this section does not demonstrate to the Administrator's satisfaction whether the emission level resulting from the physical or operational change will either clearly increase or clearly not increase, or where an owner or operator demonstrates to the Administrator's satisfaction that there are reasonable grounds to dispute the result obtained by the Administrator utilizing emission factors as referenced in paragraph (b)(1) of this section. When the emission rate is based on results from manual emission tests or continuous monitoring systems, the procedures specified in Appendix C of this part shall be used to determine whether an increase in emission rate has occurred. Tests shall be conducted under such conditions as the Administrator shall specify to the owner or operator based on representative performance of the facility. At least three valid test runs must be conducted before and at least three after the physical or operational change. All operating parameters which may affect emissions must be held constant to the maximum feasible degree for all test runs.

(c) The addition of an affected facility to a stationary source as an expansion to that source or as a replacement for an existing facility shall not by itself bring within the applicability of this part any other facility within that source.

(d) A modification shall not be deemed to occur if an existing facility undergoes a physical or operational change where the owner or operator demonstrates to the Administrator's satisfaction (by any of the procedures prescribed under paragraph (b) of this section) that the total emission rate of any pollutant has not increased from all facilities within the stationary source to which appropriate reference, equivalent, or alternative methods, as defined in § 60.2 (s), (t) and (u), can be applied. An owner or operator may completely and permanently close any facility within a stationary source to prevent an increase in the total emission rate regardless of whether such reference, equivalent or alternative method can be applied, if the decrease in emission rate from such closure can be adequately determined by any of the procedures prescribed under paragraph (b) of this section. The owner or operator of the source shall have the burden of demonstrating compliance with this section.

(1) Such demonstration shall be in writing and shall include: (i) The name and address of the owner or operator.

(ii) The location of the stationary source.

(iii) A complete description of the existing facility undergoing the physical or operational change resulting in an increase in emission rate, any applicable control system, and the physical or operational change to such facility.

(iv) The emission rates into the atmosphere from the existing facility of each pollutant to which a standard applies determined before and after the physical or operational change takes place, to the extent such information is known or can be predicted.

(v) A complete description of each facility and the control systems, if any, for those facilities within the stationary source where the emission rate of each pollutant in question will be decreased to compensate for the increase in emission rate from the existing facility undergoing the physical or operational change.

(vi) The emission rates into the atmosphere of the pollutants in question from each facility described under paragraph (d)(1)(v) of this section both before and after the improvement or installation of any applicable control system or any physical or operational changes to such facilities to reduce emission rate.

(vii) A complete description of the procedures and methods used to determine the emission rates.

(2) Compliance with paragraph (d) of this section may be demonstrated by the methods listed in paragraph (b) of this section, where appropriate. Decreases in emissions resulting from requirements of a State implementation plan approved or promulgated under Part 52 of this chapter will not be acceptable. The required reduction in emission rate may be accomplished through the installation or improvement of a control system or through physical or operational changes to facilities including reducing the production of a facility or closing a facility.

(3) Emission rates established for the existing facility which is undergoing a physical or operational change resulting in an increase in the emission rate, and established for the facilities described under paragraph (d)(1)(v) of this section shall become the baseline for determining whether such facilities undergo a modification or are in compliance with standards.

(4) Any emission rate in excess of that rate established under paragraph (d)(3) of this section shall be a violation of these regulations except as otherwise provided in paragraph (e) of this section. However, any owner or operator electing to demonstrate compliance under this paragraph (d) must apply to the Administrator to obtain the use of any exemptions under paragraphs (e)(2), (e)(3), and (e)(4) of this section. The Administrator will grant such exemption only if, in his judgment, the compliance originally demonstrated under this paragraph will not be circumvented or nullified by the utilization of the exemption.

(5) The Administrator may require the use of continuous monitoring devices and compliance with necessary reporting procedures for each facility described in paragraph (d)(1)(iii) and (d)(1)(v) of this section.

(e) The following shall not, by themselves, be considered modifications under this part:

(1) Maintenance, repair, and replacement which the Administrator determines to be routine for a source category, subject to the provisions of paragraph (c) of this section and § 60.15.

(2) An increase in production rate of an existing facility, if that increase can be accomplished without a capital expenditure on the stationary source containing that facility.

(3) An increase in the hours of operation.

(4) Use of an alternative fuel or raw material if, prior to the date any standard under this part becomes applicable to that source type, as provided by § 60.1, the existing facility was designed to accommodate that alternative use. A facility shall be considered to be designed to accommodate an alternative fuel or raw material if that use could be accomplished under the facility's construction

V 40 242 DEC 16 75 XUM

specifications, as amended, prior to the change. Conversion to coal required for energy considerations, as specified in section 119(d)(5) of the Act, shall not be considered a modification.

(5) The addition or use of any system or device whose primary function is the reduction of air pollutants, except when an emission control system is removed or is replaced by a system which the Administrator determines to be less environmentally beneficial.

(6) The relocation or change in ownership of an existing facility.

(f) Special provisions set forth under an applicable subpart of this part shall supersede any conflicting provisions of this section.

(g) Within 180 days of the completion of any physical or operational change subject to the control measures specified in paragraphs (a) or (d) of this section, compliance with all applicable standards must be achieved.

§ 60.15 Reconstruction.

(a) An existing facility, upon reconstruction, becomes an affected facility, irrespective of any change in emission rate.

(b) "Reconstruction" means the replacement of components of an existing facility to such an extent that:

(1) The fixed capital cost of the new components exceeds 50 percent of the fixed capital cost that would be required to construct a comparable entirely new facility, and

(2) It is technologically and economically feasible to meet the applicable standards set forth in this part.

(c) "Fixed capital cost" means the capital needed to provide all the depreciable components.

(d) If an owner or operator of an existing facility proposes to replace components, and the fixed capital cost of the new components exceeds 50 percent of the fixed capital cost that would be required to construct a comparable entirely new facility, he shall notify the Administrator of the proposed replacements. The notice must be postmarked 60 days (or as soon as practicable) before construction of the replacements is commenced and must include the following information:

(1) Name and address of the owner or operator.

(2) The location of the existing facility.

(3) A brief description of the existing facility and the components which are to be replaced.

(4) A description of the existing air pollution control equipment and the proposed air pollution control equipment.

(5) An estimate of the fixed capital cost of the replacements and of constructing a comparable entirely new facility.

(6) The estimated life of the existing facility after the replacements.

(7) A discussion of any economic or technical limitations the facility may have in complying with the applicable standards of performance after the proposed replacements.

(e) The Administrator will determine, within 30 days of the receipt of the notice required by paragraph (d) of this section and any additional information he may reasonably require, whether the proposed replacement constitutes reconstruction.

(f) The Administrator's determination under paragraph (e) shall be based on:

(1) The fixed capital cost of the replacements in comparison to the fixed capital cost that would be required to construct a comparable entirely new facility;

(2) The estimated life of the facility after the replacements compared to the life of a comparable entirely new facility;

(3) The extent to which the components being replaced cause or contribute to the emissions from the facility; and

(4) Any economic or technical limitations on compliance with applicable standards of performance which are inherent in the proposed replacements.

(g) Individual subparts of this part may include specific provisions which refine and delimit the concept of reconstruction set forth in this section.

6. Part 60 is amended by adding Appendix C as follows:

APPENDIX C—DETERMINATION OF EMISSION RATE CHANGE

1. *Introduction.*

1.1 The following method shall be used to determine whether a physical or operational change to an existing facility resulted in an increase in the emission rate to the atmosphere. The method used is the Student's *t* test, commonly used to make inferences from small samples.

2. *Data.*

2.1 Each emission test shall consist of *n* runs (usually three) which produce *n* emission rates. Thus two sets of emission rates are generated, one before and one after the change, the two sets being of equal size.

2.2 When using manual emission tests, except as provided in § 60.8(b) of this part, the reference methods of Appendix A to this part shall be used in accordance with the procedures specified in the applicable subpart both before and after the change to obtain the data.

2.3 When using continuous monitors, the facility shall be operated as if a manual emission test were being performed. Valid data using the averaging time which would be required if a manual emission test were being conducted shall be used.

3. *Procedure.*

3.1 Subscripts a and b denote prechange and postchange respectively.

3.2 Calculate the arithmetic mean emission rate, $\bar{E}$, for each set of data using Equation 1.

$$\bar{E} = \frac{\sum_{i=1}^{n} E_i}{n} = \frac{E_1 + E_2 \ldots + E_n}{n} \quad (1)$$

where:
E_i = Emission rate for the i th run.
n = number of runs

3.3 Calculate the sample variance, S^2, for each set of data using Equation 2.

$$S^2 = \frac{\sum_{i=1}^{n} (E_i - \bar{E})^2}{n-1} = \frac{\sum_{i=1}^{n} E_i^2 - \left(\sum_{i=1}^{n} E_i\right)^2 / n}{n-1} \quad (2)$$

3.4 Calculate the pooled estimate, S_p, using Equation 3.

$$S_p = \left[\frac{(n_a-1)\ S_a^2 + (n_b-1)\ S_b^2}{n_a+n_b-2}\right]^{1/2} \quad (3)$$

3.5 Calculate the test statistic, t, using Equation 4.

$$t = \frac{\bar{E}_b - \bar{E}_a}{S_p\left[\frac{1}{n_a}+\frac{1}{n_b}\right]^{1/2}} \quad (4)$$

4. *Results.*

4.1 If $\bar{E}_b > \bar{E}_a$ and $t > t'$, where t' is the critical value of t obtained from Table 1, then with 95% confidence the difference between $\bar{E}_b$ and $\bar{E}_a$ is significant, and an increase in emission rate to the atmosphere has occurred.

TABLE 1

Degree of freedom (n_a+n_b-2):	t' (95 percent confidence level)
2	2.920
3	2.353
4	2.132
5	2.015
6	1.943
7	1.895
8	1.860

For greater than 8 degrees of freedom, see any standard statistical handbook or text.

5. *Example.*

5.1 Assume the two performance tests produced the following set of data:

	Test a:	Test b
Run 1.	100	115
Run 2.	95	120
Run 3.	110	125

5.2 Using Equation 1—

$$\bar{E}_a = \frac{100+95+110}{3} = 102$$

$$\bar{E}_b = \frac{115+120+125}{3} = 120$$

5.3 Using Equation 2—

$$S_a^2 = \frac{(100-102)^2+(95-102)^2+(110-102)^2}{3-1} = 58.5$$

$$S_b^2 = \frac{(115-120)^2+(120-120)^2+(125-120)^2}{3-1} = 25$$

5.4 Using Equation 3—

$$S_p = \left[\frac{(3-1)\ (58.5)+(3-1)\ (25)}{3+3-2}\right]^{1/2} = 6.46$$

5.5 Using Equation 4—

$$t = \frac{120-102}{6.46\left[\frac{1}{3}+\frac{1}{3}\right]^{1/2}} = 3.412$$

5.6 Since $(n_a+n_b-2)=4$, $t'=2.132$ (from Table 1). Thus since $t > t'$ the difference in the values of $\bar{E}_a$ and $\bar{E}_b$ is significant, and there has been an increase in emission rate to the atmosphere.

6. *Continuous Monitoring Data.*

6.1 Hourly averages from continuous monitoring devices, where available, should be used as data points and the above procedure followed.

(Secs. 111 and 114 of the Clean Air Act, as amended by sec. 4(a) of Pub. L. 91-604, 84 Stat 1678 (42 U.S.C. 1857c-6, 1857c-9))

RESCHEDULED MEETING—
CAB: Commuter Airline Association of America, 12–19–75 58491

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5282. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register
Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

contents

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Due to the large number of amendments which have been published to Part 213 of Title 5 of the Code of Federal Regulations, it has been determined that a republication without change would serve to set forth all published amendments in one codified statement. There is no substantive change in the provisions of this part. It is merely republished for the convenience of the users of the Federal Register and the Code of Federal Regulations. Therefore, Part 213 is revised to read as follows.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

AUTHORITY: 5 U.S.C. 3301, 3302; E.O. 10577, 3 CFR 1954–1958 Comp. p. 218.

Subpart A—General Provisions

§ 213.101 Definitions.

In this chapter:

(a) Excepted service has the meaning given that term by section 2103 of title 5, United States Code, and includes all positions in the executive branch of the Federal Government which are specifically excepted from the competitive service by or pursuant to statute, by the President, or by the Commission under § 6.1 or § 9.20 of the civil service rules (Subchapter A of this chapter).

(b) "Excepted position" means a position in the excepted service.

§ 213.102 Identification of positions in Schedule A, B, or C.

The Commission shall decide whether the duties of any particular position are such that it may be filled as an excepted position under Schedule A, B, or C.

Subpart B—[Reserved]

Subpart C—Excepted Schedules

SCHEDULE A

§ 213.3101 Positions other than those of a confidential or policy-determining character for which it is not practicable to examine.

(a) The positions enumerated in §§ 213.3102 to 213.3199 are positions other than those of a confidential or policy-determining character for which it is not practicable to examine and which are excepted from the competitive service and constitute Schedule A.

(b) An agency (including a military department) may not appoint the son or daughter of a civilian employee of that agency, or the son or daughter of a member of its uniformed service, to a position listed in Schedule A for summer or student employment within the United States. This prohibition does not apply to the appointment of persons (1) who are eligible for placement assistance under the Commission's Displaced Employee (DE) Program, (2) who are employed to meet urgent needs resulting from an emergency posing an immediate threat to life or property, or (3) who are members of families which are eligible to receive financial assistance under a public welfare program or the total income of which in relation to family size does not exceed limits established by the Commission and published in the Federal Personnel Manual.

(c) An agency may appoint for summer employment within the United States in positions listed in Schedule A only in accordance with the terms of the Commission's summer employment program. This restriction does not apply to positions that are excepted only when filled by particular types of individuals.

(d) In this section "summer employment" means any employment beginning after May 12 which will end before October 1 of the same year. "Student employment" means the employment of persons who are enrolled or who have been accepted for enrollment, on a substantially full-time basis, as resident students of a secondary school or of an institution of higher learning; a resident student, for this purpose, is a student in actual physical attendance at a school as distinguished from a correspondence student.

§ 213.3102 Entire executive civil service.

(a) Positions of Chaplain and Chaplain's Assistant.

(b) Cooks, except at fixed locations such as hospitals, quarantine stations, and penal institutions.

(c) Positions to which appointments are made by the President without confirmation by the Senate.

(d) Attorneys.

(e) Law clerk trainee positions. Appointments under this paragraph shall be confined to graduates of recognized law schools or persons having equivalent experience and shall be for periods not to exceed 14 months pending admission to the bar. No person shall be given more than one appointment under this paragraph. However, an appointment which was initially made for less than 14 months may be extended for not to exceed 14 months in total duration.

(f) Chinese, Japanese, and Hindu interpreters.

(g) Any position the duties of which are part-time or intermittent in which the appointee will receive compensation during his service year that aggregates not more than 40 percent of the annual salary rate for the first step of GS–3. This limitation on compensation includes any premium pay such as for overtime, night, Sunday, or holiday work. It does not, however, include any mandatory within-grade salary increases to which the employee becomes entitled subsequent to appointment under this authority. Appointments under this authority shall not be for job employment. In the metropolitan area of Washington, D.C., appointments under this authority shall be subject to the prior approval of the Commission.

(h) Subject to prior approval by the Commission, positions in Federal mental institutions when filled by persons who have been patients of such institutions and been discharged and are certified by the medical head thereof as recovered sufficiently to be regularly employed but it is believed desirable and in the interest of the persons and the institution that they be employed at the institution.

(i) Subject to prior approval of the Commission, positions requiring temporary, part-time, or intermittent employment in wage board type occupations (i.e., position excluded from Classification Act coverage by section 202(7) of the Act) on construction or repair work, where the activity is carried on in localities where examination coverage for the positions has not been provided and where because of employment conditions there is a shortage of available candidates for the positions. Appointments under this paragraph shall not extend beyond 1 year, and the employment thereunder shall not exceed 180 working days a year. Seasonal employments of a recurring nature are not authorized under this paragraph.

(j) Subject to approval of the Director of Selective Service, positions for which in the opinion of the Commission a local recruiting shortage exists when filled by individuals performing reconciliation service pursuant to Presidential Proclamation No. 4313 of September 16, 1974. Initial appointments under this authority may not exceed 1 year, and an initial appointment may be extended for one or more periods to a total of not to exceed 1 year. Such appointment may be further extended for one or more periods not to exceed 1 additional year. No person may serve under this authority longer than 2 years. No new appointments may be made under this authority after June 30, 1977.

(k) Positions without compensation provided appointments thereto meet the requirements of applicable laws relating to compensation.

(l) Positions requiring the temporary or intermittent employment of professional, scientific, or technical experts for consultation purposes.

(m) Nonsupervisory positions of custodial laborer (levels 1, 2, and 3) and general laborer (levels 2 and 3) in field establishments outside central office and regional office cities of the Commission where examination coverage has not been provided for the positions, as follows:

(1) For temporary, intermittent, or seasonal employment (exclusive of positions covered by paragraph (l) of this section) not to exceed 180 working days a year in the Departments of Agriculture, Commerce, and Interior, in the Federal Aviation Agency, and in the International Boundary and Water Commission; or

(2) When it is specifically held by the Commission that this authority is applicable, for employment in localities that are isolated with respect to labor supply and where there is a shortage of available candidates for the positions.

(n) Any local physician, surgeon, or dentist employed under contract or on a part-time or fee basis when, in the opinion of the Commission, appointment through competitive examination is impracticable.

(o) Positions of a scientific, professional, or analytical nature when filled by bona fide members of the faculty of an accredited college or university who have special qualifications for the positions to which appointed. Employments under this provision shall not exceed 130 working days a year.

(p) Positions of a scientific, professional, or analytical nature when filled by bona fide graduate students at accredited colleges or universities provided that the work performed for the agency is to be used by the student as a basis for completing certain academic requirements toward a graduate degree. Employments under this provision may be continued only so long as the foregoing conditions are met, and the total period of such employment shall not exceed one year in any individual case: *Provided*, That such employment may, with the approval of the Commission, be extended for not to exceed an additional year.

(q) Postions at grade GS–7 and below when appointees are to assist scientific, professional, or technical employees. Persons employed under this provision shall be: (1) Bona fide high school science or mathematics teachers or (2) bona fide students at high schools or accredited colleges or universities who are pursuing courses related to the field in which employed. No person shall be employed under this provision in (i) positions of a routine clerical type or (ii) in excess of 1040 working hours a year; except that the 1040 working-hours-a-year limitation shall not apply to positions at grade GS–4 and below which are established in connection with associate degree cooperative education programs. Students enrolled in bachelor's degree cooperative education programs as defined in § 213.3202(a) of this Part shall not be employed under this provision. Appointments under this authority may be made only to positions for which qualification standards established under Part 302 of this chapter are consistent with the education and experience standards established for comparable positions in the competitive service.

(r) All positions of a project nature when filled by individuals the salaries of whom are paid out of (1) funds allocated by the President under authority of Pub. L. 87–658, approved September 14, 1962, the Public Works Acceleration Act; or (2) funds allocated by the Secretary of Commerce under authority of title X of the Public Works and Economic Development Act of 1965, as amended. Employment under this authority shall be for a temporary period not to exceed 1 year. No new appointments of persons paid out of funds allocated under title X of Public Works and Economic Development Act may be made after September 30, 1976.

(s) [Reserved]

(t) Positions when filled by mentally retarded persons in accordance with written agreements executed between an agency and the Commission. Provisions to be included in such agreements are specified in the Federal Personnel Manual.

(u) Subject to prior approval of the Commission, positions when filled by severely handicapped persons who (1) under temporary appointment, have demonstrated their ability to perform the duties satisfactorily; or (2) are certified by counselors of State Vocational Rehabilitation agencies or the Veterans Administration as likely to succeed in the performance of the duties.

(v) Temporary Summer Aid positions whose duties involve work of a routine nature not regularly covered under the General Schedule and requiring no specific knowledge or skills, when filled by youths appointed for summer employment under such economic or educational needs standards as the Commission may prescribe. A person may not be appointed unless he has reached his sixteenth but not his twenty-second birthday, or employed for more than 700 hours under this paragraph. This paragraph shall apply only to the positions whose pay is fixed at the equivalent of the highest minimum wage rate established by the Fair Labor Standards Act of 1938, as amended. However, during 1974 an agency shall not fix the pay at a rate less than that paid to Summer Aids by Federal agencies (other than the Postal Service) in the geographic area concerned in 1973.

(w) Part-time or intermittent positions the duties of which involve work of a routine nature when filled by students appointed in furtherance of the President's Youth Opportunity Stay-in-School Campaign and when the following conditions are met: (1) Appointees are enrolled in or accepted for enrollment in a resident secondary school or institution of higher learning, accredited by a recognized accrediting body; (2) employment does not exceed 16 hours in any calendar week (40 hours in any calendar week which falls within a vacation period); (3) while employed, appointees continue to maintain an acceptable school standing, although they need not attend school during the summer; (4) appointees need the earnings from the employment to continue in school; and (5) salaries are fixed by the agency head at a level commensurate with the duties assigned and the expected level of performance. Appointments under this authority may not extend beyond 1 year: *Provided*, That such appointments may be extended for additional periods of not to exceed 1 year each if the conditions for initial appointment are still met. A person may not be appointed under this authority unless he has reached his 16th but not his 22d birthday. No new appointments may be made under this authority between May 1 and August 31, inclusive.

(x) Subject to prior approval of the Commission, positions for which a local recruiting shortage exists when filled by inmates of Federal and District of Columbia penal and correctional institutions under work release programs authorized by the Prisoner Rehabilitation Act of 1965 and the District of Columbia Work Release Act. Initial appointments under this authority may not exceed one year. An initial appointment may be extended for one or more periods not to exceed one additional year each with the prior approval of the Commission upon a finding that the inmate is still in a work release status and that a local recruiting shortage still exists. No person may serve under this authority longer than one year beyond the date he is released from custody.

(y) Positions at grade GS–2 and below for summer employment, as defined in § 213.3101(d), of assistants to scientific, professional, and technical employees, when filled by finalists in national science contests under hiring programs approved by the Commission.

(z) Not to exceed 30 positions of assistants to top-level Federal officials when filled by persons designated by the President as White House Fellows.

(aa) Scientific and professional research associate positions at GS–11 and above when filled on a temporary basis by persons having a doctoral degree in an appropriate field of study for research activities of mutual interest to appointees and their agencies. Appointments are limited to persons referred by the National Research Council under its postdoctoral research associate program and may be made initially for 1 year only. An agency may extend an appointment made under this authority for up to 1 additional year when the program committee at the laboratory concerned determines that extension will benefit both the associate and the laboratory.

(bb) Subject to prior approval of the Commission, positions when filled by aliens in the absence of qualified citizens.

(cc) Positions at GS–15 and below when filled by persons identified as Interchange Executives by the President's Commission on Personnel Interchange. Appointments made under this authority may not extend beyond 2 years.

(dd) Positions at the grade GS–12 through GS–15 levels when filled by persons designated as Fellows under the Brookings Institution's Economic Policy Fellowship Program. Appointments made under this authority may not exceed 2 years in duration and no appointment may extend beyond June 30, 1975.

(ee) Positions in research and development facilities when filled for not to exceed 1 year by scientists and engineers appointed under a program of Presidential internships. No new appointments may be made under authority after December 31, 1973.

(ff) Not to exceed 25 positions when filled in accordance with an agreement between the Commission and the Department of Justice by persons in programs administered by the Attorney General of the United States under Pub. L. 91–452 and related statutes. A person appointed under this authority may continue to be employed under it after he ceases to be in a qualifying program only as long as he remains in the same agency without a break in service.

(gg) Positions providing direct services to Indo-Chinese refugees or directly aiding the refugee resettlement program when filled by noncitizens previously employed by the United States in Vietnam and Cambodia. Service under this authority may not exceed 2 years. No new appointments may be made under this authority after June 30, 1976.

V 401243 DEC 17 75 XUM

§ 213.3103 Executive Office of the President.

(a) *Office of Science and Technology.* (1) All professional positions on the Staff of the Office.

(b) [Reserved]

(c) *Council on Environmental Quality.* (1) Professional and technical positions in grades GS–13 through 15 on the staff of the Council.

(d) [Reserved]

(e) *Office of Telecommunications Policy.* (1) Professional positions in grades GS–13 through 15 on the staff of the Office.

(2) All positions assigned to the staff of the Domestic Council Committee on the Right of Privacy in grades GS–7 through GS–15.

(f) *Special Action Office for Drug Abuse Prevention.* (1) After December 1, 1973, all positions on the staff of the Special Action Office for Drug Abuse Prevention not filled in the competitive service or under another authority. No one may serve under this authority after June 30, 1975.

§ 213.3104 Department of State.

(a) *Office of the Secretary.* (1) Six physical science administration officers at GS–14 and above in International Scientific and Technological Affairs.

(2)–(4) [Reserved]

(5) Executive Officer, Executive Secretariat.

(b) [Reserved]

(c) *International Boundary and Water Commission, United States and Mexico.* (1) Gage readers employed part-time or intermittently at isolated localities when, in the opinion of the Commission, appointment through competitive examination is impracticable.

(d) *International Boundary Commission, United States and Canada.* (1) Temporary and intermittent field employees such as instrumentmen, foremen, recorders, packers, cooks, and axemen, for not to exceed 130 working days or 6 months within any 1 calendar year.

§ 213.3105 Department of the Treasury.

(a) [Reserved]

(b) *U.S. Customs Service.* (1) Positions in foreign countries designated as "interpreter-translator" and "special employees," when filled by appointment of persons who are not citizens of the United States; and positions in foreign countries of messenger and janitor.

(2) [Reserved]

(3) Positions of part-time, intermittent, or temporary Customs Inspectors, and Port Directors in Alaska paid at a rate not above GS–9 and for not more than 130 working days in a service year.

(4) Positions of day "pickup" laborers whose assignments are to intermittent duties of short duration that must be performed without delay in field establishments where hiring of "pickup" laborers is authorized by the Bureau of Customs headquarters. Persons appointed under this authority may not be employed in this kind of work in the Bureau of Customs for more than 180 working days a year under this authority or under a combination of this authority and any other authority for excepted appointment that may be appropriate. This authority is not appropriate for job employment.

(5) Positions at GS–9 and below of Customs Enforcement Officer, Customs Inspector, Customs Marine Clerk/Officer, Customs Aid (sampling), Customs Warehouse Officer, Port Director, Interpreter, and Laborer, with duties of a continuing nature that require the part-time or intermittent service of an employee for not more than 700 hours in his service year. An individual appointed under this exception may not be employed in the Bureau of Customs under a combination of this and any other exception for more than 700 hours in his service year.

(6) Twenty-five positions of Criminal Investigator for special assignments.

(7) [Reserved]

(8) Staff assistant positions established to aid in the reorganization of the Bureau of Customs under Reorganization Plan No. 1 of 1965, when filled by persons with 1 year or more of current service as a Presidential appointee in a key position in the Bureau. No person may be employed under this paragraph in excess of 3 years.

(9) Not to exceed 25 positions of Customs Patrol Officers in the Papago Indian Agency in the State of Arizona when filled by the appointment of persons of one-fourth or more Indian blood.

(c) *Office of Trade, Energy, and Financial Resources Policy Coordination.* (1) Not to exceed 10 positions at the equivalent of GS–13 through GS–17 to supplement the permanent staff in the study of complex problems relating to international trade and energy policies and programs of the Government, when filled by individuals with special qualifications for the particular study being undertaken. Employment under this authority may not exceed 4 years.

(d) [Reserved]

(e) *Internal Revenue Service.* (1) Twenty positions of investigator for special assignments.

(f) *Office of the Assistant Secretary for International Affairs.* (1) Not to exceed 10 positions in the Research and Planning Office at the equivalent of GS–13 through GS–17 to supplement the permanent staff in the study of complex problems relating to international financial and economic policies and programs of the Government, when filled by individuals with special qualifications for the particular study being undertaken. Employment under this authority may not exceed 4 years.

(g) *Bureau of Alcohol, Tobacco, and Firearms.* (1) Thirty positions of investigator for special assignments.

§ 213.3106 Department of Defense.

(a) *Office of the Secretary.* (1) Five Special Advisers in the immediate office of the Secretary or Deputy Secretary with responsibility for studies and recommendations in broad program areas. These positions have advisory rather than operating duties, except as operating or administrative responsibility may be exercised in connection with pilot studies.

(2) Positions assigned exclusively to Communications Intelligence Activities.

(3) Positions assigned to or in support of special classified training activities.

(4) Three Staff Assistants.

(5) Director, Intelligence Resources and Programs, OASD (Administration).

(6) One Executive Secretary, US-USSR Standing Consultative Commission and Staff Analyst (SALT), Office of the Assistant Secretary of Defense (International Security Affairs).

(b) *Entire Department (including the Office of the Secretary of Defense and the Departments of the Army, Navy, and Air Force).* (1) Professional positions in Military Dependent School Systems overseas.

(2) Positions in attache systems overseas, including all professional and scientific positions in the Naval Research Branch Office in London.

(3) Positions of clerk-translator, translator, and interpreter overseas.

(4) Positions of Educational Specialist the incumbents of which will serve as Director of Religious Education on the Staffs of the Chaplains in the military services.

(5) Positions under the program for utilization of alien scientists approved under pertinent directives administered by the Director of Defense Research and Engineering of the Department of Defense when occupied by alien scientists initially employed under the program including those who have acquired United States citizenship during such employment.

(6) Positions in overseas installations of the Department of Defense when filled by dependents of military or civilian employees of the Department resident in the area. Employment under this authority may not extend longer than 2 months following the transfer from the area or the separation of a dependent's sponsor: *Provided*, That (i) a school employee may be permitted to complete the school year; and (ii) an employee other than a school employee may be permitted to serve up to 1 additional year when the military department concerned finds the additional employment is in the interest of management.

(7) Positions assigned to all Cryptologic Intelligence Activities/Functions of the Military Departments.

(8) The Dean, Associate Dean, faculty members, and teaching/research assistant positions on the staff of the Uniformed Services University of the Health Sciences.

(c) *Interdepartmental Activities.* (1) Positions in support of National Security Programs and Space Council Activities.

(d) *General.* (1) Positions concerned with advising, administering, supervising or performing work in the collection, processing, analysis, production, evaluation, interpretation, dissemination, and estimation of intelligence information, including scientific and technical positions in the intelligence function; and

positions involved in the planning, programming, and management of intelligence resources when, in the opinion of the Commission, it is impracticable to examine. This authority does not apply to positions assigned to Cryptologic and Communications Intelligence Activities/Functions.

§ 213.3107 Department of the Army.

(a) *General.* (1) Positions the duties of which are of a quasi-military nature and involve the security of secret or confidential matter when, in the opinion of the Commission, appointment through competitive examination is impractical. This authority does not apply to positions assigned to Cryptologic Intelligence Activities/Functions.

(2) Unskilled laborers and munitions handlers engaged in handling Ordnance materiel, including ammunition, where temporary or intermittent employment is necessary.

(3) Student occupational therapist positions in Army hospitals. Appointments to these positions will not extend beyond the training period applicable to each individual case, which is a minimum of 3 months' training and a maximum of 12 months' training, depending upon the individual's previous clinical training.

(4) [Reserved]

(5) Positions assigned exclusively to Army Communications Intelligence Activities.

(6) Trainee student medical technologist (intern) positions at the Rodriguez Army Hospital, Fort Brooke, Puerto Rico. Appointments to these positions will not extend beyond the training period applicable to each individual case, depending upon the individual's previous clinical training. Employment under this provision may not exceed 1 year in any individual case: *Provided*, That such employment may, with the approval of the Commission, be extended for not to exceed an additional year. This authority shall be applied only to positions whose compensation is fixed in accordance with the provisions of section 3 of Pub. L. 80–330.

(7) [Reserved]

(8) Not to exceed 350 positions of members of treatment and counseling teams and related positions, such as those of ward attendants and occupational therapy assistants, to assist in the implementation of an alcohol and drug abuse prevention and control program, when filled by persons who have a history of alcoholism or drug addiction and who have been successfully treated.

(9) Positions of civilian technicians in an Army Reserve unit designated by the Department to participate in a special CONARC test program, when filled on a temporary basis by members of Reserve components who have military occupational specialties required for test purposes. No appointment may extend beyond September 30, 1974.

(b) *Transportation Corps.* (1) Longshoremen and stevedores employed at ports of embarkation in the United States; and all positions on vessels operated by the Transportation Corps.

(c) *Corps of Engineers.* (1) Land appraisers employed on a temporary basis for a period not to exceed 1 year on special projects where knowledge of local values or conditions or other specialized qualifications not possessed by appraisers regularly employed by the Corps of Engineers are required for successful results.

(2) Nonsupervisory positions of custodial laborer (levels 1, 2, and 3) and general laborer (levels 2 and 3) on survey, construction, short-term maintenance, or floating-plant operations, where because of turnover, lack of housing facilities, mobility of work site, or remoteness of personnel servicing facilities, an adequate labor force can be recruited only by immediate gate hiring on a local basis. This authority can be used only when the Commission has determined that it is specifically applicable to a given situation; ordinarily, it will not be used for employment in Civil Service central office, regional, and branch office cities or in cities where there is a local Board of U.S. Civil Service Examiners to service the employing establishment.

(d) *U.S. Military Academy, West Point, N.Y.* (1) Civilian professors, instructors, teachers (except teachers at the Children's School), hostesses, chapel organist and choirmaster, librarian when filled by an officer of the Regular Army retired from active service, and military secretary to the Superintendent when filled by a Military Academy graduate retired as a regular commissioned officer for disability.

(e) *National War College, Washington, D.C.* (1) Civilian directors of studies for employment of not to exceed 1 year: *Provided*, That such employment may, with the prior approval of the Commission, be extended for not to exceed 2 additional years.

(f) *Joint Brazil-United States Defense Commission.* (1) One position of clerk-stenographer-translator or civilian aide requiring a knowledge of English, Portuguese, and Spanish.

(g) *Defense Language Institute.* (1) Positions of instructors whose duties require proficiency in the teaching of a foreign language, and supervisory instructors whose duties require a background in language teaching.

(2) Clerical and Education Aid positions (except at the English Language School) whose incumbents are required to have a foreign language knowledge and whose duties require rapid and accurate typing, writing, proofreading or related skills used in the production of foreign language materials.

(3) [Reserved]

(4) Foreign language instructor positions at local Army language training facilities established pursuant to the Defense Language Program.

(5) Foreign language subject-matter specialist positions in the research and development program whose duties require native proficiency in a given foreign language to assist in the development and evaluation of instructional material and methods directly related to the teaching of foreign languages. Initial appointments under this authority may not exceed 1 year, but may be extended for no more than a total of 3 additional 1-year periods with prior approval of the Director, Defense Language Institute.

(h) *Army War College, Carlisle Barracks, Pa.* (1) One position of Educational Specialist for employment of not to exceed 1 year: *Provided*, That such employment may, with the prior approval of the Commission, be extended for not to exceed 1 additional year.

(i) *Defense Systems Management School, Fort Belvoir, Va.* (1) The Deputy Commandant and professors in grades GS–13 through 15.

(j) *U.S. Military Academy Preparatory School, Fort Monmouth, New Jersey.*

(1) Positions of Academic Director, Department Head and Instructor.

§ 213.3108 Department of the Navy.

(a) *General.* (1) Intelligence and counterintelligence positions assigned to Naval Intelligence Activities/Functions, except positions in Cryptologic Intelligence Activities/Functions. Use of this authority outside the Naval Intelligence Command requires prior certification by the Commander, Deputy Commander, or Assistant Deputy Commander that the incumbent will perform duties concerned with the specific function in carrying out assigned responsibilities.

(2) [Reserved]

(3) [Reserved]

(4) Not to exceed 50 positions of resident-in-training at U.S. naval regional medical centers, hospitals, and dispensaries which have residency training programs, when filled by residents assigned as affiliates for part of their training from non-Federal hospitals. Assignments shall be on a temporary (full-time or part-time) or intermittent basis, shall not amount to more than 6 months for any person, and shall be applied only to persons whose compensation is fixed under 5 U.S.C. 5351–54.

(5) One Staff Assistant to the Naval Aide to the President.

(6) [Reserved]

(7) Positions of student social worker for temporary, part-time, or intermittent employment in U.S. naval regional medical centers, hospitals, and dispensaries, when filled by bona fide students enrolled in academic institutions: *Provided*, That the work performed in the agency is to be used by the student as a basis for completing certain academic requirements by such educational institution to qualify for a graduate degree in social work. This authority shall be applied only to students whose compensation is fixed under 5 U.S.C. 5351–54.

(8) Positions of student practical nurse for temporary, part-time, or intermittent employment in U.S. naval regional medical centers, hospitals, and dispensaries, when filled by trainees enrolled in a non-Federal institution in an approved program of educational and clinical training which meets the requirements for licensing as a practical nurse. This authority shall be applied only to trainees whose compensation is fixed under 5 U.S.C. 5351–54.

V 40 243 DEC 17 75 XUM

(9) One Personnel Security Specialist, Naval Personnel Program Support Activity, Bureau of Naval Personnel.

(10) Positions of medical technology intern in U.S. naval regional medical centers, hospitals, and dispensaries, when filled by students enrolled in approved programs of training in non-Federal institutions. Employment under this authority may be filled on a full-time, part-time, or intermittent basis but may not exceed 1 year. This authority shall be applied only to students whose compensation is fixed under 5 U.S.C. 5351–54.

(11) Positions of medical intern at U.S. naval regional medical centers, hospitals, and dispensaries, when filled by persons who are serving medical internships at participating non-Federal hospitals and whose compensation is fixed under 5 U.S.C. 5351–54. Employment under this authority may not exceed 1 year.

(12) Positions of student speech pathologist at U.S. naval regional medical centers, hospitals, and dispensaries, when filled by persons who are enrolled in participating non-Federal institutions and whose compensation is fixed under 5 U.S.C. 5351–54. Employment under this authority may not exceed 1 year.

(13) Positions of student dental assistant in U.S. naval dental centers, clinics, and departments, when filled by students who are enrolled in an approved dental assistant program in a participating non-Federal institution, and whose compensation is fixed under 5 U.S.C. 5351–54. Employment under this authority may not exceed 1 year.

(14) Not to exceed 100 positions of rehabilitation counselors and therapists in grades GS–3 through 11 to assist in the implementation of a drug rehabilitation program when filled by persons who have a history of drug addiction and who have been successfully treated. No new appointments may be made under this authority after July 31, 1973.

(15) Marine positions assigned to a coastal or seagoing vessel operated by a naval activity for research or training purposes.

(b) *Naval Academy, Naval Postgraduate School, and Naval War College.* (1) Professors, instructors, and teachers; and the librarian, organist-choirmaster, registrar, the dean of admissions, and social counselors at the Naval Academy.

(c) *Naval Home.* (1) Positions of orderly when filled by the appointment of beneficiaries of the Home.

(d) *Military Sealift Command.* (1) All positions on vessels operated by the Military Sealift Command.

(e) [Reserved]

(f) [Reserved]

(g) *Office of Naval Research.* (1) Not to exceed 5 positions of Liaison Scientist, GS–13/15, in the office of Naval Research Branch Office in Japan, when filled by research scientists who have specialized experience in scientific disciplines of current interest to the Department and who have a demonstrated ability to deal with the Japanese scientific community in their disciplines. An appointment under this authority may be made initially for a period not to exceed 2 years. With the prior approval of the Commission, total employment under this authority may be for as long as 3 years.

§ 213.3109 Department of the Air Force.

(a) *Office of the Secretary.* (1) Three Special Assistants in the Office of the Secretary of the Air Force. These positions have advisory rather than operating duties except as operating or administrative responsibilities may be exercised in connection with the pilot studies.

(b) [Reserved]

(c) [Reserved]

(d) *U.S. Air Force Academy, Colorado.* (1) Positions of Cadet Hostesses, Instructors in Physical Education, and two Instructors in Music (Choirmasters).

(e) *Air Force Systems Command.* (1) Not to exceed 12 positions of engineer, GS–14–15, at the Aeronautical Systems Division, Wright-Patterson Air Force Base, when filled on a temporary basis by persons serving under an agreement with aerospace contractors. Employment under this authority is limited to 4 years.

§ 213.3110 Department of Justice.

(a) *General.* (1) Deputy U.S. Marshals employed on an hourly basis for intermittent service.

(2) Positions of temporary deputy marshals in lieu of bailiff in the U.S. courts when employed on an intermittent basis.

(3) U.S. Marshal in the Virgin Islands.

(4) [Reserved]

(5) Thirty positions of Field Representative, GS–9 through GS–14, in the Community Relations Service for temporary or intermittent employment for not to exceed 130 working days a year.

(6) Not to exceed 20 positions of Field Representative Trainee, GS–5–7, in the Community Relations Service, for employment on college campuses for not to exceed 130 working days a year. Employment under this authority is limited to 1 year: *Provided*, That an appointment may be extended for one additional year with the prior approval of the Commission.

(b) *Immigration and Naturalization Service.* (1) Information Officer.

(2) Four positions of Regional Commissioner.

(c) *Drug Enforcement Administration.* (1) 154 special agent positions for undercover work.

(2) 150 positions of Intelligence Research Agent and/or Intelligence Operation Specialist in the GS–132 series, grades GS–9 through GS–15.

§ 213.3112 Department of the Interior.

(a) *General.* (1) Temporary, intermittent, or seasonal positions in the field service of the Department of the Interior, when filled by the appointment of persons who are certified as maintaining a permanent and exclusive residence within, or contiguous to, a field activity or district, and as being dependent for livelihood primarily upon employment available within the field activity of the Department.

(2) All positions on Government-owned ships or vessels operated by the Department of the Interior.

(3) Temporary or seasonal caretakers at temporarily closed camps or improved areas to maintain grounds, buildings, or other structures and prevent damages or theft of Government property. Such appointments shall not extend beyond 130 working days a year without the prior approval of the Commission.

(4) Temporary, intermittent, or seasonal field assistants at GS–5, or its equivalent, and below in such areas as forestry, range management, soils, engineering, fishery and wildlife management, and with surveying parties. Employment under this authority shall not exceed 180 working days a year for positions at GS–4 and below in survey parties in the Bureau of Land Management and Geological Survey and shall not exceed 130 working days a year for other positions authorized under this subparagraph. This authority shall not apply to positions of field assistants engaged in fishery management work in Alaska.

(5) Temporary positions established in the field service of the Department for emergency forest and range fire prevention or suppression and blister rust control for not to exceed 180 working days a year: *Provided*, That an employee may work as many as 220 working days a year when employment beyond 180 days is required to cope with extended fire seasons or sudden emergencies such as fire, flood, storm, or other unforeseen situations involving potential loss of life or property.

(6) Persons employed in field positions, the work of which is financed jointly by the Department of the Interior and cooperating persons or organizations outside the Federal service.

(7) All positions in the Bureau of Indian Affairs and other positions in the Department of the Interior directly and primarily related to the providing of services to Indians when filled by the appointment of Indians who are one-fourth or more Indian blood.

(8) Subject to prior approval of the Commission, temporary, intermittent, or seasonal positions at GS–7 or below in Alaska, as follows: Positions in nonprofessional mining activities, such as those of drillers, miners, caterpillar operators, and samplers; and positions of field assistants engaged in fishery management work. Employment under this authority shall not exceed 180 working days a year and shall be appropriate only when the activity is carried on in a remote or isolated area, there is no Board of U.S. Civil Service Examiners to service the employing establishment, and there is a shortage of available candidates for the positions.

(9) Subject to prior approval of the Commission, temporary, part-time, or intermittent employment of mechanics, skilled laborers, equipment operators and tradesmen on construction, repair, or maintenance work for not to exceed 180 working days a year in Alaska, when the activity is carried on in a remote or isolated area, there is no Board of U.S. Civil Service Examiners to service the employing establishment, and there is a shortage of available candidates for the positions.

(10) Seasonal airplane pilots and airplane mechanics in Alaska, not to exceed 180 working days a year.

(b) *Bureau of Indian Affairs.* (1) Housekeeper positions at a gross salary not in excess of the entrance rate of grade GS–4 or its equivalent when, because of isolation or lack of quarters, appointment through competitive examination is, in the opinion of the Commission, impracticable.

(2) Subject to prior approval of the Commission, assistants in Alaska native schools (not including teachers and instructors) at a salary rate not in excess of that of GS–4 or its equivalent where the schools are in isolated or remote areas or lack suitable quarters.

(c) *Indian Arts and Crafts Board.* (1) The Executive Director.

(d) *Bonneville Power Administration.* (1) Five Area Managers.

(e) *Office of Territories.* (1) The Clerk of the High Court of American Samoa.

(2) and (3) [Reserved]

(4) Special Assistants to the Governor of American Samoa who perform specialized administrative, professional, technical, and scientific duties as members of his immediate staff.

(f) *National Park Service.* (1) Park Ranger positions (appropriate specializations) at salaries equivalent to GS–5 or GS–4 and those equivalent to grade GS–7 or GS–6 in which the duties are supervisory or are limited to a highly specialized part of the duties performed by career protective or interpretive personnel of the National Park Service. (The total number of Park Ranger and Park Technician positions at salaries equivalent to GS–7 and GS–6 excepted under this subparagraph and subparagraph (2) of this paragraph shall not exceed 200.) Employment under this subparagraph is limited to persons who meet the qualification standards for each salary level which have been agreed upon by the Commission and the Department. These standards include as a minimum the following number of previous seasons' experience in the National Park Service as a Park Ranger at a salary equivalent to the next lower grade:

(i) For IGS–7: Two seasons at IGS–6 level.

(ii) For IGS–6: Two seasons at IGS–5 level.

(iii) For IGS–5: One season at IGS–4 level.

Employment under this subparagraph shall be only for duty that is temporary, intermittent, or seasonal, and no person shall be employed by the same appointing office in the National Park Service under this subparagraph or a combination of this and any other excepting authorities in excess of 180 working days a year.

(2) Park Aid and Park Technician positions at salaries equivalent to GS–2 through GS–5 to perform technical and practical work supporting the management, conservation, interpretation, development, and use of park areas and resources; and positions at salaries equivalent to GS–7 and GS–6 in which the duties are supervisory or are limited to a highly specialized part of the duties performed by career resources management, interpretive or visitor service personnel of the National Park Service. (The total number of Park Technician and Park Ranger positions at salaries equivalent to GS–7 and GS–6 excepted under this subparagraph and subparagraph (1) of this paragraph shall not exceed 200.) Employment under this subparagraph is limited to persons who meet the qualification standards for each salary level which have been agreed upon by the Commission and the Department. These standards include as a minimum the following number of previous seasons' experience in the National Park Service as a Park Aid or Park Technician equivalent to the next lower grade:

(i) For IG–7; Two seasons at IGS–6 level.

(ii) For IGS–6; Two seasons at IGS–5 level.

(iii) For IGS–5; One season at IGS–4 level.

(iv) For IGS–4; One season at IGS–3 level or its equivalent in experience.

(v) For IGS–3; One season at IGS–2 level or its equivalent in experience.

Employment under this subparagraph shall be only for duty that is temporary, intermittent, or seasonal, and no person shall be employed by the same appointing office in the National Park Service under this subparagraph or a combination of this and any other excepting authorities in excess of 180 working days a year.

(g) *Bureau of Reclamation.* (1) Appraisers and examiners employed on a temporary, intermittent, or part-time basis on special valuation or prospective-entrymen-review projects where knowledge of local values or conditions or other specialized qualifications not possessed by regular Bureau employees are required for successful results. Employment under this provision shall not exceed 130 working days a year in any individual case: *Provided*, That such employment may, with prior approval of the Commission, be extended for not to exceed an additional 50 working days in any single year.

(h) *Office of the Deputy Assistant Secretary for Territorial Affairs.* (1) Positions of Territorial Management Interns, GS–5, when filled by persons selected by the Government of the Trust Territory of the Pacific Islands. No appointment may extend beyond 1 year.

§ 213.3113 Department of Agriculture.

(a) *General.* (1) Agents employed in field positions the work of which is financed jointly by the Department and cooperating persons, organizations, or governmental agencies outside the Federal service. Except for positions for which selection is jointly made by the Department and the cooperating organization, this authority is not applicable to positions in the Agriculture Research Service, the Animal and Plant Health Inspection Service, or positions in the Statistical Reporting Service. This authority is not applicable to the following positions in the Agricultural Marketing Service: Agricultural Commodity grader (grain) and (meat), (poultry), and (dairy) agricultural commodity aid (grain), and tobacco inspection positions.

(2) Any local veterinarian employed on a fee basis or a part-time basis.

(3) Not to exceed 25 professional, scientific, or technical positions in grade GS–7 or higher to be filled on an exchange basis by qualified employees on the rolls of State governments, colleges, or universities, for a limited period not to exceed 1 year.

(4) [Reserved]

(5) Temporary, intermittent, or seasonal employment in the field service of the Department in positions at and below GS–7 and WG–10 in the following types of positions: Field assistants for subprofessional services; caretakers at temporarily closed camps or improved areas; field enumerators and supervisors; forest workers engaged primarily for fire prevention or suppression activities and other forest workers employed at headquarters other than forest supervisor and regional offices; State performance assistants in the Agricultural Stabilization and Conservation Service; collectors of the Farmers Home Administration; agricultural commodity aids (cotton) in the Agricultural Marketing Service; agricultural helpers, helper-leaders, and workers in the Agricultural Research and the Animal and Plant Health Inspection Service; and, subject to prior Commission approval granted in the calendar year in which the appointment is to be made, other clerical, trades, crafts, and manual labor positions. Total employment under this subparagraph may not exceed 180 working days in a service year: *Provided*, That an employee may work as many as 220 working days in a service year when employment beyond 180 days is required to cope with extended fire seasons or sudden emergencies such as fire, flood, storm, or other unforeseen situations involving potential loss of life or property. This paragraph does not cover trades, crafts, and manual labor positions covered by paragraphs (l) and (m) of § 213.3102.

(6) Not to exceed eight positions whose incumbents serve on an intermittent or temporary basis as field representatives of the Department of Agriculture and in this capacity represent the Department's Disaster Committee in conducting surveys and appraisals of conditions in areas whose status as "major disaster" areas under Pub. L. 81–875, is under consideration. Employment under this authority shall not exceed 130 working days a year.

(7) [Reserved]

(8) Not to exceed 10 positions directly concerned with programs of the Department for employment of Cuban refugees possessing college-level training appropriate for such positions. No new appointments may be made under this authority after December 31, 1968.

(9) Not to exceed 15 positions of Program Assistant GS–12 through 15 when filled by persons whose current service in

V 40 243 DEC 17 75 XUM

agricultural programs of the Department at the State level has provided specialized knowledge and experience needed by the Department for the more efficient administration of its programs. No new appointments may be made under this authority after June 30, 1970.

(b) *Office of the Secretary.* (1) Special Livestock Loans Committeemen employed for not more than 180 working days a year, to approve and direct the servicing of emergency livestock loans.

(2) The positions of the two members and two alternate members of the Board of Forest Appeals which must be filled under departmental regulation by persons who have not been Federal employees for 2 years before appointment. Employment under this exception shall be on a when-actually-employed basis.

(c) *Forest Service.* (1) Temporary, intermittent, or seasonal positions when filled by the appointment of persons who are certified as maintaining a permanent and exclusive residence within, or contiguous to, a national forest and as being dependent for livelihood primarily upon employment available within the national forest.

(2) Positions in Alaska of Laborers, Boat Operators, Mechanics, Equipment Operators, and Carpenters whose duties require the operation of boats in coastal waters and/or the establishment and maintenance of work camps in remote areas.

(d) *Agricultural Stabilization and Conservation Service.* (1) Six positions of Regional Director at GS–14 and GS–15.

(2) Members of State Committees.

(3) State Executive Directors.

(e) *Farmers Home Administration.* (1) State committeemen to consider, recommend, and advise with respect to the Farmers Home Administration program.

(2) County committeemen to consider, recommend, and advise with respect to the Farmers Home Administration program.

(3) Temporary positions whose principal duties involve the making and servicing of emergency loans pursuant to current statutes authorizing emergency loans. Appointments under this provision shall not exceed 1 year unless extended with the prior approval of the Commission for additional periods not to exceed 1 year each.

(4) State Directors and not to exceed three positions of State Director-at-Large.

(5) Temporary positions in State and county offices of the Farmers Home Administration whose principal duties involve the making and servicing of loans pursuant to the Economic Opportunity Act of 1964. Appointments under this provision shall not exceed 1 year unless extended with prior Commission approval for not to exceed 1 additional year.

(6) Professional and clerical positions in the Trust Territory of the Pacific Islands when occupied by indigenous residents of the Territory to provide financial assistance pursuant to current authorizing statutes.

(f) *Agricultural Marketing Service.* (1) Positions of cotton classers GS–9 and below, clerks GS–2, supervisory clerks GS–3, and laborers, employed on a seasonal basis in cotton-classing offices outside the Washington, D.C. Metropolitan Area. Employment under this authority (or under a combination of this authority and any other excepting authority) shall not exceed 1,280 hours a year in the case of cotton classers and laborers, and 1,040 hours a year in the case of clerks; except that a GS–5 cotton classer may be employed as a trainee during his first appointment for an initial period of 6 months for training purposes without regard to the above time limitation.

(2) [Reserved]

(3) Milk Market Administrators.

(4) All positions on the staffs of Milk Market Administrators.

(5) Positions of agricultural commodity graders (processed fruits and vegetables), GS–9 and below, and of graders' aides (processed fruits and vegetables), GS–2–4, for temporary employment on a part-time or intermittent basis for not to exceed 1,280 hours a year.

(6) Temporary positions at GS–9 and below of agricultural commodity graders (poultry) and agricultural commodity graders (dairy). Employment under this authority may not exceed 1,280 hours a year.

(g) *Agricultural Research Service.* (1) Field employees on programs conducted under the terms of cooperative agreements or memorandums of understanding with States or other non-Federal cooperating organizations, provided the employees are jointly selected and their salary is supplied by the cooperators on the basis of not less than a 40-percent contribution by each of the cooperators.

(h) *Foreign Agricultural Service.* (1) Agricultural Attaché positions at grade GS–16 and above where the duties require that the major portion of the employee's time be spent in foreign countries.

(i) [Reserved]

(j) *Food and Nutrition Service.* (1) Temporary positions in grade GS–4 and below, and the wage system equivalents, whose principal duties involve the distribution of food to needy families at Federal Commodity Distribution Centers. After June 30, 1971, appointments under this authority may be made only to replace employees on the rolls as of that date, or their successors.

(k) *Animal and Plant Health Inspection Service.* (1) Field employees on programs conducted under the terms of cooperative agreements or memorandums of understanding with States or other non-Federal cooperating organizations, provided the employees are jointly selected and their salary is supplied by the cooperators on the basis of not less than a 40-percent contribution by each of the cooperators.

(2) Temporary field positions concerned with the control, suppression, and eradication of emergency livestock diseases. Persons appointed under this authority may not be employed in these positions in the Animal and Plant Health Inspection Service for longer than 1 year under this authority, or under a combination of this and any other authorities for excepted appointment that may be appropriate, without prior approval of the Commission. This authority shall be appropriate only in situations declared by the Secretary of Agriculture to be emergencies threatening the livestock industry of the country.

(3) Positions of meat and poultry inspectors (veterinarians at GS–11 and below and nonveterinarians at appropriate grades below GS–11) for employment on a temporary, intermittent, or seasonal basis, not to exceed 1,280 hours a year.

§ 213.3114 Department of Commerce.

(a) *General.* (1) Agents to take and transmit meteorological observations in connection with aviation who are employed on a part-time basis and whose compensation is based on a fee for each observation performed rather than on an hourly or per annum basis: *Provided,* That the number of observations shall not exceed a daily average of 12 during any calendar month.

(2) Employment of individuals, firms, or corporations for not to exceed 1 year for special statistical studies and statistical compilations, other than Personal Census Records Service, the compensation for which is derived from funds deposited with the United States under the Act of May 27, 1935 (49 Stat. 292): *Provided,* That such employments may, with the approval of the Commission, be extended for not to exceed an additional year.

(3) Not to exceed 50 scientific and technical positions whose duties are performed primarily in the Antarctic. Incumbents of these positions may be stationed in continental United States for periods of orientation, training, analysis of data, and report writing.

(b) *Office of the Secretary.* (1) [Reserved]

(2) One Civil Aviation Specialist.

(3) One Advisor on Equal Employment Opportunity.

(4) Not to exceed 26 positions of Business Management Fellowship Program Specialist, GS–11/12.

(c) *Coast and Geodetic Survey.* (1) All civilian positions on vessels operated by the Coast and Geodetic Survey.

(2) Temporary positions required in connection with the surveying operations of the field service of the Coast and Geodetic Survey. Appointment to such positions shall not exceed 8 months in any 1 calendar year.

(d) *Bureau of the Census.* (1) Supervisors, assistant supervisors, supervisors' clerks, and enumerators in the field service, other than Current Program Interviewers, for temporary, part-time, or intermittent employment for not to exceed 1 year: *Provided,* That such appointments may be extended for additional periods of not to exceed 1 year each; but that prior Commission approval is required for extension for longer than 1 year.

(2) Current Program Interviewers employed on an intermittent basis in the field service.

(3) [Reserved]

(e)–(g) [Reserved]

(h) *Maritime Administration.* (1) Public Information Officer.

(2)–(4) [Reserved]

(5) The positions of Chief Investigator and Security Officer and Deputy Chief Investigator and Security Officer.

(6) All positions on Government-owned vessels or those bareboats chartered to the Government and operated by or for the Maritime Administration.

(7) [Reserved]

(8) One Special Assistant to the Administrator (Tanker Advisor).

(9) Two Special Assistants to the Deputy Administrator.

(10) U.S. Merchant Marine Academy positions of: Professors, Instructors, and Teachers; including heads of Departments of Physical Education and Athletics, Shipboard Training, Humanities, Mathematics and Science, Maritime Law and Economics, Nautical Science, and Engineering; the Commandant of Midshipmen, the Assistant Commandant of Midshipmen; Director of Music; and seven Company Officers.

(11) U.S. Merchant Marine Academy positions of: the Superintendent; the Assistant Superintendent for Planning; Dean; Registrar; one Educational Specialist (Director of Admissions) and one Assistant Director of Admissions; Assistant Dean; Director, Office of External Affairs; Placement Officer; Administrative Librarian; the Special Assistant to the Superintendent; three Academy Training Representatives; and Shipboard Training Assistant.

(i) *Office of the Assistant Secretary for Domestic and International Business.* (1) Thirty positions at GS–12 and above in specialized fields relating to international trade or commerce in the Bureau of International Commerce or in other units under the jurisdiction of the Assistant Secretary for Domestic and International Business. Incumbents will be assigned to advisory rather than to operating duties, except as operating and administrative responsibility may be required for the conduct of pilot studies or special projects. Employment under this authority will not exceed 2 years for any individual appointee.

(2) Not to exceed 40 positions of Managers and Deputy Managers of International Trade Fairs and Exhibit Programs in foreign countries when the duties require a considerable portion of the employee's time to be spent in foreign countries.

(3) Not to exceed 30 positions in grades GS–12 through GS–15, to be filled by persons qualified as industrial or marketing specialists, who possess specialized knowledge and experience in industrial production, industrial operations and related problems, market structure and trends, retail and wholesale trade practices, distribution channels and costs, or business financing and credit practices applicable to one or more of the current segments of U.S. industry served by the Assistant Secretary for Domestic and International Business, and the subordinate components of his organization which are involved in Domestic Business matters. Appointments under this authority may be made for a period of not to exceed two years and may, with prior approval of the Commission, be extended for an additional period of two years.

(j) *National Oceanic and Atmospheric Administration.* (1) Subject to prior approval of the Commission, which shall be contingent upon a showing of inadequate housing facilities, meteorological aid positions at the following stations in Alaska: Barrow, Bethal, Kotzebue, McGrath, Northway, and St. Paul Island.

(2) Cook positions on Swan Island.

§ 213.3115 Department of Labor.

(a) *Office of the Secretary.* (1) Chairman and two members, Employees' Compensation Appeals Board.

(2) Chairman and two members, Benefits Review Board.

(b) *Bureau of Labor Statistics.* (1) Part-time and intermittent employment for field survey and enumeration work in the Bureau of Labor Statistics. This authority is applicable to positions where the salary is equivalent to GS–5 and below. Employment within the Bureau of Labor Statistics under this authority, or a combination of this authority and any other authorities for excepted appointment, shall not exceed:

(i) 180 working days a year for positions at GS–5;

(ii) 130 working days a year for positions at GS–4 and below.

The total number of appointments at GS–5 shall not exceed 75. Appointments at the GS–3 and GS–4 grade levels are not limited in number.

(c) *Office of Federal Contract Compliance.* (1) All positions at GS–15 and below involving performance of the functions of the program known as "Plans for Progress."

(d) *Manpower Administration.* (1) Not to exceed 10 positions of Manpower Development Officer and Manpower Development Specialist in the Division of Indian Manpower Programs when filled by the appointment of persons of one-fourth or more Indian blood. These positions require direct contact with Indian tribes and communities in the development and administration of comprehensive manpower training and employment programs.

§ 213.3116 Department of Health, Education, and Welfare.

(a) *National Center for Mental Health Services, Training and Research.* (1) Three Medical Officers (Surgical Resident).

(2) Student Medical Interns for temporary or part-time employment.

(3) Temporary positions of graduate nurses appointed as students for the purpose of receiving 12 weeks of training equivalent to psychiatric affiliation. This authority shall be applied only to positions whose compensation is fixed in accordance with the provisions of section 3 of Pub. L. 80–330.

(4) Three positions of Medical Officers (Radiology Resident): *Provided,* That employment under this authority shall not exceed 1 year, except that selected residents may be nominated and reappointed for an additional year of training when the parent hospital determines that the supplemental training will meet the specialized needs of the individual resident.

(5) Eight positions of psychodrama trainees, including interns and first- and second-year residents. This authority shall be applied only to positions with compensation fixed under 5 U.S.C. 5351 and 5352.

(6) Two Medical Officers (Anatomical Pathology Resident) for not to exceed 2 years' employment in the case of any one individual.

(7) Three Medical Officers (Internal Medicine Resident) for not to exceed 3 months' employment in the case of any one individual.

(8) Four positions of Medical Officer (Physical Medicine and Rehabilitation Resident): *Provided,* That employment under this authority shall not exceed 1 year, except that selected residents may be nominated and reappointed for an additional year of training when the parent hospital determines that the supplemental training will meet the specialized needs of the individual resident. Initial appointments may be made at any level within the 3-year residency as approved by the American Medical Association.

(9) Positions of Chaplain Residents: *Provided,* That employment under this authority shall not exceed 39 months for any individual. This authority shall be applied only to positions whose compensation is fixed in accordance with the provisions of 5 U.S.C. sections 5351 and 5352.

(10) One position of Medical Officer (Ophthalmology Resident) when filled by persons whose compensation is fixed under 5 U.S.C. 5351–5356. Employment under this authority may not exceed 4 months.

(b) *Public Health Service.* (1) Special escorts to accompany patients of the Public Health Service in accordance with existing laws and regulations. Employment under this subparagraph shall be only for the period of time necessary for the escort to deliver the patient to his destination and to return.

(2) Positions at Government sanatoria when filled by patients during treatment or convalescence.

(3) All positions in leprosy investigation stations.

(4) Positions concerned with problems in preventive medicine financed or participated in by the Department of Health, Education, and Welfare and a cooperating State, county, municipality, incorporated organization, or an individual in which at least one-half of the expense is contributed by the cooperating agency either in salaries, quarters, materials, equipment, or other necessary elements in the carrying on of the work.

(5) Medical and dental interns, externs, and residents; and student nurses.

(6) Positions of scientific, professional, or technical nature when filled by bona fide students enrolled in academic institutions: *Provided,* That the work

V 40 243 DEC 17 75 XUM

performed in the agency is to be used by the student as a basis for completing certain academic requirements required by an educational institution to qualify for a scientific, professional, or technical field: *And provided further*, That appropriate exclusions of the positions under the authority of Pub. L. 80–330 have been approved by the Civil Service Commission.

(7) Student Dietitians and Resident Physicians at Freedman's Hospital.

(8) Positions directly and primarily related to the providing of services to Indians when filled by the appointment of Indians who are one-fourth or more Indian blood.

(9) Not to exceed 30 positions of clerical assistants employed on a part-time and intermittent basis to aid cooperating clinicians in non-Federal tuberculosis sanatoria in the keeping of records and the preparation of reports in connection with research studies into the effectiveness of antimicrobial agents in the treatment of tuberculosis. Persons appointed under this authority may not be employed in this kind of work in the Public Health Service for more than 180 working days in a single year under this authority or under a combination of this and any other authority for excepted appointment that may be appropriate.

(c) *Office of Education.* (1) Positions concerned with problems in education financed and participated in by the Office of Education, Department of Health, Education, and Welfare, and a cooperating State educational agency, or university or college, in which there is joint responsibility for selection and supervision of employees, and at least one-half of the expense is contributed by the cooperating agency in salaries, quarters, materials, equipment, or other necessary elements in the carrying on of the work.

(d) *Social Security Administration.* (1) Six positions of social insurance representative in the district offices of the Social Security Administration in the State of Arizona when filled by the appointment of persons of one-fourth or more Indian blood.

(2) Seven positions of social insurance representative in the district offices of the Social Security Administration in the State of New Mexico, when filled by the appointment of persons of one-fourth or more Indian blood.

(3) Two positions of social insurance representative in the district offices of the Social Security Administration in the State of Alaska when filled by the appointment of persons of one-fourth or more Alaskan Native blood (Eskimos, Indians, or Aleuts).

(e) *General.* (1) Not to exceed 40 positions in medical and related occupations for employment under the Cuban refugee program. No new appointments may be made after December 31, 1968.

(f) *The President's Council on Physical Fitness.* (1) Three staff assistants, The President's Council on Physical Fitness.

(g) *Social and Rehabilitation Administration.* (1) Not to exceed 195 positions directly concerned with programs conducted by the Department in connection with the problems of Cuban refugees: *Provided*, That new appointments shall be limited to Cuban refugees.

(h) *National Institute of Mental Health—Health Services and Mental Health Administration.* (1) Positions in the National Institute of Mental Health involving performance of various therapeutic and service assignments under a rehabilitation program concerned with the treatment of drug addicts, when filled by persons who have a history of drug addiction and who have been successfully treated.

(i) *National Center for Health Statistics.* (1) Not to exceed 20 positions of Health Examination Representative, grades GS–7 and 9, serving on Health and Nutrition Examination Survey teams of the Division of Health Examination Statistics.

§ 213.3118 Environmental Protection Agency.

(a) Not to exceed 12 positions of Sanitation Facility Trainees, WG–1 through 5, to implement the Alaska Village Demonstration Projects under the Water Quality Improvement Act of 1970. Employment under this authority may not exceed 2 years.

§ 213.3121 National Security Council.

(a) All positions on the staff of the Council.

§ 213.3123 Cabinet Committee on Opportunities for Spanish-Speaking People.

(a) All positions on the committee staff.

§ 213.3124 Board of Governors, Federal Reserve System.

(a) All positions.

§ 213.3127 Veterans Administration.

(a) *Construction Division.* (1) Temporary construction workers paid from "purchase and hire" funds and appointed for not to exceed the duration of a construction project.

(b) Not to exceed 300 positions of rehabilitation Counselors, GS–3 through GS–11, in drug and alcoholic treatment units when filled by former patients.

§ 213.3128 U.S. Information Agency.

(a) Two Liaison Officers (Congressional) in the Office of the General Counsel.

(b) One Chief of Religious Information.

§ 213.3129 Federal Power Commission.

(a) Three special assistants to the Commission.

§ 213.3130 Securities and Exchange Commission.

(a) Director, Division of Corporation Finance; Director, Division of Corporate Regulation; Director, Division of Trading and Markets.

(b) Nine positions of Regional Administrator.

(c) Positions of accountant and auditor, GS–13 through 15, when filled by persons selected under the SEC accounting fellow program. No more than three positions may be filled under this authority at any one time. An employee may not serve under this authority longer than two years.

§ 213.3132 Small Business Administration.

(a) When the President under 42 U.S.C. 1855–1855g, or the Secretary of Agriculture under 7 U.S.C. 1961 or the Small Business Administration under 15 U.S.C. 636(b)(1), declares an area to be a disaster area, positions filled by temporary appointment of employees to make and administer disaster loans in that area under the Small Business Act, as amended, for the duration of the disaster. Original appointments may not exceed 2 years and no employee may serve under this authority for longer than 2 years without the Commission's prior approval.

(b) [Reserved]

(c) Position of Community Economic-Industrial Planner, GS–7 through 12, when filled by local residents who represent the interest of the groups to be served by the Minority Enterpreneurship Teams of which they are members.

§ 213.3133 Federal Deposit Insurance Corporation.

(a) All field positions concerned with the work of liquidating the assets of closed banks or the liquidation of loans to banks, and all temporary field positions the work of which is concerned with paying the depositors of closed insured banks.

(b) One position of Chief Clerk in the San Juan, P.R., office.

§ 213.3135 National Capital Housing Authority.

(a) Executive Director.

(b) Positions of teachers engaged on a part-time or intermittent basis in the instruction of trainees enrolled in training programs on the maintenance and repair of buildings and grounds.

(c) Until December 31, 1975, one position of Chairman, Resident Involvement Workgroup, with responsibility for encouraging tenant participation in the development of a management system.

(d) Until March 1, 1976, seven positions, including two trainee positions, of Resident Housing Manager in an experimental demonstration program of public housing management improvement.

§ 213.3136 U.S. Soldiers' and Airmen's Home.

(a) All positions.

§ 213.3137 General Services Administration.

(a) *General.* (1) Custodians, guards, watchmen, laborers, and other employees engaged in the custody, care, and preservation of plants, warehouses, shipyards, airfields, and surplus facilities of a similar nature pending disposition of such facilities.

(b) [Reserved]

(c) *Office of the Regional Administrator—Region 9.* (1) One Program Assistant.

§ 213.3138 [Reserved]

§ 213.3139 U.S. International Trade Commission.

(a) The Secretary of the Commission.

§ 213.3141 National Labor Relations Board.

(a) Election Clerks and Election Examiners for temporary, part-time or intermittent employment in connection with elections under the Labor Management Relations Act.

§ 213.3142 Export-Import Bank of the United States.

(a) Three Special Assistants to the Board of Directors, grade GS–14 and above, with responsibility for carrying out special overseas assignments for the Board.

§ 213.3143 Farm Credit Administration.

(a) Federal Land Bank Association receivers and conservators.

(b) Not to exceed seven positions in the Credit Services of the Farm Credit Administration in grades GS–13 or above, requiring technical or administrative experience in the field of agricultural credit: *Provided*, That this authority may be used only when making appointments of persons who have acquired such experience in the Farm Credit Administration or in one or more of the institutions supervised by the Farm Credit Administration.

§ 213.3146 Selective Service System.

(a) State Directors.

(b) Deputy or Assistant State Directors and State Medical Officers in State Headquarters.

(c) [Reserved]

(d) Executive Secretary, National Selective Service Appeal Board.

§ 213.3147 Federal Mediation and Conciliation Service.

(a) Executive Secretary of a Board of Inquiry appointed under section 206 of the Labor-Management Relations Act of 1947 (29 U.S.C. 176).

§ 213.3148 National Aeronautics and Space Administration.

(a) One hundred fifty alien scientists having special qualifications in the fields of aeronautical and space research where such employment is deemed by the Administrator of the National Aeronautics and Space Administration to be necessary in the public interest.

(b) Forty scientific specialists to be engaged on special research projects.

(c) [Reserved]

(d) Ten medical officer positions for employment of third year medical residents in the field of aerospace medicine. An individual may not be employed more than one year under this exception.

§ 213.3149 Panama Canal Company.

(a) All positions on vessels operated by the Panama Canal Company.

§ 213.3152 U.S. Government Printing Office.

(a) One Umpire.

(b) Positions in the printing trades when filled by students majoring in printing technology employed under a cooperative education agreement with the Washington Technical Institute.

§ 213.3153 Government of the District of Columbia.

(a) Positions of noneducational employees of the Board of Higher Education, the Board of Vocational Education, the Federal City College, and the Washington Technical Institute.

§ 213.3154 Federal Home Loan Bank Board.

(a) One Secretary, Federal Home Loan Bank Board.

(b) [Reserved]

(c) All temporary field positions in the Federal Savings and Loan Insurance Corporation concerned with the work of liquidating the assets of closed insured institutions, or the liquidation of loans or the handling of contributions to insured institutions and the purchase of assets therefrom, and all temporary field positions of the Federal Savings and Loan Insurance Corporation the work of which is concerned with paying the depositors of closed insured institutions.

§ 213.3156 Commission on Civil Rights.

(a) Until June 30, 1978, 25 positions at grade GS–11 and above of employees who collect, study, and appraise civil rights information to carry out the national clearinghouse responsibilities of the Commission under Pub. L. 88–352, as amended.

§ 213.3157 National Credit Union Administration.

(a) Liquidation Agents employed on a temporary or intermittent basis in the field.

§ 213.3158 Franklin Delano Roosevelt Memorial Commission.

(a) All positions on the staff of the Commission.

§ 213.3161 James Madison Memorial Commission.

(a) One Executive Secretary.

§ 213.3184 [Reserved]

§ 213.3187 District of Columbia Redevelopment Land Agency.

(a) Neighborhood Aide (Urban Renewal) positions when filled by residents of the urban renewal project area in which the Aides will serve. Employment under this authority may not exceed 2 years.

§ 213.3190 [Reserved]

§ 213.3194 Department of Transportation.

(a) *U.S. Coast Guard.* (1) Continuing positions at grade GS–9 and below whose incumbents are engaged in the admeasurement or documentation of merchant vessels on a part-time or intermittent basis not exceeding 700 hours in a service year. A person appointed under this authority may not be employed in the Coast Guard under a combination of this authority and any other authority for excepted appointment for more than 700 hours during his service year.

(2) Lamplighters.

(3) Professors, Associate Professors, Assistant Professors, Instructors, one Principal Librarian, one Cadet Hostess, and one Psychologist (Counseling) at the Coast Guard Academy, New London, Conn.

(b) *The Alaska Railroad.* (1) Temporary, part-time, or intermittent positions of nonsupervisory laborers in Alaska, involving railroad construction or repair work at locations outside the Fairbanks and Anchorage commuting areas when there are no local housing facilities available except crew cars and examination is impracticable because of the mobility of the work site, the short-term nature of a maintenance project, or the immediate need for a temporary work force to cope with unexpected turnover or unexpected situations requiring augmentation of the regular work crew in remote or isolated locations. Employment under this authority shall not exceed 180 working days a year.

(2) The General Manager.

(3) The Assistant General Manager.

(c) *Federal Highway Administration.* (1) Temporary, intermittent, or seasonal employment in the field service of the Bureau of Public Roads at grades not higher than GS–5 for subprofessional engineering aide work on the highway surveys and constructions projects, for not to exceed 180 working days a year, when in the opinion of the Commission appointment through competitive examination is impracticable.

(d) *Federal Aviation Administration.* (1) Caretakers and Light Attendants employed on emergency fields and other air navigation facilities who are paid on a fee basis.

(2) Medical Officer positions on Wake Island.

(3) Laborer positions on Swan Island.

(4) One Air Carrier Cabin Safety Specialist. Service under this authority may not exceed 2 years.

(e) *St. Lawrence Seaway Development Corporation.* (1) Assistant Manager, Seaway International Bridge.

(f) *Urban Mass Transportation Administration.* (1) Employment for not to exceed two years of up to six individuals in grades ranging from GS–11 through 15, for the international seminar on "The Role of Urban Transportation in Community Development."

§ 213.3195 President's Temporary Commission on Pennsylvania Avenue.

(a) Not to exceed six positions on the Temporary Comission staff.

§ 213.3199 Temporary boards and commissions.

(a)–(f) [Reserved]

(g) *The National Council on Indian Opportunity.* (1) Positions at GS–15 and below on the staff of the Council when filled by Indians who are of one-fourth or more Indian blood.

(h)–(j) [Reserved]

(k) *American Revolution Bicentennial Administration.* (1) Positions in grades GS–9 through 15, other than those primarily concerned with administrative and internal management matters.

(l) *Commission on American Shipbuilding.* (1) Until December 31, 1973, positions at GS–15 and below on the staff of the Commission.

(m) *Cost of Living Council and Related Organizations.* (1) Until April 30, 1974, not to exceed 50 positions in grades GS–12 and above when it is determined that existing registers are not appropriate or do not permit appointment expeditiously.

(n) *National Commission on Productivity.* (1) Until December 31, 1975, positions in grade GS–15 and below on the staff of the Commission.

(o) *Marine Mammal Commission.* (1) Until June 30, 1977, all positions on the staff of the Commission.

(p) *Micronesian Claims Commission.* (1) Until October 15, 1976, 4 Legal Research Assistant positions on the staff of the Commission.

(q) *Alaska Native Claims Ad Hoc Appeals Board.* (1) Members of this Board.

(r) *Council on Wage and Price Stability.* (1) Until September 30, 1977, all positions on the staff of the Council.

(s) *President's Commission on Olympic Sports.* (1) All positions on the staff of the Commission.

(t) *National Study Commission on Records and Documents.* (1) All positions at grades GS–15 and below.

SCHEDULE B

§ 213.3201 Positions other than those of a confidential or policy-determining character for which it is not practicable to hold a competitive examination.

The positions enumerated in §§ 213.3202 to 213.3299 are positions other than those of a confidential or policy-determining character for which it is not practicable to hold a competitive examination and which are excepted from the competitive service and constitute Schedule B. Appointments to these positions are subject to such noncompetitive examination as may be prescribed by the Commission.

§ 213.3202 Entire executive civil service.

(a) Student Trainee positions established in connection with a bachelor's degree cooperative education program which provides for a formally arranged schedule of periods of attendance at an institution of higher learning combined with periods of at least six months of study-related work in a Federal agency. The periods of work and study together must satisfy requirements for a bachelor's degree and provide experience necessary for career or career-conditional appointment to administrative, professional, or technical positions in the Federal Government upon the student's graduation. The Commission's determination on requirements relating to appointments under this paragraph will be published in the Federal Personnel Manual. Except for the requirement concerning competitive selection from a register, appointments under this paragraph are subject to all the requirements and conditions governing career-conditional appointment, including investigation by the Commission to establish an appointee's qualifications and suitability. Appointees may not continue to serve in Student Trainee positions more than 90 days after completion of or separation from the cooperative education program.

§ 213.3204 Department of State.

(a) Persons formerly employed abroad in the Foreign Service of the United States (this means civilian employment in the executive branch) for a period of at least 4 years for service in executive and administrative positions, or for at least 2 years for professional positions, in grades GS–9 and above.

(b) Technical cryptographic positions in the Communications Security Division, Office of Communications.

(c) Director and Deputy Director, Foreign Buildings Operations.

§ 213.3205 Department of the Treasury.

(a) Positions of Deputy Comptroller of the Currency, Chief National Bank Examiner, Assistant Chief National Bank Examiner, Regional Administrator of National Banks, Deputy Regional Administrator of National Banks, Assistant to the Comptroller of the Currency, National Bank Examiner, Associate National Bank Examiner, and Assistant National Bank Examiner, whose salaries are paid from assessments against national banks and other financial institutions.

(b) [Reserved]

(c) Not to exceed two positions of Accountant (Tax Specialist) at grades GS–13 and above to serve as specialists on the accounting analysis and treatment of corporation taxes. Employments under this paragraph shall not exceed a period of 18 months in any individual case.

(d) Positions concerned with the protection of the life and safety of the President and members of his immediate family, or other persons for whom similar protective services are prescribed by law, when filled in accordance with special appointment procedures approved by the Commission. Service under this authority may not exceed (1) a total of 4 years or (2) 120 days following completion of the service required for conversion under Executive Order 11203, whichever occurs first.

§ 213.3206 Department of Defense.

(a) *Office of the Secretary* (1) [Reserved]

(2) Professional positions at GS–11 through GS–15 involving systems, costs, and economic analysis functions in the Office of the Assistant Secretary (Program Analysis and Evaluation); and in the Office of the Deputy Assistant Secretary (Systems Policy and Information) in the Office of the Assistant Secretary (Comptroller).

(3) [Reserved]

(4) One Assistant for Counter-Insurgency, Office of the Assistant Secretary (International Security Affairs).

(5) One Net Assessment Coordinator.

§ 213.3209 Department of the Air Force.

(a) [Reserved]

(b) Civilian Deans and Professors at the Air Force Institute of Technology, Wright-Patterson Air Force Base, Dayton, Ohio.

§ 213.3210 Department of Justice.

(a) [Reserved]

(b) Positions of Port Receptionist and Supervisory Port Receptionist, Immigration and Naturalization Service.

§ 213.3212 Department of the Interior.

(a) Any competitive position at an Indian school when filled by the spouse of a competitive employee of the school, when because of isolation or lack of quarters, the Commission deems appointment through competitive examination impracticable.

§ 213.3214 Department of Commerce.

(a) *Bureau of the Census.* (1) Not to exceed 100 positions of interviewers, supervisors, and data collection specialists in the Census Bureau who conduct interviews in the hard-core poverty areas of large cities or who supervise the conduct of these interviews, when filled by residents of the areas served.

(b) *Economic Development Administration.* (1) Four Area Supervisors.

(2) Four Assistant Area Supervisors.

(c) *Office of Minority Business Enterprise.*

(1) Until December 31, 1976, not to exceed 15 positions of Minority Business Opportunity Specialist at grades GS–9 through GS–15.

(d) *Office of Telecommunications.* (1) Not to exceed 10 positions of Telecommunications Policy Analysts, grades GS–11 through 15. Employment under this authority may not exceed 2 years.

§ 213.3215 Department of Labor.

(a) and (b) [Reserved]

(c) Not to exceed 35 positions of Manpower Development Specialist at grades GS–9 through GS–15 in the Manpower Administration. This authority may not be used after June 30, 1973.

§ 213.3216 Department of Health, Education, and Welfare.

(a) *Office of Education.* (1) Fifty positions, GS–7 through GS–11, concerned with advising on education policies, practices, and procedures under unusual and abnormal conditions. Persons employed under this provision must be bona fide elementary school and high school teachers. Appointments under this authority may be made for a period of not to exceed 1 year, and may, with the prior approval of the Civil Service Commission, be extended for an additional period of 1 year.

(b) [Reserved]

(c) Not to exceed 10 positions of HEW Fellows in grades GS–11 through 15. Employment under this authority may not extend beyond 1 year.

§ 213.3228 U.S. Information Agency.

(a) Persons formerly employed abroad in the Foreign Service of the United States or as Binational Center Grantees for a period of at least 4 years for service in executive and administrative positions, or for at least 2 years for professional positions, in grades GS–9 and above.

§ 213.3229 Federal Power Commission.

(a) A Chief Engineer.

§ 213.3242 Export-Import Bank of the United States.

(a) Not to exceed 24 positions of Loan Specialist GS–7 through 14 when occupied by persons selected jointly by commercial banks and the agency for participation in the Eximbank-Commercial Bank Orientation Program. Appointments under this authority may not exceed 15 months.

§ 213.3246 Selective Service System.

(a) Positions in the Selective Service System when filled by persons who as commissioned officer personnel in the Armed Forces have previously been trained for or have been on active military duty in the Selective Service program, and cannot, for some reason beyond their control, be brought to active military duty in the current Selective Service program.

§ 213.3253 Government of the District of Columbia.

(a) Chairman, Secretary and Members of the Board of Police and Fire Surgeons, District of Columbia.

§ 213.3259 ACTION.

(a) *Office of Domestic and Anti-Poverty Operations.* (1) Not to exceed 25 positions of Program Specialist at grades GS–9 through GS–15.

(2) Until December 31, 1975, not to exceed 10 positions of Regional Director, GS–15. Employment under this authority may not exceed 2 years: *Provided*, That the Director of ACTION may extend appointments made under this authority for up to 2 additional years if he deems such action essential to the accomplishment of agency goals.

§ 213.3268 Agency for International Development.

(a) Not to exceed 30 positions at GS–9 and above when filled by persons who have served overseas with the Agency for International Development for not less than 2 years.

§ 213.3272 Administrative Office of the U.S. Courts

(a) Not to exceed twelve positions of Federal Probation System Administrator in the Division of Probation, when filled by Federal Probation Officers on active service in the U.S. Courts.

(b) [Reserved]

(c) Three positions of Clerks Liaison Officer in the Division of Clerks of Court.

§ 213.3273 Community Services Administration.

(a) Seven Regional Directors.

(b) [Reserved]

(6) One Chief, Research and Plans Division.

§ 213.3276 Appalachian Regional Commission.

(a) Two Program Coordinators.

SCHEDULE C

§ 213.3301 Positions of a confidential or policy-determining character.

The positions enumerated in §§ 213.3302 to 213.3399 are positions of a confidential or policy-determining character which are excepted from the competitive service, to which appointments may be made without examination by the Commission and which constitute Schedule C.

§ 213.3301a Special revocation of exceptions.

The exception from the competitive service for each position in the executive branch listed in Schedule C which is classified in grade GS–16, GS–17, or GS–18, and is covered by Civil Service Rule IX (§ 9.1 of Subchapter A of this chapter) is revoked effective November 17, 1967. Each such position is removed from Schedule C effective November 17, 1967.

§ 213.3301b Revocation of exceptions.

(a) Except as provided by paragraph (b) of this section the exception from

V 40 243 DEC 17 75 D XUM

the competitive service for each position at GS–15 and below in the executive branch listed in schedule C is revoked when the position has been vacant for 60 calendar days or more.

(b) Notwithstanding the provisions of paragraph (a) of this section, the Commission may delay the revocation action for an additional 60 calendar days when the agency demonstrates that it: (1) Has been actively recruiting for the position; (2) has made a tentative selection; and (3) has set an appointment date within the additional 60-day period.

(c) An agency shall notify the Commission within 3 work days after a schedule C position at GS–15 and below has been vacated or filled.

§ 213.3303 Executive Office of the President.

(a) *Office of Management and Budget.*
(1) Four Secretaries to the Director.
(2) One Special Assistant to the Deputy Director.
(3) One Private Secretary to the Deputy Director.
(4) Associate Director.
(5) [Reserved]
(6) One Secretary to each of three Associate Directors.
(7) Four Assistant Directors.
(8) One Private Secretary to an Assistant Director.
(9) [Reserved]
(10) Associate Director for National Security and International Affairs.
(11) Associate Director for Human and Community Affairs.
(12) Associate Director for Economics and Government.

[FR Doc.75-33757 Filed 12-16-75;8:45 am]

Title 7—Agriculture

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

[Amdt. 4]

PART 724—FIRE-CURED, DARK AIR-CURED, VIRGINIA SUN-CURED, CIGAR-BINDER (TYPES 51 AND 52), CIGAR-FILLER AND BINDER (TYPES 42, 43, 44, 53, 54, AND 55) TOBACCO

Tobacco Allotment and Marketing Quota Regulations, 1972–73 and Subsequent Marketing Years

In 40 FR 12670 there was published a notice of proposed rulemaking which, among other proposals, related to the inclusion of toxaphene and endrin, with DDT and TDE, as pesticides which, if used on tobacco, would make the tobacco ineligible for price support. Interested persons were given 30 days after publication of the notice to submit data, views, and recommendations with respect to the proposal. After consideration of the responses received, these changes were made in the loan regulations. This amendment makes corresponding changes in the fire-cured, dark air-cured, Virginia sun-cured, cigar-binder (types 51 and 52), and cigar-filler and binder (types 42, 43, 44, 53, 54, and 55) tobacco marketing quota regulations (7 CFR 724.50 et seq.). This amendment also contains other minor revisions and deletions which do not materially affect the 1975–76 crops of fire-cured, dark air-cured, Virginia sun-cured, cigar-binder (types 51 and 52), and cigar-filler and binder (types 42, 43, 44, 53, 54, and 55) tobacco.

The following changes and additions are made:

1. Section 724.60 is amended to eliminate restrictions on allocating reserve acreage for farms owned, operated, or controlled by committeemen or the county executive director.

2. Section 724.70 is amended to provide that allotments may be transferred from a farm the first year after a new farm allotment is approved.

3. Section 724.71 is amended to authorize the State committee to determine counties affected by natural disaster.

4. Section 724.81 is amended to add the use of toxaphene on endrin to the requirements for issuing an MQ–77 showing zero penalty.

5. Section 724.88 is amended by adding the penalty rate for excess tobacco for the 1975–76 marketing year.

6. Section 724.90 is amended to require that the penalty on excess marketings by a dealer will be determined by comparing the tobacco resales for a kind of tobacco with the tobacco purchases for the same kind of tobacco. Penalty will be due at any time the resales exceed the purchases of a kind of tobacco.

7. Section 724.98 is amended to remove the requirement that the Director, Program Operations Division, approve dealer exemption from regular record and report requirements.

8. Section 724.110 is amended to provide for determinations relating to the use or nonuse of DDT, TDE, toxaphene, or endrin.

9. Other editorial changes are made as appropriate.

Since farmers are now harvesting their tobacco, it is essential that these regulations be made effective at the earliest possible date. Accordingly, this document is being made effective upon date of publication in the FEDERAL REGISTER. The amendment to the regulations is as follows:

1. The table of contents is amended by revising the reference to 724.110 as follows:

Sec.

* * * * * * *

724.110 Determination of use of DDT, TDE, toxaphene, or endrin.

§ 724.60 [Amended]

2. Section 724.60 is amended by deleting the last sentence in paragraph (b).

3. Section 724.70 is amended by revising paragraph (h) to read as follows:

§ 724.70 Transfer of fire-cured, dark air-cured, and Virginia sun-cured tobacco allotments by lease, sale, or by owner under section 318 of the act.

* * * * * * *

(h) *No transfer of new farm allotment.* A new farm allotment shall not be transferred.

* * * * * * *

4. Section 724.71 is amended by revising paragraphs (a) and (b) to read as follows:

§ 724.71 Transfer of tobacco farm acreage allotment for farms affected by a natural disaster.

(a) *Designation of counties affected by a natural disaster.* The State committee shall determine those counties affected by a natural disaster (including but not limited to hurricane, rain, flash flood, hail, drought, and any other severe weather) which prevents the timely planting or replanting of any of the tobacco acreage allotment for any farm in the county. The county committee of each county affected by the determination shall publicize the determination.

(b) *Application for transfer.* The owner or operator of a farm in a county designated for any year under paragraph (a) of this section may file a written application for transfer of tobacco acreage within the farm tobacco allotment for such year to another farm or farms in the same county or in any other nearby county in the same or another State if such acreage cannot be timely planted or replanted because of the natural disaster determined for such year. The application shall be filed with the county committee of the county in which the farm affected by such disaster is located. If the application involves a transfer to a nearby county, the county committee for the nearby county shall be consulted before action is taken by the county committee receiving the application.

* * * * * * *

5. In § 724.81 paragraphs (d) and (e) (3) (i) and (ii) are revised to read as follows:

§ 724.81 Issuance of producer marketing cards.

* * * * * * *

(d) *Issuance of within quota marketing card.* Except as provided in paragraph (e)(3) of this section, a within quota marketing card, MQ–76 (eligible for price support), shall be issued for each farm for each kind of tobacco: * * *

(e) * * *

(3) *MQ–77 showing zero penalty.* (i) DDT TDE, toxaphene, or endrin was used on such kind of tobacco; (ii) the farm had excess tobacco and the acreage of tobacco reported by the farm operator differed from the measured acreage by more than the measurement variance specified in Part 718 of this chapter but the excess tobacco has been disposed according to § 724.80; or (iii) * * *.

6. Section 724.83 is amended by revising paragraph (b) to read as follows:

§ 724.83 Claim stamping and replacing marketing cards.

* * * * * * *

(b) *Replacing, exchanging, or issuing additional marketing cards.* Subject to the approval of the county executive director, two or more marketing cards may be issued for any farm. Upon the return to the county office of a marketing card which had been used in its entirety and before the marketing of tobacco from the farm has been completed, a new marketing card bearing the same name, information, and identification as the used card shall be issued for the farm. A new marketing card shall be issued to replace a card which has been determined by the county executive director who issued the card to have been lost, destroyed, or stolen.

7. Section 724.86 is amended by revising paragraph (c) (1) to read as follows:

§ 724.86 Identification of marketings, excluding cigar tobacco.

* * * * * * *

(c) *Other persons authorized to execute MQ–76 or MQ–77 (including sale memos).* (1) A warehouseman who has been authorized during the current marketing year on MQ–78, Tobacco Warehouse Organization, may record a sale on MQ–76 (or MQ–77 including the issuance of a sale memo) to identify a sale for a farm if a marketing recorder is not available at the warehouse when the marketing card is presented.

* * * * * * *

8. Section 724.88 is amended by adding paragraph (g) to read as follows:

§ 724.88 Rate of penalty.

* * * * * * *

(g) (1) *The 1974–75 average market price.* The average market price for the kinds of tobacco listed below as determined by the Crop Reporting Board, Statistical Reporting Service, U.S. Department of Agriculture for the 1974–75 marketing year was:

AVERAGE MARKET PRICE

Kind of tobacco:	Cents per pound
Fire-cured (type 21)	81.7
Fire-cured (types 22, 23, 24)	93.4
Dark air-cured	76.9
Virginia sun-cured	82.1
Cigar-filler and binder (types 42, 43, 53, 54, and 55)	72.7
Cigar-binder (types 51 and 52)	82.0

(2) *1975–76 rate of penalty per pound.* The penalty rate per pound for the kinds of tobacco listed below upon marketings of excess tobacco subject to marketing quotas during the 1975–76 marketing year shall be:

RATE OF PENALTY

Kinds of tobacco:	Cents per Pound
Fire-cured (type 21)	61
Fire-cured (types 22, 23, 24)	70
Dark air-cured	58
Virginia sun-cured	62
Cigar-filler and binder (types 42, 43, 44, 53, 54, and 55)	55
Cigar-binder (types 51 and 52)	(1)

[1] Quotas terminated for 1975 crop.

9. Section 724.90 is amended by revising paragraphs (d), (e), and (j) to read as follows:

§ 724.90 Penalties considered to be due from warehousemen, dealers, buyers and others excluding the producer.

* * * * * * *

(d) *Leaf account tobacco.* If resales of a kind of tobacco are in excess of prior leaf account purchases for the same kind of tobacco, such marketing shall be considered to be a marketing of excess tobacco unless such warehouseman furnishes proof acceptable to the State committee showing that such marketing is not a marketing of excess tobacco. The actual quantity of floorsweepings for a kind of tobacco which the State executive director determines have been properly identified as floorsweepings and sold and reported as such by the warehouseman shall be considered acceptable proof that such marketings are not marketings of excess tobacco if the amount thereof for the warehouse does not exceed the maximum allowable floorsweepings for the season for the same kind of tobacco, as determined by multiplying the limitation set forth in § 724.51(k) by total first sales at auction for the kind of tobacco excluding warehouse leaf account purchases of the kind of tobacco.

(e) *Dealer's tobacco.* The tobacco resales of a kind of tobacco by a dealer (as shown or due to be shown on Form MQ–79), which are in excess of his total prior tobacco purchases of the same kind of tobacco (as shown or due to be shown on Form MQ–79) shall be considered to be a marketing of excess tobacco and penalty thereon shall be due at the time the marketing takes place which results in the excess. If the resale which results in penalty being due is made at auction, the warehouse shall deduct the penalty from the proceeds of the sale and shall remit the penalty to the marketing recorder. Penalty due which is not withheld by a warehouseman shall be remitted weekly by the dealer to the State Office with his reports on Form MQ–79.

* * * * * * *

(j) *Carryover tobacco (except cigar tobacco).* Any tobacco on hand and reported or due to be reported under § 724.96 for warehousemen and § 724.97 for dealers, shall be included as a resale in determining whether an account had excess resales. Unless the kind of tobacco is determined to the satisfaction of the State committee or the committee's representative it shall be considered the kind with the highest marketing quota penalty rate unless the warehouseman or dealer furnishes proof that the Agricultural Marketing Service, U.S. Department of Agriculture, has classified the tobacco as a kind with a lower penalty rate or a kind not subject to quotas. Unless the warehouseman furnishes proof acceptable to the State committee and unless the dealer furnishes proof acceptable to the State executive director, showing that such account does not represent excess tobacco, penalty at the full rate shall be paid thereon by such warehousemen or dealer.

10. Section 724.96 is amended by revising the general statement in the beginning of the section to read as follows:

§ 724.96 Warehouseman's records and reports.

Each warehouse shall keep the records and make the reports separately for each quota or nonquota kind of tobacco as provided in this section.

* * * * * * *

11. Section 724.98 is amended to read as follows:

V 40 243 DEC 17 75 XUM

§ 724.98 Dealers exempt from regular records and reports, excluding cigar tobacco buyers.

Any dealer or buyer who acquired tobacco in the form in which tobacco ordinarily is sold by farmers and resells five percent or less of any such tobacco shall not be subject to the requirements of § 724.97 except for the requirements which relate to the reporting of nonauction purchases from producers and the requirements of paragraph (e) of § 724.97. A dealer or buyer whose resales in the form ordinarily sold by farmers exceed five percent of his purchases as a direct result of order buying for another dealer for a service fee may be exempt from the requirements of § 724.97 (except for requirements which relate to nonauction purchases from producers and requirements of paragraph (e) of § 724.97); *Provided*, That where deemed necessary the Director, Program Operations Division, or the State committee may require a report of all tobacco purchased by the dealer without regard to the exemption.

12. Section 724.110 is amended to read as follows:

§ 724.110 Determination of use of DDT, TDE, toxaphene, or endrin.

(a) *Definitions.* DDT, TDE, toxaphene, and endrin are defined in 40 CFR 180.147; 180.197; 180.138; and 180.131, respectively.

(b) *Producer's report.* The operator, or any producer, on each farm producing fire-cured, dark air-cured, Virginia sun-cured, cigar-binder (types 51 and 52) or cigar filler and binder (types 42, 43, 44, 53, 54, and 55) tobacco shall file a report on MQ–38 showing whether or not toxaphene, endrin, DDT, or TDE was used on the tobacco in the field or after being harvested. If the operator of a farm on which any of the kinds of tobacco cited in this paragraph was produced refuses to file a report on MQ–38, all fire-cured, dark air-cured, Virginia sun-cured, cigar-binder (types 51 and 52) or cigar filler and binder (types 42, 43, 44, 53, 54, and 55) tobacco produced on such farm shall be considered by the county committee to have been treated with such a pesticide.

(c) *Producer's right to recertify.* Any producer on a farm shall have the right to recertify on MQ–38 if the recertification is filed with the county committee prior to the time any tobacco has been marketed from the farm or a request has been made to collect a sample of cured leaves.

(d) *Collection of samples for chemical analysis.* Samples shall be collected at random from producer tobacco crops during weigh-in at the auction warehouse. Samples also shall be collected on any farm where the county committee has reason to believe the producer used toxaphene, endrin, DDT, or TDE on the tobacco and the producer certified to nonuse of these pesticides on the crop.

(e) *Producer refusal to permit sampling.* If a producer or producer representative refuses to permit the sampling of a tobacco crop, all tobacco of such crop produced on the farm shall be considered by the county committee to have been treated with DDT, TDE, toxaphene, or endrin.

(f) *Notice to farm operator.* A written notice shall be furnished to the operator of each farm for which the county committee determines that tobacco, after being transplanted or after being harvested was treated with DDT, TDE, toxaphene, or endrin. Such determination by the county committee shall be based on (1) the certification on MQ–38 or (2) refusal to file MQ–38, or (3) refusal to permit sampling, or (4) chemical analysis showing total parts per million of residue to be equal to or greater than:

(i) Three for DDT and/or TDE,
(ii) Five for toxaphene, or
(iii) One for endrin.

The notice to the farm operator shall constitute notice to all persons who as owner, operator, landlord, tenant, or sharecropper, are interested in the tobacco being grown on the farm.

(g) *Producer's right to appeal.* Any producer on a farm who believes that the DDT, TDE, toxaphene, or endrin determination for the farm is not correct may file a request that the county committee reconsider such determination. The request for reconsideration must be submitted in writing and postmarked or delivered to the county committee within seven days after the date of mailing of the notice of determination. The request must be signed. If the appellant believes that the county committee's determination on such reconsideration is not correct, he may appeal to the State committee. The appeal must be submitted in writing and postmarked or delivered to the State committee within seven days after the date of mailing of the notice of the decision of the county committee. The decision of the State committee shall be final.

(Secs. 301, 312, 313, 314, 316, 318, 373–375, 377, 378, 52 Stat. 38, as amended, 47 as amended, 48 as amended, 75 Stat. 469 as amended, 81 Stat. 120, as amended, 52 Stat. 63 as amended, 65 as amended, 66 as amended, 70 Stat. 206, as amended, 72 Stat. 995, as amended; (7 U.S.C. 1301, 1312, 1313, 1314, 1314b, 1314d, 1373–1375, 1377, 1378))

Effective date: December 17, 1975.

Signed at Washington, D.C., on December 9, 1975.

E. J. PERSON,
Acting Administrator, Agricultural Stabilization and Conservation Service.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Orange Reg. 74, Amdt. 3; Grapefruit Reg. 76, Amdt. 3, Tangerine Reg. 47, Amdt. 6; Tangelo Reg. 47, Amdt. 3]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Limitation of Shipments

These amendments prescribe total limitation of shipment regulations for oranges, grapefruit, tangerines, and tangelos during the period beginning at 6:00 p.m., e.s.t., December 23, 1975, and ending at 12:01 a.m., e.s.t., December 30, 1975. The regulations are designed to avert the accumulation of excessive market supplies of the specified fruits during and immediately following the Christmas holiday period in which, historically, there has been greatly reduced market demand.

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, grapefruit, tangerines, and tangelos, as hereinafter provided, will tend to effectutate the declared policy of the act.

(2) These amendments reflect the Department's appraisal of the potential marketing situation during the week in which Christmas Day occurs and for the period immediately following. Historically, there has been heavy purchasing of fresh oranges, grapefruit, tangerines, and tangelos in the terminal markets prior to Christmas Day followed by a period of slow movement immediately following the holiday. An accumulation of excessive quantities of fruit in the markets during and immediately following the Christmas Day week contributes to unstable marketing conditions. Hence, the curtailment of such shipments, as hereinafter specified, would contribute to a better-managed supply situation and in turn to the establishment of orderly marketing.

(3) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of these amendments until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) in that the time intervening between the date when information upon which these amendments are based became available and the time when these amendments must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Domestic shipments of Florida oranges, grapefruit, tangerines, and tangelos are currently regulated pursuant to Orange Regulation 74 (40 FR 42318, 49785, 54420), Grapefruit Regulation 76 (40 FR 42317, 49785, 54420), Tangerine Regulation 47 (40 FR 42318, 49785, 51619, 54420, 54767, 57641), and Tangelo Regulation 47 (40 FR 42318, 49785, 54420) and, unless sooner termitted or modified, will continue to be so regulated; determinations as to the need for, and extent of, regulation under § 905.52(a)(3) of the order must await the development of the crops and the availability of information about the demand for such fruits; the recommendation and supporting information for limiting the total quantity of fresh oranges, grapefruit, tangerines, and tangelos by prohibiting shipments thereof, pursuant to said section, during the period herein provided, were promptly submitted to the Department after an open meeting of members of the Growers Administrative Committee on December 2, 1975, held to consider recommendations for such regulations, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; necessary supplemental information was submitted to the Department on December 2, 1975; information regarding the provisions of the regulations recommended by the committees has been disseminated among shippers of such fruits grown in the production area, and these regulations, including the effective time thereof, are identical with the recommendations of the committees; and compliance with these regulations will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective time hereof.

Order. 1. In § 905.560 (Orange Regulation 74; 40 FR 42318, 49785, 54420), the provisions of paragraph (d) are revised to read as follows:

§ 905.560 Orange Regulation 74.

* * * * *

(d) During the period beginning at 6:00 p.m., e.s.t., December 23, 1975, and ending at 12:01 a.m., e.s.t, December 30, 1975, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico, any oranges grown in the production area.

2. In § 905.563 (Grapefruit Regulation 76; 40 FR 42317, 49785, 54420), the provisions of paragraph (d) are revised to read as follows:

§ 905.563 Grapefruit Regulation 76.

* * * * *

(d) During the period beginning at 6:00 p.m., e.s.t., December 23, 1975, and ending at 12:01 a.m., e.s.t, December 30, 1975, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico, any grapefruit grown in the production area.

3. In § 905.561 (Tangerine Regulation 47; 40 FR 42318, 49785, 51619, 54420, 54767, 57641), the provisions of paragraph (d) are revised to read as follows:

§ 905.561 Tangerine Regulation 47.

* * * * *

(d) During the period beginning at 6:00 p.m., e.s.t., December 23, 1975, and ending at 12:01 a.m., e.s.t., December 30, 1975, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico, any tangerines grown in the production area.

4. In § 905.562 (Tangelo Regulation 47; 40 FR 42318, 49785, 54420), the provisions of paragraph (d) are revised to read as follows:

§ 905.562 Tangelo Regulation 47.

* * * * *

(d) During the period beginning at 6:00 p.m., e.s.t., December 23, 1975, and ending at 12:01 a.m., e.s.t., December 30, 1975, no handler shall ship between the production area and any point outside thereof in the continental United States, Canada, or Mexico, any tangelos grown in the production area.

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674))

Dated: December 11, 1975.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75–33959 Filed 12–16–75;8:45 am]

CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK), DEPARTMENT OF AGRICULTURE

[Milk Order No. 63]

PART 1063—MILK IN THE QUAD CITIES—DUBUQUE MARKETING AREA

Order Suspending Certain Provisions

This order of suspension is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Quad Cities—Dubuque marketing area.

Notice of proposed rulemaking was published in the FEDERAL REGISTER (40 FR 56674) concerning a proposed suspension of certain provisions of the order. Interested persons were afforded opportunity to file written data, views, and arguments thereon. None were filed in opposition.

After consideration of all relevant material, including the proposal set forth in the aforesaid notice, data, views, and arguments filed thereon, and other available information, it is hereby found and determined that for the months of December 1975 and January 1976 the following provisions of the order do not tend to effectuate the declared policy of the Act:

Section 1063.13(b)(2)—"In any of the months of September through January, milk diverted from the farm of a producer on days in excess of the number of days that milk was delivered to a pool plant from such farm during the month shall not be producer milk."

Statement of consideration. This suspension will permit unlimited diversions of producer milk under the Quad Cities-Dubuque order during December 1975 and January 1976.

Two cooperatives representing a substantial majority of producers on the market filed views and arguments in support of this action.

Reserve milk supplies in this market are customarily diverted from pool distributing plants to nonpool manufacturing plants. The reserve milk supplies during December 1975 and January 1976 are expected to exceed the quantity of producer milk that may be diverted to nonpool manufacturing plants under the present diversion limitations. To maintain producer status for all their member milk during these two months, it will be necessary for cooperative associations to move much of the reserve milk supply from farms to pool distributing plants and then reship it to nonpool manufacturing plants, unless this action is taken.

This suspension will permit the economical movement of milk directly from farms to manufacturing plants while maintaining producer status for all dairy farmers regularly associated with the market.

It is hereby found and determined that thirty days' notice of the effective date hereof is impractical, unnecessary, and contrary to the public interest in that:

(a) This suspension is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area in that the most efficient method of handling the market's reserve milk supplies is by direct movement from producers' farms to nonpool manufacturing plants. This suspension allows such economical movement of milk while the dairy farmers involved retain producer status.

(b) This suspension does not require of persons affected substantial or extensive preparation prior to the effective date; and

(c) Notice of proposed rulemaking was given interested parties and they were afforded opportunity to file written data, views or arguments concerning this suspension.

Therefore, good cause exists for making this order effective December 17, 1975.

It is therefore ordered, That the aforesaid provision of the order is hereby suspended for December 1975 and January 1976.

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674))

Effective date: December 17, 1975.

Signed at Washington, D.C., on December 12, 1975.

JOHN DAMGARD,
Deputy Assistant Secretary.

V 40 243 DEC 17 75 XUM

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER A—GENERAL REGULATIONS AND POLICIES

PART 1405—LOANS, PURCHASES, AND OTHER OPERATIONS

Rule of Fractions

The regulations issued by Commodity Credit Corporation (CCC) and published as Part 1405, Loans, Purchases, and Other Operations in the FEDERAL REGISTER (7 CFR) are amended as set forth below.

A new § 1405.2 is added to describe the procedure to be used when rounding fractions to read as follows:

§ 1405.2 Basic rule of fractions.

The rule of fractions to be used in rounding fractions shall be as provided in § 793.1–793.2 of 7 CFR.

The basic rule of fractions is currently being administered for Commodity Credit Corporation's price support programs under section 7 CFR 793.1–793.2. However, since 7 CFR, appears in Chapter VII of 7 CFR covering ASCS programs, the amendment will provide a cross reference in Chapter XIV of 7 CFR covering CCC operations. Therefore, it is found and determined that compliance with the proposed notice of rulemaking procedure would be impractical, unnecessary and contrary to the public interest.

(Sec. 4, 62 Stat. 1070, as amended; (15 U.S.C. 714b))

Effective date: December 17, 1975.

Signed at Washington, D.C., on December 9, 1975.

E. J. PERSON,
Acting Executive Vice President,
Commodity Credit Corporation.

[FR Doc.75-33962 Filed 12-16-75;8:45 am]

Title 8—Aliens and Nationality

CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE

MISCELLANEOUS AMENDMENTS

Pursuant to section 552 of Title 5 of the United States Code (80 Stat. 383), as amended by Pub. L. 93–502 (88 Stat. 1561), and the authority contained in section 103 of the Immigration and Nationality Act (66 Stat. 173; 8 U.S.C. 1103), 28 CFR 0.105(b) and 8 CFR 2.1, miscellaneous amendments, as set forth hereinafter, are prescribed in Parts 100, 103, 238 and 316a of Chapter I of Title 8 of the Code of Federal Regulations.

Effective July 1, 1975, the Frankfurt, Germany District Office of the Service was closed. All suboffices and areas of jurisdiction formerly under the Frankfurt District Office on that date were transferred to the jurisdiction of the Rome, Italy District Office of the Service. Accordingly, §§ 100.4(b), 103.1(o) and 103.4 are amended in pertinent part to reflect that change.

In Part 100, § 100.4(e) specifies the district headquarters of the Service at which special inquiry officers are stationed. Since a special inquiry officer is stationed at the Buffalo, New York; Denver, Colorado, and Houston, Texas. District headquarters and a special inquiry officer is no longer stationed at the Philadelphia, Pennsylvania District headquarters, § 100.4(e) is updated to reflect these changes.

In accordance with the provisions of section 238(d) of the Immigration and Nationality Act, an agreement has been entered into between the Commissioner of Immigration and Naturalization and Royal Air Maroc, a transportation line operating to ports of the United States, to guarantee the passage through the United States in immediate and continuous transit of aliens destined to foreign countries. In Part 238, § 238.3(b) is, therefore, amended by adding "Royal Air Maroc" to the listing of signatory lines.

An agreement for preinspection at Vancouver, B.C., Canada, of flights of International Jet Air, Ltd. destined to the United States, has been entered into between that line and the Commissioner of Immigration and Naturalization pursuant to sections 103 and 238(b) of the Immigration and Nationality Act. Accordingly, § 238.4 is amended by adding "International Jet Air, Ltd." to the listing of transportation lines which have entered into agreements for the preinspection of their passengers and crews at the designated place outside the United States.

On October 21, 1975, it was determined that the Association of Universities for Research in Astronomy (AURA, Inc.), Tucson, Arizona, is an American institution of research for the purpose of preserving residence in the United States for naturalization. Accordingly, in Part 316a, § 316a.2 is amended by adding the Association of Universities for Research in Astronomy to the listing therein of American institutions of research. The listing in § 316a.2 is also amended editorially by changing "Colorado University (Department of History), Boulder, Colorado" to read "University of Colorado (Department of History), Boulder, Colorado."

In the light of the foregoing, the following amendments to Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

PART 100—STATEMENT OF ORGANIZATION

Part 100 is amended in the following respects:

§ 100.4 [Amended]

1. In § 100.4(b), subparagraph "34. *Frankfurt, Germany.*" is deleted in its entirety.

2. In § 100.4, subparagraph 37 of paragraph (b), and paragraph (e) are amended to read as follows:

• • • • • •

(b) *District offices.* The following districts, which are designated by numbers, have fixed headquarters and are divided as follows:

• • • • • •

37. *Rome, Italy.* The district office in Rome, Italy has jurisdiction over Europe, Africa, and the countries of Asia lying to the west and north of the western and northern borders, respectively, of Afghanistan, Pakistan, People's Republic of China and Mongolian People's Republic.

• • • • • •

(e) *Special inquiry officers.* Special inquiry officers are stationed at the following district headquarters: Districts 2, 3, 6, 7, 8, 9, 12, 13, 14, 15, 16, 19, 21, 25, and 38.

PART 103—POWERS AND DUTIES OF SERVICE OFFICERS; AVAILABILITY OF SERVICE RECORDS

1. In § 103.1(o), the second sentence is amended by deleting therefrom the reference to District 34. As amended, § 103.1(o) reads in pertinent part as follows:

§ 103.1 Delegations of authority.

• • • • • •

(o) *Officers in charge.* • • • Officers in charge in Districts 33 and 37 have the same powers with respect to petitions and applications submitted by citizens or aliens residing in their respective areas as are conferred on district directors in the United States. • • •

• • • • • •

2. In § 103.4, the second sentence is amended by deleting therefrom the reference to District 34. As amended, § 103.4 reads in pertinent part as follows:

§ 103.4 Certifications.

• • • District directors in the United States and officers in charge in Districts 33 and 37 may certify their decisions to the appellate authority designated in this chapter when the case involves an unusually complex or novel question of law or fact. • • •

PART 238—CONTRACTS WITH TRANSPORTATION LINES

§ 238.3 [Amended]

In § 238.3 *Aliens in immediate and continuous transit*, the listing of transportation lines in paragraph (b) *Signatory lines* is amended by adding thereto in alphabetical sequence the following transportation line: "Royal Air Maroc".

§ 238.4 [Amended]

In § 238.4 *Preinspection outside the United States*, the listing of transportation lines under "At Vancouver" is amended by adding thereto in alphabetical sequence: "International Jet Air, Ltd."

PART 316a—RESIDENCE, PHYSICAL PRESENCE AND ABSENCE

§ 316a.2 [Amended]

In § 316a.2 *American institutions of research*, the listing of research institutions is amended by adding thereto in alphabetical sequence the following institution: "Association of Universities for Research in Astronomy (AURA, Inc.), Tucson, Arizona." The listing of research institutions is further amended by deleting therefrom "Colorado University (Department of History), Boulder, Colorado" and by substituting in lieu thereof

in alphabetical sequence: "University of Colorado (Department of History), Boulder, Colorado."

Compliance with the provisions of section 553 of Title 5 of the United States Code (80 Stat. 383) as to notice of proposed rule making and delayed effective date is unnecessary in this instance because the amendments to §§ 100.4 (b) and (e), 103.1(o) and 103.4 relate to agency management; the amendments to §§ 238.3(b) and 238.4 add transportation lines to the listings; and the amendments to § 316a.2 add an institution of research to the listing and are editorial in nature.

Effective date. The amendments made in this order shall become effective December 17, 1975.

(80 Stat. 383; 5 U.S.C. 552 as amended by Pub. L. 93–502, 88 Stat. 1561; Sec. 103, 66 Stat. 173, 8 U.S.C. 1103)

Dated: December 12, 1975.

L. F. CHAPMAN, Jr.,
Commissioner of Immigration and Naturalization.

Title 14—Aeronautics and Space

CHAPTER II—CIVIL AERONAUTICS BOARD

[Reg. ER-940; Amdt. No. 46]

PART 288—EXEMPTION OF AIR CARRIERS FOR MILITARY TRANSPORTATION

Minimum Rates for Certain Air Transportation

Correction

In FR Doc. 75–32731 appearing at page 56652 in the issue of Thursday, December 4, 1975, make the following changes on page 56653:

1. In column one at the end of the first complete paragraph insert "(Docket 28441), is denied."

2. In column one the second complete paragraph is republished to read as follows:

Contrary to the implications of the petition and answers, the Board has not abandoned its monthly review of the rate impact of reported fuel price changes. By ER–920, we merely dropped the automatic monthly surcharge rate adjustment in favor of a quarterly adjustment procedure. In doing so, however, the Board expressly indicated its intent to respond should a significant interim price change warrant amendment of the surcharge rates. Our review of the surcharge-rate impact for the fuel prices reported as at October 1, 1975, including the revised data for TIA, did not produce results for the international MAC carriers as a class to warrant an amendment to the existing fuel surcharge rates. The analysis of reported fuel prices as at November 1, 1975, however, indicates that adjustment to these rates should now be made.[2]

Title 16—Commercial Practices

CHAPTER II—CONSUMER PRODUCT SAFETY COMMISSION

SUBCHAPTER B—CONSUMER PRODUCT SAFETY ACT REGULATIONS

PART 1115—SUBSTANTIAL PRODUCT HAZARD NOTIFICATIONS

Clarifications

In this document the Consumer Product Safety Commission amends the substantial product hazard notification provisions of Part 1115 of Title 16 of the Code of Federal Regulations to require that such notifications be submitted to the Director, Office of Product Defect Identification, and to require that written delegations of authority to make such notifications also be submitted to the Director, Office of Product Defect Identification. This document also clarifies Part 1115 to make clear that it applies to "consumer products" which are subject to regulation by the Commission under the Flammable Fabrics Act, Federal Hazardous Substance Act, Poison Prevention Packaging Act, and Refrigerator Safety Act as well as the Consumer Product Safety Act.

In the FEDERAL REGISTER of February 19, 1974 (39 FR 6061) the Consumer Product Safety Commission promulgated a regulation (16 CFR Part 1115) under section 15 of the Consumer Product Safety Act (15 U.S.C. 2064), requiring manufacturers, distributors, and retailers of consumer products to notify the Director, Bureau of Compliance, of products which either do not comply with an applicable consumer product safety rule or which could create a substantial product hazard. In addition, the regulation requires that the chief executive officer of the reporting company sign and certify the information submitted under this requirement. This responsibility may be delegated by the chief executive officer by informing the Commission in writing of the delegation of authority. The regulation does not designate the office of the Commission to which the notice of delegation of authority should be sent.

This notice amends §§ 1115.4 and 1115.8 of the regulation by deleting reference to the Director, Bureau of Compliance, and by substituting in its place the Director, Office of Product Defect Identification. Section 1115.9 is also amended by deleting references to the Commission and substituting in their place, the Director, Office of Product Defect Identification. This amendment to §§ 1115.4, 1115.8, and 1115.9 applies only to notifications and delegations of authority submitted on or after the effective date of the amendment and does not affect previously filed notifications or delegations of authority.

In the preamble to the regulation published on February 19, 1974, the Commission affirmed the position expressed in the proposed regulation (August 3, 1973, 38 FR 20902) that the notification requirements of section 15 of the CPSA apply to all consumer products subject to regulation by the Commission, including those under the four acts transferred to the Commission by section 30 of the CPSA (15 U.S.C. 2079). These acts are the Flammable Fabrics Act, Federal Hazardous Substance Act, Poison Prevention Packaging Act, and Refrigerator Safety Act. The Commission found under section 30(d) of the CPSA that risks of injury of products falling within the authority of the Flammable Fabrics Act, Federal Hazardous Substance Act, and Poison Prevention Packaging Act can neither be eliminated or reduced to a sufficient extent in a timely fashion unless the Commission is notified under section 15(b) of the CPSA.

Although the Commission made the finding in the Preamble to the document published February 19, 1974 (39 FR 6061, 6062), the regulation itself does not specifically state that it applies to the transferred acts as well as the Consumer Product Safety Act. Therefore, to eliminate any possible confusion that may result from this omission in the body of the regulation, § 1115.1 is amended by adding a statement on the application of the regulation. This clarifying amendment does not alter the scope or application of the regulation.

Because the contents of this document are either a statement relating to internal procedures or a restatement of a previous finding, the notice, public rulemaking procedure, and effective date requirements contained in the Administrative Procedure Act, 5 U.S.C. 553, are unnecessary.

Pursuant to the provisions of the Consumer Product Safety Act 9 Pub. L. 92–573, sections 15 (a), (b), 27 (b), (e), 30; 86 Stat. 1221, 1228, 1231; 15 U.S.C. 2064 (a), (b), 2076(b)(e), 2079; Part 1115 of Title 16 of the Code of Federal Regulations is amended and/or clarified by revising §§ 1115.1, 1115.4, 1115.8 and 1115.9 to read as follows:

§ 1115.1 Scope.

(a) This Part 1115 prescribes notification requirements to be followed by manufacturers, distributors, and retailers who obtain information which reasonably supports the conclusion that one of their products fails to comply with an applicable consumer product safety rule or contains a defect which could create a substantial product hazard.

(b) Manufacturers, distributors, and retailers of "consumer products," as that term is defined in section 3(a) of the Consumer Product Safety Act, which are subject to regulation by the Consumer Product Safety Commission under provisions of the Consumer Product Safety Act, Flammable Fabrics Act, Federal Hazardous Substances Act, Poison Prevention Packaging Act, and Refrigerator Safety Act must comply with the requirements for notification of defect set forth in section 15(b) of the CPSA and the provisions of this Part 1115. Reports

V 40 243 DEC 17 75 XUM

are required for defects which create or could create a substantial product hazard. A failure to comply with a standard or regulation issued under the provisions of the transferred acts is not required to be reported unless such failure to comply is also a defect which creates or could create a substantial product hazard.

§ 1115.4 General requirements.

Every manufacturer of a consumer product distributed in commerce and every retailer and distributor of such consumer product shall immediately inform the Director, Office of Product Defect Identification, Consumer Product Safety Commission, Washington, D.C. 20207 (phone (301) 492–6608), upon obtaining information which reasonably supports the conclusion that a consumer product fails to comply with an applicable consumer product safety rule or upon obtaining information which reasonably supports the conclusion that a product contains a defect which creates or could create a substantial product hazard. Such manufacturer, distributor, or retailer need not so inform the Commission if the manufacturer, distributor or retailer has actual knowledge that the Commission has been adequately informed of such defect or failure to comply. For the purposes of this Part 1115, the Commission will be "adequately informed" when it has received the information specified in this Part 1115.

§ 1115.8 Final statement.

A written report by a responsible official of the manufacturer shall be submitted to the Director, Office of Product Defect Identification, Consumer Product Safety Commission, Washington, D.C. 20207, when all of the information specified in § 1115.7 has been supplied.

§ 1115.9 Delegation of authority.

The chief executive officer of the notifying company shall sign and certify any information forwarded to the Director, Office of Product Defect Identification, for the purposes of complying with section 15(b) of the Act, or shall delegate this responsibility and so inform the Director, Office of Product Defect Identification, in writing • • •

Effective date. This document becomes effective December 17, 1975.

Dated: December 12, 1975.

SHELDON D. BUTTS,
Acting Secretary, Consumer Product Safety Commission.

Title 24—Housing and Urban Development

CHAPTER XIII—FEDERAL DISASTER ASSISTANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-75-282]

PART 2205—FEDERAL DISASTER ASSISTANCE

National Eligibility Criteria; Individual and Family Grants

The Department promulgated the Final Regulations for Federal Disaster Assistance under the Federal Disaster Relief Act of 1974, Pub. L. 93–288, in the FEDERAL REGISTER, 40 FR 23252, Wednesday, May 28, 1975, as 24 CFR Part 2205.

Section 2205.48(c) contains the National Eligibility Criteria for Individual and Family Grants under section 408 of Pub. L. 93–288. Participating States determine the eligibility of an individual or family for a grant to meet a necessary expense or serious need in accordance with these criteria. Under the existing criteria, an otherwise eligible applicant who has made application to other available governmental programs for assistance and has either been found unqualified or has not received assistance sufficient to meet all necessary expenses or serious needs may be eligible for Individual and Family Grant programs assistance.

On August 5, 1975, the President signed Pub. L. 94–68 which amends the Consolidated Farm and Rural Development Act. The amendment imposes a test for credit on farmers, ranchers and persons engaged in aquaculture who seek Emergency Loans from Farmers Home Administration (FmHA) to meet certain disaster-related needs. Credit-worthy farmers, ranchers and persons engaged in aquaculture who are excluded from the FmHA Emergency Loan program become potentially eligible for section 408 Individual and Family Grants under § 2205.48(c) as it currently reads.

The provision of grant funds for items or services covered by the Emergency Loan program, when such loan assistance is denied because of the applicants ability to obtain credit, would create an anomaly in conjunction with the intent of the credit test imposed by Pub. L. 94–68. To alleviate this unfair situation, § 2205.48(c) is amended to preclude the credit-worthy FmHA applicant from obtaining grant assistance for items or services eligible under the FmHA Emergency Loan program.

In view of the enactment of Pub. L. 94–68, it has been determined that notice and public comment is impracticable and contrary to the public interest, and that this corrective measure should be promulgated and made effective immediately. The time required for notice and public comment would substantially delay the rectification of the obvious conflict between the FmHA Emergency Loan program and the Individual and Family Grant program. As a consequence, States which have suffered major disasters and are administering Individual and Family Grant programs would be unable to complete their administrative activities within the time limits prescribed in § 2205.48(g). As a further consequence, the FDAA may be required to make grants to credit-worthy farmers which would be in direct conflict with the Congressional intent in Pub. L. 94–68.

The Administrator of the Federal Disaster Assistance Administration, with the concurrence of the appropriate Departmental officials, has issued a Finding of Inapplicability of Environmental Impact concerning this amendment. It is the position of the signatories to that Finding that this amendment in itself has no significant impact on the human environment since it does not materially extend or alter the language already adopted by Congress in the Act. Interested parties may inspect this Finding of Inapplicability of Environmental Impact at the office of the Rules Docket Clerk, Office of General Counsel, Room 10245, Department of Housing and Urban Development, Washington, D.C. 20410.

Accordingly, pursuant to the authority contained in section 7(d) of the Department of Housing and Urban Development Act (42 U.S.C. 3535(d)) and section 601 of the Disaster Relief Act of 1974 (42 U.S.C. 5121n.), 24 CFR Part 2205 is amended by adding the following:

§ 2205.48 Individual and family grants.

• • • • • •

(c) *National eligibility criteria.* • • •

(1) *General.* • • •

(i) • • •

(D) Farmers, ranchers, and persons engaged in aquaculture who are qualified to apply to the Farmers Home Administration (FmHA), must submit proof of the denial of such loan assistance from the FmHA before they may be considered eligible for a grant under this section. If applicants have been denied such loan assistance because, in FmHA's determination, they are able to obtain necessary credit from other sources they will be considered ineligible for grant assistance for those items or services for which assistance may be provided by the FmHA's Emergency Loan program.

• • • • • •

Effective date. This amendment takes effect on December 17, 1975.

NOTE.—Is it hereby certified that the economic and inflationary impacts of this proposed regulation have been carefully evaluated in accordance with the OMB Circular A–107.

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

[FR Doc.75–33983 Filed 12–16–75;8:45 am]

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Requirements for Public Employee Programs

Pursuant to the authority under sections 8(g)(2) and 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 657(g)(2) and 667) (hereinafter referred to as the Act), 29 CFR Part 1952, "Approved State Plans for Enforcement of State Standards," is amended by adding a new section, § 1952.11, providing minimum requirements for public employee programs in approved State plans as required under section 18(c)(6) of the Act.

Section 18(c)(6) of the Act provides that a State plan, as one of the criteria for its approval, is to contain satisfactory assurances that the State will, to the extent permitted by its law, establish and maintain an effective and comprehensive occupational safety and health program applicable to public agencies of the State and its political subdivisions, which program is to be as effective as the standards contained in an approved plan. See also 29 CFR 1902.3(j).

In providing the qualification, "to the extent permitted by its law," Congress specifically recognized the situation where a State may not be constitutionally empowered to exercise authority or control over public employees of local governments to the same extent as over State employees, because of limitations on State jurisdiction and authority over local government employees, as where localities operate under constitutionally granted "home rule" charters (Leg. History of Occupational Safety and Health Act of 1970 S. 2193, Pub. L. 91–596, prepared by the Subcommittee on Labor of the Committee on Labor and Public Welfare, United States Senate, June 1971, pp. 197, 1054, 1059). Consequently, Congress mandated that a State plan provide a program for all State and local government employees to the full extent that it is legislatively able to do so. Any State action to reduce or remove coverage of public employees in order to limit the State's responsibilities under section 18(c)(6) of the Act would be a sound basis for the rejection or withdrawal of approval of a plan.

Whatever limitations there may be on State authority to cover public employees under a State's program must be fully documented by an opinion from the Attorney General of the State. The Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) will review State interpretations of any such limitations and, if necessary, he may suggest alternative methods of providing a program for public employees within the State, where such limitations exist.

In any event, a State plan must provide an effective and comprehensive program providing application of occupational safety and health standards to its public employees, which program is as effective as the standards provided for private employees. Standards applicable to public employees must deal with hazards as comprehensively as standards applicable to private employees under the plan. In other words, standards at least as effective as those applicable to working conditions in private industry must be applicable to the same or similar working conditions in public employment. In addition, procedures and requirements for promulgation of standards and granting of variances from standards must be the same as those provided for private industry, in accordance with Part 1902 of this chapter.

It is possible that certain public occupations may involve exposure to hazards which are unique to that occupation and thus employees in these occupations would not be provided with adequate protection by the application of existing standards (i.e. firefighting, emergency services). For such occupations, States are encouraged to develop and enforce standards tailored to the needs of the particular hazard involved.

The legislative history and the provisions of section 18(c)(6) of the Act indicate that Congress recognized that the enforcement mechanisms under the Act would not necessarily be as appropriate for application to public employers as they would be to private employers. It is in the discretion of the individual State as to whether it will provide a means of enforcement under its public employee program which will be applied in the same manner as for private employers.

However, certain minimum enforcement elements are deemed essential to ensure an "effective and comprehensive" occupational safety and health program for public employees which is as effective as the standards contained in an approved plan. These elements, derived from the indices of effectiveness for enforcement of a private employee program contained in 29 CFR 1902.4(c), are deemed basic to the effective application of occupational safety and health standards within the meaning of the Act. It should be noted, however, that in addressing these concepts, a state public employee program may use approaches different from those used in a private industry program. For instance, a State may not find it appropriate to impose monetary sanctions against public employers, or the designated agency under the plan might choose to develop self inspection programs with State level agencies, rather than conducting the inspections itself. A State public employee program, in providing for application of standards to all public employees in the State at least as effective as those applicable to private employees, must provide for the following: (1) Regular inspections of workplaces, including inspections in response to valid employee complaints, (2) a means for employees to bring possible violations to the attention of inspectors, (3) notification to employees, or their representatives, when no violations are found as a result of violations alleged by such employees or their representatives, and provision for informal review of such determination, (4) a means of informing employees of their protections and obligations under the Act, (5) protection for employees against discrimination or discharge because they have exercised rights under the program, (6) employee access to information on their exposure to toxic materials or harmful physical agents and prompt notification to employees when they have been or are being exposed to such materials or agents at concentrations or levels above those specified by the applicable standards, (7) procedures for the prompt restraint or elimination of imminent danger situations, (8) a means of promptly notifying employers and employees when an alleged violation has occurred, including the proposed abatement requirements, (9) a means of establishing timetables for the correction of violations, and (10) a program for encouraging voluntary compliance. See also North Carolina approval decision (38 FR 3041, February 11, 1973).

It should be noted, however, that even though the State may develop enforcement approaches for these elements which differ from those which it uses in its private industry program, the designated agency must maintain control over the implementation of the program. For example, the designated agency might choose to provide for the development and enforcement of a public employee plan by a political subdivision, but at all times the designated agency must be able to ensure prompt response to results of the evaluation of the program. See Colorado Approval Decision (38 FR 25172).

The new § 1952.11 of this chapter includes statements of policy, interpretations of the Act and its implementing regulations respecting requirements for public employee programs under approved State plans. Regulations concerning statutory interpretations and policy statements do not require a public comment period prior to becoming effective (Administrative Procedure Act, 5 U.S.C. 553(b)(3)(A)). In addition, the requirements outlined above were set forth in a program directive, P.D. #72–22, which was reviewed by the Advisory Committee on Intergovernmental Relations in July 1972 (See CCH, Employment Safety and Health Guide, 1973–1974 Supplemental Volumes, paragraph 9045). The requirements outlined above were also set forth in the notice of the decision approving the North Carolina Occupational Safety and Health Plan (38 FR 3041).

In addition, the Assistant Secretary, in accordance with 5 U.S.C. 553(b)(3)(B), finds that good cause exists for not delaying the effective date of these regulations as they codify statutory interpretations which have been uniformly applied and incorporated in each State plan approved under section 18(c) of the Act, as set forth in Subpart B, below.

Therefore, pursuant to the authority contained in sections 8(g)(2) and 18 of the Act, 29 CFR 1952.11 is added as follows. The amendment shall be effective December 16, 1975.

§ 1952.11 State and local government employee programs.

(a) Each approved State plan must contain satisfactory assurances that the State will, to the extent permitted by its law, establish and maintain an effective and comprehensive occupational safety and health program applicable to all employees of public agencies of the State and its political subdivisions which program is as effective as the standards contained in an approved plan.

(b) This criteria for approved State plans is interpreted to require the following elements with regard to coverage, standards, and enforcement:

(1) *Coverage.* The program must cover all public employees over which the State has legislative authority under its constitution. "To the extent permitted by its law," specifically recognizes the situation where local governments ex-

V 401243 DEC 17 75 XUM

clusively control their own employees, such as under certain "home rule" charters.

(2) *Standards.* The program must be as effective as the standards contained in the approved plan applicable to private employers. Thus, the same criteria and indices of standards effectiveness contained in §§ 1902.3(c) and 1902.4 (a) and (b) of this chapter would apply to the public employee program. Where hazards are unique to public employment, all appropriate indices of effectiveness, such as those dealing with temporary emergency standards, development of standards, employee information, variances, and protective equipment, would be applicable to standards for such hazards.

(3) *Enforcement.* Although section 18 (c)(6) of the Act requires State public employee programs to be "as effective as standards" contained in the State plan, minimum enforcement elements are required to ensure an "effective and comprehensive" public employee program as follows (See notice of approval of the North Carolina Plan (38 FR 3041):

(i) Regular inspections of workplaces, including inspections in response to valid employee complaints;

(ii) A means for employees to bring possible violations to the attention of inspectors;

(iii) Notification to employees, or their representatives, of decisions that no violations are found as a result of complaints by such employees or their representatives, and informal review of such decisions;

(iv) A means of informing employees of their protections and obligations under the Act;

(v) Protection for employees against discharge of discrimination because of the exercise of rights under the Act;

(vi) Employee access to information on their exposure to toxic materials or harmful physical agents and prompt notification to employees when they have been or are being exposed to such materials or agents at concentrations or levels above those specified by the applicable standards;

(vii) Procedures for the prompt restraint or elimination of imminent danger situations;

(viii) A means of promptly notifying employers and employees when an alleged violation has occurred, including the proposed abatement requirements;

(ix) A means of establishing timetables for the correction of violations;

(x) A program for encouraging voluntary compliance; and;

(xi) Such other additional enforcement provisions under State law as may have been included in the State plan.

(c) In accordance with § 1902.3(b)(3), the State agency or agencies designated to administer the plan throughout the State must retain overall responsibility for the entire plan. Political subdivisions may have the responsibility and authority for the development and enforcement of standards: *Provided*, That the designated State agency or agencies have adequate authority by statute, regulation, or agreement to insure that the commitments of the State under the plan will be fulfilled.

These commitments supersede and control any delegation of authority to State or local agencies. (See Notice of Approval of Colorado Plan, 38 FR 25172.)

(Secs. 8(g)(2), 18, Pub. L. 91-596, 84 Stat. 1600, 1608 (29 U.S.C. 657(g)(2), 667))

Signed at Washington, D.C. this 10th day of December 1975.

MORTON CORN,
Assistant Secretary of Labor.

[FR Doc.75-34013 Filed 12-16-75;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 6—DEPARTMENT OF STATE

[Dept. Reg. 108.719]

PROCUREMENT REGULATIONS

Miscellaneous Amendments

Parts 6-1, 6-2, and 6-3 of Title 41 of the Code of Federal Regulations are amended to implement Pub. L. 93-356, dated July 25, 1975, which amended the Federal Property and Administrative Services Act of 1949, as amended (40 U.S.C. 471) to increase the authority to negotiate small purchases from $2,500 to $10,000. This amendment supplements FPR Amendment 153 published in the FEDERAL REGISTER on September 25, 1975 (40 FR 44137). Additionally, procedures for administrative debarment are updated, and certain organizational changes and editorial corrections are made.

Inasmuch as these regulations relate to internal procedures and are based on FPR regulations previously published, it is impractical and unnecessary to subject them to the notice and public procedure requirements for rulemaking under 5 U.S.C. 553.

PART 6-1—GENERAL

1. In Subpart 6-1.4, § 6-1.404-2(c)(5)(ii) is amended to read as follows:

§ 6-1.404-2 Designation.

* * * * * * *

(c) * * *
(5) * * *

(ii) Direct transactions with vendors within the United States shall not exceed $5,000 per transaction unless such transaction is under a contract executed by the Department of State, the General Services Administration or other U.S. Government Agency. Such transactions with U.S. vendors shall be in accordance with small purchase procedures described in Subpart 1-3.6 of this title and Subpart 6-3.6 of this chapter.

2. Subpart 6-1.6 is revised by deleting the text and reserving the present §§ 6-1.601 and 6-1.602, and by adding new §§ 6-1.604 and 6-1.604-1 as follows:

Subpart 6-1.6—Debarred and Ineligible Bidders

Sec.
6-1.601 [Reserved]
6-1.602 [Reserved]
6-1.604 Department of State procedure for administrative debarment.
6-1.604-1 Notice and hearing.

AUTHORITY: Sec. 205(c), 63 Stat. 390, as amended, (40 U.S.C. 486(c)); sec. 4, 63 Stat. 111, (22 U.S.C. 2658)

Subpart 6-1.6—Debarred and Ineligible Bidders

§§ 6-1.601—6-1.602 [Reserved]

§ 6-1.604 Department of State procedure for administrative debarment.

(a) Administrative debarment may be initiated by any Contracting Officer of the Department.

(b) The recommendation for debarment together with a statement of the causes or conditions (see § 1-1.604 of this title), the suggested term of debarment, and the documentary evidence to support the recommendation will be submitted to the Chief, Supply and Transportation Division. If concurred in, the recommendation will be forwarded to the Legal Adviser for approval and returned to the Chief, Supply and Transportation Division.

§ 6-1.604-1 Notice and hearing.

(a) *Notice.* A notice of proposed debarment will:

(1) Concisely state the facts on which the proposed debarment is predicated;

(2) Specify the period of the proposed debarment;

(3) Inform the firm or individual of the action which the Department may take in the event a low bid or proposal is received from the firm or individual before the proposed debarment is finally determined;

(4) Inform the firm or individual of its right, within twenty (20) days of the date of the notice of the proposed debarment, or such other time as may be specified in the notice, to request a hearing;

(5) Provide that the firm or individual may submit a written reply to the notice of proposed debarment within twenty (20) days of its date, or such other time as may be specified in the notice. The reply shall set forth the facts on which the firm or individual relies and request a hearing, if one is desired;

(6) Inform the firm or individual that if no reply or request for hearing is received within twenty (20) days from the date of the notice of proposed debarment or such other time as may be specified in the notice, that the debarment will become effective on the date specified in the notice.

(b) *Hearing.* Hearings requested in connection with debarment proceedings shall be conducted before the Deputy Assistant Secretary for Operations or his designee. An opportunity shall be afforded to the firm or individual to appear with witnesses and counsel, to present facts or circumstances showing cause why such firm or individual should not be debarred. If the firm or individual elects not to appear, the reviewing authority will make the decision based on the facts on record and such additional evidence as may be furnished by the parties involved. After consideration of the facts, the reviewing authority shall notify the firm or individual of the final decision.

PART 6-2—PROCUREMENT BY FORMAL ADVERTISING

3. In Subpart 6-2.2, § 6-2.202-50(a) is revised to read as follows:

§ 6-2.202-50 Grouping of items in a single invitation for bids.

(a) It is basic Government policy that procurement shall be effected by formal advertising, except as provided in Subpart 1-3.2 of this title. Consequently, requirements aggregating more than $10,000 shall not be broken down into several purchases or contracts of less than $10,000 merely for the purpose of utilizing negotiation. (See § 1-3.602 of this title.) In order to minimize the administrative costs to the Government each invitation for bids shall include all items suitable for procurement by the procuring activity at the time the invitation is being prepared which are customarily provided by the prospective bidders.

* * * * * * *

PART 6-3—PROCUREMENT BY NEGOTIATION

4. In Subpart 6-3.6, § 6-3.605-3 is amended by revising paragraphs (b)(2)(i) and (ii), and adding a new paragraph (b)(2)(iii) as follows:

§ 6-3.605-3 Agency order forms.

* * * * * * *

(b) * * *
(2) * * *

(i) Procedures for purchasing for surface shipment from Federal Supply Schedule contractors are in § 6-5.5004 of this chapter. They may be followed, as applicable, in purchasing from other government contractors. The dollar limitation of $5,000 on purchases from U.S. vendors described in § 6-1.404-2(c)(5)(ii) of this chapter does not apply to purchases under Government contracts existing at the time of purchase.

(ii) Posts should normally follow the procedures in § 6-5.5004 of this chapter in purchasing for surface shipment from noncontract sources so that payment to the vendor may be accelerated through usage of the Despatch Agent's services. The dollar limitation of $5,000 on purchases from U.S. vendors described in § 6-1,404(c)(5)(ii) of this chapter applies to the aggregate total of the order (including all estimated handling and freight charges) to be paid to the vendor.

(iii) The terms and conditions required by § 1-3.605-2 of this title shall be added or incorporated by reference on the purchase order form for small purchases in excess of $2,500 from U.S. vendors.

5. The text in § 6-3.606-2 is deleted and the section is reserved, and in § 6-3.606-4 (a)(2) is revised to read as follows:

§ 6-3.606-2 [Reserved]

§ 6-3.606-4 Documentation.

(a) * * *

(2) The names of persons authorized to place orders, the method of placing such orders, the maximum limitation of individual orders (which, in any case shall not exceed $5,000), and the maximum cumulative purchase limitation under the arrangement.

* * * * * * *

(Sec. 205(c), 63 Stat. 390, as amended, (40 U.S.C. 486(c)); sec. 4, 63 Stat. 111, (22 U.S.C. 2658)).

Effective date. These amendments are effective December 3, 1975.

Dated: December 3, 1975.

[SEAL] JOHN M. THOMAS,
Assistant Secretary for Administration.

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5559]

[AA-6977]

ALASKA

Amendment of Executive Order No. 6827; Transfer of Lands From Department of the Air Force to the U.S. Coast Guard

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

Executive Order No. 6827 of August 21, 1934, which withdrew lands for the War Department for the use of the Signal Corps, which lands were subsequently transferred on July 3, 1962, by paragraph IV of General Orders No. 38, Department of the Army, to the Department of the Air Force, is hereby amended so far as it relates to the following described land to transfer jurisdiction of said land to the U.S. Coast Guard, Department of Transportation for the housing of personnel:

ANCHORAGE TOWNSITE

LOT 18, BLOCK 16

Containing 0.14 of an acre.

JACK O. HORTON,
Assistant Secretary of the Interior.

Correction

In FR Doc. 75-16662, appearing at page 27154 in the issue for Thursday, June 26, 1975, on page 27156 § 233.20(a)(3)(vi) should read as follows:

§ 233.20 Need and amount of assistance.

(a) * * *
(3) * * *

(vi) Except for child support obligations assigned pursuant to § 232.11 of this chapter, if the State agency holds relatives responsible for the support of applicants and recipients, (a) include an income scale for use in determining whether responsible relatives have sufficient income to warrant expectation that they can contribute to the support of applicants or recipients, which income scale exceeds a minimum level of living and at least represents a minimum level of adequacy that takes account of the needs and other obligations of the relatives; and (b) will be made for contributions from relatives whose net cash income is below the income scale. In family groups living together, income of the spouse is considered available for his spouse and income of parent is considered available for children under 21.

Title 46—Shipping

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

MARKINGS ON INFLATABLE LIFERAFTS

● **Purpose. These regulations amend the lifesaving equipment requirement's by incorporating the current Coast Guard specification requirements for inflatable liferafts in the inspection requirements for vessels.** ●

On August 1, 1975, there were published in the FEDERAL REGISTER (40 FR 32339) proposed rules concerning the markings on certain inflatable liferafts if they were to continue to be used in Great Lakes service after January 1, 1976, and on other certificated vessels after January 1, 1980. Interested parties were given an opportunity to submit, not later than September 15, 1975, data, views and recommendations regarding the marking requirements.

No comments were received on the proposal. The proposed regulations are hereby adopted with the following corrections of errors:

1. In § 94.10-5 (b)(2)(ii), strike the words "paragraph (b)(3)(iii)", and insert the words "paragraph (b)(2)(iii)" in place thereof.

2. In § 167.36-2 (e)(2), strike the words "paragraph (b)(3)iii)" and insert the words "paragraph (e)(3)" in place thereof.

3. In § 176.25-20 (d)(2), strike the words "paragraph (b)(3)(iii)" and insert the words "paragraph (d)(3)" in place thereof.

4. In § 176.25-22 (e)(2), strike the words "paragraph (b)(3)(iii)" and insert the words "paragraph (e)(3)" in place thereof.

5. In § 192.10-5 (b)(2)(ii), strike the words "paragraph (b)(3)(iii)" and insert the words "paragraph (b)(2)(iii)" in place thereof.

The adopted regulations, as corrected, are set forth below.

Effective date. These regulations shall become effective on January 19, 1976.

Dated: December 10, 1975.

O. W. SILER,
Admiral, U.S. Coast Guard Commandant.

V 40 243 DEC 17 75 XUM

Chapter 1 of Title 46, Code of Federal Regulations is amended as follows:

PART 33—LIFESAVING APPLIANCES

1. By revising § 33.01–30(f) to read as follows:

§ 33.01–30 Approval of lifesavings appliances—TB/ALL.

• • • • •

(f) An inflatable liferaft must meet the following:

(1) The liferaft must be approved under Subpart 160.051 of this chapter.

(2) On a tankship on an international voyage, the liferaft must have a carrying capacity of not less than 6 or more than 25 persons.

(3) Except as required in paragraph (f)(4) of this section, the liferaft must be marked in accordance with § 160.051–8 of this chapter.

(4) After January 1, 1976 on vessels certificated for Great Lakes service and after January 1, 1980 on other certificated vessels, the liferaft must show on or near the liferaft's nameplate, and the liferaft's container must show on or near the plate, marking approved by a Coast Guard inspector that is—

(i) An approval number consisting of "160.051/" followed by a number that is greater than "49" that is followed by a revision number (e.g. 160.051/50/1); or

(ii) An approval number consisting of "160.051/" followed by a number that is smaller than 50 that is followed by a reviston number (e.g. 160.051/48/1), the words "MOD. TEMP", a Coast Guard inspector's initials, and the date that an inspector found that the liferaft met § 160.051–5(c)(4) of this chapter.

• • • • •

2. By revising the note following § 33.25–10(b) to read as follows:

§ 33.25–10 Marking of liferafts—TB/ALL.

• • • • •

(b) • • •

NOTE: See § 33.01–30(f), (3) and (4) and § 160.051–8 of this chapter for required markings on an inflatable liferaft and a liferaft's container.

PART 75—LIFESAVING EQUIPMENT

3. By revising § 75.10–5(b)(3) to read as follows:

§ 75.10–5 Type of lifeboats, liferafts, lifefloats, and buoyant apparatus required.

• • • • •

(b) • • •

(3) An inflatable liferaft must meet the following:

(i) The liferaft must be approved under Subpart 160.051 of this chapter.

(ii) Except as required in paragraph (b)(3)(iii) of this section, the liferaft must be marked in accordance with § 160.051–8 of this chapter.

(iii) After January 1, 1976 on vessels certificated for Great Lakes service and after January 1, 1980 on other certificated vessels, the liferaft must show on or near the liferaft's nameplate, and the liferaft's container must show on or near the plate, marking approved by a Coast Guard inspector that is—

(A) An approval number consisting of "160.051/" followed by a number that is greater than 49 followed by a revision number (e.g. 160.051/50/1); or

(B) An approval number consisting of "160.051/" followed by a number that is smaller than 50 that is followed by a revision number (e.g. 160.051/48/1), the words "MOD. TEMP.", a Coast Guard inspector's initials, and the date that an inspector found that the liferaft met § 160.051–5(c)(4) of this chapter.

• • • • •

4. By revising the note following § 78.47–63(c) to read as follows:

§ 78.47–63 Liferafts, lifefloats, and buoyant apparatus.

• • • • •

(c) • • •

NOTE: See § 75.10–5(b)(3)(ii) and (iii) and § 160.051–8 of this chapter for required markings on an inflatable liferaft and a liferaft's container.

PART 94—LIFESAVING EQUIPMENT

5. By revising § 94.10–5(b)(2) to read as follows:

§ 94.10–5 Type of lifeboats, liferafts, lifefloats, buoyant apparatus, and rescue boats required.

• • • • •

(b) • • •

(2) An inflatable liferaft must meet the following:

(i) The liferaft must be approved under Subpart 160.051 of this chapter.

(ii) Except as required in paragraph (b)(2)(iii) of this section, the liferaft must be marked in accordance with § 160.051–8 of this chapter.

(iii) After January 1, 1976 on vessels certificated for Great Lakes service and after January 1, 1980 on other certificated vessels, the liferaft must show on or near the liferaft's nameplate, and the liferaft's container must show on or near the plate, marking approved by a Coast Guard inspector that is—

(A) An approval number consisting of "160.051/" followed by a number that is greater than 49 followed by a revision number (e.g. 160.051/50/1); or

(B) An approval number consisting of "160.051/" followed by a number that is smaller than 50 that is followed by a revision number (e.g. 160.051/48/1), the words "MOD. TEMP.", a Coast Guard inspector's initials, and the date that an inspector found that the liferaft met § 160.051–5(c)(4) of this chapter.

PART 97—OPERATIONS

• • • • •

6. By revising the note following § 97.37–40(c) to read as follows:

§ 97.37–40 Liferafts, lifeboats, and buoyant apparatus.

• • • • •

(c) • • •

NOTE: See § 94.10–5(b)(2)(ii) and (iii) and § 160.051–8 of this chapter for required markings on an inflatable liferaft and a liferaft's container.

PART 167—PUBLIC NAUTICAL SCHOOL SHIPS

7. By amending § 167.35–2 by adding a new paragraph (e) to read as follows:

§ 167.35–2 Inflatable liferafts.

• • • • •

(e) An inflatable liferaft must meet the following:

(1) The liferaft must be approved under Subpart 160.051 of this chapter.

(2) Except as required in paragraph (e)(3) of this section, the liferaft must be marked in accordance with § 160.051–8 of this chapter.

(3) After January 1, 1976 on vessels certificated for Great Lakes service and after January 1, 1980 on other certificated vessels, the liferaft must show on or near the liferaft's nameplate, and the liferaft's container must show on or near the plate, marking approved by a Coast Guard inspector that is—

(i) an approval number consisting of "160.051/" followed by a number that is greater than 49 followed by a revision number (e.g. 160.051/50/1); or

(ii) an approval number consisting of "160.051/" followed by a number that is smaller than 50 that is followed by a revision number (e.g. 160.051/48/1), the words "MOD. TEMP.", a Coast Guard inspector's initials, and the date that an inspector found that the liferaft met § 160.051–5(c)(4) of this chapter.

8. By revising the note following § 167.55–5(j)(2) to read as follows:

§ 167.55–5 Marking of fire and emergency equipment, etc.

• • • • •

(j) • • •

(2) • • •

NOTE: See § 167.35–2(e)(2) and (3) and § 160.051–8 of this chapter for required markings on an inflatable liferaft and a liferaft's container.

PART 176—INSPECTION AND CERTIFICATION

9. By amending § 176.25–20 by adding a new paragraph (d) to read as follows:

§ 176.25–20 Lifesaving equipment—S.

• • • • •

(d) An inflatable liferaft must meet the following:

(1) The liferaft must be approved under Subpart 160.051 of this chapter.

(2) Except as required in paragraph (d)(3) of this section, the liferaft must be marked in accordance with § 160.051–8 of this chapter.

(3) After January 1, 1976 on vessels certificated for Great Lakes service and after January 1, 1980 on other certificated vessels, the liferaft must show on or near the liferaft's nameplate, and the liferaft's container must show on or near the plate, marking approved by a Coast Guard inspector that is—

(i) An approval number consisting of "160.051/" followed by a number that is greater than 49 followed by a revision number (e.g. 160.051/50/1); or

(ii) An approval number consisting of "160.051/" followed by a number that is smaller than 50 that is followed by a revision number (e.g. 160.051/48/1), the words "MOD. TEMP.", a Coast Guard inspector's initials, and the date that an inspector found that the liferaft met § 160.051–5(c)(4) of this chapter.

10. By amending § 176.25–22 by adding a new paragraph (e) to read as follows:

§ 176.25–22 Lifesaving equipment—L.

• • • • •

(e) An inflatable liferaft must meet the following:

(1) The liferaft must be approved under Subpart 160.051 of this chapter.

(2) Except as required in paragraph (e)(3) of this section, the liferaft must be marked in accordance with § 160.051–8 of this chapter.

(3) After January 1, 1976 on vessels certificated for Great Lakes service and after January 1, 1980 on other certificated vessels, the liferaft must show on or near the liferaft's nameplate, and the liferaft's container must show on or near the plate, marking approved by a Coast Guard inspector that is—

(i) An approval number consisting of "160.051/" followed by a number that is greater than 49 followed by a revision number (e.g. 160.051/50/1); or

(ii) An approval number consisting of "160.051/" followed by a number that is smaller than 50 that is followed by a revision number (e.g. 160.051/48/1), the words "MOD. TEMP.", a Coast Guard inspector's initials, and the date that an inspector found that the liferaft met § 160.051–5(c)(4) of this chapter.

PART 192—LIFESAVING EQUIPMENT

11. By revising § 192.10–5(b)(2) to read as follows:

§ 192.10–5 Type of lifeboats, liferafts, lifefloats, buoyant apparatus, and rescue boats required.

• • • • •

(b) • • •

(2) An inflatable liferaft must meet the following:

(i) The liferaft must be approved under Subpart 160.051 of this chapter.

(ii) Except as required in paragraph (b)(2)(iii) of this section, the liferaft must be marked in accordance with § 160.051–8 of this chapter.

(iii) After January 1, 1976 on vessels certificated for Great Lakes service and after January 1, 1980 on other certificated vessels, the liferaft must show on or near the liferaft's nameplate, and the liferaft's container must show on or near the plate, marking approved by a Coast Guard inspector that is—

(A) An approval number consisting of "160.051/" followed by a number that is greater than 49 followed by a revision number (e.g. 160.051/50/1); or

(B) An approval number consisting of "160.051/" followed by a number that is smaller than 50 that is followed by a revision number (e.g. 160.051/48/1), the words "MOD. TEMP.", a Coast Guard inspector's initials, and the date that an inspector found that the liferaft met § 160.051–5(c)(4) of this chapter.

(R.S. 4417a, as amended (46 U.S.C. 391a), R.S. 4405, as amended (46 U.S.C. 375), R.S. 4462, as amended (46 U.S.C. 416), sec. 6(b)(1), 80 Stat. 937 (49 U.S.C. 1655(b)(1)); 49 CFR 1.46(b))

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 20032; RM–1917]

PART 91—INDUSTRIAL RADIO SERVICES

Use of Certain Frequencies for Petroleum Geophysical Operations

1. This order is to correct a misprint in a Commission document which resulted in the deletion of ten, 150 MHz-band tertiary frequencies from the Petroleum Radio Service Frequency Table (§ 91.304). The document in which this took place is: Report and Order in Docket 20032, FCC 74–1188, released November 12, 1974 and published in the FEDERAL REGISTER on November 20, 1974 (39 FR 40764).

2. Part of the intent of Docket 20032 was to specify the frequencies to be used for geophysical operations. However, when listing the 150 MHz band channels available for geophysical operations, page two of the Appendix, an asterisk between each of the listed frequencies (designating that a frequency or frequencies between the two channels is left out) was inadvertently omitted. Therefore, in printing the rules the tertiary channels between each of the frequencies listed in the Appendix were omitted.

3. Inasmuch as this Order is a non-substantive editional revision of the Commission's rules, the Commission is taking this action pursuant to § 0.231(d) of the rules and compliance with the prior notice and procedure prescribed by section 4(a) of the Administrative Procedure Act, 5 U.S.C. 553, is not necessary. Authority for this amendment is contained in sections 4(i) and 303(r) of the Communications Act of 1934, as amended, and in § 0.231(d) of the Commission's rules and regulations.

4. *Accordingly it is ordered*, Effective December 29, 1975, § 91.304 is amended as set forth below.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1006; (47 U.S.C. 104, 303.))

FEDERAL COMMUNICATIONS COMMISSION

Adopted: December 10, 1975.

Released: December 11, 1975.

[SEAL] RICHARD D. LICHTWARDT, *Executive Director.*

Title 49—Transportation

SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

[OST Docket No. 29; Amdt. No. 25–2]

PART 25—RELOCATION ASSISTANCE AND LAND ACQUISITION UNDER FEDERAL AND FEDERALLY ASSISTED PROGRAMS

Schedule of Moving Expense Allowances; Individuals and Families

Part 25 of the regulations of the Office of the Secretary implementing the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91–646, 84 Stat. 1894, was published in the FEDERAL REGISTER on September 4, 1975, 40 FR 41040. The purpose of this amendment is to clarify, in § 25.153, that the Federal Highway Administrator will update Appendix A in January and June of each year to reflect any changes in the schedule covered by that appendix.

Since this amendment relates to Departmental management, procedures and practices, and not to the substance of the regulations, public notice and procedure thereon are unnecessary, and it may be made effective in fewer than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, Part 25 of title 49 of the Code of Federal Regulations is amended as set forth below:

1. Section 25.153 is amended to read as follows:

V 40 243 DEC 17 75 XUM

§ 25.153 Schedule of moving expense allowances; individuals and families.

The Federal Highway Administrator shall—

(a) Establish and maintain in Appendix A to this part a schedule of moving expense allowances applicable to individuals and families displaced by projects to which this part applies for each State. The schedule shall cover every locality in the State and shall be based on current local moving costs. The allowances for any individual or family may not be more than $300.00.

(b) Amend Appendix A of this part to reflect any changes in the schedule covered by that appendix by publication in the FEDERAL REGISTER in January and June of each year.

(Sec. 213, 84 Stat. 1900 (42 U.S.C. 4633))

Effective date. This amendment is effective on December 17, 1975.

Issued in Washington, D.C., on December 11, 1975.

WILLIAM T. COLEMAN, Jr.,
Secretary of Transportation.

[FR Doc.75-33884 Filed 12-16-75;8:45 am]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[46 CFR Part 78]

[CGD 75-009]

FIRE AND BOAT DRILLS ON PASSENGER VESSELS

Proposed Rulemaking

The Coast Guard is considering amending the regulations for fire and boat drills on passenger vessels to delete the provision which excludes female crew members from participating in the drills.

Interested persons are invited to participate in this rulemaking by submitting written data, views, or arguments to the Commandant (G-CMC/81), U.S. Coast Guard, Washington, D.C. 20590. Each person or organization submitting a comment should include their name and address, identify this notice (CGD 75-009), and give reasons for any recommendations made.

Comments received before January 26, 1976, will be considered before final action is taken on this proposal. Copies of all written comments received will be available for examination in room 8117, Department of Transportation, Nassif Building, 400 Seventh St. SW., Washington, D.C. This proposal may be changed in light of comments received.

No hearing is contemplated, but one may be held at a time and place set in a later notice in the FEDERAL REGISTER, if requested by a person or organization desiring to comment orally at a public hearing and raising a genuine issue.

This amendment is being considered because as more women are employed in departments other than the steward's department, the safety of a vessel could be affected if the entire crew is not required to participate in fire and boat drills.

In consideration of the foregoing, it is proposed that Part 78 of Title 46 of the Code of Federal Regulations be amended as follows:

§ 78.17-50 [Amended]

In § 78.17-50(c), by deleting the words "except female members" in the first sentence.

(R.S. 4488, as amended; (46 U.S.C. 481; 49 U.S.C. 1655(b); 49 CFR 1.46(b)).)

Dated December 9, 1975.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard,
Chief, Office of Merchant Marine Safety.

[Docket No. H-033]

OCCUPATIONAL EXPOSURE TO ASBESTOS

Extension of Time To File Comments on Proposed Revision; Corrections

1. *Extension of time.* On October 9, 1975, notice was published in the FEDERAL REGISTER (40 CFR 47652) of a proposed revision of the occupational safety and health standard for exposure to asbestos, pursuant to the authority in sections 6(b) and 8(c) of the Occupational Safety and Health Act of 1970 (84 Stat. 1593, 1599; 29 U.S.C. 655, 657) and 29 CFR Part 1911. Interested persons were given until December 8, 1975, to submit written data, views, and arguments regarding the proposed revision and to file objections thereto. In response to the notice, interested parties have submitted requests for an extension of the period within which to file comments. The basis for the requests is that the issues raised by the proposal are complex, that additional time is needed to compile relevant data and information regarding the proposed revision and that affected parties are also submitting comments on other recently published OSHA proposals. The requesting parties state that additional time is necessary in order to submit appropriate comments on the proposed revision.

OSHA finds these requests and supporting rationale to have merit, and has decided to extend the period for the filing of comments and objections for approximately 60 additional days. Because of the need to prepare an inflationary impact statement, this extension of time will not unduly delay the standards-setting process. Therefore, notice is hereby given that the period for submitting written data, views and arguments, as well as for the filing of objections and requests for an informal hearing on the proposed revision of the standard on asbestos, is extended from December 8, 1975 to February 9, 1976. As originally directed, such material must be submitted in quadruplicate to the Docket Officer, Docket H-033 U.S. Department of Labor, Room N-3620, 3d and Constitution Avenue, NW., Washington, D.C. 20210 (Telephone 202/523-9076). The data, views, and arguments will be available for public inspection and copying at the above address. All written submissions received will be made a part of the record. In all other respects, the terms of the original notice remain in effect.

2. *Corrections.* In FR Doc. 75-26561, appearing in the FEDERAL REGISTER of October 9, 1975, it is necessary to make the following corrections:

1. On page 47653, in the first column, lines 7-9 of the first full paragraph are corrected to read "industry (624,000 short tons), while 23 percent were used in nonconstruction. Approxi-"

2. On page 47653, in the first column, the second sentence of the fourth paragraph is corrected to read as follows: "The Occupational Safety and Health Administration and the standards issued by it do not apply to working conditions in mining and milling operations to the extent that such working conditions are covered by regulations affecting occupational safety or health prescribed or enforced by the Mining Enforcement and Safety Administration of the Department of the Interior."

3. On page 47653, in the third column, in line 31, the quotation is corrected by adding the word "suffer" after the word "will".

4. On page 47654, in the first column, line 15 of the third full paragraph, the reference "Selikoff, 1965:" is corrected to read, "Selikoff, Hommond and Churg, 1965;".

5. In page 47654, in the third column, line 14 of the first complete paragraph, the year "1965" is corrected to read "1967".

6. On page 47654, in the third column, line 14 from the bottom of the first full paragraph, the word "asbestosis" is corrected to read "asbestos".

7. On page 47655, in the first column, line 11 of the fourth paragraph, the reference "Enterline, 1972" is corrected to read "Enterline, de Coufle and Henderson, 1972".

8. On page 47655, in the third column, line 5 of the second full paragraph, the date "1972" is corrected to read "1973".

9. On page 47656, in the first column, lines 2, 8 and 9 from the bottom of the second full paragraph, the references are corrected to read "Sheers and Templeton, 1968"; "Stumphius, 1971", and "Rawcliffe, 1971", respectively.

10. On page 47659, reference 8, the name of "Nureweather, E.R.A." is corrected to read "Mereweter, E.R.A."

11. On page 47659, reference 9, the name "Dressen, W.C." is corrected to read "Dreessen, W.C."

V 40 243 DEC 17 75 XUM

12. On page 47660, reference 13, the name "Dozz, R" is corrected to read "Doll, R".

13. On page 47660, reference 15, the title of the paper is corrected by changing the word "Conjugal" to "Household Contact".

14. On page 47660, reference 19, the title of the paper is corrected by changing the word "Research" to "Recent".

15. On page 47660, reference 21, the name "P. Marehand" is corrected to read "P. Marchand".

16. On page 47660, reference 22, the name "Entickwap, J.B." is corrected to read "Enticknap, J. B.".

17. On page 47660, reference 23, the entire reference is corrected to read: Borow, M., Conston, A., Livornese, L.I., and N. Schalet: Mesothelioma Following Exposure to Asbestos: a Review of 72 Cases. Chest 64: 641–646 (1973).

18. On page 47660, reference 25, the city "Bristol" is corrected to read "Brighton".

19. On page 47660, reference 27, the name "Still, P. M." is corrected to read "Stell, P.M.".

20. On page 47660, reference 29, the publication year is corrected by changing "(1976)" to "(1970)".

21. On page 47660, reference 31, the date is corrected by changing "September 30, 1974" to "September 20, 1974".

22. On page 47660, reference 32, the name "Wester, I." is corrected to read "Webster, I."

23. On page 47660, reference 33, the name "L. Davies" is corrected to read "T. A. Lloyd Davies".

24. On page 47660, reference 34 is to be added as follows: "Lillington, G.A., Jamppe, R.W. and J.R. Differding: Conjugal-Malignant Mesotheliomas. New Eng. J. Med. 291: 583–584 (1974)."

25. On page 47660, reference 38, in the title of the paper, the name "Wallheren" is corrected to read "Welcheren".

26. On page 47660, reference 39, the name "Sherrs, G." is corrected to read "Sheers, G".

27. On page 47660, reference 40, in the title of the paper, the word "Plural" is corrected to read "Pleural".

28. On page 47660, reference 41, the name "Wagner, J. K." is corrected to read "Wagoner, J.K."

29. On page 47660, reference 42, the name "Eolge, J.R." is corrected to read "Edge, J.R.", and in the title of the paper, the name "Barrow-in-Furnances" is corrected to read "Barrow-in-Furness."

30. On page 47664, in the third column, the first sentence of paragraph "II C" is corrected to read "Employees involved in clean-up operations where air concentrations are unknown should wear respiratory equipment as specified in Table 1 of the asbestos standard, which protects for up to at least 1000 times the limits in paragraph (b) of the asbestos standard."

31. On page 47665, in the second column, line 11 of paragraph I(f) is corrected by changing "50" to "1,000".

(Secs. 6, 8, 84 Stat. 1593, 1599 (29 U.S.C. 655, 657); Secretary of Labor's Order No. 12–71, 36 FR 8754, and 29 CFR Part 1911).

Signed at Washington, D.C., this 10th day of December 1975.

MORTON CORN,
Assistant Secretary of Labor.

[Docket No. H–005]

OCCUPATIONAL EXPOSURE TO BERYLLIUM

Extension of Time To File Comments on Proposed Rule; Corrections

1. *Extension of time.* On October 17, 1975, notice was published in the FEDERAL REGISTER (40 FR 48814) of a proposed occupational safety and health standard for exposure to beryllium, pursuant to the authority in sections 6(b) and 8(c) of the Occupational Safety and Health Act of 1970 (84 Stat. 1593, 1599; 29 U.S.C. 655, 657) and 29 CFR Part 1911. Interested persons were given until December 16, 1975, to submit written data, views, and arguments regarding the proposed standard and to file objections thereto. In response to the notice, interested parties have submitted requests for an extension of the period within which to file comments. The basis for the requests is that the issues raised by the proposal are complex, that additional time is needed to compile relevant data and information regarding the proposed standard, and that affected parties are also submitting comments on other recently published OSHA proposals. The requesting parties state that additional time is necessary in order to submit appropriate comments on the proposed standard.

We find these requests and supporting rationale to have merit, and have decided to extend the period for the filing of comments and objections for approximately 45 additional days. Because of the need to prepare an inflationary impact statement, this extension of time will not unduly delay the standards-setting process. Therefore, notice is hereby given that the period for submitting written data, views and arguments, as well as for the filing of objections and requests for an informal hearing on the proposed standard on beryllium, is extended from December 16, 1975 to February 2, 1976. As originally directed, such material must be submitted in quadruplicate to the Docket Officer, Docket H–005, U.S. Department of Labor, Room N–3620, 3b and Constitution Avenue, NW., Washington, D.C. 20210 (Telephone 202/523–8076). The data, views, and arguments will be available for public inspection and copying at the above address. All written submissions received will be made a part of the record. In all other respects, the terms of the original notice remain in effect.

2. *Corrections.* In the proposed standard on beryllium (FR Doc. 75–27991) appearing at page 48814 in the FEDERAL REGISTER of Friday, October 17, 1975, the following corrections should be made:

1. On page 48819, in the third column, line 4 of the third full paragraph, is corrected to read: "the proposed standard are followed. The proposal also calls for periodic cleaning."

2. On page 48823, in the first column, line 6 of the seventh full paragraph, is corrected to read "lieum in excess of 1.0 microgram per cubic meter of".

(Secs. 6, 8, 84 Stat. 1593, 1599 (29 U.S.C. 655, 657); Secretary of Labor's Order No. 12–71, 36 FR 8754, and 29 CFR Part 1911).

Signed at Washington, D.C., this 10th day of December 1975.

MORTON CORN,
Assistant Secretary of Labor.

[29 CFR Part 1910]

[Docket No. H–048]

OCCUPATIONAL EXPOSURE TO TRICHLOROETHYLENE

Extension of Time To File Comments on Proposed Rule; Corrections

1. *Extension of time.* On October 20, 1975, notice was published in the FEDERAL REGISTER (40 FR 49032) of a proposed occupational safety and health standard for exposure to trichloroethylene pursuant to the authority in sections 6(b) and 8(c) of the Occupational Safety and Health Act of 1970 (84 Stat. 1593, 1599; 29 U.S.C. 655, 657) and 29 CFR Part 1911. Interested persons were invited to submit data, views and arguments regarding the proposed standard and to file objections thereto, on or before December 19, 1975. In response to the notice, submissions have been received from several interested parties requesting additional time in which to file comments. Generally, the reasons given for the requests are that the issues raised by the proposed standard on trichloroethylene are novel and complex and that affected parties are submitting comments on other recently published OSHA proposals as well. The requesting parties state that more time is essential in order to properly respond to the proposed standard on trichloroethylene.

We find these requests and supporting rationale to have merit, and have decided to extend the period for the filing of comments and objections for approximately 60 additional days. Because of the need to prepare an inflationary impact statement and have it available for public comment in advance of any hearing, this extension of time will not unduly delay the standards-setting process. Therefore, notice is hereby given that the period for submitting written data, views, and arguments, as well as for the filing of objections and requests for an informal hearing on the proposed standard on trichloroethylene is extended from December 19, 1975 to February 20, 1976. As originally directed, such material must be submitted in quadruplicate to the Docket Officer, Docket H–048, U.S. Department of Labor, Room N–3620, 3rd and Constitution Avenue NW., Washington, D.C. 20210 (Telephone 202/523–8076). The data, views, and arguments will be available for public inspection and copying at the above address. All written submissions received will be made a part of the record. In all other respects, the terms of the original notice remain in effect.

2. *Corrections.* In the proposed standard on trichloroethylene (FR Doc. 75–27990) appearing at page 49032 in the FEDERAL REGISTER of Monday, October 20, 1975, the following corrections should be made:

1. On page 49033, in the third column, line 19 of paragraph 1 is corrected to read "found at 20,000 ppm for 24 minutes".

2. On page 49033, in the third column, line 21 of paragraph 1 is corrected to read "84 minutes, and 3,000 ppm for seven hours".

3. On page 49035, in the first column, line 10, is corrected by adding the word "safety" before the words "and health".

4. On page 49037, in the third column, line 17 of the third full paragraph, the word "monitory" is corrected to read "monitoring".

5. On page 49038, in the first column, line 4 of the fourth full paragraph, the word "employers" is corrected to read "employees".

6. On page 49040, in the first column, in the References Section VII, line two of reference #26, the word "Trichlromethylene" is corrected to read "Trichloroethylene".

(Secs. 6, 8, 84 Stat. 1593, 1599 (29 U.S.C. 655, 657); Secretary of Labor's Order No. 12–71, 36 FR 8754, and 29 CFR Part 1911)

Signed at Washington, D.C., this 10th day of December 1975.

MORTON CORN,
Assistant Secretary of Labor.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

[45 CFR Parts 100a, 100c, 174]

EDUCATION PROFESSIONS DEVELOPMENT PROGRAMS

Proposed Mandatory Requirements

In accordance with section 503 of the Education Amendments of 1972 (Pub. L. 92–318) and pursuant to the authority contained in the Education Professions Development Act (Title V of the Higher Education Act of 1965, Pub. L. 89–329 as amended, Parts D and F; 20 U.S.C. 1091–1092, 1119–1119c–3) the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to amend Title 45 of the Code of Federal Regulations by amending Part 174 as set forth below. The proposed amendments would be applicable to the programs authorized by Parts D and F of the Education Professions Development Act. The regulations contain mandatory requirements for these programs. At this time, there will be no separate guidelines. Should guidelines be issued in the future, they would be limited to material in the nature of suggestions and recommendations for program management and operation. Certain technical and conforming amendments are also proposed for Parts 100a and 100c (General Provisions Regulations).

(a) *Purpose of programs.* Title V of the Act provides for assistance to improve the quality of education and to help meet critical shortages of adequately trained educational personnel by (1) Developing information on the actual needs for educational personnel, both present and long-range; (2) Providing a broad range of high quality training and retraining opportunities responsive to changing manpower needs; (3) Attracting a greater number of qualified persons into the education professions; (4) Attracting persons who can stimulate creativity in the arts and other skills to undertake short-term or long-term assignments in education; and (5) Helping to make educational personnel training programs more responsive to the needs of schools and colleges.

Assistance under the regulations set forth below may be provided under Part D of the Act to improve training opportunities for personnel serving in programs of education other than higher education (including programs for (1) bilingual education training; (2) training teachers for Indian children; and (3) urban/rural school development), and under Part F of the Act for training and for developing programs for vocational education personnel.

(b) *Section 503 procedures and effect.* Section 503 of the Education Amendments of 1972 requires the Commissioner to study all rules, regulations, guidelines, or other published interpretations or orders issued by him or by the Secretary after June 30, 1965, in connection with, or affecting, the administration of Office of Education programs; to report to the Committee on Labor and Public Welfare of the Senate and the Committee on Education and Labor of the House of Representatives concerning such study; and to publish in the FEDERAL REGISTER such rules, regulations, guidelines, interpretations, and orders, with an opportunity for public hearing on the matters so published. The regulations proposed below reflect the result of this study as it pertains to programs under Parts D and F of the Act. Upon publication of these revisions to Part 174 in final form after comments and public hearing, all preceding rules, regulations, and other published interpretations and orders issued in connection with or affecting Parts D and F of the Act, except the Office of Education General Provisions Regulations, will be superseded.

(c) *Effect of Office of Education general provisions regulations.* General fiscal and administrative rules for these programs (except under section 552 of the Act) are covered under the overall Office of Education General Provisions Regulations set forth in 45 CFR Parts 100 and 100a, which were adopted in connection with the same study under section 503 of the Education Amendments of 1972 of which this publication is a part.

(d) *Citations of legal authority.* As required by section 431(a) of the General Education Provisions Act (20 U.S.C. 1232 (a)) and section 503 of the Education Amendments of 1972, a citation of statutory or other legal authority for each section of the regulations has been placed in parentheses on the line following the text of the section.

On occasion, a citation appears at the end of a subdivision of the section. In such a case the citation refers to all that appears in the section above the citation. When the citation appears only at the end of the section it applies to the entire section.

(e) *Opportunity for public hearing.* Pursuant to section 503(c) of the Education Amendments of 1972, the Commissioner will provide interested parties an opportunity for a public hearing on these regulations as follows:

A hearing will take place at the U.S. Office of Education in the auditorium of the Regional Office Building Three (ROB No. 3) located at 7th and D Streets, SW., Washington, D.C. beginning at 10 a.m. on January 15, 1976.

The purpose of the hearing is to receive comments and suggestions on the published materials.

Interested parties may also submit written comments and recommendations to Room 2085, Federal Office Building No. 6, 400 Maryland Avenue, SW., Washington, D.C. 20202, Attention: Chairman, Office of Education Task Force on Section 503. All relevant material received prior to the date of the hearing will be considered. Comments and suggestions submitted in writing will be available for review in the above office between the hours of 8:30 a.m. and 4:00 p.m., Monday through Friday of each week.

Parties interested in attending the hearing should notify the Office of Education at the above address, and are urged to submit a written copy of their comments with such notification. Each party planning to make oral comments at the hearing is urged to limit his presentation to a maximum of fifteen minutes.

(Catalog of Federal Domestic Assistance Programs Nos. 13.503, 13.504, 13.505, 13.506, 13.546, Education Professions Development Programs)

Dated: November 10, 1975.

T. H. BELL,
U.S. Commissioner of Education.

Approved: December 5, 1975.

DAVID MATHEWS,
Secretary of Health, Education, and Welfare.

V 40243 DEC 17 75 XUM

Title 45 of the Code of Federal Regulations is amended as follows:

PART 100a—DIRECT PROJECT GRANT AND CONTRACT PROGRAMS

1. Section 100a.10(a)(26) is revised to read as follows:

§ 100a.10 Scope.

(a) *Programs.* Except to the extent inconsistent with an applicable statute or regulations, the provisions contained in this part apply to all Federal programs authorized under the following authorities:

* * * * * *

(26) The following programs authorized under the Education Professions Development Act: Attracting qualified persons to the field of education (section 504); the Teacher Corps (Part B–1); fellowships for teachers and related educational personnel (Part C); improving training opportunities for personnel serving in programs of education other than higher education (Part D); training programs for higher education personnel (Part E); and exchange programs, institutes, and in-service education for vocational education teachers, supervisors, coordinators, and administrators (section 553) (20 U.S.C. 1091c, 1101, 1111, 1119, 1119b, 1119c); * * *

* * * * * *

PART 100c—INDIRECT COSTS UNDER CERTAIN PROGRAMS

2. Section 100c.1 is amended by adding a new paragraph (f–1), to read as follows:

§ 100c.1 Scope.

* * * * * *

(f–1) Section 553 of the Education Professions Development Act (20 U.S.C. 1119c–2); * * *

* * * * * *

3. Section 100c.2 is revised by substituting the term "State agency" for the term "State educational agency" (except in § 100c.2(a)), and by substituting the term "recipient" for the term "local educational agency" (except in § 100c.2(f)). As revised, § 100c.2 reads as follows:

§ 100c.2 Indirect costs.

(a) *Local educational agencies—Approval of rates by State educational agency.* Each State educational agency, on the basis of a plan approved by the Commissioner, shall approve indirect cost rates for those local educational agencies which request the establishment of such rates.

(b) *Other recipients.* Recipients other than local educational agencies may incure indirect costs under any Federal program listed in § 100c.1, on the basis of an indirect cost rate approved by the Commissioner under applicable principles and procedures contained in Appendix B to this subchapter and this section.

(c) *Formula for determining rates.* Each indirect cost rate approved for a recipient is to be determined annually, and shall be the percentage that the amount of the recipient's total expenditure for administrative and fixed charges, as defined in paragraphs (d) and (e) of this section, is to the total of all other expenditures (excluding capital outlay, debt service, fines, penalties, contingencies, and election expenses) incurred by that recipient for its non-Federal activities in the most recent year for which that data are available.

(d) *Administrative charges.* For the purposes of this section, the term "administrative" refers to those activities which have as their purpose the direction and control of the recipient's affairs which are institution-wide and not confined to one activity, school, subject, phase of school operations, or other single responsibility (unless the activity is a service function, such as accounting, payroll, or personnel, normally provided at the recipient's level but is physically located elsewhere for convenience or better management, in which case it shall be so included). Expenditures for the board of education or other governing body of the recipient, for the compensation of the chief administrative officer of the recipient and of each of the schools' or other components of the recipient, and for the operation of their immediate offices, are not to be included as administrative charges for the purposes of paragraph (c) of this section and are not to be charged to the Federal program involved on an indirect or direct cost basis.

(e) *Fixed charges.* For the purposes of this section, the term "fixed charges" shall be limited to contributions by the recipient to retirement (including State, county, or local retirement funds, social security, and pension payments) and to property, employee, and liability insurance. Only the fixed charges applicable to the administrative charges specified in paragraph (d) of this section may be included. Other items of expenditure commonly referred to as fixed charges are not to be included for the purpose of determining indirect cost rates.

(f) *Duplication of costs prohibited.* Recipients which use indirect cost rates shall not charge administrative and fixed charges (as defined in paragraphs (d) and (e) of this section) to the Federal program funds on a direct cost basis.

(g) *Maximum indirect costs.* The amount of Federal program funds to be paid for indirect costs shall not exceed the product of the direct costs incurred in connection with that Federal program, multiplied by the indirect cost rate. The same indirect cost rate shall be applicable for the determination of all indirect costs to be paid from funds appropriated under that Federal program for a particular fiscal year.

(20 U.S.C. 1231c(b); Authority cited in 45 CFR 100c.1)

PART 174—EDUCATION PROFESSIONS DEVELOPMENT

4. In Part 174, Subpart A–1 is revised, Subpart D is redesignated as Subpart D–1 and revised, new Subparts D–2, D–3, and D–4 are added, Subpart F is redesignated as Subpart F–1 and revised, and new Subparts F–2 and F–3 are added, to read as follows:

Subpart A–1—General

Sec.
174.1 Scope and purpose.
174.2 General definitions.
174.3 Limitations on payments.
174.4 Tuition charges.
174.5 Other applicable regulations.

AUTHORITY: Sec. 503, Education Amendments of 1972 (Pub. L. 92–318); Education Professions Development Act (Title V of the Higher Education Act of 1965, Pub. L. 89–329 as amended, Parts D and F (20 U.S.C. 1091–1092, 1119–1119c–3)).

Subpart A–1—General

§ 174.1 Scope and purpose.

(a) *Scope.* (1) This Part 174 sets forth regulations implementing the Education Professions Development Act.

(2) Except as otherwise provided in this part, the provisions contained in this subpart apply to all programs authorized under the Education Professions Development Act (Title V of the Higher Education Act of 1965, Pub. L. 89–329, as amended), except the Teacher Corps program under Part B–1 of the Act.

(20 U.S.C. 1091 et seq.)

(b) *Purpose.* The purpose of these programs is to improve the quality of education and to help meet critical shortages of adequately trained educational personnel by:

(1) Developing information on the actual needs for educational personnel, both present and long-range;

(2) Providing a broad range of high quality training and retraining opportunities responsive to changing manpower needs;

(3) Attracting a greater number of qualified persons into the education professions;

(4) Attracting persons who can stimulate creativity in the arts and other skills to undertake short-term or long-term assignments in education; and

(5) Helping to make educational training programs more responsive to the needs of schools and colleges.

(20 U.S.C. 1091(a))

§ 174.2 General definitions.

As used in this part:

"Academic year" consists of not less than two semesters or three quarters, beginning in the fall of the year, within a single twelve month period. This period is usually of approximately nine months' duration.

"Act" means Title V of the Higher Education Act of 1965 as amended.

(20 U.S.C. 1091 et seq.)

"Career education" means education which emphasizes the relationships between education and work—paid or unpaid—which extend from pre-school age through the retirement years. The term includes education relating to career awareness, career explorations, career decision-making, and the implementation of career decisions.

(20 U.S.C. 1091 et seq.)

"Combination of institutions of higher education" is defined as set forth in section 1201(j) of the Higher Education Act of 1965, as amended.

(20 U.S.C. 1141(j))

"Community" means the residents in the attendance area of a school, including the parents or guardians of all children who attend the school. The term also refers generally to the society in that area, including its organizations and institutions.

"Fellowship" means an award under this part to a participant to enable him to carry out a full-time program of graduate study.

"Fellow" means a person who receives a fellowship.

(20 U.S.C. 1091 et seq.)

"Gifted and talented children" is defined as set forth in section 1201(k) of the Higher Education Act of 1965, as amended.

(20 U.S.C. 1141(k))

"Institution of higher education" is defined as set forth in section 1201(a) of the Higher Education Act of 1965, as amended.

(20 U.S.C. 1141(a))

"Institutional allowance" means a sum of money provided to an institution in conjunction with a pre-doctoral fellowship awarded to an individual to study at the institution. It is provided in lieu of tuition and other fees which the student would otherwise be charged.

(20 U.S.C. 1091 et seq.)

"Local educational agency" is defined as set forth in section 1201(g) of the Higher Education Act of 1965, as amended.

(20 U.S.C. 1141(g))

"National Advisory Council on Education Professions Development" is the Presidentially appointed advisory body established by the Act to review Federal programs for training educational personnel, to evaluate the effectiveness of the programs in meeting needs for additional educational personnel and in achieving improved quality in training programs, and to advise the Secretary and the Commissioner on related policy matters.

(20 U.S.C. 1091(a))

"Participant" means a student who participates in a program funded under this part.

(20 U.S.C. 1091 et seq.)

"School or department of divinity" is defined as set forth in section 1201(1) of the Higher Education Act of 1965, as amended.

(20 U.S.C. 1141(1))

"State" includes, in addition to the several States of the Union: the Commonwealth of Puerto Rico, the District of Columbia, Guam, American Samoa, and the Virgin Islands.

(20 U.S.C. 1141(b))

"State educational agency" is defined as set forth in section 1201(h) of the Higher Education Act of 1965, as amended.

(20 U.S.C. 1141(h))

"Stipend" means the allowance paid to a participant for subsistence and other expenses of the participant and his or her dependents, in such amount as the Commissioner may determine to be consistent with prevailing practices under comparable Federally-supported programs.

(20 U.S.C. 1119(d)) and 1119c–1(b)(1))

"Teacher aide" or "paraprofessional" means a person who assists a teacher in the performance of his or her professional teaching or administrative duties or in some other activity which assists a teacher in the educational process. The term does not include persons in positions such as clerk to a principal, foodhandlers in a cafeteria, or other jobs not related to the educational process. The term "teacher" includes educational personnel such as librarians, counselors, school social workers, child psychologists, educational media specialists, and school nurses, as well as classroom teachers.

(20 U.S.C. 1091 et seq.)

§ 174.3 Limitations on payments.

(a) No payment may be made under this part for religious worship or instruction or training for a religious vocation or to teach theological subjects.

(20 U.S.C. 1092)

(b) A dependency allowance may not be claimed for an individual who is concurrently receiving assistance under Pub. L. 82–550, as amended (Veterans' Readjustment Assistance Act of 1952).

(20 U.S.C. 1091 et seq.)

§ 174.4 Tuition charges.

Participants in programs supported under this part shall not be charged tuition: *Provided*, That if the payment of tuition by all students at an institution is required as a matter of State law, tuition may be paid for the participants at the same rate as charged for all students and the amount thereof shall be included as a cost under the award to the institution in lieu of an equal amount of otherwise allowable costs.

(20 U.S.C. 1091 et seq.)

§ 174.5 Other applicable regulations.

Assistance provided under this part (except under Subpart F–2) is subject to applicable provisions contained in Subchapter A of this chapter (relating to fiscal, administrative, property management, and other matters).

(20 U.S.C. 1091 et seq.)

Subpart D–1—Improving Training Opportunities for Personnel Serving in Programs of Education Other Than Higher Education—General

Sec.
174.80 Scope and purpose.
174.81 Eligible applicants.
174.82 Set asides.
174.83 Eligible participants.
174.84 Examples of authorized programs and projects.
174.85 Allowable costs.
174.86 Stipends.
174.87 General criteria for approval of training programs.
174.88 Distribution of training programs.

AUTHORITY: Sec. 503, Education Amendments of 1972 (Pub. L. 92–318); Education Professions Development Act (Title V of the Higher Education Act of 1965, Pub. L. 89–329 as amended, Parts D and F (20 U.S.C. 1091–1092, 1119–1119c–3)).

Subpart D–1—Improving Training Opportunities for Personnel Serving in Programs of Education Other Than Higher Education—General

§ 174.80 Scope and purpose.

(a) *Scope.* This subpart applies to all programs authorized under Part D of the Act.

(20 U.S.C. 1119–1119a–1)

(b) *Purpose.* The purpose of the program authorized under Part D of the Act is to carry out programs for improving training opportunities for personnel serving in programs of education other than higher education.

(20 U.S.C. 1119(a))

§ 174.81 Eligible applicants.

Except as provided in Subpart D–3 (Indian Education) of this part, the Commissioner is authorized to make grants to, or contracts with, institutions of higher education and State educational agencies to carry out the purposes of Part D of the Act. The Commissioner may also make grants to, or contracts with, local educational agencies, if the Commissioner has consulted with the State educational agency and that agency is satisfied that the program or project will be coordinated with programs carried out under Part B of the Act.

(20 U.S.C. 1119(a))

§ 174.82 Set asides.

(a) Not less than 5 percent of the funds made available for the purposes of Part D of the Act will be used under Subpart D–2 of this part.

(20 U.S.C. 1091(b)(7))

(b) Not less than 5 percent of the funds made available for the purposes of Part D of the Act will be used under Subpart D–3 of this part.

(20 U.S.C. 1119a)

§ 174.83 Eligible participants.

Subject to the limitation in § 174.3(a), programs and projects under this part shall be designed to improve the qualifications of persons who are serving or preparing (a) to serve in educational programs in public and private elementary and secondary schools (including preschool and adult and vocational education programs) or postsecondary vocational schools, or (b) to supervise or train persons so serving.

(20 U.S.C. 1119(a))

§ 174.84 Examples of authorized programs and projects.

Programs or projects authorized under Part D of the Act include, but are not limited to:

(a) Programs or projects to train or retrain teachers, or supervisors or trainers of teachers, in any subject generally taught in the schools;

V 40 243 DEC 17 75 XUM

(b) Programs or projects to train or retrain other educational personnel in such fields as guidance and counseling (including occupational counseling), school social work, child psychology, remedial speech and reading, career education, child development, and educational media (including educational or instructional television or radio);

(c) Programs or projects to train teacher aides and other nonprofessional educational personnel;

(d) Programs or projects to provide training and preparation for persons participating in educational programs for children of preschool age;

(e) Programs or projects to prepare teachers and other educational personnel to meet the special needs of the socially, culturally, and economically disadvantaged;

(f) Programs or projects to prepare teachers and other educational personnel to meet the special needs of exceptionally gifted students;

(g) Programs or projects to train or retrain persons engaging in programs of special education for the handicapped;

(h) Programs or projects to train or retrain persons engaging in special educational programs for children of limited English-speaking ability;

(i) Programs or projects to provide inservice and other training and preparation for school administrators;

(j) Programs or projects to prepare artists, craftsmen, scientists, artisans, or persons from other professions or vocations, or homemakers, to teach or otherwise assist in programs or projects of education on a long-term, short-term, or part-time basis;

(k) Programs or projects (including cooperative arrangements or consortia between institutions of higher education, junior and community colleges, or between such institutions and State or local educational agencies and nonprofit education associations) for the improvement of undergraduate programs for preparing educational personnel, including design, development, and evaluation of exemplary undergraduate training programs, introduction of high quality and more effective curricula and curricular materials, and the provision of increased opportunities for practical teaching experience for prospective teachers in elementary and secondary schools;

(l) Programs and projects designed to meet the need for the training of teachers for participation in education programs for migratory children or migratory agricultural workers, including teacher exchange programs; and

(m) Programs or projects to train or retrain educational personnel for work in career education.

(20 U.S.C. 1119(b))

§ 174.85 Allowable costs.

Funds for programs or projects under Part D of the Act may be used only to pay the cost of:

(a) Short-term or regular session institutes;

(b) Other preservice and inservice training programs or projects designed to improve the qualifications of persons entering and reentering the field of elementary and secondary education or postsecondary vocational education, except that funds may not be used for seminars, symposia, workshops, or conferenees unless they are part of a continuing program of inservice or preservice training;

(c) Projects or programs to improve undergraduate or other programs for training educational personnel; or

(d) Such activities as may be necessary to carry out the purposes of § 174.84 (l), to the extent that such activities are not inconsistent with the other provisions of Part D of the Act.

(20 U.S.C. 1119(c))

§ 174.86 Stipends.

Grants or contracts under Part D of the Act may include provisions for the payment to participants of such stipends (including allowances for subsistence and other expenses for such participants and their dependents) as the Commissioner may determine to be consistent with prevailing practices under comparable Federally-supported programs.

(20 U.S.C. 1119(d))

§ 174.87 General criteria for approval of training programs.

The criteria upon which all applications for assistance under Part D of the Act will be evaluated will include, in addition to the criteria set forth in § 100a.-26(b) of this chapter, the following:

(a) The extent to which there is evidence of cooperative planning and of the maximum use and coordination of resources and competencies of the educational agencies and institutions involved;

(b) The extent to which there is expertise or has been previous experience in conducting the type of program or project for which application is made, and the extent of planning for operation of the proposed program or project: *Provided*, That this criterion will not preclude awards to developing or evolving institutions where there is a reasonable probability that such institutions will be able successfully to conduct the program or project;

(c) The extent to which the program or project incorporates innovative concepts and techniques designed to meet current problems experienced in the Nation's schools;

(d) The extent to which the proposed program or project could meet current or prospective national, regional, local, or State needs for educational personnel; and

(e) The extent to which there is evidence of institutional commitment to support the proposed program or project.

(20 U.S.C. 1119)

§ 174.88 Distribution of training programs.

In making grants and contracts for programs and projects under Part D of the Act, the Commissioner will seek to achieve an equitable geographical distribution of training opportunities throughout the Nation, taking into account the number of children in each State who are aged three to seventeen.

(20 U.S.C. 1119a–1)

Subpart D–2—Bilingual Education Training Program

Sec.
174.100 Program for teachers of children with limited English-speaking ability.
174.101 Definitions.
174.102 Applications.
174.103 Criteria for evaluation of applications.

AUTHORITY: Sec. 503, Education Amendments of 1972 (Pub. L. 92–318); Education Professions Development Act (Title V of the Higher Education Act of 1965, Pub. L. 89–329 as amended, Parts D and F (20 U.S.C. 1091–1092, 1119–1119c–3)).

Subpart D–2—Bilingual Education Training Program

§ 174.100 Programs for teachers of children with limited English-speaking ability.

(a) *Purpose of program.* The purpose of the bilingual education training program is to increase the number of qualified educational personnel serving or preparing to serve in bilingual education programs for children with limited English-speaking ability and to increase the number of educational institutions or agencies capable of training those personnel.

(20 U.S.C. 1119)

(b) *Type of programs.* Funds will be provided for the support of inservice and/or preservice programs or projects to train or retrain persons engaging or preparing to engage in special educational programs for children of limited English-speaking ability.

(20 U.S.C. 1119(b)(8))

§ 174.101 Definitions.

For the purposes of this subpart:

"Bilingual education" means the use of two languages, one of which is English, as mediums of instruction.

"Children of limited English-speaking ability" means:

(a)(1) children who were not born in the United States or whose native language is a language other than English;

(2) children who come from environments where a language other than English is dominant; and

(b) by reason thereof, have difficulty speaking and understanding instruction in the English language.

(20 U.S.C. 1119)

§ 174.102 Applications.

(a) *Submission.* Parties eligible (under § 174.81) who wish to apply under this subpart, shall submit an application to the Commissioner in accordance with §§ 100a.15 and 100a.16 of this chapter.

(b) *Contents.* An application for assistance to carry out a bilingual education training program or project shall, in addition to meeting the requirements of §§ 100a.15 and 100a.16 of this chapter, describe the activities to be undertaken in the proposed program or project and

shall include information adequate to show that the proposed program or project will:

(1) Result in educational personnel better prepared to teach children of limited English-speaking ability or educational personnel better prepared to train teachers of those children;

(2) Increase the capability of an institution or agency to train educational personnel in bilingual education; and

(3) Serve the educational personnel needs of a particular school or school district serving children of limited English-speaking ability.

(20 U.S.C. 1119(b)(8))

§ 174.103 Criteria for evaluation of applications.

In addition to evaluation on the basis of criteria set forth in § 174.87, the Commissioner will evaluate applications under this subpart on the basis of the following:

(a) The extent to which the program or project emphasizes the preparation of educational personnel to teach effectively in both the English language and the dominant language of the children in the school or school district whose educational personnel needs will be served by the proposed program or project;

(b) The extent to which the training of personnel under the program or project is coordinated with projects funded under the Bilingual Education Act (Title VII of the Elementary and Secondary Education Act of 1965, as amended), bilingual programs funded under the Emergency School Aid Act of 1972, as amended, and other bilingual projects;

(c) The extent to which the application includes effective procedures for evaluating the impact of the program or project in terms of the number and effectiveness of teachers serving in bilingual education programs; and

(d) The extent to which the teaching techniques and methods proposed for training educational personnel show promise of providing effective bilingual education.

(20 U.S.C. 1119(b)(8))

Subpart D–3—Teachers for Indian Children Program

Sec.
174.110 Programs for teachers of children living on Indian reservations.
174.111 Definitions.
174.112 Eligible applicants.
174.113 Applications.
174.114 Criteria for evaluation of applications.
174.115 Program requirements.

AUTHORITY: Sec. 503, Education Amendments of 1972 (Pub. L. 92–318); Education Professions Development Act (Title V of the Higher Education Act of 1965, Pub. L. 89–329 as amended, Parts D and F (20 U.S.C. 1091–1092, 1119–1119c–3)).

Subpart D–3—Teachers for Indian Children Program

§ 174.110 Programs for teachers of children living on Indian reservations.

(a) *Purpose.* The purpose of the program under this subpart is to provide preservice and/or inservice training to persons preparing to serve or serving as teachers of children living on reservations serviced by elementary and secondary schools for Indian children operated or supported by the Department of the Interior, including public and private schools operated by Indian tribes and by nonprofit institutions and organizations of Indian tribes.

(b) *Preference.* In carrying out the provisions of this subpart, preference shall be given to the training of Indians. Emphasis will be given to increasing the number of Indian teachers who are of the same tribal group as the Indian children they will teach.

(20 U.S.C. 1119a)

§ 174.111 Definitions.

For the purposes of this subpart:

"Indian" means any individual who:

(a) Is a member of a tribe, band, or other organized group of Indians, including those tribes, bands, or groups terminated since 1940 and those recognized now or in the future by the State in which they reside, or who is a descendent, in the first or second degree, of any such member;

(b) Is considered by the Secretary of the Interior to be an Indian for any purpose; or

(c) Is an Eskimo or Aleut or other Alaska Native.

(20 U.S.C. 1119a)

§ 174.112 Eligible applicants.

Funds under this subpart may be provided to institutions of higher education (including community and junior colleges) and other public and private nonprofit agencies and organizations (including schools owned or operated by Indian tribes, and Indian educational organizations and institutions).

(20 U.S.C. 1119a)

§ 174.113 Applications.

(a) *Submission.* Parties eligible under this subpart and who wish to apply, shall submit an application to the Commissioner in accordance with §§ 100a.15 and 100a.16 of this chapter.

(b) *Consultation.* Each application must include assurances that the applicant has consulted in the preparation of the application with (1) schools which employ or are likely to employ persons to be trained under the proposed program, and (2) with the Indian communities whose children are attending those schools.

(20 U.S.C. 1119a)

§ 174.114 Criteria for evaluation of applications.

(a) *Criteria.* In addition to the criteria set forth in § 174.87, the Commissioner will evaluate applications under this subpart on the basis of the following:

(1) The extent to which the proposed program is directed toward the educational personnel needs of schools serving Indian children on a particular reservation;

(2) The extent to which the proposed program is designed to meet the special educational needs of those children;

(3) The number and percentage of Indians to be trained in the program;

(4) The extent to which provision is made for practicum or work experience;

(5) The extent to which effective procedures are included for evaluating the impact of the program, in terms of: (i) The number and effectiveness of teachers serving in target schools, and (ii) meeting the needs of the students attending those schools; and

(6) The degree to which the proposed training program focuses on approaches, methods, and techniques which are pertinent to the education of Indian children.

(b) *Priority.* Priority in funding programs under this subpart will be given, whenever possible, to applications submitted by public and private nonprofit schools owned or operated by Indian tribes or Indian educational organizations.

(20 U.S.C. 1119a)

§ 174.115 Program requirements.

Each program assisted under this subpart shall meet the following requirements:

(a) Preference must be given to the training of Indians;

(b) Arrangements must be made, where feasible, for the trainees under this program to work during the period of their training with Indian children who are members of the same tribal group as the trainees;

(c) The grantee or contractor must establish communication with the schools which are employing or are likely to employ persons trained under this program and with the Indian communities whose children are attending those schools, and consult with those schools and the local communities in carrying out the proposed training program; and

(d) Training must include the language, culture, and heritage of the Indian children who are being taught or are likely to be taught by persons trained under the proposed program.

(20 U.S.C. 1119a)

Subpart D–4—Urban/Rural School Development Program

Sec.
174.141 Purpose.
174.142 Local site of program.
174.143 Preference.
174.144 Applications.
174.145 Eligible participants in the program.
174.146 School/community council.
174.147 Criteria for evaluation of applications.

AUTHORITY: Sec. 503, Education Amendments of 1972 (Pub. L. 92–318); Education Professions Development Act (Title V of the Higher Education Act of 1965, Pub. L. 89–329 as amended, Parts D and F (20 U.S.C. 1091–1092, 1119–1119c–3)).

Subpart D–4—Urban/Rural School Development Program

§ 174.141 Purpose.

The purpose of the progam under this subpart is to improve the quality of edu-

V 40 243 DEC 17 75 XUM

cation for socially, culturally, and economically disadvantaged children by providing specialized training and retraining activities for teachers and other educational personnel to meet the special needs of those children.

(20 U.S.C. 1119(b)(5))

§ 174.142 Local site of program.

(a) Training and retraining activities under this subpart shall be provided for educational personnel in schools (1) in which student achievement levels in reading and mathematics are among the lowest in the local educational agency in which the schools are located; and (2) which are located in both urban and rural communities with median income levels which are among the lowest in the local educational agencies in which such communities are located.

(b) A program assisted under this part may provide training in one or more schools which meet the requirements of paragraph (a) of this section.

(20 U.S.C. 1119(b)(5))

§ 174.143 Preference.

Because of the local nature of the program under this subpart, preference will be given to applications from local educational agencies.

(20 U.S.C. 1119(b)(5))

§ 174.144 Applications.

(a) *Submission.* Parties eligible (under § 174.81) who wish to apply under this subpart, shall submit an application to the Commissioner in accordance with §§ 100a.15 and 100a.16 of this chapter.

(b) *Contents.* An application shall, in addition to meeting the requirements of §§ 100a.15 and 100a.16 of this chapter, contain the following:

(1) A demographic description of the communities and schools in which the proposed program would be carried out;

(2) A description of the special needs of the disadvantaged children in the schools to be served;

(3) A description of the training and retraining activities to be carried out under the proposed program, for teachers and other educational personnel in those schools, which will meet the needs described in paragraph (b)(2) of this section;

(4) A plan for the establishment of a school/community council under § 174.146, which includes mechanisms to ensure that the council will consult with the applicant on program related matters, including program development and the use of funds for program activities;

(5) In the case of a local educational agency applicant, an assurance that the applicant will continue local fiscal support for the school(s) at which the program will be carried out, at or above the level of fiscal support for other schools in the local educational agency;

(6) An assurance that the applicant will make available, to the extent of its capacity to do so, such technical assistance to the school/community council as the council reasonably requests; and

(7) In the case of a State educational agency applicant, an assurance that State fiscal support to the local educational agency in which the proposed program is to be carried out will continue on the same basis as if no assistance were provided under this subpart.

(20 U.S.C. 1119(b)(5))

§ 174.145 Eligible participants in the program.

Teachers and other educational personnel, including non-professional personnel, and persons from other professions or vacations who are teaching or otherwise assisting in educational programs or projects at the participating school or schools are eligible to participate in training programs under this subpart.

(20 U.S.C. 1119(b)(5))

§ 174.146 School/community council.

(a) *Council membership.* A school/community council (consisting of persons such as teachers and other professional and non-professional educational personnel from the participating school or schools, parents of children served by those schools, students attending those schools, and other members of the community) shall be established by each recipient under this subpart.

(b) *Council responsibilities.* Each council established under paragraph (a) of this section shall be responsible for the following:

(1) Consulting with the recipient and providing advice with respect to program policy, educational needs of the students, teachers, and other educational personnel in participating schools, and the development of training and retraining programs to meet those needs;

(2) Electing a chairperson, vice-chairperson, secretary, and other officers deemed necessary to carry out the functions of the council;

(3) Recommending to the local educational agency the appointment of a school development team manager who will (i) assist the council in performing its functions, (ii) serve as liaison among the council, the participating schools, and the local educational agency, (iii) ensure that all the requirements of the program are being met, and (iv) perform other related duties as deemed necessary by the council;

(4) Helping to establish for each participating school in the program, a team of school staff members to assist in the development and implementation of training and other related activities at that school; and

(5) Providing technical and other assistance in developing and carrying out the program in the local school(s).

(20 U.S.C. 1119(b)(5))

§ 174.147 Criteria for evaluation of applications.

In addition to the criteria set forth in § 174.87, the Commissioner will evaluate applications under this subpart on the basis of the following:

(a) The need for financial assistance; and

(b) The extent of coordination with other similar Federal, State, or local programs.

(20 U.S.C. 1119)

* * * * * *

Subpart F–1—Training and Development Programs for Vocational Educational Personnel—General

Sec.
174.190 Scope and purpose.
174.191 Special definitions.
174.192 Special consideration.

AUTHORITY: Sec. 503, Education Amendments of 1972 (Pub. L. 92–318); Education Professions Development Act (Title V of the Higher Education Act of 1965, Pub. L. 89–329 as amended, Parts D and F (20 U.S.C. 1091–1092, 1119–1119c–3)).

Subpart F–1—Training and Development Programs for Vocational Educational Personnel—General

§ 174.190 Scope and purpose.

(a) *Scope.* This subpart applies to all programs authorized under part F of the Act.

(20 U.S.C. 1119–1119c–3)

(b) *Purpose.* The purposes of the programs under Part F of the Act are to:

(1) Provide opportunities for experienced vocational educators (under Subpart F–2 of this part) to spend full-time in advanced study of vocational education for a period not to exceed three years in length;

(2) Provide opportunities (under Subpart F–3 of this part) to up-date the occupational compentencies of vocational education teachers through exchanges of personnel between vocational education programs and commercial, industrial, or other public or private employment related to the subject matter of vocational education; and

(3) Provide programs (under Subpart F–3 of this past) of inservice teacher education and short-term institutes for vocational education personnel.

(20 U.S.C. 1119c)

§ 174.191 Special definitions.

For the purposes of this subpart and Subparts F–2 and F–3 of this part:

"State board" means the State board designated or created by State law as the sole State agency responsible for the administration of vocational education, or for supervision of the administration thereof by local educational agencies in the State.

(20 U.S.C. 1119c–2)

§ 174.192 Special consideration.

In approving training and development programs for vocational education personnel the Commissioner will give special consideration to programs which are designed to familiarize teachers with new curricular materials in vocational education.

(20 U.S.C. 1119c–3)

Subpart F–2—Leadership Development Awards

Sec.
174.196 Leadership development awards.
174.198 Eligibility of individuals.
174.199 Selection of award recipients.
174.200 Assignment of approved institution.

Sec.
174.201 Stipends to individuals.
174.202 Conditions for continued eligibility.
174.203 Payment conditioned on appropriation.
174.204 Institutional allowance.
174.205 Institutional eligibility and approval.

AUTHORITY: Sec. 503, Education Amendments of 1972 (Pub. L. 92–318); Education Professions Development Act (Title V of the Higher Education Act of 1965, Pub. L. 89–329 as amended, Parts D and F (20 U.S.C. 1091–1092, 1119–1119c–3)).

Subpart F–2—Leadership Development Awards

§ 174.196 Leadership development awards.

(a) *Awards.* The Commissioner will make leadership development awards to qualified vocational education personnel (including administrators, supervisors, teacher educators, researchers, and instructors in vocational education) for advanced study in an approved vocational education leadership development program of an institution of higher education.

(b) *Award period.* Leadership development awards will usually be made for one twelve-month period, but in no case will an award be made for a period exceeding thirty-six months.

(20 U.S.C. 1119c, 1119c–1(a))

§ 174.197 Allocation of awards.

In order to meet the needs for qualified vocational educational personnel in vocational education programs in all the States, the Commissioner will apportion leadership development awards equitably among the States, taking into account such factors as (a) the State's vocational educational enrollments, (b) the total population of the State aged fifteen through sixty-five, and (c) the incidence of youth unemployment and school dropouts in each State.

(20 U.S.C. 119c–1(d))

§ 174.198 Eligibility of individuals.

(a) A person is eligible to receive a leadership development award if such person:

(1) Has had not less than two years of experience in vocational education or in industrial training, or military technical training; or, in the case of researchers, experience in social science research which is applicable to vocational education; or

(2) Is currently employed or is reasonably assured of employment in vocational education and has successfully completed, as a minimum, a baccalaureate degree program; or

(3) Is recommended by his or her employer, or others, as having leadership potential in the field of vocational education and is eligible for admission as a graduate student to a program of higher education approved by the Commissioner under § 174.205.

(b) In order to receive a leadership development award the person selected shall enroll in a vocational educational leadership development program approved under § 174.205.

(20 U.S.C. 1119c–1(a))

§ 174.199 Selection of award recipients.

(a) *Submission of application.* Applications for leadership development awards shall be submitted to the Commissioner through the State Board (as defined in § 174.191) for the State in which the applicant is employed or is assured of employment. The State Board will evaluate the applications and make recommendations to the Commissioner as to which applicants it believes should receive awards.

(b) *Selection criteria for award recipients.* The following factors will be considered by the appropriate State Board in recommending, and by the Commissioner in selecting, leadership development award recipients:

(1) Whether the applicant has attained a high level of academic achievement (a grade point average of 3.0 out of 4.0 points or the equivalent in the applicant's major field of study is a prerequisite for receiving an award);

(2) The quality of work performed by the applicant if the applicant has been or is employed;

(3) Whether the applicant in his undergraduate or graduate studies majored in a recognized field of vocational education or in a supporting service or discipline;

(4) Evidence of the applicant's commitment to the improvement of vocational education;

(5) Evidence of the applicant's leadership potential;

(6) The area or level of vocational education in which the applicant is interested in working;

(7) The leadership needs of the State where the applicant is employed or is reasonably assured of employment, in the field of vocational education; and

(8) The extent to which the persons receiving awards will be reasonably representative of the ethnic composition of the population of the State, including disadvantaged minorities.

(c) *Status of applicants.* In evaluating new applications for awards under this program, consideration will be given to past and present recipients of awards, as well as to persons who have not in the past received awards under the program.

(20 U.S.C. 1119c–1)

§ 174.200 Assignment to approved institution.

An applicant for an award shall identify a first, second, and third choice of institutions (approved under § 172.205) he desires to attend. The assignment of an award recipient to an approved institution will be made by the Commissioner.

(20 U.S.C. 1119c–1)

§ 174.201 Stipends to individuals.

(a) *Academic year.* Each person awarded a leadership development award shall receive a stipend of (1) $4,000 for each academic year of full-time study at the institution of higher education to which an award recipient is assigned for the award period, and (2) $600 for each such year for each dependent.

(b) *Summer session.* An additional stipend may be awarded of (1) $800 for full-time summer study at the same institution of higher education, and (2) $150 for this period for each dependent.

(20 U.S.C. 1119c–1(b)(1))

§ 174.202 Conditions for continued eligibility.

(a) *Satisfactory participation.* A recipient of anaward may continue to receive payments under § 174.201 only during such periods as the Commissioner finds that the recipient:

(1) Is maintaining satisfactory proficiency in study or research in the field of vocational education in an institution of higher education;

(2) Is devoting essentially full time to such study or research; and

(3) Is not engaging in gainful employment, other than part-time employment by that institution in teaching, research, or similar activities, approved by the Commissioner.

(20 U.S.C. 1119c–1(e))

(b) *Employment limitation.* The limitation with respect to employment set forth in paragraph (a)(3) of this section does not apply to the period of time between an academic year and a summer session or between academic years (if a stipend is not received under § 174.201 (b) for full-time summer study).

(20 U.S.C. 1119c–1(e))

§ 174.203 Payment conditioned on appropriation.

Leadership development award payments under § 174.201 after the first year of the award period (in case of awards made for a period exceeding twelve months) are subject to the continued availability of Federal funds under Part F of the Act.

(20 U.S.C. 119c–1)

§ 174.204 Institutional allowance.

(a) The Commissioner will (in addition to the stipend paid to an award recipient under § 174.201) pay an institutional allowance to the institution of higher education at which the recipient is pursuing his course of study, in the amount of $2,800 per participant, per academic year, with an additional $700 per participant for full-time study during the summer session.

(b) The institutional allowance is made in lieu of tuition and all non-refundable fees and deposits that would otherwise be required of the student.

(20 U.S.C. 1119c–1)

§ 174.205 Institutional eligibility and approval.

The Commissioner will approve the vocational education leadership development program of an institution of higher education only upon finding that:

V 40 243 DEC 17 75 XUM

(a) The institution offers a comprehensive program in vocational education with adequate supporting services and disciplines such as education administration, guidance and counseling research, and curriculum development, including:

(1) A focus on career education;

(2) Training in those leadership skills necessary to increase the participation of disadvantaged and underrepresented persons such as the handicapped, minorities, and women, in vocational education programs at all levels;

(3) Administrative and programmatic flexibility for individualizing the program, while maintaining high standards of academic and instructional quality;

(4) Resources and supporting services for at least five of the generally recognized fields of vocational education, such as vocational agriculture, trade and industry, health occupations, vocational home economics, and technical, industrial, distributive, and office occupations, which are integrated into an articulated comprehensive approach to vocational education;

(5) Practicum and internship components;

(6) A focus on systematically familiarizing the individual with new curriculum materials in vocational education;

(7) The incorporation of State, regional and national vocational education leadership needs; and

(8) Adequate supporting services and disciplines such as education administration, guidance and counseling, and research and curriculum development;

(b) The program under paragraph (a) of this section is designed to further substantially the objective of improving vocational education through providing opportunities for graduate training for vocational education teachers, supervisors, and administrators, and of university level vocational education teacher educators and researchers;

(c) The program is conducted by a school of graduate study in the institution of higher education; and

(d) The program is approved by the State Board in the State where the institution is located.

(20 U.S.C. 1119c-1(c))

Subpart F–3—State Systems Programs

Sec.

174.215 General purpose of training grants.
174.216 Cooperative arrangements.
174.217 Types of training programs.
174.218 Applications for grants.
174.219 Criteria for evaluation of applications.

AUTHORITY: Sec. 503, Education Amendments of 1972 (Pub. L. 92-318); Education Professions Development Act (Title V of the Higher Education Act of 1965, Pub. L. 89-329, as amended, Parts D and F (20 U.S.C. 1091-1092, 1119-1119c-3)).

Subpart F–3—State Systems Programs

§ 174.215 General purpose of training grants.

The Commissioner may award grants to State boards (as defined in § 174.191) to pay the cost of carrying out cooperative arrangements for the training or retraining of experienced vocational education personnel such as teachers, teacher educators, administrators, supervisors, coordinators, and other personnel, in order to strengthen education programs supported under Part F of the Act and the administration of schools offering vocational education.

(20 U.S.C. 1119c-2(a))

§ 174.216 Cooperative arrangements.

(a) Cooperative arrangements to carry out training or retraining under this subpart may be between schools offering vocational education and private business or industry, commercial enterprises, or with other educational institutions (including those for the handicapped and the delinquent).

(b) Each agency, enterprise, and institution which enters into a cooperative arrangement under this program, shall attest to the accuracy of a statement of its responsibilities and undertakings set forth in the arrangement by signature of an authorized official on the grant application submitted to the Commissioner by the State board under § 174.218.

(20 U.S.C. 1119c-2(a))

§ 174.217 Types of training programs.

Grants under this subpart may be used for projects and activities such as:

(a) Exchange of vocational education teachers and other staff members with skilled technicians or supervisors in industry (including mutual arrangements for preserving employment and retirement status, and other employment benefits during the period of exchange), and the development and operation of cooperative programs involving periods of teaching in schools providing vocational education and of experience in commercial, industrial, or other public or private employment related to the subject matter taught in those schools;

(b) Inservice training programs for vocational education teachers and other staff members to improve the quality of instruction, supervision, and administration of vocational education programs; and

(c) Short-term or regular-session institutes, or other preservice and inservice training programs or projects designed to improve the qualifications of persons entering and reentering the field of vocational education, except that funds may not be used for seminars, symposia, workshops, or conferences, unless these are part of a continuing program of inservice or preservice training.

(20 U.S.C. 1119c-2(b))

§ 174.218 Applications for grants.

(a) *Submission.* Applications from State Boards for grants under this subpart shall be submitted to the Commissioner in accordance with §§ 100a.15 and 100a.16 of this chapter.

(b) *Contents.* The Commissioner will not approve an application unless it:

(1) Sets forth a program for carrying out one or more projects or activities which meet the requirements of § 174.217, and provides for such methods of administration as are necessary for the proper and efficient operation of the program (the application shall identify the individuals who are responsible for coordinating Statewide vocational education personnel development);

(2) Sets forth policies and procedures which assure that Federal funds made available under this subpart for any fiscal year will be so used as to supplement, and to the extent practicable increase, the level of funds that would, in the absence of the Federal funds, be made available for purposes which meet the requirements in § 174.217, and in no case supplant those funds;

(3) Provides for such fiscal control and fund accounting procedures as may be necessary to assure proper disbursement of and accounting for Federal funds paid to the applicant under this subpart; and

(4) Provides for making such reports, in such form and containing such information, as the Commissioner may require to carry out his functions under this subpart, and for keeping such records and for affording such access thereto as the Commissioner may find necessary to assure the correctness and verification of those reports.

(20 U.S.C. 1119c-2(c))

§ 174.219 Criteria for evaluation of applications.

In addition to the criteria set forth in § 100a.26(b) of this chapter, the Commissioner will evaluate applications for grants under this subpart on the basis of the following:

(a) The extent to which under the cooperative araringement the State board identifies the present and future needs of the State for particular areas of vacational education and channels its personnel development program toward meeting the needs in those areas;

(b) The extent to which the proposed training to be provided under the cooperative arrangement will familiarize education personnel with new curricular materials in vocational education;

(c) The extent to which the proposed training to be provided under the cooperative araringement involves an area of vocational education in which there is a critical shortage of highly qualified personnel but for which no State or local funds are available to train those personnel;

(d) The extent to which the personnel to be trained under a cooperative arrangement include persons previously under-represented in vocational education such as women, handicapped persons, and ethnic and racial minorities;

(e) The extent to which the proposed training of administrative personnel under cooperative arrangements will result in better coordination between the administrators of vocational education programs at the State and local levels;

(f) The extent to which the proposed training to be provided under the cooperative arrangement will include training in the field of career education;

(g) In the case of a cooperative arrangement which addresses a national or regional need, the extent to which the application analyzes that need in the various States involved; and

(h) In the case of a cooperative arrangement involving an institution of higher education, the extent to which such arrangement will develop the capability of that institution to produce highly qualified vocational education personnel.

(20 U.S.C. 1119c-2)

[FR Doc.75-33911 Filed 12-16-75;8:45 am]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 20642; FCC 75-133]

STANDARD BROADCAST BAND

Clear Channel Broadcasting

1. This notice institutes a proceeding looking toward the amendment of the rules which govern the use of the 25 clear channels listed in § 73.25(a) of our rules regulations. It solicits assistance in the accumulation of background information which we deem a necessary basis for an informed decision in this matter, describes the general nature of the rule amendments which are under consideration, and invites general or specific comment with respect to these proposal. In adopting this notice, we are formally and fully reopening the proceeding in Docket No. 6741, which was terminated by a Report and Order on September 13, 1961 (31 F.C.C. 565; 21 R.R. 1808), with the adoption of certain amendments to our clear channel rules, but with other important matters at issue left for resolution at some future time. It is our primary aim herein to seek a final resolution of these issues, in the light of our experience with the 1961 rule amendments, and with due regard to present day conditions and current Commission policies.

2. The 1961 Report and Order in Docket 6741 concluded a proceeding begun on February 20, 1945, to explore the changes which should be made in existing patterns of clear channel usage, in the light of the uncontroverted fact that approximately half of the land area of the United States and about 25,000,000 people were without nighttime primary service from standard broadcast stations. In that proceeding, two approaches to the problem of providing improved service to these areas and populations received extensive consideration, generally aimed at enhancing the quality of service which clear channel stations provide to these areas and populations: (1) Permitting existing I–A stations to operate with greatly increased power, or (2) by assigning new Class I stations on the I–A channels, so situated and so protected by the existing I–A stations as to provide new groundwave and skywave services to deprived areas and populations from comparatively nearby locations. Studies of possible solutions of this nature usually contemplated the employment of high power on some channels, and duplicate Class I operation on others. Essential to the effective implementation of the latter approach was the installation of directional antennas by existing I–A stations for the purpose of protecting the service of duplicating Class I stations over wide areas.

3. The decision reached in 1961 left the permissible power and required operating conditions of the I–A stations unchanged, but amended the rules so as to permit the assignment of a single unlimited time Class II station to each of thirteen of the 25 I–A channels. On eleven of these channels new stations (Class II–A) were to be authorized, located in specific western states deemed to have a dearth of nighttime primary service. The Class II assignments provided for on the remaining two "duplicated" channels (750 and 760 kHz) were for existing stations, required to be removed from their existing frequencies by the provisions of the then recently negotiated U.S./Mexican standard broadcasting agreement. With the exception of the Channel 770 kHz, which was subject to a separate proceeding[1] involving the conditions of joint operation of WABC, New York, and KOB, Albuquerque, New Mexico, the remaining channels were held in status quo, for possible future consideration for operation by the I–A stations on these channels with increased power, or, in the alternative, eventual duplication of the channels.

4. On this question, our Report and Order stated:

> Upon careful consideration, we conclude there is insufficient basis before us for a finding that the public interest would be served by authorizing higher power, but at the same time the question warrants further consideration in the light of such improvements and changes in services as may result from the action we now take to authorize additional unlimited time stations on 13 of the Class I–A clear channels.
>
> We thus leave open and unprejudiced the question of whether, and if so, how, the public interest would be served by changing the rules affecting the use of the 12 Class I–A channels now left in status quo. At such time as further developments, including progress under the changes we now adopt, provide additional light on the question we will give further consideration to how best to utilize the 12 clear channels not now disturbed • • •.

5. As to the "duplicated" Class I–A channels, we said:

> We have achieved such plan with respect to the making of the Class II assignments provided for herein. After the specific location and facilities of the Class II stations have become established the way would be open for consideration, in subsequent rule making proceedings, of any further proposals which may be submitted for additional unlimited-time Class II assignments on the Class I–A channels in question. As in the case of the Class II–A assignments for which we now provide, any such rule making proposals would be examined in the light of the prime objective of further reducing nighttime white areas while at the same time affording due protection to the co-channel Class I–A station.

6. In its Memorandum Opinion and Order of November 28, 1962, denying various petitions for rehearing, reconsideration or stay of its September, 1961, Report and Order, the Commission observed:

> • • • Moreover, a majority of the Commission believes that the additional unlimited-time assignments provided for can be effectuated without substantial impairment of the wide-area service rendered by the I–A stations, and without impingement on the possibility of sufficient improvement of service through higher power—if that is later concluded to be appropriate—on the other 12 channels better suited for that approach, and perhaps also on some of the 13 now duplicated • • •.

7. These, and other similar pronouncements in this proceeding and related documents made clear the Commission's intention to review, in further proceedings the basic dispositions arrived at in 1961, this review to take place at such time as we were able to assess the service benefits resulting from the implementation of the II–A assignments provided for in the 1961 decision. The ambit of such a review, it appears, would be extensive, and would include consideration of the following:

(a) Whether some or all of the I–A stations on the unduplicated clear channels should be permitted to operate with higher power, whether Class II unlimited time assignments should be provided for on these channels, or whether they should be left in status quo.

(b) Whether additional Class II unlimited time assignments should be provided for on the duplicated clear channels.

(c) Whether some or all of the I–A stations on the duplicated channels would be permitted to operate with higher power.

8. Today, more than fourteen years after the promulgation of the clear channel decision, the deployment of class II–A stations pursuant to the assignments contemplated by this decision is nearly complete. New Class II–A stations have been authorized on 10 of the eleven channels made available for such assignments. Mutually exclusive applications for the last of these assignments are presently in hearing.

9. In the light of the above situation, we are now able to assess with some degree of accuracy the service gains which the new Class II–A stations have made possible. Having done this, in accordance with our intention as stated above, it appears that we should undertake to consider what further changes may be appropriate in the rules governing I–A channel usage in the light of the degree of success which has attended our previous efforts.

10. In addition, we have a number of long pending petitions for rule making

[1] In 1969, the Commission reopened the proceeding in Docket 6741 for the limited purpose of seeking a solution to the long standing "KOB problem" within the context of this proceeding (notice of proposed rule making, adopted April 22, 1969, FCC 69-405, 17 F.C.C. 2d 257). This phase of the proceeding has not been concluded, but the Commission expects to render an early decision in this matter, prior to reaching the more general solutions sought in the instant document.

V40243 DEC 17 75 XUM

with respect to the I–A clear channels, upon which we have withheld action in the belief that the relief sought by the petitioners could be considered feasibly only within the context of a reopened clear channel proceeding. These petitions are as follows:

RM–434. Filed on April 8, 1963, by the Clear Channel Broadcasting Service (CCBS) and seeking rule amendments to permit power in excess of 50 kilowatts by all Class I–A stations.

RM–441. Filed on May 3, 1963, by WSM, Inc., licensee of I–A Station WSM, Nashville, Tennessee. This petition supports the CCBS petition described above, but specifies a proposed power ceiling of 750 kW, and particularizes WSM's specific interest in higher power operation on 650 kHz.

RM–478. Filed on September 5, 1963, by Midwest Radio-Television, Inc., licensee of WCCO, Minneapolis, Minnesota, seeking rule amendments permitting power up to 750 kW for all I–A stations.

RM–530. Filed on November 13, 1963, by Loyola University, licensee of WWL, New Orleans, Louisiana, supporting the CCBS petition in general, but specifically seeking more limited relief—rule amendments permitting higher power on the "unduplicated" I–A channels.

11. For a very long period of time we have maintained restrictions on the secondary use of the I–A channels over and above those which can be technically justified, purely on the theory that additional assignments of any nature would limit our future ability to develop an optimum plan for the use of these channels to improve nighttime service. In particular, we have permitted no new daytime assignments on I–A channels during a period long antedating the 1961 decision, even though much more extensive use could be made on these channels during daytime hours without adversely affecting their nighttime employment. A definitive and final decision of literally any nature on the way the channels are to be utilized to provide nighttime service will almost inevitable result in a lessening of the restrictions presently placed on their daytime use.[2]

12. Finally, we note that, for more than a decade, we have maintained special restrictions on the use which overwise might be made of the 30 channels which are within thirty kHz of the I–A channels, restrictions designed to prevent the assignment of new stations to these channels at locations and with operating conditions which could hamper our freedom to implement any future plan we might adopt for I–A channel use, whether for I–A a high power operation, or for further duplication with Class II stations. If these restrictions, which are not dictated by any existing technical consideration, ever are to be removed, a final decision as to Class I–A channel use must be made.[3]

13. All of the above are cogent reasons why we should, at this time, attempt once again, to arrive at a complete, definitive and final clear channel decision. However, the previous proceeding which, in its sixteen years of existence, generated thousands of pages of testimony and hundreds of exhibits, representing countless hours of effort by attorneys and engineers and others of the industry and the Commission, and hundreds of thousands of dollars in cost, resulted, in the end, in a decision which left fundamental issues unresolved. If we are to embark on a new endeavor to resolve those issues, it should be, if possible, on the basis of some prior assurance that we will not become enmeshed, once again, in an extensive, expensive and, in the end, largely fruitless exercise. It is therefore the purpose of this inquiry to undertake a preliminary examination of the clear channel question in the light of present day conditions and current Commission rules and policies, and to elicit information which may point the way to methods of attacking the problem which hold promise of leading to some productive end.

14. It should first be observed that the ten new Class II–A stations which the Commission has authorized pursuant to the 1961 rule amendments are providing or will provide a first nighttime primary service to approximately 300,000 persons. Standing by itself, this appears to be a substantial achievement, but when it is viewed against the period of nearly ten years it has taken to accomplish this end, and the 25,000,000 persons which, it was estimated in 1961, had no nighttime primary service, it is obvious that the Class II assignments have done hardly more than nibble at the fringes of the problem of inadequate nighttime standard broadcast service. We do not believe that standard broadcast stations of other classes which have been authorized since that time have appreciably contributed to a reduction in unserved population, and any up-dated study of nighttime coverage by standard broadcast stations would reveal inadequacies of the general magnitude found to exist in 1961.

Notice of Inquiry

15. Until comparatively recently, it has been our consistent policy to consider broadcast service needs, and the means for fulfilling them entirely within the confines of each broadcast service. This policy heretofore has been followed in dealing with all facets of clear channel matters. However, we believe that the unfilled need for nighttime service should now be evaluated in the light of the policy enunciated by the Commission and reflected in rules adopted on February 21, 1973 (Docket 18651, FCC 73–220) that thenceforth, in determining requirements for additional standard broadcast stations, the standard broadcast and the FM broadcast services were to be treated together, as a single aural service. Thus, in any future study of existing nighttime service conditions, we believe the contributions of both standard broadcast and FM must be considered, and in planning measures to rectify present service deficiencies, the reasonable potentialities of both services must be taken into account. Studies by the Commission of limited extent would indicate that existing FM stations are providing service to extensive areas which are without primary nighttime service from standard broadcast stations, particularly in the eastern states. However, a nationwide study is required to determine to what degree FM is now supplementing AM nighttime service on an overall basis, and reasonably may be relied on in the future to extend aural nighttime service to those areas and populations which remain unserved. The Commission intends to conduct a study of existing FM service, relying on available government resources for its accomplishment. When completed, the results of the study will be entered into the record of this proceeding. Assuming that the study will disclose areas and populations which presently are without FM service or AM primary service at night, it appears appropriate to assess the remaining resources of the FM band, and to determine how they may be exploited most efficiently, and the means which may be employed to encourage and direct the future assignment of FM and FM translator stations to locations designed to remedy any service deficiencies which the above mentioned study reveals. We invite the participation of interested parties in conducting studies and developing programs aimed toward the full exploitation of the potentialities of FM for extending nighttime service to all parts of the United States.

16. Crucial to the final settlement of the clear channel problem is an unequivocal decision by the Commission as to whether Class I–A stations are to be authorized, at least in particular instances, to operate with power in excess of 50 kilowatts. It has long been recognized that if the quality of secondary service is to be enhanced to the degree that it becomes an adequate substitute for primary service, station power must be increased very substantially—in the order of ten to fifteen times. However, the implementation of such power increases inevitably will have adverse effects on the structure and balance of the existing broadcast service, effects which reasonably may be foreseen, but whose magnitude are difficult to assess with any degree of precision. The opponents of

[2] There are presently approximately 60 daytime and limited-time stations on the 25 I–A channels, an average of somewhat more than 2 per channel. In contrast, the shared (I–B) clear channels accommodate, on the average, more than 22 daytime stations per channel, in addition to many unlimited time Class II assignments.

[3] Action on the following applications has been held in abeyance for this reason: BP–10505 (860 kHz, Gresham, Ore., new); BP–11164 (690 kHz, Prineville, Ore., KRCO); BP–12211 (690 kHz, Blackfoot, Ida., KBLI); BP–12480 (860 kHz, Boise, Ida., new); BP–12685 (860 kHz, Beaverton, Ore., new); BP–13703 (1150 kHz, Welch, W. Va., WELC); BP–13883 (860 kHz, Salt Lake City, Utah, KWHO); and BP–13958 (1050 kHz, White Bear, Minn., new).

clear channel power increases, which include virtually all segments of the broadcasting industry, with the exception of the licensees of those few stations which might be eligible for such increases, have cited the destructive competition which they believe such powerful operations would create, with the draining of advertising revenue from many smaller stations, and a lessening of their ability to operate in the public interest. Further, these parties have alleged, high power operation would lead to the socially undesirable result of the placing in the hands of a very small number of persons, instruments by which they may influence the thinking and conduct of vast segments of the population. General considerations such as these, in the past, have presented major obstacles to any action by the Commission which would raise the I–A power ceiling. Nevertheless, the Commission heretofore has avoided taking a stand which would preclude the implementation of higher power at some future time.

17. In addition to the economic and social problems described, higher power operation by Class I–A stations presents at least one technical problem—such stations would cause increased interference to other stations, principally to those on adjacent channels. In certain instances, such interference could result to stations in neighboring countries which are entitled to protection under pertinent treaties. While these effects, internationally and domestically, might be reduced with the ultilization of directional antennas by the high power stations, directionalization for this purpose in many instances may not be consonant with the attainment of desired service objectives, and, in any event, cannot be expected to prevent substantial increases in interference from occurring. Interference to stations in neighboring countries must be resolved by appropriate negotiations. In instances of domestic interference, a determination may be necessary as to whether the service gains resulting from high power operation by each Class I–A station authorized for such operation outweights the losses of service from other stations which would be incurred as a result of increased interference from the Class I–A station. While the interference problem is substantial, it at least lends itself to quantification and evaluation; questions as to the economic and social impact of high power are presented in a context sufficiently unique that attempts at their resolution, without any factual base, have produced results which are little more than speculative. It seems obvious that if the Commission is to again attack this question with any greater probability of success than it has heretofore experienced, some approach more likely to produce definitive results must be employed than previously has been taken. The operation of a I–A station with high power pursuant to a temporary authorization has previously been offered as a means for gaining actual experience with the effects of such operation, but such an approach is fraught with obvious practical difficulties which make it less than attractive. The possibility exists that with modern computer techniques a program may be designed to simulate effectively the conditions obtaining during such operation, capable of projecting, at least, the economic impact of such operation in quantitative terms of reasonable reliability. We invite a full discussion of the economic and social effects of high-power operation of Class I–A stations, and the submission of general suggestions or proposals for specific programs for developing meaningful information bearing on these questions.

18. More than ten years have elapsed since Class I–A licensees have evinced marked interest in or willingness to undertake high power operation,[4] if it were authorized, and changes in the broadcasting structure (particularly the further diversion of the nighttime broadcast audience to television) may have made the considerable investment in the necessary facilities so unattractive from the economic standpoint that the question has become of only academic interest. Certainly, the provision, by rule, for higher power operation on specified I–A channels would be undersirable if these facilities were to remain unimplemented, or were implemented at power levels which, while higher than is presently permitted, fall substantially short of that deemed necessary to provide skywave service of adequate quality. Under such circumstances, the channels involved would not be utilized for the purpose intended, but would have been removed from consideration in any other plan to further their more complete utilization.

19. In any event, the expression of current interest, and to the extent possible, the future intentions of the licensees on Class I–A stations regarding high power operation would contribute substantially to our consideration of this matter. Accordingly, we invite responses from such licensees to the following question: If the rules were amended to permit the operation of Class I–A stations with greatly increased power, which licensees of such stations would submit applications for power increases? At what maximum power level would each station undertake to operate?

20. In the vicinity of any broadcast transmitter where its field is intense, undesirable secondary effects are often experienced, e.g., blanketing of broadcast receivers, generation of spurious signals in other radio communications equipment, induced interference in telephone lines and in home audio systems, and the induction in nearby ungrounded metallic structures of voltages, which may, on occasion, be of such magnitude as to be capable of causing burns or shock. As the power of the transmitter is increased, the area over which some or all of these effects may occur, increases. To limit these unwanted side effects, it is customary to site transmitters of relatively high power in areas where the population and facilities subject to unduly high fields are at a minimum. If any standard broadcast station is to be authorized to operate with power which is ten times or more the maximum presently authorized for such stations, it is obvious that special attention must be given to the proper location of the transmitter, and that any authorization which may be issued to an existing I–A station to increase power may involve the specification of a new transmitter site in a sparsely settled area, and may impose other special conditions designed to minimize undesirable secondary effects. The licensee of a I–A station interested in high power operation shall indicate the availability of a suitable site from which to conduct it. Parties are invited to comment on the general magnitude of problems of the nature discussed.

21. While it is, of course, axiomatic that substantial increases in the power of stations providing secondary service will result in improvements in the quality of this service, whether it will, under present day conditions, be a fully adequate substitute for primary service is a question requiring full exploration. The average intensity of a skywave signal, even from a station of relatively high power, never attains a level at which it might be considered substantially immune to the effects of co-channel interference under all circumstances. Over the years, such interference from stations in Central and South American countries has reportedly increased in strength. While it has been argued that the clear channel stations require increased power in order to counteract the effects of such interference, a contrary view of the significance of this factor may be taken—that it may be futile to expect to provide extensive skywave service of satisfactory quality in the presence of this interference, and, accordingly, the clear channels should be more poductively employed. In any event, in any new evaluation of the present and potential use of clear channels we believe that the possible effects of interference from foreign stations cannot be ignored. Thus, we anticipate the need for up-to-date examination of this situation. We request the participation of interested parties in determining the sources and levels of interference existing in U.S. I–A channels.[5]

22. In any plan to expand the usage of the clear channels by the authorization of additional Class II–A stations, the impact must be considered of the promulgation, pursuant to the Report and Order in Docket 16222, adopted January 13,

[4] The following applications for super power have been tendered for filing: Station KSL, Salt Lake City, Utah, 1160 kHz, 500 kW, U; Station WHO, Des Moines, Iowa, 1040 kHz, 750 kW, U; Station KFI, Los Angeles, California, 640 kHz, 750 kW, DA–N, U; Station WLW, Cincinnati, Ohio, 700 kHz, 750 kW, U; Station WSM, Nashville, Tennessee, 650 kHz, 750 kW, U; Station WCCO, Minneapolis, Minnesota, 830 kHz, 750 kW, DA–N, U; Station WJR, Detroit, Michigan, 760 kHz, 500 kW, DA–1, U; and Station WGN, Chicago, Illinois, 720 kHz, 750 kW, U.

[5] The Commission's Field Operations Bureau would expect to aid in this effort. However, for a reasonably complete picture of channel conditions to be obtained, monitoring at as many locations as possible, undertaken systematically, is necessary.

V 40 243 DEC 17 75 D XUM

1971 (FCC 71-39) of rule amendments influencing the design of directional antennas. The amended rules establish a floor on the degree to which the radiated field strength may be reduced, and hence indirectly control the necessary geographical separation between a directionalized station and a station whose service the directional antenna is designed to protect. To some extent, therefore, these rules would restrict such freedom of action as previously existed in the choice of suitable locations or areas for new Class II-A stations. Comments are requested on the significance of this restriction on the possible future employment of such stations to improve nighttime standard broadcast service.

23. It has been alleged that, over the years, the role of the standard broadcast station has become increasingly localized in nature and that listeners primarily rely on nearby stations for program fare, news and information geared to the interests and needs of each particular area. While this may well be the case where the listener is able to exercise a choice between service from local and distant sources, there are many millions of persons who reside in areas which are beyond the nighttime primary service contour of any standard broadcast station. For these people, in the past, secondary signals from clear channel stations have offered the only useful nighttime broadcast service. FM broadcast signals are now available to many areas beyond the reach of primary standard broadcast service, and television service, which customarily fractionalizes nighttime aural broadcast audiences, is sometimes also available. However, it is questionable whether these alternative services, even when available, can fully meet the needs of the mobile population—truck drivers and others, probably counted in the millions, who customarily travel at night. For these people, the extended range of the clear channel station offers a special advantage—the ability to receive the uninterrupted broadcasts of a single station over many miles of highway. It is pertinent to the resolution of this proceeding to determine, on the basis of actual listenership, the extent to which the secondary service of clear channel stations continues to be utilized and relied upon. We request the submission of the results of audience surveys, designed to elicit responses from listeners residing in areas which receive no primary standard broadcast service at night, and from those who travel during nighttime hours, revealing the extent to which the secondary service from clear channel stations is customarily utilized.

PROPOSED RULE MAKING

24. In this proceeding the Commission intends to consider rule amendments in four areas. The first three of the approaches set forth below, implemented separately or in combination, are those pointed to as subject to future determination in our 1961 decision. However, we intend to maintain complete flexibility in our consideration of this matter, and do not preclude the possibility that, after a thorough study of all pertinent information and engineering data, we may propose a resolution of the problem which goes beyond adoption of the particular alternatives, or combination of alternatives to which we have heretofore limited ourselves. Thus, a study of present and potential FM service may reveal a reduction in the extent of nighttime unserved area and population to such an extent that the need for secondary service from clear channel stations will have been substantially lessened. It may also be found that practical obstacles to the institution of measures aimed at improving the quality of secondary service are too great to be surmounted. Under such circumstances, we may wish to consider rule amendments which will affect the basic pattern of clear channel use, e.g., elimination of the protection of secondary service on some or all of the I-A channels, and the employment of such channels to provide primary service from a larger number of stations than could be accommodated under previously considered "duplication" formulas. We have indicated hereinafter a fourth approach which contemplates clear channel usage of this nature.

25. Accordingly, the Commission invites comments with respect to the following:

(1) Amendment of the rules to permit the authorization of power in excess of 50 kilowatts for selected Class I-A stations.

(2) Amendment of the rules to permit additional unlimited-time Class II stations on the "duplicated" Class I-A channels, either in limited number and in designated areas (the present "II-A" plan), or to permit the addition of new stations in all instances where adequate protection for the clear channel station's secondary service and for other stations is afforded.

(3) Amendment of the rules to permit the assignment of unlimited-time Class II stations to those I-A channels which are presently unduplicated, either on a designated basis, or generally, with protection, in each instance, afforded the I-A station's secondary service.

(4) Amendment of the rules to permit the employment of some or all of the present I-A channels by a multiplicity of stations which are intended to render only local or regional groundwave service.

26. These proposals are, of course, general in nature, and comments thereon may be similarly generalized. However, we will accept for consideration such detailed proposals for clear channel use as interested parties may desire to submit. Having had the benefit of the comments herein, and having reviewed the information filed in response to the questions propounded in the notice of inquiry, we anticipate that we will be able to present, in a *further notice of proposed rule making*, concrete and specific proposals in this matter.

27. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules, interested parties may file comments, accompanied by other pertinent material on or before March 18, 1976, and reply comments on or before April 19, 1976. All relevant and timely comments and reply comments will be considered by the Commission before it decides upon the further action to be taken in this proceeding. In reaching this decision, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

28. In accordance with the provisions of § 1.419 of the rules, an original and 11 copies of all comments, reply comments, pleadings, briefs, and other documents shall be furnished the Commission. Copies of all pleadings filed in this proceeding are available for public inspection in the Public Reference Room at the Commission's headquarters in Washington, D.C. (1919 M Street, NW.).

Adopted: December 4, 1975.

Released: December 12, 1975.

DEPARTMENT OF THE TREASURY

Customs Service

[19 CFR Part 177]

ADMINISTRATIVE RULINGS

Proposed Change in Tariff Classification of a Vehicle Known as "Unimog"

Notice is hereby given under the authority of § 177.10 of the Customs Regulations (19 CFR 177.10) that the Customs Service is reviewing the tariff classification of a vehicle known as the Unimog. If this change of practice is adopted, it will result in a higher rate of duty for such merchandise.

Under an established and uniform practice, importations of a vehicle known as the Unimog have been classified under the provision for tractors suitable for agricultural use in item 692.30, Tariff Schedules of the United States (TSUS), and accorded free entry.

Since the primary design, construction, and function of the Unimog in the United States is that of a truck, even though it is capable of performing some tractor operations, the Customs Service proposes to classify these all-purpose vehicles under the provision for automobile trucks valued at $1,000 or more for the transport of persons or articles in item 692.02, TSUS, dutiable at the modified rate of 25 percent ad valorem under item 945.69, TSUS.

Consideration will be given to any relevant data, views, or arguments pertaining to the correct classification of this merchandise which are submitted in writing to the Commissioner of Customs, Attention: Classification and Value Division, Washington, D.C. 20229, not later than February 17, 1976.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.8(b), Customs Regulations (19 CFR 103.8(b)), at the Classification and Value Division, Headquarters, United States Customs Service, Washington, D.C., during regular business hours.

VERNON D. ACREE,
Commissioner of Customs.

Approved: November 24, 1975.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

COTTON AND MAN-MADE FIBER TEXTILE PRODUCTS FROM INDIA

Final Countervailing Duty Determination

On July 3, 1975, a "Notice of Preliminary Countervailing Duty Determination" was published in the FEDERAL REGISTER (40 FR 28104). The notice stated that on the basis of an investigation conducted pursuant to § 159.47(c), Customs Regulations (19 CFR 159.47(c)), a preliminary determination was made that no bounties or grants are being paid or bestowed, directly or indirectly, within the meaning of section 303, Tariff Act of 1930, as amended (19 U.S.C. 1303), upon the manufacture, production, or exportation of cotton and man-made fiber textile products from India.

The notice stated further that before a final determination would be made in this proceeding, consideration would be given to any relevant data, views or arguments submitted in writing 30 days from the date of the notice with respect to the preliminary determination. The 30-day period for the submission of views was extended to 60 days by notice published in the FEDERAL REGISTER of August 15, 1975 (40 FR 34423).

No written submissions having been received, it is hereby determined, for the reasons stated in the preliminary determination, that no bounties or grants are being paid or bestowed, directly or indirectly, within the meaning of section 303, Tariff Act of 1930, as amended (19 U.S.C. 1303), upon the manufacture, production, or exportation of cotton and man-made fiber textile products from India.

This notice is published pursuant to section 303, Tariff Act of 1930, as amended (19 U.S.C. 1303).

VERNON D. ACREE,
Commissioner of Customs.

[Dept. Circ. 570, 1975 Rev., Supp. No. 9]

"WINTERTHUR" SWISS INSURANCE COMPANY, UNITED STATES BRANCH

Surety Companies Acceptable on Federal Bonds; Change of Name

Accident and Casualty Insurance Company of Winterthur, Switzerland (U.S. Office, New York, New York), a Swiss corporation, has formally changed its name to "Winterthur" Swiss Insurance Company (U.S. Office, New York, New York), effective June 10, 1975. Documents evidencing the change of name are on file in the Treasury.

A new certificate of authority as an acceptable reinsuring company on Federal bonds, dated July 1, 1975, has been issued by the Secretary of the Treasury to "Winterthur" Swiss Insurance Company (U.S. Office, New York, New York), under Treasury Circular 297, Revised February 10, 1975 (31 CFR Part 223), to replace the certificate issued July 1, 1975 (40 FR 29259, July 10, 1975) to the company under its former name, Accident and Casualty Insurance Company of Winterthur, Switzerland (U.S. Office, New York, New York). The underwriting limitation of $1,172,000 previously established for the company remains unchanged.

A substitute certificate of authority was also issued the company under its new name for the period June 10-30, 1975 to provide legal continuity.

The change in name of Accident and Casualty Insurance Company of Winterthur, Switzerland (U.S. Office, New York, New York) does not affect its status or liability with respect to any obligation in favor of the United States or in which the United States has an interest, which it may have undertaken pursuant to a certificate of authority issued by the Secretary of the Treasury.

Certificates of authority expire on June 30 each year, unless sooner revoked and new certificates are issued on July 1, so long as the companies remain qualified (31 CFR Part 223). A list of qualified companies is published annually as of July 1, in Department Circular 570, with details as to underwriting limitations, areas in which licensed to transact surety business and other information.

Copies of the circular, when issued, may be obtained from the Audit Staff, Bureau of Government Financial Operations, Department of the Treasury, Washington, D.C. 20226.

Dated: December 11, 1975.

Drug Enforcement Administration

ABBOTT LABORATORIES

Importation of Controlled Substance; Methylphenidate, Scheduling of Prehearing Conference

Pursuant to § 1311.42 of Title 21, Code of Federal Regulations, a notice dated May 23, 1975 was published on June 10, 1975 at 40 FR 24758, that Abbott Laboratories, 14th and Sheridan Road, North Chicago, Illinois 60064, had made application to the Drug Enforcement Administration to be registered as an importer of methylphenidate, a basic class controlled substance listed in Schedule II.

Thereafter a notice dated August 5, 1975 was published on August 25, 1975 at 40 FR 37060, that, MBH Chemical Corporation having objected to said application and requested a hearing thereon, a hearing would be held thereon commencing at 10 a.m. on Tuesday, October 7, 1975 at the Drug Enforcement Administration, Washington, D.C.

Thereafter a Statement of Policy and Interpretation dated September 18, 1975 was published on September 23, 1975 at 40 FR 43745 concerning certain procedures respecting applications for registration or reregistration to import a basic class of any controlled substance in Schedule I or II.

And thereafter under date of October 3, 1975 an Order to Show Cause was issued to Abbott Laboratories advising that, after reviewing its application referred to hereinabove, the Acting Administrator, Drug Enforcement Administration, was unable to make certain determinations with respect thereto, and affording an opportunity to Abbott Laboratories to show cause why he should not deny the application aforesaid.

Subsequently MBH Chemical Corporation effectively withdrew its objection and request for hearing with respect to the aforesaid application but Abbott Laboratories has requested a hearing with respect thereto pursuant to the Order to Show Cause described hereinabove.

Notice is hereby given that the proceedings commenced on October 7, 1975 pursuant to the notice published on August 25, 1975, were continued on December 8, 1975 and will be still further continued and carried forward by a Prehearing Conference on Tuesday, January 20, 1976, commencing at 10 a.m. in Room 1210, Drug Enforcement Administration, 1405 Eye Street, NW, Washington, D.C., at which time and place any person believing himself entitled to participate in these proceedings and who desires to do so should appear and present, orally and in writing, his reasons for such belief and desire. Enquiries as to the present posture and proceedings to date in this matter should be made in writing and be addressed to "Federal Register Representative", Office of Chief Counsel, Drug Enforcement Administration, 1405 Eye Street, NW, Washington, D.C.

HENRY S. DOGIN,
Acting Administrator.

Soil Conservation Service

CHOCTAW BAYOU WATERSHED PROJECT, LOUISIANA

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the Choctaw Bayou Watershed Project, West Baton Rouge, Pointe Coupee, and Iberville Parishes, Louisiana. USDA-SCS-EIS-WS-(ADM)-76-4-(D)-LA.

The environmental impact statement concerns a plan for watershed protection, flood prevention, and drainage. The planned works of improvement include conservation land treatment supplemented by channel work, and three structures for water control (weirs). The channel work will involve clearing and debris removal on 22 miles of existing channels, 6 miles of new channel construction, and 64 miles of enlargement by excavation to provide improved water management in a flatland watershed that is 49 percent agricultural cropland and grassland. Of the 86 miles of work proposed on existing streams or channels, 79 miles will involve those with only ephemeral flow, 4 miles with intermittent flow, and 3 miles with ponded water.

A limited supply of copies is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, 3737 Government Street, Alexandria, La. 71301.

Copies of the draft environmental impact statement have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to Alton Mangum, State Conservationist, Soil Conservation Service, 3737 Government Street, Alexandria, Louisiana 71301.

Comments must be received on or before February 3, 1976, in order to be considered in the preparation of the final environmental impact statement.

[FR Doc.75-33874 Filed 12-16-75;8:45 am]

MIDDLE WALNUT WATERSHED PROJECT, KANSAS

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the Middle Walnut Watershed Project, Butler, Sedgwick, Cowley, and Sumner Counties, Kansas, USDA-SCS-EIS-WS-(ADM)-76-1-(D)-KS.

The environmental impact statement concerns a plan for watershed protection, flood prevention, and recreation. The planned works of improvement include conservation land treatment, supplemented by 14 floodwater retarding structures and one multiple-purpose reservoir with recreation facilities. The recreational development will provide 50,000 recreation visits annually.

A limited supply of copies is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, 760 South Broadway, Salina, Kansas 67401.

Copies of the draft environmental impact statement have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to Robert K. Griffin, State Conservationist, Soil Conservation Service, 760 South Broadway, Salina, Kansas 67401.

Comments must be received on or before February 9, 1976, in order to be considered in the preparation of the final environmental impact statement.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services)

Dated: December 10, 1975.

SHELDON G. BOONE,
Acting Deputy Administrator for Water Resources, Soil Conservation Service.

[FR Doc.75-33876 Filed 12-16-75;8:45 am]

MUD CREEK WATERSHED PROJECT, ALABAMA

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1960; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650.7(e) of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the Mud Creek Watershed Project, Cullman County, Alabama, USDA-SCS-EIS-WS-(ADM)-75-3-(D)-AL.

The environmental impact statement concerns a plan for watershed protection and flood prevention. The planned works of improvement include conservation land treatment supplemented by channel work. The channel work will involve 4.7 miles of enlargement by excavation to provide additional streamflow capacity. Of the 4.7 miles of work proposed on existing streams or channels, 2.6 miles will involve those with only ephemeral flow, 1.1 miles with intermittent flow, and 1.0 mile with perennial flow.

A limited supply of copies is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, 138 South Gay Street, Auburn, Alabama 36830.

Copies of the draft environmental impact statement have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to William B. Lingle, State Conservationist, Soil Conservation Service, 138 South Gay Street, Auburn, Alabama 36830.

Comments must be received on or before February 6, 1976, in order to be considered in the preparation of the final environmental impact statement.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services)

Dated: Demember 10, 1975.

SHELDON G. BOONE,
Acting Deputy Administrator for Water Resources, Soil Conservation Service.

DEPARTMENT OF COMMERCE

National Technical Information Service

GOVERNMENT-OWNED INVENTIONS

Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for licensing in accordance with the licensing policy of each Agency-sponsor.

Copies of patents are available from the Commissioner of Patents, Washington, D.C. 20231, at $.50 each. Requests for copies of patents must include the patent number.

Copies of patent applications, either paper copy (PC) or microfiche (MF), can be purchased from the National Technical Information Service (NTIS), Springfield, Virginia 22161, at the prices cited. Requests for copies of patent applications must include the PAT-APPL-number. Claims are deleted from patent application copies sold to the public to avoid premature disclosure in the event of an interference before the Patent Office. Claims and other technical data can usually be made available to serious prospective licensees by the agency which filed the case.

Requests for licensing information should be directed to the address cited below for each agency.

DOUGLAS J. CAMPION,
Patent Program Coordinator, National Technical Information Service.

U.S. DEPARTMENT OF THE INTERIOR, Branch of Patents, 18th and C Streets, NW, Washington, D.C. 20240.

Patent application 579,640: Recovery of Zinc from Zinc Chloride by Fused Salt Electrolysis; filed 21 May 1975; PC $3.25/MF $2.25.
Patent application 580,444: Regular Copolyamides as Desalination Membranes; filed 23 May 1975; PC $3.25/MF $2.25.
Patent application 582,005: Method and Apparatus for a Power Circuit Breaker Controller; filed 29 May 1975, PC $3.75/MF $2.25.
Patent application 588,549: Remote Sealing of Mine Passages Containing Flowing Water; filed 19 June 1975; PC $3.25/MF $2.25.
Patent application 588,999: Recovery of Lead from Battery Scrap; filed 25 June 1975; PC $3.25/MF $2.25.
Patent application 596,117: A Method for Removing Soluble Selenium from Acidic Waste Water; filed 15 July 1975; PC $3.25/MF $2.25.
Patent application 599,741: Precision Aerosol Divider; filed 28 July 1975; PC $3.25/MF $2.25.
Patent application 601,125: Preparation of PbO2 Anode; filed 31 July 1975; PC $3.25/MF $2.25.
Patent application 603,422: Endless Conveyor System; filed 11 August 1975; PC $3.25/MF $2.25.
Patent application 604,566: Method of Operating a Constant Depth Linear Cutting Head on a Retrofitted Continuous Mining Machine; filed 14 August 1975; PC $3.25/MF $2.25.
Patent application 606,803: Structural Material; filed 22 August 1975; PC $3.25/MF $2.25.

U.S. DEPARTMENT OF THE NAVY, Assistant Chief for Patents, Office of Naval Research, Code 302, Arlington, VA 22217.

Patent application 426,783: Shock Attenuating Structure; filed 20 December 1973; PC $3.25/MF $2.25.
Patent application 442,530: Serial-Access Linear Transform Device; filed 14 February 1974; PC $3.75/MF $2.25.
Patent application 446,062: Method of Determining Watertight Integrity in Hovercraft; filed 6 August 1974; PC $3.25/ MF $2.25.
Patent application 449,295: Crown Float/Decelerator; filed 8 March 1974; PC $3.25/MF $2.25.
Patent application 452,082: Cargo/Ballast Separation by Dual Membrane System; filed 18 March 1974, PC $3.25/MF $2.25.
Patent application 454,886: Slam/Shock Isolation Pedestal; filed 26 March 1974; PC $3.25/MF $2.25.
Patent application 458,141; Bomb Rack Sway Brace Assembly; filed 5 April 1974; PC $3.25/MF $2.25.
Patent application 463,944: Custom Fitted Lightweight Air Conditioned Protective Helmet; filed 25 April 1974; PC $3.25/MF $2.25.
Patent application 465,800: Ophthalmodynamometer; filed 1 May 1974; PC $3.25/ MF $2.25.
Patent application 471,384: Aircraft Barricade Jet-Net; filed 20 May 1974; PC $3.25/ MF $2.25.
Patent application 472,559: Space Shuttle Orbiter Barricade; filed 23 May 1974; PC $3.25/MF $2.25.
Patent application 476,821: Reduced Shear Stress End Fitting; filed 6 June 1974; PC $3.25/MF $2.25.
Patent application 481,007: Torsionally and/or Axial Soft Coupling; filed 20 June 1974; PC $3.25/MF $2.25.
Patent application 482,979: Holographic Interferometry Apparatus and Method of Measuring Deflections of Dynamic Bodies; filed 25 June 1974; PC $3.25/MF $2.25.
Patent application 487,481: Quiet Shrouded Circulation Control Propeller; filed 11 July 1974; PC $32.25/MF $2.25.
Patent application 492,314: Flux-Switched Inductor Alternator; filed 26 July 1974; PC $3.25/MF $2.25.
Patent application 505,719: A System to Process Antenna Beams to Obtain the Angular Location of a Target with High Resolution and Accuracy; filed 13 September 1974; PC $3.25/MF $2.25.
Patent application 506,921: Electrolysis Apparatus and a Method of Hydrodynamic Cavitation Protection; filed 17 September 1974; PC $3.25/MF $2.25.
Patent application 514,706: Discrete Cosine Transform Signal Processor; filed 15 October 1974; PC $3.25/$2.25.
Patent application 529,992: Launching Means for Surface Effect Ships; filed 5 December 1974; PC $3.25/MF $2.25.
Patent application 533,116: Laser Activated Superconducting Switch; filed 16 December 1974; PC $3.25/MF $2.25.
Patent application 534,990: A Device for Determining the State of Charge in Batteries; filed 20 December 1974; PC $3.25/ MF $2.25.
Patent application 536,076: Inverted Voltage Gerdien Condenser; filed; 24 December 1974; PC $3.25/MF $2.25.
Patent application 540,047: Flight Simulator Visual Display System; filed 10 January 1975; PC $3.25/MF $2.25.
Patent application 554,358: Method for Reclaiming and Recycling plastic Bonded Energetic Material; filed 3 March 1975; PC $3.25/MF $2.25.
Patent application 561,964: High Pressure, 4-Position, 5-Way, Pilot Operated Valve for Corrosive Media; filed 25 March 1975; PC $3.25/MF $2.25.
Patent application 565,305: Method and Means to Access and Extended Memory Unit; filed 4 April 1975; PC $3.25/MF $2.25.
Patent application 570,927: High Speed Fiber Optic Communication Link; filed 22 April 1975; PC $3.25/MF $2.25.
Patent application 570,933: Recirculation of Liquid Metal Current Collectors in Acyclic Machines; filed 22 April 1975; PC $3.25/MF $2.25.
Patent application 571,194: Process and Apparatus for Producing High Precision Laser Mirror Seats; filed 24 April 1975; PC $3.25/ MF $2.25.

V 40 N 243 DEC 17 75 D XUM

Patent application 572,557: Tracking Status Detector for a digital Delay Lock Loop; filed 28 April 1975; PC $3.25/MF $2.25.

Patent application 576,496: Acousto-Optically Tuned Laser; filed 12 May 1975; PC $3.25 MF $2.25.

Patent application 576,941: Eyeletting Attachment for Drill Presses; filed 12 May 1975; PC $3.25/MF $2.25.

Patent application 577,525: Process for Fabricating Ceramic Bone Implant and Product Thereof; filed 14 May 1975; PC $3.25/MF $2.25.

Patent application 581,258: Pseudo Sampling; filed 27 May 1975; PC $3.25/MF $2.25.

Patent 3,868,572: Audio Transmission and Reception Assembly; filed 16 March 1973, patented 25 February 1975; not available NTIS.

Patent 3,878,324: Smearing Effect Attenuator; filed 1 April 1974; patented 15 April 1975; not available NTIS.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION, Assistant General Counsel for Patent Matters, NASA Code GP–2, Washington, D.C. 20546.

Patent application 595,254: System and Method for Tracking a Signal Source; filed 11 July 1975; PC $3.25/MF $2.25.

Patent application 608,482: Binocular Attachment; filed 28 August 1975; PC $3.25/MF $2.25.

Patent 3,898,578: Integrable Power Gyrator; patented 5 August 1975; not available NTIS.

Patent 3,898,730: Bonding Method in the Manufacture of Continuous Regression Rate Sensor Devices; patented 12 August 1975; not available NTIS.

Patent 3,898,882: Flow Measuring Apparatus; patented 12 August 1975; not available NTIS.

Patent 3,899,224: Lubricated Journal Bearing; patented 12 August 1975; not available NTIS.

Patent 3,899,252: NDIR Gas Analyzer Based on Absorption Modulation Ratios for Known and Unknown Samples; patented 12 August 1975; not available NTIS.

Patent 3,899,517: Perfluoro Alkylene Dioxy-Bis-(4-Phthalic Anhydrides) and Oxy-Bis-(Perfluoroalkyleneoxyphthalic Anhydrides); patented 12 August 1975; not available NTIS.

Patent 3,899,680: Protected Isotope Heat Source; patented 12 August 1975; not available NTIS.

Patent 3,899,696: Electric Power Generation System Directory from Laser Power; patented 12 August 1975; not available NTIS.

Patent 3,899,745: Isolated Output System for a Class D Switching-Mode Amplifier; patented 12 August 1975; not available NTIS.

Patent 3,900,705: Dual Digital Video Switcher; patented 19 August 1975; not available NTIS.

Patent 3,900,741: Fault Tolerant Clock Apparatus Utilizing a Controlled Minority of Clock Elements; patented 19 August 1975; not available NTIS.

Patent 3,900,847: Satellite Aided Vehicle Avoidance System; patented 19 August 1975; not available NTIS.

Patent 3,902,143: Refrigerated Coaxial Coupling; patented 26 August 1975; not available NTIS.

GOVERNMENT-OWNED INVENTIONS

Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for licensing in accordance with the licensing policy of each Agency-sponsor.

Copies of patents are available from the Commissioner of Patents, Washington, D.C. 20231, at $.50 each. Requests for copies of patents must include the patent number.

Copies of patent applications, either paper copy (PC) or microfiche (MF), can be purchased from the National Technical Information Service (NTIS), Springfield, Virginia 22161, at the prices cited. Requests for copies of patent applications must include the PAT-APPL-number. Claims are deleted from patent application copies sold to the public to avoid premature disclosure in the event of an interference before the Patent Office. Claims and other technical data can usually be made available to serious prospective licensees by the agency which filed the case.

Requests for licensing information should be directed to the address cited below for each agency.

DOUGLAS J. CAMPION,
Patent Program Coordinator, National Technical Information Service.

U.S. DEPARTMENT OF THE INTERIOR, Branch of Patents, 18th and C Streets, NW, Washington, DC 20240.

Patent application 576,400: Fluxless Recovery of Metallic Aluminum from Wastes; filed 9 May 1975; PC $3.25/MF $2.25.

Patent application 596,883: Method for Making Asymmetric Semipermeable Membranes; filed 17 July 1975; PC $3.25/MF $2.25.

Patent 3,884,794: Solvent Refined Coal Process Including Recycle of Coal Minerals; filed 4 March 1974; patented 20 May 1975; not available NTIS.

U.S. DEPARTMENT OF THE NAVY, Assistant Chief for Patents, Office of Naval Research, Code 302, Arlington, VA 22217.

Patent application 375,971: Subchannel Decoupling Filters for Echo Location Systems; filed 2 July 1973; PC $3.75/MF $2.25.

Patent application 420,829: An Acoustic Device for Measuring Rotation Rates; filed 3 December 1973; PC $3.25/MF $2.25.

Patent application 444,576: Leakage Test Method and Apparatus; filed 21 February 1974; PC $3.25 MF $2.25.

Patent application 451,621: An Improved Reserve Battery; filed 15 March 1974; PC $3.25 MF $2.25.

Patent application 460,323: A process for Making a Molded Valve Housing for a Prosthetic Limb; filed 12 April 1974; PC $3.25 MF $2.25.

Patent application 465,795: An Improved Chill Block; filed 1 May 1974; PC $3.25/MF $2.25.

Patent application 466,118: Nonlinear Array Hydrophone Simulator; filed 2 May 1974; PC $3.25 MF $2.25.

Patent application 470,877: A.D.C. Operated Ground Fault Locator for Energized Shipboard A.C. Electrical Systems; filed 17 May 1974; PC $3.25 MF $2.25.

Patent application 475,688: A Method for Reducing the Viscosity of Aluminum Gelled Fuels; filed 3 June 1974; PC $3.25/MF $2.25.

Patent application 482,393: Electronic Solid State Sensor Image Size Control; filed 24 June 1974; PC $3.25/MF $2.25.

Patent application 572,590: Lasing Dye; filed 28 April 1975; PC $3.25/MF $2.25.

Patent application 573,699: Battlefield IFF System; filed 1 May 1975; PC $3.25/MF $2.25.

Patent application 574,984: An Integrated Inertial Reference–Inertial Navigation System; filed 6 May 1975; PC $3.25/MF $2.25.

Patent application 580,385: Gossypol, an Abundant, Low-Cost Iron Deactivator, Pot-Life Extender, and Processing Aid for HTPB Propellants; filed 23 May 1975; PC $3.25/MF $2.25.

Patent application 580,856: Fiber Optic Granding and Polishing Tool; filed 27 May 1975; PC $3.25/MF $2.25.

Patent application 584,321: An Integrated Optical Data Bus Coupler; filed 6 June 1975; PC $3.25/MF $2.25.

Patent application 588,738: Weapons Training Simulator Utilizing Polarized Light; filed 20 June 1975; PC $3.25/MF $2.25.

Patent application 588,914: PbS–Al Selective Solar Absorber; filed 20 June 1975; PC $3.25/MF $2.25.

Patent application 588,987: Composite Polarized Film for Use in a Weapon Training Simulator; filed 20 June 1975; PC $3.25/MF $2.25.

Patent application: 588,998: High Current Pulser Circuit; filed 20 June 1975; PC $3.25/MF $2.25.

Patent application 589,160: Voltage Ramp Temperature Controller; filed 23 June 1975; PC $3.25/MF $2.25.

Patent application 589,503: Laser Receiver Anti-Sun Circuit; filed 23 June 1975; PC $3.25/MF $2.25.

Patent application 593,071: Universal Infantry Weapons Trainer; filed 3 July 1975; PC $3.25/MF $2.25.

National Aeronautics and Space Administration, Assistant General Counsel for Patent Matters, NASA Code GP–2, Washington, DC 20546.

Patent application 561,956: Method of and Means for Testing a Tape Record/Playback System; filed 25 March 1975; PC $3.25/MF $2.25.

Patent application 571,816: Varying Density Composite Structure; filed 25 April 1975; PC $3.25/MF $2.25.

Patent application 612,899: Jet Engine Air Intake System; filed 12 September 1975; PC $3.25/MF $2.25.

Patent 3,905,356: Subminiature Insertable Force Transducer; patented 16 September 1975; Not available NTIS.

Patent 3,906,231: Doped Josephson Tunneling Junction for Use in a Sensitive IR Detector; patented 16 September 1975; not available NTIS.

Patent 3,906,296: Stored Charge Transistor; patented 16 September 1975; not available NTIS.

Patent 3,906,374: Symmetrical Odd-Modulus Frequency Divider; patented 16 September 1975; not available NTIS.

Patent 3,906,393: Acoustically Controlled Distributed Feedback Laser; patented 16 September 1975; not available NTIS.

Patent 3,906,397: Diatomic Infrared Gasdynamic Laser; patented 16 September 1975; not available NTIS.

Patent 3,833,717: Production of Cuprous Oxide, filed 1 August 1972, patented 3 September 1974, not available NTIS.

Patent 3,834,896: Recovery of Gold; filed 21 June 1972; patented 10 September 1974; not available NTIS.

Patent 3,849,265: Electro-Oxidative Method for the Recovery of Molybdenum from Sulfide Ores; filed 1 October 1971; patented 19 November 1974; not available NTIS.

Patent 3,852,060: Formation of Metal Filaments by Solid State Reactions; filed 25 June 1973; patented 3 December 1974, not available NTIS.

Patent 3,873,860: MHD Power Generation; filed 21 November 1973; patented 25 March 1975; not available NTIS.

Patent 3,875,096: Process for the Preparation of a Stable Salt Form of a Sulfonated Polyarylether Sulfone; filed 20 March 1974, patented 1 April 1975; not available NTIS.

Patent 3,892,639: Extraction of Metal Values from Lateritic Ores; filed 11 September 1974; patented 1 July 1975; not available NTIS.

Patent 3,899,569: Preparation of Highly Pure Titanium Tetrachloride from Ilmenite Slag; filed 1 February 1972; patented 12 August 1975; not available NTIS.

U.S. DEPARTMENT OF THE NAVY, Assistant Chief for Patents, Office of Naval Research, Code 302, Arlington, VA 22217.

Patent application 482,308: Low Distortion, Amplitude Staple Quadrature Oscillator; filed 24 June 1974; PC $3.25/FM $2.25.

Patent application 483,603: Inflatable Body and Head Restraint, filed 27 June 1974; PC $3.25/MF $2.25.

Patent application 491,983: Train Resonant Car-Body Rocking Detector System; filed 25 July 1974; PC $3.25/MF $2.25.

Patent application 495,478: Overheated Journal Bearing Derailment Prevention System; filed 7 August 1974; PC $3.25/MF $2.25.

Patent application 495,480: Local Derailment Sensor and Brake Actuator System; filed 7 August 1974; PC $3.25/MF $2.25.

Patent application 586,104: High-Speed Adder; filed 18 June 1975; PC $3.25/MF $2.25.

Patent application 592,705: Dual-Mode Display Device; filed 2 July 1975, PC $3.25/MF $2.25.

Patent application 593,071: Universal Infantry Weapons Trainer; filed 3 July 1975; PC $3.25/MF $2.25.

Patent application 597,869: Dual Ejector Stores Attitude Control System; filed 21 July 1975; PC $3.25/MF $2.25.

Patent 3,821,751: Method for World Wide Synchronization of Tracking Radars; filed 27 March 1972; patented 28 June 1974; not available NTIS.

Patent 3,821,752: Electronic Interference Detector for Range-Tracking Pulse Radar Systems; filed 31 August 1966; patented 28 June 1974; not available NTIS.

Patent 3,822,038: Multicoupler Percent Frequency Separation Calculator; filed 15 June 1972; patented 2 July 1974; not available NTIS.

Patent 3,822,086: Apparatus for Recharging ATR Tube; filed 1 February 1973; patented 2 July 1974; not available NTIS.

Patent 3,823,208: Method of Making a Permanent Prosthetic Socket, filed 24 May 1971; patented 9 July 1974; not available NTIS.

Patent 3,823,901: Aerial Launch System; filed 24 July 1973; patented 16 July 1974; not available NTIS.

Patent 3,824,014: Relief Mask for High Resolution Photolithography; filed 26 July 1973; patented 16 July 1974; not available NTIS.

Patent 3,824,289: Method for the Manufacture of Tetrakis (Dimethylamino) Ethylene; filed 21 October 1971; patented 16 July 1974; not available NTIS.

Patent 3,824,497: High-Purity, Frequency-Stable, Adjustable, Wien-Bridge, Oscillator; filed 20 July 1973; patented 16 July 1974; not available NTIS.

Patent 3,826,452: Electrical Control Device for a Re-Entry Vehicle; filed 25 May 1973; patented 30 July 1974; not available ITIS.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION, Assistant General Counsel for Patent Matters, NASA Code GP–2, Washington, DC 20546.

Patent application 612,899: Jet Engine Air Intake System; filed 12 September 1975; PC $3.25/MF $2.25.

Patent 3,905,660: Drilled Ball Bearing with a One Piece Anti-Tipping Cage Assembly; patented 16 September 1975; not available NTIS.

Patent 3,906,393: Acoustically Controlled Distributed Feedback Laser; patented 16 September 1975; not available NTIS.

Patent 3,906,397: Diatomic Infrared Gasdynamic Laser; patented 16 September 1975; not available NTIS.

GOVERNMENT-OWNED INVENTIONS

Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for licensing in accordance with the licensing policy of each Agency-sponsor.

Copies of patents are available from the Commissioner of Patents, Washington, D.C. 20231, at $.50 each. Requests for copies of patents must include the patent number.

Copies of patent applications, either paper copy (PC) or microfiche (MF), can be purchased from the National Technical Information Service (NTIS), Springfield, Virginia 22161, at the prices cited. Requests for copies of patent applications must include the PAT-APPL-number. Claims are deleted from patent application copies sold to the public to avoid premature disclosure in the event of an interference before the Patent Office. Claims and other technical data can usually be made available to serious prospective licensees by the agency which filed the case.

Requests for licensing information should be directed to the address cited below for each agency.

DOUGLAS J. CAMPION,
Patent Program Coordinator, National Technical Information Service.

U.S. ENVIRONMENTAL PROTECTION AGENCY, Room W513, 401 M Street, SW, Washington, DC 20460.

Patent application 510,188: Polarization Excitation Device for X-Ray Fluorescence Analysis; filed 30 September 1974; PC $3.25/MF $2.25.

Patent application 520,218: System for Dewatering Dilute Slurries; filed 1 November 1974; PC $3.25/MF 02,25.

U.S. DEPARTMENT OF THE INTERIOR, Branch of Patents, 18th and C Streets, NW, Washington, DC 20240.

Patent application 576,393: Process for Recovering Copper from Oxidized Ores; filed 9 May 1975; PC $3.25/MCF $2.25.

Patent application 588,547: Decomposition of Sulfide Minerals; filed 19 June 1975; PC $3.25/MF $2.25.

Patent application 588,548: Titanium Diboride Composition; filed 19 June 1975; PC $3.25/MF $2.25.

Patent application 591,743: Decomposition of Sulfide Ores filed 30 June 1975; PC $3.25/MF $2.25.

Patent application 595,902: Dehydration of Magnesium Chloride; filed 14 July 1975; PC $3.25/MF $2.25.

Patent 3,877,932: Pressure Cementation Process for Recovery of Copper from Solution; filed 21 February 1974; patented 15 April 1975; not available NTIS.

Patent 3,877,978: Semipermeable Membranes; filed 27 March 1974; patented 15 April 1975; not available NTIS.

Patent 3,878,276: Cellulose Acetate Blend Membranes; filed 24 May 1972; patented 15 April 1975; not available NTIS.

Patent 3,880,618: Simultaneously Removing Sulfur and Nitrogen Oxides from Gases; filed 2 March 1973; patented 29 April 1975; not available NTIS.

U.S. DEPARTMENT OF THE NAVY, Assistant Chief for Patents, Office of Naval Research, Code 302, Arlington, VA 22217.

Patent application 428,533: Ordnance Alignment and Loading Apparatus; filed 26 December 1973; PC $3.25/MF $2.25.

Patent application 438,313: Non-Polluting, Antifouling, Composition and Method; filed 31 January 1974; PC $3.75/MF $2.25.

Patent application 439,486: Propellant-Actuated Deep Water Anchor, filed 4 February 1974; PC $3.25/MF $2.25.

Patent application 453,241: Dual Field Excitation for a Carbon Dioxide Laser; filed 21 March 1974; PC $3.25/MF $2.25.

Patent application 465,978: Ophthalmodynamometer; filed 1 May 1974; PC $3.25/MF $2.25.

Patent application 482,307: Dyeing of Novoloid Fiber; filed 24 June 1974; PC $3.25/MF $2.25.

Patent application 482,980: Fuel Cell Using Lithium-Aluminum Alloy Anode and Aqueous Electrolyte; filed 25 June 1974; PC $3.25/MF $2.25.

Patent application 536,077: Radiosonde Circuitry for Impedance Measurement of an A1203 Absolute Water Vapor Sensor; filed 24 December 1974; PC $3.25/MF $2.25.

V 40 0243 DEC 17 75 XUM

Patent application 546,051: Variable-to-Block-with-Prefix Source Coding Technique; filed 31 January 1975; PC $3.75/MF $2.25.

Patent application 561,017: Inertial Optical Stabilizer; filed 21 March 1975; PC $3.25/MF $2.25.

Patent application 562,381: Apparatus for Insulating Stator Coils; filed 26 March 1975; PC $3.25/MF $2.25.

Patent application 576,733: High Speed Optical Matrix Multiplier Syatem; filed 12 May 1975; PC $3.25/MF $2.25.

Patent application 577,365: Magnetic Shielding of Computer Components from Lightning; filed 13 May 1975; PC $3.25/MF $2.25.

Patent application 579,770: Improved Demisting System for Cold Starts and Restarts; filed 22 May 1975; PC $3.25/MF $2.25.

Patent application 581,063: Organic Nucleating Agent for Both Warm and Cold Clouds; filed 27 May 1975; PC $3.25/MF $2.25.

Patent application 582,044: Paint-on Thermocouple; filed 29 May 1975; PC $3.25/MF $2.25.

Patent application 584,321: An Integredated Optical Date Bus Coupler; filed 6 June 1975; PC $3.25/MF $2.25.

Patent application 585,142: Light-Weight Low-Cost Antenna Element; filed 9 June 1975; PC $3.25/MF $2.25.

Patent application 586,113: Improved Millimeter Waveguide to Microstrip Transition; filed 11 June 1975; PC $3.25/MF $2.25.

Patent application 587,445: In-Line Waveguide to Coax Transition; filed 16 June 1975; PC $3.25/MF $2.25.

Patent application 588,914: PbS–Al Selective Solar Absorber; filed 20 June 1975; PC $3.25/MF $2.25.

Patent application 589,489: Efficient Dye Laser Materials for the Ultraviolet; filed 20 June 1975; PC $3.25/MF $2.25.

Patent application 600,255: Optical Measurement of the Difference in Alignment Between Reference Frames; filed 30 July 1975; PC $3.25/MF $2.25.

Office of the Secretary

COMMERCE TECHNICAL ADVISORY BOARD

Meeting

A meeting of the Department of Commerce Technical Advisory Board will be held on Wednesday, January 14, 1976, from 9:00 a.m. to 5:00 p.m. and Thursday, January 15, 1975, from 8:30 a.m. to 12:00 noon, at the main Commerce Building, 14th Street and Constitution Avenue, Washington, D.C., Room 6802.

The Board was established to study and evaluate the technical activities of the Department of Commerce and recommend measures to increase their value to the business community. Agenda items will include:

Discussion of Regulatory Reform Concepts.
Review of Department of Commerce Responsibility Under PL 92-500, Section 6.
Discussion of Court for Scientific Controversy Experiment.
Discuission of Proposed Panel on Commercialization of Federally Funded RD&D.
Presentation on Technology Transfer with Lesser Developed Countries.

A limited number of seats will be available to the public and the press. The public will be permitted to file written statements or inquiries with the Chairman before or after the meeting.

Persons desiring to obtain further information concerning the Board should contact Mr. William C. Holt, Room 3877, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, D.C. 20230; Telephone (202)–967–2394.

BETSY ANCKER-JOHNSON,
Assistant Secretary for Science and Technology.

DECEMBER 11, 1975.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Administration on Aging

UTAH: FISCAL YEAR 1976 STATE PLAN

Hearing

Notice is hereby given that in keeping with section 305(c) of Title III of the Older Americans Act of 1965, as amended, and 45 CFR 903.1[illegible] of the Federal Regulations (section 305(c) Pub. L. 93-29, 87 Stat. 36–45 (42 U.S.C. 3021–3025).; 38 FR 28045), and the request of the Governor thereunder, the Commissioner on Aging will hold a hearing to decide whether the Fiscal Year 1976 State Plan submitted by the State of Utah under section 304 of the Act conforms to the Federal requirements which pertain to the State's request to be designated a single State planning and service area under section 307(a) of the Act. Following is the notice of hearing from the Commissioner to the State of Utah which states the time and place for the hearing, the issues which will be considered, and a reference to the rules of practice and procedure which will be followed:

DECEMBER 8, 1975.

DEAR GOVERNOR RAMPTON:

I have received your telegram of November 6 stating your wish to have a hearing in response to my September 16 and October 18 letters relative to my intent to disapprove the State's request to be designated as a single State planning and service area and the Fiscal Year 1976 State Plan for Title III under the Older Americans Act of 1965, as amended.

I wish to notify you that I have scheduled the hearing for 9:00 a.m., January 30, 1976 to be held in Room B–20, Federal Building, 125 South State Street, Salt Lake City, Utah. I am enclosing the Rules of Practice and Procedure established for the proceedings which have been adapted from those published for hearings on conformity of State public assistance plans to Federal requirements set forth at 45 CFR Part 213.

I shall serve as the presiding officer for the hearing. I have designated Ms. Marlene Morris, Hearings Assistant, Social Security Administration, Room 302, Denver Building, 352 Denver Street, Salt Lake City, Utah, as the Administration on Aging Hearing Clerk. She shall perform those duties and responsibilities set forth in the enclosed Rules of Practice and Procedure.

The issues to be considered at the hearing are (1) whether or not the evidence submitted by the State of Utah in support of its request for designation as a single State planning and service area, as well as any other relevant evidence which may be adduced, support a conclusion under the criteria set forth at 45 CFR 903.57(f)(2) that there are circumstances relating to the State which justify approval of its request to be designated as a single State planning and service area; and (ii) whether the performance of the established area agencies on aging and the programs they administer under their approved area plans is such that a change to designate the State as a single State planning and service area is necessary to assure efficient and effective operations of the Title III program.

As stated to you in my letter of September 16, based on the evidence submitted in the State Plan, the State did not appear to have met the test for designation as a single State planning and service area. Based upon facts presented in the State Plan, we concluded that the Plan proposed by Utah was more closely aligned with requirements for implementation of the Title III program by State and Area Agencies on Aging in designated planning and service areas rather than by a single State Agency administering a single State planning and service area.

The State Plan proposed that rather than continuing its area agencies on aging throughout the State, it would establish "projects." The Plan stated that whenever possible, a multi-county organization would be established as a "project" and would subcontract within that multi-county district for services. If a particular county does not wish to become a sub-contractor, it may apply directly to the State for separate "project" status, and if approved, receive grants directly from the State.

A comparison of the "project" scheme proposed in the Plan and the requirements under the Act and regulations relative to States with area agencies on aging revealed no substantial differences. The functions assigned to "projects" appear to be like those prescribed for area agencies. However, Title III requires that States divide themselves into planning and service areas and designate an area agency to be responsible for implementing the program within a discrete planning and service area. It does not contemplate the kind of administration of the Title III Program proposed in the State Plan for Fiscal Year 1976. Although the Plan does not refer to planning and service areas througout the State, it seemed clear nonetheless that this is the basis on which the State would administer the Title III Program. The Plan states that multi-county or county "projects" would develop an "area project plan on aging" for their respective areas, based on a finding of needs of older persons and determination of priorities, and then submit the plan for approval to the State Agency. After approving the plan, the State Agency would award all funds to these "projects" which would award the funds in turn to services programs. This proposed method of operating the Title III program under authority of a single State planning and service area appears to follow the methods prescribed for States with area agencies on aging. Thus the difference between the proposal and one which would provide for area agencies becomes illusory. There is difficulty, therefore, understanding why the proposed basic change in the Utah Plan is either desirable or necessary.

I refer you to my letter of September 16 for a more detailed discussion of these points. I also reviewed the Plan in light of the criteria set forth at 45 CFR 903.57(f)(2) on the question of whether the State is too small to be effectively divided. The Governor, by Executive Order, divided the State into seven multi-county planning districts. In Fiscal Year 1974 the State established 31 planning and service areas for purposes of the Title III program under its State Plan. In Fiscal Year 1975, the State again divided itself into planning and service areas. The State Plan for Fiscal Year 1976 state that the two multi-county planning and service areas have functioned effectively as a result of this division. The Plan states that Utah is too small for effective division because it compromises a land area of 82,096 square miles and ranks 36th in population density in the United States. We agree that these are important factors to consider in planning for the development of comprehensive and coordinated services for older persons. However, the State of Utah appears to have overcome this obstacle in light of the Governor's Executive Order and the past record of the State in operating the Title III program. These factors supported a conclusion that Utah is not too small to be effectively divided.

On the question of whether the size and distribution of the elderly population is such that division of the State would spread coordination and management resources too thinly to be effective, although Utah ranks 36th in the nation in the size of its population, the population distribution is such that the State has a large urban older population in Salt Lake County, a widely dispersed rural population separated by mountain and desert areas and two Indian reservations. These three groups, often separated from one another by physical barriers, represent widely divergent interests and needs. Further, the Plan indicated that Salt Lake County alone has a population of 59,864 persons over age sixty which encompasses 43 percent of the total population aged sixty or over in the State. We took note of the preference stated under Section 306(a)(1) of the Act for any unit of general purpose local government which has a population aged sixty or over of fifty thousand or more, or which contains fifteen percent or more of the State's population aged sixty or over. I did not find the evidence sufficiently persuasive to permit designation of the State as a single planning and service area in light of the concentration of population in Salt Lake City and County.

Relative to the question of whether the State Agency is capable of performing area agency functions, the Plan proposes to have the local "projects" perform many of the functions which would be performed by the State Agency under a single State planning and service area. As a result, I was unable to make a conclusive judgment on satisfaction of this criterion.

On the question of whether the State has been constituted as one area for other planning and social services administration purposes, the Plan indicated that the State has done so.

Respecting the question of whether State law forbids the division of the State into areas, or the administration of area plans by local agencies, the evidence presented indicates no such proscription.

Based upon the foregoing, I was unable to approve the designation of Utah as a single State planning and service area.

Until such time as the matter of the State Plan is resolved by the hearing, the operations of the Title III Program are governed by the provisions of the currently approved State Plan for Fiscal Year 1975. Administration of the Title VII Program will also continue under the only approved Plan extant.

Very sincerely and cordially yours,

ARTHUR S. FLEMMING,
Commissioner on Aging.

Any individual or group wishing to participate as a party shall file a petition with Ms. Marlene Morris, Hearings Assistant, Social Security Administration, Room 302 Denver Building, 352 Denver Street, Salt Lake City, Utah 84102, telephone 801–524–5315, within 15 days after the date of publication of this notice, and shall serve a copy on each party of record at that time. Such petition shall concisely state (1) the petitioner's interest in the proceeding; (2) who will appear for petitioner; (3) the issue on which petitioner wishes to participate; and (4) whether petitioner intends to present witnesses.

Individuals or groups may be recognized as parties, if the issues to be considered at the hearing are of direct interest to them and might result to their detriment under the governing Federal statute. The Commissioner shall promptly determine whether each petitioner has the requisite interest in the proceedings and shall permit or deny participation accordingly. Where petitions to participate as parties are made by individuals or groups with common interests, the Commissioner may request all such petitioners to designate a single representative, or he may recognize one or more of such petitioners to represent all such petitioners. The Commissioner shall give each petitioner written notice of the decision on his petition, and if the petition is denied; he shall briefly state the grounds for denial.

Further information on the hearing may be obtained from the Office of the Commissioner, Administration on Aging, Room 4030, Donohoe Building, 400 Sixth Street SW., Washington, D.C. 20201, telephone: 202–245–2205.

Dated: December 8, 1975.

ARTHUR S. FLEMMING,
Commissioner on Aging.

Food and Drug Administration

ADVISORY COMMITTEES

Meetings

This notice announces forthcoming meetings of the public advisory committees of the Food and Drug Administration. It also sets out a summary of the procedures governing the committee meetings and the methods by which interested persons may participate in the open public hearings conducted by the committees. The notice is issued under section 10(a)(1) and (2) of the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770–776 (5 U.S.C. App. I)). The following advisory committee meetings are announced:

Committee name	Date, time, and place	Type of meeting and contact person
1. Panel on Review of Hemorrhoidal Drug Products.	Jan. 3 and 4, 9 a.m., Holiday Inn, 5520 Wisconsin Ave., Chevy Chase, Md.	Open public hearing Jan. 3, 9 to 10 a.m.; closed committee deliberations Jan. 3, 10 a.m. to 4:30 p.m., Jan. 4, 9 a.m. to 4:30 p.m.; Thomas D. DeCillis (HFD-510), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

General function of the committee. Reviews and evaluates available data concerning safety and effectiveness of nonprescription drug products.

Agenda—Open public hearing. During this portion any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Closed committee deliberations. Continuing review and investigation of the ingredients included in over-the-counter (OTC) hemorrhoidal drug products. This portion of the meeting will be closed to protect the free exchange of internal views (5 U.S.C. 552(b)(5)).

Committee name	Date, time, and place	Type of meeting and contact person
2. Nuclear Pharmacy Subcommittee of Radiopharmaceutical Advisory Committee.	Jan. 5 and 6, 9 a.m. Conference Room B, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing Jan. 5, 9 to 10 a.m.; open committee discussion Jan. 5, 10 a.m. to 4:30 p.m., Jan. 6, 9 a.m. to 12 m.; closed committee deliberations Jan. 6, 12 m. to 1 p.m.; C. H. Maxwell, M.D. (HFD–150), 5600 Fishers Lane, Rockville, Md. 20852, 301–443–5197.

General function of the committee. Reviews and evaluates available data concerning safety and effectiveness of presently marketed and investigational prescription drugs for use in the practice of nuclear medicine.

Agenda—Open public hearing. During this portion any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Open committee discussion. Discussion of the guidelines for the regulation of central nuclear pharmacies. Interested parties may submit written statements for consideration by the committee if sent to C. H. Maxwell, M.D., Executive Secretary, by December 22, 1975.

Closed committee deliberations. Discussion of material reviewed in the open session. This portion of the meeting will be closed to permit discussion of trade secret data and to protect the free exchange of internal views and to avoid undue interference with agency or committee operations (5 U.S.C. 552(b)(4) and (5)).

Committee name	Date, time, and place	Type of meeting and contact person
3. Panel on Review of Blood and Blood Derivatives.	Jan. 9 and 10, 9 a.m. (Jan. 9), 8:30 a.m. (Jan. 10), Room 121, Building 29, National Institutes of Health, 8600 Rockville Pike, Bethesda, Md.	Open public hearing Jan. 9, 9 to 10 a.m.; open committee discussion Jan. 9, 10 a.m. to 12 m.; closed committee deliberations Jan. 9, 1 p.m. to adjournment; Jan. 10, 8:30 a.m. to adjournment; Clay Siek (HFB–6), 8800 Rockville Pike, Bethesda, Md. 20014, 301–496–4545.

V 40 243 DEC 17 75 XUM

General function of the committee. Reviews and evaluates available data concerning safety and effectiveness of biological products.

Agenda—Open public hearing. During this portion any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Open committee discussion. Discussion of blood bank products, container labeling and serologic testing for syphilis.

Closed committee deliberations. Discussion of licensed blood bank products and initial review of data submissions from producers of plasma fractional products. This portion of the meeting will be closed to permit discussion of trade secret data and to allow for the free exchange of internal views and formulation of recommendations (5 U.S.C. 552(b) (4) and (5)).

Committee name	Date, time, and place	Type of meeting and contact person
4. Panel on Review of Antimicrobial Drug Products.	Jan. 9, 10, and 11, 9 a.m., Conference Room A, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing Jan. 9, 9 to 10 a.m.; closed committee deliberations Jan. 9, 10 a.m. to 4:30 p.m., Jan. 10 and 11, 9 a.m. to 4:30 p.m.; Armond M. Welch (HFD-510), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

General function of the committee. Reviews and evaluates available data concerning safety and effectiveness of nonprescription drug products.

Agenda—Open public hearing. During this portion any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Closed committee deliberations. Continuing review and investigation of the ingredients included in over-the-counter (OTC) antimicrobial drug products. This portion of the meeting will be closed to protect the free exchange of internal views (5 U.S.C. 552(b) (5)).

Committee name	Date, time, and place	Type of meeting and contact person
5. Panel on Review of Miscellaneous Internal Drug Products.	Jan. 11 and 12, 9 a.m., Conference Room M, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Closed committee deliberations Jan. 11, 9 a.m. to 4:30 p.m., open public hearing Jan. 12, 9 to 10 a.m.; closed committee deliberations Jan. 12, 10 a.m. to 4:30 p.m.; Armond M. Welch (HFD-510), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

General function of the committee. Reviews and evaluates available data concerning safety and effectiveness of nonprescription drug products.

Agenda—Open public hearing. During this portion any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Closed committee deliberations. Continuing review and investigation of the ingredients included in over-the-counter (OTC) miscellaneous internal drug products. This portion of the meeting will be closed to protect the free exchange of internal views (5 U.S.C. 552(b) (5)).

Committee name	Date, time, and place	Type of meeting and contact person
6. Panel on Review of Cardiovascular Devices.	Jan. 12, 9:30 a.m., Room 4173, HEW North, 330 Independence Ave. SW., Washington, D.C.	Open public hearing 9:30 to 10:30 a.m.; closed committee deliberations 10:30 a.m. to 4 p.m.; Glenn A. Rahmoeller (HFK-400), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-2376.

General function of the committee. Reviews and evaluates available data concerning safety, effectiveness, and reliability of cardiovascular devices.

Agenda—Open public hearing. Discussion of subcommittee's activities and recommendations and to develop a list of priorities for those devices classified in the standards category and for those devices classified in the premarket approval category. During this portion any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Closed committee deliberations. Discussion of recommendations regarding the subcommittee's activities and standards and premarket approval priority lists. This portion of the meeting will be closed to protect the free exchange of internal views and to avoid undue interference with committee operations (5 U.S.C. 552(b) (5)).

Committee name	Date, time, and place	Type of meeting and contact person
7. Pulmonary Functions and Respiratory Diseases Subcommittee of the Panel on Review of Anesthesiology Devices.	Jan. 13, 9 a.m., Room 6321, FB-8, 200 C St. SW., Washington, D.C.	Open public hearing 9 to 10 a.m.; closed committee deliberations 10 a.m. to 5 p.m.; Franklyn K. Coombs (HFK-400), 5600 Fishers Lane, Rockville, Md. 20852 301-443-3550.

General function of the committee. Reviews and evaluates available data concerning safety and effectiveness of devices in the field of anesthesiology.

Agenda—Open public hearing. Robert S. Kennedy, Ph.D., the Classification Coordinator for the Division of Classification and Scientific Evaluation, will present an overview of classification for the new members of the subcommittee.

Closed committee deliberations. The subcommittee will continue to review the device list and correct, add, or delete devices in order to have a comprehensive list of their area of expertise. The subcommittee will then use the logic scheme to classify the following devices: clip nose; collector, specimen; heater, spirometer; valve, end tidal volume, carbon dioxide (rahn sampler); apparatus, cario-pulmonary testing, computerized; computer, predicted values; computer, pulmonary functions; cabinet plethysmograph (whole body); console, pulmonary function testing, mobile; device, diffusing capacity measuring; device, maximum breathing capacity; plethysmograph, volumetric; rhinonemometer; rhinorheometer; spirometer, dry, continuous indicating; spirometer, dry, single breath (electronic); spirometer, electromechanical; spirometer, incentive, manual; spirometer, incentive powered; spirometer, wet continuous indicating; spirometer, wet, single breath; system, pulmonary diagnostic; system, pulmonary diagnostic for measurement of residual air; analyzer, cardiac output; analyzer, gas, chromatograph, cardiopulmonary; analyzer, oxygen/carbon monoxide/total hemoglobin; collector, sample, respiratory gas Chromatograph; gas, calibration (not for human use); mass spectrometer, medical; pump, gas mixing; transducer, air service, differential; transducer, photoelectric transilluminating; transducer, reflectance; ergometer, bicycle; ergometer, bicycle, hyperbolic; ergometer, treadmill; oxygenator, membrane; catheter, nasal, oxygen; connector, tube, tracheostomy, swivel trach; trap, sterile specimen; tube, aspirating, flexible; tube, breathing, flexible; tube, connecting, oxygen; tube, rebreathing (adler); ventilator, cuirass; apparatus, regulating, two-stage inhalation therapy; attachment, positive pressure; brush, bronchial (tube); condenser, heat and moisture (artificial nose); controller, oxygen; controller, oxygen monitor; controller, volumetric ventilation; drain, tee; kit, aerosol, accessory unit; kit, drainage tubing; mask, midas, nonconductive; mask, oxygen; mask, oxygen, low concentration; mouthpiece, disposable; mouthpiece, nondisposable; set, connecting, oxygen therapy; set, intermittent positive pressure breathing (IPPB); tubing, aerosol; tubing, medical; tubing, oxygen supply; inhalator, nonpowered; inhalator, powered; tent, aerosol; tent, controlled environment; tent, oxygen, disposable; tent, oxygen, nondisposable; tent, oxygen, with or without refrigeration; unit, oxygen generating, portable; unit, portable, oxygen; aid, pulmonary-oxygen, hale; aid, respiratory; device, lung function; machine, percussor, powered—electric; respirator, face; tank respirator (iron lung); unit, respiration; unit, respiration, volume; bottles, blow; chair, posture, for cardiac and pulmonary treatment; device, intermittent positive pressure breathing (IPPB); device, oxygen therapy; flowmeter, air; flowmeter, oxygen therapy; system, oxygen walker (carry around); unit, pressure breathing, powered—electric; unit, pressure breathing, powered—pneumatic. This portion of the meeting is closed in order to protect the free exchange of internal views and to avoid undue interference with subcommittee operations (5 U.S.C. 552(b)(5)).

Committee name	Date, time, and place	Type of meeting and contact person
8. Cardiovascular and Renal Advisory Committee.	Jan. 13 and 14, 9 a.m., Conference Room E, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing Jan. 13, 9 to 10 a.m.; open committee discussion Jan. 13, 10 a.m. to 5 p.m., Jan. 14, 9 a.m. to 1 p.m.; closed committee deliberations Jan. 14, 1:30 to 3:30 p.m.; Joan C. Standaert (HFD-110), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4730.

General function of the committee. Reviews and evaluates available data concerning safety and effectiveness of presently marketed and investigational prescription drugs for use in cardiovascular and renal disorders.

Agenda—Open public hearing. During this portion any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Open committee discussion. Discussion of NDA 17-476 (Slow-K); guidelines for protocols for antihypertensive, antiarrhythmic and anti-aniginal drugs; and discussion of NDA 17-567 (Bretylium).

Closed committee deliberations. This portion of the meeting will be closed in order to protect the free exchange of internal views and for formulation of committee recommendations on agenda items (5 U.S.C. 552(b) (5)).

Committee name	Date, time, and place	Type of meeting and contact person
9. Panel on Review of Topical Analgesics.	Jan. 13 and 14, 9 a.m., Conference Room B, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing Jan. 13, 9 to 10 a.m.; closed committee deliberations Jan. 13, 10 a.m. to 4:30 p.m., Jan. 14, 9 a.m. to 4:30 p.m.; Lee Geismar (HFD-510), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

General function of the committee. Reviews and evaluates available data concerning safety and effectiveness of nonprescription drug products.

Agenda—Open public hearing. During this portion any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Closed committee deliberations. Continuing review and investigation of the ingredients included in over-the-counter (OTC) topical analgesic drug products. This portion of the meeting will be closed to protect the free exchange of internal views (5 U.S.C. 552(b) (5)).

Committee name	Date, time, and place	Type of meeting and contact person
10. Panel on Review of Vitamin, Mineral, and Hematinic Drug Products.	Jan. 12 and 14, 9 a.m., Sheraton O'Hare Motor Hotel, 6810 North Mannheim Rd., Rosemont, Ill.	Open public hearing Jan. 13, 9 to 10 a.m.; closed committee deliberations Jan. 13, 10 a.m. to 4:30 p.m., Jan. 14, 9 a.m. to 4:30 p.m.; Thomas D. DeCillis (HFD-510), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

General function of the committee. Reviews and evaluates available data concerning safety and effectiveness of nonprescription drug products.

Agenda—Open public hearing. During this portion any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Closed committee deliberations. Continuing review and investigation of the ingredients included in over-the-counter (OTC) vitamin, mineral, and hematinic drug products. This portion of the meeting will be closed to protect the free exchange of internal views (5 U.S.C. 552(b) (5)).

Committee name	Date, time, and place	Type of meeting and contact person
11. Panel on Review of Allergenic Extracts.	Jan. 16 and 17, 9 a.m., Room 121, Building 29, National Institute of Health, 8800 Rockville Pike, Bethesda, Md.	Closed committee deliberations Jan. 16, 9 a.m. to 12 m.; open public hearing Jan. 16, 1 to 2 p.m.; open committee discussion Jan. 16, 2 to 3 p.m.; closed committee deliberations Jan. 16, 3 p.m. to adjournment, Jan. 17, 9 a.m. to adjournment; Clay Sisk (HFB-6), 8800 Rockville Pike, Bethesda, Md. 20014, 301-496-4545.

V 40 N 243 DEC 17 75 XUM

General function of the committee. Reviews and evaluates available data concerning safety and effectiveness of biological products.

Agenda—Open public hearing. During this portion any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Open committee discussion. Discussion of allergenic extracts of limited use; manufacturing practices for pollen extracts; aluminum adjuvants; and mycotoxin control.

Closed committee deliberations. Review of data submitted from allergenic extract producers for: (1) Dust extracts, (2) epidermal extracts, (3) tree pollen extracts, and (4) food extracts. This portion of the meeting will be closed to permit discussion of trade secret data and to allow for the free exchange of internal views and formulation of recommendations (5 U.S.C. 552(b) (4) and (5)).

Committee name	Date, time, and place	Type of meeting and contact person
12. Panel on Review of Miscellaneous External Drug Products.	Jan. 18 and 19, 10 a.m. (Jan. 18), 9 a.m. (Jan. 19), Conference Room A, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Closed committee deliberations Jan. 18, 10 a.m. to 4:30 p.m.; open public hearing Jan. 19, 9 to 10 a.m.; closed committee deliberations Jan. 19, 10 a.m. to 4:30 p.m.; Thomas D. DeCillis (HFD-510), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

General function of the committee. Reviews and evaluates available data concerning safety and effectiveness of nonprescription drug products.

Agenda—Open public hearing. During this portion any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Closed committee deliberations. Continuing review and investigation of the ingredients included in over-the-counter (OTC) miscellaneous external drug products. This portion of the meeting will be closed to protect the free exchange of internal views (5 U.S.C. 552(b)(5)).

Committee name	Date, time, and place	Type of meeting and contact person
13. Microbiology Subcommittee of the Diagnostic Products Advisory Committee.	Jan. 19 and 20, 9 a.m., Room 5109, HEW North, 330 Independence Ave. SW., Washington, D.C.	Closed committee deliberations Jan. 19, 9 a.m. to 5 p.m.; open public hearing Jan. 20, 9 to 10 a.m.; closed committee diliberations Jan. 20, 10 a.m. to 5 p.m.; Bobbi Dresser (HFK-200), 5600 Fishers Lane, Rockville Md. 20852, 301-443-4045.

General function of the committee. Reviews and evaluates information pertaining to performance standards for selected diagnostic products, evaluates and recommends appropriate reference methodologies and standards of precision and accuracy for measuring such products, and recommends priorities on presently marketed products for standard setting by the Food and Drug Administration.

Agenda—Open public hearing. Interested parties are encouraged to present information pertinent to the classification of products listed in this announcement to Tom Tsakeris, Classification Head (HFK-400), 5600 Fishers Lane, Rockville, Md. 20852. Submission of data relative to tentative classification findings is also invited. Inquiries or information pertaining to other portions of the agenda should be addressed to Bobbi Dresser, Executive Secretary.

Closed committee deliberations. The Subcommittee will be discussing the development of regulatory standards for: (1) Nontreponemal Tests for Syphilis, (2) Anti-Rubella Antibody Tests, (3) Fluorescent Antibody Tests for Rabies. The Microbiology Subcommittee will consider for classification all products intrinsic to the identification of the following pathogens: *Bacteriology*—Diphtheroid bacilli, Actinobacillus mallei and sp., Salmonella sp., Citrobacter sp., Arizona sp., Shigella sp., Klebsiella sp., Enterobacter sp., Serratia sp., Esherichia coli, Proteus sp., Edwardsiella sp., Providencia sp., Acinetobacter calcoaceticus, Eikenella corrodens, Alcaligenes sp., Achromobacter sp., Flaviobacterium sp., Pseudomonas sp., Comamonas terrigena, Aeromonas sp., Vibrio cholerae and related sp., Campylobacter (vibrio) fetus, Brucella sp., Francisella turlarensis, Yersinia sp., Pasteurella sp., Bacillus anthracis, Bacillus sp., Listeria monocytogenes, Erysipelothrix rhusiopathiae, Streptobacillus moniliformis, Spirillum minor, Mycoplasma sp., Treponema pallidum, Borrelia sp., Leptospira sp., Mycobacterium leprae, Mycobacterium tuberculosis and other sp., Nocardia and related sp., Clostridium sp., Anaerobic cocci, Anaerobic gram-negative bacilli, Anaerobic nonspore-forming gram-positive bacilli. *Mycology*—Cryptococcus neoformans, Candida albicans and related sp., Blastomyces determatitidis, Paracoccidioidides brasiliensis, Coccidioides immitis, Histoplasma capsulatum, Phycomycosis group, Cladosporium bantianum and related sp., Sporotrichum schenkii, Chromoblastomycosis group, Madduromycosis group, Rhinosporidium seeberi, Dermatophyte group, Aspergillus sp., Mycotic keratitis group, Piedra group, Malassezia furfur. *Parasitology*—Entamoeba histolytica, Ballantidum coli, Giardia lamblia, Chilomastix mesnili, Trichomonas vaginalis, Toxoplasma gondii, Enterobius vermicularis, Trichuris trichuria, Ascaris lumbaricoides, Hookworm group, Strongyloides stercoralis, Trichinella spiralis, Wucheria bancrofti, Brugia malayi, Onchocerca volvulus, Loa loa, Dracunculus medinensis, Taenia sp., Hymenolepis sp., Diphyllobothrium lathum, Echinococcus sp., Schistosoma hematobium and related sp., Paragonimus westermani, Trypanosoma sp., Leishmania sp., Plasmodium sp., Toxoplasmosa gondii, Tasciola sp., intestinal flukes, Pneumocystis carinii.

Virology—Variola, Vaccinia, Herpesvirus hominis, Varicella-zoster, Cytomegalovirus, Epstein-Barr virus, Adenoviruses (31 serotypes), Polioviruses, Coxsackie, Echoviruses, Rhinoviruses, Japanese B Encephalitis, St. Louis Encephalitis, Influenza, Parainfluenza, Mumps, Rubeola, Respiratory Syncytical virus, Rabies, Marburg Agent, Lymphocytic choriomeningitis, Tacaribe Complex, Reovirus, Coronaviruses, Hepatitis Viruses A and B, Rubella, Chlamydiae, and Rickettsiae. These products may includes culture media, biochemical identifications, tissue culture, special stains, antisera (including precipitins, agglutinins and fluorescent antibody) and ingredients of special preparations. This meeting will be closed to allow committee members to discuss freely the development of regulatory standards and product classifications and to afford the members an opportunity to discuss specific product hazards which could become regulatory matters (5 U.S.C. 552(b)(5)).

Committee name	Date, time, and place	Type of meeting and contact person
14. Disposable Accessories for Respiratory Therapy Subcommittee and Humidifiers Subcommittee of the Panel on Review of Anesthesiology Devices.	Jan. 21, 9 a.m., Room 1409, FB-8, 200 C St. SW., Washington, D.C.	Open public hearing 9 a.m. to 12 m.; open committee discussion 1 to 5 p.m.; Franklyn K. Coombs (HFK-400), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-3550.

General function of the committee. Reviews and evaluates available data concerning safety, effectiveness, and reliability of anesthesiology devices.

Agenda—Open public hearing. The joint meeting of these subcommittees will have several guest speakers discuss problems common to these devices. The goal of these subcommittees is to identify problem areas, determine the severity of the problem, and indicate what criteria proposed standards should have in order to alleviate the indicated problems.

Open committee discussion. The subcommittee will list the known or reported problem areas, and indicate what criteria they feel would be needed in proposing standards for these devices.

Committee name	Date, time, and place	Type of meeting and contact person
15. Biologic Effects of Ultrasound Subcommittee of the Panel on Review of Obstetrical and Gynecological Devices.	Jan. 22 and 23, 9 a.m., Room 6N26, Denver General Hospital, West 6th Cherokee St., Denver, Colo.	Open public hearing Jan. 22, 9 to 10 a.m.; open committee discussion Jan. 22, 10 a.m. to 2 p.m.; closed committee deliberations Jan. 22, 2 to 4 p.m.; open committee discussion Jan. 23, 9 a.m. to 1 p.m.; closed committee deliberation Jan. 23, 1 to 3 p.m.; Lillian Yin, Ph. D. (HFK-400), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-3550.

General function of the committee. Reviews and evaluates available data concerning safety, effectiveness, and reliability of obstetrical and gynecological devices.

Agenda—Open public hearing. Interested parties are encouraged to present information pertinent to standards development for obstetrical/gynecological ultrasonic diagnostic devices. Those desiring to make formal presentations should notify Lillian Yin, Ph.D., Executive Secretary, in writing by January 19, 1976. Submission of written data is also invited.

Open committee discussion. The panel will review the pertinent journal articles and presentations of fetal biologic effects of ultrasound and determine whether there are sufficient data available for standards development of obstetrical/gynecological diagnostic ultrasonic devices.

Closed committee deliberations. The subcommittee will draft a report to support the committee's recommendation of the classification of the obstetrical/gynecological diagnostic ultrasonic devices to the Panel on Review of Obstetrical and Gynecological Devices. This portion of the meeting will be closed in order to protect the free exchange of internal views and to avoid undue interference with committee operations (5 U.S.C. 552(b)(5)).

Committee name	Date, time, and place	Type of meeting and contact person
16. Panel on Review of Antiperspirant Drug Products.	Jan. 23 and 23, 9 a.m., Conference Room K, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing Jan. 22, 9 to 10 a.m.; closed committee deliberations Jan. 22, 10 a.m. to 4:30 p.m. Jan. 23, 9 a.m. to 4:30 p.m.; Lee Geismar (HFD-510), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4090.

General function of the committee. Reviews and evaluates available data concerning safety and effectiveness of nonprescription drug products.

Agenda—Open public hearing. During this portion any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Closed committee deliberations. Continuing review and investigation of the ingredients included in over-the-counter (OTC) antiperspirant drug products. This portion of the meeting will be closed to protect the free exchange of internal views (5 U.S.C. 552(b)(5)).

V 40 I 243 DEC 17 75 XUM

Committee name	Date, time, and place	Type of meeting and contact person
17. Implants Subcommittee of the Panel on Review of Cardiovascular devices.	Jan. 23, 9:30 a.m., Room 4173, HEW North, 330 Independence Ave. SW., Washington, D.C.	Open public hearing 9:30 to 10:30 a.m.; closed committee deliberations 10:30 a.m. to 4 p.m.; Glenn A. Rahmoeller (HFK-400), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-2375.

General function of the committee. Reviews and evaluates available data concerning safety, effectiveness, and reliability of cardiovascular devices.

Agenda—Open public hearing. The purpose of this meeting is to discuss and develop a product development protocol guideline for prosthetic heart valves. During this portion of the meeting any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Closed committee deliberations. Discussion of the guidelines for the panel. This portion of the meeting will be closed to protect the free exchange of internal views and for the formulation of recommendations and to avoid undue interference with agency or panel operations (5 U.S.C. 552(b)(5)).

Committee name	Date, time, and place	Type of meeting and contact person
18. Panel on Review of Dentifrices and Dental Care Agents.	Jan. 23 and 24, 9 a.m., Conference Room M, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing Jan. 23, 9 to 10 a.m.; closed committee deliberations Jan. 23, 10 a.m. to 4:30 p.m., Jan. 24, 9 a.m. to 4:30 p.m.; Michael Kennedy (HFD-510), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

General function of the committee. Reviews and evaluates available data concerning safety and effectiveness of nonprescription drug products.

Agenda—Open public hearing. During this portion any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Closed committee deliberations. Continuing review and investigation of the ingredients included in over-the-counter (OTC) dentifrices and dental care agents. This portion of the meeting will be closed to protect the free exchange of internal views (5 U.S.C. 552(b)(5)).

Committee name	Date, time, and place	Type of meeting and contact person
19. Dental Drug Products Advisory Committee.	Jan. 27, 9 a.m., Conference Room G, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing 9 to 10 a.m.; open committee discussion 10 a.m. to 4 p.m.; Clarence C. Gilkes, D.D.S. (HFD-160), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-3560.

General function of the committee. Reviews and evaluates available data concerning safety and effectiveness of presently marketed and investigational prescription drug products proposed for use in the practice of dentistry.

Agenda—Open public hearing. During this portion any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Open committee discussion. Discussion of guidelines for clinical studies regarding gingivitis and caries.

Each public advisory committee meeting listed above may have as many as four separable portions: (1) An open public hearing, (2) an open committee discussion, (3) a closed presentation of data, and (4) a closed committee deliberation. Every advisory committee meeting shall have an open public hearing. Whether or not it also includes any of the other three portions will depend upon the specific meeting involved. The dates and times reserved for the separate portions of each committee meeting are listed above.

The open public hearing portion of each meeting shall be at least 1 hour long unless public participation does not last that long. It is emphasized, however, that the 1 hour time limit for an open public hearing represents a minimum rather than a maximum time for public participation, and an open public hearing may last for whatever longer period the committee chairman determines will facilitate the committee's work.

Meetings of advisory committees shall be conducted, insofar as is practical, in accordance with the agenda published in this FEDERAL REGISTER notice. Changes in the agenda will be announced at the beginning of the open portion of a meeting.

Any interested person who wishes to be assured of the right to make an oral presentation at the open public hearing portion of a meeting shall inform the contact person listed above, either orally or in writing, prior to the meeting. Any person attending the hearing who does not in advance of the meeting request an opportunity to speak will be allowed to make an oral presentation at the hearing's conclusion, if time permits, at the chairman's discretion.

Persons interested in specific agenda items to be discussed in open session may ascertain from the contact person the approximate time of discussion.

The Commissioner, with the concurrence of the Chief Counsel, has determined for the reasons stated that those portions of the advisory committee meetings so designated in this notice shall be closed. Both the Federal Advisory Committee Act and 5 U.S.C. 552(b) permit such closed advisory committee meetings in certain circumstances. Those portions of a meeting designated as closed shall, however, be closed for the shortest time possible consistent with the intent of the cited statutes.

Generally, FDA advisory committees will be closed because the subject matter is exempt from public disclosure under 5 U.S.S. 552(b) (4), (5), (6), or (7), although on occasion the other exemptions listed in 5 U.S.C. 552(b) may also apply. Thus, a portion of a meeting may be closed where the matter involves a trade secret; commercial or financial information that is privileged or confidential; personnel, medical, and similar files, disclosure of which could be an unwarranted invasion of personal privacy; and investigatory files compiled for law enforcement purposes. A portion of a meeting may also be closed if the Commissioner determines: (1) That it involves inter-agency or intra-agency memoranda or discussion and deliberations of matters that, if in writing would constitute such memoranda, and which would, therefore, be exempt from public disclosure; and (2) that it is essential to close such portion of a meeting to protect the free exchange of internal views and to avoid undue interference with agency or committee operations.

Examples of matters to be considered at closed portions are those related to the review, discussion, evaluation or ranking of grant applications; the review, discussion, and evaluation of specific drugs or devices; the deliberation and voting relative to the formation of specific regulatory recommendations (general discussion, however, will generally be done during the open committee discussion portion of the meeting); review of trade secrets or confidential data; consideration of matters involving FDA investigatory files; and review of medical records of individuals.

Examples of matters that ordinarily will be considered at open meetings are those related to the review, discussion, and evaluation of general preclinical and clinical test protocols and procedures for a class of drugs or devices, consideration of labeling requirements for a class of marketed drugs and devices, review of data and information on specific investigational or marketed drugs and devices that have previously been made public, and presentation of any other data or information that is not exempt from public disclosure.

Dated: December 11, 1975.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[Docket No. 75F-0289]

ALTA LIPIDS LTD.

Filing of Petition for Food Additive

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409 (b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that petitions FAP MF 3631, 3638 have been filed by Alta Lipids Ltd., P.O. Box 1187, Boise, ID 83701, proposing issuance of a food additive regulation to 21 CFR Part 121 to provide for safe use of formaldehyde-treated animal fat and protein constituents of ruminant feed supplements to increase the consumption rate of animal fat, and for improvement of the handling characteristics of animal fats, respectively.

The environmental impact analysis report and other relevant material have been reviewed, and it has been determined that the proposed use of the additive will not have a significant environmental impact. Copies of the environmental impact analysis report may be seen in the office of the Assistant Commissioner for Public Affairs, Rm. 15B-42 or the office of the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, during working hours, Monday through Friday.

Dated: December 10, 1975.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

[Docket No. 75G-0336]

SAFETY OF CERTAIN FOOD INGREDIENTS

Request for Submission of Additional GRAS Affirmation Petitions for Modified Whey Products

The Commissioner of Food and Drugs is requesting submission of generally recognized as safe (GRAS) affirmation petitions for modified whey products. The petitions will be used to establish safe conditions of use for modified whey products and to assist in the adoption of common or usual names for such products as made by various processes. Petitions are to be submitted by February 17, 1976.

In the FEDERAL REGISTER of March 7, 1973 (38 FR 6215), notice was given that a petition (GRASP 3G0011) had been filed by Foremost-McKesson, Inc., Crocker Plaza, One Post St., San Francisco, CA 94104, and placed on public display at the office of the Hearing Clerk, Food and Drug Administration, proposing affirmation that whey fractions consisting of demineralized whey, delactosed whey, and demineralized-delactosed whey are generally recognized as safe (GRAS) for use in food.

To accomplish the various modifications of whey, Foremost-McKesson, Inc., utilized electrodialyses to remove mineral salts, and crystallization to remove the lactose. Mineral salts removal ranged from 25 to 90 percent of those salts present in the liquid whey, and corresponding lactose removal from 25 to 75 percent. The descriptive names used by the petitioner to identify the modified whey products were "demineralized whey" when 90 percent of the minerals were removed and "delactosed whey" when 75 percent of the lactose was removed. The term "demineralized-delactosed whey" was used to identify the product when 90 percent of the minerals and 75 percent of the lactose were removed. Any removal of salts or lactose at less than the maximum percentages quoted above resulted in the addition of the prefix "partially" to the name of the modified product.

The Commissioner is aware that modified whey products are produced by other companies using processes that differ from the process used by Foremost-McKesson. Use of different processes may result in modified whey products that differ in comopsition from those made by Foremost-McKesson. For such substances, the description of the composition and the names proposed by Foremost-McKesson for their modified whey products may not be applicable. Thus, affirmation of the GRAS status of modified whey products based only on the Foremost-McKesson petition might result in the establishment of specifications and names for modified whey products that would not be applicable to modified whey products made by other processes.

As a result, the Commissioner is of the opinion that all processes for making modified whey products should be considered at the same time, so that a class determination can be made whether affirmation of GRAS status or a food additive regulation is appropriate. In any ensuing regulation, it is anticipated that all manufacturing processes would be disclosed in detail, the product(s) would be identified as to composition, and the descriptive nomenclature would be applicable to all types of modified whey products. Specifically, compositional data of the product(s) should include the percentage of the protein, lactose, mineral salts, fats, etc., of both the starter and the modified wheys. In addition, heavy metals concentrations (ppm) and orotic acid content (wgt/wgt) of the modified wheys, and the analytical methods used are required for the determination of safety and establishment of specifications. Product nomenclature should be provided for consideration by the Commissioner in establishing common and usual names for these products.

To implement these actions, the Commissioner hereby solicits the submission of petitions for affirmation of GRAS status of modified wheys from all companies making such products, in accordance with the provisions outlined in 21 CFR 121.40. The petition submitted by Foremost-McKesson, Inc., can be examined at the office of the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, for use as a model for submission of petitions.

GRAS affirmation petitions submitted in response to this notice should be sent to the GRAS Review Branch, HFF-335, Division of Food and Color Additives, Bureau of Foods, Food and Drug Administration, 200 C St. SW., Washington, D.C. 20204, in quadruplicate, by February 17, 1976.

Dated: December 10, 1975.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

[FR Doc.75-33906 Filed 12-16-75;8:45 am]

Office of Education

STATE POSTSECONDARY EDUCATION COMMISSIONS

Closing Date for Receipt of Information Concerning Establishment

In order for a State to receive funds appropriated during fiscal year 1976 to support comprehensive statewide planning for postsecondary education as authorized under section 1203 of the Higher Education Act of 1965 (20 U.S.C. 1142b), it must have established a State Postsecondary Education Commission which, as required by section 1202(a) of that Act, is "broadly and equitably representative of the general public and public and private nonprofit and proprietary institutions of postsecondary education in the State, including community colleges, junior colleges, postsecondary vocational schools, area vocational schools, technical institutes, four year institutions of higher education and branches thereof." States which have not previously submitted information concerning establishment of such a State Commission and which wish to receive such planning funds must submit the following information to the U.S. Commissioner of Education by January 16, 1976:

(1) An indication of which of the following three options for establishing a section 1202 State Commission the State has chosen to follow: (i) Creation of a new Commission, (ii) designation of an existing State agency or State Commission, or (iii) expanding, augmenting or reconstituting the membership of an existing State agency or State Commission.

(2) An indication whether any of the following State-administered program authorities contained in the Higher Education Act of 1965 have been assigned to the Section 1202 State Commission:

(i) Community Services and Continuing Education (HEA Section 105);

(ii) Equipment for Undergraduate Instruction (HEA Section 603); and (iii) Grants for Construction of Undergraduate Academic Facilities (HEA Section 704).

(3) The official name, address and telephone number of the State Commission.

(4) The names, mailing addresses and terms of office of the members of the State Commission.

V 40 243 DEC 17 75 XUM

(5) The name, title, mailing address and telephone number of the principal staff officer of the State Commission.

(6) A letter, signed by the Governor, explaining how the membership of the State Commission meets the "broadly and equitably representative" requirements of Section 1202(a) and what provisions have been made to ensure continuing compliance with these requirements of the law.

The above information may be sent by mail or hand-delivered.

(a) *Information sent by mail.* Information sent by mail should be addressed to the U.S. Commissioner of Education, 400 Maryland Avenue SW., Washington, D.C. 20202. Such information will be considered to be received on time if:

(1) The information was sent by registered or critified mail not later than January 12, 1976, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The information is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. (In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.)

(b) *Information delivered by hand.* Information to be delivered by hand must be taken to Room 4181, 400 Maryland Avenue SW., Washington, D.C. Hand-delivered information will be accepted daily between the hours of 8:00 a.m. and 4:00 p.m. Washington, D.C. time, except Saturdays, Sundays, and Federal holidays. Information will not be accepted after 4:00 p.m. on the closing date.

(20 U.S.C. 1142b)

Dated: December 11, 1975.

TEACHER CORPS PROJECTS

Notice of Proposed Criteria for Selection of Applications

Pursuant to the authority contained in Part B-1 of the Education Professions Development Act of 1965, as amended (79 Stat. 1255–1258 as amended, 20 U.S.C. 1101–1107a), notice is hereby given that the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to issue the criteria set forth below as the basis on which applications submitted for Teacher Corps projects for Fiscal Year 1976 will be judged.

Because of the recent amendments to the Teacher Corps legislation made by Sec. 835 of the Education Amendments of 1974, Pub. L. 93–380, projects are now authorized which, in addition to providing support for broadening programs of teacher preparation, also provide support for demonstration projects for retraining of experienced teachers and teacher aides, so as to strengthen the educational opportunities available to children in school attendance areas having concentrations of low-income families. Assistance under this program will be subject to Part 100a of Title 45 of the Code of Federal Regulations.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed criteria to the Teacher Corps, U.S. Office of Education, 400 Maryland Avenue, SW., Washington, D.C. 20202. Comments received in response to this notice will be available for public inspection Mondays through Fridays between 8:30 a.m. and 4:30 p.m. at the Teacher Corps office, Room 4031 of Federal Office Building Number Six, 400 Maryland Avenue, SW., Washington, D.C.

All comments, suggestions, or objections to be considered must be received not later than January 16, 1976.

(Catalog of Federal Domestic Assistance Program No. 13.489 Teacher Corps—Operations and Training)

Dated: November 10, 1975.

T. H. BELL,
U.S. Commissioner of Education.

Approved: December 12, 1975.

DAVID MATHEWS,
Secretary of Health, Education, and Welfare.

I. CRITERIA FOR THE SELECTION OF TEACHER CORPS PROJECT APPLICATIONS

In addition to the criteria set forth in 45 CFR 100a.26(b), the following criteria will also be used as a basis for approving applications for Teacher Corps projects and in determining the amount of the award under approved applications:

(A) *Instructions Program.* The extent to which the proposed instructional program provides:

(i) Training options designed to enable Teacher Corps interns, teacher aides, and experienced teachers to provide individualized classroom instruction;

(ii) Adequate means for evaluating their competencies; and

(iii) Training to prepare these persons to serve in schools in areas having concentrations of low income families.

These low income areas are determined in accordance with Section 103 of Title I of the Elementary and Secondary Act of 1965, as amended. The training will relate to such matters as identifying children with learning and behavioral problems, diagnosing their special needs, and prescribing learning activities to meet those needs.

(20 U.S.C. 1101, 1103)

(B) *Community Based Education.* The extent to which the application sets forth opportunities for involvement of parents of childen to be served by the proposed project in decision-making, planning, development, implementation, and evaluation of the project. There must be evidence that this participation has occurred during the development of the application and that provision is made for developing the capabilities of parents, residents in the community, and secondary education and college students to serve as part-time tutors or full-time instructional assistants in the project (including, where appropriate, provision for university courses). There must be procedures for adequate dissemination of program plans and evaluation to parents and the public.

(20 U.S.C. 1101, 1103, 1231d)

(C) *Institutional Adoption.* The extent to which the project is designed so that the successful elements of the project can be incorporated into the overall instructional program of the applicant institution or agency.

(20 U.S.C. 1101, 1103)

(D) *Needs Analysis.* Whether the retraining of experienced teachers and teacher aides, and the training of teacher interns, will be based on an analysis of the learning needs of children from low income families.

(20 U.S.C. 1101, 1103)

(E) *Multi-Cultural Consideration.* The extent to which the application supports activities that are responsive to the diverse cultures represented by the proposed project's target populaitons, and relates to the needs of the communities and students to be served by the Teacher Corps project. In applications for projects in areas where the target population is predominantly from one culture, there must be an indication of the extent to which the project will increase the children's knowledge of their own culture and other cultures as well.

(20 U.S.C. 1101, 1103)

(F) *Diagnostic-Prescriptive Teaching.* The extent to which the application contains provisions for training in

(i) Skills needed to identify special learning problems;

(ii) Skills needed to diagnose particular learning needs; and

(iii) Skills needed to prescribe programs to meet these learning problems and needs.

The application must show how these skills can be applied to all children to be served by the project, and to improve the educational opportunities in the regular classroom for children with learning and behavioral problems. This must be an integral part of the program design for all projects.

(20 U.S.C. 1101, 1103)

(G) *School-Staff Focus.* The extent to which the proposed retraining of experienced teachers and teacher aides will be available to the entire educational staff of each school receiving a Teacher Corps intern team.

(20 U.S.C. 1101, 1103)

(H) *Field Based Instruction.* The extent to which appropriate aspects of the instruction for experienced teachers and teacher aides, teacher interns, or community volunteers, will be carried out in the school served by the project and the local community rather than at the participating college or university.

(20 U.S.C. 1101, 1103)

(I) *Collaborative Decision-Making.* The extent to which the application indicates that a school-community council for each participating school exists or will be developed to respond to the needs and wishes of those directly involved with the project (such as Teacher Corps members, staff, trainees, school administrators, and members of the community) and to those less directly involved (such as teacher unions, State Educational Agencies and other organizations which may influence or be affected by the project).

(20 U.S.C. 1101, 1103)

(J) *Intern Teams.* The extent to which the application sets forth a team organization which will be able to operate effectively in carrying out the purposes of the project. An intern team (except as otherwise determined by the Commissioner) consists of 4 interns led by an experienced teacher who is the team leader. There is one team for each Teacher Corps project.

(20 U.S.C. 1103)

(K) *Local Needs.* The extent to which the project has special characteristics which take account of local conditions (such as population density, housing patterns, etc.).

(20 U.S.C. 1101, 1103)

(L) *Equitable Geographical Distribution.* The extent to which approval of the project would further the equitable geographical distribution of projects, including proportional representation among urban and rural areas.

(20 U.S.C. 1101, 1103)

(M) *Management and Evaluation Plans.* The extent to which plans for program organization, management, and evaluation are set forth. Data collection procedures must be described based on program goals, performance criteria, and regular program review.

(20 U.S.C. 1101, 1103)

II. DEMONSTRATION REQUIREMENTS

Collectively, Teacher Corps projects should represent a coherent effort to demonstrate to all local educational agencies and communities the potential for training and retraining approaches. Therefore, each application for a Teacher Corps project must combine:

(i) The meeting of local educational needs and concerns, with

(ii) A demonstration project for the training of teacher interns and the retraining of experienced teachers and teacher aides that could have wider applicability than the local project.

To achieve this coherence and broader impact, the demonstration project must adopt one of the following broadly defined strategies:

(A) *The Training Complex.* This strategy is designed to provide training and retraining of educational personnel at a site located within or near the schools, and where a school program for children is to be conducted. The institution of higher education and the local educational agency establish the training complex where teacher interns and experienced teachers and teacher aides are to be trained and retrained. This is intended to become a permanent structure for training and retraining educational personnel for the local educational agency. Applications may show wide diversity in the features of a training complex, but they must describe plans for the direct involvement of training personnel from the institution of higher education at the training complex with school officials and the trainees, and a wide use of community and local educational agency resources for the development and delivery of both training and retraining.

(20 U.S.C. 1101, 1103)

(B) *Competency-Based Teacher Education.* This strategy specifies in advance what effective teachers should be able to do when the training is completed. It then measures their achievements by observing their work with children in a school. The training for experienced teachers, teacher interns, teacher aides, and community volunteers is delivered through sequential modules based on increasing their levels of competencies. Applications must describe how the proposed project will:

(i) Objectively define the needed competencies based on analysis of training and retraining needs;

(ii) Develop systematic management processes so that persons in training or retraining can evaluate their own learning needs and achievements;

(iii) Provide alternative modes of instruction to help trainees achieve the needed competencies relating to the improvement of educating students; and

(iv) Direct the use of university and other program resources towards meeting the needs of teacher interns, experienced teachers, teacher aides, and community volunteers within the local educational agencies served by the project.

(20 U.S.C. 1101, 1103)

(C) *Training for Implementing Alternative School Designs.* In local educational agencies where alternative school designs are planned, this strategy may be chosen to demonstrate, through a Teacher Corps project, a program of training teacher interns and retraining experienced teachers and teacher aides for implementing such an innovation. Applications must:

(i) Contain assurances that the local educational agency is already committed to an alternative design and that the institution of higher eduaction involved in the Teacher Corps project will be able to demonstrate appropriate training and retraining activities;

(ii) Limit Teacher Corps resources to training and retraining, and provide evidence that locally controlled resources are committed to supporting other aspects of the project; and

(iii) Demonstrate a viable alternative strategy for improving the education of low income children by improving both the skills of educational personnel and the conditions under which education takes place.

(20 U.S.C. 1101, 1103)

(D) *Interdisciplinary Training Approaches.* This strategy should be chosen by those applicants who wish to demonstrate a training program for teacher interns and the retraining of experienced teachers and teacher aides that involves the participation in teacher education of representatives from various academic disciplines (such as the liberal and fine arts, physical and natural sciences, social sciences, and humanities). The approach selected must be aimed at increasing the educational opportunities of low income children by enriching and reorganizing the base of knowledge and experience for planning and managing learning activities. Applications must emphasize that there has been collaborative planning by representatives of diverse disciplines and that the proposed training and retraining is responsive to the cultural and community values of the families of the children to be served. Applications must also emphasize how and to what extent interrelationships among educational agencies and institutions (such as universities and local educational agencies) and other community institutions are to be improved by their choice of this strategy.

(20 U.S.C. 1101, 1103)

(E) *Training for the Systematic Adaption of Research Findings.* There is presently available, in immediately usable form, a substantial body of research results which has proven effective and is relevant to learning and educational processes for schools serving low income populations. This research represents a vast potential resource which, as yet, has not been organized into systemic or overall program demonstrations. These research findings can be incorporated into the design of Teacher Corps programs for the training of teacher interns and the retraining of experienced teachers and teacher aides by identifying training objectives, selecting approaches to training and evaluation, creating instructional materials and activities or adapting existing materials to new situations. Applications selecting this strategy must:

(i) Identity and describe the validated research findings that will be incorporated into a demonstration program of teacher intern training and the retraining of experienced teachers and teacher aides, and show the relationship of these research findings to the educational problems addressed by the application;

(ii) Indicate a plan for the systematic application of these findings to activities of practicing educational personnel; and

(iii) Show how the proposed program, based on these findings, will have applicability to other local educational agencies, and to educational groups, as a demonstration project.

V40243 DEC 17 75 XUM

Office of Human Development

REHABILITATION SERVICES ADMINISTRATION

Priorities and Closing Date for Receipt of Applications Regarding Short-Term Training in Vocational Rehabilitation

Notice is hereby given that pursuant to the authority contained in section 203 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 763), grants may be made to State vocational rehabilitation agencies and other public or nonprofit agencies and organizations, including institutions of higher education, to assist in increasing the numbers of personnel trained in providing vocational rehabilitation services to handicapped individuals and in performing other functions necessary to the development of such services.

Applications for training of national scope must be received by the Division of Grants and Contract Management, Office of Human Development, Room 1427, 330 C Street, S.W., Washington, D.C. 20201 by March 5, 1976.

Applications for training of Regional significance must be submitted to the appropriate Regional Office of the Rehabilitation Services Administration by March 5, 1976.

Regulations governing rehabilitation short-term training were published in the FEDERAL REGISTER in Subpart A and Subpart E of Part 1362 of Chapter XIII of Title 45 of the Code of Federal Regulations (45 CFR Part 1362), on November 25, 1975.

A. *Purpose.* Short-term training grants in vocational rehabilitation are made for the purpose of paying part of the costs of projects designed for improving the professional practice skills of vocational rehabilitation workers serving the physically and mentally disabled, especially those who are severely disabled.

B. *Eligible applicants.* Applications may be submitted by State vocational rehabilitation agencies and other public or nonprofit agencies or organizations, including institutions of higher education.

C. *Available funds.* An estimated $1.75 million is available for rehabilitation short-term training in FY 1976.

D. *Purpose of short-term training of national scope and program priorities.* 1. Short-term training of national scope, appropriate for the submittal of applications to the Central Office of the Rehabilitation Service Administration in Washington, D.C., includes proposals for the support of any workshop, institute, seminar or other short-term training course conducted in order:

(a) To develop curriculum, or other training modules appropriate for general use in rehabilitation agencies throughout the country and related to (1) the provision of vocational rehabilitation services to specific groups of handicapped individuals or (2) the improved performance of vocational rehabilitation practitioners in carrying out specific functional responsibilities;

(b) to provide special training of national significance at a single training setting, or, on a coordinate basis, at a number of different training settings.

There are no geographical restrictions for trainees practicipating in short-term training courses of national scope.

2. In FY 1976 the following program priorities, not in order of priority, have been identified for short-term training of national scope:

(a) The vocational rehabilitation of the severely handicapped mentally ill;

(b) The vocational rehabilitation of individuals with cancer;

(c) The vocational rehabilitation of individuals with cerebral palsy;

(d) The use of self-employment as a vocational goal for the severely handicapped;

(e) Group rehabilitation counseling techniques in the vocational rehabilitation of the severely handicapped;

(f) The definition of role, function, and training needs of work adjustment specialists with the handicapped;

(g) The definition of role, function, and training needs of rehabilitation engineers;

(h) State vocational rehabilitation agency staff development specialist training;

(i) The use of psychological consultants by State vocational rehabilitation agencies;

(j) The evaluation of vocational rehabilitation programs and activities; and

(k) The improvement of vocational rehabilitation services for disabled veterans,

E. *Purpose of short-term training of regional scope and program priorities.* 1. Short-term training of Regional scope, appropriate for the submittal of applications to a Regional Office of the Rehabilitation Services Administration, includes proposals for the support of any workshop, institute, seminar, or other short-term training course designed for the direct training of employees of State vocational rehabilitation agencies or employees of closely cooperating vocational rehabilitation agencies or facilities with a Region, or other individuals with a special interest in the vocational rehabilitation of the physically and mentally disabled.

Trainees participating within a Regional short-term training course will be limited to those residing within a geographical region designated by the Department of Health, Education, and Welfare.

2. In FY 1976 the following program priorities, not in order of priority, have been identified for Regional Office short-term training:

(a) The vocational rehabilitation of the mentally retarded;

(b) The vocational rehabilitation of the mentally ill;

(c) The vocational rehabilitation of the blind;

(d) The vocational rehabilitation of the deaf;

(e) The vocational rehabilitation of individuals with end-stage renal disease;

(f) The vocational rehabilitation of the spinal cord injured;

(g) The vocational rehabilitation of persons with epilepsy;

(h) The vocational rehabilitation of individuals with cardiac disease;

(i) Vocational rehabilitation service delivery in rural areas;

(j) Interagency cooperation in the rehabilitation of handicapped youth;

(k) The vocational rehabilitation of the aging disabled;

(l) The vocational rehabilitation of SSI–SSDI clients;

(m) Job placement for the severely handicapped;

(n) Program and financial management in vocational rehabilitation;

(o) Research utilization in vocational rehabilitation;

(p) The utilization of medical consultants in the vocational rehabilitation process;

(q) The role of the State vocational rehabilitation agency rehabilitation facility specialists;

(r) Consumer involvement and consultation in policy development for the State-Federal vocational rehabilitation program; and

(s) The removal of architectural and transportation barriers.

F. *Application review and evaluation.* Applications for the support of short-term training in vocational rehabilitation will be evaluated in terms of such factors as:

1. The relevance of the content of the proposed short-term training to the administratively established objectives of the public rehabilitation program and the objectives of the Rehabilitation Act of 1973, as amended;

2. The qualifications of the instructional staff;

3. The speed with which the training can be put to use by the persons proposed to be trained;

4. The reasonableness of the budget in relation to the proposed project;

5. The extent to which the proposal provides for a method for the development of the training curriculum and a method for implementation of the training;

6. The extent to which the proposal provides for an evaluation methodology, including the manner in which such methodology will be employed to measure the achievement of the objectives of the training program; and

7. The evidence of a working relationship with an appropriate State vocational rehabilitation agency and other agencies providing vocational rehabilitation services.

G. *Program information and application forms*—1. *Short-term training of regional scope.* Program information, including specific FY 1976 short-term training plans for each Regional Office, and application forms may be obtained from:

REGION I

Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, John F. Kennedy Federal Building, Government Center, Boston, Massachusetts 02203.

REGION II

Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, Federal Building, 26 Federal Plaza, New York, New York 10007.

REGION III

Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, 3535 Market Street, Philadelphia, Pennsylvania 19101.

REGION IV

Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, 50–7th Street, N.E., Room 737–A, Atlanta, Georgia 30323.

REGION V

Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, 300 South Wacker Drive, 30th Floor, Chicago, Illinois 60607.

REGION VI

Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, 1114 Commerce Street – 4th Floor, Dallas, Texas 75202.

REGION VII

Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, 601 East 12th Street, Kansas City, Missouri 64106.

REGION VIII

Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, Federal Office Building, Room 9017, 19th and Stout Streets, Denver, Colorado 80202.

REGION IX

Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, Federal Office Building, 50 Fulton Street, San Francisco, California 94102.

REGION X

Director, Office of Rehabilitation Services, Department of Health, Education, and Welfare, Arcade Building, 1321 Second Avenue, Seattle, Washington 98101.

2. *Short-term training of national scope.* Program information, including the general FY 1976 plan for short-term training of national scope, and application forms may be obtained from: Division of Grants and Contract Management, Office of Human Development, Room 1427, 330 C Street, S.W., Washington, D.C. 20201.

H. *Application submittal*—1. *Applications sent by mail.* Applications for the support of short-term training of national scope for the training of individuals from throughout the country should be addressed as follows: Division of Grants and Contract Management, Office of Human Development, Room 1427, 330 C Street, SW., Washington, D.C. 20201. Applications for the support of short-term training of Regional scope should be addressed to the Director, Office of Rehabilitation Services Administration. An application sent by mail will be considered to be received on time if:

(a) The application was sent by registered or certified mail not later than March 5, 1976 as evidenced by the U.S. Postal Service postmark, or on the original receipt from the U.S. Postal Service; or

(b) The application is received on or before the closing date of either the Department of Health, Education, and Welfare or the Office of Human Development mailrooms in Washington, D.C., or as appropriate, a Regional Office mailroom. (In establishing the date of receipt, consideration will be given to the time date stamps of such mailrooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the Office of Human Development.)

2. *Hand delivered applications.* An application to be hand delivered must be taken to the Division of Grants and Contract Management, Office of Human Development, 330 C Street, SW., Washington, D.C., or to the appropriate Regional Office of the Director, Office of Rehabilitation Services. Hand delivered applications will be accepted during normal working hours. Applications will not be accepted after 5:00 p.m., on the closing date.

(29 U.S.C. 763)

(Catalog of Federal Domestic Assistance Number 13.629, Rehabilitation Training)

Dated: December 4, 1975.

ANDREW S. ADAMS,
Commissioner, Rehabilitation Services Administration.

[FR Doc.75–34002 Filed 12–16–75;8:45 am]

Office of the Secretary

OFFICE OF INVESTIGATIONS

Reorganization Order

Under the authority of section 6 of Reorganization Plan No. 1 of 1953 and pursuant to the authorities vested in me as Secretary of Health, Education, and Welfare, I hereby establish the Office of Investigations in the Office of the Under Secretary effective November 30, 1975. The Division of Investigations (1T7002) of the Office of Investigations and Security of the Office of the Assistant Secretary for Administration and Management is hereby transferred to the Office of Investigations effective November 30, 1975. The Investigations Branch (4E-1405) of the Office of Administrative Appraisal and Planning, Social Security Administration is hereby transferred to the Office of Investigations effective December 28, 1975.

SECTION 1. *Organization.* The Office of Investigations (1B60) shall be located in the Office of the Under Secretary. It will function under the direction of a Director who will report directly to the Under Secretary.

SEC. 2. *Continuation of regulations.* Except as inconsistent with this Reorganization Order, all regulations, rules, orders, statements of policy, or interpretations with respect to the Investigations Branch, SSA and Division of Investigations, OS heretofore issued and in effect prior to the date of this Reorganization Order or to become effective subsequent to said date, are continued in full force and effect.

SEC. 3. *Prior statement of organization, functions, and delegations of authority.* To the extent inconsistent with this Reorganization Order all previous statement's "Organization Manual" are delegations of authority, as well as applicable present chapters of the Department's "Organization Manual" are hereby superseded by this Reorganization Order, except that, pending further redelegation, all delegations in effect immediately prior to the effective date of this Reorganization Order shall continue in effect.

SEC. 4. *Funds, personnel, and equipment.* Transfer of organizations and functions effected by this Reorganization Order shall be accompanied in each instance by direct and supporting funds, positions, records, equipment, supplies, and other resources.

Effective date. This Reorganization Order shall be effective November 30, 1975.

Dated: December 10, 1975.

DAVID MATHEWS,
Secretary.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

NATIONAL ADVISORY COMMITTEE ON UNIFORM TRAFFIC CONTROL DEVICES

Open Meeting

Pursuant to Executive Order 11671, the Federal Highway Administration announces the meeting dates and relevant information for the Annual Meeting of the National Advisory Committee on Uniform Traffic Control Devices. The meeting will be held January 15–17, 1976, at the Sheraton Park Hotel, Washington, D.C. The full Committee will convene at 1:00 p.m. January 15 with Subcommittee working sessions scheduled for 2:00 p.m. January 15 and 8:30 a.m. January 16.

For further information contact the Office of Traffic Operations, Federal Highway Administration, 400 7th Street, SW., Washington, D.C. Code 202–426–0411. Attendance by the public will be limited to space available.

Purpose. This Committee reviews currently approved standards, guides and warrants for traffic control devices contained in the Manual on Uniform Traffic Control Devices, the national standard for all classes of highways. Recommedations on revisions and proposed new standards to meet new developments and improvements are developed as needed.

The Committee makes studies, conducts investigations, prepares reports, develops recommendations and advice to assist the Federal Highway Administrator in developing appropriate standards as authorized in 23 U.S.C. 109(d) and 402(a).

Agenda. Agenda items will include reports of the chairmen of the technical subcommittees on signs, signals, pavement markings, traffic controls for construction and maintenance areas, and bicycle facilities. Recommendations from the subcommittees for proposed additions to or revisions in current traffic control device standards will be discussed and action taken relative to providing advice to the Federal Highway Administration on these matters.

JAMES J. CROWLEY,
Director, Office of Traffic Operations, Federal Highway Administration.

V40243 DEC 17 75 XUM

National Highway Traffic Safety Administration

[Docket No. EX75–24; Notice 2]

LAFER AUTOMOTIVE OF BRAZIL

Petition for Temporary Exemption From Federal Motor Vehicle Safety Standards

Lafer Automotive of Brazil (Sao Paulo) has been granted temporary exemption of its Spinnaker model from 11 Federal motor vehicle safety standards on the basis that compliance would cause it substantial economic hardship.

Notice of the petition was published on October 1, 1975 (40 FR 45217), and an opportunity afforded for comment.

Lafer manufactured 200 vehicles in its initial production period beginning September 1, 1974. It wishes to introduce to the American market a replica of the 1952 MG TD British sports car, employing a fiberglass body mounted upon a new Volkswagen chassis. Its request for a 3-year exemption may be summarized as follows:

Standard No. 101, *Control Location, Identification, and Illumination* (S4.3). There is no direct lighting for the headlamp switch, the hazard warning switch, and the windshield wiper system switch. However, ambient lighting is provided by lights for adjoining gauges. Rewiring and modifying the dash design would cost $3,000.

Standard No. 105–75, *Hydraulic Brake Systems* (S5.3). There is no brake system failure indicator lamp and engineering and testing costs would amount to $10,000.

Standard No. 106–74, *Brake Hoses* (S5.2). The hoses are not labeled. They otherwise comply with the standard.

Standard No. 114, *Theft Protection* (S4.1, S4.4). There is no key-locking system or warning device. It would cost the company $7,500 to correct the noncompliance.

Standard No. 201, *Occupant Protection in Interior Impact* (S3.1, S3.2, S3.4, S3.5). The passenger side area of the console and the arm rests are not padded. There are no sun visors. Modification and testing would cost approximately $8,000.

Standard No. 208, *Occupant Crash Protection* (S5, S7.3). Exemption is requested for the barrier tests and warning devices. Cost of testing would be $7,000. The vehicle has a Type 2 seat belt assembly, not required for open vehicles.

Standard No. 214, *Side Door Strength*. In the view of an independent consultant hired to judge compliance of the vehicle the Spinnaker meets Standard No. 214. However, an exemption would save the company $600 in tests, and $3,000 in engineering costs if changes are required.

Standard No. 215, *Exterior Protection*. The compliance status is unknown, but failure to comply would require redesign of the vehicle.

Standard No. 301–75, *Fuel System Integrity*. Petitioner believes that the vehicle conforms but compliance would require $800 for a test plus the cost of one automobile.

Standard No. 302, *Flammability of Interior Materials*. The seats are covered with leather and probably comply. Compliance of the convertible top is unknown. Testing would cost $600.

Petitioner intends to investigate means of compliance while the exemption is in effect, but will withdraw from the American market if the venture is not practicable. It projects sales of 3,000 vehicles over the next 3 years. The company had net losses of $147,000 in 1974 and $11,000 in the first 6 months of 1975.

In addition, the company requested exemption from S4.1.1 and S5.1 of Motor Vehicle Safety Standard No. 108, *Lamps, Reflective Devices, and Associated Equipment*, its amended petition arriving too late for inclusion in the FEDERAL REGISTER notice. Petitioner stated that its lighting equipment is of foreign origin, and it lacks "the labeling * * * required by the SAE standards". It has a large inventory of lamps and feels that this is a de minimis variation.

No comments were received in response to the notice.

The NHTSA has the following comments on the Lafer petition. The company's problem areas may be separated into three categories: the equipment complies in all respects but labeling and an exemption is needed because of inventory (Standard Nos. 106 and 108); the vehicle probably complies but tests to verify conformance are expensive (Standards Nos. 214, 301, and 302); vehicle modifications are necessary for conformance (Standards Nos. 101, 105–75, 114, 201, 208, 215). With reference to the first compliance category, no inventory of items or estimate of costs have been submitted. However, since the company is still operating at a net loss it is obvious that allowing it to use equipment in inventory would contribute to an improvement in its financial picture. On the basis of the information at hand, however, no justification is deemed shown for an exemption greater than 1 year.

Concerning the second category, where compliance is believed to exist, cost of testing is estimated at a total of $2,000, with an additional expenditure of $3,000 if modifications are required to meet Standard No. 214. The NHTSA believes that a temporary exemption would allow the petitioner to make sufficient sales in the American market to generate funds for testing to verify conformance with these standards. The NHTSA considers that in this instance, the informed engineering judgment of petitioner's outside consultants might be an adequate basis upon which Lafer could certify compliance with the standard in good faith in lieu of actually conducting tests. Although there is no legal requirement to test, the NHTSA realizes that many manufacturers prefer to conduct the tests set out in the standards as a means of assuring themselves they meet its performance requirements. Therefore, an exemption of 2 years is provided for Lafer to make the tests it deems necessary.

Finally, regarding the third category of noncompliances, modifications to comply with Standards Nos. 101, 105–75, 114, and 201 would require a total expenditure of $28,500. Although the company has estimated a cost of an additional $7,000 to comply with "barrier test" requirements of Standard No. 208, it appears to have misread the standard. Performance requirements and tests for rollover and lateral collisions have been proposed but not adopted. The cost of meeting the warning device requirements of the standard by Lafer are believed to be substantially less than $7,000. It is obvious that as long as the company is in a loss position compliance costs will be burdensome to it. A period of 3 years, during which it hopes to sell 3,000 automobiles, should be sufficient time for it to generate funds with which to achieve conformance by the end of the exemption period. Petitioner argued that the exemption would be in the public interest and consistent with traffic safety objectives by providing American citizens with jobs (certain vehicle options, such as radios, and air conditioning, and the engine, will be purchased and installed in the U.S.), and the opportunity to own a vehicle not otherwise available.

For the above reasons it is found that a temporary exemption is in the public interest and considered with the objectives of the National Traffic and Motor Vehicle Safety Act of 1966. Accordingly, Lafer Automotive of Brazil is hereby granted NHTSA Exemption No. 75–24 expiring with respect to the following listed standards on the dates indicated:

November 1, 1976. 49 CFR 571.106, Motor Vehicle Safety Standard No. 106, *Brake Hoses;* 49 CFR 571.108, Motor Vehicle Safety Standard No. 108, *Lamps, Reflective Devices, and Associated Equipment.*

November 1, 1977. 49 CFR 571.214, Motor Vehicle Safety Standard No. 214, *Side Door Strength;* 49 CFR 571.301, Motor Vehicle Safety Standard No. 301, *Fuel System Integrity;* 49 CFR 571.302, Motor Vehicle Safety Standard No. 302, *Flammability of Interior Materials.*

November 1, 1978. 49 CFR 571.101, Motor Vehicle Safety Standard No. 101, *Control Location, Identification, and Illumination;* S5.3 of 49 CFR 571.105–75, Motor Vehicle Safety Standard No. 105–75, *Hydraulic Brake Systems;* 49 CFR 571.114, Motor Vehicle Safety Standard No. 114, *Theft Protection;* S3.1, S3.2, S3.4, and S3.5 of 49 CFR 571.201, Motor Vehicle Safety Standard No. 201, *Occupant Protection In Interior Impact;* 49 CFR 571.208, Motor Vehicle Safety Standard No. 208, *Occupant Crash Protection*, and 49 CFR 571.215, Motor Vehicle Safety Standard No. 215, *Exterior Protection.*

(Sec. 3, Pub. L. 92–548, 86 Stat. 1159, (15 U.S.C. 1410); delegation of authority at 49 CFR 1.51)

Issued on December 12, 1975.

JAMES B. GREGORY,
Administrator.

National Highway Traffic Safety Administration

NATIONAL HIGHWAY SAFETY ADVISORY COMMITTEE'S EXECUTIVE SUBCOMMITTEE

Public Meeting

On January 8 and 9, 1976, the National Highway Safety Advisory Committee's Executive Subcommittee will hold open meetings at the Department of Transportation headquarters building, 400 Seventh Street, SW., Washington, D.C.

The National Highway Safety Advisory Committee is composed of 35 members appointed by the President in accordance with the Highway Safety Act of 1966 (23 U.S.C. 401 et seq.). The Committee consists of representatives of State and local governments, State legislatures, public and private interests contributing to, affected by, or concerned with highway safety, other public and private agencies, organizations, and groups demonstrating an active interest in highway safety, and research scientists and other experts in highway safety.

The Advisory Committee advises, consults with, and makes recommendations to the Secretary of Transportation on matters relating to the activities of the Department in the field of highway safety. The Committee is specifically authorized (1) to review research projects or programs, and (2) to review, prior to issuance, standards, proposed to be issued by the Secretary under the national highway safety program.

The Executive Subcommittee will meet in Room 4234 on January 8 from 1:00 p.m. until 4:00 p.m. and on January 9 from 8:30 a.m. until 12:00 noon with the following agenda:

Plans for Future Committee Activities
New Business/Old Business

The above meetings are subject to the approval of the Secretary.

Further information may be obtained from the Executive Secretariat, National Highway Traffic Safety Administration, Department of Transportation, 400 Seventh Street, SW., Washington, D.C. 20590, telephone 202–426–2872.

This notice is given pursuant to section 10(a)(2) of Pub. L. 92–463, Federal Advisory Committee Act (FACA), effective January 5, 1973.

Issued: December 11, 1975.

WM. H. MARSH,
Executive Secretary.

CIVIL AERONAUTICS BOARD

COMMUTER AIRLINE ASSOCIATION OF AMERICA

Postponement of Meeting

Notice is hereby given that the briefing with the above Association concerning the problems and opportunities facing the commuter airline industry and scheduled to be held on December 19, 1975, at 2:30 p.m. (40 FR 57711, December 11, 1975), is hereby postponed to January 6, 1976, at 3 p.m., in Room 1027 of the Universal Building.

Dated at Washington, D.C., December 12, 1975.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75–34011 Filed 12–16–75;8:45 am]

[Order 75–12–40; Docket 26494, Agreement C.A.B. 25548 R–1 through R–3; Agreement C.A.B. 25565 R–1 and R–2]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Passenger Fares; Order

Correction

In FR Doc. 75–33566 appearing at page 57831 in the issue of Friday, December 12, 1975, in the first column of the first table the second entry under Agreement CAB 25548 should read "R–2".

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19989; FCC 75–1319]

AMERICAN TELEPHONE AND TELEGRAPH CO.

Revision of the Wide Area Telecommunications Service (WATS)

1. We have before us a question certified to the Commission by the presiding Administrative Law Judge (ALJ) on September 30, 1975 concerning the scope of Phase II of this proceeding, and briefs on this question filed on October 10, 1975 by AT&T, the Trial Staff, MCI Telecommunications Corporation (MCI) and National Data Corporation (National Data).

2. Phase I of this proceeding was initiated by our April 5, 1974 order and concerns, among other things, the lawfulness of AT&T's January 1974 tariff filing (Transmittal No. 11935) which made significant and substantial changes in the internal WATS rate structure (46 FCC 2d 81, 82–83). AT&T indicated, among other things, such changes would result in rate decreases for 40 percent of WATS customers and increases for the remaining 60 percent, but that the overall result would be no significant change in total WATS revenues or earnings. The record in Phase I has been certified to the Commission for decision. Phase II of this proceeding was initiated by our March 27, 1975 Order (52 FCC 2d 155) and concerns the lawfulness of certain changes in the WATS tariff filed with AT&T's March 1975 tariff filing (Transmittal No. 12303).[1] AT&T's March 1975 filing resulted in a $365 million net overall increase in AT&T revenues with $43 million allocated to WATS (a 4.4% increase). As we noted in our March 27, 1975 Order the March 1975 WATS tariff changes resulted in some increased rates, particularly over shorter distances, and decreases in others. The issues we designated for hearing in Phase II were as follows:

(1) Whether the charges, classifications, practices, and regulations published in the aforesaid tariff revisions are or will be just and reasonable within the meaning of section 201(b) of the Act;

(2) Whether such charges, classifications, practices and regulations are free from unjust and unreasonable discrimination and do not make or give any undue or unreasonable preference, prejudice, or disadvantage to any particular person, class of persons, or locality, within the meaning of section 202(a) of the Act;

(3) Whether the revised tariff schedules conform to the requirements of Section 203 of the Act; and

(4) If any of such charges, classifications, practices, or regulations are found to be unlawful, whether the Commission, pursuant to section 205 of the Act, should prescribe charges, classifications, practices and regulations for the service governed by the tariffs, and if so, what should be prescribed.

3. The ALJ requests that we clarify the scope of the evidence we wish introduced in Phase II. The controversy as to the scope of Phase II arose when AT&T objected on the grounds of relevance, materiality and burden to most of the first round interrogatories and information requests and/or cross-examination questioning of the non-Bell parties. Briefly stated, the non-Bell parties contend that the designated issues contemplate a conventional rate hearing whereby AT&T must fully justify its March 1975 WATS rate revisions including revenue/cost relationships and cost of service studies relating to the allocation of $43 million of the March 1975 rate increase to WATS. AT&T views the designated issues much more narrowly. Briefly stated, AT&T claims that the scope of Phase II is limited to determination of the reasonableness of the change in the WATS rate structure, i.e., "whether such changes were made in accordance with ratemaking principles and theory at issue in Phase I and whether the March 1975 WATS revisions are reasonably designed to produce $43 million in additional reve-

[1] In accordance with our Order (40 FR 14980), the ALJ exercised his discretion and determined at a prehearing conference on April 25, 1975 that the March 1975 WATS changes should constitute an independent second phase of the proceeding (Tr. 3–4).

V 40 243 DEC 17 75 XUM

nues allocated to WATS."[2] AT&T contends that the non-Bell parties' interpretation of the scope of Phase II would result in relitigation of Phase I issues now before the Commission for decision and would result in wasteful duplication of matters at issue in Docket No. 19129 Phase II, where the MTS rate structure is in issue, and Docket No. 18128, which concerns the manner of allocating revenue increases and relative rate levels among the major AT&T service categories.

[2] AT&T states that in issue in Phase I is, among other things, "an explanation of and justification for setting WATS rates on the basis of maintaining rate relationships between MTS and WATS rates" (AT&T Brief at 4–5) Further, AT&T states that "the [March 1975] changes in the WATS structure were not based on costs attributable to WATS" and that "no cost of service studies were required to support or explain the WATS revisions." AT&T states that the "change in the WATS structure was designed solely to maintain the rate relationships between MTS and WATS which were described and are in issue in Phase I while proportionately contributing toward the overall revenue increase." (AT&T Brief at 14) The Trial Staff raises the following questions on AT&T's rate structure approach: "Is it sufficiently appropriate when evaluating the validity, lawfulness and reasonability of the WATS rate structure revisions to exclusively justify these WATS changes by resorting to a comparison of the WATS rate relationship to another service (MTS); or, must the WATS rate structure revisions, in and of themselves, be justified in terms (usage, volume, demand, costs, revenue, etc.) of the WATS service alone or in conjunction with a comparison of the WATS–MTS rate relationship?" (emphasis supplied by Trial Staff) (Trial Staff Brief at 3)

4. The ALJ notes that if the AT&T approach is followed a short record will be compiled which should furnish adequate basis for a Commission decision if the Commission ultimately approves the ratemaking technique set forth in Phase I. If the non-Bell approach is followed the ALJ indicates that a lengthy record can be anticipated, much of it duplicative of information already received in Docket No. 18128. The ALJ notes further that such information would be superfluous if the Commission ultimately approves the Phase I ratemaking techniques, but might provide the basis for prescribed rates if the Phase I ratemaking is disapproved.

5. It was not our intention that Phase II would involve substantial relitigation of Phase I issues or duplicate matters pending in other proceedings such as Docket No. 18128. Thus, the reasonableness of AT&T's allocation of its March 1975 revenue increase to MTS, Private Line and WATS is not in issue in Phase II but rather will be subject to ultimate conclusions reached in Docket No. 18128.[3] However, assuming AT&T's allocation of $43 million to WATS is appropriate, which is a question we need not reach here, we are concerned in Phase II, as noted above, with the reasonableness of AT&T's internal allocation of the $43 million on the basis of short haul and long haul considerations. This issue is to be considered in addition to those suggested by AT&T above National Data requests the addition of two other issues as follows:

(a) Whether AT&T should make available, upon request, the background information which substantiates the WATS bills sent to AT&T's customers.

(b) Whether AT&T, in computing additional period charges for a customer, should be required to apply the customer's usage in excess of the initial period allowance for access lines in one service group to lines in another service group serving a higher numbered service area where there has not been full utilization of the initial period allowance for lines in the servce group servng the higher numbered servce area. (National Data Brief at 8)

These issues are not to be considered in Phase II because National Data's request is an untimely request for enlargement of issues rather than a request for clarification of issues as contemplated by the ALJ's certification order. More significantly, it has failed to show that the likelihood of its prevailing on the suggested issues is so substantial as to outweigh the public interest benefits inherent in the orderly and fair administration of the Commission's business. Edgefield-Saluda v. F.C.C., 5 F.C.C. 2d 148, 149 (1966).

6. *Accordingly, it is ordered*, That further proceedings in Phase II of Docket No. 19989 will be conducted in accordance with the determinations and views expressed herein.

Adopted: December 2, 1975.

Released: December 11, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.75–33978 Filed 12–16–75;8:45 am]

[3] We express no view herein as to whether AT&T's allocation of its revenue increase is "consistent with sound rate-making principles on an interim basis." 30 F.C.C. 2d 503, 504 (1971).

[FCC 75R–451; Docket No. 20010, File No. BRCT–10; 20011, File No. BPCT–4540]

CBS INC. AND FIRST DELAWARE VALLEY CITIZENS TELEVISION, INC.

Broadcast License and Construction Permit

1. This proceeding involves the mutually exclusive applications of CBS Inc. (WCAU–TV) (CBS) for renewal of its license for Station WCAU–TV, Philadelphia, Pennsylvania, and First Delaware Valley Citizens Television, Inc. (First Delaware) for a new television broadcast station at Philadelphia, Pennsylvania. The Review Board now has before it a fourth motion to enlarge issues, filed April 25, 1975, by CBS,[1 2] requesting the addition of the following issues against First Delaware:

1. To determine whether the effectuation of the First Delaware proposal for a transmitter site and antenna system will materially alter the reradiation pattern of the Banks tower, will increase the reradiation of standard broadcast Station WRCP's signal beyond its maximum expected operating values and will create objectionable interference to other standard broadcast stations operating at or near the WRCP frequency including KXEL, Waterloo, Iowa.

2. To determine whether the effectuation of the First Delaware proposal for a transmitter site and antenna system will adversely affect the directional antenna pattern of WHYY–TV, Channel 12, Wilmington and impair WHYY–TV's ability to protect a co-channel station, WBNG–TV, Binghamton, New York.

3. To determine whether the First Delaware proposal is structurally feasible.

WRCP RE-RADIATION ISSUE

2. CBS first points out that First Delaware's engineering proposal includes

[1] The Board also has before it the following related pleadings: (a) Opposition, filed May 30, 1975, by First Delaware; (b) opposition, filed June 2, 1975, by the Broadcast Bureau; and (c) reply, filed June 18, 1975, by CBS.

[2] In the Board's view, CBS has shown good cause for its late-filed motion, as required by § 1.229(b), since the requested issues relate to applicant's new transmitter site and antenna system first proposed in an amendment accepted by Order of the Presiding Judge, FCC 75M–632, released April 9, 1975, only sixteen days before this motion was filed. In any case, the motion raises substantial public interest questions. See The Edgefield-Saluda Radio Company, 5 FCC 2d 148, 8 RR 2d 811 (1966).

V 40 243 DEC 17 75 XUM

construction of a candelabra platform which is to be located on an existing tower owned by Banks Realty Company (Banks). The addition of the candelabra platform, asserts CBS, will result in an increase in re-radiation of standard broadcast Station WRCP's [8] signal and, consequently, cause WRCP to exceed its maximum expected operating values (MEOVs) of radiation, resulting in objectionable interference to other standard broadcast stations. CBS alleges that WRCP's MEOVs were modified in 1969 due to new construction of broadcast facilities in the area, and that those modifications left little or no tolerance for increased re-radiation of WRCP's signal without creating objectionable interference to other standard broadcast stations, particularly to Station KXEL.[4] Movant contends that an increase in re-radiation due to applicant's proposed modifications of the Banks tower would cause WRCP to exceed the limitations set forth in Section 73.187 of the Commission's Rules and cause objectionable interference to KXEL within its protected 0.1 mV/m contour.[5] CBS submits an affidavit in which KXEL's director of engineering confirms this conclusion.[7] Furthermore, movant's engineer calculates that the construction of a candelabra platform on the Banks tower would increase the re-radiation of WRCP's signal by more than 20 mV/m at a distance of one mile from the Banks tower,[8] thus causing the WRCP signal to exceed the 18 mV/m tolerance in KXEL's direction (288° True).[9]

3. CBS further alleges that, although the Presiding Judge ruled that the WRCP proximity condition [10] applies to First Delaware's presently proposed site,[11] the necessity for an issue is not mooted. CBS contends that the proposed modification will so increase the re-radiation of the WRCP signal that the applicant will clearly not be able to satisfy this condition, citing Childress Broadcasting Corp., 27 FCC 2d 31, 20 RR 2d 1187 (1971), and Tri-Country Broadcasting Co., 27 FCC 2d 1013, 21 RR 2d 380 (1971). However, both First Delaware and the Bureau oppose the addition of the requested issue, contending that the imposed condition is sufficient under the circumstances. The Bureau argues that the Commission has had considerable experience with the special problems affecting WRCP and it has previously dealt with those problems by use of conditions.[12] Moreover, the Bureau contends that there have been numerous changes in the antenna farm around Station WRCP over the last several years and the Commission has imposed conditions rather than placing these matters in hearing under specified issues. Thus, it is the Bureau's position that re-radiation problems of this nature are most readily resolved by empirical methods pursuant to well-established engineering procedures, citing WVOC, Inc., 32 FCC 2d 765, 768, 23 RR 2d 371, 375 (1971); and assuming that the applicant makes a reasonable showing that it can comply with the WRCP condition, addition of an issue is unnecessary.

4. First Delaware argues that the allegations of CBS' engineer, Ogden Prestholdt, are largely conjectural because he failed to personally examine the Banks tower.[13] Moreover, applicant submits that CBS' contentions lack specificity, as required by Rule 1.229(c), since Mr. Prestholdt did not, in his affidavit, present sufficiently detailed engineering studies showing that it would be impossible for First Delaware to protect WRCP.[14] Furthermore, applicant argues that its proposal would have no adverse effect on WRCP's signal since a more significant modification made to the tower system of Station WTAF–TV, a UHF station approximately the same distance from WRCP as is the Banks tower, had no effect on WRCP's signal.[15] [16]

5. In reply, CBS asserts that the WTAF–TV modification was basically a minor one in comparison to that which would be necessitated by the applicant's proposal. Movant's engineer, Mr. Prestholdt, estimates that First Delaware's proposed modification of the Banks tower is equivalent to an increase in the height of that tower of more than three and one-half to five and one-half times the height added to the WTAF–TV tower.[17] Consequently, contends CBS, applicant's proposed modification could be expected to produce a substantially greater increase in WRCP re-radiation than the WTAF–TV modification. Movant further submits that since, at best, there is a bona fide dispute among engineers, an issue should be specified.

6. The Board will add a re-radiation issue. CBS has made a showing raising a substantial question as to whether a harmful increase in the re-radiation of WRCP's signal would be caused by the construction of First Delaware's proposed platform on the Banks tower. Mr. Prestholdt's re-radiation calculations adequately support CBS' allegations, as required by § 1.229(c) of the Commission's rules.[18] Moreover, his contention that the applicant's proposal will increase the re-radiation of WRCP's signal by more than 20 mV/m at a distance of one mile from the Banks tower is not factually disputed in the responsive pleadings.[19] Consequently, on the basis of the information presently before us, we are unable to resolve the conflict concerning the question of possible interference to Station KXEL.[20] [21] Thus, the condition imposed on the grant of First Delaware's application is not adequate and an issue is necessary, especially since movant has shown that it may be impossible for First Delaware to prevent harmful re-radiation of WRCP's signal. Cf. WSTE–TV, Inc., 11 FCC 2d 1013, 12 RR 2d 605 (1968).

WHYY–TV Interference Issue

7. CBS next requests the addition of an issue to permit evidentiary inquiry into the possibility that First Delaware's proposal for a transmitter site and antenna system will adversely affect the directional antenna pattern of WHYY–TV, a station whose antenna is located on the Banks tower.[22] Movant's consulting engineer contends that applicant's candelabra platform, as depicted in a drawing prepared by the manufacturer of the Banks tower,[23] is totally incompatible with the present operation of the WHYY–TV antenna. He argues that one of the lattice work metallic candelabra arms of the proposed platform would occupy some of the same space now occupied by the WHYY–TV antenna. Even if the arms were modified to accommodate the physical presence of the WHYY–TV antenna, contends CBS, they would still cause severe distortion of the WHYY–TV directional antenna pattern, and in so doing, impair WHYY–TV's ability to protect co-channel Station WBNG–TV, Binghamton, New York. Movant further alleges that the candelabra platform arms would require supporting diagonal braces, which by themselves would distort the WHYY–TV antenna pattern, and the proposed installation of "quarter-wave 'choke'" elements on the braces would merely change rather than cure the problem of pattern distortion.

8. In opposition, First Delaware asserts that CBS has failed to make a required threshold showing for the addition of an interference issue because its motion is wholly unsupported by engineering data depicting the extent of the distortion and a fortiori the extent of the interference. It is also the position of First Delaware that if such distortion and/or interference should occur, it can be corrected by the use of filters, chokes and other electronic circuitry. First Delaware further asserts that the platform which it has proposed as a candelabra design requiring diagonal braces, could be redesigned as a cross beam or tee bar.[24] In addition, First Delaware presents a series of arguments relating to WHYY–TV's lease with Bank's Realty and the present position of its antenna on the tower. The Bureau also opposes the addition of the issue.

9. In reply, CBS argues that a candelabra platform with braces is the only proposal set forth in First Delaware's amendment and it cannot now argue that the use of such braces is not part of its proposal. Movant further contends that even if the "beam arrangement" or "tee" bar were employed by the applicant to avoid using diagonal metal braces needed to secure a candelabra platform, a significant vertical dimension would still exist in the platform causing distortion to WHYY–TV's antenna pattern.

10. The requested issue will be denied. We agree with the Bureau and First Delaware that CBS's allegations are too speculative to warrant the addition of the WHYY–TV distortion and interference issue. Movant has relied solely on the opinion of its engineer, without submitting supporting data, thus not meeting the specificity and support requirements of Rule 1.229(c). Technical showings and/or mathematical calculations should have been submitted to show the expected distortion of the WHYY–TV directional antenna pattern in order to make the required threshold showing for the addition of the requested issue. No such showing has been made by CBS. Moreover, it is likely, as First Delaware contends, that such distortion if it did occur can be corrected by the use of filters, chokes and other electronic circuitry. In light of these circumstances we do not and need not resolve any of the questions presented concerning WHYY–TV's lease with respect to whether its antenna has been correctly placed on the Banks tower.

Structural Feasibility Issue

11. In support of its contention that there are serious questions as to whether First Delaware's proposal is structurally feasible, CBS submits that First Delaware failed to conduct a feasibility study of its proposed modifications to the Banks tower although advised to do so by both its consulting engineers.[25] Such a study is necessary, alleges movant, since there has already been a departure from the original specifications of the Banks tower,[26] and the applicant's proposal would be a further departure since it involves the addition of a VHF television antenna rather than a UHF antenna, as originally planned by the manufacturer of the tower. Moreover, CBS asserts that First Delaware's consulting engineer has considered only the question of dead weight on the tower, whereas the calculation of windloads on a given structure is an essential factor in determining structural feasibility, citing Deep South Broadcasting Co. (WSLA), 25 FCC 824, 14 RR 1001 (1958), aff'd., 107 U.S. App. D.C. 384, 278 F.2d 264 (1960). Movant further argues that the burden is on an applicant to show that its transmitter proposal is structurally feasible and First Delaware has failed to do so.

12. The Board will deny the request for a structural feasibility issue. CBS' request once again does not comport with the specificity and support requirements of § 1.229(c) of the Commission's rules. Movant has failed to substantiate its allegation that the Banks tower may not be able to support the proposed platform. Moreover, there is no Commission requirement that a feasibility study be conducted in each case.[27] In light of First

---

[8] WRCP, Philadelphia, Pennsylvania, operates on 1540 kHz with a power of 50 kW, directional antenna, daytime only. WRCP is located, according to CBS, about three-tenths of a mile from the Banks tower.

[4] KXEL, Waterloo, Iowa, is a clear channel station, which operates co-channel with WRCP.

[5] CBS' consulting engineer, Ogden L. Prestholdt, in an affidavit submitted with the motion to enlarge issues, notes that First Delaware's proposal might also cause interference to standard broadcast Stations WDON, Wheaton, Maryland; WPTS, Pittston, Pennsylvania; WSER, Elkton, Maryland; and WADK, Newport, Rhode Island.

[6] Rule 73.187 reads, in pertinent part: " • • • no authorization will be granted for Class II facilities if the proposed facilities would radiate • • • toward any point on the 0.1 mV/m contour of a co-channel U.S. Class I station • • • in excess of those [values] obtained • • • in • • • this section." KXEL is a Class I station, whereas, WRCP is a class II station.

[7] KXEL's engineering director bases his conclusion in this regard on the Prestholdt affidavits and his own study of the situation.

[8] Prestholdt, CBS' engineer, calculates the impact of the applicant's proposal by first obtaining a value of 82.4 mV/m as the re-radiation of WRCP's signal by a thin wire vertical antenna. Using his engineering judgment, he determined that "[a] value of 100 mV/m or more is possible" due to the complexities of the Banks tower. He finally predicts that the proposed platform would increase the present re-radiation of the WRCP signal by an order of magnitude of 20 percent.

[9] CBS also contends, contrary to First Delaware's claim, that the guy wires could not be satisfactorily detuned with respect to the WRCP signal. In any case, movant argues, the re-radiation problem cannot be cured by making any new guy wires "electrically neutral" since the tower and candelabra structure themselves will cause unacceptable re-radiation of the WRCP signal.

[10] The Commission in its designation Order, 39 FR 15157, published May 1, 1974, attached the WRCP proximity condition to applicant's original transmitter site proposal which specified the present WCAU–TV site.

[11] This ruling was made by the Judge in his Memorandum Opinion and Order granting applicant's petition to amend its application in order to change its transmitter site. See n.2, *supra*.

[12] See the applications of WHYY–TV (BMPET–710, filed January 27, 1971); WTAF–TV (BPCT–4576, filed January 26, 1973); and WCAU–TV (BPCT–4403, filed December 7, 1970).

[13] C. Robert Gross, engineering director of Station WCAU–TV, in his affidavit submitted with the motion to enlarge issues, stated that he had observed the Banks tower and telephoned the information to the engineering firm of A. D. Ring and Associates in Washington, D.C., of which Mr. Prestholdt is a partner.

[14] First Delaware also contends that the affidavit of KXEL's engineering director, which was submitted by CBS to support its allegations, fails to meet the requirements of Rule 1.229(c) since he relied on Mr. Prestholdt's statements without any independent verification of the accuracy of those statements, and he failed to set forth specific facts about tests or studies which would demonstrate the possibility of any adverse impact on Station KXEL.

[15] First Delaware contends that the WRCP radiated field is vertically polarized and any vertical structure would be apt to re-radiate that field and possibly affect WRCP's operation. Consequently, argues applicant, if the vertical WTAF–TV increment of 45 feet in a higher radiated WRCP field had no effect on WRCP, a horizontal platform on the Banks tower of only 35 feet, cross-polarized to the lower radiated WRCP field, with no increase in height, would have no adverse effect on WRCP. Specifically, First Delaware asserts that the ground radiation towards WTAF's tower is 1300 mV/m at 1 mile compared to 750 mV/m directed at the Banks tower. The Commission imposed a standard proximity condition on the WTAF–TV application, which applicant alleges was fully satisfied. See n.12, supra.

[16] First Delaware further contends that the guy wire cables could either be broken up by insulators or be made of Glastran, thus preventing any deleterious effect on WRCP's radiation pattern.

[17] CBS argues that applicant's horizonal platform would cause a "top loading" effect on the Banks tower considerably increasing its effective height.

[18] However, since Mr. Prestholdt has failed to explain the basis on which he determined the "top loading" effect of applicant's proposal on the Banks tower, his conclusions in this regard cannot be accepted. Nor can the conclusions of KXEL's engineering director be considered, since he did not provide the facts on which they were based, other than explaining that he had relied on Mr. Prestholdt's affidavits and his own study.

[19] First Delaware's contention that CBS' petition lacked specificity in this respect is unfounded. See n.8, infra.

[20] However, movant has failed to adequately support its allegations that the re-radiation of WRCP's signal would cause objectionable interference to other standard broadcast stations operating at or near Station WRCP's frequency.

[21] The Board agrees with the Bureau that many re-radiation problems have been resolved by state-of-the-art methods. However, the case cited by the Bureau do not have the critical protection requirements that are involved in the subject case. This fact is illustrated by the required modifications in WRCP's MEOVs in 1969 in order to protect existing stations. In critical cases such as this one, time, money and the public interest suffer if a proximity condition cannot be satisfied after construction has been completed. See Cosmopolitan Enterprises, Inc., 39 FR 21068, 47 FCC 2d 325 (1974).

[22] WHYY–TV is an educational station licensed to Wilmington, Delaware, which broadcasts on Channel 12. Its directional antenna is side mounted near the top of the Banks tower. According to WCAU–TV's engineering director, C. Robert Gross, WHYY's antenna is approximately sixty feet in overall length, extending approximately ten feet below the top of the tower structure.

[23] This drawing is submitted as an attachment to the motion to enlarge issues.

[24] As an example, First Delaware's consulting engineer submits that the three-antenna platform used by Station WDCA–TV (Channel 20), Washington, D.C., which is 30 feet across (compared to the proposed Banks platform of 35 feet), has no diagonal braces or guy wires. Furthermore, he contends, in the event that only two-antennas are to be mounted on the tower, a two-antenna cross bar such as the one employed by Station WQED in Pittsburgh, which is 40 feet long and also has no diagonal braces, could be utilized.

[25] With its motion to enlarge issues, CBS submits depositions from Walter L. Davis, formerly applicant's consulting engineer, and Serge Bergen, presently applicant's consulting engineer.

[26] CBS submits that the addition of a reflector to the Banks tower has already caused the tower to be "derated" from its original specifications of a uniform windload of 50 pounds per square foot to 45 pounds per square foot.

[27] As previously indicated, movant relies on Deep South Broadcasting Co., (WSLA), supra, in support of its request for a structural feasibility issue. In that case, however, the applicant was proposing something unique, the construction of an antenna tower taller than any other previously built. Thus, the calculation of windloads, which was not done, was an essential factor in determining its structural suitability. That is not the situation here since there is nothing particularly unusual about First Delaware's antenna proposal.

V 40 243 DEC 17 75 XUM

Delaware's submission of correspondence from the tower's owner and manufacturer as to its being adequately stressed to support the applicant's antenna, it is the Board's view that the basis for further inquiry into this matter has not been established. See Erway Television Corp., 2 FCC 2d 1037, 7 RR 2d 538 (1966), in which the Board refused to add an issue in similar circumstances.

13. Accordingly, *it is ordered*, That the motion to enlarge issues, filed April 25, 1975, by CBS Inc. (WCAU-TV), is granted, to the extent indicated below, and is denied in all other respects; and

14. *It is further ordered*, That the issues in this proceeding are enlarged by the addition of the following issue: To determine whether First Delaware's proposed antenna system will increase the re-radiation of standard broadcast Station WRCP's signal beyond its maximum expected operating values and will create objectionable interference to standard broadcast Station KXEL, Waterloo, Iowa.

15. *It is further ordered*, That the burden of proceeding with the introduction of evidence and proof under the issue added herein shall be on First Delaware Valley Citizens Television, Inc.

Adopted: December 5, 1975.

Released: December 12, 1975.

[FCC 75-1312; Docket No. 20640]

MCI TELECOMMUNICATIONS CORP.

Execunet Service; Investigation

1. On July 2, 1975 we adopted an Order, FCC 75-799, which rejected the above-captioned tariff provisions filed by MCI Telecommunications Corporation (MCI) on the basis that it offered a service for which MCI had not been granted authorization. We found Execunet to be essentially a switched public message telephone service (MTS) rather than private line foreign exchange (FX) service, as MCI contended. Since MCI's authorizations permitted operation of their facilities only for private line services, we held that the company could not lawfully offer Execunet, and rejected the tariff provisions.

2. MCI petitioned the United States Court of Appeals for the District of Columbia for review of the Commission's Order. MCI Telecommunications Corp v. FCC and U.S. No. 75-1635. In a motion filed with the Court seeking a judicial stay of the Commission's Order, MCI presented several new arguments or elaborations on arguments that it had presented to the Commission. In order to afford us the opportunity to address those arguments in the first instance before judicial review, Commission counsel asked the Court to hold the review proceeding in abeyance to permit MCI to present its arguments to the Commission. By order released October 24, 1975, the Court granted our motion. Its order directed that any further proceedings "be conducted and concluded expeditiously."

3. Consistent with the Court's order, we believe it appropriate to permit MCI and other interested parties to submit briefs and comments regarding the lawfulness of MCI's offering of Execunet service. The deadline for opening briefs and comments is January 16, 1976 replies, if any, must be filed on or before January 26, 1976. Upon receipt of these filings, and on the basis of their content, we will determine whether further proceedings are required, including oral argument before the Commission en banc and, if substantial issues of fact remain unresolved, an evidentiary hearing.

4. *Accordingly, it is ordered*, That interested persons shall submit briefs and comments on or before January 16, 1976, and replies no later than January 26, 1976, addressing the issue whether or not Execunet is a service which MCI is authorized to offer pursuant to its facility authorizations and policies set forth by this Commission.

5. *It is further ordered*, That MCI Telecommunications Corporation and other interested persons filing comments and briefs pursuant to paragraph 4 above are made parties to this proceeding.

Adopted: December 2, 1976.

Released: December 3, 1976.

PUERTO RICO MARITIME SHIPPING AUTHORITY AND PUERTO RICO PORT AUTHORITY

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before January 6, 1976. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

E. J. Sheppard, Esquire, Morgan, Lewis and Bockius, 1800 M Street, N.W., Washington, D.C. 20036.

Agreement No. T-3210, between Puerto Rico Maritime Shipping Authority (PRMSA) and Puerto Rico Ports Authority (Authority), provides for the lease of Parcel B and the preferential use of Berth F at Puerto Nuevo Port Development. The initial term of the agreement expires on January 31, 1978, and may be renewed for an additional five years. The use of Parcel B by PRMSA is restricted to shoreside operations pertaining to its oceanborne common carrier service. As compensation, Authority shall receive an annual fee of $87,352.02. PRMSA shall also pay an annual fee of $5,000 for the preferential use of Berth F. After the expiration of the initial term, rentals are subject to reestablishment by Authority. In addition to the annual fees, PRMSA shall pay wharfage charges normally assessed by Authority with a guaranteed minimum of $125,000 plus dockage, trailer wharfage, demurrage and other charges which are normally assessed. Wharfage payable to the Authority on cargo moving through the berth on vessels not operated by PRMSA would be credited to PRMSA's annual minimum wharfage guarantee.

Dated: December 12, 1975.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Docket Nos. RP72-110 and PGA76-4]

ALGONQUIN GAS TRANSMISSION CO.

Rate Change Pursuant to Purchased Gas Cost Adjustment Provision

DECEMBER 8, 1975.

Take notice that Algonquin Gas transmission Company ("Algonquin Gas"), on November 26, 1975, tendered for filing Revised Eleventh Revised Sheet No. 10 and Eleventh Revised Sheet No. 10 to its FPC Gas Tariff, First Revised Volume No. 1.

These sheets are being filed pursuant to Algonquin Gas' Purchased Gas Cost Adjustment Provision set forth in Section 17 of the General Terms and Conditions of its FPC Gas Tariff, First Revised Volume No. 1. The rate change is being filed under Algonquin Gas' Revised Eleventh Revised Sheet No. 10 to reflect a change in purchased gas costs to be paid to its supplier, Texas Eastern Transmission Corporation ("Texas Eastern") under its tariff sheet entitled Revised Fifteenth Revised Sheet No. 14D, proposed to be effective January 1, 1976, which includes, among other things, amounts associated with small producer purchases by Texas Eastern in excess of the rate levels prescribed in the Commission's Opinion No. 742 and that portion of emergency purchases by Texas Eastern from other than small producers in excess of the national rate level prescribed in the Commission's Opinion No. 699-H. In addition, in the event the Commission should suspend for one day Texas Eastern's above-mentioned tariff sheet, Algonquin Gas also filed Eleventh Revised Sheet No. 10 which reflects a change in the cost of purchased gas to be paid to its supplier, Texas Eastern, under its tariff sheet entitled Fifteenth Revised Sheet No. 14D, proposed to be effective January 1, 1976, exclusive of amounts associated with small producer purchases by Texas Eastern in excess of the national rate levels prescribed in Opinion No. 742 and that portion of emergency purchases by Texas Eastern from other than small producers in excess of the national rate level prescribed in the Commission's Opinion No. 699-H from its supplier, Texas Eastern.

Algonquin Gas requests that the Commission accept for filing the appropriate tariff sheet or sheets to be effective January 1, 1976, or such other date as well synchronize its rates with those of Texas Eastern.

V 40 0243 DEC 17 75 XUM

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8, 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 18, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-33946 Filed 12-16-75;8:45 am]

[Docket No. CP76-158]

ALGONQUIN GAS TRANSMISSION CO.

Application

DECEMBER 9, 1975.

Take notice that on November 10, 1975, Algonquin Gas Transmission Company (Applicant), 1284 Soldiers Field Road, Boston, Massachusetts 02135, filed in Docket No. CP76-158 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange and transportation of natural gas on a best-efforts basis for the benefit of Connecticut Gas Company (Connecticut Gas), all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that by Commission order of September 2, 1975 (54 FPC ——) Distrigas of Massachusetts Corporation (DOMAC) was granted a temporary certificate authorizing the sale of liquefied natural gas to Connecticut Gas. Applicant further states that to effectuate the deliveries of such gas, Applicant, Boston and Connecticut Gas have arranged for vaporized LNG to be released by Boston to Applicant for delivery by displacement to Connecticut Gas pursuant to a transportation agreement dated October 20, 1975. The proposed service would be from the later of November 1, 1975, or the date of Commission authorization, through April 30, 1976. Applicant states that Connecticut Gas anticipates the purchase of up to approximately 250,000 million Btu of gas from DOMAC.

Boston would accept delivery of vaporized LNG from DOMAC at Everett, Massachusetts, for use in its own system. Equivalent volumes would be released by Boston, a customer of Applicant, to Applicant. Applicant would deliver equivalent volumes to Connecticut Gas at existing points of interconnection with Connecticut Gas in the State of Connecticut. Applicant would charge Connecticut Gas 15 cents per million Btu so transported. Applicant does not propose to construct any facilities in the instant application and states that the proposed service would be rendered on a best-efforts basis to the extent to which it would not affect any existing operation or service.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 19, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. ID-1747]

ALLAN K. HAMER

Application

DECEMBER 8, 1975.

Take notice that on November 28, 1975, Allan K. Hamer (Applicant) filed an application with the Federal Power Commission. Pursuant to section 305(b) of the Federal Power Act, Applicant seeks authority to hold the following positions:

Director & President, Brockton Edison Company, Public Utility.

Brockton Edison Company ("Brockton"), a Massachusetts corporation having its principal place of business at 36 Main Street, Brockton, Massachusetts, owns and operates facilities for the transmission and distribution of electric energy at retail in the city of Brockton and 16 surrounding towns in Massachusetts. Most of the energy sold by Brockton is purchased from Montaup Electric Company.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 29, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. AR61-2, AR69-1, etc., (Disputed Zone)]

AREA RATE PROCEEDING, ET AL. (SOUTHERN LOUISIANA AREA)

Order Directing Disbursement and Flow-Through of Refunds

DECEMBER 9, 1975.

The Commission issued an order on February 23, 1973, in the above-entitled proceedings with respect to producers who were making sales on or after August 1, 1971, at a rate in excess of the offshore rate prescribed in Opinion No. 598 under contracts dated prior to October 1, 1968, in those areas of the Disputed Zone which were determined by the United States Supreme Court to be in the Federal Domain. (See supplemental decrees issued in "United States v. Louisiana," 404 U.S. 388 (1971) and 409 U.S. 17 (1972).). Pursuant to Ordering Paragraph (A) of the February 23 order, the producers were required to file refund reports showing all excess amounts collected, together with interest at 7 percent per annum, calculated to the date of the refund report. As provided by Section 9.1 of the settlement proposal approved in Opinion No. 598, these refunds are not subject to the crediting provisions of Opinion No. 598. The order of February 23 further directed the producers to retain the subject refunds pending further order of the Commission. We now require the producers to disburse their refunds, including interest, to their purchasers.

In order to insure the orderly administration and review of the refunds to be made pursuant to this order, we shall require that all refunds be coordinated with and reported by the producer under whose rate schedule the sale was made.

Once the refunds have been disbursed to the respective purchasers, the purchasers shall flow the refunds through to their jurisdictional customers; see order issued March 17, 1975, in Docket No. AR64-1, et al.; *Provided, however,* That purchasers shall not be required to flow through those refunds, if any, as to which they may assert a claim of entitlement under the terms of prior rate settlement agreements approved by the Commission.

The Commission finds. It is necessary and proper in the public interest and in carrying out the provisions of the Natural Gas Act that the refunds subject to this order be disbursed and flowed-through as hereinafter ordered.

The Commission orders. (A) On or before January 30, 1976, each producer owing refunds under the Commission's order issued herein on February 23, 1973, shall disburse such refunds to the purchaser and shall file a copy of a release from the purchaser.

(B) All refunds and reports made pursuant to ordering paragraph (A) above shall be coordinated with and reported by the producer under whose rate schedule the sale was made.

(C) On or before March 1, 1976, each purchaser shall submit three copies of a plan for the flow-through of the refunds herein ordered to be disbursed and any refunds previously disbursed by producers in the Disputed Zone and presently being retained by the purchaser, applicable to jurisdictional sales, indicating the amount payable to each jurisdictional customer, the basis used to compute the amount payable, the periods involved, and the applicable FPC docket numbers. Copies of the flow-through plans shall be served on each of the purchaser's jurisdictional customers and upon interested state regulatory Commissions.

(D) Upon notification by the Commission's Secretary, and to the extent directed thereby, purchasers shall proceed with the distribution of refunds to their jurisdictional customers.

(D) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75-33924 Filed 12-16-75;8:45 am]

[Docket No. CP72-9]

ARKANSAS LOUISIANA GAS CO.

Petition To Amend

DECEMBER 9, 1975.

Take notice that on October 28, 1975, Arkansas Louisiana Gas Company (Petitioner), Post Office Box 1734, Shreveport, Louisiana 71102, filed in Docket No. CP72-9 a petition to amend the order of the Commission of November 1, 1971 (46 FPC 1110), as amended, issuing a certificate of public convenience and necessity pursuant to section 7(c) of the Natural Gas Act to include authorization to exchange natural gas with Cities Service Gas Company (Cities) at an additional point, all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioner states that it is authorized by the certificate of public convenience and necessity granted by the Commission on November 1, 1971, to exchange up to 10,000 Mcf of gas per day with Cities. Petitioner also states that it is authorized pursuant to a budget-type certificate to connect and receive new gas supply during the calendar year 1975, as amended, and to implement authorized exchange and or transportation arrangement with other pipeline companies.

Petitioner in the instant petition to amend requests authorization to operate an additional delivery point through which Petitioner would receive gas for exchange from Cities. Such exchange would be made by displacement, would be within the volumetric limitations previously authorized, and would obviate the need to duplicate facilities, it is stated.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before December 19, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP73-329; PGA76-2]

CHATTANOOGA GAS CO.

Proposed PGA Rate Adjustment

DECEMBER 8, 1975.

Take notice that on December 1, 1975, Chattanooga Gas Company, A Division of Jupiter Industries, Inc., (Chattanooga) tendered for filing effective on January 1, 1976, consisting of the following revised tariff sheets:

Fifteenth Revised Sheet No. 6, and, alternatively, Alternate Fifteenth Revised Sheet No. 6

Chattanooga states that the sole purpose of these Revised Tariff Sheets is to adjust Chattanooga's LNG rates pursuant to the PGA provision in section 5 of the general terms and conditions of its FPC Tariff to reflect increased purchased gas costs resulting from PGA rate increases by its suppliers, Southern Natural Gas Company, (Southern) in Docket No. RP73-64 and East Tennessee Natural Gas Company, (East Tennessee) in Docket Nos. RP71-15 and RP75-28.

Chattanooga requests that its Fifteenth Revised Sheet No. 6 be made effective on January 1, 1976, the proposed effective date of the underlying increases by Southern and East Tennessee.

Chattanooga further states that it is relying on its alternate rate increase reflected on Alternate Fifteenth Revised Sheet No. 6 to be effective on January 1, 1976, in the event Fifteenth Revised Sheet No. 6 is not accepted to be effective because of the inclusion of small producer purchases by Tennessee Gas Pipeline Company at rates above those established in Opinion No. 742.

Chattanooga states that copies of the filing have been mailed to all of its jurisdictional customers.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 19, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-65; PGA76-2]

COLUMBIA GAS TRANSMISSION CORP.

Proposed Changes in FPC Gas Tariff

DECEMBER 8, 1975.

Take notice that Columbia Gas Transmission Corporation (Columbia) on December 1, 1975, tendered for filing proposed changes in its FPC Gas Tariff, Original Volume No. 1. The proposed changes to be effective January 15, 1976, provide purchased gas adjustments to reflect increased costs of gas purchased from pipeline suppliers of $43,199,552.

Copies of the filing were served upon the company's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 29, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

V40243 DEC 17 75 XUM

[Docket No. RP72-157; PGA76-3]

CONSOLIDATED GAS SUPPLY CORP.

Proposed Changes in Gas Tariff

DECEMBER 8, 1975.

Take notice that Consolidated Gas Supply Corporation (Consolidated), on November 26, 1975, tendered for filing proposed changes in its FPC Gas Tariff, Second Revised Volume No. 1, pursuant to its PGA clause for rates to be effective January 1, 1976. The proposed rate increase would generate $6.1 million annually in additional jurisdictional revenues.

Consolidated states that the PGA filing was triggered by rate increases filed by Tennessee Gas Pipeline Company and Texas Eastern Transmission Corporation, both to be effective January 1, 1976. Also included is a rate decrease by Texas Gas Transmission Corporation, approved by Commission order of October 6, 1975.

Consolidated is requesting a waiver of any of the Commission's rules and regulations in order to permit the proposed rates to go into effect on January 1, 1976.

Copies of this filing were served upon Consolidated's jurisdictional customers, as well as interested State Commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 23, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ID-1746]

FRANCIS I. PATTERSON

Application

DECEMBER 8, 1975.

Take notice that on November 28, 1975, Francis I. Patterson (Applicant) filed an application with the Federal Power Commission. Pursuant to section 305(b) of the Federal Power Act, Applicant seeks authority to hold the following positions:

Assistant Secretary, Blackstone Valley Electric Company, Public Utility.
Assistant Clerk, Brockton Edison Company, Public Utility.
Assistant Clerk, Fall River Electric Light Company, Public Utility.
Director & Assistant Clerk, Montaup Electric, Public Utility.

Blackstone Valley Electric Company ("Blackstone"), a Rhode Island corporation having its principal place of business on Washington Highway, Lincoln, Rhode Island, owns and operates facilities for the transmission and distribution of electric energy at retail in and around Pawtucket, Woonsocket, Central Falls, Cumberland, Lincoln, North Smithfield, and parts of Burrillville, Rhode Island. Practically all of the energy sold by Blackstone is purchased from Montaup Electric Company.

Brockton Edison Company ("Brockton"), a Massachusetts corporation having its principal place of business at 36 Main Street, Brockton, Massachusetts, owns and operates facilities for the transmission and distribution of electric energy at retail in the city of Brockton and sixteen surrounding towns in Massachusetts. Practically all of the energy sold by Brockton is purchased from Montaup Electric Company.

Fall River Electric Light Company ("Fall River"), a Massachusetts corporation having its principal place of business at 85 North Main Street, Fall River, Massachusetts, owns and operates facilities for the distribution of electric energy at retail in the city of Fall River and in the neighboring towns of Swansea, Somerset, the major part of Dighton, and a part of Westport, all in Massachusetts. Practically all of the energy sold by Fall River is purchased from Montaup Electric Company.

Montaup Electric Company ("Montaup"), a Massachusetts corporation having its principal place of business in Somerset, Massachusetts, owns and operates facilities in that town for the generation of electric energy and facilities in Somerset and elsewhere in Massachusetts for the transmission of such energy. Montaup as the bulk power supply for the EUA system sells most of the electric energy which it generates together with the energy it purchases to Blackstone, Brockton, and Fall River which companies together own all of Montaup's outstanding securities except short-term notes representing bank borrowings. Montaup also supplies wholesale electric energy for resale to the town of Middleboro, Massachusetts, and to Newport Electric Corporation, Narragansett Electric Company (Tiverton Division), and the Pascoag Fire District, all in Rhode Island.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 29, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ES 76-25]

GULF STATES UTILITIES CO.

Application

DECEMBER 8, 1975.

Take notice that on November 28, 1975, Gulf States Utilities Company (Applicant) filed an application pursuant to section 204 of the Federal Power Act for authorization to issue $60 million principal amount of First Mortgage Bonds and 4,000,000 additional shares of common stock, no par value, via competitive bidding.

Applicant is incorporated under the laws of the State of Texas, with its principal business office at Beaumont, Texas and is engaged in the generation, transmission, distribution and sale of electrical energy in the State of Louisiana and Texas.

The proceeds from the sale of the new securities will be used to pay off part of the companys' outstanding commercial paper and short-term bank loans previously authorized by the Commission.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 2, 1976, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The Application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-33952 Filed 12-16-75;8:45 am]

[Docket No. RP76-3]

INLAND GAS COMPANY, INC.

Proposed Settlement

DECEMBER 9, 1975.

Take notice that on November 18, 1975, the Administrative Law Judge in Docket No. 75-50 certified a proposed settlement to the Commission for action. The instant proceeding was initiated by the filing of Inland's curtailment plan on July 31, 1975, consisting of The Inland Gas Company's Inc. (Inland) FPC Gas Tariff, Original Volume No. 1. By Order issued October 20, 1975, the Commission, inter alia, accepted Inland's Tariff Sheets and suspended the use thereof until January 2, 1976.

As a result of settlement discussions the curtailment procedures have been agreed to and an agreement has been reached, as hereinafter set forth.

The Settlement. Inland states that due to the situation created by the curtailments by Tennessee Gas Pipeline Company (Tennessee) it has imposed on its 9 larger industrial customers with daily contract demands in excess of 300 Mcf of gas a proportional curtailment. Inland expects no curtailment will be imposed in either August or September, but that a curtailment of approximately 30 percent of entitlements is expected in November and December.

The proposed settlement in this proceeding consists of Transcript pages 1 thru 37 and exhibits 1 thru 5.

The proposed curtailment procedures to be effective January 1, 1976, would fully protect Inland's rural domestic and commercial customers by imposing proportionate curtailments on its larger industrial customers with entitlements in excess of 300 Mcf of gas per day. The proposed curtailment plan is not in strict accordance with the end-use priorities that are prescribed in § 2.7 but the proposed plan would mitigate or obviate the need for extraordinary relief, which would require Inland to flow-through such requests into Tennessee's curtailment proceeding and would require a formal litigated proceeding. The proposal would spread the burden of curtailment on Inland's nine larger industrial customers. The proposed settlement is in accord with Commission Order 467-B and consistent with the curtailment policy contained therein particularly under the conditions existing in the instant situation.

In addition, the proposed tariff provides for overrun penalties of $10.00 per Mcf and distribution of the penalties among those customers which were unable to receive gas as a result of the overruns.

Filing of Comments. It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before December 19, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8264]

MAINE PUBLIC SERVICE CO.

Postponement of Hearing Date

DECEMBER 8, 1975.

On December 2, 1975, Staff Counsel filed a motion to extend the hearing date fixed by order issued May 5, 1975, as most recently modified by notice issued September 23, 1975, in the above-designated proceeding.

Upon consideration, notice is hereby given that the hearing date in the above proceeding is postponed from December 9, 1975 to January 14, 1976.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-33953 Filed 12-16-75;8:45 am]

[Docket No. ER76-209]

METROPOLITAN EDISON CO.

Order Accepting for Filing and Suspending Proposed Increased Rates and Establishing Hearing Procedures

NOVEMBER 25, 1975.

On October 31, 1975, Metropolitan Edison Company (Met-Ed) tendered for filing increased rates for all-requirements service to Hershey Electric Company and the Borough of Kutztown, Pennsylvania, served at transmission voltage under rate RT, and to the Boroughs of Goldsboro, Lewisberry, and Royalton, Pennsylvania, served at distribution voltage under rate RP. Met-Ed also tendered for filing increased rates for partial requirements and wheeling service to Allegheny Electric Cooperative, Inc. (Allegheny). Met-Ed filed a revised fuel adjustment clause for its all-requirements service and its partial requirements service to Allegheny to conform with Order No. 517.[1]

Public notice of Met-Ed's filing was issued on November 14, 1975, with protests or petitions to intervene due on or before November 28, 1975. To date no comments, protests or petitions to intervene have been received. Met-Ed has requested that the proposed rates be made effective as of December 1, 1975.

Met-Ed states that on the basis of a test period consisting of the 12 months ending June 30, 1976, the proposed rates would produce $3,255,197 in additional revenues from the all-requirements wholesale customers or a 45.6 percent increase above present rates, as well as $1,289,569 in additional revenues from Allegheny, or a 72.2 percent increase. In addition, it states the proposed partial requirements rate accounts for $1,119,157 of the increase to Allegheny and the new wheeling rate would produce the balance of $170,412.

According to Met-Ed, the proposed rates are intended to recover sharp increases in costs since the 1972 test period which was the basis for the present rates provided in settlement agreements approved by the Commission's order issued March 7, 1975, in Docket Nos. E-8394 and E-8439. Met-Ed claims that the requested rate increase is urgently needed if Met-Ed is to be able to finance the facilities necessary to meet its load growth. In support thereof, Met-Ed indicates that without further rate increases, it will end 1976 with an earnings coverage of 1.85 times the interest requirements of long-term debt. Met-Ed states that the minimum coverage required under its indenture is 2.0 times such annual interest requirements and that the minimum coverage is required for 12 consecutive months out of the 15 months preceding proposed issuance of securities. Without immediate additional rate relief, Met-Ed states that its projected earnings show that it will have exhausted its ability to sell long-term debt by mid-year 1976. Construction expenditures, for which additional capital will be needed, are estimated to be $240,000,000 for the years 1975-1977. Met-Ed contends that in light of the increased cost of common stock equity which for Met-Ed has averaged 17 percent, it believes an allowance for common stock equity of at least 14.5 percent is necessary and that a fair rate of return for Met-Ed is in the range of 10¼ percent to 10½ percent.

The proposed rate levels have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or otherwise unlawful. Accordingly, we shall suspend the use thereof until January 1, 1976, when the rates will be permitted to became effective, subject to refund, and we shall establish hearing procedures to determine the justness and reasonableness of Met-Ed's filing.

Our review of the filing indicates that Met-Ed has included plant held for future use (other than land) in the rate base; normalized the tax effects of capitalized items, as well as interest associated with construction work in progress, in the income tax calculation; and separated the transmission function into various subfunctions reflecting voltage or service levels for allocation purposes. Parties filing testimony in this case should address themselves to, inter alia, the propriety of these actions. Witnesses submitting testimony on rate of return should address, inter alia, (1) Met-Ed's proposal for a return on equity of 14.5 percent and concomitant rate of return of between 10¼ percent to 10½ percent, (2) Met-Ed's present and future needs for capital, (3) the adequacy and significance of Met-Ed's present pre-tax debt interest coverage ratio, (4) the adequacy and significance of the past and present ratios of market value to book value of Met-Ed's common stock, and (5) the standing of Met-Ed in particular and the standing of comparable utilities in the market for capital.

We believe the fuel adjustment clause included in the proposed rate satisfies the requirements set forth in Order No. 517.

The Commission finds. It is necessary and proper in the public interest and to aid in the enforcement of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the increased rates and charges, as proposed by Met-Ed in Docket No. ER76-209 and that such increase be accepted for filing and suspended as hereinafter provided.

The Commission orders. (A) Pending a hearing and final decision thereon,

[1] Tariff and Rate Schedule designations are shown on Appendix A.

V40243 DEC 17 75 XUM

Met-Ed's proposed changes in its rates and charges, as filed on October 31, 1975, are accepted for filing and suspended until January 1, 1976, when the proposed rate schedule supplements shall become effective, subject to refund.

(B) Pursuant to the authority of the Federal Power Act, particularly Sections 205 and 206 thereof, and the Commission's Rules and Regulations (18 CFR, Chapter I) a public hearing shall be held on April 6, 1976, at 10 a.m., in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, to determine the lawfulness and reasonableness of the proposed rates and charges, contained in Met-Ed's rate increase filed on October 31, 1975.

(C) The Commission Staff shall serve its prepared testimony and exhibits on or before February 24, 1976. Any intervenor evidence shall be filed on or before March 9, 1976. Any rebuttal evidence by Met-Ed shall be served on or before March 23, 1976.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose, (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(E) Nothing contained herein shall be construed as limiting the rights of parties to this proceeding regarding the convening of conference or offers of settlement pursuant to § 1.18 of the Commission's rules of practice and procedure.

(F) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

MOUNTAIN FUEL SUPPLY CO.

Application

DECEMBER 9, 1975.

Take notice that on November 11, 1975, Mountain Fuel Supply Company (Applicant), 180 East First South Street, Salt Lake City, Utah 84139, filed in Docket No. CP76-159 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of approximately 15 pipeline taps on its jurisdictional pipeline at unspecified places during the 12-month period following authorization, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that it from time to time receives requests for service from individuals located adjacent to existing transmission facilities for residential and small commercial service not in excess of 50 Mcf of gas per day. Further, Applicant states that it anticipates requests for farm taps along the route of the pipeline it is constructing pursuant to authorization in Docket No. CP73-213. Applicant states that the authorization requested in the instant application would enable it to provide such service more efficiently without unreasonable delay.

Applicant states that the total cost of the proposed construction would not exceed $30,000, nor would any single tap and related facilities cost in excess of $3,000.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 19, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[Docket No. RP74-100]

NATIONAL FUEL GAS SUPPLY CORP.

Proposed Tariff Change

DECEMBER 8, 1975.

Take notice that on November 28, 1975, National Fuel Gas Supply Corporation (National) tendered for filing as part of its FPC Gas Tariff, Original Volume No. 1, First Revised Sheet No. 37, proposed to be effective January 1, 1976.

National states that the sole purpose of this revised tariff sheet is to change the filing requirements in Section 17.5 of the General Terms and Conditions to conform its tariff to Order No. 535, issued September 16, 1975, in Docket No. RM75-9.

It is stated that copies of the filing have been mailed to all of its jurisdictional customers and affected state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before December 29, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

NATIONAL GAS SURVEY CURTAILMENT STRATEGIES-TECHNICAL ADVISORY COMMITTEE

Order Designating Members

DECEMBER 8, 1975.

The Federal Power Commission by Order issued September 15, 1975, announced a new program for the National Gas Survey Curtailment Strategies-Technical Advisory Committee and initial membership for this Committee.

1. Membership. A new member to the Curtailment Strategies-Technical Advisory Committee as selected by the Chairman of the Commission with the approval of the Commission, is as follows:

Ray J. Nery, North Carolina Utilities Commission, Raleigh, North Carolina.

By the Commission.

[Docket No. CP68-75]

NORTHERN NATURAL GAS CO

Petition To Amend

DECEMBER 9, 1975.

Take notice that on November 18, 1975, Northern Natural Gas Company (Petitioner), 2223 Dodge Street, Omaha, Nebraska 68102, filed a petition to amend the order issued in Docket No. CP68-75 on May 20, 1968 (39 FPC 821), as amended on November 10, 1971 (46 FPC 1177), pursuant to section 7(c) of the Natural Gas Act by authorizing the exchange of natural gas with Phillips Petroleum Company (Phillips) at an additional point of delivery in Ochiltree County, Texas, all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

By order issued May 20, 1968, as amended, Petitioner was authorized to exchange gas with Phillips at points of delivery in Oklahoma and Texas. Petitioner states that it and Phillips now desire to establish an additional point to accommodate the delivery of exchange gas by Petitioner to Phillips under the terms of a June 23, 1975, amendment to the Gray County Gas Exchange Agreement.[1] In accordance with this amendment, Petitioner states, it will deliver and Phillips will receive, at a point of connection with facilities to be installed by Phillips in Ochiltree County, Texas, up to 2,500 Mcf of gas per day. Redelivery of gas exchange volumes by Phillips to Petitioner will be made at the existing delivery points in Ellis County, Oklahoma, and Gray County, Texas, pursuant to the Gray County Gas Exchange Agreement, as amended.

Petitioner proposes to construct at an estimated cost of $740, and operate certain side valve facilities on its 24-inch Texas main line for connection thereto by Phillips. Phillips shall install and operate the necessary facilities to measure the gas delivered by Petitioner at such point, it is stated.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before December 30, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

[Docket No. RP73-48; PGA No. 76-1a]

NORTHERN NATURAL GAS CO.

Order Granting Intervention

DECEMBER 9, 1975.

On October 20, 1975, Northern Natural Gas Company (Northern) tendered for filing revised tariff sheets to reflect a decrease in rates to its jurisdictional customers pursuant to the purchased gas cost adjustment provisions of its FPC Gas Tariff. Notice of Northern's filing was issued on July 9, 1975, with protests and petitions to intervene due on or before November 10, 1975.

A timely petition to intervene was filed by Michigan Wisconsin Pipe Line Company (Michigan Wisconsin). Upon review of this petition, we believe that Michigan Wisconsin has a sufficient interest in this proceeding to warrant its intervention.

The Commission finds. It may be in the public interest for Michigan Wisconsin to intervene in these proceedings.

The Commission orders. (A) Michigan Wisconsin Pipe Line Company is hereby permitted to intervene in these proceedings subject to the rules and regulations of the Commission: *Provided, however,* That participation of such intervenor shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene: *And provided, further,* That the admission of such intervenor shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) The intervention granted herein shall not be the basis for delaying or deferring any procedural schedules heretofore established for the orderly and expeditious disposition of this proceeding.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[Docket No. RP72-115; PGA76-1]

OKLAHOMA NATURAL GAS GATHERING CORP.

Proposed Change in Rate Pursuant to Purchased Gas Cost Adjustments

DECEMBER 8, 1975.

Take notice that on November 24, 1975, Oklahoma Natural Gas Gathering Corporation (Oklahoma) tendered for filing Eighth Revised Sheet PGA-1 to its FPC Gas Tariff, Original Volume No. 1. Oklahoma states that this tariff sheet will revise Oklahoma's Base Tariff Rate to recover the balance accumulated in the unrecovered purchase gas cost account and flow through the increase in the system cost of purchased gas.

The effective date for the proposed change is January 1, 1976.

Oklahoma states that copies of this tariff filing are being mailed to all jurisdictional customers and interested state regulatory agencies.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 19, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER76-296]

PACIFIC GAS AND ELECTRIC CO.

Tariff Changes

DECEMBER 9, 1975.

Take notice that Pacific Gas and Electric Company (Pacific), on November 26, 1975, tendered for filing an amendment to the Power Sale, Exchange and Integration Contract[1] between Pacific and Sacramento Municipal Utility District (Sacramento).

Pacific states that the terms of the present Contract provide for the integration of Sacramento's hydroelectric and nuclear resources with Pacific's and for Pacific's purchase of Sacramento's surplus capacity and energy from Sacramento's Rancho Seco Unit No. 1. The present terms further provide that similar arrangements will be agreed upon for Sacramento's next large thermal power plant. Under the proposed amendments, Sacramento's next large thermal plant is

[1] The Gray County Gas Exchange Agreement dated June 17, 1968, between Petitioner and Phillips is filed with the Commission as Petitioner's Rate Schedule X-18 of its FPC Gas Tariff, Original Volume No. 2.

[1] Designated Pacific Gas and Electric Company, FPC Rate Schedule No. 45.

V 40 243 DEC 17 75 XUM

specifically identified as being the second nuclear unit at Rancho Seco. Moreover, the amendment modifies the terms and conditions relating to integrated operation, sales and exchanges and expands such terms and conditions to include Sacramento's proposed geothermal and combustion turbine resources.

Pacific proposes that the amendment become effective December 26, 1975.

Pacific states that copies of the filing have been sent to Sacramento and to the California Public Utilities Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 19, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9212]

PACIFIC POWER & LIGHT CO.

Compliance Filing

DECEMBER 8, 1975.

Take notice that on November 28, 1975, Pacific Power & Light Company tendered for filing service agreements under its FPC Electric Tariff Original Volume No. 2 pursuant to the Commission's order issued November 17, 1975 in the above captioned proceeding. The filed service agreements cover sales of nonfirm thermal energy to (1) City of Pasadena, California, (2) City of Burbank, California, (3) Southern California Edison Company, (4) Pacific Gas and Electric Company, (5) City of Glendale, California, (6) San Diego Gas & Electric Company, (7) Utah Power & Light Company, (8) Department of Water and Power of the City of Los Angeles and (9) Portland General Electric Company.

The filing indicates that copies were served upon each of the above customers.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 22, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ID-1757]

PETER R. GROOME

Application

DECEMBER 8, 1975.

Take notice that on November 28, 1975, Peter R. Groome, (Applicant) filed an application with the Federal Power Commission. Pursuant to section 305(b) of the Federal Power Act, Applicant seeks authority to hold the following positions:

Vice President, Brockton Edison Company, Public Utility.
Vice President, Fall River Electric Light, Public Utility.

Brockton Edison Company ("Brockton"), a Massachusetts corporation having its principal place of business at 36 Main Street, Brockton, Massachusetts, owns and operates facilities for the transmission and distribution of electric energy at retail in the city of Brockton and 16 surrounding towns in Massachusetts. Most of the energy sold by Brockton is purchased from Montaup Electric Company.

Fall River Electric Light Company ("Fall River"), a Massachusetts corporation having its principal place of business at 85 North Main Street, Fall River, Massachusetts, owns and operates facilities for the distribution of electric energy at retail in the city of Fall River and in neighboring towns of Swansea, Somerset, the major part of Dighton, and a part of Westport, all in Massachusetts. Most of the energy sold by Fall River is purchased from Montaup Electric Company.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 29, 1975, file with the Federal Power Commission, Washington, D.C., 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-111]

PUBLIC SERVICE COMPANY OF NEW HAMPSHIRE

Order Denying Rehearing and Amending Prior Order

NOVEMBER 25, 1975.

The Commission, on October 6, 1975, issued a letter order in the above-captioned proceeding in which we refused to assign a filing date to Public Service Company of New Hampshire's (Public Service or the Company) September 10, 1975, filing of a "first step" wholesale rate increase based on a 1974 calendar year cost of service. In that order we stated that the Period I data provided was out of date and therefore the propriety of the proposed rate increase could not be properly evaluated. We required Public Service to "submit actual data for the period ending no earlier than four months prior to the date of filing of the proposed increase."

On October 30, 1975, Public Service applied for rehearing of this order. Public Service maintains that its filing is in accordance with the requirement that cost data be for the most recent twelve consecutive months for which actual data are available, as set forth in § 35.13(b)(4)(iii) of the regulations, and the new "staleness" standard of the Commission, first announced in Interstate Power Company, order issued September 10, 1975, in Docket No. ER76-70, is arbitrary, inconsistent with past Commission actions, and constitutes an abuse of discretion.

Public Service maintains that it has submitted data "for the most recent twelve consecutive months for which actual data are available" as required by the Regulations. Public Service points out that in its Order No. 487 issued July 17, 1973, the Commission explicitly refused to establish a time certain which Period I data should encompass in making this section of the regulations effective. Public Service states that the Commission in Docket No. RM76-6 announced its proposal to amend § 35.13(b)(4)(iii) to a four month standard for Period I data. Public Service states that, by its actions since Interstate, the Commission is according immediate anpd retroactive application to an amendment it has yet to adopt. Public Service submits that the Commission cannot, without abusing its discretion, apply its new rulemaking policy to a rate prepared and filed on the basis of the present regulation and the Commission's past interpretation of that regulation.

Public Service also argues that its filing is in "substantial compliance" with the filing requirements, and that materials tendered for filing should be rejected only where they "patently fail to conform" to a regulation. Public Service submits, as an alternative, that the Commission should assign a filing date to the company's filing and require updated Period I data, which the company is willing to submit. Public Service maintains that in no event should a fixed four month standard for Period I data be enforced by the Commission. The company adds that it seriously doubts that it could meet such time limitation.

During the year 1975, we have accepted electric rate filings utilizing Period I data for the twelve months ended December 31, 1974, as meeting the filing requirements of § 35.13(b)(4)(iii) of the regulations that such data be "* * * for the most recent twelve consecutive months for which actual data are available * * *" However, we realized in so doing that at some point in time data for the twelve months ended December 31, 1974, would eventually become stale and thus outside any reasonable interpretation of the requirement of submission of the most recently available data. In the Interstate order we were dealing with data that was 7½ months old and made the determination that such data was too stale to be "the most recently available" and therefore rejected Interstate's filing for failure to comply with § 35.13(b)(4)(iii) of the regulations. Since that action, we have consistently refused to accept rate filings containing Period I data which was more than seven months old.

In deciding to reject Public Service's September 10, 1975, filing, we found that the Period I data contained in the company's submittal was for a 12 month period which ended more than nine months prior to the date Public Service's submittal was filed.

Therefore, consistent with our order issued in Consumers Power Company, issued October 29, 1975, in Docket No. ER76-45,[1] we affirm our prior letter order of October 6, 1975, in holding that Public Service's filing of September 10, 1975, is deficient in that we are not persuaded that the Period I data as submitted is for the most recent twelve consecutive months for which data is available. We shall amend our prior order to the extent that a four month time period shall not be required to substantially comply with § 35.13(b)(4)(iii) of the regulations. However, Public Service shall be required to submit Period I data for a time period ending no more than seven months prior to the date of filing, consistent with the cases as hereinabove cited.

The Commission finds. Except as hereinafter ordered, the application for rehearing filed by Public Service on October 30, 1975, raises no new facts or principals of law which warrant modification of our order of October 6, 1975, in the subject docket.

The Commission orders. (A) Public Service's October 30, 1975, application for rehearing of our order of October 6, 1975, is hereby denied.

(B) In any refiling in this docket, Public Service shall be required to submit Period I data terminating no more than seven months from the date of filing, consistent with our actions in cases as hereinabove cited.

[1] See also: Montaup Electric Company, issued November 3, 1975, in Docket No. ER76-46; Western Power Division, Central Telephone and Utilities Corporation, issued November —, 1975, in Docket No. ER76-92.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. RI76-72]

ROYAL INTERNATIONAL PETROLEUM CORP.

Petition for Special Relief

DECEMBER 9, 1975.

Take notice that on December 1, 1975, Royal International Petroleum Corporation (Petitioner), 700 Oil and Gas Building, New Orleans, Louisiana 70112, filed a petition for special relief in Docket No. RI76-72, pursuant to § 2.76 of the Commission's general policy and interpretations. Petitioner requests that it be granted special relief with respect to its State Lease 5605 No. A-1, Block 69, Chandeleur Sound, St. Bernard Paris, Louisiana well. Petitioner states that due to extensive deterioration in its flow and resultant leakage of gas, the No. A-1 well has been shut-in for approximately 55 days prior to this filing.

Under the terms of its lease agreement with the State of Louisiana, Petitioner's lease will automatically terminate if State Lease 5605 is non-productive or shut-in for more than 90 days. Petitioner also states that if the lease terminates, it will have no alternative but to seek an abandonment of its sale under section 7(b) of the Natural Gas Act.

Petitioner states that its sale of gas from said acreage is made to Southern Natural Gas Company pursuant to its Small Producer Certificate issued in Docket No. CS72-617 on April 10, 1972 at 42.0¢ per Mcf at 15.025 psia, of which 7.0¢ per Mcf is paid to the State of Louisiana in Severance Tax, resulting in a net price to Petitioner of 35.0¢ per Mcf. Petitioner states that it cannot be economically justified in installing a new flowline unless it can be granted relief for a price of 75.0¢ per Mcf upon completion of the new flowline.

Any person desiring to be heard or to make any protest with reference to said petition should on or before December 22, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-33930 Filed 12-16-75;8:45 am]

[Docket No. ER76-87]

SIERRA PACIFIC POWER CO.

Order Rejecting in Part, Accepting in Part and Suspending Rate Increase, Denying Request for Waiver, Permitting Interventions, and Establishing Procedures

NOVEMBER 25, 1975.

On August 25, 1975, as completed on October 29, 1975, Sierra Pacific Power Company (Sierra Pacific) tendered for filed proposed changes in its Rate Schedule R and a revised fuel adjustment clause, such changes being reflected in its FPC Electric Tariff, Volume No. 1.[1] These proposed changes would increase revenues from Sierra Pacific's wholesale customers [2] by approximately $716,132, or 15.4 percent based on the test year ended June 1976. Sierra Pacific states that the proposed increase is necessary to permit it to cover the increased costs of providing service, and to increase its overall rate of return to 10.53 percent to allow Sierra Pacific to obtain the financial results necessary to attract the amounts of new capital to meet growing electrical demands. Sierra Pacific requests an effective date of September 21, 1975.

Sierra Pacific's filing also includes proposed Supplement No. 3 to its EPC Rate Schedule No. 11 which would have the effect of transferring service to one of its wholesale customers, Mt. Wheeler Power, Inc. (Mt. Wheeler), from a previous Rate Schedule R-2 to its Rate Schedule R, under which all the other wholesale customers are served after the proposed effective date of September 21, 1975. In support of the requested transfer of Mt. Wheeler to Rate Schedule R, Sierra Pacific points out that since commencement of service to Mt. Wheeler in 1973 it was served under a separate rate schedule due to the isolation of the transmission line serving Mt. Wheeler from the remainder of Sierra Pacific's system. Sierra Pacific states that in August, 1975, it completed construction of a 230 Kv transmission line which integrated Mt. Wheeler with Sierra Pacific's system. Sierra Pacific requests waiver of the Commission's Regulations concerning notice requirements so that it may be permitted to place Mt. Wheeler on interim Rate Schedule R effective August 8, 1975, the date the interconnection of facilities was completed until September 21, 1975.

Sierra Pacific's August 25, 1975 filing was noticed on August 28, 1975, with all

[1] FPC Electric Tariff, 4th Revised Sheet No. 1, 3rd Revised Sheet No. 2, 2nd Revised Sheet No. 3, 7th Revised Sheet No. 4, 3rd Revised Sheet No. 5, Original Sheet No. 5A, 4th Revised Sheet No. 8, 2nd Revised Sheet No. 8A, Original Sheet No. 8B, 1st Revised Sheet No. 9H, 6th Revised Sheet No. 15; Supplement No. 3 to Rate Schedule FPC No. 11, Supplement No. 4 to Rate Schedule FPC No. 11.

[2] California-Pacific Utilities Company; City of Fallon, Nevada; Mt. Wheeler Power, Inc.; Pafific Gas and Electric Company; Truckee-Donner Public Utility District; U.S. Department of the Navy, Naval Ammunition Depot, Hawthorne, Nevada.

V 40 243 DEC 17 75 XUM

protests, comments, or petitions to intervene due on or before September 15, 1975. Sierra Pacific's supplemental filing of October 29, 1975 was noticed on November 5, 1975, with all protests, comments or petitions to intervene due on or before November 17, 1975. Petitions to intervene have been filed on behalf of the City of Fallon, Nevada, the Truckee-Donner Public Utility District, Pacific Gas and Electric Company, California-Pacific Utilities Company, and Mt. Wheeler Power, Inc. The City of Fallon, Nevada, the Truckee-Donner Public Utility District and Mt. Wheeler Power, Inc., also protested Sierra Pacific's filing alleging that the proposed rates would produce an excessive rate of return. Mt. Wheeler also protests Sierra Pacific's attempt to place it under Rate Schedule R, the tariff under which service is rendered to the other wholesale customers. An untimely notice of intervention was filed on behalf of the Public Service Commission of Nevada. On September 25, 1975, Sierra Pacific filed an answer to the protests of the City of Fallon, Nevada, the Truckee-Donner Public Utility District and Mt. Wheeler.

Our examination of Sierra Pacific's filing reveals that a portion of it is based upon the inclusion of construction work in progress (CWIP) in the rate base which will not be in service at the end of the test period. Recent Commission decisions have made it clear that the Commission will not currently allow utilities to base rates upon the inclusion of CWIP in rate base.[3] As we stated in the Order Denying Application For Rehearing, Georgia Power Company, Docket No. E-9091, issued September 19, 1975:

> The majority rule of public utility regulation holds that the value of plant under construction cannot be included in the rate base until the plant is "used and useful" in providing service to jurisdictional customers. We have consistently applied the "used and useful" rule throughout our formally reported final decisions. Our Uniform System of Accounts for public utilities and licensees clearly reflects that principle, although it has not been formally codified in a separate regulation, as is the case for gas pipeline companies, § 154.63(f), 18 CFR.

Accordingly we shall reject that portion of the Company's filing which is based upon the inclusion of CWIP in rate base and shall require Sierra Pacific to file revised tariff sheets reflecting the elimination of such amounts.

Our review of Sierra Pacific's proposed fuel and purchased power adjustment clause indicates that the clause does not comply with the requirements set forth in Order No. 517.[4] Specifically the proposed clause includes total cost of purchased power and energy rather than the fuel component of such purchased costs. Additionally the clause imputes to the fuels consumed in the current period the most recent cost by type of fuel so that the clause does not reflect the actual costs of fuel consumed. Sierra Pacific proposes to adjust the costs every six months to reflect over- or under-recoveries and requests authorization to use Account 283 to record the tax effects resulting from the adoption of this deferral method. Finally Sierra Pacific's proposed fuel and purchased power adjustment clause utilizes total system losses rather than wholesale losses as specified in Order No. 517. We are of the opinion that Sierra Pacific's request to utilize Account 283 as well as the infirmities of the proposed clause require an evidentiary hearing on the proposed fuel and purchased power adjustment clause.

Our review further indicates that the proposed rates, which would permit Sierra Pacific an overall rate of return of 10.53 percent and a return on equity of 16.39 percent, have not been shown to be just and reasonable and may be unjust, unreasonable, preferential or otherwise unlawful. We shall therefore deny Sierra Pacific's request for waiver of our regulations to permit the proposed rates to become effective September 21, 1975, and instead suspend their effectiveness from November 28, 1975 (thirty days from the completion of Sierra Pacific's filing) and permit them to become effective, subject to refund, on December 29, 1975.

With respect to Sierra Pacific's request to place Mt. Wheeler on Rate Schedule R, Sierra Pacific has tendered an interim Rate Schedule R to apply to Mt. Wheeler from August 8, 1975, the date of system interconnection, to the proposed effective date of the rate increase in Rate Schedule R. We have previously faced the question of the propriety of whether Mt. Wheeler should be served under a separate rate schedule or whether it should be served under the rate schedule used to serve Sierra Pacific's other wholesale customers. In Opinion No. 702[5] we found that so long as Mt. Wheeler was served by an isolated portion of Sierra Pacific's system it was entitled to a rate based on costs associated with only that portion of the system. However we did acknowledge that the rationale for a separate rate may no longer be applicable upon interconnection of Mt. Wheeler to Sierra Pacific's total system. We stated:

> [Sierra] is constructing and expects to complete and energize in 1975 a 230 Kv transmission line which will connect Mt. Wheeler to its main system. As a result, both the cost of the power which Sierra purchases from PG&E and the cost of its fuel will begin to affect Sierra's cost of serving Mt. Wheeler. Absent special circumstances, Mt. Wheeler will become subject to the same ratemaking considerations as are applicable to Sierra's other wholesale customers on its main system.
>
> While Sierra could thereby avoid another rate filing after Mt. Wheeler is connected to its main system, the fact remains that the rate level under Rate Schedule R does not reflect Sierra's cost of serving Mt. Wheeler. Furthermore, when Sierra places the 230 kV transmission line into service in 1975 it will begin to provide all of its customers on its main system with double-ended service through its connections with PG&E in the west and UP&L in the east. It is apparent, therefore, that Sierra should review its Rate Schedule R as soon as practicable thereafter to determine from operating experience the import of that UP&L power upon its cost of serving all of its wholesale customers on its main system, including Mt. Wheeler * * *.[6]

We shall therefore permit Sierra Pacific to place Mt. Wheeler on service under its Rate Schedule R effective December 29, 1975, concurrently with the effective date of the proposed rate increase in Rate Schedule R. We shall accordingly deny Sierra Pacific's request to place Mt. Wheeler on interim rate Schedule R effective August 8, 1975 and apply an interim rate to the service made thereunder. We conclude good cause does not exist to waive our notice requirements in this case. In accordance with our statement in Opinion No. 702, quoted above, Mt. Wheeler may present testimony in the evidentiary hearing hereafter ordered on the question of whether it should continue to be served under Rate Schedule R. or under a separate rate schedule.

The Commission finds. (1) It is necessary and proper in the public interest and to aid in the enforcement of the Federal Power Act, particularly sections 205 and 206 thereof, that the Commission accept for filing Sierra Pacific's proposed tariff sheets reflecting a rate increase and fuel and purchased power adjustment clause tendered on August 25, 1975 and completed on October 29, 1975, suspend their effectiveness and permit them to become effective December 29, 1975 subject to refund.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the Federal Power Act, particularly sections 205 and 205 thereof, that the Commission enter upon a hearing concerning the lawfulness of the proposed rates, charges and conditions of service contained in the Company's rate increase filed August 25, 1975 as completed on October 29, 1975.

(3) Sierra Pacific's request of waiver of our notice requirements to permit it to place Mt. Wheeler on interim Rate Schedule R on August 8, 1975 and permit it to charge that rate until the proposed increase becomes effective should be denied.

(4) Good cause exists to allow the intervention of the above-named petitioners.

[3] See e.g., Central Vermont Public Service Corporation, Docket No. E-9040, orders issued August 5, 1975, September 30, 1975; Green Mountain Power Corporation, Docket No. E-9446, orders issued June 13, 1975 and August 4, 1975; New England Power Company, Docket Nos. E-9316 and E-9140, orders issued August 5, 1975 and October 3, 1975; Georgia Power Company, Docket No. E-9091, orders issued August 5, 1975, September 11, 1975 and September 19, 1975; Philadelphia Electric Company, Docket No. E-9388, order issued September 26, 1975; Rockland Electric Company, Docket No. E-9001, order issued October 14, 1975; Northern States Power Company, Docket No. E-9148, order issued October 14, 1975; Nevada Power Company, Docket No. ER76-40, order issued October 15, 1975.

[4] Pending review in Georgia Power Company v. FPC, No. 75-1940, D.C. Circuit. Application for Stay, denied October 3, 1975.

[4] Fuel Adjustment Clauses in Wholesale Rate Schedule, Docket No. R-479, Order No. 517, issued November 13, 1974.

[5] Sierra Pacific Power Company, Docket Nos. E-7706 et al., Opinion No. 702, issued August 15, 1974.

[6] Opinion No. 702, mimeo at 9.

(5) Prior to the effective date of Sierra Pacific's proposed rate increase, Sierra Pacific should be required to file revised tariff sheets reflecting the elimination of CWIP from its rate base.

The Commission orders. (A) Pursuant to the authority of the Federal Power Act, particularly sections 205 and 206 thereof, the Commission's rules of practice and procedure, and the regulations under the Federal Power Act (18 CFR Ch. I), a public hearing shall be held on March 16, 1976, at 10 a.m., in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, concerning the lawfulness of the rate charges and conditions of service contained in the Company's rate increase filed August 25, 1975 as completed October 29, 1975.

(B) Pending a hearing and final decision thereon that portion of the Company's filing which is not based upon the inclusion of CWIP in the rate base is hereby accepted for filing, suspended and the use thereof deferred until December 29, 1975.

(C) Prior to the effective date of Sierra Pacific's proposed rate increase, Sierra Pacific shall file revised tariff sheets reflecting the elimination of CWIP from rate base.

(D) Sierra Pacific's request of waiver of our notice requirements to permit it to place Mt. Wheeler on interim Rate Schedule R on August 8, 1975 and permit it to charge that rate until the proposed increase becomes effective is hereby denied.

(E) On or before February 3, 1976, the Commission Staff shall serve its prepared testimony and exhibits. On or before February 17, 1976, the Intervenors shall serve their testimony and exhibits. On or before March 2, 1976, Sierra Pacific shall serve its rebuttal testimony and exhibits.

(F) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (see delegation of authority, 18 CFR 3.5 (d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(G) Nothing contained herein shall be construed as limiting the rights of parties to this proceeding regarding the convening of conferences or offers of settlement pursuant to § 1.18 of the Commission's rules of practice and procedure.

(H) The above mentioned petitioners are hereby permitted to intervene in this proceeding, subject to the Rules and Regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in the respective petitions to intervene: *And provided, further,* That the admission of such intervenors shall not be construed as recognition that they or any of them might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(I) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Docket No. RP76-44]

SOUTHERN NATURAL GAS CO.

Proposed Changes in Gas Tariff

DECEMBER 9, 1975.

Take notice that Southern Natural Gas Company, on November 28, 1975, tendered for filing proposed changes in its FPC Gas Tariff, Original Volume No. 3. The proposed changes would increase revenues from a field sale to Sea Robin Pipeline Company under Southern's Rate Schedule F-9 by $32,451 based on an estimated sales volume for the twelve-month period succeeding the proposed effective date of January 1, 1976.

Southern states that this filing is being made to reflect the fixed annual escalation pursuant to § 2.56(a)(3) of the Federal Power Commission's general policy and interpretations.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 22, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-33931 Filed 12-16-75;8:45 am]

[Docket No. ER76-208]

SOUTHWESTERN ELECTRIC POWER CO.

Revisions to Previously Filed Rate Schedule Changes

DECEMBER 8, 1975.

Take notice that on November 24, 1975, Southwestern Electric Power Company (SWEPCO) tendered for filing certain revised sheets which are to replace those pages of the same title and page number filed in the above captioned docket on October 31, 1975. The earlier filing was noticed by the Commission on November 7, 1975.

SWEPCO states that the changes in the revised sheets are minor and do not affect the results contained in the original sheets.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 19, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-33921 Filed 12-16-75;8:45 am]

[Docket No. CP75-358]

TENNESSEE GAS PIPELINE CO.

Order To Show Cause, Setting Date for Formal Hearing, Prescribing Procedures, and Denying Exemption

DECEMBER 10, 1975.

On June 5, 1975, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (TGP), filed in Docket No. CP75-358 an application as supplemented on July 24, 1975, pursuant to section 1(c) of the Natural Gas Act for exemption from jurisdiction of the Commission of its Line 400-1, the 16-inch San Salvador Line, all as more fully set forth in the application on file in this proceeding.

TGP's Line 400-1 was authorized by Commission Order dated July 3, 1946, in Docket No. G-660,[1] and constructed in that year. The 16-inch Line 400-1 is connected at 17 points to, and paralleled along its entire length (98.71 miles) by TGP's Line 400-2, a 26-inch pipe. Line 400-1 can be operated independently or in conjunction with Line 400-2. TGP alleges that because of declining deliverability from the producing area contiguous to these lines Line 400-1 is no longer being used to transport gas certificated for sale in interstate commerce. TGP further contends that Line 400-2 has approximately 249,000 Mcf/d surplus capacity per day. TGP reports that since November 27, 1974, Line 400-1 has been and is being operated as a separate pipeline solely and exclusively for the purpose of transporting intrastate gas, which is received from and redelivered to the Celanese Corporation (Celanese) within the State of Texas, pursuant to a transportation agreement dated December 17, 1957, as amended. The service to Celanese through the interstate facilities commenced January 1, 1958, and involved a commingled stream of Celanese's intrastate gas and TGP's interstate gas flow until November 27, 1974, when the exclusive use of interstate facilities for intrastate gas was initiated.

TGP states that its rates, service, and facilities for the transportation and sale of gas by Line 400-1 are subject to the jurisdiction of the Texas Railroad Com-

[1] 5 FPC 153 (1946).

V 40 I 243 DEC 17 75 XUM

mission, which is exercising jurisdiction.

Upon this set of allegations we have before us an application for an exemption from our jurisdiction based upon section 1(c) of the Natural Gas Act.[2]

The purpose of section 1(c) of the Act is to exempt certain persons from compliance with the provisions of the Act to which they would otherwise be subject as a result of their operations involving "• • • natural gas received by such person within or at the boundary of a state • • •," i.e., gas that is moving in interstate commerce prior to its delivery to the applicant, which gas would subject the applicant to the Commission's jurisdiction. Section 152.3(c) of the Commission's rules and regulations concerning section 1(c) filings specifically states "• • • that all of the natural gas which applicant receives from out-of-state sources is and will be ultimately consumed within the State in which the operations sought to be exempted are conducted."

We have continually ruled that section 1(c) applies solely to interstate gas received within or at the boundary of a state, which gas is totally consumed within that state.[3]

The natural gas which flows through TGP's Line 400–1 is totally intrastate in character[4] prior to receipt by TGP. Consequently, the operations and facilities proposed to be exempted, are not within the contemplation of section 1(c).

We note further that another common element in section 1(c) exemptions we have granted to interstate pipeline companies is that of separate and unconnected systems, wherein the exempted facilities have been isolated from the main transmission system.[5] The instant case presents a pipeline configuration which is actually a loop line inextricably connected to the larger main line at 17 points by valves and certificated, inter alia, to "• • • become integral parts of applicant's transmission pipeline system and will be used in the transportation and sale of natural gas in interstate commerce."[6] At its sole discretion, TGP has "closed the values" in effecting an isolated system. The proposal is tantamount to exempting capacity in a single main transmission line from the provisions of the Act, which is not consonant with our interpretation of the section 1(c) exemption.

Therefore, after fully considering the allegations of TGP we find that TGP's request for an exemption pursuant to section 1(c) of the Natural Gas Act must hereinafter be denied.

Aside from the issue of the section 1(c) exemption requested, the application reveals that an unauthorized service has been conducted by TGP since 1958 utilizing certificated interstate facilities (Line 400–1) for the intrastate transportation of natural gas. TGP's application further reveals that since November 27, 1974, Line 400–1, a certificated facility, has been exclusively utilized for an intrastate service. In view of this action and its duration, we will issue an order requiring TGP to show cause why its aforecited actions should not to be held to be violations of the Natural Gas Act, particularly sections 7(b) and 7(c) thereof.

We will further order TGP to demonstrate how it treated the Line 400–1 with regard to each of its filings since January 1, 1958, for rate increases. Thus, information should be filed according to docket number for each rate proceeding since the inception of the service to Celanese.

The Commission finds. (1) TGP, a Delaware Corporation having its principal place of business in Houston, Texas, is a "natural-gas company" within the meaning of the Natural Gas Act as heretofore found by the Commission in its order of July 12, 1947, in Docket No. G–910 (6 FPC 777).

(2) TGP has failed in its application in Docket No. CP75–358 to demonstrate that the hereinabove mentioned facilities and transportation of natural gas should be granted an exemption from Commission jurisdiction pursuant to Section 1(c) of the Natural Gas Act, therefore said exemption will be hereinafter denied.

(3) It may be that TGP has been and continues to be in violation of the Natural Gas Act and the Commission's regulations thereunder.

(4) It is necessary and appropriate that a public hearing be held on the matters involved and issues presented in this proceeding as hereinbefore described.

The Commission orders. (A) The application of TGP in Docket No. CP75–358 for exemption of the hereinbefore mentioned facilities and transportation of natural gas from the Commission's jurisdiction pursuant to section 1(c) of the Natural Gas Act is denied.

(B) TGP shall show cause, if any there be, at a hearing directed in paragraph (C) below, why it should not be held in violation of the Natural Gas Act and in particular section 7(b), 7(c) and 4 thereof as well as the Commission's regulations thereunder for not obtaining authorization from the Commission before abandoning jurisdictional facilities and for rendering a transportation service through jurisdictional facilities without certificate authorization and the related tariff filing.

(C) Pursuant to the authority of the Natural Gas Act, particularly sections 7, 14, 15 and 16 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing concerning the matters involved and issues presented in this proceeding as hereinbefore set forth will be held in a hearing room of the Federal Power Commission, Washington, D.C., commencing at 10 a.m. (e.s.t.) on February 3, 1976. TGP shall file with the Secretary of the Commission and serve upon the Presiding Administrative Law Judge, the Commission Staff and all other parties, testimony and exhibits addressing the specific issues set forth in this order, including, but not limited to, the material relating to the rate treatment accorded the subject facilities, as well as any other testimony and exhibits, which TGP proposes to offer at the hearing on or before January 19, 1976.

(D) An Administrative Law Judge to be designated by the Chief Administrative Law Judge for the purpose (see delegation of authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding and shall prescribe relevant procedural matters not herein provided.

By the Commission.[7]

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-33942 Filed 12-16-75;8:45 am]

[Docket No. CI76-269]

TEXACO INC.

Application

DECEMBER 9, 1975.

Take notice that on November 11, 1975, Texaco Inc. (Applicant), P.O. Box 52332, Houston, Texas 77052, filed in Docket No. CI76–269 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Columbia Gas Transmission Corporation (Columbia), all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that the gas proposed to be sold to Columbia is produced in Eugene Island Block 313, offshore Louisiana, and would be delivered at the inlet side of metering facilities on Applicant's platforms in Eugene Island Block 313 and Eugene Island Block 338, offshore Louisiana. It is stated that all commercially producable nautral gas reserves from the surface to the limit of each well bore on Platform "A" in Block 313 are committed to Columbia. The contract for the subject sale provides for a rate of $1.63 per Mcf at 15.025 psia; however, Applicant states that it is willing to accept a certificate conditioned to the rate set forth in § 2.56a of the Commission's general policy and interpretations (18 CFR 2.56a).

By letter accompanying the subject application Applicant requests that the Commission waive paragraph (d) of § 2.83 of the general policy and interpretations (18 CFR 2.83(d)). Applicant notes in the application that the contract for this sale contains no specific quantity delivery obligation and states that the obligations of Applicant and Columbia are based on a total quantity consisting of all available oil well gas production plus 90 percent of Applicant's gas well gas delivery capacity, which total quantity is subject to the physical capability of Applicant's wells to produce gas from time to time during the term of the contract under prudent operating practices and subject to the customary contractual reservations of gas for use in field and operating operations.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 30, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-33932 Filed 12-16-75;8:45 am]

[Docket No. CP61–79]

TEXAS GAS TRANSMISSION CORP. AND UNITED GAS PIPE LINE CO.

Petition To Amend

DECEMBER 9, 1975.

Take notice that on November 17, 1975, Texas Gas Transmission Corporation (Texas Gas), P.O. Box 1160, Owensboro, Kentucky 42301, and United Gas Pipe Line Company (United), 1500 Southwest Tower, Houston, Texas 77002, filed in Docket No. CP61–79 a joint petition to amend the order issued in said docket on December 19, 1960 (24 FPC 1099), as amended, pursuant to section 7(c) of the Natural Gas Act by authorizing the exchange of gas between Petitioners at four additional delivery points in Webster, Ouachita, Acadia, and Allen Parishes, Louisiana, all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

Pursuant to the certificate issued in the subject docket on December 19, 1960, as amended, United and Texas Gas make exchanges of natural gas at various points under an exchange agreement between them dated August 30, 1960, as amended. Petitioners state that by a letter agreement dated August 6, 1975, Petitioners have further amended the exchange agreement to add four additional proposed points of delivery as follows:

1. At the outlet of the Beacon Gasoline Plant in Webster Parish, Louisiana,
2. At the outlet of the Calhoun Gasoline Plant in Ouachita Parish, Louisiana,
3. At a proposed exchange point to be constructed by United where United's 6-inch pipeline intersects Texas Gas's 4-inch pipeline in Acadia Parish, Louisiana, and
4. At the interconnection of United's 6-inch pipeline and Texas Gas's 8-inch pipeline in Allen Parish, Louisiana.

Petitioners state that the facilities required to be constructed in order to establish the proposed points of delivery in Acadia Parish are a 6-inch meter station, 300 feet of 4-inch pipeline and appurtenant facilities to be installed by United and a 2-inch side valve and related equipment between Texas Gas's pipeline and United's pipeline to be installed by Texas Gas. The estimated cost of the proposed facilities is said to be $65,093 of which Texas Gas's estimated cost will be $2,220, while United's estimated cost will be $62,873. Petitioners state that the additional delivery points will allow for greater flexibility in delivering gas from one party to the other in case of emergency or under other circumstances where such deliveries would be beneficial to fulfill the obligations of the Petitioners.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before December 30, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-33933 Filed 12-16-75;8:45 am]

[Docket No. CP76–181]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Application

DECEMBER 9, 1975.

Take notice that on December 3, 1975, Transcontinental Gas Pipe Line Corporation (Transco); Post Office Box 1396; Houston, Texas 77001, filed in Docket No. CP76–181 an application pursuant to section 7 of the Natural Gas Act, as amended, the rules and regulations of the Federal Power Commission issued thereunder and § 2.79 of the Commission's general policy and interpretations, for a certificate of public convenience and necessity authorizing Transco to transport a quantity of natural gas estimated to be up to 700 Mcf per day on an interruptible basis for Dan River Inc. (Dan River), an industrial customer of the City of Danville, Virginia (Danville), a Transco CD–2 customer, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Transco states that the gas will be purchased by Dan River from production in the North Starks Field, Calcasieu Parish, Louisiana and delivered to Transco at a mutually agreeable existing tap and valve assembly on Transco's Main Line A in Calcasieu Parish, Louisiana. Transco will redeliver the transportation volumes to existing points of delivery to Danville for the account of Dan River. Dan River will pay Transco an initial charge of 22 cents per Mcf delivered to Danville for Dan River's account, and Transco will retain 3.8 percent of the transportation volumes for compressor fuel and line loss make-up.

The application states that the gas is intended for high-priority process use in Dan River's plant.

It appears reasonable and in the public interest to shorten the notice period for filing interventions and protests. Therefore, any person desiring to be heard or to make any protests with reference to said application should on or before December 19, 1975, file with the

[1] Section 1(c) The provisions of this Act shall not apply to any person engaged in or legally authorized to engage in the transportation in interstate commrece or the sale in interstate commerce for resale, of natural gas received by such person from another person within or at the boundary of a State if all the natural gas so received is ultimately consumed within such State, or to any facilities used by such person for such transportation or sale, provided that the rates and service of such person and facilities be subject to regulation by a State commission. The matters exempted from the provisions of this Act by this subsection are hereby declared to be matters primarily of local concern and subject to regulation by the several States. A certification from such State commission to the Federal Power Commission that such State commission has regulatory jurisdiction over rates and service of such person and facilities and is exercising such jurisdiction shall constitute conclusive evidence of such regulatory power or jurisdiction.

[2] Consolidated Gas and Utilities Corporation, 13 FPC 1459 (1954); United Gas Pipe Line Company, 35 FPC 172 (1966); Texas Gas Transmission Corporation, 38 FPC 855 (1967); Utah Gas Service Company, 38 FPC 1219 (1967; and Arkansas-Louisiana Gas Company, 34 FPC 1578 (1965).

[3] By letter filed August 21, 1975, in response to the Commission Staff's inquiry, Celanese advised that the gas it delivers to TGP for transportation is purchased from Amoco Production Company and emanates from, and is transported to TGP wholly within the State of Texas via Celanese's own facilities. At no time prior to receipt by TGP is the subject gas commingled with any other intrastate or interstate stream.

TRANSCONTINENTAL GAS PIPE LINE CORP.

Application

DECEMBER 9, 1975.

Take notice that on December 3, 1975, Transcontinental Gas Pipe Line Corporation (Transco); Post Office Box 1396; Houston, Texas 77001, filed in Docket No. CP76-184 an application pursuant to section 7 of the Natural Gas Act, as amended, the rules and regulations of the Federal Power Commission issued thereunder and § 2.79 of the Commission's general policy and interpretations, for a certificate of public convenience and necessity authorizing Transco to transport a quantity of natural gas estimated to be 500 Mcf per day on an interruptible basis for Corning Glass Works (Corning), an existing industrial customer of the City of Danville, Virginia (Danville), a Transco CD-2 customer, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Transco states that the gas will be purchased by Corning from production in the Monroe Field, Union, Ouachita and Morehouse, Parishes, Louisiana and delivered to Transco at a mutually agreeable existing authorized exchange point between United Gas Pipe Line Company (United) and Transco. Transco will redeliver the transportation volumes to existing points of delivery to Danville for the account of Corning. Corning will pay Transco an initial charge of 22 cents per Mcf delivered to Danville for Corning's account, and Transco will retain 3.8 percent of the Transportation volumes for compressor fuel and line loss make-up.

The application states that the gas is intended for high-priority process use in Corning's Danville, Virginia plant.

It appears reasonable and in the public interest that the period for filing interventions and protests be shortened. Therefore, any person desiring to be heard or to make any protests with reference to said application should on or before December 19, 1975, file with the Federal Power Commission; Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP76-185]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Application

DECEMBER 9, 1975.

Take notice that on December 3, 1975, Transcontinental Gas Pipe Line Corporation (Transco); Post Office Box 1396; Houston, Texas 77001, filed in Docket No. CP76-185 an application pursuant to section 7 of the Natural Gas Act, as amended, the rules and regulations of the Federal Power Commission issued thereunder and § 2.79 of the Commission's general policy and interpretations, for a certificate of public convenience and necessity authorizing Transco to transport a quantity of natural gas estimated to average 1,300 Mcf per day on an interruptible basis for Lithium Corporation of America (LCA), an existing industrial customer of Public Service Company of North Carolina, Inc. (Public Service), a Transco CD-2 customer, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Transco states that the gas will be purchased by LCA from production in the Monroe Field, Union, Ouachita and Morehouse Parishes, Louisiana and delivered to Transco at a mutually agreeable existing authorized exchange point between United Gas Pipe Line Company (United) and Transco. Transco will redeliver the transportation volumes to existing points of delivery to Public Service for the account of LCA. LCA will pay Transco an initial charge of 22 cents Mcf delivered to Public Service for LCA's account, and Transco will retain 3.8 percent of the transportation volumes for compressor fuel and line loss make-up.

The application states that the gas is intended for high-priority process use in LCA's Bessemer City, North Carolina plant.

It appears reasonable and in the public interest that the period for filing interventions and protests be shortened. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before December 19, 1975, file with the Federal Power Commission; Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestant parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP72-182]

TRANSCONTINENTAL GAS PIPE LINE CORP. AND TEXAS GAS TRANSMISSION CORP.

Petition To Amend

DECEMBER 9, 1975.

(Take notice that on November 24, 1975, Transcontinental Gas Pipe Line Corporation (Transco), P.O. Box 1396, Houston, Texas 77001, and Texas Gas Transmission Corporation (Texas Gas), 3800 Frederica Street, Owensboro, Kentucky 42301, jointly Petitioners, filed in Docket No. CP72-182, a petition to amend the order of the Commission of June 27, 1972 (47 FPC 1621), issuing a certificate of public convenience and necessity in said docket pursuant to section 7(c) of the Natural Gas Act to include the Tigre Lagoon Field, Vermilion and Iberia Parishes, Louisiana, as an authorized point of delivery of natural gas by Transco to Texas Gas for exchange, all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioners state that Tigre Lagoon Field in Vermilion and Iberia Parishes was authorized as a delivery point by Texas Gas to Transco by order of the Commission of October 16, 1974. It is further stated that both Transco and Texas Gas purchase gas from various wells in the Tigre Lagoon Field, and that one of the wells to which Texas Gas is connected, the Union Oil Company of California's Brossard No. 8 Well, has been worked over and recompleted in shallower horizons, with the gas from said well being dedicated to Transco. To avoid the duplication of facilities it is proposed in the instant petition to amend that the Tigre Lagoon Field be authorized as a point of delivery of natural gas for Transco to Texas Gas in addition to the present authorization for delivery from Texas Gas to Transco.

The daily volume of gas estimated to be made available to Transco by the proposed delivery point is not expected to exceed 2,000 Mcf per day. Petitioners state that no charge is proposed for the exchange since Transco's gas delivered to Texas Gas would be redelivered to Transco at another location in the Tigre Lagoon Field.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before December 29, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP76-42]

TRUNKLINE GAS CO.

Revision to Tariff

DECEMBER 9, 1975.

Take notice that on November 24, 1975, Trunkline Gas Company (Trunkline) tendered for filing Eighth Revised Sheet No. 37 to its FPC Gas Tariff, Original Volume No. 2. Trunkline states the Revised Sheets reflects a redetermination of the price to be paid under Rate Schedule F-2 as prescribed by the Commission in Ordering Paragraph (A) (a-3) of Opinion No. 699-H and in accordance with the provisions of its Rate Schedule.

Trunkline requests an effective date of January 1, 1976, for the Revised Sheet.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 22, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-9198]

WISCONSIN POWER AND LIGHT CO.

Proposed Settlement

DECEMBER 8, 1975.

Take notice that on November 28, 1975, Wisconsin Power and Light Company (WP&L or Company) filed a Stipulation in the above-captioned docket pursuant to § 1.18 of the Commission's rules of practice and procedure. The Stipulation, signed by the Company, the Cooperative Intervenors, and the Municipal Wholesale Power Group as Intervenors, purports to settle all matters in controversy in this docket, which was initiated on December 30, 1974, when WP&L tendered for filing proposed changes in its W-2 and W-3 Electric Service Tariff, Wholesale for Resale Charges.

In the Stipulation, WP&L states that by negotiations, and as a result of conferences among all parties, including Commission Staff, said parties have jointly agreed to recommend to the Commission the provisions as contained in the subject Stipulation as a final settlement in this proceeding.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 18, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-297]

WISCONSIN PUBLIC SERVICE CORP.

Tariff Change

DECEMBER 9, 1975.

Take notice that Wisconsin Public Service Corporation on November 26, 1975, tendered for filing proposed changes in its Federal Power Commission Electric Service Tariff No. 32. Proposed changes in revenue as a result of this amendment are unknown as the quantities of energy to be exchanged are indeterminate. Proposed changes modify the Fuel Clause Adjustment to the FPC format and allow for the purchases of General Purpose Energy.

Copies of the filing were served upon the City of Marshfield.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 19, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

CAPCO CORP.

Formation of Bank Holding Company

CAPCO Corporation, Lincoln, Nebraska, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of all of the voting shares (less directors' qualifying shares) of Citizens State Bank, Lincoln, Nebraska. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 to be received not later than January 12, 1976.

Board of Governors of the Federal Reserve System, December 10, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.75-33967 Filed 12-16-75;8:45 am]

CITIZENS BANCORP

Order Approving Formation of Bank Holding Company and Acquisition of Citizens Development Company

Citizens Bancorp, Albany, Oregon, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to Citizens Valley Bank, Albany, Oregon ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of the shares of the successor organization is treated herein as the proposed acquisition of shares of Bank.

Applicant has also applied, pursuant to section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for the Board's approval to acquire 100 percent of the voting shares of the successor by merger to Citizens Development Company, Albany, Oregon ("CDC"), a company that presently engages in making loans; purchasing notes and contracts; and owning and leasing real and personal property.[1] The activities that Applicant proposes to engage in have been determined by the Board to be closely related to banking (12 CFR 225.4(a)(1)).

Notice of the applications, affording opportunity for interested persons to submit comments and views, has been given in accordance with sections 3 and 4 of the Act (40 FR 43095). The time for filing comments and views has expired, and the applications and all comments received have been considered by the Board in light of the factors set forth in section 3(c) of the Act, and the considerations specified in section 4(c)(8) of the Act.

Applicant was organized by the directors of Bank for the purpose of becoming a bank holding company through acquisition of Bank. Bank, with deposits of approximately $62 million, holds approximately 1 percent of the total commercial bank deposits in Oregon[2] and, based on June 30, 1974, branch deposit data, is the second largest of 5 banks located in the relevant banking market.[3] Inasmuch as Applicant has no existing subsidiary banks and the proposal represents merely a restructuring of Bank's ownership, the acquisition of Bank by Applicant would have no adverse effects on competition within the area served by Bank. Accordingly, it is concluded that competitive considerations are consistent with approval of the application.

The financial condition, managerial resources, and prospects of Bank are regarded as satisfactory and consistent with approval of the application. The management of Applicant is satisfactory, and Applicant's financial condition and prospects, which are dependent upon the profitable operations of both Bank and CDC, appear favorable. Accordingly, considerations relating to banking factors are consistent with approval of the application. Considerations relating to the convenience and needs of the communities to be served are also regarded as being consistent with approval of the application to acquire Bank. It is the Board's judgment that consummation of the proposal to form a bank holding company would be consistent with the public interest and the application should be approved.

Applicant has also applied to the Board to acquire all the voting shares of CDC pursuant to § 225.4(a)(1) of Regulation Y. CDC was organized by directors of Bank in 1960, and CDC and Bank have been affiliated through identical shareholders and identical boards of directors since the formation of CDC in 1960. The proposed subsidiary would engage in the activities of making personal and industrial loans, including loans on a participation basis with Bank, and purchasing discount contracts and mortgages. Such activities are to be conducted on the premises of Bank and of its branch offices. Applicant states that the other activities presently engaged in by CDC involving the ownership and leasing of certain real and personal property will be discontinued and such properties disposed of within a period of two years from the date as of which Applicant becomes a bank holding company, as required by section 4(a)(2) of the Act.[4] It does not appear that the acquisition of CDC would have any significant effect on existing or future competition. On the other hand, approval of the application would assure residents of the area of the continuance of a convenient source of the services described above, which factor the Board regards as being in the public interest. Furthermore, there is no evidence in the record indicating that consummation of the proposal would result in any undue concentration of resources, unfair competition, conflicts of interests, unsound banking practices or other adverse effects on the public interest.

Based on the foregoing and other considerations reflected in the record, the Board has determined that the considerations affecting the competitive factors under section 3(c) of the Act and the balance of the public interest factors the Board must consider under section 4(c)(8) both favor approval of Applicant's proposals.

Accordingly, the applications are approved for the reasons summarized above. The acquisition of Bank shall not be made before the thirtieth calendar day following the effective date of this Order; and neither the acquisition of Bank nor commencement of the proposed non-banking activities shall be accomplished later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of San Francisco pursuant to delegated authority. The determination as to Applicant's proposed non-banking activities is subject to the conditions set forth in § 224.4(c) of Regulation Y and the Board's authority to require reports by, and make examination of, holding companies and their subsidiaries and to require such modification or termination of the activities of a bank holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of

[1] Applicant will discontinue the owning and leasing of certain real and personal property within a period of two years from the date it becomes a bank holding company.

[2] All banking data are as of June 30, 1975, unless otherwise indicated.

[3] The market is approximated by Linn County.

[4] CDC has also, from time to time, sold debentures to the general public, the proceeds of which were invested in loan participations. In connection with this application, Applicant has indicated that, in the future, debentures will not be sold by Bank's employees nor on the premises of Bank. Moreover, debentures issued in the future will clearly indicate that they are not obligations of any bank, are not guaranteed by any bank, and are not covered by FDIC deposit insurance.

the Act and the Board's regulations issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[5] effective December 9, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

GENERAL SERVICES ADMINISTRATION

REGIONAL PUBLIC ADVISORY PANEL ON ARCHITECTURAL AND ENGINEERING SERVICES

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of a meeting of the Regional Public Advisory Panel on Architectural and Engineering Services, Region 4, January 7, 1976, from 10 a.m. to 4 p.m., Room 5A, 1776 Peachtree Street, NW., Atlanta, Georgia 30309. The meeting will be devoted to the initial step of the procedures for screening and evaluating the qualifications of architect-engineers under consideration for selection to furnish professional services for the prototypical design for the proposed Internal Revenue Service Tax Administration System Computer Building which may be located at various sites throughout the United States. If the program is approved and funded by Congress, site adaption at the Covington, Kentucky facility may be included in the contract. Frank and open discussion of the professional qualifications of the firms being considered is essential to insure selection of the best qualified firms. Accordingly, pursuant to a determination that it will be concerned with a matter listed in 5 U.S.C. 552(b)(5) the meeting will not be open to the public.

Dated: December 5, 1975.

J. E. SMITH,
Acting Regional Administrator.

NATIONAL SCIENCE FOUNDATION

ADVISORY PANEL FOR HUMAN CELL BIOLOGY

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the National Science Foundation announces the following meeting:

Name: Advisory Panel for Human Cell Biology.
Date: January 10, 1976.
Time: 9:00 a.m.
Place: Room 338, National Science Foundation, 1800 G Street, NW., Washington, D.C.
Type of meeting: Closed.
Contact person: Dr. Herman W. Lewis, Acting Program Director, Human Cell Biology, National Science Foundation, Rm. 326, Washington, D.C. 20550, telephone (202) 632-4200.
Purpose of advisory panel: To provide advice and recommendations concerning support for research in Human Cell Biology.
Agenda: To review and evaluate research proposals and projects as part of the selection process for awards.
Reason for closing: The proposals and projects being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within the exemptions of 5 U.S.C. 552(b), (4), (5) and (6).
Authority to close meeting: The determination made on February 21, 1975, by the Director of the National Science Foundation pursuant to provisions of section 10(d) of Pub. L. 92-463.

GAIL A. MCHENRY,
Acting Committee Management Officer.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–261]

CAROLINA POWER & LIGHT CO.

Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commisison) has issued Amendment No. 16 to Facility Operating License No. DPR–23 issued to Carolina Power & Light Company which revised Technical Specifications for operation of the H.B. Robinson Steam Electric Plant Unit No. 2, located in Darlington County, Hartsville, South Carolina. The amendment is effective as of its date of issuance.

This amendment deletes provisions in the Technical Specifications relating to the requirement for certain local leak rate testing for the Robinson-2 containment system.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Ch. I, which are set forth in the license amendment. Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

For further details with respect to this action, see (1) the application for amendment dated December 3, 1975, (2) Amendment No. 16 to License No. DPR–23, with Change No. 41 and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Hartsville Memorial Library, Home and Fifth Avenues, Hartsville, South Carolina.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 5th day of December, 1975.

For The Nuclear Regulatory Commission.

ROBERT W. REID,
Chief, Operating Reactors Branch No. 4, Division of Reactor Licensing.

[FR Doc.75–33894 Filed 12–16–75;8:45 am]

[Docket No. 50–409]

DAIRYLAND POWER COOPERATIVE (LA CROSSE BOILING WATER REACTOR)

Determination With Respect to Request for Variance From the Interim Acceptance Criteria

On August 5, 1974, The Atomic Energy Commission's Regulatory staff (now NRC staff) issued to Dairyland Power Cooperative (the licensee) a Determination (38 FR 29217, August 14, 1974) which granted a variance extending the time until November 1, 1975, for the La Crosse Boiling Water Reactor (LACBWR or the facility) to achieve compliance with the Commission's Interim Acceptance Criteria (IAC) for Emergency Core Cooling Systems (ECCS) for Light-Water Power Reactors set forth in the Commission's Interim Policy Statement (26 FR 12247, June 29, 1971).

By letter dated October 10, 1975, the licensee requested that the November 1, 1975, date for achieving compliance with the IAC for the facility be extended to March 1, 1976.

On October 29, 1975, the Director of Nuclear Reactor Regulation issued concurrently a Determination extending the November 1, 1975, date for compliance with the IAC to November 21, 1975, and a Notice of Request for Variance. The Determination and the Notice were published in the FEDERAL REGISTER (40 FR 51507) on November 5, 1975. The purpose of this extension of time was to permit the NRC staff to carefully review the request for variance and any public comments thereon. The licensee's October 10, 1975, request (received 15 days prior to the November 1, 1975, deadline for achieving compliance with the IAC) did not permit sufficient time for public comment and careful consideration. The notice advised that the Commission was considering granting a variance from the IAC. This notice also invited the submission of views and comments by any interested persons.

On November 18, 1975, the Director of Nuclear Reactor Regulation issued a Determination extending the November 21, 1975, date for achieving IAC compliance to Demember 5, 1975. This extension of time was granted because a delay between the time of issuance of the Notice by the Nuclear Regulatory Commission and publication in the FEDERAL REGISTER provided only two days between the notice period termination date (November 19, 1975) and the expiration date (November 21, 1975) of the October 29, 1975, Determination. The NRC staff did not believe that the two days would provide sufficient time for receipt and meaningful review of comments from members of the public.

On November 18 and 20, 1975, comments were filed with the Commission, addressing the Notice of Request for Variance. In substance, the comments stated that the facility does not meet the requirements of the IAC and therefore further variances should not be granted.

By Determination of October 29, 1975, and subsequent Determination of November 18, 1975, we extended the date by which operation of the facility must be in conformity with the IAC from November 1, 1975, to December 5, 1975. This extension was granted so that we might carefully review the Dairyland Power Cooperative variance request and comments from interested persons before making a final disposition of this request. Having completed these reviews, we find that it would be in the public interest to grant a variance subject to the terms and conditions discussed below. In conjunction with this Determination we have addressed the comments provided by interested parties.

Dairyland Power Cooperative's efforts to upgrade the ECCS compatibility of the facility have received close scrutiny by the staff of the Commission and that of its predecessor, the Atomic Energy Commission. See Determination dated June 28, 1974; extending July 1, 1974, date for compliance with Interim Acceptance Criteria to August 5, 1974, (39 FR 24942) Determination, dated August 5, 1974, (38 FR 29217, August 14, 1974) granting variance from IAC until November 1, 1975; Determination dated October 29, 1975, (40 FR 51507, November 5, 1975) granting variance from IAC until November 21, 1975; Determination dated November 18, 1975 (40 FR 54480, November 24, 1975) granting variance from IAC until December 5, 1975. Each of these determinations granting variances or extensions of time with respect to actions associated with upgrading of the LACBWR ECCS was predicated upon findings that reasonable efforts were being made to accomplish ECCS modifications at the earliest practicable date, and that continued operation of the reactor would not adversely affect the health and safety of the public.

These findings were premised upon two principal factors. First, since the facility could meet the performance requirements of the IAC under most postulated accident conditions (though required redundancy of emergency cooling systems and power sources was missing), reliance was placed on the extremely low probability of a loss of coolant accident (LOCA) occurring simultaneously with a loss of all offsite power sources. Second, increased assurance with respect to the adequacy of protection was based upon:

(a) LACBWR capability to detect primary coolant leaks or potential leaks before cracks could propagate appreciably,

(b) trebled in-service inspection frequency,

(c) modifications to be performed to increase the reliability of installed systems in consideration of long term operation, and

(d) special reporting requirements with respect to continued efforts to upgrade the facility's ECCS.

To date, plant modifications and procedures that have been completed or implemented in accordance with the conditions of the August 5, 1974 Determination to increase the reliability of installed emergency core cooling systems and associated power supplies are as follows:

(1) The existing on-site emergency diesel generator has been modified to be started by a low reactor vessel water signal in addition to the existing automatic start on low essential bus voltage. This modification will provide emergency on-site power more expediently in accident situations if off-site power is lost.

(2) An additional high reactor vessel water level switch has been installed to stop the high pressure core spray pumps at a high reactor water level of 19 inches (Safety Evaluation dated August 8, 1975). This modification will serve to further decrease the probability of single failure in the ECCS.

(3) Additional switches have been installed in series with the boron-emergency core spray system control value solenoids. These switches will eliminate the possibility of a single failure (the boron injection push button switch that could otherwise energize the control valves diverting emergency core coolant) from rendering the ECCS inoperable.

(4) The frequency of the existing diesel generator start test has been increased to bi-weekly. Increasing the diesel generator start test frequency will decrease the probability of a malfunction occurring when the unit is called upon to perform.

(5) In addition to these modifications and the progress reports required by the determination of August 5, 1974, LACBWR has produced approximately 37,000 Megawatt-hours of electrical energy at a reactor power level of 95 percent without any major problems or incidents. During this period an inspection of all pipe welds was performed in accordance with the NRC Inspection & Enforcement Bulletin No. 75–01A; no defects or leaks were observed.

(6) In accordance with our request (AEC letter, dated May 8, 1974) the licensee submitted an analysis based on the ECCS regulation identified in 10 CFR 50.46, and Appendix K. We have evaluated the analysis performed by the licensee to determine whether it conforms with the essential elements of those requirements of Appendix K to 10 CFR Part 50 which are applicable to stainless steel clad fuel in the LACBWR core and have found that LACBWR meets the intent of the rule. To further assess the reliability of the modifications performed and to assure conformance with current rules and regulations regarding ECCS, we have requested the licensee to evaluate their systems to specifically determine where they may be susceptible to single failure and propose modifications if appropriate. The requested analysis is forthcoming. Based on our review of the LACBWR ECCS system we find that, with the exception of the planned diesel generator modification and some minor modifications which may evolve as a result of the forthcoming single failure analysis, the facility meets the requirements of the IAC.

The justification relied upon for the presently requested variance from the IAC is the same as that which supported the grant of previous IAC variances for LACBWR. As discussed above, such variances for this facility rested not only upon the extremely low probability of a loss-of-coolant accident simultaneously with a loss of all off-site power, but also upon heightened in-service inspection frequency and other measures designed to increase the reliability of the present ECCS. Since these considerations remain unchanged, they continue to provide reasonable assurance that operation of the facility beyond December 5, 1975, will not adversely affect the health and safety of the public.

The licensee's request for variance stated that due to equipment delays and expected energy needs in the area, application of the IAC to the facility is not practicable by November 1, 1975, and that an extension until March 1, 1976, to achieve IAC compliance was warranted because of energy needs in the licensee's service area. Since receipt of the request we have met with licensee and have reviewed their proposed schedule for completion of the modifications and the various equipment delivery schedules. In light of our general knowledge of installation requirements and the procurement situation for nuclear reactor grade equipment and our recognition that the licensee has taken all reasonable steps that could result in shortening of the diesel generator installation schedule, we are satisfied that the present schedule for having all additional components delivered on-site by January 22, 1976, represents a reasonable minimum time for receipt of equipment and that no other reasonable alternatives can be employed to further improve the schedule. In addition, we recognize that further delays in component delivery may occur which are beyond the licensee's control. However, we have also assessed the energy requirements of the area served by the licensee and have concluded that cessation of plant operation by March 1, 1976, will not adversely affect the licensee's energy commitment to the area. We have therefore concluded that good cause exists for granting a further variance extending the date for compliance with the IAC for this facility, and that it is in the public interest to allow LACBWR to operate until the critical items needed to complete the diesel generator modification are delivered on-site, and installed, and all wiring completed which can be performed while the facility is in operation, or until March 1, 1976 (whichever is earlier) based on our conclusion that the public health and safety will not be adversely affected, and on consideration of the licensee's assessment that the unavailability of LACBWR from December 5, 1975 to March 1, 1976, could necessitate the use of approximately eight million gallons of fuel oil or purchased power for replacement capacity representing a differential cost increase of approximately 2.4 million dollars, the bulk of which would be passed on to the consumer.

We have considered all the comments submitted to the Commission by interested parties, in response to the November, 5, 1975, Notice, and have addressed all but one of these concerns in the preceding paragraphs.

The remaining item states that variances granted after November 1, 1975, could have been avoided because the licensee's August 26, 1975, progress report on IAC indicated that late delivery of key items would hamper their effort to comply with the IAC by November 1, 1975. This was brought to our attention early in July 1975 and discussed with the licensee. During these discussions and subsequent discussions in early October 1975, the licensee stated that it was their intention to cease operation of the facility on November 1, 1975, and to remain shutdown until such time that the diesel generator modifications were completed. However, due to unscheduled outages of the licensee's fossil plants, the licensee reassessed their energy requirements and concluded that continued operation of LACBWR would provide the voltage regulation necessary to insure the security of the utility system serving the area. Thus on October 10, 1975, DPC requested a variance from the IAC to extend the IAC compliance date to March 1, 1976 for the facility.

Based on the foregoing considerations, we find that cessation of operation of the licensee's facility on December 5, 1975, is not warranted, and the date by which operation of the facility must be brought into conformity with the IAC is hereby extended through March 1, 1976, subject to the following conditions:

(1) Dairyland Power Cooperative shall exert its best efforts to complete the proposed ECCS modifications at the earliest possible date.

(2) The bi-weekly start testing of the existing diesel generator shall remain in effect until such time that the facility conforms to the IAC.

(3) Dairyland Power Cooperative shall report periodically, but not less than once every three weeks commencing with the date of this Determination, to the Director of Nuclear Reactor Regulation, its progress in attempting to achieve

V40243 DEC 17 75 XUM

compliance with the IAC. Should these reports reveal that the licensee is not pursuing such compliance in a reasonably diligent manner, the variance may be subject to revocation.

(4) This extension shall expire on March 1, 1976.

Dated at Bethesda, Md., this 4th day December, 1975.

For the Nuclear Regulatory Commission.

BEN C. RUSCHE,
Director, Office of Nuclear Reactor Regulation.

DUKE POWER CO. (PERKINS NUCLEAR STATION, UNITS 1, 2 AND 3)

Assignment of Atomic Safety and Licensing Appeal Board

Notice is hereby given that, in accordance with the authority in 10 CFR 2.787(a), the Chairman of the Atomic Safety and Licensing Appeal Panel has assigned the following panel members to serve as the Atomic Safety and Licensing Appeal Board for this proceeding:

Alan S. Rosenthal, Chairman
Dr. Lawrence R. Quarles
Richard S. Salzman

Dated: December 10, 1975.

MARGARET E. DU FLO,
Secretary to the Appeal Board.

[Docket No. P-636-A]

FLORIDA POWER & LIGHT CO.

[TWO UNITS]

Receipt of Partial Application for Construction Permits and Facility Licenses: Time for Submission of Views on Antitrust Matters

DECEMBER 17, 1975.

Florida Power & Light Company (the applicant), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, has filed one part of an application, dated July 14, 1975, in connection with its plans to construct and operate two nuclear power reactors. At this time, final decisions have not been reached with respect to site selection, and it is possible that more than one site will be utilized. The portion of the application filed contains the information requested by the Attorney General for the purpose of an antitrust review of the application as set forth in 10 CFR Part 50, Appendix L.

The remaining portion of the application, consisting of a Preliminary Safety Analysis Report accompanied by an Environmental Report, pursuant to § 2.101 of Part 2, is expected to be filed during 1976. Upon receipt of the remaining portions of the application dealing with radiological health and safety and environmental matters, separate notices of receipt will be published by the Commission including an appropriate notice of hearing.

A copy of the partial application is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., 20555. As soon as a site is selected, a Local Public Document Room will be established where related documents will be made available for public inspection. Docket No. P-636-A has been assigned to the application and it should be referenced in any correspondence relating to it.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Chief, Office of Antitrust and Indemnity, Office of Nuclear Reactor Regulation on or before January 26, 1976.

Dated at Bethesda, Md., this 20th day of November 1975.

For The Nuclear Regulatory Commission.

OLAN D. PARR,
Chief, Light Water Reactors Project Branch 1-3, Division of Reactor Licensing.

[Dockets Nos. 50-250 and 50-251]

FLORIDA POWER AND LIGHT CO.

Issuance of Amendments to Facility Operating Licenses

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendments No. 14 and No. 13 to Facility Operating Licenses Nos. DPR-31 and DPR-41, respectively, issued to Florida Power and Light Company which revised Technical Specifications for operation of the Turkey Point Nuclear Generating Units 3 and 4, located in Dade County, Florida. The amendments are effective as of the date of issuance.

The amendment modifies the operating limits in the Technical Specifications to allow operation of Turkey Point Nuclear Generating Unit 3, following refueling, at 2100 psia until the extended fuel residence time is reached. The operating limits for Unit 4 set forth in the Technical Specifications remain unchanged although the Unit 4 Technical Specifications will be modified to reflect the revisions to the Unit 3 Technical Specifications.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Ch. I, which are set forth in the license amendment. Notice of Proposed Issuance of Amendment to Facility Operating License in connection with this action was published in the FEDERAL REGISTER on October 31, 1975 (40 FR 50745). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

For further details with respect to this action, see (1) the application for amendment dated September 9, 1975 and supplements dated October 29, November 21 and November 26, 1975, (2) Amendments Nos. 14 and 13 to Licenses Nos. DPR-31 and DPR-41, with Change No. 26 and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Environmental & Urbal Affairs Library, Florida International University, Miami, Florida 33199.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 11th day of December, 1975.

[Docket No. 50-227]

GENERAL ATOMIC CO.

Order Terminating Facility Operating License

The Nuclear Regulatory Commission (the Commission) has found that the General Atomic Company TRIGA Mark III reactor, located at Torry Pines Mesa, near San Diego, California, has been dismantled and decontaminated, and that satisfactory disposition has been made of the component parts and fuel in accordance with the Commission's regulations in 10 CFR Ch. I, and in a manner not inimical to the common defense and security or to the health and safety of the public. The facility was dismantled pursuant to a Commission Order dated August 15, 1975.

The facility area has been inspected by the Commission's Office of Inspection and Enforcement and radiation surveys confirm that radiation levels meet the values defined in the decommissioning plan.

Therefore, pursuant to the application by General Atomic Company, dated September 23, 1975, as supplemented on October 29, 1975, Facility Operating License No. R-100 is hereby terminated as of the date of this order.

Dated at Bethesda, Md., this 10th day of December, 1975.

For the Nuclear Regulatory Commission.

KARL R. GOLLER,
Assistant Director for Operating Reactors, Division of Reactor Licensing.

[Docket Nos. 50-461, 50-462]

ILLINOIS POWER CO. (CLINTON POWER STATION, UNITS 1 AND 2)

Order Setting Evidentiary Hearing on Further Health and Safety Issues

On December 7, 1973, the United States Atomic Energy Commission[1] published a "Notice of Hearing on Application for Construction Permits", (38 FR 33789) with respect to the application filed by Illinois Power Company ("Applicant") for construction permits for two boiling water nuclear reactors designated as Clinton Power Station Units 1 and 2, proposed to be located at Applicant's site in DeWitt County, approximately six miles east of Clinton, Illinois.

Sessions of the evidentiary hearing were held before this Atomic Safety and Licensing Board ("Board") between June 17, 1975 and July 3, 1975. Thereafter, the Board issued a Partial Initial Decision on environmental and site suitability determinations on September 30, 1975 (LBP-75-59, NRC-75/9, at p. 579). The purpose of this Notice of Hearing is to set a date for the commencement of the evidentiary hearing on health and safety issues in the above-identified proceeding.

Accordingly, please take notice: *And it is hereby ordered,* That an evidentiary hearing on health and safety issues will be held at 10:00 a.m., local time, on Wednesday, January 7, 1976 in the Holiday Inn Decatur, U.S. Route 36 W and Wycles Road, Decatur, Illinois 62522. The hearing shall run continuously until all evidence has been received on health and safety issues or until continued by further order of the Board.

Members of the public are invited to attend this evidentiary hearing and individuals or organizations wishing to make a limited appearance pursuant to 10 CFR 2.715(a) will be permitted to do so on the first morning of the session.

The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the evidentiary hearing, will be permitted both before and after the evidentiary hearing and during any recess. The use of such equipment will not, however, be allowed while the evidentiary hearing is in session.

Issued at Bethesda, Md., this 9th day of December 1975.

By order of the Atomic Safety and Licensing Board.

ROBERT M. LAZO,
Chairman.

[1] In accordance with the Energy Reorganization Act of 1974, Pub. L. 93-438, 88 Stat. 1233, the Nuclear Regulatory Commission (NRC) was established on January 19, 1975. The NRC assumed the licensing and regulatory functions of the former Atomic Energy Commission.

[Docket No. 50-219]

JERSEY CENTRAL POWER & LIGHT CO.

Proposed Issuance of Amendment to Provision Operating License

The Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Provisional Operating License No. DPR-16 issued to Jersey Central Power & Light Company (the licensee), for operation of the Oyster Creek Nuclear Generating Station, located in Lacey Township, Ocean County, New Jersey.

The amendment would revise the provisions in the Technical Specifications to (1) allow the facility to remain in the shutdown refueling, or startup mode with reduced core spray system capability for the duration of the outage during which improvements to the ECCS system are made, and (2) provide operability requirements for the condensate system until the ECCS modifications are completed, in accordance with the licensee's application for amendment dated June 24, 1975 and supplements dated July 15, November 7, and December 3, 1975.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By January 16, 1976 the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to George F. Trowbridge, Esq., Shaw, Pittman, Potts, Trowbridge & Madden, 910 17th Street, NW., Washington, D.C. 20016, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the application for amendment dated June 24, 1975, and supplements dated July 15, November 7, and December 3, 1975, which is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Ocean County Library, 15 Hooper Avenue, Toms River, New Jersey 08753. The license amendment and the Safety Evaluation, when issued, may be inspected at the above locations and a copy may be obtained upon request ad-

[Docket No. 50-219]

JERSEY CENTRAL POWER & LIGHT CO.

Proposed Issuance of Amendment to Provisional Operating License

The Nuclear Regulatory Commission (the Commission is considering issuance of an amendment to Provisional Operating License No. DPR-16 issued to Jersey Central Power & Light Company (the licensee), for operation of the Oyster Creek Nuclear Generating Station, located in Ocean County, New Jersey.

The amendment would revise the provisions in the Technical Specifications to (1) revise the fuel cladding integrity safety limit based on revised minimum critical power ratio (MCPR) criteria for avoiding boiling transition during transient conditions, and (2) provide for a variable MCPR during steady state operation as a function of the degree of operability of the average power range monitor (APRM) system based on rod withdrawal error transient analyses.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's rules and regulations.

By January 16, 1976 the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject provisional operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to G. F. Trowbridge, Esquire, Shaw, Pittman, Potts and Trowbridge, Barr Building, 910 17th Street, NW., Washington, D.C. 20006.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine the witnesses.

For further details with respect to this action, see the application for amendment dated October 20, 1975, which is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Ocean County Library, 15 Hooper Avenue, Toms River, New Jersey 08753. The license amendment and the Safety Evaluation when issued, may be inspected at the above locations and a copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commmission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 8th day of December, 1975.

For the Nuclear Regulatory Commission.

DONALD M. ELLIOTT,
Acting Chief, Operating Reactors Branch No. 3, Division of Reactor Licensing.

[Dockets Nos. 50-277, 50-278]

PHILADELPHIA ELECTRIC CO. ET AL.

Issuance of Amendments to Facility Operating Licenses

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendments Nos. 10 and 8 to Facility Operating Licenses Nos. DPR-44 and DPR-56, respectively, issued to Philadelphia Electric Company, Public Service Electric and Gas Company, Delmarva Power and Light Company, and Atlantic City Electric Company, for operation of the Peach Bottom Atomic Power Station, Units 2 and 3, located in York County, Pennsylvania. The amendments are effective as of the date of issuance.

The amendments extend the date for implementation of License Amendments Nos. 12 and 10, issued on November 10, 1975 and which were to be effective on December 10, 1975, to January 1, 1976.

The application for License Amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Ch. I, which are set forth in the license amendment. Prior public notice of these amendments is not required since the amendments do not involve a significant hazards consideration.

For further details with respect to this action, see (1) the application for License Amendments dated December 4, 1975, (2) Amendments Nos. 10 and 8 to Licenses Nos. DPR-44 and DPR-56, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Martin Memorial Library, 159 E. Market Street, York, Pennsylvania 17401.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 10th day of December, 1975.

For the Nuclear Regulatory Commission.

DONALD M. ELLIOTT,
Acting Chief, Operating Reactos Branch No. 3, Division of Reactor Licensing.

[Docket No. 50-344]

PORTLAND GENERAL ELECTRIC CO. ET AL.

Issuance of a Facility Operating License; Correction

In the matter of Portland General Electric Company, the City of Eugene, Oregon, Pacific Power and Light Company and Trojan Nuclear Plant.

The captioned F.R. Doc. 75-32273, published on page 55723 on Monday, December 1, 1975, was incorrect in referring to the Initial Decision issued by the Atomic Safety and Licensing Board on January 28, 1974, which continued in effect Construction Permit No. CPPR-79 for the Trojan Nuclear Plant, as the Initial Decision which authorized issuance of the operating license.

The Initial Decision which authorized issuance of the operating license was issued by the Atomic Safety and Licensing Board on February 4, 1974.

Dated at Bethesda, Md., this 11th day of December, 1975.

For the Nuclear Regulatory Commission.

WALTER R. BUTLER,
Chief, Light Water Reactors Branch 1-2, Division of Reactor Licensing.

[Dockets Nos. 50-280, 50-281]

VIRGINIA ELECTRIC & POWER CO.

Issuance of Amendments to Facility Operating Licenses

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendments No. 13 to Facility Operating Licenses Nos. DPR-32 and DPR-37 issued to Virginia Electric & Power Company which revised Technical Specifications for operation of the Surry Power Station, Units 1 and 2, located in Surry County, Virginia. The amendments are effective as of the date of issuance.

The amendments revise the provisions in the Technical Specifications relating to 3 miscellaneous items. These changes include: (1) A revised surveillance requirement in the Inservice Inspection Program, (2) an error correction, and (3) a revised limiting condition for operation in the fuel oil system for the emergency diesel-generators.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Ch. I, which are set forth in the license amendments. Prior public notice of these amendments is not required since the amendments do not involve a significant hazards consideration.

For further details with respect to this action, see (1) the application for amendments dated September 17, 1975, (2) Amendments No. 13 to licenses Nos. DPR-32 and DPR-37, with Change No. 28 and (3) the Commission's related Safety Evalaution. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W. Washington, D.C. and at the Swem Library, College of William & Mary, Williamsburg, Virginia.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 8th day of December, 1975.

For the Nuclear Regulatory Commission.

ROBERT W. REID,
Chief, Operating Reactors Branch 4, Division of Reactor Licensing.

DEPARTMENT OF LABOR

Interdepartmental Workers' Compensation Task Force

OCCUPATIONAL DISEASES AND WORKERS' COMPENSATION

Conference

Notice is hereby given that a Conference on Occupational Diseases and Workers' Compensation will be held on February 10-12, 1976 at the University of Chicago, Center for Continuing Education, 1307 East 60th Street, Chicago, Illinois. The Conference will begin each day at 9:00 a.m. All meetings will take place in the Assembly of the Center. The agenda for the Conference is as follows:

I. Magnitude of the Occupational Disease Problem—curently available data; coverage and costs of occupational diseases re Workers' Compensation; additional information and methodology needed for improved assessment of magnitude.

II. Medical Aspects of Determining Causality—i.e., how the medical decision is made as to whether or not and to what extent a worker's disease/illness is related to work.

III. Legal/Administrative Aspects of Handling Occupational Diseases Within Workers' Compensation (Federal and State)—evidence required under various Workers' Compensation systems; mechanisms for facilitating determination, e.g., presumptions, guidelines; current practices and needs.

IV. Program Interrelationships and Costs—primary compensation; alternative approaches; benefit and administrative costs; options for financing.

This Conference is open to the public. It is suggested that persons planning to attend this Conference as observers contact Ms. June M. Robinson, Interdepartmental. Workers' Compensation Task Force on (Area Code 202) 961-4403.

Signed at Washington, D.C., this 10th day of December 1975.

J. HOWARD BUNN, JR.,
Director, Interdepartmental Workers' Compensation Task Force.

Office of the Secretary

[TA-W-215]

CONSO PRODUCTS CO.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-215; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on October 2, 1975 in response to a worker petition received on October 1, 1975 which was filed by the Textile Workers Union of America on behalf of workers and former workers producing tiebacks, holdbacks, decorative trimmings and auxiliary products at the Montgomery, Pennsylvania plant.

The notice of investigation was published in the FEDERAL REGISTER (40 FR 48414) on October 15, 1975. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Conso Products Company, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number of proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by such workers' firm or an appropriate subdivision thereof contributed importantly to such total or

V 401243 DEC 17 75 XUM

partial separation, or threat thereof, and to such decline in sales or production.

For purposes of paragraph (3), the term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Significant total or partial separations. The average number of production workers declined 16 percent in the first 9 months of 1975 compared to the like period in 1974.

Sales or production, or both, have decreased absolutely. Sales at the Montgomery plant increased 14 percent in the first 9 months of 1975 compared to the like period in 1974. Production declined 15 percent in the first 9 months of 1975 compared to the like period in 1974. The plant is scheduled to be shutdown December 15, 1975.

Increased imports contributed importantly. Imports of tiebacks like or directly competitive with those produced at the Montgomery plant decreased in value from 105 thousand dollars in the first 7 months of 1974 to 80 thousand dollars in the first 7 months of 1975.

The evidence developed by the Department's investigation indicated that the principal products at the Montgomery plant are tiebacks and decorative trim, accounting for approximately 75 percent of total plant production. Industry analysts have found no evidence of imported decorative trim competitive with Conso's trim produced at the Montgomery plant. Imports of tiebacks have been negligible. In 1974, imports of tiebacks amounted to 3 percent of the total U.S. sales of tiebacks. In the first 7 months of 1975, imports of tiebacks declined 24 percent by value compared to the same period in 1974.

Imports of zippers increased 8 percent by quantity in 1974 compared to 1973. The ratio of zipper imports to domestic sales increased from 6.9 percent in 1973 to 8.4 percent in 1974. Approximately 10 percent of the total workforce at the Montgomery plant are engaged in the production of zippers. The small increase in imports of zippers in 1974 did not contribute importantly to the decline of total production and total employment at the Montgomery plant.

Industry analysts have not found any evidence of imports for pleater hooks or holdbacks, the other products produced at the Montgomery plant.

In a survey of Conso's customers, none were found that switched from Conso's products to competitive imports. Price and delivery delays were given as the major reasons for switching from Conso's products to other domestically-produced products.

Conclusion. After careful revew of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with tiebacks, holdbacks, zippers, pleater hooks, and decorative trim produced at the Montgomery, Pennsylvania plant of Conso Products Company did not contribute importantly to the total or partial separations of the workers at such plant.

Signed at Washington, D.C., this 4th day of December 1975.

GLORIA G. PRATT,
Director,
Office of Foreign Economic Policy.

INTERSTATE COMMERCE COMMISSION

[Notice 932]

ASSIGNMENT OF HEARINGS

DECEMBER 12, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

No. MC 140886, Mayfield Motor Line, Inc., now assigned January 19, 1976, at Nashville, Tenn., will be held in Room 651, Federal Courthouse Bldg., 8th & Broad Street.

MC 135646 Sub 3, Jimmie W. Dervan dba Dervan Cartage Service, now assigned January 28, 1976, at Atlanta, Ga., will be held in Room 305, 1252 Peachtree Street, N.W.

MC 139134 Sub 2, Kennedy Motors, Inc., now assigned January 19, 1976, at Los Angeles, Calif., will be held in Room 1501 Courthouse, 312 North Spring Street.

MC 140651, Rocky Mountain Trout, Inc., now assigned January 22, 1976, at Salt Lake City, Utah, will be held in B-20 Federal Building, 125 S. State Street.

MC-F-12573, Noble Transport, Inc.—Purchase (Portion)—R. Clyde Ashworth Transfer, Inc. and MC-F-12574, Kenneth Savage, Neal Savage, and T. Luke Savage dba Savage Brothers — Control — Ashworth Transfer, Inc., now assigned January 26, 1976, at Salt Lake City, Utah, will be held in B-20 Federal Building, 125 S. State Street.

MC 119619 Sub 82, Distributors Service Co., now assigned February 2, 1976, at Denver, Colo., will be held in Room 595, Tax Court, 1961 Stout Street.

MC 19227 Sub 213, Leonard Bros. Trucking Co., Inc., now assigned January 13, 1976, at Dallas, Tex., will be held in Room 5A15-17, Federal Building, 1100 Commerce Street.

MC 111231 Sub 193, Jones Truck Lines, Inc., now assigned January 14, 1976, at Dallas, Tex., will be held in Room 5A15-17, Federal Building, 1100 Commerce Street.

MC 140811 Sub 1, Richard R. Shultz, dba Carrier Trucking, now assigned January 15, 1976, at Dallas, Tex., will be held in Room 5A15-17, Federal Building, 1100 Commerce Street.

MC 135486 Sub 11, Jack Hodge Transport, Inc., now assigned January 16, 1976, at Dallas, Tex., will be held in Room 5A15-17, Federal Building, 1100 Commerce Street.

No. 35957, Southern Clay Products, Inc., v. Southern Pacific Transportation Company, ET AL., and No. 36160, Sikes Corporation v. Southern Pacific Transportation Company, now assigned January 19, 1976, at Dallas, Tex., will be held in Room 5A15-17, Federal Building, 1100 Commerce Street.

MC 111729 Sub 555, Purolator Courier Corp., now assigned January 12, 1976, at Dallas, Tex. will be held in Room 5A15-17, Federal Building, 1100 Commerce Street.

FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

DECEMBER 12, 1975.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Intrastate Commerce Act, as amended October 15, 1962. These applications are governed by special rule 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall *not* be addressed to or filed with the Interstate Commerce Commission.

Colorado Docket No. 28537-Extension filed July 23, 1975. Applicant: LEROY K. WHITT, doing business as, WHITT TRANSFER & STORAGE CO., 314 Lamkin Street, Pueblo, Colo. 81003. Applicant's representative: Kenneth R. Hoffman, 1600 Lincoln Center Building, 1660 Lincoln Street, Denver, Colo. 80203. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Applicant seeks an extension of the authority under PUC No. 2288 by the addition of the following authority: Transportation of *household goods*, between all points in the State of Colorado, restricted (A) The term "household goods" means (1) personal effects and property used or to be used in a dwelling when a part of the equipment or supply of such dwellings; (2) furniture, fixtures, equipment, and the property of stores, offices, museums, institutions, hospitals, or other establishments, when a part of the stock, equipment, or supply of such stores, offices, museums, institutions, hospitals, or other establishments; and (3) articles, including objects of art, displays, and exhibits, which because of their unusual nature or value require the specialized handling and equipment usually employed in moving household goods. (B) Notwithstanding the provisions of restriction (A) this authority shall be restricted against the transportation of money, coins, currency, gold, silver, bullion, jewelry, checks, bank drafts, negotiable instruments, business papers, securities, valuables, mail and inter-office correspondence, and other valuable papers. (C) Paragraph 4 hereof is subject to the restrictions that the operator of this certificate shall not be permitted, without further authority from this Commission, to establish a branch office, or to have an agent employed for the purposes of developing business, at any point outside the County of Pueblo, State of Colorado. Intrastate, interstate and foreign commerce authority sought. HEARING: Date, time and place has been set on February 4, 1976, at 10 a.m., at 500 Columbine Building, 1845 Sherman Street, Denver, Colo. 80203. Requests for procedural information should be addressed to the Public Utilities Commission of the State of Colorado, Department of Regulatory Agencies, 500 Columbine Building, 1845 Sherman Street, Denver, Colo. 80203 and should *not* be directed to the Interstate Commerce Commission.

Florida Docket No. 750707-CCT filed November 25, 1975. Applicant: ORLANDO CARTAGE, INC., 1420 Sligh Blvd., Orlando, Fla. 32806. Applicant's representative: Richard B. Austin, 214 Palm Coast II Bldg., 5255 N.W. 87th Avenue, Miami, Fla. 33178. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Transport, as a common carrier by motor vehicles, over irregular routes, *General commodities* (except those of unusual value, Classes A & B explosives, household goods as defined by the Commission, commodities in bulk and commodities requiring special equipment and handling), between Orange County, Fla., on the one hand, and, on the other, points in Orange, Lake, Marion, Volusia, Brevard, Seminole, Osceola, Polk, Indian River and St. Lucie Counties, Fla., on the other; and from the ten named counties, on the one hand, to Orange County, Fla. Restricted to traffic having a prior or subsequent handling by rail. Intrastate, interstate and foreign commerce authority sought. HEARING: Date, time and place not yet fixed. Requests for procedural information should be addressed to the Florida Public Service Commission, 700 South Adams Street, Tallahassee, Fla. 32304 and should not be directed to the Interstate Commerce Commission.

Missouri Docket No. T-36,466 filed October 9, 1975. Applicant: W-K WAREHOUSE & DELIVERY SERVICE, INC., 20 Darby Lane, Crystal City, Mo. 63019. Applicant's representative: Charles C. McCarter, Suite 706, 230 South Bemiston, St. Louis, Mo. 63105. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Transportation of *General commodities*, between all points in the territory or area included in the St. Louis Commercial Zone provided for in Sections 390.020(14), 390.030(9), and 390.041(4) RSMo., five miles on either side of Interstate Highway 55 between the intersection of that highway and said Commercial Zone and the intersection of that Highway and Missouri State Highway 32, and all points between, to, from, and within said Commercial Zone and said five mile strip over irregular routes, as a common carrier, including interline operations therein. Intrastate, interstate and foreign commerce authority sought. HEARING: Date, time and place scheduled for January 22nd and 23rd, 1976, at 10 a.m., on the 10th floor, Jefferson State Office Building, Jefferson City, Mo. Requests for procedural information should be addressed to the Missouri Public Service Commission, Jefferson State Office Building, Jefferson City, Mo. 65101 and should *not* be directed to the Interstate Commerce Commission.

By the Commission.

FOURTH SECTION APPLICATION FOR RELIEF

DECEMBER 12, 1975.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the Application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1100.40) and filed on or before January 2, 1976. FSA No. 43089—*Joint Water-Rail Container Rates—American President Lines, Ltd.* Filed by American President Lines, Ltd., (No. 21), for itself and interested rail carriers. Rates on general commodities, from ports in Asia and Continental Europe, to rail carrier's terminals in California, Oregon, and Washington.

Grounds for relief—Water competition.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Applications

DECEMBER 12, 1975.

The following applications to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065(d)(2)), and notice thereof to all interested persons is hereby given as provided in such rules.

Carriers having a genuine interest in an application may file an original and three copies of *verified statements* in opposition with the Interstate Commerce Commission on or before January 16, 1976. (This procedure is outlined in the Commission's report and order in *Gateway Elimination*, 119 M.C.C. 530.) A copy of the verified statement in opposition must also be served upon applicant or its named representative. The verified statement should contain all the evidence upon which protestant relies in the application proceeding including a detailed statement of protestant's interest in the proposal. No rebuttal statements will be accepted.

MC 41406 (Sub-No. 53G) filed November 13, 1975. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., 7105 Kennedy Avenue, P.O. Box 2176, Hammond, Ind. 46323. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street, N.W., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles and steel and steel products*, (1) from points in Illinois, Indiana and St. Louis, Mo., to points in Ohio, Pennsylvania, New York, West Virginia and points in Kentucky within 5 miles of the Ohio River. The purpose of this filing is to eliminate the gateways of Detroit, Mich., Monroe, Mich., or Middletown, Ohio. (2) from Pittsburgh, Pa. and Youngstown, Ohio and points within 50 miles of each: Cleveland, Lorain, Zanesville, Cambridge, Mansfield, Cincinnati, Middletown, and Portsmouth, Ohio, Monroe and Detroit, Mich., Buffalo, N.Y., and points in Lackawanna and Hamburg Townships, Erie County, N.Y., and those points in Kentucky within 5 miles of the Ohio River,

V 40 N 243 DEC 17 75 XUM

to points in Illinois, Indiana, Iowa, Missouri, and Wisconsin. The purpose of this filing is to eliminate the gateways of Sturgis, Mich. or Middletown, Ohio.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

ELIMINATION OF GATEWAY LETTER NOTICES

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination* Rules (49 CFR Part 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before December 29, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will *not* operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC–564 (Sub–No. E4), (Correction), filed June 4, 1974, published in the FEDERAL REGISTER September 24, 1975. Applicant: DUDLEY'S TRANSCONTINENTAL MOVERS, P.O. Box 82046, Lincoln, Nebr. 68501. Applicant's representative: Rolland C. Dudley (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, between points in that part of Washington on and west of a line beginning at the Oregon-Washington State line, thence along U.S. Highway 395 to junction Washington Highway 17, thence along Washington Highway 17 to junction U.S. Highway 97, thence along U.S. Highway 97 to the United States-Canada International Boundary line, on the one hand, and, on the other, Lincoln, Nebr. The purpose of this filing is to eliminate the gateways of Wenatchee, Wash., points in Montana, and points in Iowa within 150 miles of Austin, Minn. The purpose of this correction is to correct a highway description.

No. MC–564 (Sub–No. E10), (Correction), filed June 4, 1974, published in the FEDERAL REGISTER September 24, 1975. Applicant: DUDLEY'S TRANSCONTINENTAL MOVERS, P.O. Box 82046, Lincoln, Nebr. 68501. Applicant's representative: Rolland C. Dudley (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods;* (1) between points in Iowa within 150 miles of Austin, Minn., on the one hand, and, on the other, points in that part of Washington on and west of U.S. Highway 97 (Wenatchee, Wash., and points in Montana) *; and (2) between points in that part of Iowa on and east of Interstate Highway 35, on the one hand, and, on the other, points in that part of Washington on and west of U.S. Highway 97 (Wenatchee, Wash.; points in Montana; and points in that part of Illinois within 150 miles of Austin, Minn.) *. The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this correction is to correct the destination territory in (2) above.

No. MC–564 (Sub–No. E15), (Correction), filed June 4, 1974, published in the FEDERAL REGISTER September 24, 1975. Applicant: DUDLEY'S TRANSCONTINENTAL MOVERS, P.O. Box 82046, Lincoln, Nebr. 68501. Applicant's representative: Rolland C. Dudley (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, between points in New York, on the one hand, and, on the other, points in that part of Oregon on and west of U.S. Highway 395. The purpose of this filing is to eliminate the gateways of points in Illinois; points in Iowa and Wisconsin within 150 miles of Austin, Minn., Montana; and Wenatchee, Wash. The purpose of this correction is to correct the gateway.

No. MC–564 (Sub–No. E35), (Correction), filed June 4, 1974, published in the FEDERAL REGISTER September 24, 1975. Applicant: DUDLEY'S TRANSCONTINENTAL MOVERS, P.O. Box 82046, Lincoln, Nebr. 68501. Applicant's representative: Rolland C. Dudley (same as above). Authority sought to operate as *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, between the District of Columbia, on the one hand; and, on the other, points in that part of Texas on and west of a line beginning at the Oklahoma-Texas State line and extending along U.S. Highway 277 to junction U.S. Highway 180, thence along U.S. Highway 180 to junction Texas Highway 163, thence along Texas Highway 163 to junction U.S. Highway 90, thence along U.S. Highway 90 to the United States-Mexico International Boundary line. The purpose of this filing is to eliminate the gateways of points in Illinois, points in Iowa within 150 miles of Austin, Minn.; and points in that part of Missouri south of U.S. Highway 54 and west of Missouri Highway 5. The purpose of this correction is to correct the gateway above.

No. MC–564 (Sub–No. E66), (Correction), filed June 4, 1974, published in the FEDERAL REGISTER September 24, 1975. Applicant: DUDLEY'S TRANSCONTINENTAL MOVERS, P.O. Box 82046, Lincoln, Nebr. 68501. Applicant's representative: Rolland C. Dudley (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, between points in Connecticut, on the one hand, and, on the other, St. Louis, Mo. (points in Illinois) *; points in that part of Missouri on, west, and north of a line beginning at the Kansas-Missouri State line, thence along U.S. Highway 50 to junction U.S. Highway 63, thence along U.S. Highway 63 to the Iowa-Missouri State line (points in Illinois and points in Iowa within 150 miles of Austin, Minn.) *; points in that part of Missouri on, west, and south of a line beginning at the Kansas-Missouri State line, thence along U.S. Highway 54 to junction Missouri Highway 5, thence along Missouri Highway 5 to the Arkansas-Missouri State line (points in Illinois) *. The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this correction is to correct the highway descriptions above.

No. MC–564 (Sub–No. E76), (Correction), filed June 4, 1974, published in the FEDERAL REGISTER September 24, 1975. Applicant: DUDLEY'S TRANSCONTINENTAL MOVERS, P.O. Box 82046, Lincoln, Nebr. 68501. Applicant's representative: Rolland C. Dudley (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, between points in Michigan, on the one hand, and, on the other, points in Oklahoma. The purpose of this filing is to eliminate the gateways of points in that part of Missouri south of U.S. Highway 54 and west of Missouri Highway 5; and points in Illinois within 150 miles of Austin, Minn. The purpose of this correction is to correct the gateway above.

No. MC–564 (Sub–No. E86), (correction), filed June 4, 1974, published in the FEDERAL REGISTER September 23, 1975. Applicant: DUDLEY'S TRANSCONTINENTAL MOVERS, P.O. Box 82046, Lincoln, Nebr. 68501. Applicant's representative: Rolland C. Dudley (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, between points in that part of Michigan on and south of a line beginning at Lake Michigan and extending along U.S. Highway 10 to junction Michigan Highway 25, thence along Michigan Highway 25 to Port Huron, Mich., on the one hand, and, on the other, points in North Dakota. The purpose of this filing is to eliminate the gateway of points in Illinois within 150 miles of Austin, Minn. The purpose of this correction is to correct a typographical error.

No. MC–564 (Sub–No. E104), (correction), filed June 4, 1974, published in the FEDERAL REGISTER September 23, 1975. Applicant: DUDLEY'S TRANSCONTINENTAL MOVERS, P.O. Box 82046, Lincoln, Nebr. 68501. Applicant's representative: Rolland C. Dudley (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, between points in that part of Illinois on and north of Interstate Highway 80, on the one hand, and, on the other, points in Oklahoma. The purpose of this filing is to eliminate the gateways of points in Iowa within 150 miles of Austin, Minn., and points in that part of Missouri south of U.S. Highway 54 and west of Missouri Highway 5. The purpose of this correction is to correct the territorial description.

No. MC–564 (Sub–No. E113), (Correction), filed June 4, 1974, published in the FEDERAL REGISTER September 24, 1975. Applicant: DUDLEY'S TRANSCONTINENTAL MOVERS, P.O. Box 82046, Lincoln, Nebr. 68501. Applicant's representative: Rolland C. Dudley (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, between points in Wisconsin within 150 miles of Austin, Minn., and points in that part of Wisconsin on and south of Wisconsin Highway 60; on the one hand, and, on the other, points in Montana. The purpose of this filing is to eliminate the gateways of Illinois within 150 miles of Austin, Minn. The purpose of this correction is to correct the highway description above.

No. MC–564 (Sub–No. E124), (Correction), filed June 4, 1974, published in the FEDERAL REGISTER September 24, 1975. Applicant: DUDLEY'S TRANSCONTINENTAL MOVERS, P.O. Box 82046, Lincoln, Nebr. 68501. Applicant's representative: Rolland C. Dudley (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, between points in that part of Illinois on and north of Interstate Highway 80, on the one hand, and, on the other, points in that part of Missouri on, west, and north of a line beginning at the Iowa-Missouri State line and extending along U.S. Highway 65 to U.S. Highway 36, thence along U.S. Highway 36 to Interstate Highway 35, thence along Interstate Highway 35 to junction Missouri Highway 291, thence along Missouri Highway 291 to junction Missouri Highway 2, thence along Missouri Highway 2 to the Kansas-Missouri State line. The purpose of this filing is to eliminate the gateways of points in Iowa within 150 miles of Austin, Minn. The purpose of this correction is to correct the highway description.

No. MC–564 (Sub–No. E128), (Correction), filed June 4, 1974, published in the FEDERAL REGISTER September 24, 1975. Applicant: DUDLEY'S TRANSCONTINENTAL MOVERS, P.O. Box 82046, Lincoln, Nebr. 68501. Applicant's representative: Rolland C. Dudley (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, between points in that part of Missouri on, south, and west of a line beginning at the Kansas-Missouri State line, thence along U.S. Highway 54 to junction Missouri Highway 5, thence along Missouri Highway 5 to the Arkansas-Missouri State line (points in Iowa within 150 miles of Austin, Minn.) *; and St. Louis, Mo. (points in Illinois within 150 miles of Austin, Minn.) *, on the one hand, and, on the other, points in South Dakota. The purpose of this filing is to eliminate the gateways indicated above. The purpose of this correction is to correct the territorial description above.

No. MC–564 (Sub–No. E131), (Correction), filed June 4, 1974, published in the FEDERAL REGISTER September 24, 1975. Applicant: DUDLEY'S TRANSCONTINENTAL MOVERS, P.O. Box 82046, Lincoln, Nebr. 68501. Applicant's representative: Rolland C. Dudley (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods;* (1) between St. Louis, Mo., and points in that part of Missouri on, south, and west of a line beginning at the Kansas-Missouri State line, thence along U.S. Highway 54 to junction Missouri Highway 5, thence along Missouri Highway 5 to the Missouri-Arkansas State line, on the one hand, and, on the other, points in West Virginia (points in Illinois) *; and (2) between points in that part of Missouri on and west of Interstate Highway 35, on the one hand, and, on the other, points in that part of West Virginia on and north of U.S. Highway 50 (points in Iowa within 150 miles of Austin, Minn., and points in Illinois) *. The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this correction is to correct the highway description above.

No. MC–564 (Sub–No. E142), (Correction), filed June 4, 1974, published in the FEDERAL REGISTER September 24, 1975. Applicant: DUDLEY'S TRANSCONTINENTAL MOVERS, P.O. Box 82046, Lincoln, Nebr. 68501. Applicant's representative: Rolland C. Dudley (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, between Boston, Mass., points in New Hampshire, and points in Maine, on the one hand, and, on the other, points in that part of Arkansas on, west, and north of a line beginning at the Arkansas-Missouri State line and extending along Arkansas Highway 7 to junction Arkansas Highway 22, thence along Arkansas Highway 22 to the Oklahoma-Arkansas State line. The purpose of this filing is to eliminate the gateways of Illinois; points in Iowa within 150 miles of Austin, Minn.; and points in Missouri south of U.S. Highway 54 and west of Missouri Highway 5. The purpose of this correction is to correct the origin points above.

No. MC–564 (Sub–No. E143), (Correction), filed June 4, 1974, published in the FEDERAL REGISTER September 24, 1975. Applicant: DUDLEY'S TRANSCONTINENTAL MOVERS, P.O. Box 82046, Lincoln, Nebr. 68501. Applicant's representative: Rolland C. Dudley (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, between points in Benton, Boone, Carroll, and Washington Counties, Ark., on the one hand, and, on the other, points in Wisconsin. The purpose of this filing is to eliminate the gateways of points in Illinois within 150 miles of Austin, Minn.; and points in that part of Missouri south of U.S. Highway 54 and west of Missouri Highway 5. The purpose of this correction is to correct the origin points above.

No. MC–564 (Sub–No. E170), (correction), filed June 4, 1974, published in the FEDERAL REGISTER September 24, 1975. Applicant: DUDLEY'S TRANSCONTINENTAL MOVERS, P.O. Box 82046, Lincoln, Nebr. 68501. Applicant's representative: Roland C. Dudley (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, between Willmar, Minn., on the one hand, and, on the other, points in that part of Kentucky on and south of a line beginning at the Tennessee-Kentucky State line and extending along U.S. Highway 231 to junction U.S. Highway 62, thence along U.S. Highway 62 to the Illinois-Kentucky State line. The purpose of this filing is to eliminate the gateway of points in Missouri south of U.S. Highway 54 and west of Missouri Highway 5.

No. MC–564 (Sub–No. —E182), (Correction), filed June 4, 1974, published in the FEDERAL REGISTER September 24, 1975. Applicant: DUDLEY'S TRANSCONTINENTAL MOVERS, P.O. Box 82046, Lincoln, Nebr. 68501. Applicant's representative: Rolland C. Dudley (same as above). The purpose of this filing is to eliminate the gateway of points in Missouri south of U.S. Highway 54 and west of Missouri Highway 5.

No. MC–564 (Sub–No. E170), (correction), filed June 4, 1974, published in the FEDERAL REGISTER September 24, 1975. Applicant: DUDLEY'S TRANSCONTINENTAL MOVERS, P.O. Box 82046, Lincoln, Nebr. 68501. Applicant's representative: Roland C. Dudley (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, between Willmar, Minn., on the one hand, and, on the other, points in that part of Kentucky on and south of a line beginning at the Tennessee-Kentucky State line and extending along U.S. Highway 231 to junction U.S. Highway 62, thence along U.S. Highway 62 to the Illinois-Kentucky State line. The purpose of this filing is to eliminate the gateway of points in Missouri south of U.S. Highway 54 and west of Missouri Highway 5. The purpose of this correction is to correct the origin points above.

No. MC–564 (Sub–No. E182), (Correction), filed June 4, 1974, published in the FEDERAL REGISTER September 24, 1975. Applicant: DUDLEY'S TRANSCONTINENTAL MOVERS, P.O. Box 82046, Lincoln, Nebr. 68501. Applicant's representative: Rolland C. Dudley (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, between St. Louis, Mo. (points in Illinois within 150 miles of Austin, Minn., points in Montana and Wenatchee, Wash.) *; and points in that part of Missouri on, south, and west of a line beginning at the Missouri-Kansas State line, thence along U.S. Highway 54 to junction Missouri Highway 5, thence along Missouri Highway 5 to the Arkansas-Missouri State line (points in Iowa within 150 miles of Austin, Minn., points in Montana and Wenatchee, Wash.) *, on the one hand, and, on the other, points in Clatsop, Columbia, Tillamook, Washington, Yamhill, Polk, Lincoln, Marion, Clackamas, Multnomah, and Hood River Counties, Oreg., and The Dalles, Oreg. The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this correction is to correct the territorial description.

No. MC–4405 (Sub–No. E39), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., 2200 E. 170th St., Lansing, Ill. 60438. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools parts and supplies moving in connection therewith, between points in Missouri, Kansas, and East St. Louis, Ill., on the one hand, and, on the other, points in California, restricted against the transportation of shipments between

V 40 243 DEC 17 75 XUM

(1) Modoc and Siskiyou Counties, Calif., on the one hand, and, on the other, Cheyenne, Decatur, Norton, and Rawlins Counties, Kans.; and (2) between Modoc County, Calif., on the one hand, and, on the other, Sherman County, Kans. The purpose of this filing is to eliminate the gateways of points in Oklahoma, Texas, New Mexico and Nevada or California south of a line beginning at the Pacific Ocean and extending easterly through Monterey, Salinas, Fresno, Dunlop, and Independence to the California-Nevada State line.

No. MC-4405 (Sub-No. E40), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., P.O. Box 361, Lansing, Ill. 60438. Applicant's representative: Robert E. Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum, and their products and by-products, and *machinery, materials, equipment, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance and dismantling of pipe line, including the stringing and picking up thereof, restricted against the transportation of any such commodities to be used in, or in connection with, main or trunk pipelines, restricted to the transportation of commodities, which because of their size or weight, require the use of special equipment or handling, between points in Kansas, on the one hand, and, on the other, points in Kentucky, West Virginia, Virginia, Tennessee, North Carolina, South Carolina, Mississippi, Alabama, and Georgia. The purpose of this filing is to eliminate the gateway of points in Arkansas.

No. MC-4405 (Sub-No. E41), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., P.O. Box 361, Lansing, Ill. 60438. Applicant's representative: Robert E. Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum, and their products and by-products, and *machinery, materials, equipment, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance and dismantling of pipe line, including the stringing and picking up thereof, restricted against the transportation of any such commodities to be used in, or in connection with, main or trunk pipelines, restricted to the transportation of commodities, which because of their size or weight, require the use of special equipment or handling, between points in Oklahoma, on the one hand, and, on the other, points in Indiana, Ohio, Kentucky, West Virginia, Virginia, Tennessee, North Carolina, South Carolina, Georgia, Florida, Alabama, and Mississippi. The purpose of this filing is to eliminate the gateway of points in Arkansas.

No. MC-4405 (Sub-No. E42), filed June 4, 1974. Applicant: DEALERS TRANSIT, INC., 2200 E. 170th St., Lansing, Ill. 60438. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools parts and supplies moving in connection therewith, between points in Texas, on the one hand, and, on the other, points in Arizona. The purpose of this filing is to eliminate the gateway of points in New Mexico on, north, and west of U.S. Highway 54.

No. MC-4405 (Sub-No. E43), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., P.O. Box 361, Lansing, Ill. 60438. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools parts and supplies moving in connection therewith, between points in Nebraska and Kansas, on the one hand, and, on the other, points in Texas. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC-4405 (Sub-No. E44), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., 2200 E. 170th St., Lansing, Ill., 60438. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave, Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools parts and supplies moving in connection therewith, between points in Texas, on the one hand, and, on the other, points in Colorado, restricted against the transportation of shipments between points in Colorado west of U.S. Highway 87, on the one hand, and, on the other points in El Paso, Loving Hudspeth, Culberson, Jeff Davis, Presidio, Brewster, and Reeves Counties, Tex. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC-4405 (Sub-No. E45), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., 2200 E. 170th St., Lansing, Ill. 60438. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools parts and supplies moving in connection therewith, between points in Missouri, on the one hand, and, on the other, points in Texas. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC-4405 (Sub-No. E46), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., 2200 E. 170th St., Lansing, Ill. 60483. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools parts and supplies moving in connection therewith, between points in Nebraska and Kansas, on the one hand, and, on the other, points in Texas. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC-4405 (Sub-No. E47), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., 2200 E. 170th St., Lansing, Ill. 60438. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools parts and supplies moving in connection therewith, between points in Missouri, on the one hand, and, on the other, points in Nevada. The purpose of this filing is to eliminate the gateway of points in New Mexico on, north, and west of U.S. Highway 54.

No. MC-4405 (Sub-No. E48), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., 2200 E. 170th St., Lansing, Ill. 60438. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools parts and supplies moving in connection therewith, between points in Texas, on the one hand, and, on the other, points in Oklahoma.

moving in connection therewith, between points in Kentucky and Virginia, on the one hand, and, on the other, points in Texas (points in Arkansas or Mississippi) *, New Mexico (points in Arkansas or Mississippi and Texas) *, and Arizona (points in Arkansas or Mississippi, Texas, and New Mexico) *. The purpose of this filing is to eliminate the gateways indicated by the asterisks above.

No. MC-4405 (Sub-No. E49), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., 2200 E. 170th St., Lansing, Ill. 60438. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools parts and supplies moving in connection therewith, between points in Indiana, Ohio, and West Virginia, on the one hand, and, on the other, points in New Mexico and Arizona. The purpose of this filing is to eliminate the gateway of points in Arkansas or Mississippi and New Mexico.

No. MC-4405 (Sub-No. E50), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., 2200 E. 170th St., Lansing, Ill. 60438. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools parts and supplies moving in connection therewith, between points in Indiana, Ohio, West Virginia, Alabama, Florida, Georgia, Tennessee, North Carolina, and South Carolina, on the one hand, and, on the other, points in Texas. The purpose of this filing is to eliminate the gateway of points in Arkansas or Mississippi.

No. MC-4405 (Sub-No. E51), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., 2200 E. 170th St., Lansing, Ill. 60438. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools parts and supplies moving in connection therewith, between points in Indiana, on the one hand, and, on the other, points in Oregon, restricted against the transportation of shipments between points in Oregon north of U.S. Highway 20, on the one hand, and, on the other, points in Indiana north of Interstate Highway 70. The purpose of this filing is to eliminate the gateways of points in Arkansas, Texas, New Mexico, and Nevada or California south of a line beginning at the Pacific Ocean and extending easterly through Monterey, Salinas, Fresno, Dunlop and Indepedence to the California-Nevada State line.

No. MC-4405 (Sub-No. E52), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., 2200 E. 170th St., Lansing, Ill. 60438. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools parts and supplies moving in connection therewith, between points in Alabama, Georgia, Florida, and South Carolina, on the one hand, and, on the other, points in California and Nevada. The purpose of this filing is to eliminate the gateway of points in Mississippi, Texas, New Mexico and Nevada or California south of a line beginning at the Pacific Ocean and extending east through Monterey, Salinas, Fresno, Dunlop and Independence to the California-Nevada State line.

No. MC-4405 (Sub-No. E53), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., 2200 E. 170th St., Lansing, Ill. 60438. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools parts and supplies moving in connection therewith, between points in California and Nevada, on the one hand, and, on the other, points in Kentucky, Tennessee, Virginia, West Virginia, and North Carolina. The purpose of this filing is to eliminate the gateway of points in Arkansas, Texas, New Mexico, and Nevada, or points in California south of a line beginning at the Pacific Ocean and extending east through Monterey, Salinas, Fresno, Dunlop and Independence to the Nevada-California State line.

No. MC-4405 (Sub-No. E54), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., 2200 E. 170th St., Lansing, Ill. 60438. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools parts and supplies moving in connection therewith, between points in Arkansas, Louisiana, and Mississippi, on the one hand, and, on the other, points in California. The purpose of this filing is to eliminate the gateway of points in Mississippi, Texas, New Mexico and Nevada or California south of a line beginning at the Pacific Ocean and extending east through Monterey, Salinas, Fresno, Dunlop and Independence to the California-Nevada State line.

No. MC-4405 (Sub-No. E55), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., 2200 E. 170th St., Lansing, Ill. 60438. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools parts and supplies moving in connection therewith, between points in Arkansas, Louisiana, and Mississippi, on the one hand, and, on the other, points in California. The purpose of this filing is to eliminate the gateway of points in Texas, New Mexico and Nevada or California south of a line beginning at the Pacific Ocean and extending east through Monterey, Salinas, Fresno, Dunlop and Independence to the California-Nevada State line.

No. MC-4405 (Sub-No. E56), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., 2200 E. 170th St., Lansing, Ill. 60438. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools, parts and supplies moving in connection therewith, between points in Alabama, Tennessee, Georgia, North Carolina, South Carolina, and Florida, on the one hand, and, on the other, points in Washington, Oregon. The purpose of this filing is to eliminate the gateway of points in Arkansas or Mississippi and Texas, New Mexico, and Nevada.

No. MC-4405 (Sub-No. E57), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., 2200 E. 170th St., Lansing, Ill., 60438. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools, parts and supplies moving in connection therewith, between points in Kentucky, Virginia, and West Virginia, on the one hand, and, on the other, points in Washington and Oregon. The purpose of this filing is to eliminate the gateway of points in Arkansas, Texas, New Mexico and Nevada.

No. MC–4405 (Sub-No. E58), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., 2200 E. 170th St., Lansing, Ill. 60438. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools parts and supplies moving in connection therewith, between points in Arkansas, Louisiana, Tennessee, Mississippi, Alabama, on the one hand, and, on the other, points in New Mexico and Arizona. The purpose of this filing is to eliminate the gateway of points in Arkansas or Mississippi and Texas and New Mexico.

No. MC–4405 (Sub-No. E59), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., 2200 E. 170th St., Lansing, Ill. 60438. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools parts and supplies moving in connection therewith, between points in Oregon (except points in Gilliam, Wheeler, Grant, Morrow, Umatille, Baker, Union, and Willowa Counties), on the one hand, and, on the other, points in Missouri and E. St. Louis, Ill. The purpose of this filing is to eliminate the gateway of points in Nevada, New Mexico, Texas, and Oklahoma.

No. MC–4405 (Sub–No. E60), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., 2200 E. 170th St., Lansing, Ill. 60438. Applicant's representative. Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes; transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools parts and supplies moving in connection therewith, between points in Washington, on the one hand, and, on the other, points in Illinois and Missouri and E. St. Louis, Ill., restricted against the transportation of traffic between those points in Washington, east of Benton, Douglas, Grant and Okanogan Counties, on the one hand, and, on the other, those in Missouri in and west of Mercer, Grundy, Livingston, and Carroll Counties, and those in Clay, and Day Counties.

No. MC–4405 (Sub–No. E61), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., 2200 E. 170th St., Lansing, Ill. 60438. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools parts and supplies moving in connection therewith, between points in Washington in and west of Benton, Grant, Douglas and Okanogan Counties, on the one hand, and, on the other, points in Kansas except those points in Kansas west of U.S. Highway 81 and north of Interstate Highway 70. The purpose of this filing is to eliminate the gateway of points in Nevada, New Mexico, Texas, and Oklahoma.

No. MC–4405 (Sub–No. E62), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., 2200 E. 170th St., Lansing, Ill. 60438. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools parts and supplies moving in connection therewith; between points in Texas and Oklahoma, on the one hand, and, on the other, points in Washington and Oregon. The purpose of this filing is to eliminate the gateway of points in Texas, New Mexico, and Nevada.

No. MC–4405 (Sub–No. E63), filed June 4, 1974. Applicant: DEALER'S TRANSIT, INC., 2200 E. 170th St., Lansing, Ill. 60438. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *Self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools parts and supplies moving in connection therewith, between points in Oregon on and south of U.S. Highway 20, on the one hand, and, on the other, those points in Kansas on and south of a line beginning at the Colorado-Kansas State line and extending along Kansas Highway 96 to junction U.S. Highway 56 to junction U.S. Highway 77 to the Kansas-Nebraska State line. The purpose of this filing is to eliminate the gateway of points in Oklahoma, Texas, New Mexico, and Nevada.

No. MC–4405 (Sub-No. E64), filed June 4, 1974. Applicant: DEALERS TRANSIT, INC., 2200 E. 170th St., Lansing, Ill. 60438. Applicant's representative: Robert Joyner, 2008 Clark Tower, 5100 Poplar Ave., Memphis, Tenn. 38137. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as require special equipment and handling by reason of their unusual weight, bulk, or length, and *self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools parts and supplies moving in connection therewith, between points in Nebraska, on the one hand, and, on the other, points in New Mexico, restricted against the transportation of traffic between points in Nebraska west of Nebraska Highway 61, on the one hand, and, on the other, points in San Juan, Rio Areba, Taos, and McKinley Counties, N. Mex.

No. MC 51146 (Sub-No. E23), filed October 23, 1975. Applicant: SCHNEIDER TRANSPORT, INC., P.O. Box 2298, Green Bay, Wis. 54306. Applicant's representative: Neil A. DuJardin (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting:

(1) *Canned goods;* (a) from points in Washington, to points in North Carolina, South Carolina, Georgia, Florida, Alabama, Tennessee, Mississippi, points in Louisiana on and east of a line beginning at the Mississippi-Louisiana State line and extending along U.S. Highway 61 to New Orleans, thence along Louisiana Highway 23 to the Mississippi River, and points in Arkansas on, north, and east of a line beginning at the Missouri-Arkansas State line and extending along U.S. Highway 63 to junction U.S. Highway 167, thence along U.S. Highway 167 to Little Rock, and thence along U.S. Highway 70 to the Arkansas-Tennessee State line; (b) from points in Oregon (except Portland and points east and south of a line beginning at the California-Oregon State line and extending along U.S. Highway 395 to Burns, thence along U.S. Highway 20 to the Oregon-Utah State line), to points in North Carolina, South Carolina, Georgia, Florida, Tennessee, Alabama, and points in Mississippi on and east of a line beginning at the Tennessee-Mississippi State line and extending along U.S. Highway 51 to junction Mississippi Highway 35, thence along Mississippi Highway 35 to junction U.S. Highway 49, thence along U.S. Highway 49 to the Gulf of Mexico; (c) from points in California north of Monterey, Fresno, and Mono Counties, Calif. (except Hemet and Gustine, Calif.), to points in North Carolina, South Carolina, and points in Tennessee on and east of U.S. Highway 27; (d) from points in California on and west of a line beginning at Costa Mesa, and extending along California Highway 55 to junction California Highway 91, thence along California Highway 91 to Riverside, thence along U.S. Highway 395 to the California-Nevada State line (except Gustine, Hemet, and Fresno), to points in Tennessee on and east of a line beginning at the Kentucky-Tennessee State line and extending along Interstate Highway 75 to Knoxville, thence along U.S. Highway 441 to the Tennessee-North Carolina State line, points in North Carolina on and east of U.S. Highway 25, and points in South Carolina on and east of a line beginning at the North Carolina-South Carolina State line and extending along U.S. Highway 276 to junction Interstate Highway 26, thence along Interstate Highway 26 to Charleston.

(2) *Materials* and *supplies* utilized by food business houses which are meat, meat products, and meat by-products, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk); (a) from points in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, Colorado, New Mexico, North Dakota, South Dakota, Minnesota, Wisconsin (except points south and east of a line beginning at Milwaukee and extending along U.S. Highway 18 to junction U.S. Highway 151, thence along U.S. Highway 151 to the Wisconsin-Illinois State line), Iowa (except points south of a line beginning at the Illinois-Iowa State line and extending along U.S. Highway 20 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Iowa-Nebraska State line), Nebraska (except points south and east of a line beginning at the Iowa-Nebraska State line and extending along Nebraska Highway 2 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line) Kansas (except points east of U.S. Highway 183), Oklahoma (except points east of U.S. Highway 83), and Texas (except points east of a line beginning at the Oklahoma-Texas State line and extending along U.S. Highway 287 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction Texas Highway 349, thence along Texas Highway 349 to junction U.S. Highway 67, thence along U.S. 67 to the United States-Mexico International Boundary line), to points in Massachusetts; (b) from points in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, Colorado, New Mexico, North Dakota, South Dakota, Minnesota, Wisconsin (except points south of U.S. Highway 18), Iowa (except points south and east of a line beginning at the Illinois-Iowa State line and extending along U.S. Highway 20 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Iowa-Nebraska State line), Nebraska (except points south and east of a line beginning at the Iowa-Nebraska State line and extending along Nebraska Highway 2 to junction junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line), Kansas (except points south and east of a line beginning at the Nebraska-Kansas State line and extending along U.S. Highway 183 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Kansas-Colorado State line), Oklahoma (except points east of Oklahoma Highway 136), and points in El Paso County, Tex., to points in Connecticut.

(c) From points in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, Colorado, New Mexico, North Dakota, South Dakota, Minnesota, Wisconsin (except points south and east of a line beginning at Milwaukee and extending along U.S. Highway 18 to junction U.S. Highway 51, thence along U.S. Highway 51 to the Wisconsin-Illinois State line), Iowa (except points south and east of a line beginning at the Illinois-Iowa State line and extending along U.S. Highway 51 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 69, thence along U.S. Highway 69 to the Iowa-Missouri State line), Nebraska (except points south and east of a line beginning at the Iowa-Nebraska State line and extending along Nebraska Highway 2 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line), Kansas (except points east of U.S. Highway 281), Texas (except points east of a line beginning at the Oklahoma-Texas State line and extending along U.S. Highway 287 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction Texas Highway 349, thence along Texas Highway 349 to junction U.S. Highway 67, thence along U.S. Highway 67 to the United States-Mexico International Boundary line), and points in Cimarron, Texas, Beaver, and Harper Counties, Okla., to points in Rhode Island; (d) from points in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, North Dakota, South Dakota, Minnesota, Wisconsin (except points south of a line beginning at Sheboygan and extending along Wisconsin Highway 23 to junction U.S. Highway 151, thence along U.S. Highway 151 to junction U.S. Highway 18, thence along U.S. Highway 18 to the Wisconsin-Iowa State line), Iowa (except points south of a line beginning at the Wisconsin-Iowa State line and extending along U.S. Highway 18 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Nebraska State line), Nebraska (except points south and east of a line beginning at the Iowa-Nebraska State line and extending along Nebraska Highway 91 to junction U.S. Highway 281, thence along U.S. Highway 281 to the Nebraska-Kansas State line), Colorado (except points south and east of a line beginning at the Kansas-Colorado State line and extending along U.S. Highway 24 to junction U.S. Highway 85, thence along U.S. Highway 85 to the Colorado-New Mexico State line), and new Mexico (except points east of a line beginning at the Colorado-New Mexico State line and extending along U.S. Highway 85 to junction New Mexico Highway 3, thence along New Mexico Highway 3 to junction U.S. Highway 54, thence along U.S. Highway 54 to the New Mexico-Texas State line), to points in New Jersey.

(e) From points in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, North Dakota, South Dakota, Minnesota, Wisconsin (except points south of a line beginning at Sheboygan and extending along Wisconsin Highway 23 to junction U.S. Highway 16, thence along U.S. Highway 16 to the Wisconsin-Minnesota State line), Iowa (except points south of Iowa Highway 9), Colorado (except points east of a line beginning at the Nebraska-Colorado State line and extending along Colorado Highway 71 to junction U.S. Highway 350, thence along U.S. Highway 350 to junction Interstate Highway 25, thence along Interstate Highway 25 to the Colorado-New Mexico State line), and New Mexico (except points east of a line beginning at the Colorado-New Mexico State line and extending along U.S. Highway 285 to junction U.S. Highway 54, thence along U.S. Highway 54 to the New Mexico-Texas State line), to points in New York; (f) from points in Washington, Oregon, California, Nevada, Idaho, Utah, Montana, Wyoming, North Da-

kota, South Dakota, Minnesota, Wisconsin (except points south of a line beginning at Sheboygan and extending along Wisconsin Highway 23 to junction Wisconsin Highway 33, thence along Wisconsin Highway 33 to the Wisconsin-Minnesota State line), Iowa (except points south of Iowa Highway 9), Nebraska (except points east of a line beginning at the South Dakota-Nebraska State line and extending along U.S. Highway 385 to junction Nebraska Highway 19, thence along Nebraska Highway 19 to the Nebraska-Colorado State line), Colorado (except points south and east of a line beginning at the Nebraska-Colorado State line and extending along Colorado Highway 113 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 285, thence along U.S. Highway 285 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 550, thence along U.S. Highway 550 to the Colorado-New Mexico State line), and Arizona (except points east of a line beginning at the New Mexico-Arizona State line and extending along U.S. Highway 666 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 89, thence along U.S. Highway 89 to the United States-Mexico International Boundary line), to points in Pennsylvania.

(g) From points in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, North Dakota, South Dakota, Minnesota, Wisconsin (except points south of a line beginning at Sheboygan and extending along Wisconsin Highway 23 to junction Wisconsin Highway 82, thence along Wisconsin Highway 82 to the Wisconsin-Iowa State line), Iowa (except points south of a line beginning at the Wisconsin-Iowa State line and extending along U.S. Highway 18 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Nebraska State line), Nebraska (except points south and east of a line beginning at the Iowa-Nebraska State line and extending along U.S. Highway 20 to junction U.S. Highway 83; thence along U.S. Highway 83 to the Nebraska-Kansas State line), Colorado (except points east of a line beginning at the Nebraska-Colorado State line and extending along U.S. Highway 6 to junction U.S. Highway 285, thence along U.S. Highway 285 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 550, thence along U.S. Highway 550 to the Colorado-New Mexico State line), to points in Maryland, Delaware, and the District of Columbia; (h) from points in Washington, Oregon, Idaho, Montana, North Dakota, Minnesota, Wisconsin (except points south of a line beginning at Sheboygan and extending along Wisconsin Highway 23 to junction Wisconsin Highway 82, thence along Wisconsin Highway 82 to the Wisconsin-Iowa State line), South Dakota (except points south and east of a line beginning at the Iowa-South Dakota State line and extending along U.S. Highway 46 to junction U.S. Highway 81, thence along U.S. Highway 81 to the South Dakota-Nebraska State line), Wyoming (except points south and east of a line beginning at the Nebraska-Wyoming State line and extending along U.S. Highway 26 to junction Wyoming Highway 220, thence along Wyoming Highway 220 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction Interstate Highway 80, thence Utah (except points east of a line beginning at the Wyoming-Utah State line along Interstate Highway 80 to the Wyoming-Utah State line), and extending along Interstate Highway 80 to junction U.S. Highway 91, thence along U.S. Highway 91 to the Utah-Arizona State line), Nevada (except points south of Interstate Highway 15), and California (except points east of a line beginning at the Nevada-California State line and extending along Interstate Highway 15 to junction Interstate Highway 5, thence along Interstate Highway 5 to the United States-Mexico International Boundary line), to points in West Virginia.

(i) From points in Washington, Oregon, Idaho, Montana, North Dakota, Minnesota, Wisconsin (except points south of a line beginning at Sheboygan and extending along Wisconsin Highway 23 to junction Wisconsin Highway 82, thence along Wisconsin Highway 82 to the Wisconsin-Iowa State line), Iowa (except points south of Iowa Highway 9), South Dakota (except points south and east of a line beginning at the Iowa-South Dakota State line and extending along U.S. Highway 18 to junction U.S. Highway 81, thence along U.S. Highway 81 to the South Dakota-Nebraska State line), Wyoming (except points south and east of a line beginning at the Nebraska-Wyoming State line and extending along U.S. Highway 20 to junction Wyoming Highway 789, thence along Wyoming Highway 789 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Wyoming-Utah State line), Utah (except points east of U.S. Highway 91), Nevada (except points south of a line beginning at the Utah-Nevada State line and extending along Nevada Highway 25 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Nevada-California State line), and points in California in and north of Santa Cruz, Santa Clara, Merced, Mariposa, and Mona Counties, to points in Virginia; (j) from points in Washington, Oregon, Idaho, Montana, North Dakota, Minnesota, Wisconsin (except points south of a line beginning at Sheboygan and extending along Wisconsin Highway 23 to junction Wisconsin Highway 82, thence along Wisconsin Highway 82 to the Wisconsin-Iowa State line), Iowa (except points south of Iowa Highway 9), South Dakota (except points south of a line beginning at the Iowa-South Dakota State line and extending along U.S. Highway 18 to junction U.S. Highway 281, thence along U.S. Highway 281 to the South Dakota-Nebraska State line), Wyoming (except points south of a line beginning at the Nebraska-Wyoming State line and extending along U.S. Highway 20 to junction Wyoming Highway 789, thence along Wyoming Highway 789 to junction Wyoming Highway 28, thence along Wyoming Highway 28 to junction U.S. Highway 187, thence along U.S. Highway 187 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Wyoming-Utah State line), Utah (except points south of a line beginning at the Wyoming-Utah State line and extending along U.S. Highway 189 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Utah-Nevada State line), Nevada (except points south of U.S. Highway 50), and California (except points south of a line beginning at the Nevada-California State line and extending along Interstate Highway 80 to junction California Highway 17, thence along California Highway 17 to the Pacific Ocean), to points in South Carolina.

(k) From points in Washington, North Dakota, Wisconsin (except points south of a line beginning at Manitowoc and extending along U.S. Highway 10 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Wisconsin-Minnesota State line), Minnesota (except points south of U.S. Highway 12), South Dakota (except points south of a line beginning at the Minnesota-South Dakota State line and extending along U.S. Highway 12 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 212, thence along U.S. Highway 212 to the South Dakota-Wyoming State line), Montana (except points south of U.S. Highway 10), Idaho (except points south of U.S. Highway 12), and Oregon (except points south and east of a line beginning at the Washington-Oregon State line and extending along U.S. Highway 395 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Pacific Ocean), to points in Kentucky; (l) from points in Washington, Oregon, Montana, North Dakota, the Upper Peninsula of Michigan (except points east of a line beginning at Marquette and extending along U.S. Highway 41 to the Michigan-Wisconsin State line), Wisconsin (except points south of a line beginning at Green Bay and extending along U.S. Highway 41 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Interstate Highway 94, thence along Interstate Highway 94 to the Wisconsin-Minnesota State line), Minnesota (except points south of a line beginning at the Wisconsin-Minnesota State line and extending along U.S. Highway 12 to junction U.S. Highway 212, thence along U.S. Highway 212 to the Minnesota-South Dakota State line), South Dakota (except points south of U.S. Highway 14), Wyoming (except points south of a line beginning at the South Dakota-Wyoming State line and extending along U.S. Highway 14 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Wyoming-Idaho State line), Idaho (except points south and east of a line beginning at the Montana-Idaho State line and extending along Interstate Highway 15 to junction Interstate Highway 15W, thence along Interstate Highway 15W to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 93, thence

along U.S. Highway 93 to the Idaho-Nevada State line), Nevada (except points south and east of a line beginning at the Idaho-Nevada State line and extending along U.S. Highway 93 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Nevada-California State line), and California (except points south of Interstate Highway 80), to points in Indiana (except points in the Chicago, Ill., commercial zone), restricted against the transportation of traffic from the facilities of Armour & Co. at Green Bay, Wis., to points in Indiana and Ohio.

(m) From points in Washington, Oregon, Idaho, Montana, North Dakota, California (except points east of a line beginning at the United States-Mexico International Boundary line and extending along California Highway 111 to junction California Highway 86, at or near Heber, Calif., thence along California Highway 86 to junction Interstate Highway 10, thence along Interstate Highway 10 to junction Interstate Highway 15, thence along Interstate Highway 15 to the California-Nevada State line), Nevada (except points east and south of a line beginning at the California-Nevada State line and extending along Interstate Highway 15 to junction U.S. Highway 93, thence along U.S. Highway 93 to Panaca, thence along Nevada Highway 25 to the Nevada-Utah State line), Utah (except points south and east of a line beginning at the Nevada-Utah State line and extending along Utah Highway 56 to junction Interstate Highway 15, thence along Interstate Highway 15 to Provo, thence along U.S. Highway 189 to the Utah-Wyoming State line), Wyoming (except points south of a line beginning at the Idaho-Wyoming State line and extending along U.S. Highway 26 to Orin, thence along U.S. Highway 20 to the Wyoming-Nebraska State line), South Dakota (except points south of U.S. Highway 16), Minnesota (except points south of a line beginning at the South Dakota-Minnesota State line and extending along U.S. Highway 16 to Worthington, thence along Minnesota Highway 60 to the Minnesota-Wisconsin State line), and Wisconsin (except points south of U.S. Highway 10), to points in Ohio, restricted against the transportation of traffic from the facilities of Armour & Co., Green Bay, Wis., to points in Indiana and Ohio. The purpose of this filing is to eliminate the gateways of: Fort Atkinson, Wis., in (1) above; and the plant and warehouse facilities of Haskon, Bingham/Risdon Division, at Ashwaybenon, Wis., in (2) above.

No. MC 67646 (Sub-No. E3), (Correction), filed May 15, 1974, published in the FEDERAL REGISTER August 25, 1975. Applicant: HALL'S MOTOR TRANSIT COMPANY, 6060 Carlisle Pike, Mechanicsburg, Pa. 17055. Applicant's representative: Daniel W. Rohrbaugh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, sand, gravel, earth, stone, households goods as defined by the Commission, commodities requiring special equipment, and those injurious or contaminating to other lading, and commodities in bulk), between Baltimore, Md., on the one hand, and, on the other, those points in Pennsylvania within 60 miles of Bel Air, Md., which are on and east of a line begining at Harrisburg, Pa., thence along U.S. Highway 15 to junction Pennsylvania Highway 194, thence along Pennsylvania Highway 194 to junction Pennsylvania Highway 94, thence along Pennsylvania Highway 94 to the Pennsylvania-Maryland State line (except Hanover and points on and east of U.S. Highway 1). The purpose of this filing is to eliminate the gateway of Harford County, Md. The purpose of this correction is to correct the applicant's name.

No. MC 67646 (Sub-No. E7), (Correction), filed May 16, 1974, published in the FEDERAL REGISTER August 25, 1975. Applicant: HALL'S MOTOR TRANSIT COMPANY, 6060 Carlisle Pike, Mechanicsburg, Pa. 17055. Applicant's representative: Daniel W. Rohrbaugh (same as above). Authority sought to operate * * * The purpose of this correction is to correct the applicant's name above.

No. MC 102616 (Sub-No. E152), filed June 3, 1974. Applicant: COASTAL TANK LINES, INC., 215 E. Waterloo Road, Akron, Ohio 44319. Applicant's representative: Fred H. Daly (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commercial solvents*, in bulk, in tank vehicles, from Baltimore, Md., and points within ten miles thereof; (1) to points in Cuyahoga, Hamilton, Mahoning, Stark, Summit, and Trumbull Counties, Ohio (Romney, W. Va.) *; (2) to points in Ohio, (a) in the commercial zones of Cincinnati and Dayton, (b) Westwood, Fairmount, Cumminsville, St. Bernard, Avondale, Norwood, Oakley, Linwood, and Sedamsville, Ohio, (c) on a line beginning at the Ohio-Indiana State line and extending along U.S. Highway 52 to Cincinnati, (d) on a line beginning at the Ohio-Indiana State line and extending along U.S. Highway 27 to junction Ohio Highway 73 (i) to junction U.S. Highway 127 to Cincinnati, and (ii) to junction Ohio Highway 4, to junction U.S. Highway 127 to Middletown; (e) on a line beginning at the Ohio-Indiana State line and extending along U.S. Highway 35 to junction U.S. Highway 127 to Cincinnati; (f) on a line beginning at the Ohio-Indiana State line and extending along U.S. Highway 30 to junction U.S. Highway 30S, thence along U.S. Highway 30S to junction U.S. Highway 25, thence along U.S. Highway 25 to Cincinnati; (g) on a line beginning at junction U.S. Highway 25 and Ohio Highway 4 and extending along Ohio Highway 4 to junction U.S. Highway 127, thence along U.S. Highway 127 to Cincinnati; and (h) on a line beginning at the Ohio-Indiana State line and extending along U.S. Highway 40 to junction Ohio Highway 49, thence along Ohio Highway 49 to Dayton (Romney, W. Va., and Akron, Ohio) *. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 102616 (Sub-No. E173), filed June 3, 1974. Applicant: COASTAL TANK LINES, INC., 215 E. Waterloo Road, Akron, Ohio 44319. Applicant's representative: Fred H. Daly (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Michigan; (a) in the commercial zone of Detroit; (b) Lincoln Park, Ecorse, River Rouge, Wayne, Dearborn, Plymouth, Farmington, Southfield, Berkeley, Royal Oak, Pleasant Ridge, Ferndale, East Detroit, and Grosse Pointe Farms; (c) on a line beginning at the Michigan-Indiana State line and extending along U.S. Highway 12, (i) to junction U.S. Highway 25 to Mount Clemens, (ii) to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Michigan Highway 150, thence along Michigan Highway 150 to Rochester, (iii) to junction U.S. Highway 127 to Jackson, and (iv) to junction U.S. Highway 23 to Ann Arbor; (d) on a line beginning at the Indiana-Michigan State line and extending along U.S. Highway 94 to junction U.S. Highway 12; (e) on a line beginning at junction U.S. Highway 94, (i) and U.S. Highway 31 and extending along U.S. Highway 31 to Niles, and (ii) and Michigan Highway 40 and extending along Michigan Highway 40 to Niles; (f) on a line beginning at the Michigan-Indiana State line and extending along U.S. Highway 94 to junction Michigan Highway 78, thence along Michigan Highway 78 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Michigan Highway 43, thence along Michigan Highway 43 to junction unnumbered highway, thence along unnumbered highway to junction U.S. Highway 96, thence along U.S. Highway 96 to Detroit; (g) on a line beginning at Lansing and extending along Michigan Highway 78 to junction U.S. Highway 10, thence along U.S. Highway 10 to Detroit; (h) on a line beginning at junction U.S. Highways 12 and 223 and extending along U.S. Highway 223 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 25, thence along U.S. Highway 25 to Detroit; and Dundee, Mich.; (i) on U.S. Highway 23 beginning at junction U.S. Highway 12 and extending to the Michigan-Ohio State line; (j) on U.S. Highways 24 or 25 beginning at Detroit and extending to the Michigan-Ohio State line; to points in North Carolina and Virginia. The purpose of this filing is to eliminate the gateways of Akron, Ohio, and South Charleston or Institute, W. Va.

No. MC-102616 (Sub-No. E174), filed June 3, 1974. Applicant: COASTAL TANK LINES, INC., 215 E. Waterloo Road, Akron, Ohio 44319. Applicant's

representative: Fred H. Daly (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Michigan; (a) in the commercial zone of Detroit; (b) Lincoln Park, Ecorse, River Rouge, Wayne, Dearborn, Plymouth, Farmington, Southfield, Berkeley, Royal Oak, Pleasant Ridge, Ferndale, East Detroit, and Grosse Pointe Farm; (c) on a line beginning at the Michigan-Indiana State line and extending along U.S. Highway 12, (i) to junction U.S. Highway 25 to Mount Clemens, (ii) to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Michigan Highway 150, thence along Michigan Highway 150 to Rochester, (ii) to junction U.S. Highway 127 to Jackson, and (iv) to junction U.S. Highway 23 to Ann Arbor; (d) on a line beginning at the Indiana-Michigdn State line and extending along U.S. Highway 94 to junction U.S. Highway 12; (e) on a line beginning at junction U.S. Highway 94, (i) and U.S. Highway 31 and extending along U.S. Highway 31 to Niles, and (ii) and Michigan Highway 40 and extending along Michigan Highway 40 to Niles; (f) on a line beginning at the Michigan-Indiana State line and extending along U.S. Highway 94 to junction Michigan Highway 78, thence along Michigan Highway 78 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Michigan Highway 43, thence along Michigan Highway 43 to junction unnumbered highway, thence along unnumbered highway to junction U.S. Highway 96, thence along U.S. Highway 96 to Detroit; (g) on a line beginning at Lansing and extending along Michigan Highway 78 to junction U.S. Highway 10, thence along U.S. Highway 10 to Detroit; (h) on a line beginning at junction U.S. Highways 12 and 223 and extending along U.S. Highway 223 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 25, thence along U.S. Highway 25 to Detroit; and Dundee, Mich.; (i) on U.S. Highway 23 beginning at junction U.S. Highway 12 and extending to the Michigan-Ohio State line; and (j) on U.S. Highway 24 or 25 beginning at Detroit and extending to the Michigan-Ohio State line; to points in Brooke, Hampshire, Hancock, Kanawha, Marion, Marshall, Monongalia, Pleasants, and Wetzels Counties, W. Va., Cuyahoga, Mahoning, Stark, Summit, and Trumbull Counties, Ohio, and Allegheny, Beaver, Butler, Cambria, and McKean Counties. The purpose of this filing is to eliminate the gateway of Akron, Ohio.

No. MC–102616 (Sub–No. E235), filed June 3, 1974. Applicant: COASTAL TANK LINES, INC., 215 E. Waterloo Rd., Akron, Ohio 44319. Applicant's representative: Fred H. Daly (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, as defined by the Commission, in bulk, in tank vehicles, from Bayonne, Tremley Point, Sewaren, Perth Amboy, and Paulsboro, N.J., and points within five miles of each to points in Michigan; (a) in the commercial zone of Detroit; (b) Lincoln Park, Ecorse, River Rouge, Wayne, Dearborn, Plymouth, Farmington, Southfield, Berkeley, Royal Oak, Pleasant Ridge, Ferndale, East Detroit, and Grosse Pointe Farm; (c) on a line beginning at the Michigan-Indiana State line and extending along U.S. Highway 12, (i) to junction U.S. Highway 25 to Mount Clemens, (ii) to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Michigan Highway 150, thence along Michigan Highway 150 to Rochester, (iii) to junction U.S. Highway 127, thence along U.S. Highway 127 to Jackson; and (iv) to junction U.S. Highway 23, thence along U.S. Highway 23 to Ann Arbor; (d) on a line beginning at the Indiana-Michigan State line and extending along U.S. Highway 94 to junction U.S. Highway 12; (e) on a line beginning at junction U.S. Highway 94 (i) and U.S. Highway 31 and extending along U.S. Highway 31 to Niles, and (ii) and Michigan Highway 40 and extending along Michigan Highway 40 to Niles; (f) on a line beginning at the Michigan-Indiana State line and extending along U.S. Highway 94 to junction Michigan Highway 78, thence along Michigan Highway 78 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Michigan Highway 43, thence along Michigan Highway 43 to junction unnumbered highway, thence along unnumbered highway to junction U.S. Highway 96, thence along U.S. Highway 96 to Detroit; (g) on a line beginning at Lansing and extending along Michigan Highway 78 to junction U.S. Highway 10, thence along U.S. Highway 10 to Detroit; (h) on a line beginning at junction U.S. Highways 12 and 223 and extending along U.S. Highway 223, thence along U.S. Highway 223 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 25 ,thence along U.S. Highway 25 to Detroit; and Dundee, Mich.; (i) on U.S. Highway 23 beginning at junction U.S. Highway 23 and extending to the Michigan–Ohio State line; and (j) on U.S. Highway 24 or 25 beginning at Detroit and extending to the Michigan-Ohio State line. The purpose of this filing is to eliminate the gateway of Toledo, Ohio.

No. MC–102616 (Sub–No. E236), filed June 3, 1974. Applicant: COASTAL TANK LINES, INC., 215 E. Waterloo Rd., Akron, Ohio 44319. Applicant's representative: Fred H. Daly (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, as defined by the Commission, in bulk, in tank vehicles, from Bayonne, Tremley Point, Sewaren, Perth Amboy, and Paulsboro, N.J., and points within five miles thereof, to points in Ohio; (a) in the commercial zones of Cincinnati and Dayton; (b) Westwood, Fairmount, Cumminsville, St. Bernard, Avondale, Norwood, Oakley, Linwood, and Sedamsville, Ohio; (c) on a line beginning at the Ohio-Indiana State line and extending along U.S. Highway 52 to Cincinnati; (d) on a line beginning at the Ohio-Indiana State line and extending along U.S. Highway 27 to junction Ohio 73, (i) to junction U.S. Highway 127 to Cincinnati, and (ii) to junction Ohio Highway 4 to junction U.S. Highway 127, thence along U.S. Highway 127 to Middletown; (e) on a line beginning at the Ohio-Indiana State line and extending along U.S. Highway 35 to junction U.S. Highway 127, thence along U.S. Highway 127 to Cincinnati; (f) on a line beginning at the Ohio-Indiana State line and extending along U.S. Highway 30 to junction U.S. Highway 30S, thence along U.S. Highway 30S to junction U.S. Highway 25, thence along U.S. Highway 25 to Cincinnati; (g) on a line beginning at junction U.S. Highway 25 and Ohio Highway 4 and extending along Ohio Highway 4 to junction U.S. Highway 127, thence along U.S. Highway 127 to Cincinnati; and (h) on a line beginning at the Ohio-Indiana State line and extending along U.S. Highway 40 to junction Ohio Highway 49, thence along Ohio Highway 49 to Dayton. The purpose of this filing is to eliminate the gateway of Akron, Ohio.

No. MC–103993 (Sub-No. E72), filed May 24, 1974. Applicant: MORGAN DRIVE-AWAY, INC., 2800 W. Lexington Ave., Elkhart, Ind. 46514. Applicant's representative: Paul D. Borghesani (same as above). Authority sought to operate at as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Buildings*, in sections, mounted on wheeled undercarriages from the plant site of Atlantic Mobile Corporation, located in Baltimore County, Maryland, to points in the United States (except Alaska and Hawaii). The purpose of this filing is to eliminate the gateway of that part of the United States on and east of a line beginning at the Gulf of Mexico at the Louisiana-Texas State line and extending along the Louisiana-Texas State line to the Louisiana-Arkansas State line thence eastward along the Louisiana-Arkansas State line to the Mississippi River, thence northward along the Mississippi River to its junction with the western boundary of Itasca County, Minnesota and thence northward along the western boundary of Itasca and Koochiching Counties, Minnesota, to the United States-Canada Boundary line.

No. MC–103993 (Sub-No. E73), filed May 24, 1974. Applicant: MORGAN DRIVE-AWAY, INC., 2800 W. Lexington Ave., Elkhart, Ind. 46514. Applicant's representative: Paul D. Borghesani (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Buildings*, in sections, mounted on wheeled undercarriages from Chester, New York, to points in the United States (except Alaska and Hawaii). The purpose of this filing is to eliminate the gateway of that part of the United States on and east of a line beginning at the mouth of the Mississippi River, and extending along the Mississippi River to its junction with the western boundary of Itasca County, Minnesota and thence northward along the western boundaries of Itasca and Koochiching Counties, Minnesota to the United States-Canada Boundary line (except those in New York).

No. MC–103993 (Sub-No. E74), filed May 24, 1974. Applicant: MORGAN DRIVE-AWAY, INC., 2800 W. Lexington Ave., Elkhart, Ind. 46514. Applicant's representative: Paul D. Borghesani (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated Buildings*, complete, knocked down, or in sections and *equipment* and materials incidental to the erection and completion of such buildings when shipped therewith, and rejected shipments of such buildings and commodities and equipment incidental to the handling of such commodities (1) from points in Iowa in, south, and east of Jackson, Jones, Linn, Benton, Tama, Marshall, Story, Boone, Dallas, Madison, Union, and Ringgold Counties, Iowa, to points in North Dakota and South Dakota. The purpose of this filing is to eliminate the gateway of Polk County, Iowa.

No. MC–103993 (Sub-No. E75), filed May 24, 1974. Applicant: MORGAN DRIVE-AWAY, INC., 2800 W. Lexington Ave., Elkhart, Ind. 46514. Applicant's representative: Paul D. Borghesani (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated buildings*, complete, knocked down, or in sections and *equipment* and *materials* incidental to the erection and completion of such buildings when shipped therewith, and rejected shipments of such buildings and commodities and equipment incidental to the handling of such commodities: (1) from points in Florida, Georgia, Alabama, Mississippi, Tennessee, the Lower Peninsula of Michigan, that part of Wisconsn, on and south of U.S. Highway 18, that part of Missouri on and east of a line beginning at the Missouri-Iowa State line, thence south along U.S. Highway 69 to its junction with Missouri Highway 13, thence south on Missouri Highway 13 to the Missouri-Arkansas State line, that part of Arkansas on and east of a line beginning at the Arkansas-Missouri State line, thence south on U.S. Highway 71 to its junction with Arkansas Highway 16, thence along Arkansas Highway 16 to its junction with Arkansas Highway 23, thence along Arkansas Highway 23 to its junction with U.S. Highway 71, thence along U.S. Highway 71 to its junction with U.S. Highway 270, thence along U.S. Highway 270 to its junction with Arkansas Highway 27, thence along Arkansas Highway 27 to its junction with Arkansas Highway 19, thence along Arkansas Highway 19 to the Arkansas-Louisiana State line, and that part of Louisiana on and east of a line beginning at the Arkansas-Louisiana State line, and that part of Louisiana on and east of a line beginning at the Arkansas-Louisiana State line, thence south on U.S. Highway 167 to its junction with U.S. Highway 90, thence along U.S. Highway 90 to its junction with Louisiana Highway 1, thence along Louisiana Highway 1 to the Gulf of Mexico, to points in Wyoming; and, (2) from points in Florida, Georgia, Alabama, Mississippi, Tennessee, Missouri, Arkansas, Louisiana, that part of Kansas, on and east of U.S. Highway 77, and that part of Oklahoma and Texas on and east of Interstate Highway 35, to points in Montana. The purpose of this filing is to eliminate the gateway of Polk County, Iowa.

No. MC–103993 (Sub-No. E76), filed May 24, 1974. Applicant: MORGAN DRIVE-AWAY, INC., 2800 W. Lexington Ave., Elkhart, Ind. 46514. Applicant's representative: Paul D. Borghesani (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated buildings*, complete, knocked down, or in sections and *equipment* and *materials* incidental to the erection and completion of such buildings when shipped therewith, and rejected shipments of such buildings and commodities and equipment incidental to the handling of such commodities; (1) from points in Arkansas, Louisiana, Mississippi, Missouri, and points in that portion of Oklahoma and Texas on and east of a line beginning at the Kansas-Oklahoma State line and extending along U.S. Highway 75 to the junction of Indian Nation Turnpike, thence along the Indian Nation Turnpike to the junction of U.S. Highway 271, thence along U.S. Highway 271 to the junction of Texas Highway 19, thence along Texas Highway 19 to its junction with U.S. Highway 75, thence along U.S. Highway 75 to its junction with Texas Highway 288, thence along Texas Highway 288 to the Gulf of Mexico, to points in Montana, North Dakota, and South Dakota; (2) from points in Kansas, Oklahoma and Texas on and east of a line beginning at the Kansas-Missouri State line, thence south along U.S. Highway 169 to its junction with U.S. Highway 75, thence along U.S. Highway 75 to its junction with Interstate Highway 35, thence south along Interstate Highway 35 to the International Boundary line between the United States and Mexico to points in North Dakota; and (3) from points in Kansas, Oklahoma, and Texas, on and east of a line beginning at the Kansas-Nebraska State line, thence south along U.S. Highway 75 to its junction with Interstate Highway 35 to its junction with U.S. Highway 77, hence south along U.S. Highway 77 to its junction with U.S. Highway 64, thence west on U.S. Highway 64 to its junction with Interstate Highway 35, thence south on Interstate Highway 35 to the International Boundary line between the United States and Mexico, to points in North Dakota on and north of U.S. Highway 2. The purpose of this filing is to eliminate the gateway of Polk County, Iowa.

No. MC–108119 (Sub-No. E38), filed May 4, 1975. Applicant: E. L. MURPHY TRUCKING CO., P.O. Box 3010, St. Paul, Minn. 55165. Applicant's representative: Mark E. Moser (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Such commodities* as contractors' equipment, heavy and bulky articles, machinery and machinery parts, articles requiring specialized handling or rigging, and machinery, materials, supplies and equipment used or useful in road construction, mining, logging and sawmill operations, which, because of size or weight, require special handling or the use of special equipment, and related parts, materials, and supplies when their transportation is incidental to the transportation by carrier of commodities which, by reason of size or weight require special handling or the use of special equipment, and (2) *Self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools, parts, and supplies moving in connection therewith, restricted to commodities which are transported on trailers.

(a) Between points in Montana in and west of the Counties of Flathead and Missoula on the one hand, and, on the other hand, points in Alabama, Arkansas, Connecticut, Delaware, District of Columbia, Florida, Georgia, Iowa, that part of Kansas on and east of a line beginning at the Nebraska-Kansas State line and extending southerly along U.S. Highway 281 to its junction with U.S. Highway 40, thence westerly along U.S. Highway 40 to its junction with U.S. Highway 183, thence southerly along U.S. Highway 183 to the Kansas-Oklahoma State line, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan (points in the Upper Peninsula), Minnesota, Mississippi, that part of Nebraska on and east of U.S. Highway 281, New Hampshire, New Jersey, New York, North Carolina, that part of North Dakota on and east of a line beginning at the North Dakota–Canada boundary and extending southerly along North Dakota Highway 1 to Interstate Highway 94, thence westerly along Interstate Highway 94 to its junction with U.S. Highway 281, thence southerly along U.S. Highway 281 to the North Dakota–South Dakota State line, that part of Oklahoma on and east of a line beginning at the Oklahoma-Kansas State line and extending southerly along U.S. Highway 183 to its junction with U.S. Highway 270, thence southerly along U.S. Highway 270 to its junction with Oklahoma Highway 34 to its junction with U.S. Highway 283, thence southerly along U.S. Highway 283 to the Oklahoma-Texas State line, Pennsylvania, Rhode Island, South Carolina, that part of South Dakota on and east of U.S. Highway 281, Tennessee, that part of Texas on and east of a line beginning at the Texas-Oklahoma State line, and extending along southerly along U.S. Highway 183 to its junction with U.S. Highway 277, thence southerly along U.S. Highway 277 to its junction with U.S. Highway 83, thence southerly along U.S. Highway 83 to the International boundary line near Laredo, Texas, Vermont, Virginia, West Virginia and Wisconsin.

V 40 243 DEC 17 75 XUM

(b) Between points in Montana within the Counties of Lewis and Clark, Powell, Granite, Ravalli, Anaconda, Jefferson, Beaverhead, Silver Bow, and Madison, on the one hand, and, on the other hand, points in Alabama, Arkansas, Connecticut, Delaware, District of Columbia, Florida, Georgia, Iowa, that part of Kansas on and east of U.S. Highway 281, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan (points in the Upper Peninsula only), Minnesota, Mississippi, that part of Nebraska on and east of U.S. Highway 281, New Hampshire, New Jersey, New York, North Carolina, that part of North Dakota on and east of a line beginning at the North Dakota-Canada boundary and extending southerly along North Dakota Highway 1 to its junction with North Dakota Highway 13, thence easterly along North Dakota Highway 13 to its junction with North Dakota Highway 32, thence southerly along North Dakota Highway 32 to the North Dakota-South Dakota State line, that part of Oklahoma on and east of a line beginning at the Oklahoma-Kansas State line and extending southerly along U.S. Highway 281 to its junction with U.S. Highway 183, thence southerly along U.S. Highway 183 to the Oklahoma-Texas State line, Pennsylvania, Rhode Island, South Carolina, that part of South Dakota on and east of a line beginning at the North Dakota-South Dakota State line, and extending southerly along South Dakota Highway 25 to its junction with South Dakota Highway 10, thence westerly along South Dakota Highway 10 to its junction with South Dakota Highway 37, thence southerly along South Dakota Highway 37 to its junction with U.S. Highway 18, thence westerly along U.S. Highway 18 to its junction with U.S. Highway 281, thence along U.S. Highway 281 to the South Dakota-Nebraska State line, Tennessee, that part of Texas on and east of a line beginning at the Texas-Oklahoma State line and extending southerly along U.S. Highway 183 to its junction with U.S. Highway 277, thence southerly along U.S. Highway 277 to its junction with U.S. Highway 83, thence southerly along U.S. Highway 83 to the International Boundary line near Laredo, Texas, Vermont, Virginia, West Virginia and Wisconsin restricted in (1) and (2) against the transportation of farm machinery from or to the States of Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Mississippi, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Utah, Vermont, Virginia, West Virginia and Wyoming are restricted against the transportation of farm machinery. The purpose of this filing is to eliminate the gateways of Western Montana and Minnesota.

No. MC-108119 (Sub-No. E39), filed May 4, 1975. Applicant: E. L. MURPHY TRUCKING COMPANY, P.O. Box 3010, St. Paul, Minn. 55165. Applicant's representative: Mark E. Moser (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, which, because of size or weight, require special handling or the use of special equipment, and related parts, materials, and supplies when their transportation is incidental to the transportation by carrier of commodities which, by reason of size or weight, require special handling or the use of special equipment; and (2) *Self-propelled Articles*, each weighing 15,000 pounds or more, and related machinery, tools, parts, and supplies moving in connection therewith: (a) between points in South Dakota that lie east of U.S. Highway 83, and west of U.S. Highway 81, on the one hand, and, on the other hand, points in that part of Alabama on and east of a line extending northerly from the Alabama-Florida State line along U.S. Highway 231 to Montgomery Alabama thence northwesterly along U.S. Highway 82 to the Alabama-Mississippi State line, Connecticut, Delaware, District of Columbia, that part of Florida on and east of Interstate Highway 75 extending northerly from St. Petersburg, Florida to Ocala, Florida, thence northwesterly along U.S. Highway 27 to the Florida-Georgia State line, Georgia, that part of Illinois on and east of a line extending northerly from the Illinois-Kentucky State line to along U.S. Highway 51 to Bloomington, Illinois, thence northwesterly along Intertsate Highway 74 to the Illinois-Iowa State line, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan (points in the Lower Peninsula only), Minnesota, that part of Mississippi on and north of a line beginning at the Mississippi-Alabama State line and extending westerly along U.S. Highway 82 to Columbus, Mississippi, thence northerly along U.S. Highway 45 to Tupelo, Mississippi, thence northwesterly along U.S. Highway 78 to the Mississippi-Tennessee State line, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, that part of Tennessee on and east of U.S. Highway 51, Vermont, Virginia and West Virginia.

(b) Between points in South Dakota on and east of U.S. Highway 81, (except Union County, South Dakota), on the one hand, and, on the other hand, points in that part of Alabama on and east of a line extending northerly from the Alabama-Florida State line along U.S. Highway 231 to Montgomery, Alabama, thence northwesterly along U.S. Highway 82 to the Alabama-Mississippi State line, Arizona, California, Connecticut, Delaware, District of Columbia, that part of Florida, on and east of Interstate Highway 75 extending northerly from St. Petersburg, Florida to Ocala, Florida, thence northwesterly along U.S. Highway 27, to the Florida-Georgia State line, Georgia, that part of Illinois on and east of a line extending northerly from the Illinois-Kentucky line along U.S. Highway 51 to Bloomington, Illinois, thence northwesterly along Interstate Highway 74 to the Illinois-Iowa State line, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan (points in the Lower Peninsula only), Minnesota, that part of Mississippi on and north of a line beginning at the Mississippi-Alabama State line and extending westerly along U.S. Highway 82 to Columbus, Mississippi, thence northerly along U.S. Highway 45 to Tupelo, Mississippi, thence northwesterly along U.S. Highway 78 to the Mississippi-Tennessee State line, that part of Montana on and west of a line extending northerly from the Montana-Wyoming State line along U.S. Highway 87 to its junction with Montana Highway 19, thence northerly along Montana Highway 19 to its junction with U.S. Highway 191, thence northerly along U.S. Highway 191 to its junction with Montana Highway 242 at Malta, Montana, thence northerly along Montana Highway 242 to the Montana-Canadian Boundary, Nevada, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, that part of Tennessee, on and east of U.S. Highway 51, Utah, Vermont, Virginia, West Virginia, and that part of Wyoming on and west of a line extending northerly from the Wyoming-Colorado State line along Wyoming Highway 789 to Creston, Wyoming, thence easterly along Interstate Highway 80 to Rawlins, Wyoming, thence northerly along U.S. Highway 287 to Muddy Gap, Wyoming, thence northeasterly along Wyoming Highway 220 to Casper, Wyoming, thence northerly along U.S. Highway 87 to the Montana-Wyoming State line.

(c) Between points in South Dakota on and west of U.S. Highway 83, on the one hand, and, on the other hand, points in Alabama, Arkansas, Connecticut, Delaware, District of Columbia, Florida, Georgia, Illinois, Indiana, that part of Kansas, on and east of a line extending northerly from the Kansas-Oklahoma line along U.S. Highway 75 to Topeka, Kansas, thence easterly along Interstate 70 to the Kansas-Missouri State line, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan (points in the Lower Peninsula only), Minnesota, Mississippi, Missouri, (except points in the counties of Andrew, Atchison, Gentry, Harrison, Holt, Nodaway, and Worth), New Hampshire, New Jersey, New York, North Carolina, Ohio, that part of Oklahoma on and east of the Indian Nation Turnpike extending northerly from the Oklahoma-Texas line to McAlester, Oklahoma, thence northerly along U.S. Highway 75 to the Oklahoma-Kansas State line Pennsylvania, Rhode Island, South Carolina, Tennessee, that part of Texas, on and east of Interstate Highway 45 extending northerly from Galveston, Texas to Buffalo, Texas, thence northeasterly along U.S. Highway 79 to Jacksonville, Texas, thence northerly along U.S. Highway 69 to Tyler, Texas, thence northerly along U.S. Highway 271 to the Texas-Oklahoma State line, Vermont, Virginia, and West Virginia.

(d) Between points in South Dakota located within Union County, on the

one hand, and, on the other, points in Alabama, Arizona, California, Connecticut, Delaware, District of Columbia, Florida, Georgia, that part of Illinois on and east of a line beginning at the Wisconsin-Illinois State line and extending southerly along U.S. Highway 51 to its junction with U.S. Highway 66, thence southwesterly along U.S. Highway 55 to the Illinois-Missouri State line, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan (points in the Lower Peninsula only), Minnesota, Mississippi, that part of Missouri on and east of U.S. Highway 67, that part of Montana on and west of a line beginning at the Montana-Canada boundary and extending southerly along Montana Highway 242 to its junction with U.S. Highway 191, thence southerly along Montana Highway 242 to its junction with U.S. Highway 191, thence southerly along U.S. Highway 191 to its junction with U.S. Highway 87, thence southerly along U.S. Highway 87 to the Montana-Wyoming State line, Nevada, New Hampshire, New Jersey, that part of New Mexico on and west of a line beginning at the Colorado-New Mexico State line, and extending southerly along Interstate Highway 25 to its junction with U.S. Highway 285, thence southerly along U.S. Highway 285 to its junction with U.S. Highway 62, thence easterly along U.S. Highway 62 to the New Mexico-Texas State line, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, That part of Texas on and south of a line beginning at the New Mexico-Texas State line and extending easterly along U.S. Highway 180 to its junction with U.S. Highway 87, thence southeasterly along U.S. Highway 87 to its junction with Interstate Highway 20, thence easterly along Interstate Highway 20 to the Louisiana-Texas State line, Utah, Vermont, Virginia and West Virginia; restricted in (1) and (2) above, against the transportation of farm machinery to or from Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Mississippi, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Utah, Vermont, Virginia, West Virginia, and Wyoming, and restricted in (2) above, to commodities which are transported on trailers. The purpose of this filing is to eliminate the gateway of Minnesota.

No. MC 109637 (Sub-E47), filed May 29, 1974. Applicant: SOUTHERN TANK LINES, INC., Ten West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petrochemicals*, in bulk, in tank vehicles, from the Petroleum Products Terminal of the LaGloria Oil & Gas Co., near Seymour, Ind., the Terminal site of the Texas Eastern Transmission Corp., at or near Lebanon, Warren County, Ohio and Hamilton County, Ohio to points in Arkansas, Florida, Louisiana, Oklahoma, Texas and points in Kansas on, west and south of a line beginning at the Nebraska-Kansas State line and extending along U.S. Highway 81 to junction State Highway 196, thence along State Highway 196 to junction U.S. Highway 54, thence along U.S. Highway 54 to the Kansas-Missouri State line. The purpose of this filing is to eliminate the gateway of Calvert City, Kentucky.

No. MC 115257 (Sub-E2), filed May 12, 1974. Applicant: SHAMROCK VAN LINES, INC., P.O. Box 53443, Oklahoma City, Okla. 73105. Applicant's representative: Williams E. Bentley (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household Goods*, as defined by the Commission, (A) between points in Oregon on the one hand, and, on the other, points in North Dakota; (B) between points in Oregon west and north of U.S. Highway 395 from California border to Burns, U.S. Highway 20 from Burns to Ontario on the one hand, and, on the other, points in Colorado east of U.S. Highway 287 from the Wyoming border to Denver, Interstate Highway 25 from Denver to New Mexico border. (C) Between points in Oregon west of U.S. Highway 97 on the one hand, and, on the other, points in Wyoming east of Interstate Highway 25. The purpose of this filing is to eliminate the gateway of any point in Montana west of U.S. Highway 89.

No. MC 115841, (Sub-No. E53), filed June 4, 1974, published in the FEDERAL REGISTER September 16, 1975. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., P.O. Box 10327, Birmingham, Ala. 35202. Applicant's representative: E. Stephen Heisley, 666 Eleventh St., N.W., Washington, D.C. 20001. The letter-notice listed in the September 16, 1975, FEDERAL REGISTER was inadvertently published. The authority sought in E53 was published September 5, 1975 and stands as the correct authority and publication date.

No. MC 119777 (Sub-No. E6), (Correction), filed April 9, 1974, published in the FEDERAL REGISTER October 7, 1975. Applicant: LIGON SPECIALIZED HAULER, INC., P.O. Drawer L, Madisonville, Ky. 42431. Applicant's representative: Jean Holmes (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel*, and *iron and steel articles*, which require special handling, because of size and weight (except machinery, materials, supplies, and equipment incidental to or used in the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum, and incidental to, or used in connection with (a) the discovery, development, production, and preservation of natural gas and petroleum, (b) the construction, operation, repairs, servicing, dismantling, and maintenance of pipe lines and facilities for the storage of natural gas, gasoline, and petroleum, and (c) the dismantling and maintenance of plants and facilities for refining, recycling, processing, repressuring, and blending gasoline, natural gas, and petroleum; (16) from points in Illinois on, north, and east of a line beginning at the Wisconsin-Illinois State line extending along U.S. Highway 51 to junction Illinois Highway 38, thence along Illinois Highway 38 to junction Illinois Highway 47, thence along Illinois Highway 47 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Illinois Highway 53, thence along Illinois Highway 53 to junction U.S. Highway 52, thence along U.S. Highway 52 to . . . ; (33) from points in Indiana on, north, and east of a line beginning at the Illinois-Indiana State line . . . ; and (41) from points in Indiana on, north, and east of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 12 to junction Indiana Highway 53, thence along Indiana Highway 53 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Indiana Highway 46, thence along Indiana Highway 46 to junction Indiana Highway 37, thence along Indiana Highway 37 to junction U.S. Highway 460. The purpose of this filing is to eliminate the gateway of Kokomo, Ind. The purpose of this partial correction is to correct the territorial description. The remainder of this letter-notice remains as previously published.

No. MC 121420 (Sub-No. E9) (Correction), filed June 4, 1974, published in the FEDERAL REGISTER May 20, 1975. Applicant: DART TRUCKING CO., INC., 61 Railroad St., Canfield, Ohio 44406. Applicant's representative: Paul F. Berry, 8 East Broad St., Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Limestone* and *limestone products*, *insecticides*, *herbicides*, *fungicides*, *fertilizer*, and *fertilizer ingredients and materials* (other than such commodities in bulk liquid form), and *iron bearing agglomerates*, in dry bulk form, from points in those parts of Beaver, Allegheny, Armstrong, Lawrence, and Westmoreland Counties, Pa., that are within 50 miles of Toronto, Ohio, to points in Lucas County, Ohio, on and east of U.S. Highway 23. The purpose of this filing is to eliminate the gateway of Mahoning Township, Lawrence County, Pa. The purpose of this partial correction is to correct the highway description above. The remainder of this letter-notice remains as previously published.

By the Commission.

[Notice 43]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

DECEMBER 12, 1975.

The following letter-notices of proposals (except as otherwise specifically

V 40 243 DEC 17 75 XUM

noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969 (49 CFR 1042.4 (c)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4 (c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4 (c)(12) at any time, but will not operate to stay commencement of the proposed operations unless filed on or before January 16, 1976.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC 33641 (Deviation No. 106), IML FREIGHT, INC., 2175 So. 3270 West, P.O. Box 2277, Salt Lake City, Utah 84110, filed December 5, 1975. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Lewistown, Pa., over U.S. Highway 322 to junction Pennsylvania Highway 153, thence over Pennsylvania Highway 153 to junction Interstate Highway 80, thence over Interstate Highway 80 to junction Interstate Highway 76, thence over Interstate Highway 76 to junction Ohio Highway 21, thence over Ohio Highway 21 to junction Ohio Highway 585, thence over Ohio Highway 585 to Wooster, Ohio, and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Lewistown, Pa., over U.S. Highway 22 to Pittsburgh, Pa., thence over Pennsylvania Highway 65 to Rochester, Pa., thence over Pennsylvania Highway 68 to junction Ohio Highway 39 at the Ohio-Pennsylvania State line, thence over Ohio Highway 39 to E. Liverpool, Ohio, thence over U.S. Highway 30 to Wooster, Ohio, and return over the same route.

No. MC 59680 (Deviation No. 96), STRICKLAND TRANSPORTATION CO., INC., P.O. Box 5689, Dallas, Tex. 75222, filed December 5, 1975. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over deviation routes as follows: (1) From Shreveport, La., over U.S. Highway 71 to junction U.S. Highway 190, and (2) From Shreveport, La., over Louisiana Highway 1 to Alexandria, La., thence over U.S. Highway 71 to junction U.S. Highway 190, and return over the same routes for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Shreveport, La., over U.S. Highway 171 to junction U.S. Highway 190, thence over U.S. Highway 190 to Baton Rouge, La., and return over the same route, restricted to the transportation of traffic moving to or from points in Louisiana, with service at Baton Rouge, La., restricted to traffic moving to or from points west of the Louisiana-Texas State line.

No. MC 75320 (Deviation No. 58), CAMPBELL SIXTY-SIX EXPRESS, INC., P.O. Box 807, Springfield, Mo. 65801, filed November 21, 1975. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Tupelo, Miss., over U.S. Highway 78 to junction U.S. Highway 278 near Hamilton, Ala., thence over U.S. Highway 278 to junction Alabama Highway 5 near Natural Bridge, Ala., thence over Alabama Highway 5 to junction U.S. Highway 78 near Jasper, Ala., thence over U.S. Highway 78 to Birmingham, Ala., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Tupelo, Miss., over U.S. Highway 45 to junction Mississippi Highway 45W (now Alternate U.S. Highway 45) thence over Mississippi Highway 45W to junction U.S. Highway 82, thence over U.S. Highway 82 to Tuscaloosa, Ala., thence over U.S. Highway 11 to Birmingham, Ala., and return over the same route.

No. MC-106051 (Deviation No. 3, OLD COLONY TRANSPORTATION CO., INC., 676 Dartmouth St., S. Dartmouth, Mass. 02748, filed November 21, 1975. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Utica, N. Y., over New York Highway 12 to Watertown, N.Y., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Utica, N.Y., over New York Highway 5 to Syracuse, N.Y., thence over U.S. Highway 11 to Watertown, N.Y., and return over the same route.

No. MC 111231 (Deviation No. 45), JONES TRUCK LINES, INC., 610 E. Emma Ave., Springdale, Ark. 72764, filed December 5, 1975. Carrier's representative: Kim D. Mann, 702 World Center Bldg., 918 Sixteenth St., N.W., Washington, D.C. 20006. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Atlanta, Ga., over Interstate Highway 20 to Tuscaloosa, Ala. (using portions of U.S. Highway 78 where Interstate Highway 20 is incomplete), thence over U.S. Highway 82 to Greenville, Miss., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Atlanta, Ga., over U.S. Highway 78 to Memphis, Tenn., thence over U.S. Highway 61 to junction U.S. Highway 82, thence over U.S. Highway 82 to Greenville, Miss., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Atlanta, Ga., over U.S. Highway 78 to Memphis, Tenn., thence over U.S. Highway 61 to junction U.S. Highway 82, thence over U.S. Highway 82 to Greenville, Miss., and return over the same route for operating convenience only.

By the Commission.

[FR Doc.75 33994 Filed 12-16-75;8:45 am]

[Notice 99]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

DECEMBER 12, 1975.

The following publications include motor carrier, water carrier, broker, freight forwarder and rail proceedings indexed as follows: (1) Grants of authority requiring republication prior to certification; (2) notices of filing of petitions for modification of existing authorities; (3) new operating right's applications directly related to and processed on a consolidated record with finance applications filed under sections 5(2) and 212(b); (4) notices of filing of sections 5(2) and 210a(b) finance applications; and (5) notices of filing of section 212(b) transfer applications.

Each applicant (except as otherwise specifically noted) states that there will be no significant effect on the quality of the human environment resulting from approval of its application in compliance with the requirements of 49 CFR 1100.250.

Protests to the granting of the requested authority must be filed with the Commission on or before January 16, 1976 (unless otherwise specified). Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest should comply with section 247(d) or section 240(c) as appropriate of the Commission's general rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and a detailed description of the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest (except for petitions and Finance Dockets under Rule 40 requiring the original and six (6) copies of the protest) shall be filed with the Commission, and a copy shall be served

concurrently upon applicant's or petitioner's representative, or applicant or petitioner if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) or section 240(c)(4) of the special rules, and shall include the certification required therein.

No. MC 44370 (Sub-No. 2), (Notice of Filing of Petition to Modify Territorial Description) filed November 5, 1975. Petitioner: E. M. LERIT, INC., 418–13th Avenue, Newark, N.J. 07103. Petitioner's representative: Robert B. Pepper, 168 Woodbridge Ave., Highland Park, N.J. 08904. Petitioner holds a motor *common carrier* certificate in MC 44370 (Sub-No. 2), issued April 23, 1945, authorizing transportation, over irregular routes, of (1) *Scrap non-ferrous metals, including the coverings therefor or appurtenance thereto*, on skids or in containers, from East Orange, N.J., to points in Richmond County, New York, N.Y.; and (2) *empty containers and skids*, from points in Richmond County, New York, N.Y., to East Orange, N.J.

By the instant petition, petitioner seeks to add Piscataway, N.J., as an origin point in part (1) and as a destination point in part (2) of the above authority. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition on or before January 16, 1976.

No. MC 126305 (Sub-No. 68), (Notice of Filing of Petition for Clarification and Amendment of Certificate), filed November 4, 1975. Petitioner: BOYD BROTHERS TRANSPORTATION CO., INC., Route 1, Clayton, Ala. 36016. Petitioner's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. Petitioner holds a motor *common carrier* certificate in No. MC 126305 (Sub-No. 68), issued September 10, 1975, authorizing transportation, over irregular routes, of (1) *Textile products*, from Laurinburg, Rockingham, and Saint Pauls, N.C., to Philadelphia, Pa., and New York, N.Y.; (2) *general commodities* (except Classes A and B explosives household goods as defined by the Commission, and commodities requiring special equipment), from New York, N.Y., and York, Pa., to points within 50 miles of Hamlet, N.C., including Hamlet; (3) *fresh fruits and vegetables*, from points in North Carolina and South Carolina, to New York, N.Y., Newark and Elizabeth, N.J., and Philadelphia, Pa.

By the instant petition, petitioner seeks to amend part (2) in the above authority to read, *General commodities* (except Classes A and B explosives, household goods as defined by the Commission, and commodities requiring special equipment) from New York, N.Y., Commercial Zone, as defined in *Commercial Zones and Terminal Areas*, 53 M.C.C. 451, within which local operations may be conducted pursuant to the partial exemption of section 203(b)(8) of the Interstate Commerce Act, (the "exempt" zone), and those points in New Jersey any part of which is within 5 miles of New York, N.Y., and York, Pa., to points within 50 miles of Hamlet, N.C., including Hamlet; or that applicant be permitted to establish as its terminal area, all points within which local operations may now be conducted in the New York Commercial Zone as redefined. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition on or before January 16, 1976.

No. MC 128486 and (Sub-Nos. 1, 2, and 3), (Notice of Filing of Petition to Modify Permits), filed October 6, 1975. Petitioner: LILY TRANSPORT LINES, INC., 25 Denby Road, Boston (Allston), Mass. 02134. Petitioner's representative: Frank J. Weiner and Wesley S. Chused, 15 Court Square, Boston, Mass. 02108. Petitioner holds motor *contract carrier* permits in No. MC 128486 and (Sub-Nos. 1, 2, and 3), issued October 20, 1967, April 16, 1968, March 17, 1970, and August 7, 1972, respectively, authorizing transportation, over irregular routes, of MC 128486 (1) *Ice cream toppings, preserves, jellies, fruit juices, fruit drinks, flavoring syrups, and maple syrup* (except in bulk), from Lawrence, Mass., to points in Connecticut, Maine, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont; (2) *fruits and juices* (except in bulk), from Jersey City and Newark, N.J., Middleport and Westfield, N.Y., and North East, Pa., to Lawrence, Mass.; (3) *glass bottles*, from Danielson, Conn., Bridgeton, Freehold, Jersey City, and Salem, N.J., Elmira, N.Y., Knox and Marienville, Pa., and Coventry, R.I., to Lawrence, Mass.; (4) *tin cans*, from Baltimore, Md., and Fairport, N.Y., to Lawrence, Mass., under a continuing contract, or contracts, with Lincoln Foods, Inc., of Lawrence, Mass.; MC 128486 (Sub-No. 1), *apple juice and vinegar*, in bulk, in tank vehicles, from Highland, N.Y., and Buckfield, Maine, to Lawrence, Mass., under a continuing contract, or contracts, with Lincoln Foods, Inc., of Lawrence, Mass.; MC 128486 (Sub-No. 2) (1) *glass bottles*, (a) from Danielson, Conn., Bridgeton, Freehold, Jersey City, North Bergen, and Salem, N.J., Elmira, N.Y., Knox and Marienville, Pa., Coventry, R.I., and Lawrence, Mass., to Buckfield, Maine; and (b) from North Bergen, N.J., to Lawrence, Mass.; (2) *fruit juices and fruit drinks*, in containers, from Buckfield, Maine, to points in Connecticut, Massachusetts, New Hampshire, and Rhode Island, under a continuing contract, or contracts, with Lincoln Foods, Inc., of Lawrence, Mass.; MC 128486 (Sub-No. 3), (1) *ice cream toppings, preserves, jellies, fruit juices, fruit drinks, flavoring syrups, and maple syrup* (except in bulk), from Woburn, Mass., to points in Connecticut, Maine, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island and Vermont.

(2) *Fruit and juices* (except in bulk), from Jersey City and Newark, N.J., Middleport, and Westfield, N.Y., and North East Pa., to Woburn, Mass.; (3) *glass bottles*, (a) from Danielson, Conn., Bridgeton, Freehold, Jersey City, North Bergen and Salem, N.J., Elmira, N.Y., Knox and Marienville, Pa., and Coventry, R.I., to Woburn, Mass.; (b) from Woburn, Mass., to Buckfield, Maine; and (c) from Wharton, N.J., to Lawrence and Woburn, Mass., Backfield, Maine, and Highland, N.Y.; (4) *tin cans*, (a) from Baltimore, Md., and Fairport, N.Y., to Woburn, Mass.; and (b) from Edison Township, N.J., to Lawrence and Woburn, Mass., Buckfield, Maine, and Highland, N.Y.; (5) *apple juice and vinegar*, in bulk, in tank vehicles, from Highland, N.Y. and Buckfield, Maine, to Woburn, Mass., under a continuing contract, or contracts, with Lincoln Foods, Inc., of Lawrence, Mass.; (6) *canned and preserved foods*, from Lawrence, and Woburn, Mass., to points in Connecticut, Maine, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island and Vermont; and (7) *canned foods*, from Kennett Square, Pa., to points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont. Restriction: The operations authorized in the 2 commodity descriptions next above are limited to a transportation service to be performed, under a continuing contract, or contracts, with S. S. Pierce Company of Boston, Mass.

By the instant petition, petitioner seeks to delete Lincoln Foods, Inc., as a contract shipper wherever it appears in MC 128486, MC 128486 (Sub-No. 1), MC 128486 (Sub-No. 2), and MC 128486 (Sub-No. 3), and to substitute in lieu thereof, Seneca Foods Corporation of Dundee, N.Y., and S. S. Pierce Company of Boston, Mass. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition on or before January 16, 1976.

No. MC 139846, (Notice of Filing of Petition to Substitute Contracting Shipper), filed November 7, 1975. Petitioner: WADDICK TRANSPORT LIMITED, R.R. #6, Chatham, Ontario, Canada. Petitioner's representative: Robert D. Gunderman, Suite 710 Statler Hilton, Buffalo, N.Y. 14202. Petitioner holds a motor *contract carrier* permit in No. MC 139846, issued June 18, 1975, authorizing transportation, over irregular routes, of *Liquid protein supplements*, not intended for human consumption, in bulk, in tank vehicles, from Adrian, Mich., and Arcade, N.Y., to ports of entry on the International Boundary line between the United States and Canada located in Michigan and New York, under a continuing contract, or contracts with Brockville Chemical Industries Limited of Montreal, Quebec, Canada.

By the instant petition, petitioner seeks to delete Brockville Chemical Industries Limited of Montreal, Quebec, Canada as a contract shipper in the above authority, and to substitute in lieu thereof, Ruminant Nitrogen Products Company of Adrian, Mich. Any interested person or persons desiring to par-

V 40 243 DEC 17 75 XUM

ticipate may file an original and six copies of his written representations, views or arguments in support of or against the petition on or before January 16, 1976.

APPLICATIONS UNDER SECTIONS 5 AND 210a (b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATION UNDER SECTION 5 GOVERNED BY SPECIAL RULE 240 TO THE EXTENT APPLICABLE

No. MC 139809 (Sub-No. 9), filed November 25, 1975. Applicant: FORBES REFRIGERATED TRANSPORT, INC., 2001 Charleston Road, Wilson, N.C. 27893. Applicant's representative: David P. Permar, 327 Hillsborough Street, P.O. Box 527, Raleigh, N.C. 27602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Meats, meat products, and meat by-products, and articles*, distributed by meat-packinghouses, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, in vehicles equipped with mechanical refrigeration and meat rails, from points in North Carolina, to points in Maryland, Delaware, Pennsylvania, New Jersey, and New York, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Wilson, N.C.

(2) *Bananas*, from points in that part of the New York, N.Y. Commercial Zone as defined in the fifth supplemental report in *Commercial Zones and Terminal Areas*, 53 M.C.C. 451, within which local operations may be conducted under the exemption provided by section 203 (b) (8) of the Interstate Commerce Act (the exempt zone), to points in North Caroline with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateways of Raleigh, Fayetteville and Goldsboro, N.C.

(3) *Meats, meat products and meat by-products, and articles* distributed by meat packing houses as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, in vehicles equipped with mechanical refrigeration (except frozen foods), from points in North Carolina, to points in Connecticut, Maryland, New Jersey, New York and Pennsylvania and *returned shipments* of the above-described commodities, from points in Connecticut, Maryland, New Jersey, New York and Pennsylvania, to points in North Carolina. The purpose of this filing is to eliminate the gateway of Kingston, N.C.

(4) *Meats, meat products and meat by-products, and articles*, distributed by meat packing houses, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, in vehicles equipped with mechanical refrigeration, from points in North Carolina, to Washington, D.C., and points in West Virginia, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Wilson, N.C.

(5) *Bananas*, from points in that part of the New York, N.Y. Commercial Zone, as defined in New York, N.Y., Commercial Zone, 111 M.C.C. 123, within which local operations may be conducted pursuant to the partial exemption of section 203(b)(8) of the Interstate Commerce Act (the exempt zone), to points in North Carolina, with no transportation for compensation on return except as otherwise authorized.

(6) *Bananas and agricultural commodities* exempt from economic regulation under section 203(b)(8) of the Interstate Commerce Act, when transported in mixed shipments with bananas, from Baltimore, Md., to points in North Carolina, South Carolina, Tennessee, Virginia, and West Virginia, with no transportation for compensation on return except as otherwise authorized.

(7) *Meats, meat products, meat by-products, and articles*, distributed by meat packinghouses, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk, in tank vehicles), in vehicles equipped with mechanical refrigeration, from the plant site and storage facilities utilized by Swift Fresh Meats Company, a division of Swift and Company at Wilson, N.C., to points in South Carolina and Virginia, with no transportation for compensation on return except as otherwise authorized restricted to the transportation of traffic originating at the above-described plant site and storage facilities and destined to points in the above-specified destination states, from points in North Carolina, to points in Massachusetts and Virginia, with no transportation for compensation on return except as otherwise authorized.

(8) *Meats, meat products and meat by-products and articles* distributed by meat packing houses as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, in vehicles equipped with mechanical refrigeraton, from points in North Carolina, to points in Massachusetts, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Wilson, N.C.

NOTE.—This is a gateway elimination request and is a matter directly related to a section 5(2) proceeding in MC–F–12634 published in the FEDERAL REGISTER issue of September 24, 1975. If a hearing is deemed necessary, applicant requests it be held at Raleigh, N.C., Richmond, Va. or Washington, D.C.

No. MC 141525 filed November 7, 1975. Applicant: T. E. ANDRESEN, INC., 67 Stetson Avenue, Swampscott, Mass. 01907. Applicant's representative: Thomas E. Andresen, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, between points in Massachusetts, on the one hand, and, on the other, points in Massachusetts, New Hampshire, Maine, Vermont, Rhode Island, Connecticut, New York, New Jersey, and Pennsylvania. The purpose of this filing is to eliminate the gateways of Swampscott, Mass. and five miles thereof.

NOTE.—This is a gateway elimination request and is a matter directly related to a transfer application in MC–FC–76115. If a hearing is deemed necessary, applicant requests it be held at Boston, Mass.

No. MC–F–12263. Petition filed September 2, 1975, under Rule 102 of the Commission's general rules of practice for approval of an amendment to an agreement between common carriers for the pooling of traffic. Applicants: THE SANTA FE TRAIL TRANSPORTATION COMPANY, P.O. Box 56, Wichita, KS 67202 (MC 30605), with ILLINOIS CALIFORNIA EXPRESS, INC., P.O. Box 16404, Denver, CO 80216 (MC 48958), RED BALL MOTOR FREIGHT, INC., P.O. Box 47407, Dallas, TX 75207 (MC 2229), and NAVAJO FREIGHT LINES, INC., 1205 South Platte River, Denver, CA 80223 (MC 76032), seeks to modify an agreement for the pooling of traffic consisting of general commodities moving to and from points in Arriba, Bernal, Glorieta, Ilfeld, Las Vegas, Maxwell, Pecos, Raton, Romeroville, Towe, Sands, San Jose, Serafina, Springer, Tecolote, Wagon Mound, and Watrous, N. Mex., by changing the pool point for exchange of traffic between THE SANTA FE TRAIL TRANSPORTATION COMPANY AND RED BALL MOTOR FREIGHT INC., from Raton, N. Mex., to Amarillo, Tex. Attorney: William O. Turney, 20001 Massachusetts Ave. NW., Washington, DC 20036.

No. MC–F–12570. (Correction), (CHARTER EXPRESS, INC.—PURCHASE—SATURN EXPRESS, INC.), published in the July 2, 1975, issue of the FEDERAL REGISTER on page 27997. Prior notice should have included the following operating authority. Ceramic tile, as a contract carrier over irregular routes, from the facilities of the Marmon Group, Inc., at or near Jackson, Miss., to points in Louisiana, Arkansas, Kentucky, Tennessee and Alabama.

No. MC–F–12691. Authority sought for control and merger by COMMERCIAL MOTOR FREIGHT, INC., 3400 Refugee Rd., Columbus, OH 43227, of the operating rights and properties of LOVELACE TRUCK SERVICE, INC., P.O. Box 1019, Terre Haute, IN 47807, and for acquisition by BANNER INDUSTRIES, INC., 1605 Superior Bldg., Cleveland, OH 44114,

of control of such rights and properties through the transaction. Applicants' attorneys: David Axelrod, 39 S. LaSalle St., Chicago, IL 60603, R. L. Ratchford, 3400 Refugee Rd., Columbus, OH 43227, and Robert G. Wolfe, 410 Star Bldg., Terre Haute, IN 47807. Operating rights sought to be controlled and merged: General commodities, with certain specified exceptions, and numerous other specified commodities, as a common carrier, over regular and irregular routes, from, to, and between specified points in the States of Illinois, Indiana, Missouri, Iowa, Kentucky, Michigan, Wisconsin, Minnesota, Ohio and Kansas, with certain restrictions, serving various intermediate and off-route points, over numerous alternate routes for operating convenience only, as more specifically described in Docket No. MC 151 and Sub-numbers thereunder. This notice does not purport to be a complete description of all of the operating rights of the carrier involved. The foregoing summary is believed to be sufficient for purposes of public notice regarding the nature and extent of this carrier's operating rights, without stating, in full, the entirety, thereof. COMMERCIAL MOTOR FREIGHT, INC., is authorized to operate as a *common carrier* in Ohio, Pennsylvania, Indiana, and West Virginia. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–12692. Authority sought for purchase by MALLINGER TRUCK LINE, INC., RFD #4, Fort Dodge, IA 50501, of a portion of the operating rights of B. J. McADAMS, INC., Route 6, North Little Rock, AR 72118, and for acquisition by DENNIS MALLINGER, AND JUDY MALLINGER, also of Fort Dodge, IA 50501, of control of such rights through the purchase. Applicants' attorney: Thomas E. Leahy, Jr., 1980 Financial Center, Des Moines, IA 50309. Operating rights sought to be transferred: *Canned goods*, as a *common carrier* over irregular routes, from Hartford, Bailey and Grawn, Mich., to points in Arkansas, Louisiana, and Mississippi; *canned goods*, when moving in mixed loads with frozen foods, from Hartford, Bailey, and Grawn, Mich., to points in Texas and Oklahoma; *frozen foods*, when moving in mixed loads with canned goods, from Hartford, Bailey, and Grawn, Mich., to points in Arkansas, Louisiana, Mississippi, Oklahoma, and Texas, with restriction; *frozen bakery products* and *frozen milk and cream substitute*, from Appleton, Wis., to points in Oklahoma, Texas, and Arkansas, with restriction. Vendee is authorized to operate as a *common carrier* in Arkansas, Illinois, Indiana, Iowa, Kentucky, Louisiana, Mississippi, Missouri, Oklahoma, Texas, and Wisconsin. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–12697. Application under section 5(1) of the Interstate Commerce Act for approval of an agreement between common carriers for the pooling of traffic. Applicants: RED BALL MOTOR FREIGHT, INC., P.O. Box 47407, Dallas, TX 75247 (MC 2229), with THUNDERBIRD FREIGHT LINES, INC., 1515 South 22nd Ave., Phoenix, AZ 85009 (MC 69512), seeks to enter into an agreement for the pooling of traffic consisting of general commodities moving to and from points in Abbott, Agua Fria, Alcalde, Amistad, Broadview, Bueyeros, Capulin, Cimmaron, Clayton, Colfax, Colmor, Des Moines, De Taos (Ranches de Taos), Dixon, Eagle Nest, Embudo, Elizabethtown, El Prado, Espanola, Farley, Forrest, French, Gabaldon, Gallaher, Gladstone, Grady, Greenville, Hayden, Koehler, Levy, Logan, Mosquero, Mt. Dora, Mills, Molybdenum, Nara Visa, Passamonte, Penasco, Pilar, York Canyon, Pojoaque, Quay, Ragland, Red River, Rosebud, Roy, Rinconado, Santa Cruz, Santa Fe, Sedan, Shadybrook, Solano, Stead, Sugarite, Swastika, Talpa, Taos, Taos Peublo, Taylor Springs, Tesuque, Tesuque Pueblo, Texico, Tucumcari, Ute Park, Van Houten, and Velarde, New Mexico. Attorney: Russell R. Sage, Suite 400 Overlook Office Bldg., 6121 Lincolnia Rd., Alexandria, VA 22312. RED BALL MOTOR FREIGHT, INC., is authorized to operate as a common carrier in Texas, Louisiana, Arkansas, Oklahoma, New Mexico, Colorado, Alabama, Mississippi, Tennessee, Kansas, Missouri, and California.

No. MC–F–12699. Authority sought for purchase by ROADWAY EXPRESS, INC., P.O. Box 471, Akron, OH 44309 of a portion of the operating rights of OWENS TRANSFER CORPORATION, Box 330, Du Quoin, IL 62832, and for acquisition by GALEN J. ROUSH, also of Akron, OH 44309, of control of such rights through the purchase. Applicants' attorney and representative: William O. Turney, 2001 Massachusetts Ave., N.W., Washington, D.C. 20036, and Douglas W. Faris, P.O. Box 471, Akron, OH 44309. Operating rights sought to be transferred: *General commodities*, with the usual exceptions, as a *common carrier*, over regular routes, between St. Louis, Mo., and Cairo, Ill., between Centralia and Cairo, Ill., between Benton, and Harrisburg, Ill., serving intermediate and off-route points located generally in southwestern Illinois, between the plant site of the West Virginia Pulp and Paper Co., at or near Wickliffe, Ky., and Cairo, Ill., serving no intermediate points. Vendee is authorized to operate as a *common carrier* in Alabama Arkansas, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Virginia, West Virginia, Wisconsin and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

No. MC–F–12702. Authority sought for merger by GULF COAST MOTOR LINE, INC., 921 Third St., South, St. Petersburg, FL 33701, of the operating rights and property of SOUTHERN TOURS, INC., and for acquisition by VIOLA W. SHOUPPE, and VIOLA W. SHOUPPE, as Administratrix of the Estate of BYRON C. SHOUPPE, Deceased, all of the above-mentioned address, of control of such rights through the transaction. Applicants' attorneys: Ansley Watson, Jr., 512 Florida Ave., P.O. Box 1531, Tampa, FL 33601, and S. Harrison Kahn, 733 Investment Bldg., Washington, D.C. 20005. Operating rights sought to be merged: Passengers and their baggage, restricted to traffic originating at the point indicated, in charter operations, as a common carrier over irregular routes, from St. Petersburg, Fla., to points and places in Florida, and return: passengers and their baggage, restricted to traffic originating and terminating at the point indicated, in special operations of round-trip sightseeing or pleasure tours, from St. Petersburg, Fla., to points and places in Florida, and return. GULF COAST MOTOR LINE, INC., is authorized to operate as a common carrier in all of the States (except Hawaii). Application has not in the United States been filed for temporary authority under section 210a(b).

NOTE: Pursuant to Docket No. MC–F–9412, Byron C. Shouppe acquired control of Gulf Coast Motor Line, Inc., by order dated July 18, 1966, and served July 26, 1966.

No. MC–F–12703. Authority sought for purchase by CHARLES W. KARPER, INC., 144 S. Eight St., Chambersburg, PA 17201, of a portion of the operating rights and property of H. C. GABLER, INC., R.D. #3, Chambersburg, PA 17201, and for acquisition by CHARLES W. KARPER, 561 S. Seventh St., Chambersburg, PA 17201, of control of such rights and property through the purchase. Applicants' attorney: Christian V. Graf, 407 N Front St., Harrisburg, PA 17101. Dak., and St. Paul, Minn. serving no intermediate points, and serving the off-route points of Minneapolis, Minn.; *general commodities* with exceptions as a *common carrier* over irregular routes between Minneapolis and St. Paul, Minn., on the one hand, and, on the other, Hillsboro, Portland, Michigan, Whitman, Adams, Minto, Grafton, Park River, Dahlen, Lankin, Hoople, and Grand Forks, N. Dak., between Grand Forks, N. Dak., on the one hand, and, on the other, the site of the United States Air Force Base (located approximately 20 miles northwest of Grand Forks), and points within five miles of said air force base; livestock, between points in that part of North Dakota north of North Dakota Highway 15 and east of North Dakota Highway 1, including points on the indicated portions of the highways specified, on the one hand, and, on the other, South St. Paul, Minn.; between Stephen, Minn., and points in Minnesota within 20 miles of Stephen, Minn., on the one hand, and, on the other, West Fargo and Union Stockyards, Cass County, N. Dak., from Drayton, N. Dak., and points within five miles of Drayton, N. Dak., to South St. Paul, Minn.; *fertilizer, fence and fence materials* and *culverts*, from Fargo, West Fargo, and Union Stockyards, N. Dak., to points, except municipalities, in Minnesota within 20 miles of Stephen, Minn. Vendee is authorized to operate as a *common carrier* in Minnesota, North Dakota, South Dakota and Wisconsin. Application has been filed for temporary authority under section 210a(b).

ILLINOIS CENTRAL GULF RAILROAD COMPANY, 233 North Michigan Avenue, Chicago, Illinois, 60601, represented by Mr. Howard D. Koontz, Senior General Solicitor, Illinois Central Gulf Railroad Company, 233 North Michigan Avenue, Chicago, Illinois, 60601, hereby gives notice that, on the 17th day of November 1975, it filed with the Interstate Commerce Commission at Washington, D.C., an application under section 5(2) of the Interstate Commerce Act for an order approving and authorizing the acquisition and operation of trackage rights over 7.79 miles of track of the Chicago & Illinois Midland Railway Company located in Sangamon County, Illinois, between Springfield, Illinois, and Andrew, Illinois, in order to interchange unit coal trains with Chicago & Illinois Midland Railroad at Andrew, Illinois, in lieu of at Springfield, Illinois, where Chicago & Illinois Midland Railway Company lacks adequate track space for interchanging long coal trains without blocking crossings. The application has been asigned Finance Docket No. 28046.

In the opinion of the applicant, the granting of the authority sought will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. In accordance with the Commission's regulations (49 CFR 1100.250) in Ex Parte No. 55 (Sub-No. 4), *Implementation—Natl. Environmental Policy Act, 1969*, 340 I.C.C. 431 (1972), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall include information relating to the relevant factors set forth in Ex Parte No. 55 (Sub-No. 4), supra, Part (b)(1)–(5), 340 ICC 431, 461.

The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission no later than January 16, 1976.

By the Commission.

PART II:

ENVIRONMENTAL PROTECTION AGENCY

■

GRANTS FOR CONSTRUCTION OF TREATMENT WORKS

State and Local Assistance

V40243 DEC 17 75 XUM

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

[FRL 457-3]

PART 35—STATE AND LOCAL ASSISTANCE

Procurement Under Grants for Construction of Treatment Works

On May 9, 1975, the Environmental Protection Agency published in the FEDERAL REGISTER a proposal to amend its general grant regulations to incorporate minimum standards for procurement under grants (Part 33) and to amend its State and local assistance grant regulations (Part 35) to incorporate, among other things, policies and procedures governing procurement of professional services under grants for construction of treatment works (40 FR 20296). The regulation published here finalizes the amendments to Part 35 only. Part 33 will be published separately within the next several months.

The May 9 proposed regulation requested the submission of comments from interested parties until June 9, 1975. The comment period was later extended through July 15, 1975, (40 FR 24534). Approximately 1650 comments were received. Of these, approximately 1290 were letters from equipment manufacturers and others supporting adoption of § 35.938–6. About half of the remaining comments were from the engineering profession. Many comments were received from local governments and sewerage authorities. Comments were also received from States, professional associations, attorneys, construction contractors, academicians and others. In addition, members of Congress forwarded about 400 inquiries. All comments received were carefully considered by program, legal, audit and grants administration personnel in developing the final regulation. Following the public comment period, EPA held a series of meetings with representatives of professional and business groups and State and local governments who had commented on the proposal in an effort to maximize public participation of all parties principally affected by the regulations. In conjunction with these groups, EPA is participating in workshops to discuss how the regulations will be implemented and to insure that this promulgation will not disrupt the construction grants program.

The procurement provisions in these amendments to Part 35 apply only to grants for construction of treatment works. These provisions are requirements for procurement of architectural or engineering services and construction contracts. Part 33, when promulgated, will include similar provisions applicable to all other grant programs of the Agency. In addition, Part 33 will include other procurement provisions for all other grant programs which will be applicable to the construction grants program only for ancillary procurements such as legal or accounting services.

Many commenters questioned the need for these regulations, asserting either that Federal Management Circular 74–7 provides sufficient guidance for grantees, or that procurement requirements were more appropriate for an advisory handbook than regulations. While many agencies have guidelines or other directives which they have developed to govern procurement practices under their grants, it is EPA policy to use the FEDERAL REGISTER process to advise all interested parties of grant requirements. Our experience indicates that we need regulatory requirements to assure the prudent administration of Federal funds. Eighteen billion dollars are currently authorized for the construction grants program, almost all of which is expended by contract. EPA is expected to adopt reasonable measures to minimize the potential for misuse of any part of these funds or any other funds we manage. Accordingly, these amendments to Part 35 accomplish the implementation of the standards of Attachment "O" to FMC 74–7 for the EPA construction grants program.

SECTION 35.936 SERIES

Sections 35.936 through 35.936–21 were not included in the May 9 proposal. Many of these provisions were scattered throughout the document. Others have been added as a result of comments requesting clarification. These sections include general procurement policies and definitions which are applicable to all procurements, whether for architectural/engineering services or construction.

The small purchase provisions have been included in the interest of minimizing paperwork and are consistent with Federal procurement practice and Attachment "O" to FMC 74–7. Procurements of $10,000 or less are considered small purchases and are not subject to any of the provisions of the regulations other than the very minimal requirements stated in § 35.936–19.

The provisions pertaining to the delegation to States and certification of State and local procurement systems (§ 35.936–21) were developed in response to comments regarding the administration of State and local procurement systems and responsibilities. This section carries out the objective of FMC 74–7 to place greater reliance on State and local governments. These provisions permit State and local governments to follow their own systems where those systems offer the same protections as do these regulations.

SECTION 35.937 SERIES

In response to many comments which questioned EPA's intent in this regard, the regulation has been worded to clearly express that it is not the intent of the Agency or of the regulations to require grantees to solicit "bids" for engineering services, nor to require grantees to compare the cost proposals of competing firms with which it is negotiating. The basis of final selection would remain the grantee's choice. The regulations emphasize the negotiation process necessary to ensure the best technical product at a fair and reasonable price. The Agency will neither prohibit nor encourage price competition as States and localities have varying practices in this regard.

Many commenters questioned the need, as well as the ability, of small communities to follow the procurement procedures set forth by the regulation. While we believe that it would be desirable for small communities to incorporate the procurement process of the regulations in their local practices, we have exempted small communities (populations of 25,000 or less) from the announcement and selection provisions (§§ 35.937–2, 35.937–3, 35.937–4). Other revisions in the final regulation which would be of assistance to such communities include the requirement for a standard cost review format (rather than the cost analysis required by the proposed regulation for contracts in excess of $100,000) and the provision of standard contract clauses in Appendixes C–1 and C–2. Several commenters were of the view that the regulations would work a hardship on smaller consulting firms, many of which worked primarily for small communities. These changes should also be of assistance to small firms.

Section 35.937–1 sets forth the types of contracts which are permissible for use for architectural or engineering services under a grant, the circumstances where each type is most appropriate, and identifies two types of contracts, cost-plus-percentage-of-cost (CPPC) and percentage-of-construction-cost (PCC), which may not be used. Both FMC 74–7 and these regulations prohibit these types, as in both these types of contract, profit escalates as cost escalates, and, therefore, there is no incentive to reduce costs. As there are a number of contract forms or types which are allowable, the regulations attempt only to set the broad outlines.

Inasmuch as architect-engineers are commonly selected based on technical qualifications, the regulations establish a process to provide the maximum feasible opportunity for technically qualified firms to be considered while assisting the grantee in selecting the appropriate firm. These provisions have been revised from the proposed regulation to eliminate what many commenters thought were burdensome provisions. While we considered the many requests that "Brooks Bill" procedures be made mandatory, the Agency has elected to remain neutral regarding the question of price competition and the regulation, therefore, permits the use of Brooks Bill or other State and local procedures.

As an aid to the grantee in negotiation, the Agency believes it necessary to require that the selected engineer submit cost and profit data to the grantee for his consideration. On a selected basis, that is, contracts over $100,000 in communities whose procurement systems have not been certified, EPA will review for procedural conformity. We did not consider it appropriate to establish ranges or ceilings on profit in these sub-

agreements since there are many variables which would enter into the determination.

SECTION 35.938 SERIES

This series of sections, relating to construction contracts of grantees, was established in the final regulations promulgated on February 11, 1974. In these new final regulations, §§ 35.938–1 through 35.938–4 remain substantially the same as in the previous final regulation and several new sections are added.

Section 35.938–5 establishes negotiation procedures for change orders under fixed price construction contracts. Change orders, in most cases, are negotiated procurement and the same basic procedures should be used to ensure the best and most economical results. The final regulation sets forth the complete negotiation process, including cost review.

Sections 35.938–6 and 35.938–7 implement the Agency's policy of encouraging prompt progress payments as work progresses so as to eliminate unnecessary interest costs. Section 35.938–6 establishes in the regulations the retainage policy issued in Program Guidance Memorandum 43 on November 18, 1974. Section 35.938–7 establishes provisions relating to progress payments for specifically manufactured equipment in conformity with this overall EPA policy.

SECTION 35.939

Based on our experience with the current § 35.939, the new regulations delineate the protest process in a more precise fashion. These improved procedures should be an advantage to all affected parties.

SECTION 35.965

This section repeats in the construction grant regulations those sanctions against noncompliance which are included in the general grant regulations at 40 CFR 30.430.

APPENDIXES C–1 AND C–2

In these Appendixes, EPA will provide standard provisions for use in consulting engineering agreements and construction contracts. Such simplification and standardization of procedures should be of assistance to both contractors and grantees. EPA endorses the "Contract Documents for Construction of Federally Assisted Water and Sewer Projects," for use in conjunction with the provisions of Appendix C–2.

Readers will note that Appendixes C–1 and C–2 are, as of this publication, "reserved." The clauses are currently being put in final form and will be published in the FEDERAL REGISTER shortly, so that they will be available for use by the effective date.

APPENDIX D

This Appendix is a continuation of the policies of Program Guidance Memorandum 53 issued by EPA on July 8, 1975, which established interim policy with regard to consulting engineering agreements already in effect on the date of award of new grant assistance for any step of a construction grant. It is obvious that necessary renegotiations need not wait until grant award is imminent and that projects can proceed to the next step without delay occasioned by such renegotiation.

Many commenters raised the issue of delays occasioned by EPA review required by this regulation. EPA already receives consulting engineering agreements as part of the grant application pursuant to existing regulations. We believe that these regulations provide EPA staff with better guidance for such review and should not necessitate additional time.

We recognize that any change in regulations could cause some delay while all affected parties become accustomed to the changes. We are making every effort to minimize any delay, particularly through the workshops mentioned above.

Based on EPA experience in administering Program Guidance Memorandum 53, several organizational and administrative changes were made in the text as Appendix D appears. Accordingly, Appendix D will become effective on the date of publication and will supersede Program Guidance Memorandum 53 and all other prior letters, memoranda and guidance on this subject.

This Appendix D is applicable only to engineering agreements funded under construction grants awarded pursuant to Subpart E of Part 35. Generally, the same policies and procedures will be applicable to the audit and administration of other construction grant projects, such as reimbursement grants awarded pursuant to section 206 of Pub. L. 92–500 (40 CFR Part 35 Subpart D) and section 8 of the prior Federal Water Pollution Control Act (40 CFR Part 35 Subpart C).

It is important to note that the object of these regulations is to ensure the best possible engineering design at a reasonable cost to the taxpayer. Essential to the accomplishment of this goal are sound grantee procurement systems and practices. It is to assist grantees in the procurement process that these regulations have been developed.

A more comprehensive summary of these regulations and a more detailed discussion of comments received is available and will be sent to all parties who commented on the proposed regulation. Other interested parties desiring to receive a copy of this document are advised to write to the Director, Grants Administration Division (PM–216), Environmental Protection Agency, Washington, D.C. 20460, to request a copy of "Supplementary Discussion of Regulations Governing Procurement Under Grants for Construction of Treatment Works."

Technical amendments to Parts 30 and 35 necessitated by the promulgation of these regulations will be issued shortly.

Effective date. Appendix D shall become effective on December 17, 1975, and § 35.939 shall become effective on January 1, 1976, since they do not substantially change current Agency policies and requirements and prompt implementation will benefit Agency programs. All other sections and Appendixes of these regulations shall become effective on March 1, 1976, and shall govern all grants for construction of treatment works (including subsequent related projects) awarded on or after that date.

Dated: December 1, 1975.

RUSSELL E. TRAIN,
Administrator.

Part 35 of Title 40 of the Code of Federal Regulations is amended by deleting existing §§ 35.938 through 35.939 and adding new §§ 35.936 through 35.939 and § 35.965, which sections shall read as follows:

Sec.

35.936	Procurement.
35.936–1	Definitions.
35.936–2	Grantee procurement systems; State or local law.
35.936–3	Competition.
35.936–4	Profits.
35.936–5	Grantee responsibility.
35.936–6	EPA responsibility.
35.936–7	Small and minority business.
35.936–8	Privity of contract.
35.936–9	Disputes.
35.936–10	Federal procurement regulations.
35.936–11	General requirements for subagreements.
35.936–12	Documentation.
35.936–13	Specifications.
35.936–14	Force account work.
35.936–15	Limitations on subagreement award.
35.936–16	Code or standards of conduct.
35.936–17	Fraud and other unlawful or corrupt practices.
35.936–18	Negotiation of subagreements.
35.936–19	Small purchases.
35.936–20	Allowable costs.
35.936–21	Delegation to State agencies; certification of procurement systems.
35.937	Subagreements for architectural or engineering services.
35.937–1	Type of contract (subagreement).
35.937–2	Public notice.
35.937–3	Evaluation of qualifications.
35.937–4	Solicitation and evaluation of proposals.
35.937–5	Negotiation.
35.937–6	Cost and price considerations.
35.937–7	Profit.
35.937–8	Award of subagreement.
35.937–9	Required solicitation and subagreement provisions.
35.937–10	Subagreement payments—architectural or engineering services.
35.937–11	Applicability to existing contracts.
35.937–12	Subcontracts under subagreements for architectural or engineering services.
35.938	Construction contracts (subagreements) of grantees.
35.938–1	Applicability.
35.938–2	Performance by contract.
35.938–3	Type of contract.
35.938–4	Formal advertising.
35.938–5	Negotiation of contract amendments (change orders).
35.938–6	Progress payments to contractors.
35.938–7	Retention from progress payments.
35.938–8	Required construction contract provisions.
35.938–9	Subcontracts under construction contracts.

Sec.

Appendix C-1—Required Provisions—Consulting Engineering Agreements [Reserved].
Appendix C-2—Required Provisions—Construction Contracts [Reserved].
Appendix D—EPA Transition Policy—Consulting Engineering Agreements.

AUTHORITY: Secs. 109(b), 201 through 205, 207, 210 through 212, and 501(a), 502, and 511 of Pub. L. 92-500 (86 Stat. 816; 33 U.S.C. 1251) as amended by Pub. L. 93-243.

§ 35.936 Procurement.

(a) Sections 35.936 through 35.939 set forth policies and minimum standards for procurement of architectural or engineering services as defined in § 35.937 and construction contracts as described in § 35.938 by grantees under all steps of grants for construction of treatment works. Acquisition of real property shall be conducted in accordance with Part 4, Subpart F of this chapter. Other procurements of goods and services shall be conducted in accordance with the provisions of Part 33 of this subchapter.

(b) This subpart does not apply to work beyond the scope of the project for which grant assistance is awarded (i.e., ineligible work).

§ 35.936-1 Definitions.

As used in §§ 35.936 through 35.939, the following words and terms shall have the meaning set forth below. All terms not defined herein shall have the meaning given to them in § 30.135 of this subchapter, and in § 35.905.

(a) *Grant agreement.* The written agreement and amendments thereto between EPA and a grantee in which the terms and conditions governing the grant are stated and agreed to by both parties pursuant to § 30.345 (Award of grant) of this subchapter.

(b) *Subagreement.* A written agreement between an EPA grantee and another party (other than another public agency) and any tier of agreement thereunder for the furnishing of services, supplies, or equipment necessary to complete the project for which a grant was awarded, including contracts and subcontracts for personal and professional services and purchase orders. (See §§ 35.937-12 and 35.938-9 regarding subcontracts of any tier under prime contracts for architectural or engineering services or construction awarded by the grantee—generally applicable only to subcontracts in excess of $10,000.)

(c) *Contractor.* The party to whom a subagreement is awarded.

(d) *Grantee.* Any municipality which has been awarded a grant for construction of a treatment works pursuant to this subpart. In addition, where appropriate in §§ 35.936 through 35.939, the designation grantee may also refer to an applicant for such a grant.

§ 35.936-2 Grantee procurement systems; State or local law.

(a) Grantees may use their own procurement systems and procedures which meet applicable requirements of State, territorial or local laws and ordinances to the extent that such systems and procedures do not conflict with minimum requirements set forth in this subchapter.

(b) State or local laws, ordinances, regulations or procedures which are designed to or operate to give local or in-State bidders or proposers preference over other bidders or proposers shall not be employed in evaluating bids or proposals for subagreements under a grant.

§ 35.936-3 Competition.

It is the policy of the Environmental Protection Agency to encourage free and open competition appropriate to the type of project work to be performed.

§ 35.936-4 Profits.

Only fair and reasonable profits may be earned by contractors in subagreements under EPA grants. See § 35.937-7 (Profit) for discussion of profits under negotiated subagreements for architectural or engineering services, and § 35.938-5(f) for discussion of profits under negotiated change orders to construction contracts. Profit included in a formally advertised, competitively bid, fixed price construction contract awarded pursuant to § 35.938 is presumed to be reasonable.

§ 35.936-5 Grantee responsibility.

(a) The grantee is responsible for the administration and successful accomplishment of the project for which EPA grant assistance is awarded. The grantee is responsible for the settlement and satisfaction of all contractual and administrative issues arising out of subagreements entered into under the grant (except as provided in § 35.936-6 (EPA responsibility) below) in accordance with sound business judgment and good administrative practice. This includes (but is not limited to) issuance of invitations for bids or requests for proposals, selection of contractors, award of contracts, protests of award, claims, disputes, and other related procurement matters.

(b) With the prior written approval of the Regional Administrator, these functions may be performed for the grantee by an individual or firm retained for the purpose. Such an agent acts for the grantee and is subject to the provisions of this subpart applicable to the grantee.

§ 35.936-6 EPA responsibility.

Generally, EPA is responsible only for reviewing grantee compliance with Federal requirements applicable to a grantee's procurement. However, where specifically provided in this chapter, EPA is responsible for making the determination concerning compliance with Federal requirements.

§ 35.936-7 Small and minority business.

Positive efforts shall be made by grantees to utilize small business and minority-owned business sources of supplies and services. Such efforts should allow these sources the maximum feasible opportunity to compete for subagreements and contracts to be performed utilizing Federal grant funds.

§ 35.936-8 Privity of contract.

Neither the Environmental Protection Agency nor the United States shall be a party to any subagreement (including contracts or subcontracts), nor to any solicitation or request for proposals therefor. (See §§ 35.937-9(a), 35.938-4(c)(5) and Appendixes C-1 and C-2 to this subpart for the required solicitation statement and contract provisions.)

§ 35.936-9 Disputes.

Only an EPA grantee may initiate and prosecute an appeal to the Administrator under the disputes provision of a grant with respect to its subagreements thereunder for its own name and benefit (see Subpart J of Part 30 of this subchapter). Neither a contractor nor a subcontractor of a grantee may prosecute an appeal under the disputes provisions of a grant in its own name or interest.

§ 35.936-10 Federal procurement regulations.

Regulations applicable to direct Federal procurement shall not be applicable to subagreements under grants except as stated in this subchapter.

§ 35.936-11 General requirements for subagreements.

Subagreements must:

(a) Be necessary for and directly related to the accomplishment of the project work;

(b) Be in the form of a bilaterally executed written agreement (except for small purchases of $10,000 or less);

(c) Be for monetary or in-kind consideration; and

(d) Not be in the nature of a grant or gift.

§ 35.936-12 Documentation.

(a) Procurement records and files for purchases in excess of $10,000 shall include the following:

(1) Basis for contractor selection;

(2) Justification for lack of competition if competition appropriate to the type of project work to be performed is required but not obtained; and

(3) Basis for award cost or price.

(b) Procurement documentation required by § 30.805 (Records) of this subchapter and by this subpart, including a copy of each subagreement, must be retained by the grantee or contractors of the grantee for the period of time specified in § 30.805 (Records) of this subchapter and is subject to all the requirements of § 30.805 of this subchapter. A copy of each subagreement must be furnished to the Project Officer upon request.

§ 35.936-13 Specifications.

(a) *Nonrestrictive specifications.* (1) No specification for bids or statement of work in connection with such works shall be written in such a manner as to contain proprietary, exclusionary, or discriminatory requirements other than those based upon performance, unless such requirements are necessary to test or demonstrate a specific thing or to provide for necessary interchangeability of

parts and equipment, or at least two brand names or trade names of comparable quality or utility are listed and are followed by the words "or equal." The single base bid method of solicitation for equipment and parts for determination of a low responsive bidder may not be utilized. With regard to materials, if a single material is specified, the grantee must be prepared to substantiate the basis for the selection of the material.

(2) Project specifications shall, to the extent practicable, provide for maximum use of structures, machines, products, materials, construction methods, and equipment which are readily available through competitive procurement, or through standard or proven production techniques, methods, and processes, except to the extent that advanced technology may be utilized pursuant to § 35.908.

(b) *Sole source restriction.* A specification shall not require the use of structures, materials, equipment, or processes which are known to be available only from a sole source, unless such use has been adequately justified in writing by the grantee's engineer as meeting the minimum needs of the particular project.

(c) *Experience clause restriction.* The general use of experience clauses requiring equipment manufacturers to have a record of satisfactory operation for a specified period of time or of bonds or deposits to guarantee replacement in the event of failure is restricted to special cases where the grantee's engineer adequately justifies any such requirement in writing. Where such justification has been made, submission of a bond or deposit shall be permitted in lieu of a specified experience period, and the period of time for which such bond or deposit is required should not exceed the experience period specified.

§ 35.936-14 Force account work.

(a) A grantee must secure prior written approval of the Project Officer for utilization of the force account method in lieu of subagreement for any step 1 or step 2 work in excess of $10,000 or any step 3 work in excess of $25,000 unless the force account method is stipulated in the grant agreement.

(b) The Project Officer's approval shall be based on the grantee's certification that he possesses the necessary competence required to accomplish such work and (1) the work can be accomplished more economically by the use of the force account method, or (2) emergency circumstances so dictate.

§ 35.936-15 Limitations on subagreement award.

No subagreement shall be awarded:

(a) To any person or organization which does not meet the responsibility standards set forth in § 30.340-2(a) through (d) and (g) (Standards) of this subchapter;

(b) If any portion of the contract work not exempted by § 30.420-3(b) of this subchapter will be performed at a facility listed by the Director, EPA Office of Federal Activities, in violation of the anti-pollution requirements of the Clean Air Act and the Federal Water Pollution Control Act, as set forth in § 30.420-3 (Prohibition against violating facilities) of this subchapter and Part 15 of this chapter (Administration of the Clean Air Act and the Federal Water Pollution Control Act With Respect to Federal Contracts, Grants or Loans); or

(c) To any person or organization which is ineligible pursuant to the conflict of interest requirements of § 30.420-4 (Conflict of interest) of this subchapter.

§ 35.936-16 Code or standards of conduct.

(a) The grantee must maintain a code or standards of conduct which shall govern the performance of its officers, employees, or agents in the conduct of project work, including procurement and the expending of project funds. The grantee's officers, employees or agents shall neither solicit nor accept gratuities, favors or anything of monetary value from contractors or potential contractors. The grantee must avoid personal or organizational conflicts of interest or noncompetitive procurement practices which restrict or eliminate competition or otherwise restrain trade.

(b) To the extent permissible by State or local law or formal institutional requirements and procedures, such standards shall provide for penalties, sanctions, or other adequate disciplinary actions to be instituted for project-related violations of law or of such code or standards of conduct by either the grantee officers, employees, or agents, or by contractors or their agents.

(c) The grantee must inform the Project Officer in writing of each serious allegation of a project-related violation or known or proven project-related violation of law or code or standards of conduct, by its officers, employees, contractors, or by their agents, and of the prosecutive or disciplinary action taken by the grantee with respect to such infractions, and must cooperate with Federal officials with respect to any Federal prosecutive or disciplinary actions instituted with respect to such infractions. Pursuant to § 30.245 (Fraud and other unlawful or corrupt practices) of this subchapter, the Project Officer must notify the Director, EPA Security and Inspection Division, of all such notifications from the grantee.

(d) EPA shall cooperate with the grantee with respect to its disciplinary or prosecutive actions taken with respect to any apparent project-related violations of law or of the grantee's code or standards of conduct.

§ 35.936-17 Fraud and other unlawful or corrupt practices.

All procurements under grants are covered by the provisions of § 30.245 of this subchapter relating to fraud and other unlawful or corrupt practices.

§ 35.936-18 Negotiation of subagreements.

(a) Formal advertising, with adequate purchase description, sealed bids and public openings shall be the required method of procurement unless negotiation pursuant to paragraph (b) of this section is necessary to accomplish sound procurement.

(b) All negotiated procurement shall be conducted in a manner to provide to the maximum practicable extent open and free competition appropriate to the type of project work to be performed. Negotiation of subagreements by the grantee is authorized in accordance with the applicable procedures of this subchapter if any of the following conditions are applicable:

(1) Public exigency will not permit the delay incident to formally advertised procurement (e.g., an emergency procurement).

(2) The aggregate amount involved does not exceed $10,000 (see § 35.936-19 for small purchases).

(3) The material or service to be procured is available from only one person or entity. If the procurement is expected to aggregate more than $10,000, the grantee must document its file with a justification of the need for noncompetitive procurement, and provide such documentation to the Project Officer on request.

(4) The procurement is for personal or professional services (including architectural or engineering services) or for any service to be rendered by a university or other educational institution.

(5) No responsive, responsible bids at acceptable price levels have been received after formal advertising, and, with respect to procurement under § 35.938-4 (Formal advertising), prior written approval of the Regional Administrator has been obtained.

(6) The procurement is for materials or services where the prices are established by law.

(7) The procurement is for technical items or equipment requiring standardization and interchangeability of parts with existing equipment.

(8) The procurement is for experimental, developmental or research services.

§ 35.936-19 Small purchases.

(a) A small purchase is the procurement of materials, supplies, and services when the aggregate amount involved in any one transaction does not exceed $10,000. The small purchase limitation of $10,000 applies to the aggregate total of an order, including all estimated handling and freight charges, overhead, and profit to be paid under the order. In arriving at the aggregate amount involved in any one transaction, there must be included all items which should properly be grouped together. Reasonable competition shall be obtained.

(b) Subagreements for small purchases need not be in the form of a bilaterally executed written agreement. Where appropriate, unilateral purchase orders, sales slips, memoranda of oral price quotations, and the like may be utilized in the interest of minimizing paperwork. Retention in the purchase files of these documents and of written quotations received, or references to catalogs or printed price lists used, will suffice as the record supporting the price paid.

V40243 DEC 17 75 XUM

§ 35.936–20 Allowable costs.

(a) Incurring costs under subagreements which are not awarded or administered in compliance with this part or Part 33 of this subchapter, as appropriate, shall be cause for disallowance of those costs under the grant.

(b) Appropriate cost principles applicable to subagreements under EPA grants are identified in § 30.710 (Federal cost principles) of this subchapter. Pursuant to that section, the contractor's actual costs, direct and indirect, eligible for Federal participation in a cost reimbursement contract shall be those allowable under the applicable provisions of 41 CFR 1–15.2 (Principles and Procedures for Use in Cost-Reimbursement Type Supply and Research Contracts With Commercial Organizations) and 1–15.4 (Construction and Architect-Engineer Contracts).

(c) Reasonable costs of compliance with the procurement requirements of these regulations are allowable costs of administration under the grant. Costs of announcement and selection of a consulting engineer are allowable, even when the announcement is conducted prior to award of the grant.

§ 35.936–21 Delegation to State agencies; certification of procurement systems.

(a) In accordance with § 35.912 (Delegation to State agencies), EPA may include in a written agreement with a State agency certification of the technical and administrative adequacy of procurement documentation required to be submitted to EPA pursuant to these sections.

(b) In those cases where a State agency believes that State laws which govern municipal procurement include the same requirements or operate to provide the same protections as do §§ 35.936, 35.937 and 35.938, the State may request the Administrator to approve the State system as used by municipalities in lieu of the procedures of these sections. EPA shall review the State system to determine its adequacy.

(c) In those cases where a State agency determines that an applicant's procurement ordinances or applicable statutes include the same requirements or operate to provide the same protections as do §§ 35.936, 35.937 and 35.938, the State may certify (accompanied by appropriate documentation) the adequacy of the municipality's ordinances and statutes and request the Administrator to approve the municipality's system in lieu of the procedures of these sections. EPA shall conduct or may request the State to conduct a review of the municipality's system to determine its adequacy.

§ 35.937 Subagreements for architectural or engineering services.

(a) *Applicability.* Except as is otherwise provided in § 35.937–2, the provisions of §§ 35.937 through 35.937–11 apply to all subagreements of grantees for architectural or engineering services where the aggregate amount of services involved is expected to exceed $10,000. The provisions of §§ 35.937–2 (Public notice), 35.937–3 (Evaluation of qualifications) and 35.937–4 (Solicitation and evaluation of proposals) are not required, but may be followed, where the population of the grantee municipality is 25,000 or less according to the most recent U.S. census. When $10,000 or less of services (e.g., for consultant or consultant subcontract services) is required, the provisions of § 35.936–19 (Small purchases) shall apply.

(b) *Policy.* Step 1, Step 2, or administration or management of Step 3 project work may be performed by negotiated procurement of architectural or engineering services. It is the policy of the Federal Government to encourage public announcement of the requirements for personal and professional services, including engineering services. Subagreements for such services shall be negotiated with candidates selected on the basis of demonstrated competence and qualifications for the type of professional services required and at fair and reasonable prices. All negotiated procurement shall be conducted in a manner to provide to the maximum practicable extent open and free competition. Nothing in this subpart shall be construed as requiring competitive bids or price competition in the procurement of architectural or engineering services.

(c) *Definitions.* As used in §§ 35.937 through 35.937–11 the following words and terms shall have the meaning set forth below:

(1) *Architectural or engineering services.* Those professional services associated with research, development, design and construction, alteration, or repair of real property, as well as incidental services that members of these professions and those in their employ may logically or justifiably perform, including studies, investigations, surveys, evaluations, consultations, planning, programming, conceptual designs, plans and specifications, cost estimates, inspections, shop drawing reviews, sample recommendations, preparation of operation and maintenance manuals, and other related services.

(2) *Engineer.* A professional firm or individual engaged to provide services as defined in paragraph (c)(1) of this section by subagreement under a grant.

§ 35.937–1 Type of contract (subagreement).

(a) *General.* The cost-plus-percentage-of-cost and the percentage-of-construction-cost types of contract are prohibited. Cost reimbursement, fixed price, or per diem types of contracts or combinations thereof may be negotiated for architectural or engineering services. A fixed price contract is generally used only when the scope and extent of work to be performed is clearly defined. In most other cases, a cost reimbursement type of contract is more appropriate. A per diem contract may be used if no other type of contract is appropriate. An incentive fee may be utilized if the grantee submits an adequate independent cost estimate and price comparison pursuant to § 35.937–6.

(b) *Cost reimbursement contracts.* Each cost reimbursement contract must clearly establish a cost ceiling which the engineer may not exceed without formally amending the contract and a fixed dollar profit which may not be increased except in case of a contract amendment which increases the scope of work.

(c) *Fixed price contracts.* An acceptable fixed price contract is one which establishes a guaranteed maximum price which may not be increased except to the extent that a contract amendment increases the scope of work.

(d) *Compensation procedures.* If, under either a cost reimbursement or fixed price contract, the grantee desires to utilize a multiplier type of compensation, all of the following must apply:

(1) The multiplier and the portions of the multiplier allocable to overhead and allocable to profit have been specifically negotiated;

(2) The portion of the multiplier allocable to overhead includes only allowable items of cost under the cost principles of 41 CFR 1–15.2 and 1–15.4;

(3) The portions of the multiplier allocable to profit and allocable to overhead have been separately identified in the contract; and

(4) The fixed price contract includes a guaranteed maximum price for completion of the specifically defined scope of work; the cost reimbursement contract includes a fixed dollar profit which may not be increased except in case of a contract amendment which increases the scope of work.

(e) *Per diem contracts.* A per diem agreement expected to exceed $10,000 may be utilized only after a determination that a fixed price or cost reimbursement type contract is not appropriate. Per diem agreements should be used only to a limited extent such as where the first task under a Step 1 grant involves establishing the scope and cost of succeeding Step 1 tasks, or for incidental services such as expert testimony or intermittent or professional testing services. (Resident engineer and resident inspection services should generally be compensated under paragraph (b) or (c) of this section.) Cost and profit included in the per diem rate must be specifically negotiated and displayed separately in the engineer's proposal. The contract must clearly establish a price ceiling which may not be exceeded without formally amending the contract.

§ 35.937–2 Public notice.

(a) Adequate public notice as provided in paragraphs (b) or (c) of this section must be given of the requirement for architectural or engineering services for all subagreements with an anticipated price in excess of $25,000, except as provided in paragraphs (d), (e) and (f) of this section. In providing public notice pursuant to paragraphs (b) and (c) of this section, grantees must comply with the policies enunciated in §§ 35.936–2(b), 35.936–3, and 35.936–7.

(b) *Public announcement.* A notice of request for qualifications should be published in professional journals, newspapers, or publications of general circulation over a reasonable area, and, in addition if desired, through posted public notices or written notification directed to interested persons, firms, or professional organizations inviting the submissions of statements of qualifications. The announcement must clearly state the deadline and place for submission of qualification statements.

(c) *Prequalified list.* As an alternative to publishing public notice as in paragraph (b) of this section, the grantee may secure or maintain a list of qualified candidates. Such a list must:

(1) Be developed with public notice procedures as in paragraph (b) of this section;

(2) Provide for continuous updating; and

(3) Be maintained by the grantee or secured from the State or from a nearby political subdivision of the State.

(d) This public notice requirement and the related requirements of §§ 35.937–3 and 35.937–4 shall not be required, but may be followed, where the population of the grantee municipality is 25,000 or less according to the latest U.S. census.

(e) This public notice requirement (and the related requirements of §§ 35.937–3 and 35.937–4) shall not apply to the procurement of architectural or engineering services for Steps 2 or 3 of a grant if the grantee is satisfied with the qualifications and performance of an engineer who performed all or any part of the Step 1 or Step 2 work, the engineer has the capacity to perform the subsequent steps and the grantee desires the same engineer to provide architectural or engineering services for the subsequent steps.

(f) When a single treatment works is segmented into two or more Step 3 projects, and if the Step 2 work is accordingly segmented so that the initial contract for preparation of construction drawings and specifications does not cover the entire treatment works to be built under one grant, the grantee need not announce the requirement for architectural or engineering services for subsequent segments of design work under one grant. The grantee may use the same engineering firm that was selected for the initial segment of Step 2 work for subsequent segments if he desires to do so. All other appropriate provisions of these sections, including cost review and negotiation of price, will apply to each segment of work.

§ 35.937–3 Evaluation of qualifications.

(a) The grantee shall review the qualifications of firms which responded to the announcement or were on the prequalified list and shall uniformly evaluate the firms.

(b) Qualifications shall be evaluated by an objective process such as by the appointment of a board or committee, which, to the extent practicable, should include persons with technical skills.

(c) Criteria which should be considered in the evaluation of candidates for submission of proposals should include:

(1) Specialized experience and technical competence of the candidate or firm and its personnel (including a joint venture, association or professional subcontract) in connection with the type of services required and the complexity of the project;

(2) Past record of performance on contracts with the grantee, other government agencies or public bodies, and with private industry, including such factors as control of costs, quality of work, and ability to meet schedules;

(3) Capacity of the candidate to perform the work (including any specialized services) within the time limitations, taking into consideration the current and planned workload of the firm;

(4) The familiarity of the candidate with types of problems applicable to the project; and

(5) Avoidance of personal and organizational conflicts of interest prohibited under State and local law and § 35.936–16.

§ 35.937–4 Solicitation and evaluation of proposals.

(a) Requests for professional services proposals must be sent to no fewer than three candidates who either responded to the announcement or were selected from the prequalified list, unless after good faith effort to solicit qualifications in accordance with § 35.937–2, fewer than three qualified candidates respond, in which case all qualified candidates must be provided requests for proposals.

(b) Requests for professional services proposals must be in writing and must contain the information necesary to enable a prospective offeror to prepare a proposal properly. The request for proposals must include the solicitation statement required pursuant to § 35.937–9(a) and must inform offerors of the evaluation criteria, including all those in paragraph (c) of this section, and of the relative importance attached to each criterion (a numerical weighted formula need not be utilized).

(c) All proposals submitted in response to the request for professional services proposals must be uniformly evaluated. Evaluation criteria shall include, as a minimum, all criteria stated in § 35.937–3(c). The grantee shall also evaluate the candidate's proposed method to accomplish the work required, including, where appropriate, demonstrated capability to explore and develop innovative or advanced techniques and designs. The grantee's evaluation shall comply with § 35.936–7 (Small and minority business).

(d) Proposals shall be evaluated by an objective process such as the appointment of a board or committee which to the extent practicable includes persons with technical skills. Oral (including telephone) or written interviews should be conducted with top rated proposers, and information derived therefrom shall be treated on a confidential basis, except as required to be disclosed pursuant to State or local law or to EPA pursuant to § 35.937–6 (Cost and price considerations).

(e) At no point during the entire procurement process shall information be conveyed to any candidate which would provide an unfair competitive advantage.

§ 35.937–5 Negotiation.

(a) Grantees are responsible for negotiation of their contracts for architectural or engineering services. Contract procurement including negotiation may be performed by the grantee directly or by another non-Federal governmental body, person or firm retained for the purpose. Contract negotiations may include the services of technical, legal, audit or other specialists to the extent deemed appropriate.

(b) Negotiations shall be conducted in accordance with the principles of Pub. L. 92–582, 40 U.S.C. 541–544 (commonly known as the Brooks Bill and incorporated in Federal procurement regulations at 41 CFR 1–4.10) or in accordance with State or local procedures.

(c) The object of negotiations with any candidate shall be to reach agreement on the provisions of the proposed contract. The grantee and the candidate shall discuss, as a minimum:

(1) The scope and extent of work and other essential requirements;

(2) Identification of the personnel and facilities necessary to accomplish the work within the required time, including where needed, employment of additional personnel, subcontracting, joint ventures, etc.;

(3) Provision of the required technical services in accordance with regulations and criteria established for the project; and

(4) A fair and reasonable price for the required work, to be determined in accordance with the cost and profit considerations set forth in §§ 35.937–6 and 35.937–7, and payment provisions.

§ 35.937–6 Cost and price considerations.

(a) *General.* It is the policy of EPA that the cost or price of all subagreements and amendments thereto must be considered. For each subagreement in excess of $10,000 but not greater than $100,000, grantees shall use the procedures described in paragraph (c) of this section or an equivalent process.

(b) *Subagreements over $100,000.* For each subagreement expected to exceed $100,000, or for two subagreements which aggregate more than $100,000 awarded to an engineer for work on one step, or where renegotiation or amendment of a subagreement will result in a contract price in excess of $100,000, or where the amendment itself is in excess of $100,000, the provisions of this paragraph (b) shall apply.

(1) The candidate(s) selected for negotiation shall submit to the grantee for review sufficient cost and pricing data as described in paragraph (c) of this section to enable the grantee to ascertain the necessity and reasonableness of costs and amounts proposed, and the allowability and eligibility of costs proposed.

(2) The applicant/grantee shall submit to the EPA Project Officer for review (i) documentation of the public notice of need for architectural or engineering

V 4 0 2 4 3 D E C 1 7 7 5 XUM

services, selection procedures used, and negotiation methodology used, in those cases where §§ 35.937–2, 35.937–3 and 35.937–4 are applicable, (ii) the cost and pricing data submitted by the selected engineer, (iii) a certification of review and acceptance of the selected engineer's cost or price, and (iv) a copy of the proposed subagreement document. The EPA Project Officer will review the complete subagreement action and approve the grantee's compliance with appropriate procedures prior to award of the subagreement. The grantee shall be notified upon completion of review.

(c) *Cost review.* (1) A review of proposed subagreement costs shall be made by the grantee.

(2) As a minimum, proposed subagreement costs shall be presented in summary format prescribed by the Administrator and shall be supported by a certification executed by the selected engineer that proposed costs reflect complete, current and accurate cost and pricing data applicable to the date of anticipated subagreement award.

(3) In addition to the specific elements of cost, the estimated amount of profit shall be set forth separately in the cost summary for fixed price contracts and a maximum total dollar amount of profit shall be set forth separately in the cost summary for cost reimbursement contracts.

(4) More detailed cost data than that required by the summary format may be required by the grantee to substantiate the reasonableness of proposed subagreement costs. Such detailed documentation is normally required by EPA only when the selected engineer is unable to certify that the cost and pricing data used are complete, current and accurate. EPA may, on a selected basis, perform a preaward cost analysis on any subagreement. Normally, a provisional overhead rate will be agreed upon prior to contract award.

(5) Appropriate consideration should be given to § 30.710 of this subchapter which contains general cost principles which must be used for the determination of the allowability of costs under grants. The engineer's actual costs, direct and indirect, allowable for Federal participation shall be determined in accordance with the terms and conditions of the subagreement, this subpart and the cost principles included in 41 CFR 1–15.2 and 1–15.4. Examples of costs which are not allowable under those cost principles include, but are not limited to, entertainment, interest on borrowed capital and bad debts.

(6) The engineer shall have an accounting system which accounts for costs in accordance with generally accepted accounting principles. This system shall provide for the identification, accumulation and segregation of allowable and unallowable project costs among projects. Allowable project costs shall be determined in accordance with paragraph (c)(5) of this section. The engineer must propose and account for costs in a manner consistent with his normal accounting procedures.

(7) Subagreements awarded on the basis of review of a cost element summary and a certification of complete, current and accurate cost and pricing data shall be subject to downward renegotiation or recoupment of funds where the Regional Administrator determines that such certification was not based on complete, current and accurate cost and pricing data or not based on costs allowable under the appropriate FPR cost principles (41 CFR 1–15.2 and 1–15.4) at the time of award.

§ 35.937–7 Profit.

The objective of negotiations shall be the exercise of sound business judgment and good administrative practice including the determination of a fair and reasonable profit based on the firm's assumption of risk and input to total performance and not merely the application of a predetermined percentage factor. For the purpose of subagreements under EPA grants, profit is defined as the net proceeds obtained by deducting all allowable costs (direct and indirect) from the price. (Because this definition of profit is based on Federal procurement principles, it may vary from the firm's definition of profit for other purposes.) Profit on a subagreement and each amendment to a subagreement under a grant should be sufficient to attract engineers who possess talents and skills necessary to the accomplishment of project objectives, and to stimulate efficient and expeditious completion of the project. Where cost review is performed, the estimate of profit should be reviewed by the grantee as are all other elements of price.

§ 35.937–8 Award of subagreement.

After the close of negotiations and after review and approval by the EPA Project Officer if required pursuant to § 35.937–6(b), the grantee may award the contract. Unsuccessful candidates should be notified promptly.

§ 35.937–9 Required solicitation and subagreement provisions.

(a) *Required solicitation statement.* Requests for qualifications or proposals must include the following statement, as well as the proposed terms of the subagreement.

> Any contract awarded under this request for (qualifications/professional proposals) is expected to be funded in part by a grant from the United States Environmental Protection Agency. This procurement will be subject to regulations contained in 40 CFR 35.936, 35.937 and 35.939. Neither the United States nor the United States Environmental Protection Agency is nor will be a party to this request for (qualifications/professional proposals) or any resulting contract.

(b) *Content of subagreement.* Each subagreement must adequately define:

(1) The scope and extent of project work;

(2) The time for performance and completion of the contract work, including where appropriate, dates for completion of significant project tasks;

(3) Personnel and facilities necessary to accomplish the work within the required time;

(4) The extent of subcontracting and consultant agreements; and

(5) Payment provisions in accordance with § 35.937–10.

If any of these elements cannot be defined adequately for later tasks or steps at the time of contract execution, the subsequent tasks or steps shall not be included in the contract at that time.

(c) *Required subagreement provisions.* Each consulting engineering contract must include the provisions set forth in Appendix C–1 to this subpart.

§ 35.937–10 Subagreement payments—architectural or engineering services.

(a) Generally, payment will be made under consulting engineering contracts upon the completion of a step, or if specified in the grant agreement, upon completion of specific tasks within the step. However, where the consulting engineer would otherwise be required to finance substantial expenses, the grantee may provide for monthly or periodic progress payments in the consulting engineering agreement. Such progress payments may be requested by the consulting engineer based upon the estimated amount and value of the work and services performed by the engineer under the contract, which estimates shall be accompanied by such supporting documentation as the grantee may require. Upon the grantee's approval of the estimate, EPA shall make payment upon properly certified vouchers as soon as practicable of ninety percent of the Federal share of the amount as determined above, less all previous payments. When the grantee determines that the work under the contract or any specified task is substantially complete and that the amount of retained percentages is in excess of the amount considered by the grantee to be adequate for the protection of the grantee and the Federal Government, the grantee may at his discretion release to the engineer such excess amount.

(b) Upon satisfactory completion by the engineer of the work called for under the terms of a contract, and upon acceptance of such work by the grantee, with the concurrence of the EPA Project Officer, the engineer will be paid the unpaid balance of any money due for such work, including any retained percentages relating to this portion of the work.

(c) Payment may not be withheld for professional services, except as provided in the contract for professional services. Any withholding should be limited to only that amount necessary to assure contract compliance.

§ 35.937–11 Applicability to existing contracts.

In some cases a negotiated subagreement may have been executed prior to the effective date of these regulations to cover work under more than one step of a grant. Such contracts already in existence may not comply with the requirements of §§ 35.936 and 35.937. Appendix D to this subpart sets forth EPA policy with respect to such contracts and must be implemented prior to the

grant award action for the next step under the grant.

§ 35.937–12 Subcontracts under subagreements for architectural or engineering services.

(a) The award or execution of subcontracts under a prime contract for architectural or engineering services awarded to an engineer by a grantee, and the procurement and negotiation procedures used by the engineer in awarding such subcontracts are not required to comply with any of the provisions, selection procedures, policies or principles set forth in §§ 35.936 or 35.937 except those specifically stated in paragraph (b) of this section.

(b) The award or execution of subcontracts in excess of $10,000 under a prime contract for architectural or engineering services and the procurement procedures used by the engineer in awarding such subcontracts must comply with the following:

(1) Section 35.936–2(b), (State and local law);

(2) Section 35.936–7, Small and minority business;

(3) Section 35.936–15(b), (prohibition against listed violating facilities);

(4) Section 35.936–17, Fraud and other unlawful or corrupt practices;

(5) Section 35.937–6, Cost and price considerations; and

(6) Section 35.937–7, Profit.

§ 35.938 Construction contracts (subagreements) of grantees.

§ 35.938–1 Applicability.

This section applies to construction contracts (subagreements) in excess of $10,000 awarded by grantees for any Step 3 project.

§ 35.938–2 Performance by contract.

The project work shall be performed under one or more contracts awarded by the grantee to private firms, except for force account work authorized by § 35.936–14.

§ 35.938–3 Type of contract.

Each contract shall be a fixed price (lump sum or unit price or a combination of the two) contract, unless the Regional Administrator gives advance written approval for the grantee to use some other acceptable type of contract. The cost-plus-percentage-of-cost type of contract shall not be used in any event.

§ 35.938–4 Formal advertising.

Each contract shall be awarded after formal advertising, unless negotiation is permitted in accordance with § 35.936–18. Formal advertising shall be in accordance with the following:

(a) *Adequate public notice.* The grantee will cause adequate notice to be given of the solicitation by publication in newspapers or journals of general circulation beyond the grantee's locality (Statewide, generally), inviting bids on the project work, and stating the method by which bidding documents may be obtained and/or examined. Where the estimated cost of Step 3 construction is ten million dollars or more, such notice must generally be published in trade journals of Nationwide distribution. The grantee should, in addition, solicit bids directly from bidders if it maintains a bidders list.

(b) *Adequate time for preparing bids.* Adequate time, generally not less than 30 days, must be allowed between the date when public notice pursuant to paragraph (a) of this section is first published and the date by which bids must be submitted. Bidding documents (including specifications and drawings) shall be available to prospective bidders from the date when such notice is first published.

(c) *Adequate bidding documents.* A reasonable number of bidding documents (invitations for bid) shall be prepared by the grantee and shall be furnished upon request on a first-come, first-served basis. A complete set of bidding documents shall be maintained by the grantee and shall be available for inspection and copying by any party. Such bidding documents shall include:

(1) A complete statement of the work to be performed, including necessary drawings and specifications, and the required completion schedule. (Drawings and specifications may be made available for inspection and purchase instead of being furnished.);

(2) The terms and conditions of the contract to be awarded;

(3) A clear explanation of the method of bidding and the method of evaluation of bid prices, and the basis and method for award of the contract;

(4) Responsibility requirements or criteria which will be employed in evaluating bidders;

(5) The following statement:

> Any contract or contracts awarded under this Invitation for Bids are expected to be funded in part by a grant from the United States Environmental Protection Agency. Neither the United States nor any of its departments, agencies or employees is or will be a party to this Invitation for Bids or any resulting contract. This procurement will be subject to regulations contained in 40 CFR 35.936, 35.938, and 35.939.;

and

(6) A copy of §§ 35.936, 35.938 and 35.939.

(d) *Sealed bids.* The grantee shall provide for bidding by sealed bid and for the safeguarding of bids received until public opening.

(e) *Addenda to bidding documents.* If a grantee desires to amend any part of the bidding documents (including drawings and specifications) during the period when bids are being prepared, the addenda shall be communicated in writing to all firms which have obtained bidding documents in time to be considered prior to the bid opening time.

(f) *Bid modifications.* A firm which has submitted a bid shall be allowed to modify or withdraw its bid prior to the time of bid opening.

(g) *Public opening of bids.* The grantee shall provide for a public opening of bids at the place, date and time announced in the bidding documents.

(h) *Award to the low, responsive, responsible bidder.* (1) After bids are opened, they shall be evaluated by the grantee in accordance with the methods and criteria set forth in the bidding documents.

(2) The grantee may reserve the right to reject all bids. Unless all bids are rejected, award shall be made to the low, responsive, responsible bidder.

(3) If award is intended to be made to a firm which did not submit the lowest bid, a written statement shall be prepared prior to any award and retained by the grantee explaining why each lower bidder was deemed nonresponsible or not responsive.

(4) State or local laws, ordinances, regulations or procedures which are designed or which operate to give local or in-State bidders preference over other bidders shall not be employed in evaluating bids.

§ 35.938–5 Negotiation of contract amendments (change orders).

(a) *Grantee responsibility.* Grantees are responsible for negotiation of construction contract change orders. This function may be performed by the grantee directly or, if authorized, by his engineer. During negotiations with the contractor the grantee shall:

(1) Make certain that the contractor has a clear understanding of the scope and extent of work and other essential requirements;

(2) Assure that the contractor demonstrates that he will make available or will obtain the necessary personnel, equipment and materials to accomplish the work within the required time; and

(3) Assure a fair and reasonable price for the required work.

(b) *Changes in contract price or time.* The contract price or time may be changed only by a change order. When negotiations are required, they shall be conducted in accordance with paragraph (c) or (d) of this section, as appropriate. The value of any work covered by a change order or of any claim for increase or decrease in the contract price shall be determined by the method set forth in paragraphs (b)(1) through (b)(3) of this section which is most advantageous to the grantee.

(1) Unit prices. (i) Original bid items. Unit prices previously approved are acceptable for pricing changes of original bid items. However, when changes in quantities exceed 15 percent of the original bid quantity and the total dollar change of that bid item is significant, the unit price shall be reviewed by the grantee to determine if a new unit price should be negotiated.

(ii) New items. Unit prices of new items shall be negotiated.

(2) A lump sum to be negotiated.

(3) Cost reimbursement—the actual cost for labor, direct overhead, materials, supplies, equipment, and other services necessary to complete the work plus an amount to be agreed upon to cover the cost of general overhead and profit to be negotiated.

(c) For each change order not in excess of $100,000 the contractor shall submit sufficient cost and pricing data to the grantee to enable the grantee to

V 40243 DEC 17 75 XUM

determine the necessity and reasonableness of costs and amounts proposed, and the allowability and eligibility of costs proposed.

(d) For each change order in excess of $100,000, the contractor shall submit to the grantee for review sufficient cost and pricing data as described in paragraphs (d)(1) through (d)(6) of this section to enable the grantee to ascertain the necessity and reasonableness of costs and amounts proposed, and the allowability and eligibility of costs proposed.

(1) As a minimum, proposed change order costs shall be presented in summary format prescribed by the Administrator and shall be supported by a certification executed by the contractor that proposed costs reflect complete, current and accurate cost and pricing data applicable to the date of the change order.

(2) In addition to the specific elements of cost, the estimated amount of profit shall be set forth separately in the cost summary for fixed price change orders and a specific total dollar amount of profit will be set forth separately in the cost summary for cost reimbursement change orders.

(3) More detailed cost data than that required by the summary format may be required by the grantee to substantiate the reasonableness of proposed change order costs. Such detailed documentation is normally required by EPA only when the contractor is unable to certify that proposed change order costs are complete, current and accurate. EPA, may, on a selected basis, perform a detailed cost analysis of any change order. Normally, a provisional overhead rate will be agreed upon.

(4) Appropriate consideration should be given to § 30.710 of this subchapter which contains general cost principles which must be used for the determination and allowability of costs under grants. The contractor's actual costs, direct and indirect, allowable for Federal participation shall be determined in accordance with the terms and conditions of the contract, this subpart and the cost principles included in 41 CFR 1–15.2 and 1–15.4. Examples of costs which are not allowable under those cost principles include, but are not limited to, entertainment, interest on borrowed capital and bad debts.

(5) For costs under cost reimbursement change orders, the contractor shall have an accounting system which accounts for such costs in accordance with generally accepted accounting principles. This system shall provide for the identification, accumulation and segregation of allowable and unallowable change orders. Allowable change order costs shall be determined in accordance with paragraph (d)(4) of this section. The contractor must propose and account for such costs in a manner consistent with his normal accounting procedures.

(6) Change orders awarded on the basis of review of a cost element summary and a certification of complete, current and accurate cost and pricing data shall be subject to downward renegotiation or recoupment of funds where subsequent audit substantiates that such certification was not based on complete, current and accurate cost and pricing data and on costs allowable under the appropriate FPR cost principles (41 CFR 1–15.2 and 1–15.4) at the time of change order execution.

(e) *EPA review.* In addition to the requirements of §§ 35.935–10 (Copies of contract documents) and 35.935–11 (Project changes), the grantee shall submit, prior to the execution of any change order in excess of $100,000, to the EPA Project Officer for review:

(1) The cost and pricing data submitted by the contractor,

(2) A certification of review and acceptance of the contractor's cost or price, and

(3) A copy of the proposed change order.

(f) *Profit.* The objective of negotiations shall be the exercise of sound business judgment and good administrative practice including the determination of a fair and reasonable profit based on the contractor's assumption of risk and input to total performance and not merely the application of a predetermined percentage factor. For the purpose of negotiated change orders to construction contracts under EPA grants, profit is defined as the net proceeds obtained by deducting all allowable costs (direct and indirect) from the price. The estimate of profit should be reviewed by the grantee as are all other elements of price.

(g) *Related work.* Related work shall not be split into two amendments or change orders merely to keep it under $100,000 and thereby avoid the requirements of paragraph (d) of this section. For change orders which include both additive and deductive items:

(1) If any single item (additive or deductive) exceeds $100,000, the requirements of paragraph (d) of this section shall be applicable.

(2) If no single additive or deductive item has a value of $100,000, but the total price of the change order is over $100,000, the requirements of paragraph (d) of this section shall be applicable.

(3) If the total of additive items of work in the change order exceeds $100,000, or the total of deductive items of work in the change order exceeds $100,000, and the net price of the change order is less than $100,000, the requirements of paragraph (d) of this section shall apply.

§ 35.938–6 Progress payments to contractors.

(a) *Policy.* It is EPA policy that, except as may be otherwise provided by State law, prompt progress payments should be made by grantees to prime contractors and by prime contractors to subcontractors and suppliers for eligible construction, material, and equipment costs, including those of undelivered specifically manufactured equipment, incurred under a contract under an EPA construction grant.

(b) *Conditions of progress payments.* For purposes of this section, progress payments are defined as follows:

(1) Payments for work in place.

(2) Payments for materials or equipment which have been delivered to the construction site, or which are stockpiled in the vicinity of the construction site, in accordance with the terms of the contract, when conditional or final acceptance is made by or for the grantee. It is the grantee's responsibility to assure that items for which progress payments have been made are adequately insured and are protected through appropriate security measures. Costs of such insurance and security are allowable costs in accordance with § 35.940.

(3) Payments for undelivered specifically manufactured items or equipment (excluding off-the-shelf or catalog items), as work thereon progresses. Such payments must be made if provisions therefor are included in the bid and contract documents. Such provisions may be included at the option of the grantee only when all of the following conditions exist:

(i) The equipment is so designated in the project specifications;

(ii) The equipment to be specifically manufactured for the project could not be readily utilized on nor diverted to another job; and

(iii) A fabrication period of more than six months is anticipated.

(c) *Protection of progress payments made for specifically manufactured equipment.* The grantee will assure protection of the Federal interest in progress payments made for items or equipment referred to in paragraph (b)(3) of this section. This protection must be in a manner or form acceptable to the grantee and must take the form of (1) recordation under the Uniform Commercial Code adequate to protect the interest of the grantee and the government, or (2) securities negotiable without recourse, condition or restrictions, a progress payment bond or an irrevocable letter of credit provided to the grantee through the prime contractor by the subcontractor or supplier.

(d) *Limitations on progress payments for specifically manufactured equipment.* (1) Progress payments made for specifically manufactured equipment or items shall be limited to the following:

(i) A first payment upon submission by the prime contractor of shop drawings for the equipment or items in an amount not exceeding fifteen percent of the contract or item price plus appropriate and allowable higher-tier costs;

(ii) And, subsequent to the grantee's release or approval for manufacture, additional payments not more frequently than monthly thereafter up to seventy-five percent of the contract or item price plus appropriate and allowable higher-tier costs: *Provided*, That payment may also be made in accordance with the contract and grant terms and conditions for ancillary on-site work prior to delivery of the specifically manufactured equipment or items.

(2) In no case may progress payments for undelivered equipment or items pursuant to paragraph (d)(1)(i) or (ii) of this section be made in an amount greater than seventy-five percent of the cumulative incurred costs allocable to contract performance with respect to the equipment or items. Submission of a request for any such progress payments must be accompanied by a certification furnished by the fabricator of the equipment or item that the amount of progress payment claimed constitutes not more than seventy-five percent of cumulative incurred costs allocable to contract performance, and in addition, in the case of the first progress payment request, a certification that the amount claimed does not exceed 15 percent of the contract or item price quoted by the fabricator.

(3) As used in this section, the term "costs allocable to contract performance" with respect to undelivered equipment or items includes all expenses of contract performance which are reasonable, allocable to the contract, consistent with sound and generally accepted accounting principles and practices consistently applied, and which are not excluded by the contract.

(e) *Enforcement.* A subcontractor or supplier which is determined by the Regional Administrator to have frustrated the intent of the provisions regarding progress payments for major equipment or specifically manufactured equipment through intentional forfeiture of its bond or failure to deliver the equipment may be determined nonresponsible and ineligible for further work under EPA grants.

(f) *Contract provisions.* Where applicable, appropriate provisions regarding progress payments must be included in each contract and subcontract. Grantees must use clauses acceptable to the EPA Regional Administrator.

(g) *Implementation.* The foregoing progress payments policy should be implemented in invitations for bids under Step 3 grants. If provision for progress payments is made subsequent to contract award, it must be for consideration which the grantee deems adequate.

§ 35.938–7 Retention from progress payments.

(a) The grantee may retain a portion of the amount otherwise due the contractor. Except as provided in paragraph (a)(4) of this section, the amount retained by the grantee shall be limited to the following:

(1) Withholding of not more than 10 percent of the payment claimed until work is 50 percent complete;

(2) When work is 50 percent complete, reduction of the withholding to 5 percent of the dollar value of all work satisfactorily completed to date: *Provided*, That the contractor is making satisfactory progress and there is no specific cause for greater withholding;

(3) When the work is substantially complete (operational or beneficial occupancy), the withheld amount shall be further reduced below 5 percent to only that amount necessary to assure completion.

(4) The grantee may reinstate up to 10 percent withholding if the grantee determines, at its discretion, that the contractor is not making satisfactory progress or there is other specific cause for such withholding.

(5) The grantee may accept securities negotiable without recourse, condition or restrictions, a release of retainage bond, or an irrevocable letter of credit provided by the contractor in lieu of all or part of the cash retainage.

(b) The foregoing retention policy shall be implemented with respect to all Step 3 projects for which plans and specifications are approved after March 1, 1976. Appropriate provision to assure compliance with this policy must be included in the bid documents for such projects initially or by addendum prior to the bid submission date, and as a special condition in the grant agreement or in a grant amendment. For all previous active projects, the foregoing policy may be implemented by the grantee through contract amendment upon written request to the grantee by the contractor upon consideration which the grantee deems adequate.

(c) Pursuant to § 30.620–3 (Interest earned on grant funds) of this subchapter, a grantee who delays disbursement of grant funds will be required to credit to the United States all interest earned on those funds.

§ 35.938–8 Required construction contract provisions.

(a) Each construction contract must include the "General Conditions" of the "Contract Documents for Construction of Federally Assisted Water and Sewer Projects," as revised.

(b) In addition, each construction contract must include the "Supplemental General Conditions" set forth in Appendix C–2 to this subpart.

§ 35.938–9 Subcontracts under construction contracts.

(a) The award or execution of subcontracts by a prime contractor under a construction contract awarded to the prime contractor by the grantee, and the procurement and negotiation procedures used by prime contractors in awarding or executing subcontracts are not required to comply with any of the provisions, selection procedures, policies or principles set forth in § 35.936 or § 35.938 except those specifically stated in this section. In addition, the bid protest procedures of § 35.939 are not available to parties executing subcontracts with prime contractors except as specifically provided in that section.

(b) The award or execution of subcontracts by a prime contractor under a formally advertised, competitively bid, fixed price construction contract awarded to the prime contractor by the grantee, and the procurement and negotiation procedures used by such prime contractors in awarding or executing such subcontracts must comply with the following:

(1) Section 35.936–2(b), (State and local law);

(2) Section 35.936–7, Small or minority business;

(3) Section 35.936–15(b), (prohibition against listed violating facilities); and

(4) Section 35.936–17, Fraud and other unlawful or corrupt practices.

(c) The award of subcontracts under construction contracts not described above in paragraph (b) of this section and the procurement and negotiation procedures of prime contractors on contracts not meeting that description must comply with paragraphs (b)(1) through (b)(4) of this section as well as the principles of § 35.938–5.

§ 35.939 Protests.

(a) *General.* A protest based upon an alleged violation of the procurement requirements of §§ 35.936 through 35.938–9 may be filed against a grantee's procurement action by a party with an adversely affected direct financial interest. Any such protest must be received by the grantee within the time period set forth in paragraph (b)(1) of this section. The grantee is responsible for resolution of the protest prior to the taking of the protested action, in accordance with paragraph (d) of this section, except as otherwise provided by paragraphs (j) and (k) of this section. The Regional Administrator will review grantee protest determinations in accordance with paragraph (e) of this section, if a timely request for such review is filed pursuant to paragraph (b)(2) of this section. In the case of protests which he determines are frivolous or without merit, the Regional Administrator may take such actions as are described in paragraphs (i)(2) and (k) of this section.

(b) *Time limitations:* (1) A protest pursuant to paragraph (d) of this section should be made as early as possible during the procurement process (for example, immediately after issuance of a solicitation for bids) to avoid disruption of or unnecessary delay to the procurement process. A protest authorized by paragraph (d) of this section must be received by the grantee within one week after the basis for the protest is known or should have been known, whichever is earlier (generally, in the case of formally advertised procurement, within one week after bid opening, if the basis for the protest is, or should have been, then known).

(2) A protest appeal authorized by paragraph (e) of this section must be received by the Regional Administrator within one week after the complainant has received the grantee's determination.

(3) If a protest is mailed, the complaining party bears the risk of nondelivery within the required time period. It is suggested that all documents transmitted pursuant to this section be mailed by certified mail (return receipt requested) or otherwise delivered in a manner which will objectively establish the date of receipt. Initiation of protest actions pursuant to paragraphs (d) or (e) of this section may be made by brief telegraphic notice accompanied by simultaneous mailing or other delivery

V 40 243 DEC 17 75 D XUM

of a more detailed statement of the basis for the protest. Telephonic protests will not be considered.

(c) *Other initial requirements.* (1) The initial protest document must briefly state the basis for the protest, and should (i) refer to the specific section(s) of this subpart which allegedly prohibit the procurement action, (ii) specifically request a determination pursuant to this section, (iii) identify the specific procurement document(s) or portion(s) thereof in issue, and (iv) include the name, telephone number, and address of the person representing the protesting party.

(2) The party filing the protest must concurrently transmit a copy of the initial protest document and any attached documentation to all other parties with a direct financial interest which may be adversely affected by the determination of the protest (generally, all bidders or proposers who appear to have a substantial and reasonable prospect of receiving an award if the protest is denied or sustained) and to the appropriate EPA Regional Administrator.

(d) *Grantee determination.* (1) The grantee is responsible for the initial resolution of protests based upon alleged violations of the procurement requirements of this subpart.

(2) Upon receipt of a timely written protest the grantee must:

(i) Afford the complaining party and interested parties an opportunity to present arguments in support of their views in writing or at a conference or other suitable meeting (such as a city council meeting);

(ii) Inform the complainant and other interested parties of the procedures which the grantee will observe for resolution of the protest;

(iii) Obtain an appropriate extension of the period for acceptance of the bid and bond(s) of each interested party, where applicable; failure to agree to a suitable extension of such bid and bid bond(s) by the party which initiated the protest shall be cause for summary dismissal of the protest by the grantee or the Regional Administrator; and

(iv) Promptly deliver (preferably by certified mail, return receipt requested, or by personal delivery) its written determination of the protest to the complaining party and to each other participating party.

(3) The grantee's determination must be accompanied by a legal opinion addressing issues arising under state, territorial, or local law (if any), and where Step 3 construction is involved, by an engineering report, if appropriate.

(4) The grantee should seek to resolve any such protest as promptly as possible—generally within three weeks after receipt of a protest, unless extenuating circumstances require a longer period of time for proper resolution of the protest.

(e) *Regional Administrator review.* (1) A party with a direct financial interest adversely affected by a grantee determination made pursuant to paragraph (d) of this section with respect to a procurement requirement of this subpart may submit a written request to the Regional Administrator for his review of such determination. Any such request must be in writing, must adequately state the basis for the protest (including reference to the specific section(s) of this subpart alleged to prohibit the procurement action), and must be received by the Regional Administrator within one week after the complaining party has received the grantee's determination of the protest. A copy of the grantee's determination and other documentation in support of the request for review shall be transmitted with the request.

(2) The Regional Counsel or his delegee will afford both the grantee and the complaining party, as well as any other party with a financial interest which may be adversely affected by determination of the protest, an opportunity to present arguments in support of their views in writing or at a conference at a time and place convenient to the parties as determined by the Regional Counsel or his delegee, and he shall thereafter promptly submit in writing his report and recommendations concerning the protest to the Regional Administrator.

(3) Any such conference should be held within not more than ten days after receipt of the request for review and the report should be transmitted to the Regional Administrator within ten days after the date set for receipt of the participants' written materials or for the conference. The Regional Administrator should transmit his determination of the protest with an adequate explanation thereof to the grantee and simultaneously to each participating party within one week after receipt of the report and recommendations. His determination shall constitute final agency action, from which there shall be no further administrative appeal. The Regional Counsel may extend these time limitations, where appropriate.

(f) *Procedures.* (1) Where resolution of an issue properly raised with respect to a procurement requirement of this subpart requires prior or collateral resolution of a legal issue arising under State or local law, and such law is not clearly established in published legal decisions of the State or other relevant jurisdiction, the grantee or Regional Administrator may rely upon:

(i) An opinion of the grantee's legal counsel adequately addressing the issue,

(ii) The established or consistent practice of the grantee, to the extent appropriate, or

(iii) The law of other States or local jurisdictions as established in published legal decisions, or

(iv) If none of the foregoing adequately resolve the issue, published decisions of the Comptroller General of the United States (U.S. General Accounting Office) or of the Federal courts addressing Federal requirements comparable to procurement requirements of this subpart.

(2) For the determination of Federal issues presented by the protest, the Regional Administrator may rely upon:

(i) Determinations of other protests decided under this section, unless such protests have been reversed, and

(ii) Published decisions of the Comptroller General of the United States or of the Federal courts addressing Federal requirements comparable to procurement requirements of this subpart.

(3) The Regional Counsel may establish additional procedural requirements or deadlines for the submission of materials by parties or for the accomplishment of other procedures. Where time limitations are established by this section or by the Regional Counsel, participants must seek to accomplish the required action as promptly as possible in the interest of expediting the procurement action.

(4) A party who submits a document subsequent to initiation of a protest proceeding pursuant to paragraph (d) or (e) of this section must simultaneously furnish each other party with a copy of such document.

(5) The procedures established by this section are not intended to preclude informal resolution or voluntary withdrawal of protests. A complainant may withdraw its appeal at any time, and the protest proceeding shall thereupon be terminated.

(6) The Regional Administrator may utilize appropriate provisions of this section in the discharge of his responsibility to review grantee procurement methods under § 35.935–2(a).

(g) *Burden of proof.* (1) In proceedings pursuant to paragraphs (d) and (e) of this section, if the grantee proposes to award a formally advertised, competitively bid, fixed price contract to a party who has submitted the apparent lowest price, the party initiating the protest will bear the burden of proof in the protest proceedings.

(2) In the proceedings pursuant to paragraph (e) of this section,

(i) If the grantee proposes to award a formally advertised, competitively bid, fixed-price contract to a bidder other than the bidder which submitted the apparent lowest price, the grantee will bear the burden of proving that its determination concerning responsiveness is in accordance with this subchapter; and

(ii) If the basis for the grantee's determination is a finding of nonresponsibility, the grantee must establish and substantiate the basis for its determination and must adequately establish that such determination has been made in good faith.

(h) *Deferral of procurement action.* Upon receipt of a protest pursuant to paragraph (d) of this section, the grantee must defer the protested procurement action (for example, defer the contract award or issuance of notice to proceed under a contract) until ten days after delivery of its determination to the participating parties. Where the Regional Administrator has received a written protest pursuant to paragraph (e) of this section, he must notify the grantee promptly to defer its protested procurement action until notified of the formal or informal resolution of the protest. If a determination is made by either the grantee or the Regional Administrator which is favorable to the complainant, the grantee's procurement action (for example, contract award) must be taken in accordance with such determination.

(i) *Enforcement.* (1) Noncompliance with the procurement provisions of this subchapter by the grantee shall be cause for enforcement action in accordance with one or more of the provisions of § 35.965.

(2) If the Regional Administrator determines that a protest prosecuted pursuant to this section is frivolous, he may determine the party which prosecuted such protest to be nonresponsible and ineligible for future contract award (see also paragraph (k) of this section).

(j) *Limitation.* A protest may not be filed pursuant to this section with respect to the following:

(1) Issues not arising under the procurement provisions of this subchapter;

(2) Issues relating to the selection of a consulting engineer: *Provided,* That a protest may be filed only with respect to the mandatory procedural requirements of §§ 35.937 through 35.937–9;

(3) Issues primarily determined by State or local law or ordinances;

(4) Provisions of Federal regulations applicable to direct Federal contracts, unless such provisions are explicitly referred to or incorporated in this subpart;

(5) Basic project design determinations (for example, the selection of incineration versus other methods of disposal of sludge); or

(6) Award of subcontracts or issuance of purchase orders under a formally advertised, competitively bid, lump-sum construction contract: *Provided,* That protest may be made with respect to alleged violation of the following:

(i) Nonrestrictive specifications (see § 35.936–13(a)); or

(ii) Provisions of this subpart applicable to the procurement procedures, negotiation or award of subcontracts or issuance of purchase orders pursuant to § 35.937–12 (Subcontracts under subagreements for architectual or engineering services) or § 35.938–9 (Subcontracts under construction contracts).

(k) *Summary disposition.* The Regional Administrator may summarily dismiss a protest, without proceedings under paragraphs (d) or (e) of this section, if he determines that the protest is frivolous or without merit—for example, that the protested action of the grantee primarily involves issues of state or local law. Any such determination shall refer briefly to the facts substantiating the basis for the determination.

§ 35.965 Enforcement.

Noncompliance with the provisions of this subpart shall be cause for any one or more of the following sanctions, as determined appropriate by the Regional Administrator:

(a) The grant may be terminated or annulled pursuant to § 30.920 of this subchapter;

(b) Project costs directly related to the noncompliance may be disallowed;

(c) Payment otherwise due to the grantee of up to ten percent (10%) may be withheld (see § 30.615–3 of this subchapter);

(d) Project work may be suspended pursuant to § 30.915 of this subchapter;

(e) A noncomplying grantee may be found nonresponsible or ineligible for future Federal assistance or a noncomplying contractor may be found nonresponsible or ineligible for approval for future contract award under EPA grants;

(f) An injunction may be entered or other equitable relief afforded by a court of appropriate jurisdiction;

(g) Such other administrative or judicial action may be instituted as may be legally available and appropriate.

APPENDIX C–1—REQUIRED PROVISIONS—CONSULTING ENGINEERING AGREEMENTS [RESERVED]

APPENDIX C–2—REQUIRED PROVISIONS—CONSTRUCTION CONTRACTS [RESERVED]

APPENDIX D—EPA TRANSITION POLICY—EXISTING CONSULTING ENGINEERING AGREEMENTS

A. ACCESS TO RECORDS—AUDIT

1. *Access clause.* After June 30, 1975, a construction grant for Steps 1, 2 or 3 will not be awarded nor will initiation of Step 1 work be approved pursuant to 40 CFR 35.917(e) or 35.925–18(a)(3), unless an acceptable records and access clause is included in the consulting engineering subagreement. The clause contained in Appendix C–1 shall be used after March 1, 1976. The clause required by former PG–53 or approved as an alternate thereto may be utilized for all contracts under grants awarded prior to March 1, 1976.

2. *EPA exercise of right of access to records.* Under applicable statutory and regulatory provisions, EPA has a broad right of access to grantees' consulting engineers' records pertinent to performance of EPA project work. The extent to which EPA will exercise this right of access will depend upon the nature of the records and upon the type of agreement.

a. For the purpose of determining where EPA shall exercise its right of access, engineers' project-related records have been divided into three categories:

(1) *Category A.* Records pertaining directly to the professional, technical and other services performed, excluding any type of financial records of the consulting engineer.

(2) *Category B.* Financial records of the consulting engineer pertaining to the direct costs of professional, technical and other services performed, excluding financial records pertaining to profit and overhead or other indirect costs.

(3) *Category C.* Financial records of the consulting engineer excluded from Category B.

b. In all cases, EPA will exercise its right of access to Category A records. Also, where there is an indication that fraud, gross abuse, or corrupt practices may be involved, EPA will exercise its right of access to records in all categories. Otherwise, access to consulting engineers' financial records (Categories B and C) will depend principally upon the method(s) of compensation stipulated in the agreement:

(1) *Agreements based upon a percentage of construction cost.* Category B and C records will not be audited. However, terms of the agreement including the total amount of compensation will be evaluated for fairness and reasonableness and consistency with historical and advisory guidelines in general use and acceptable locally such as ASCE Manual 45 or other analyses or data relied upon or utilized by the contracting parties in negotiation of the agreement. Such evaluation shall also consider comparable contracts for which EPA grants have been awarded.

(2) *Agreements based upon salary cost times a multiplier including profit.* Category B records will be audited. Category C records will not be audited. However, terms of the agreement, including the total amount of compensation and the multiplier, will be evaluated for fairness and reasonableness and consistency with historical and advisory guidelines in general use and acceptable locally such as ASCE Manual 45 or other analyses or data relied upon or utilized by the contracting parties in negotiation of the agreement. Such evaluation shall also consider comparable contracts for which EPA grants have been awarded. Items of overhead or other indirect costs will only be audited to the extent necessary to assure that types of costs found both in overhead and reimbursable direct costs, if any, are properly charged.

(3) *Per diem agreements.* Category B records will be audited. Category C records will not be audited. Audit will be performed to the extent necessary to determine that hours claimed and classes of personnel used were properly supported. The per diem rates will be evaluated in accordance with appropriate portions of paragraphs A.2.b.(1) and (2) of this appendix.

(4) *Cost plus a fixed fee (profit).* All direct costs and overhead and other indirect costs claimed will be audited to determine that they are reasonable, allowable, and properly supported by the consulting engineer's records. The amount of fixed fee will not be questioned unless the total compensation appears unreasonable when evaluated in accordance with paragraphs A.2.b.(1) and (2) of this appendix.

(5) *Fixed price lump sum contracts.* Category B and C records will not be audited. The contract amount will not be questioned unless the total compensation appears unreasonable when evaluated in accordance with appropriate portions of paragraphs A.2.b.(1) and (2) of this appendix.

c. Under agreements covering both grant-eligible and ineligible work, access to records will be exercised to the extent necessary to allocate contract work or costs between work grant-eligible for Title II construction grant assistance and work or costs which are ineligible.

d. Under agreements utilizing two or more methods of compensation, each part of the agreement will be separately audited in accordance with the appropriate subparagraph of paragraph (b)(2) of this section.

e. Any audited firm and the grantee will be afforded opportunity for an audit exit conference and an opportunity to receive and comment upon the pertinent portions of each draft audit report. The final audit report will include the written comments, if any, of the audited parties in addition to those of the appropriate state and/or Federal agency(ies).

B. TYPE OF CONTRACT

1. The percentage of construction cost type of contract, and the multiplier contract, where profit is included in the multiplier, may not be utilized for Step 1 or Step 2 work initiated after June 30, 1975, when the Step 1 or Step 2 grant is awarded subsequent to June 30, 1975. (A multiplier type of compensation may be utilized only under acceptable types of contracts; see 40 CFR 35.–937–1(d).)

2. Step 1 and Step 2 work performed under the percentage of construction cost type of contract and the multiplier contract, where profit is included in the multiplier, will be reimbursed and such contracts will not be questioned where such costs are re-

V40243 DEC 17 75 XUM

imbursed in conjunction with a Step 3 grant award within the scope of Step 2 work contracted for prior to July 1, 1975. However, the current Step 2 work will not be continued indefinitely for multiple, subsequent Step 3 projects in order to avoid modifying the consultant agreement.

3. Where Step 2 work is initiated after June 30, 1975, under contracts prohibited by paragraphs B.1. and B.2. of this appendix, EPA approval may not be given nor grant assistance awarded until the terms of compensation under the contract have been renegotiated.

4. Establishing an "upset" figure (an upper limit which cannot be exceeded without a formal amendment to the agreement) under a multiplier contract, where profit is included in the multiplier, is not acceptable where renegotiation of such contracts is required. In such renegotiation, the amount of profit must be specifically identified.

5. Total allowable contract costs for grant payment for a contract based upon a percentage of construction cost will be based upon the following:

a. Where work for the design step is essentially continuous from start of design to bidding, and bid opening for Step 3 construction occurs within one year after substantial completion of Step 2 design work, the total allowable contract costs for grant payment may not exceed an amount based upon the low bid for construction.

b. Where work for the design step is not essentially continuous from start of design to bidding, or one year or more elapses between substantial completion of Step 2 design work and bid opening for Step 3 construction, the total allowable contract costs for grant payment may not exceed an amount based upon the lower of:

(1) The consulting engineer's construction cost estimate provided at the time of such substantial completion plus an escalation of this construction cost estimate of up to five percent, but not to exceed the consulting engineer's total compensation based on the low bid for construction, or

(2) The consulting engineer's construction cost estimate provided at the time of such substantial completion plus a consulting engineer's compensation escalation not to exceed $50,000, but not to exceed the consulting engineer's total compensation based upon the low bid for construction.

c. Where the low bid for construction would have resulted in a higher consulting engineer's total compensation than provided in paragraph b., the Regional Administrator may also consider a reasonable additional compensation for updating the plans and specifications, revising cost estimates, or similar services.

6. Where renegotiation is required pursuant to this Appendix D, such renegotiation is subject to 40 CFR 35.937-1, 35.937-6, 35.937-7, 35.937-9 and 35.937-10.

C. ANNOUNCEMENT AND SELECTION

The requirements of 40 CFR 35.937-2 through 35.937-4 shall not apply to Step 1 work where the Step 1 grant was awarded or the initiation of Step 1 work was approved by EPA (pursuant to 40 CFR 35.917 (e)) prior to March 1, 1976, nor to subsequent Step 2 and Step 3 work in accordance with 40 CFR 35.937-2(d), provided that the grantee is satisfied with the qualifications and performance of the engineer employed.

D. REQUIRED CONSULTING ENGINEERING PROVISIONS

Effective March 1, 1976, grant assistance for Steps 1, 2 or 3 will not be awarded nor will initiation of Step 1 work be approved pursuant to 40 CFR 35.917(e) or 35.925-18 (a)(3), unless the subagreement clauses required pursuant to Appendix C-1 are included in the consulting engineering subagreement.

E. ENFORCEMENT

1. Refusal by a consulting engineer to insert the required access clause, or to allow access to its records, or to renegotiate a consulting engineering contract in accordance with the foregoing requirements, will render costs incurred under such contract unallowable. Accordingly, all such costs will be questioned and disallowed pending compliance with this appendix.

2. Where the Regional Administartor determines that the time required to comply with the access to records and type of contract provisions of this appendix will unduly delay award of grant assistance, he may award the grant assistance conditioned upon compliance with this appendix within a specified period of time. In such event, no grant payments for the affected engineering work may be made until such compliance has been obtained.

PART III:

FEDERAL ELECTION COMMISSION

■

JANUARY 31st ANNUAL REPORT OF RECEIPTS AND EXPENDITURES

Interim Guideline

V40243 DEC 17 75 XUM

FEDERAL ELECTION COMMISSION

[Notice 1975-91]

JANUARY 31 ANNUAL REPORT OF RECEIPTS AND EXPENDITURES

Interim Guideline

All candidates for Federal office and political committees supporting these candidates are required to file an Annual Report of Receipts and Expenditures on or before January 31, 1976. This report shall cover financial activity from the date of the last report filed through December 31, 1975. If no report was filed during the 1975 calendar year, the Annual Report shall include all financial activity from January 1, 1975, through December 31, 1975.

In the cases in which special elections to fill a vacancy in a Federal office occurred during calendar year 1975, this year-end report shall be designated as a Quarterly Report, shall cover the period from the date of the last report through December 31, 1975, and is required to be filed on or before January 31, 1976.

A report filed by registered or certified mail postmarked on or before January 31, 1976, shall be considered a timely filing.

The Commission advises that the reporting parties observe the following guidelines with regard to the office in which these reports are filed:

(1) Candidates for the U.S. House of Representatives and political committees solely supporting such candidates should file with the Clerk of the House of Representatives, 1036 Longworth House Office Building, Washington, D.C. 20515.

(2) Candidates for the U.S. Senate and political committees solely supporting such candidates should file with the Secretary of the Senate, 119 D Street., NE., Washington, D.C. 20510.

(3) Candidates for the Office of U.S. President and committees solely supporting such candidates should file with the Federal Election Commission, 1325 K Street, NW., Washington, D.C. 20463.

(4) Political committees supporting more than one candidate (multi-candidate committees) which have heretofore reported to two or more supervisory officers or which, if new, would have had to file with more than one supervisory officer (as, for example, a committee supporting candidates for both the Senate and the Presidency), should file their January 31, 1976, report with the Federal Election Commission, 1325 K Street, NW., Washington, D.C. 20463. Multi-candidate committees supporting only candidates for the House of Representatives should file their January 31, 1976, report with the Clerk of the House of Representatives. Multi-candidate committees supporting only candidates for the Senate should file their January 31, 1976, report with the Secretary of the Senate. Multi-candidate committees which have heretofore filed only with the General Accounting Office or which, if new, would have filed only with the General Accounting Office, should file the January 31, 1976, report with the Federal Election Commission at the above address.

No multi-candidate committee described in the foregoing paragraph need file with the principal campaign committees of the candidates supported, except that:

(a) A multi-candidate committee which receives contributions earmarked by the contributor for any individual candidate or an authorized committee thereof shall report such contribution to that candidate's principal campaign committee and the Commission, the Clerk, or the Secretary, as appropriate, and

(b) Any multi-candidate committee which is authorized to make expenditures in behalf of a candidate should report any such expenditures to that candidate's principal campaign committee and the Commission, the Clerk, or the Secretary, as appropriate. If no principal campaign committee has been designated, contributions and expenditures to be reported under this paragraph should be reported in a form which clearly identifies the candidate to whom they relate.

Committees which have not heretofore filed should additionally file a registration statement under 2 U.S.C. Section 433. Committees which support only candidates for the House of Representatives should register with the Clerk thereof. Committees which support only candidates for the Senate should register with the Secretary thereof. All other committees should register with the Commission.

The Commission further advises that persons subject to 2 U.S.C. 434(e) ("Contribution or expenditures by persons other than political committees or candidates") should file the January 31, 1976, report with the Federal Election Commission, 1325 K Street, N.W., Washington, D.C. 20463.

Interim reporting forms published by the Commission should be used to file the January 31 report. If needed, these forms may be obtained from the Commission.

Dated: December 9, 1975.

THOMAS B. CURTIS,
Chairman for the
Federal Election Commission.

WEDNESDAY, DECEMBER 17, 1975

PART IV:

FEDERAL ENERGY ADMINISTRATION

OLD OIL ALLOCATION PROGRAM

Entitlement Notice for October 1975

V40243 DEC 17 75 XUM

FEDERAL ENERGY ADMINISTRATION

OLD OIL ALLOCATION PROGRAM

Entitlement Notice for October 1975

In accordance with the provisions of 10 CFR 211.67 relating to FEA's old oil allocation program, the monthly notice specified in § 211.67(i) is hereby published.

Based on reports submitted to FEA by refiners as to crude oil receipts and crude oil runs to stills for October 1975 and an application of the entitlement adjustment for small refiners provided in 10 CFR 211.67(e), the adjusted national old oil supply ratio for October 1975 is calculated to be .363629.

The issuance of entitlements for the month of October 1975 to refiners is set forth in the Appendix below to this notice. The Appendix below lists the name of each refiner to which entitlements have been issued, the number of entitlements issued to each such refiner, and the number of barrels of old oil included in each such refiner's adjusted crude oil receipts.

Pursuant to 10 CFR 211.67(i)(4), FEA hereby fixes the price at which entitlements shall be sold and purchased for the month of October 1975 at $8.62, which is the exact differential as reported for the month of October between the weighted average costs to refiners of old oil and of new, released, stripper well and imported crude oil.

In accordance with 10 CFR 211.67(b), each refiner that has been issued fewer entitlements for the month of October 1975 than the number of barrels of old oil included in its adjusted crude oil receipts is required to purchase a number of entitlements for the month of October 1975 equal to the difference between the number of barrels of old oil included in those receipts and the number of entitlements issued to and retained by that refiner. Refiners which have been issued a number of entitlements for the month of October 1975 in excess of the number of barrels of old oil included in their adjusted crude oil receipts for October 1975 shall sell such entitlements to refiners required to purchase entitlements. In addition, certain refiners are required to purchase or sell entitlements to effect corrections for reporting errors for September 1975 pursuant to 10 CFR 211.67(i)(5). No corrections for reporting errors for months prior to September 1975 are reflected in the listing as FEA intends to effect these corrections through modifications to the program to be issued in the near future.

The listing specifies a negative volume of old oil receipts as to one refiner due to corrective adjustments. The total number of entitlements issued to that refiner under the listing includes the number specified in the "issued" column, as well as a number of entitlements equal to the number of barrels of old oil shown as the negative volume.

The listing of refiners' old oil receipts contained in the Appendix reflects any adjustments made by FEA pursuant to § 211.67(h).

The listing of entitlement issuances contained in the Appendix also reflects relief granted by FEA's Office of Exceptions and Appeals. The following refiners are not shown in the listing due to their having been exempted from the entitlement purchase requirements of the program under exception decisions or stays: Fletcher, Good Hope, J&W, Laketon, Midland, Navajo, N-Amer-Petro, OKC, Thagard and Young. The aggregate volume of old oil receipts for these firms for October 1975 was 2,275,882 barrels, which was not taken into account for purposes of making the calculations in the listing.

The total number of entitlements required to be purchased and sold under this notice is 18,189,988.

Payment for entitlements required to be purchased under 10 CFR 211.67(b) for October 1975 must be made by December 31, 1975. On or prior to January 10, 1976, each firm which is required to purchase or sell entitlements for the month of October shall file with FEA the monthly transaction report specified in 10 CFR 211.66(i) certifying its purchases and sales of entitlements for the month of October. FEA will mail monthly transaction report forms for the month of October to reporting firms in December 1975. FEA requests that firms which have been unable to locate other firms for required entitlement transactions by December 31, 1975 contact FEA at 202–634–7615 to expedite consummation of these transactions. For firms that have failed to consummate required entitlement transactions on or prior to December 31, 1975, FEA may direct sales and purchases of entitlements pursuant to the provisions of 10 CFR 211.67(j).

FEA may revise this notice in the event that the Energy Policy and Conservation Act is enacted in a form that requires adjustments to October entitlement issuances with respect to purchase obligations of small refiners. If any such revision of this notice is required, FEA will so advise all firms named in the Appendix hereto prior to December 31, 1975.

This notice is issued pursuant to Subpart G of FEA's regulations governing its administrative procedures and sanctions, 10 CFR Part 205. Any person aggrieved hereby may file an appeal with FEA's Office of Exceptions and Appeals in accordance with Subpart H of 10 CFR Part 205. Any such appeal shall be filed on or before January 16, 1976.

Issued in Washington, D.C., on December 12, 1975.

MICHAEL F. BUTLER,
General Counsel.

THIS HANDY REFERENCE IS A "MUST" ON YOUR BOOKSHELF!

1975/1976 EDITION

Whatever happened to the Director of Liquidation? (page 693)

Which agencies have programs concerning American Indians? (page 817)

What is SPARS? (page 762)

The answers to these and many more intriguing questions concerning the Federal Government can be found in the *U.S. Government Manual*.

This official guidebook provides useful information about a wide variety of programs and activities within the three branches of Government, including:

- Agency programs, functions, key officials, and a "Sources of Information" section
- Federal regional government system
- A historical reference to Federal agencies and functions
- Bicentennial activities and programs

This handbook is an excellent reference tool for teachers, students, librarians, businessmen, lawyers, and citizens interested in current information about the U.S. Government.

NOTE: There were no items published after October 1, 1972, that are eligible for inclusion in the list of RULES GOING INTO EFFECT TODAY.

List of Public Laws

This is a listing of public bills enacted by Congress and approved by the President, together with the law number, the date of approval, and the U.S. Statute citation. The list is kept current in each issue of the Federal Register and copies of the laws may be obtained from the U.S. Government Printing Office.

H.R. 5197..... Pub. L. 94–150
An act to authorize the employment of certain foreign citizens on the vessel Seafreeze Atlantic, Official Number 517242
(Dec. 15, 1975; 89 Stat. 807)

S. 240..... Pub. L. 94–151
An act to amend the Act entitled "An Act granting a charter to the General Federation of Women's Clubs"
(Dec. 15, 1975; 89 Stat. 809)

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5286. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 14885; Amdt. 39-2474]

PART 39—AIRWORTHINESS DIRECTIVES

British Aircraft Corporation Viscount Models 744, 745D, and 810 Airplanes

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring an electrical back-up propeller feathering system to the manual propeller feathering system on British Aircraft Corporation Viscount Models 744, 745D and 810 airplanes was published in the FEDERAL REGISTER on August 6, 1975, (40 FR 33051).

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

BRITISH AIRCRAFT CORPORATION. Applies to British Aircraft Corporation (BAC) Viscount Models 744, 745D and 810 airplanes, certificated in all categories.

Compliance is required within the next 300 hours' time in service after the effective date of this AD, unless already accomplished.

To prevent failure of propeller feathering, install an electrical back-up to the primary manual feathering system in accordance with the instructions contained in BAC Bulletin-For-Modification No. FG.2122, dated February 11, 1972, (for Viscount Model 810 airplanes), or BAC Bulletin-For-Modification No. D.3245, dated February 11, 1972 (for Viscount Models 744 and 745D airplanes), as appropriate, or an equivalent of either approved by the Chief, Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Region, FAA-American Embassy, APO New York 09667.

This amendment becomes effective on January 19, 1976.

Issued in Washington, D.C., on December 11, 1975.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

[FR Doc. 75-34076 Filed 12-17-75;8:45 am]

[Docket No. 14849; Amdt. 39-2473]

PART 39—AIRWORTHINESS DIRECTIVES

Hawker Siddeley Aviation Ltd. DH-104 Series Airplanes

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring replacement of the adjusting screws of the nose gear and main gear on Hawker Siddeley Aviation Ltd. DH-104 airplanes was published in the FEDERAL REGISTER on August 1, 1975, (40 FR 32342).

Interested persons have been afforded the opportunity to participate in the making of the amendment. No objections were received.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

HAWKER SIDDELEY AVIATION LTD. Applies to DH-104 Series airplanes certificated in all categories except those modified in accordance with Hawker Siddeley Modification 1723.

Compliance is required within the next 250 hours' time in service after the effective date of this AD, unless already accomplished.

To prevent cracking of the nose gear and main gear adjusting screws, replace the three adjusting screws, P/N 4U.493, with new adjusting screws, P/N 4U.567, in accordance with paragraph No. 5 of Hawker Siddeley Technical News Sheet No. 231, dated March 19, 1973, or with FAA-approved equivalent parts and procedure.

This amendment becomes effective on January 19, 1976.

Issued in Washington, D.C., on December 11, 1975.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

[FR Doc.75-34077 Filed 12-17-75;8:45 am]

[Docket No. 14868; Amdt. 39-2475]

PART 39—AIRWORTHINESS DIRECTIVES

Hawker Siddeley Aviation Ltd., DH-114 Series Airplanes

A proposal to amend the Federal Aviation Regulations to include an airworthiness directive requiring the replacement of the nose gear adjusting screw with an improved part on Hawker Siddeley Aviation Ltd., DH-114 series airplanes was published in the FEDERAL REGISTER on August 5, 1975, (40 FR 32837).

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

HAWKER SIDDELEY AVIATION. Applies to DH-114 series airplanes certificated in all categories except those modified in accordance with Hawker Siddeley Modification 1610.

Compliance required within the next 400 hours' time in service after the effective date of this AD unless already accomplished.

To prevent cracking of the nose gear adjusting screw, replace P/N 4U.493 with P/N 4U.567 in accordance with paragraph No. 5 of Hawker Siddeley Technical News Sheet No. U.16, dated March 19, 1973, or with an FAA-approved equivalent part and procedure.

This amendment becomes effective on January 19, 1976.

Issued in Washington, D.C., on December 10, 1975.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

[FR Doc.75-34075 Filed 12-17-75;8:45 am]

[Docket No. 14870; Amdt. 39-2478]

PART 39—AIRWORTHINESS DIRECTIVES

Pilatus Aircraft Limited Model PC-6 Airplanes

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring replacement of aluminum fuel line and elbow fittings with stainless steel parts on Pilatus Model PC-6 airplanes manufactured by Pilatus Aircraft Ltd. was published in the FEDERAL REGISTER on August 5, 1975 (440 FR 32838).

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of

V 40 244 DEC 18 75 XUM

section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

PILATUS AIRCRAFT LTD. Applies to Pilatus Model PC-6 airplanes, serial numbers 685 and below (all variants) manufactured by Pilatus Aircraft Ltd., powered by Lycoming OSO-480-B1A6 engines.

NOTE: This AD does not apply to Pilatus PC-6 airplanes manufactured by Fairchild Hiller.

Compliance is required within the next 100 hours' time in service after the effective date of this AD, unless already accomplished.

To prevent hazardous fuel leaks from developing at the elbow fittings connecting the fuel line to the fuel pump and carburetor and to prevent a broken fuel line, accomplish the following:

(a) Replace aluminum fittings (AN 822-8D and AN 823-8D) with stainless steel fittings (MS 20822-8C and MS 20823-8C), or FAA-approved equivalents.

(b) Replace aluminum fuel line P/N 6238.-0094.80 with a stainless steel fuel line P/N 6238.0094.80C, or an FAA-approved equivalent.

This amendment becomes effective on January 19, 1976.

Issued in Washington, D.C., on December 11, 1975.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

[FR Doc.75-34072 Filed 12-17-75;8:45 am]

[Docket No. 14818; Amdt. 39-2477]

PART 39—AIRWORTHINESS DIRECTIVES

Societe Nationale Industrielle Aerospatiale Alouette II and Alouette III Helicopters

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring a one-time inspection, repair, and replacement, as necessary, of the blade spars of the main rotor blades on certain Societe Nationale Industrielle Aerospatiale Alouette helicopters (S.N.I.A.S.) was published in the FEDERAL REGISTER on July 29, 1975, (40 FR 31806).

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

SOCIETE NATIONALE INDUSTRIELLE AEROSPATIALE. Applies to Alouette helicopter Models SE-3130, SE-313B, SA-3180, SA-318B, SA-318C, SA-315B, SE-3160, SA-316B, SA-319B, and SA-316C incorporating 3130 series main rotor blade(s) with serial number 9554 and lower, and 3160 series main rotor blade(s) with serial number 6999 and lower.

Compliance is required within the next 100 hours' time in service after the effective date of this AD, unless already accomplished in accordance with Lama Service Bulletin No. 01.04 for the Model SA-315B, or Alouette Service Bulletin No. 01.30 for the other designated models.

To prevent failure of the main rotor blades due to corrosion, inspect the blade spar in the section between the attachment fitting and root end rib for corrosion, repair as necessary, and return to service, in accordance with paragraphs 2 B(2), 2 B(3), 2 B(4) and 2 C of SGAC-approved Alouette Service Bulletin No. 01.30, as amended August 30, 1972, or an equivalent approved by the Chief, Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Region.

This amendment becomes effective on January 19, 1976.

Issued in Washington, D.C., on December 10, 1975.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

[FR Doc.75-34073 Filed 12-17-75;8:45 am]

[Docket No. 14882; Amdt. 39-2476]

PART 39—AIRWORTHINESS DIRECTIVES

Societe Nationale Industrielle Aerospatiale Model SA-341G "Gazelle" Helicopter

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring modification of the fuel system of the Aerospatiale Model SA-341G "Gazelle" helicopter was published in the FEDERAL REGISTER on August 6, 1975 (40 FR 33050).

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

SOCIETE NATIONALE INDUSTRIELLE AEROSPATIALE. Applies to Model SA-341G "Gazelle" helicopters, certificated in all categories, serial numbers 1062 and lower, incorporating standard fuel tank P/N 341A.-55.1065.20, or .22 or .24.

Compliance is required within the next 100 hours' time in service after the effective date of this AD, unless already accomplished in accordance with Gazelle Service Bulletin No. 28.01.

To prevent interruption of fuel flow to the engine during execution of approved flight maneuvers, modify the fuel system to provide for increased fuel sump capacity and an improved booster pump location in accordance with subparagraph 2(B) of Gazelle Service Bulletin No. 28.01, as revised November 21, 1973, or an FAA-approved equivalent.

This amendment becomes effective on January 19, 1976.

Issued in Washington, D.C., on December 11, 1975.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

[Airspace Docket No. 75-WE-24]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Extension of Federal Airway

On November 6, 1975, a notice of proposed rule making (NPRM) was published in the FEDERAL REGISTER (40 FR 51655) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would extend VOR Federal Airway No. 293 from Bryce Canyon, Utah, to Grand Canyon, Ariz., via the Page, Ariz., VOR.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. We received one response to the NPRM in which the commentator posed no objection to the proposal.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., January 29, 1976, as hereinafter set forth.

Section 71.123 (41 FR 307) is amended as follows:

In V-293 "From Bryce Canyon, Utah;" is deleted and "From Grand Canyon, Ariz., via Page, Ariz.; INT Page 340° and Bryce Canyon, Utah., 120° radials; Bryce Canyon;" is substituted therefore.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on December 11, 1975.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

[FR Doc.75-34079 Filed 12-17-75;8:45 am]

[Airspace Docket No. 75-WA-19]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Renumbering of Airway Segments

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to renumber certain segments of airways which cross the United States/Canadian border.

The Canadian Ministry of Transport has asked that the United States portion of alternate airway segments, going to/from Canada, be renumbered. It is necessary that this action be effective March 25, 1976, at the same time that all alternate airways in Canada are renumbered.

Because this action merely renumbers existing routes without changing any airspace, it is a minor matter on which the public would have no particular desire to comment. Therefore, notice and public procedure thereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., March 25, 1976, as hereinafter set forth.

Section 71.123 (41 FR 307) is amended as follows:

a. In V-14 "Buffalo, N.Y. including a N alternate from Erie to Buffalo via INT Erie 043° and Buffalo 259° radials;" is deleted and "Buffalo;" is substituted therefor.

b. In V-31 "Rochester," is deleted and "Rochester; INT Rochester 289° and Kleinburg, Ont., 133° radials; Kleinburg. The airspace within Canada is excluded." is substituted therefor.

c. In V-34 "Rochester, including a south alternate via INT of Kleinburg 133° and Rochester 289° radials;" is deleted and "Rochester;" is substituted therefor.

d. In V-36, all before "Elmira, N.Y.;" is deleted and "From Sault Ste Marie, Mich., to the INT of the Sault Ste Marie 110° radial and the United States/Canadian border. From Toronto, Ont., via INT Toronto 141° and Buffalo, N.Y., 312° radials; Buffalo;" is substituted therefor.

e. In V-42 "Akron, Ohio, including an E alternate from Windsor, Ont., Canada, to Akron via INT Windsor 134° and Akron 312° radials." is deleted and "to Akron, Ohio." is substituted therefor.

f. In V-43 "to Erie, Pa." is deleted and "Erie, Pa.; INT Erie 043° and Buffalo, N.Y., 259° radials; to Buffalo." is substituted therefor.

g. In V-90 "Dunkirk, including a N alternate from INT Windsor 063° and Dunkirk 266° radials to Dunkirk via Aylmer, Ont." is deleted and "Dunkirk." is substituted therefor.

h. In V-164 "From Buffalo, N.Y.," is deleted and "From Toronto, Ont., via Toronto 141° and Buffalo, N.Y. 312° radials; Buffalo;" is substituted therefor. Also "The airspace within Canada is excluded." is added after "East Texas."

i. In V-218 all after "Pontiac, Mich.;" is deleted and "INT Pontiac 112° and Windsor, Ont., 320° radials; Windsor; INT Windsor 134° and Akron, Ohio, 312° radials; to Akron. The airspace within Canada is excluded." is substituted therefor.

j. In V-300 "Wiarton, Ontario, Canada, including a N alternate." is deleted and "to Wiarton, Ont., Canada." is substituted therefor.

k. V-464 is amended to read as follows: "From the INT of Windsor, Ont., Canada, 083° and Aylmer, Ont., Canada, 235° radials, via Aylmer; Dunkirk, N.Y.; to Geneseo, N.Y."

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on December 11, 1975.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

[Docket No. 15243; Amdt. No. 999]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Recent Changes and Additions

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are dscribed in FAA Forms 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 F.R. 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Information Center, AIS-230, 800 Independence Avenue SW., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft, or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or cancelling the following VOR-VOR/DME SIAPs, *effective January 29, 1976.*

Bishop, CA—Bishop Arpt., VOR-A, Amdt. 1
Clinton, OK—Clinton-Sherman Arpt., VOR Rwy 35, Amdt. 2
Concord, CA—Buchanan Field, VOR Rwy 19R, Amdt. 7
Demopolis, AL—Demopolis Muni. Arpt., VOR/DME-A, Original
Ellensburg, WA—Bowers Field, VOR-B, Original

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

PART 113—STANDARD REQUIREMENTS

Miscellaneous Amendments

• Purpose: To revise the test procedures for testing live vaccines for purity. •

On November 6, 1975, a notice of proposed amendments to Part 113 was published in the FEDERAL REGISTER at 40 FR 51646.

Bacterial or fungicidal contamination of live virus vaccines is detected by using the test procedures prescribed in § 113.27. The authorized retests using only 10 samples creates a doubt as to the accuracy of the results obtained. This doubt is eliminated for all practical purposes when 20 samples are used as provided for in these amendments.

The test for bacterial contamination prescribed in § 113.26 for use in testing for bacteria in products other than live virus vaccines calls for incubation for 14 days. The test in § 113.27 calls for incubation for only 7 days. Experience has shown that some bacterial contamination is not determined until the second week of incubation. These amendments increase the incubation period to 14 days in § 113.27 to conform to the requirements in § 113.26.

These amendments change the requirements of the diluent to be used in the test from "sterile distilled water" to "sterile purified water." This change permits the use of water which has been purified by means other than distillation.

Comments were received from four licensees. Two recommended publication in final form as proposed and the other two recommended relaxation of the test by changing either the conditions for a satisfactory test or for a retest. The recommended changes could not be justified and were rejected.

After due consideration of all relevant matters, including the proposals set forth in the aforesaid notice of rulemaking, and the comments and views submitted by interested persons, and pursuant to the authority contained in the Virus-Serum-Toxin Act of March 4, 1913, (21 U.S.C. 151-158), the amendments of Part 113 of Subchapter E, Chapter 1, Title 9 of the Code of Federal Regulations, as contained in the aforesaid notice are hereby adopted.

§ 113.27 is amended by revising paragraphs (a) (3) (ii), (a) (4), (a) (7) (i) and (ii), (c) (1), (d) (2), (d) (2) (i), (ii) and (vii), and adding a new paragraph d) (2) (viii) to read:

§ 113.27 Detection of viable bacteria and fungi in live vaccines.

• • • • • •

(a) • • •

(3) • • •

(ii) Desiccated vaccine shall be rehydrated as recommended on the label with the accompanying diluent or with sterile purified water.

(4) To test for bacteria, 0.2 ml of vaccine from each final container sample shall be placed into a corresponding individual vessel containing a minimum of 120 ml of Soybean Casein Digest Medium. Additional medium shall be used if the determination made as required in § 113.25(d) indicates the need for a greater dilution of the biological product. Incubation shall be at 30° to 35° C for 14 days.

• • • • • •

(7) • • •

(i) If growth is found in two or three test vessels of the initial test, one retest to rule out faulty technique may be conducted using 20 unopened final container samples.

(ii) If no growth is found in 9 or 10 of the test vessels in the initial test or 19 or 20 of the test vessels in the retest, the serial or subserial meets the requirements of the test.

• • • • • •

(c) • • •

(1) To test for bacteria, 0.2 ml of the sample of Master Seed Virus shall be placed in 10 individual vessels each containing a minimum of 120 ml of Soybean Casein Digest Medium. Incubation shall be at 30° to 35° C for 14 days.

• • • • • •

(d) • • •

(2) Test procedures in this paragraph shall be followed.

(i) Ten final container samples of completed product from each serial and each subserial shall be tested using the medium prescribed in paragraph (d) (1) of this section.

(ii) Immediately prior to starting the test, frozen liquid vaccine shall be thawed, and lyophilized vaccine shall be rehydrated to the quantity recommended on the label using the accompanying sterile diluent or sterile purified water. Product recommended for mass vaccination shall be rehydrated at the rate of 30 ml sterile purified water per 1000 doses.

• • • • • •

(vii) If the average count at either incubation condition for a serial or subserial exceeds one colony per dose for vaccines recommended for poultry or 10 colonies per dose for vaccines recommended for other animals, one retest to rule out faulty technique may be conducted using 20 unopened final containers.

(viii) If the average count at either incubation condition of the final test for a serial or subserial exceeds one colony per dose for vaccines recommended for poultry or 10 colonies per dose for vaccines recommended for other animals, the serial or subserial is unsatisfactory.

(37 Stat. 832-833; 21 U.S.C. 151-158)

Effective date: These amendments take effect January 19, 1976.

Done at Washington, DC, this 15th day of December, 1975.

PIERRE A. CHALOUX,
Veterinary Services, Animal and Plant Health Inspection Service.

[FR Doc.75-34145 Filed 12-17-75;8:45 am]

CHAPTER III—ANIMAL AND PLANT HEALTH INSPECTION SERVICE (MEAT AND POULTRY PRODUCTS INSPECTION), DEPARTMENT OF AGRICULTURE

PART 351—CERTIFICATION OF TECHNICAL ANIMAL FATS FOR EXPORT

Voluntary Certification of Certain Rendered Animal Fats for Export

• Purpose. The purpose of this document is to establish a program for certifying certain rendered animal fat for export. •

Pursuant to sections 203 and 205 of the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1622, 1624) the Animal and Plant Health Inspection Service hereby promulgates new regulations, to appear in 9 CFR Part 351, providing for certification, upon a voluntary fee basis, of the class and quality of certain rendered animal fats for export to foreign countries.

Statement of considerations. In response to changes in some foreign countries' requirements regarding the source materials of rendered animal fats they import, the Department of Agriculture is establishing, by these regulations, a new voluntary export certification program. This program is designed to facilitate this U.S. export trade by providing certification as to the source materials of certain rendered animal fats.

Therefore, the Table of Contents for Title 9, Chapter III, Subchapter B, is amended to show a new Part 351, and regulations to appear in Part 351 are issued to read as follows:

DEFINITIONS

Sec.
351.1 Meaning of words.
351.2 Terms defined.

SCOPE OF CERTIFICATION SERVICE

351.3 Kind of service.

PROCEDURE FOR OBTAINING SERVICE: ADMINISTRATION OF PROGRAM

351.4 Application for certification service.
351.5 Conditions of eligibility for certification service; review of applications.
351.6 Official number.
351.7 Administration of certification service program.

FEES

351.8 Charges for surveys of plants.
351.9 Charges for examinations.

FACILITIES AND OPERATIONS

351.10 Facilities.
351.11 Identification and separation of technical animal fats for certification and materials for use therein; removal of wrappers, etc.; cleaning of equipment.
351.12 Circuit supervisor to be informed when plant operates.
351.13 Inspectors to have access to certified plants at all times.
351.14 Processes to be supervised; extent of examinations.
351.15 Reports of violations.

TRANSPORTATION AND EXPORTATION OF CERTIFIED TECHNICAL ANIMAL FAT

351.16 Certificate required for shipments of technical animal fat.
351.17 Identification required.

PROHIBITIONS

351.18 Official identifications; unauthorized use.

REMEDIES; PENALTIES

351.19 Refusal of certification for specific lots.
351.20 Withdrawal of service from certified plants.

APPEALS

351.21 Appeals.

RECORDS AND REPORTS

351.22 Certified plants to maintain records and make reports; access to records.

AUTHORITY: (Sec. 203, 205, 60 Stat. 1087 and 1090, as amended, 7 U.S.C. 1622, 1624)

DEFINITIONS

§ 351.1 Meaning of words.

Words used in this Part in the singular form shall be deemed to import the plural, and vice versa, as the case may demand.

§ 351.2 Terms defined.

When used in this Part, unless the context otherwise requires:

(a) "Department" means the United States Department of Agriculture.

(b) "Program" means the Meat and Poultry Inspection Program of the Animal and Plant Health Inspection Service of the Department.

(c) "Administrator" means the Administrator of the Animal and Plant Health Inspection Service of the Department, or any officer or employee of the Department to whom authority has heretofore been delegated or may hereafter be delegated to act in his stead.

(d) "Circuit supervisor" means an employee of the Program assigned to supervise and perform official work in a circuit. Such employee is assigned by and reports directly to the Administrator or person designated by him.

(e) "Inspector" means an employee of the Program or a cooperating State.

(f) "Circuit" means one or more inspected plants assigned to a circuit supervisor.

(g) "Recognized State" means any State not designated in § 331.2 of this chapter.

(h) "Cooperating State" means any State cooperating under § 351.7 in administration of the regulations in this Part.

(i) "Inspection" means ante-mortem and post-mortem inspection by Program inspectors or inspectors of a Meat Inspection Service of a recognized State.

(j) "Animals" means cattle, sheep, swine, goats, horses, mules and other equines.

(k) "Technical animal fat" means animal fat eligible for exportation, or storage for exportation, in accordance with § 325.11 of this chapter.

(l) "Certified technical animal fat" means technical animal fat certified for export or storage for export under the regulations in this Part.

(m) "Tallow" means technical animal fat with a minimum titre of 40°C.

(n) "Certified plant" means any plant or storage facility preparing or storing certified technical animal fat for export, or for transfer to another certified plant or storage facility for ultimate export, and at which certification service is provided under the regulations in this Part.

(o) "Inspected and Passed" means inspected and passed under the Federal Meat Inspection Act (21 U.S.C. 601 *et seq.*) or the meat inspection laws of a recognized State.

SCOPE OF CERTIFICATION SERVICE

§ 351.3 Kind of service.

(a) Certification, in the form set forth in paragraph (b), is available under the regulations in this Part for specific lots of technical animal fat for export, if the fat was rendered from materials derived from carcasses, or parts of carcasses, that had been inspected and passed and came from animals that did not die otherwise than by slaughter under inspection. The certification will be made by a Program employee when he determines, upon the basis of examinations made by him or other inspectors, as provided in § 51.14, and information obtained by him or them from the exporter or other sources, as provided in the regulations in this Part, that the technical animal fat is eligible for certification under this section and therefore the statements to be certified are correct. The service will be available upon a voluntary fee basis in accordance with said regulations.

(b) (1) The form of Certificate for Export of Technical Animal Fats is as follows:

V 40 244 DEC 18 75 XUM

UNITED STATES DEPARTMENT OF AGRICULTURE
ANIMAL AND PLANT HEALTH INSPECTION SERVICE
MEAT AND POULTRY INSPECTION PROGRAM
WASHINGTON, D.C. 20250

CERTIFICATE FOR EXPORT OF TECHNICAL ANIMAL FATS

1. KIND OF PRODUCT
2. NET WEIGHT OF PRODUCT *(From Bill of Lading)*
3. NAME AND ADDRESS OF PLANT MAKING SHIPMENT
4. NAME AND ADDRESS OF TRANSPORTING COMPANY
CERTIFIED PLANT NO.
5. NAME OF VESSEL
6. COUNTRY OF DESTINATION
7. VESSEL NUMBER
8. NAME OF CITY WHERE LOADED
9. DATE LOADED

The Undersigned Certifies In Accordance With 9 CFR 351.3 That:

a. The product described above has been obtained by rendering raw materials, none of which were diseased, suspected of being diseased, or from dead animals.

b. The product covered by this certification has not been rendered under the continuous Federal inspection provided in the Federal Meat Inspection Act. For compliance with this certification, the plant equipment, plant conditions, and processing operations of the rendering plant(s) supplying the product entitled by this certification are subject to Federal inspection on a periodic basis as authorized by the Agricultural Marketing Act and regulations thereunder *(9 CFR Part 351)*.

10. ISSUED AT *(Name of City)*
11. DATE ISSUED
12. SIGNATURE OF USDA INSPECTOR

MP FORM 87
NOV. 1975

(2) Certified technical animal fat may be described on the certificate as "technical animal fat"; or if it is tallow, it may be described on the certificate as "Tallow" and the description may include the statement "titre not less than 40° C."

PROCEDURE FOR OBTAINING SERVICE: ADMINISTRATION OF PROGRAM

§ 351.4 Application for certification service.

Application for certification service under the regulations in this Part may be made to the Administrator by the operator of any rendering plant or storage facility at which technical animal fat is prepared or stored for export. In case of a change of ownership or change of location, a new application shall be made. Applications shall be made on forms [1] available from the Administrator and provide all information called for thereon relating to the identity of the applicant and the plant, and the nature of the plant operations, and a certification of specified facts and an agreement to comply with specified requirements.

§ 351.5 Conditions of eligibility for certification service; review of applications.

(a) To be eligible for certification service under the regulations in this Part, the operator of a rendering plant must demonstrate that:

(1) He operates a rendering plant which will receive materials derived from inspected and passed carcasses, or parts of carcasses, of animals that did not die otherwise than by slaughter under inspection, (i.e., not "dead animals"); and such source materials will be rendered at the plant into technical animal fat eligible for export, or storage for export, in accordance with the regulations in this Part;

(2) The source materials and the rendered technical animal fat described in subparagraph (1) will be identified and kept separated at all times from other products; and

(3) He will comply with the applicable regulations in this Part.

(b) To be eligible for certification service under the regulations in this Part, the operator of a storage facility must demonstrate that:

(1) He operates a storage facility that will receive for storage certified technical animal fat shipped directly from a certified rendering plant for storage for export and he will keep each such shipment identified and separated from other such shipments, and from other products that are not certified, and he will receive such fat only if it is accompanied by MP Form 85, as required by § 351.17.

(2) He will comply with the applicable regulations in this Part.

(c) Each applicant for certification service must file with the Administrator, with the application for service, a written description of the procedures to be used for receiving, identifying, processing, storing, and otherwise handling technical animal fat, and materials for use in the preparation thereof, at the plant or storage facility involved, and for shipping technical animal fat from the plant or facility and storing and exporting such technical animal fat, and a written description of the shipping, receiving, and inventory records maintained for technical animal fat.

(d) The Administrator will determine, on the basis of all information available to him, whether the arrangements at the plant or storage facility are such as will assure that certifications of technical animal fat will be correct, and, if so, will grant the application for certification service. An applicant will be given an opportunity to present his views prior to refusal of the service.

[1] Copy filed as part of the original document.

§ 351.6 Official number.

The Administrator will assign a certified technical animal fat plant number to each plant granted service. Such number shall be preceded by the letter "C" and be used to identify all certified technical animal fat prepared or stored by the plant.

§ 351.7 Administration of certification service program.

(a) The regulations in this Part shall be administered by the circuit supervisor for the jurisdiction in which is located the certified plant or plants for which application for certification service is made, and such assistants as may be necessary will be assigned by the Administrator.

(b) The Administrator may enter into a cooperative agreement with any recognized State for the conduct by State employees of any surveys, examinations, and other activities involved in the administration of the regulations in this Part. However, certifications under these regulations may be issued only by Program employees, as provided in § 351.3.

FEES

§ 351.8 Charges for surveys of plants.

Applicants for the certification service shall pay the Department for salary costs at $12.40 per hour, travel and per diem allowances at rates currently allowed by the Government Travel Regulations, and other expenses incidental to the initial survey of the rendering plants or storage facilities for which certification service is requested.

§ 351.9 Charges for examinations.

(a) The hourly fees to be charged and collected by the Administrator shall be $12.40 per hour for examinations, as provided for in § 351.14, and $19.20 per hour for any laboratory service required to determine the eligibility of any technical animal fat for certification under the regulations in this Part. Such fees shall be charged for the time required to render such service, including, but not limited to, the time required for the travel of the inspector or inspectors in connection therewith.

(b) Charges may also be made to cover the actual cost of travel and per diem allowance at rates currently allowed by the General Services Administration, and other expenses incurred by the Department in connection with such examinations and laboratory service.

FACILITIES AND OPERATIONS

§ 351.10 Facilities.

(a) Facilities for the preparation, identification, and storage of the technical animal fat to be certified shall be furnished and maintained by the certified plant in accordance with this section.

(b) The operator of the certified plant shall provide at the plant, rooms, compartments, and equipment needed to maintain the identity of certified technical animal fats and materials used in their preparation, and separation of such

articles from other products. Such rooms, compartments, and equipment shall be conspicuously marked with the phrase "Certified Technical Animal Fat" whenever they contain these fats.

§ 351.11 Identification and separation of technical animal fats for certification and materials for use therein; removal of wrappers, etc.; cleaning of equipment.

(a) All technical animal fat to be offered for certification under this Part and materials to be used in the preparation of such fat, and all certified technical animal fat, shall be identified and kept separate from other products from the time of receipt at a certified plant and throughout processing or handling at such plant. All wrappers and packaging shall be removed from the source materials to the fullest extent practicable before the materials are rendered at the plant.

(b) If a plant's operations are within the provisions of § 351.14(b)(3), all equipment shall be cleaned before it is used for receiving, preparation, or storage of certified technical animal fats or material to be used in preparation of such fats. Such cleaning shall be done in such manner as to prevent contamination of such certified fats or source material with materials that are unacceptable under § 351.3.

§ 351.12 Circuit supervisor to be informed when plant operates.

The operator of each certified plant shall inform the circuit supervisor, in advance, when the plant's work schedule will include preparing technical animal fats for certification and identify the approximate days and hours when operations will begin and end.

§ 351.13 Inspectors to have access to certified plants at all times.

For the purpose of administering the regulations in this Part, inspectors shall have access at all times by day or night to every part of a certified plant.

§ 351.14 Processes to be supervised; extent of examinations.

(a) All processes used in the preparation of certified technical animal fats at any certified plant shall be subject to supervision by an inspector. Certified plants shall not prepare any technical animal fat for certification under the regulations in this Part, except in accordance with such regulations.

(b) Supervision, ranging from full-time coverage of an entire process to one or more reviews per month, to determine a plant's compliance with the regulations in this Part will be maintained. A circuit supervisor may increase the frequency of reviews whenever he deems necessary to assure the validity of certifications under the regulations in this Part. Usual coverage of individual rendering plants will be as follows:

(1) Coverage shall be at least once a month if the plant consistently handles only raw materials acceptable under § 351.3 for the preparation of certified technical animal fat and the plant operator, in writing, certifies that he is maintaining this procedure.

(2) Coverage shall be at least once a week if the plant consistently handles some raw materials that are acceptable, and some that are unacceptable, under § 351.3, for the preparation of certified technical animal fat, uses separate equipment for processing, and uses separate rooms, compartments, and equipment for receiving and storing the respective types of raw materials and technical animal fats, and the plant operator, in writing, certifies that he is maintaining this complete physical separation procedure.

(3) Coverage shall be fulltime during receiving of raw materials and their preparation into certified technical animal fat, if the plant handles some raw materials that are acceptable, and some that are unacceptable, under § 351.3, for the preparation of certified technical animal fat, and uses the same rooms, compartments, and equipment, with only time separation between receiving, processing, and storing the respective types of raw materials and technical animal fats.

§ 351.15 Reports of violations.

Inspectors shall report to the circuit supervisor any apparent violations of the regulations in this Part or the Federal Meat Inspection Act or regulations thereunder (subchapter A of this chapter) which occur at certified plants, or elsewhere, within their knowledge. The circuit supervisor shall report such actions to the Administrator through appropriate channels.

TRANSPORTATION AND EXPORTATION OF CERTIFIED TECHNICAL ANIMAL FAT

§ 351.16 Certificate required for shipments of technical animal fat.

No certified plant shall export any certified technical animal fat unless the shipment is accompanied by a certificate issued under § 351.3.

§ 351.17 Identification required.

Certified technical animal fats being exported directly from a certified plant or transferred between certified plants for storage for export are subject to the requirements of § 325.11 of this chapter. In addition, such shipments between certified plants shall be accompanied by MP Form 85 (Declaration to Accompany Technical Animal Fats Between Certified Technical Animal Fat Plants) [1] prepared by the operator of the certified plant from which shipment is made, certifying that the product has been obtained by rendering raw materials derived from federally or State inspected and passed carcasses, or parts of carcasses. Technical animal fat described on MP Form 85 as tallow must meet the definition of "Tallow" in § 351.2.

PROHIBITIONS

§ 351.18 Official identifications; unauthorized use.

(a) The form of certification set forth in § 351.3 and the term "Certified Technical Animal Fat" are official identifications for purposes of the Agricultural Marketing Act of 1946, as amended, and shall not be falsely made, issued, altered, forged, or counterfeited, or used for purpose of misrepresentation or deception.

(b) No container which bears or is to bear any designation as certified technical animal fat shall be filled in whole or in part, except with technical animal fats which have been certified and identified in compliance with this Part.

REMEDIES: PENALTIES

§ 351.19 Refusal of certification for specific lots.

If an inspector has reason to believe that a lot of technical animal fat is ineligible for certification under § 351.3, or any materials to be used in a lot of technical animal fat would make the technical animal fat ineligible for such certification, certification of the lot shall be withheld pending final determination by the circuit supervisor. The operator of the plant shall be afforded an opportunity to demonstrate the eligibility of the lot for certification before the final determination is made.

§ 351.20 Withdrawal of service from certified plants.

(a) After opportunity for hearing has been accorded the operator of a certified plant, the certification service, provided for in this Part, may be withdrawn from such plant in accordance with the applicable rules of practice, if it is determined that:

(1) The operator, or his employee or agent:

(i) Has made any willful misrepresentation or engaged in any fraudulent or deceptive practice in connection with the service;

(ii) Has interfered with or obstructed any Program employee or other inspector in the performance of his duties, under the regulations in this Part, by intimidation, threats, or other improper means; or

(iii) Has violated section 203(h) of the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1622(h)), or any regulation in this Part; or

(2) Facilities or procedures at the certified plant do not conform to the arrangements approved by the Administrator under § 351.5.

(b) Pending final determination of the matter, the Administrator may summarily suspend the certification service at any certified plant when he has reason to believe that there is cause for withdrawal of the service under paragraph (a).

APPEALS

§ 351.21 Appeals.

Any decision by an employee of the Program may be appealed by any adversely affected person to the immediate supervisor of such employee. Decisions of other inspectors may be appealed to the circuit supervisor.

RECORDS AND REPORTS

§ 351.22 Certified plants to maintain records and make reports; access to records.

(a) Each day a certified plant prepares, receives, or ships certified technical animal fat or receives material for use in such product, the operator of the plant shall prepare records identifying

[1] Copy filed as part of the original document.

V 40 244 DEC 18 75 XUM

the kinds and quantities of such materials and technical animal fats received, the number of pounds of certified technical animal fat prepared or shipped, and an up-to-date inventory of certified technical animal fats in storage. The operator of each certified plant shall include in the records required by this section all MP Forms 85 which he receives with shipments of certified technical animal fat from any other certified plant. These records shall be maintained by the operator of each certified plant and made available to an inspector, upon request, for examination and copying, for a period of 1 year after the date of the transaction involved.

(b) The operator of each certified plant shall provide such relevant information as any inspector may request to enable him to determine whether any technical animal fats are eligible for certification and whether the plant is eligible for certification service under the regulations in this Part.

(Sec. 203, 205, 60 Stat. 1087 and 1090, as amended, 7 U.S.C. 1622, 1624; 37 FR 28464, 28478; 40 FR 50455)

The reporting and/or recordkeeping requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

Since the regulations provide for a purely voluntary service which has been requested by certain exporters and the regulations should be made effective as soon as possible to be of maximum benefit to all exporters and domestic processors of the rendered animal fats for export and other affected persons, it is found upon good cause that notice and other public rulemaking proceedings in connection with issuance of the regulations are impracticable and unnecessary, and good cause is found for making the regulations effective less than 30 days after publication in the FEDERAL REGISTER.

The foregoing regulations shall become effective on January 5, 1976.

Done at Washington, D.C., on December 12, 1975.

HARRY C. MUSSMAN,
Acting Administrator, Animal and Plant Health Inspection Service.

Title 18—Conservation of Power and Water Resources

CHAPTER I—FEDERAL POWER COMMISSION

[Order No. 543; Docket No. RM75-24]

PART 3—ORGANIZATION; OPERATION; INFORMATION AND REQUESTS; MISCELLANEOUS CHANGES; ETHICAL STANDARDS

PART 260—STATEMENTS AND REPORTS (SCHEDULES)

Reporting of Producer Expenditures and Activities

DECEMBER 10, 1975.

Continuing investigation of expenditures, exploration and development activities, production, reserve additions, and revenues of natural gas producers and producing affiliates subject to the jurisdiction of the Federal Power Commission.

Order requiring the reporting of producer expenditures, exploration and development activity, production, reserve additions and revenues.

In this proceeding we adopt rules and regulations providing for the systematic collection of data and information concerning producer and producer affiliate expenditures, exploration and development activities, reserve additions, production and revenue. All persons found by the Commission to be a "natural-gas company" within the meaning of the Natural Gas Act[1] and their jurisdictional affiliates and subsidiaries as defined in 18 C.F.R. § 157.40(a) (2) of the Commission's Regulations, except as exempted herein, shall be required to file and attest to the information solicited in the attached report.

On March 13, 1975, the Commission issued a Notice of Proposed Rulemaking in Docket No. RM75-24[2] pursuant to the Administrative Procedure Act (APA), 5 U.S.C. § 551 (1970) and Sections 4, 5, 8, 10, 14, 15, and 16 of the Natural Gas Act. In this notice the Commission proposed to amend its Rules by adding a section requiring the annual filing of a report containing data related to the abovementioned areas by each person found by the Commission to be a "natural-gas company" within the meaning of the Natural Gas Act. The data was to be collected through completion of a standardized report form which was appended to the March 13, 1975, Notice of Proposed Rulemaking.

As proposed in the Notice of Rulemaking, FPC Form No. 64 contained three Schedules with attachments. As adopted, all Schedules will apply to the United States, excluding Alaska and Hawaii and will apply to Alaska separately. Schedule No. 1 will summarize total expenditures made by producers for exploration and development and production of oil and gas by type of reservoir. Schedule No. 2 is directed to data on exploration and development activity. Schedule No. 3 details production, revenue, royalty, and non-associated gas reserve data.[2a]

NEED FOR FORM NO. 64

The deepening national energy crisis and shortage of alternate domestic energy sources compels the Commission to undertake continuing broadly-based investigations of all facts and circumstances underlying the Commission's ratemaking functions established in Sections 4 and 5 of the Natural Gas Act. The logical starting point for any producer ratemaking determination made by the Commission is a consideration of the costs involved.[3] The importance of this element of a just and reasonable rate and the components thereof is discussed in our most recent determination of the nationwide rate.[4] Form No. 64 has been designed to provide us with information which will be extremely valuable in our biennial review of the Opinion No. 699-H nationwide rate for new gas and in determining possible adjustments to flowing gas prices.

Most importantly, Form No. 64 will provide a data source of information on producer expenditures, revenues, and leasing and drilling activity which is independently verifiable. Collection of this data and that to be submitted on Form Nos. 40[5] and 45[6] will permit us, in our biennial review, to rely primarily on information submitted directly to and auditable by the Commission rather than published data not open to close scrutiny.

Furthermore, no timely information on natural gas producer and producer affiliate expenditures, exploration and developmental activities, reserve additions, and revenues is collected by any Government agency on a comprehensive and correlated basis. The rules and regulations adopted herein will provide us with a continuous flow of current information to be used in evaluating the efficacy and consequences of rates established by the Commission.

FPC Form No. 64 requires submission of certain productivity data for the U.S. excluding Alaska and Hawaii for the past nine years, 1965–1973; and for Alaska for the year 1974 and thereafter. The importance of this type of information to a determination of productivity, a vital component of the costing methodology employed in Opinion No. 699-H, was set forth in Order No. 526 which promulgated Form No. 40, FPC Form No. 40, Annual Report Of Proved Domestic Gas Reserves, will provide productivity data for the initial report year and each subsequent year. The initial report of Form No. 64 will gather productivity data for several years prior to the report year of Form No. 40. Thereafter, Form No. 64 will not require productivity data (except for Alaska) so as not to duplicate Form No. 40.

Certain cost data for the U.S. excluding Alaska and Hawaii will be filed in the initial report for the years 1970–1974 and each year thereafter. Cost data for Alaska will be filed in the initial report for 1974 and each year thereafter.

COMMENTS

By our Notice of Proposed Rulemaking issued March 13, 1975, we requested submission of comments by any interested person no later than April 30, 1975. However, subsequent motions for additional time for submission of comments were filed by several parties. On April 23, 1975, we granted these motions and extended the date for filing to May 14, 1975. Fifty-four parties filed extensive comments which we have carefully considered. We have reached our decision weighing our need to know gas producer expenditures and revenue, together with leasing and drilling activity in order to discharge our statutory duty of ratemaking, against a full knowledge of the reporting burden placed upon industry.

This reporting burden is one area in which we received numerous comments. Most of the respondents stated that they would need from four to six months to complete and file Form No. 64 based upon the proposed requirement of ten years of prior data and data by the six production areas. Generally, small producers claimed that the financial burden, limited staff and detailed records make Form No. 64 an impossible task for small exploration and production companies.

With respect to the 10-year data requirement, several large producers stated that they did not retain data for more than five years while other producers indicated a shorter retention period. We recognize the problem of record unavailability. In order to secure complete cost and productivity data for eventual pricing, we are adopting the proposed 10-year requirement with respect to productivity data[4a] and are revising the reporting period for cost data to five years. This accommodation, the Commission believes, will still enable us to utilize data contained in the initial report year for immediate and meaningful averaging of costs and productivity.

Regarding the burden of requiring data by the six production areas, several respondents questioned their purpose inasmuch as ceiling rates are now being set on a national basis. We agree. Use of the area data could lead to a multiprice system based upon area new gas costs which are generally less reliable than nationwide costs. Additionally, certain problems of confidentiality would be eliminated by our not requiring area data. However, with respect to the voiced concern over confidentiality, it is appropriate at this point to reaffirm our position in Order No. 526 involving reserve data. As we stated there, we recognize that disclosure of certain information may at times be detrimental to the private interests of producers. Nevertheless, we have determined that the public right to the information outweighs respondents' proprietary interest.[7]

Small producers requested that the filing requirements be limited to producers selling jurisdictional gas over 1,000,000 Mcf or 10,000,000 Mcf annually. Consistent with the exemption stated in Form No. 40 which gathers productivity data for 1974 and each subsequent year, Form No. 64, as herein adopted, will exempt from filing the initial report all natural gas companies, which, together with their affiliate(s) produced for direct sale and for sale for resale, in interstate commerce 250,000 Mcf or less of gas at 14.73 psia and 60° Fahrenheit during the year 1974. This exemption will apply for each subsequent report only so long as the annual volume of 250,000 Mcf is not exceeded.

Several persons requested that well costs and footage be reported by the operator on a gross basis and on a completed well basis. The latter request will be granted in order to avoid dealing with data on wells in progress at the end of the report year which generally have not been determined to be a successful well or dry hole. However, we have retained our original proposal of reporting on a working interest basis for consistency and uniformity in reporting. Productivity data, consisting of reserve additions and gas well footage obtained in Form No. 40, will be reported on a working interest basis. Therefore, the drilling expenditures, related footage and productivity data for past years obtained in Form No. 64 must be reported on a working interest basis in order to correlate with the productivity data reported in Form No. 40.

Furthermore, aside from well drilling and other lease expenditures, there are many other expenditures, such as overheads, which are not recorded by the lease operator but are maintained in each producer's records on a working interest basis. Since several costs are developed by their relationship to well drilling costs it is therefore necessary to obtain all expenditure data on a consistent working interest basis.

Several respondents requested that the annual data be reported on a fiscal year basis rather than a calendar year basis to be consistent with their accounting procedures. In order to afford respondents time to adjust their records, the Commission will permit respondents the option of reporting on a calendar or fiscal year basis in the initial Form No. 64 report with the exception of productivity data. That data must be reported on a calendar year basis for conformity with Form No. 40. Respondents electing to report on a fiscal year basis must identify the annual time period for each of the prior years' data. This optional reporting basis is only to be used in the initial report. Thereafter annual reports are required on a uniform calendar year basis.

Numerous parties were critical of having to report production volumes and revenue on a well rather than a lease basis because of their record-keeping system. There were also suggestions that volumes be reported on a wet or dry basis, again for record-keeping purposes. In order to alleviate any burden experienced by filing Form No. 64, we have no objection to adopting these modifications.

Numerous additional comments and suggestions on which we will not elaborate in this order were, however, noted. As a result, instructions and definitions associated with Form No. 64 have been revised and clarified in yet another attempt to reduce respondents' burden in filing this report.

By letter of November 17, 1975, GAO approved Form 64 for one year as submitted by this agency on October 1, 1975. While we recognize that this Form is subject to reclearance by the Comptroller General (GAO) pursuant to Section 3512 (b) of Title 44 of the United States Code[8] and GAO's implementing regulations,[9] we regard Form No. 64 as adopted by this order to be a permanent ongoing report form in furtherance of our statutory responsibilities under the Natural Gas Act. Accordingly, absent any Commission initiated changes in the form during the upcoming year, we do not propose in any subsequent reclearance procedure to once again justify the necessity for the form and its reporting requirements.

The Commission finds: (1) The notice and opportunity to participate in this proceeding with respect to the matters presently before the Commission through the written submission of comments and suggestions are consistent and in accordance with all procedural requirements as prescribed in Section 553, Title 5 of the United States Code.

(2) The amendment to Part 3 of the Commission's General Rules and Section 3.170, Approved Forms, as herein prescribed, is necessary and appropriate for the administration of the Natural Gas Act.

(3) The amendment to Part 260, Statements and Reports, to add a new Section 260.21 is necessary and appropriate for the administration of the Natural Gas Act.

(4) Since the modifications to the amendments prescribed herein which were not included in the notice of this proceeding are consistent with the prime purpose of the proposed rulemaking, further notice thereof is unnecessary.

The Commission orders: The Commission, acting pursuant to the provisions of the Natural Gas Act, as amended, particularly Sections 4, 5, 7, 8, 14, 15, and 16 thereof [52 Stat. 822, 823, 824, 825, 828, 829, 830 (1938); 56 Stat. 83, 84 (1942); 61 Stat. 459 (1974); 76 Stat. 72 (1962); 15 U.S.C. 717c, 717d, 717f, 717g, 717m, 717n, 717o] hereby orders that its General Rules Part 260, Subchapter G of Chapter I, Title 18 of the Code of Fed-

eral Regulations, be amended by adding a new Section 260.21 as follows:

§ 260.21 Form No. 64, Report of Producer Expenditures, Exploration and Development Activity, Production, Reserve Additions, and Revenues; Including Those of Any Affiliate (Associate) or Subsidiary of Each Person Found by the Commission to be a "natural-gas company" within the meaning of the Natural Gas Act.

Exempted from filing the initial report of Form 64 are all natural gas companies, which, together with their affiliate(s) produced for direct sale and for sale for resale in interstate commerce 250,000 Mcf or less of gas at 14.73 psia and 60° Fahrenheit during the year 1974. This exemption will continue for each subsequent annual report until the annual volume of 250,000 Mcf is exceeded.

(a) The Form of Natural Gas Companies, Annual Report of Producer Expenditures, Exploration and Development Activity, Production, Reserve Additions, and Revenues as FPC Form No. 64 is adopted.

(b) Each person required to report pursuant to this order shall prepare and file with the Commission an original and four copies of Schedule Nos. 1, 2, and 3, FPC Form No. 64.

(c) For the U.S., excluding Alaska and Hawaii, certain Form No. 64 data shall be reported for the years 1970–1974 and each subsequent year with the exception of productivity data on Schedule No. 3, Items (3) (a) through (3) (f) which shall only be reported for the years 1965–1973.

(d) For Alaska and adjacent offshore areas, complete Form No. 64 data, including productivity data, shall be reported for the year 1974 and each subsequent year.

(e) The initial report and the annual report for 1975 shall be filed within six months after the date of the issuance of this order. Subsequent reports shall be filed no later than March 31 of each year.

(f) Information filed pursuant to this order shall be made available at the Commission's offices for public inspection.

(B) We amend Section 3.170 of Part 3, Subchapter A, Chapter I, Title 18 of the Code of Federal Regulations by revising paragraph (a) (27) as follows:

§ 3.170 Approved forms, etc.

(a) The following is a list of approved forms, statements, and reports, under the Natural Gas Act, descriptions of which have been published in Subchapter G, Parts 250 and 260 of this chapter.

• • • • •

(27) Form No. 64, Report of Producer Expenditures, Exploration and Development Activity, Production, Reserve Additions, and Revenues of each person found by the Commission to be a "natural-gas company" within the meaning of the Natural Gas Act, and their jurisdictional affiliates and subsidiaries as defined in 18 C.F.R. § 157.40(a)(2) of the Commission's Regulations. (§ 261.21 of this Chapter)

(C) This order is effective as of the date of issuance.

(D) The Secretary shall cause prompt publication of this notice to be made in the Federal Register.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-33935 Filed 12-17-75;8:45 am]

[Docket No. RM74-16]

PART 260—STATEMENTS AND REPORTS (SCHEDULES)

Natural Gas Companies Annual Report of Proved Domestic Gas

DECEMBER 10, 1975.

On November 10, 1975, Sabine Royalty Corporation and Dalco Oil Company (Sabine) petitioned for rehearing of the order issued October 29, 1975 granting extensions of time to file Form No. 40 until March 1, 1976 but denying, among others, the petition of Sabine for a partial waiver of the filing requirements or, in the alternative, permission to file its report for 1974 on April 1, 1977. In its petition of November 10, 1975 Sabine also requests that, pending the completion of judicial review,[1] the Commission stay its orders of October 10 and 29, 1975 requiring respondents to file Form No. 40 to continue to gather the information requested on that form.

In its petition Sabine asserts that the Commission acted in an arbitrary and capricious manner in denying Sabine relief. In the October 29, 1975 order the Commission noted that only thirteen respondents, including Sabine and Dalco, had requested an extension of time beyond March 1, 1976, and the Commission further stated that these few requests were "not reasonable." Sabine asserts that, for the reasons expressed in its original request for waiver or an extension of time, the Commission could only conclude that petitioner had proven its right to relief and, therefore, the denial of that relief was an abuse of discretion by the Commission.

Sabine's petition, filed on November 10, 1975, fails to note the statement in our order of October 29, 1975 that the Commission had the power to act on the requests for extension of time granted therein only until the record was docketed before the Court in the case on appeal, *Union Oil Company of California* v. *Federal Power Commission*. Since Sabine is a party to that proceeding, it is aware that the record was filed with the Court prior to the instant Sabine petition. Therefore, the Commission, pursuant to Section 19(b) of the Natural Gas Act,[2] does not have the authority to act on the Sabine petition.

The Notice of Proposed Rulemaking setting forth the reporting requirements of Form No. 40 and the justification therefor was issued on April 15, 1974. Order No. 526, issued February 25, 1975, which promulgated Form No. 40, set the date for filing offshore and onshore 1974 reserve data as July 1, 1975. At that time we set forth our urgent need for this information.[3] In Order No. 526–A the Commission postponed the filing date for 1974 data pertaining to the onshore and state controlled offshore to October 2, 1975. Subsequent postponements resulted in the March 1, 1976 date that is presently applicable to Sabine. Thus, petitioner has been on notice since April 15, 1974 as to the type of information which might be required in this proceeding. The petition of Sabine and Dalco is no different from that of all of the other respondents to Form No. 40, none of whom petitioned for rehearing of the October 29, 1975 order setting the March 1, 1976 filing date.

We recognized in our original order,[4] and subsequently,[5] that Form No. 40 imposed a burden on the reporting companies, but we found the public interest in obtaining the requested reserve data far outweighed the imposition Form No. 40 placed on the respondents. Since the original promulgation of the form we have granted several of the requests of certain reporting entities for extensions of time. The March 1, 1976 date set by the October 29, 1975 order provided a more than adequate period in which respondents can reorient their record-keeping so as to comply with Form No. 40. Only Sabine and Dalco protest that the interim until March 1, 1976 is insufficient and, as we stated in our October 29, 1975 order, such a request for an extension past March 1, 1976 is not reasonable.

Sabine also requests that the Commission stay the effect of the October 29, 1975 order pending the completion of judicial review. As we stated in that order, a stay in the compilation of the necessary data by the producers in preparation of filing is not in the public interest.[6]

The Commission orders. The petition of Sabine and Dalco for rehearing and reconsideration is rejected. The motion for stay of Sabine and Dalco is rejected.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

Correction

In FR Doc. 75–33155 appearing on page 57455 in the issue for Wednesday, December 10, 1975, the third complete paragraph, the address for the Hearing Clerk which presently reads "560 Fishers Lane" should read "5600 Fishers Lane".

Title 23—Highways

CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

SUBCHAPTER D—NATIONAL HIGHWAY INSTITUTE

PART 260—EDUCATION AND TRAINING PROGRAMS

Revision

● Purpose. The purpose of this document is to publish revised information and requirements with respect to training programs of The National Highway Institute. ●

The National Highway Institute was established pursuant to Section 321 of Title 23, United States Code, to develop and administer, in connection with the State highway departments, training programs of instruction for Federal Highway Administration and State or local highway/transportation agency employees engaged or to be engaged in Federal-aid highway work. Regulations published hereby provide notice of the establishment of related fellowship and scholarship programs.

General notice of proposed rulemaking is not required inasmuch as the regulations relate to benefits or contracts pursuant to 5 U.S.C. 553(a)(2).

This regulation is effective December 29, 1975.

Issued on: December 10, 1975.

J. R. COUPAL, Jr.,
Acting Federal Highway Administrator.

Title 23 CFR, Part 260 is revised to read as follows:

Subpart A—Highway Safety

§ 260.101 Purpose.

The purpose of this subpart is to establish the policy and eligibility requirements and selection criteria for the Federal Highway Administration (FHWA) Fellowship Program in Highway Safety as administered by the National Highway Institute pursuant to sections 307(a), 315, 321, and 403, of Title 23, United States Code. This subpart also provides information relative to the application process.

§ 260.103 Definitions.

The following definitions shall apply for the purpose of this subpart:

(a) Candidate—one who has completed and submitted the necessary forms and documents in order to be considered for selection for a fellowship.

(b) Employing agency—the agency for which the candidate works. This may be either a State or local highway/transportation agency.

(c) Fellowship—the grant presented to the successful candidate to assist this candidate financially during the period of graduate study.

(d) State highway/transportation agency—the agency with the responsibility for initiating and carrying forward a highway program, or public transportation program utilizing highways at the State level.

(e) Local highway/transportation agency—the agency or metropolitan planning organization with the responsibility for initiating and carrying forward a highway program, or public transportation program utilizing highways at the local level, usually the city or county level.

(f) National Highway Institute (NHI)—the organization located within the FHWA responsible for the administration of the FHWA Fellowship Program in Highway Safety.

(g) Recipient—the successful candidate receiving a fellowship.

§ 260.105 Objectives.

(a) The objective of the fellowship program is to assist State and local agencies in developing the expert manpower needed for the implementation of their highway safety programs and to assist in the development of more effective highway safety programs at all levels of government.

(b) To meet its objective, the program shall provide for 9 to 12 months of full-time or up to 24 months of part-time graduate study in the field of highway safety. The program for each year shall be announced by an FHWA Notice.[1] This notice will contain an application form and will announce the number of Fellowship grants to be awarded and their value.

§ 206.107 Eligibility.

(a) Prior recipients of FHWA Scholarships or Fellowships are not eligible.

(b) Candidates shall be employees of State or local highway/transportation agencies.

(c) A candidate shall have earned a Bachelor's or comparable college level degree in a discipline that impinges on highway transportation prior to beginning advanced study under this program.

(d) Candidates must submit evidence of acceptance or probable acceptance for advanced study in highway safety, design, and traffic engineering or safety management courses in schools offering strong comprehensive programs that serve to promote and advance highway safety. Study programs that are not principally oriented toward the roadway environment are not considered to be within the scope of this fellowship program. General planning and engineering study programs are not encouraged under this program. Evidence of probable acceptance may be a letter from the department chairman, graduate school official, or other authorized person.

(e) Candidates shall agree to pursue certain minimum study loads as determined by the FHWA and designated in the FHWA Notice announcing the program each year.

(f) Prior to final selection, each candidate shall agree, in writing, to work in public service with a State or local highway/transportation agency in the field of highway safety for at least 3 years after completing the study period, or to repay the grant or pro-rata amount of the grant.

(g) Candidates shall agree to respond to brief questionnaires designed to assist the NHI in program evaluation both during and following the study period.

(h) Concurrent with the FHWA grant, candidates may accept salary support from their employers. Candidates may also accept salary or wages for part-time work performed. However, acceptance of salary support and part-time salary or wages is subject to the terms of the nonprofit criterion stipulated in section 260.107(j) of this subpart. Funds from this grant shall not be used to support the student's work on research projects for which the institution is being paid Federal funds. Candidates shall not accept other types of scholarship or fellowship assistance with

[1] The Federal Highway Notices are available for inspection and copying as prescribed in 49 CFR Part 7, Appendix D.

V 40 244 DEC 18 75 XUM

the exception of benefits under programs administered by the Veterans Administration (VA) subject to the regulations governing VA programs.

(i) Recipients of awards for full-time study shall agree to limit their part-time employment as stipulated in the FHWA Notice announcing the program.

(j) Candidates shall not profit financially from FHWA fellowships. Where acceptance of the living stipend portion of the grant would result in a profit to the candidate, as determined by comparing the candidate's regular full-time salary with the candidate's part-time salary and employer salary support plus living stipend, the grant amount shall be reduced accordingly except in cases where a candidate must relocate and maintain two households. If a candidate must relocate and maintain two households in order to participate in the program, the candidate's part-time salary and employer salary support plus the living stipend may exceed the candidate's regular full-time salary by an amount not to exceed the cost of maintaining the second household.

(k) Candidates shall be citizens, or shall declare their intent to become citizens of the United States.

§ 260.109 Selection.

(a) Candidates shall be rated by a selection panel appointed by the Director of the NHI. Members of the panel shall represent the highway safety interests of government, industry, and the academic community.

(b) Candidates, including otherwise qualified handicapped individuals, shall be rated without regard to their race, color, sex, national origin, age, or handicap.

(c) The main factors to be considered by the panel are given in priority order as follows:

(1) Candidate's potential to contribute to a State or local highway safety program. These categories of candidates are listed in the order of their preference if other factors that bear on selection are roughly equal:

(i) Present employees of State or local highway/transportation agencies who demonstrate intent to return to work for their agencies, and

(ii) Present employees of State or local highway/transportation agencies who are committed to work for State or local highway/transportation agencies upon completion of the study.

(2) Relevance of a candidate's study program to the objectives of the fellowship program.

(3) Relevant experience.

(4) Academic and professional achievements.

(d) Using ratings given by the selection panel, the Director of the NHI shall select candidates for awards and designate alternates.

(e) The FHWA may designate in the FHWA Notice announcing the program the maximum number of awards that will be made to employees of any one agency.

§ 260.111 Responsibilities of Educational Institutions.

(a) The college or university chosen by the fellowship recipient shall enter into an appropriate agreement with the FHWA providing for the administration of the grant by the college or university. The institution shall arrange with the recipient for the disbursement of the grant funds throughout the study period.

(b) The college or university chosen by the fellowship recipient shall designate a faculty advisor prior to the commitment of funds by the FHWA. The faculty advisor will be requested to submit reports of the recipient's study progress following completion of each study period. These reports are oriented toward total program evaluation. To assure the recipient's rights to privacy, the FHWA will obtain appropriate advance concurrences from the recipients.

§ 260.113 Responsibilities of Employing Agencies.

(a) A candidate's employing agency is responsible for furnishing statements concerning the relevancy of the candidate's study to agency requirements. The agency is encouraged to identify educational and training priorities and to provide back-up to support its priority candidates for this program. The employer's statements are highly relevant to the selection process.

(b) Employing agencies are encouraged to give favorable consideration to the requests of candidates for educational leave and salary support for the study period to facilitate the candidates' applications. Agency decisions involving salary support and educational leave that will affect the acceptance of awards by recipients should be made at the earliest possible date to provide adequate time for the FHWA to select alternates to replace candidates that decline their awards. Agencies are responsible for negotiations with their candidates concerning conditions of reinstatement and the candidates' commitments to return to work.

(c) Employing agencies are encouraged to publicize the availability of these fellowships throughout the agencies, to implement procedures for internal evaluation of applications, and to forward the applications to the FHWA Division office in their State.

(d) Employing agencies that choose to process their employees' applications are responsible for observing the cut-off date for the FHWA to receive applications. This date will be stipulated in the FHWA Notice announcing the program for each academic year.

§ 260.115 Equal Opportunity.

(a) Consistent with the provisions of the Civil Rights Act of 1964 and Title VI Assurances executed by each State, 23 U.S.C. 324, and 29 U.S.C. 794, no applicant, including otherwise qualified handicapped individuals, shall on the grounds of race, color, sex, national origin, or handicap, be excluded from participation in, be denied benefits of, or be otherwise subjected to discrimination under this program.

(b) In accordance with Executive Order 11141, no individual shall be denied the benefits of this program because of age.

(c) State agencies should make information on this program available to all eligible employees, including otherwise qualified handicapped individuals, so as to assure nondiscrimination on the grounds of race, color, sex, national origin, age, or handicap.

§ 260.117 Application Procedures.

(a) The FHWA Notices announcing the program for each year and containing the application form may be obtained from FHWA regional and division offices, State highway agencies, metropolitan planning organizations, Governors' Highway Safety Representatives, and from colleges and universities. Forms may also be obtained from the National Highway Institute, HHI-3, Federal Highway Administration, Washington, D.C. 20590.

(b) In order to become a candidate, the applicant shall complete and forward the application form according to the instructions in the FHWA Notice announcing the program. The cut-off date for submitting the application stipulated in the Notice should be observed.

Subpart B—Highway Transportation Research and Education

§ 260.201 Purpose.

The purpose of this subpart is to establish the policy and eligibility requirements and selection criteria for the Federal Highway Administration (FHWA) Fellowship Program in Highway Transportation Research and Education as administered by the National Highway Institute (NHI) pursuant to sections 307 (a), 315, and 321 of title 23, United States Code, and § 1.48 (b) and (h) of title 49, Code of Federal Regulations. This subpart also provides information relative to the application process.

§ 260.203 Definitions.

The following definitions shall apply for the purpose of this subpart:

(a) Candidate—one who has completed and submitted the necessary forms and documents in order to be considered for selection for a fellowship.

(b) Employing Agency—the agency for which the candidate works. This may be either a State or local highway/transportation agency.

(c) Fellowship—the grant presented to the successful candidate to assist this candidate financially during the period of graduate study.

(d) State highway/transportation agency—the agency with the responsibility for initiating and carrying forward a highway program or public transportation program utilizing highways at the State level.

(e) Local highway/transportation agency—the agency or metropolitan planning organization with the responsibility for initiating and carrying forward a highway program or public transportation program utilizing highways at the local level, usually the city or county level.

(f) National Highway Institute (NHI)—the organization located within the FHWA responsible for the administration of the FHWA Fellowship Program in Highway Transportation Research and Education.

(g) Recipient—the successful candidate receiving a fellowship.

§ 260.205 Objectives.

(a) The objective of the Fellowship Program in Highway Transportation Research and Education is to assist State and local agencies in developing the expert manpower needed for the implementation of their highway programs and to assist in the development of more effective transportation programs at all levels of government.

(b) This program shall provide for 9 to 12 months of full-time or up to 24 months of part-time graduate study in the field of highway transportation. The program for each year shall be announced by an FHWA Notice. This Notice will contain an application form and will announce the number of Fellowship grants to be awarded and their value.

§ 260.207 Eligibility.

(a) Prior recipients of FHWA Scholarships or Fellowships are not eligible.

(b) A candidate shall have earned a Bachelor's or comparable college level degree in a discipline that impinges on highway transportation prior to beginning advanced study under this program.

(c) Candidates shall submit evidence of acceptance or probable acceptance for advanced study in schools offering opportunities for research and study in highway transportation or related fields. Evidence of probable acceptance may be a letter from the department chairman, graduate school official, or other authorized person.

(d) Candidates shall agree to pursue certain minimum study loads as determined by the FHWA and designated in the FHWA Notice announcing the program each year.

(e) Prior to final selection, each candidate shall agree, in writing, to work in public service with a State or local highway/transportation agency in the field of highway transportation for at least 3 years after completing the study period, or to repay the grant or a pro-rata amount of the grant.

(f) Candidates shall agree to respond to brief questionnaires designed to assist the NHI in program evaluation both during and following the study period.

(g) Concurrent with the FHWA grant, candidates may accept salary support from their employers. Candidates may also accept salary or wages for part-time work performed. However, acceptance of salary support and part-time salary or wages is subject to the terms of the nonprofit criterion stipulated in § 260.207(i) of this subpart. Funds from this grant shall not be used to support the student's work on research projects for which the institution is being paid Federal funds. Candidates shall not accept other types of scholarship or fellowship assistance with the exception of benefits under programs administered by the Veterans Administration (VA) subject to the regulations governing VA programs.

(h) Recipients of awards for full-time study shall agree to limit their part-time employment as stipulated in the FHWA Notice announcing the program.

(i) Candidates shall not profit financially from FHWA fellowships. Where acceptance of the living stipend portion of the grant would result in a profit to the candidate, as determined by comparing the candidate's regular full-time salary with the candidate's part-time salary and employer salary support plus living stipend, the grant amount shall be reduced accordingly except in cases where a candidate must relocate and maintain two households. If a candidate must relocate and maintain two households in order to participate in the program, the candidate's part-time salary and employer salary support plus the living stipend may exceed the candidate's regular full-time salary by an amount not to exceed the cost of maintaining the second household.

(j) Candidates shall be citizens, or shall declare their intent to become citizens of the United States.

§ 260.209 Selection.

(a) Candidates shall be rated by a selection panel appointed by the Director of the NHI. Members of the panel shall represent the highway transportation interests of government, industry, and the academic community.

(b) Candidates, including otherwise qualified handicapped individuals, shall be rated without regard to their race, color, sex, national origin, age, or handicap.

(c) The main factors to be considered by the panel are given in priority order as follows:

(1) Candidate's potential to contribute to a State or local highway transportation program. These categories of candidates are listed in the order of their preference if other factors that bear on selection are roughly equal:

(i) Present employees of State or local highway/transportation agencies who demonstrate intent to return to work for their agencies.

(ii) Present employees of State or local highway/transportation agencies who are committed to work for State or local highway/transportation agencies upon completion of the study.

(iii) Students and industry representatives who have job commitments with State or local highway/transportation agencies.

(2) Relevance of a candidate's study program to the objectives of the fellowship program.

(3) Relevant experience.

(4) Academic and professional achievements.

(d) Using ratings given by the selection panel, the Director of the NHI shall select candidates for awards and designate altefnates.

(e) The FHWA may designate in the FHWA Notice announcing the program the maximum number of awards that will be made to employees of any one agency.

§ 260.211 Responsibilities of Educational Institutions.

(a) The college or university chosen by the fellowship recipient shall enter into an appropriate agreement with the FHWA providing for the administration of the grant by the college or university. The institution shall arrange with the recipient for the disbursement of the grant funds throughout the study period.

(b) The college or university chosen by the fellowship recipient shall designate a faculty advisor prior to the commitment of funds by the FHWA. The faculty advisor will be requested to submit reports of the recipient's study progress following completion of each study period. These reports are oriented toward total program evaluation. To assure the recipient's rights to privacy, the FHWA will obtain appropriate advance concurrences from the recipients.

§ 260.213 Responsibilities of Employing Agencies.

(a) A candidate's employing agency is responsible for furnishing statements concerning the relevancy of the candidate's study to agency requirements. The agency is encouraged to identify educational and training priorities and to provide back-up to support its priority candidates for this program. The employers' statements are highly relevant to the selection process.

(b) Employing agencies are encouraged to give favorable consideration to the requests of candidates for educational leave and salary support for the study period to facilitate the candidates' applications. Agency decisions involving salary support and educational leave that will affect the acceptance of awards by recipients should be made at the earliest possible date to provide adequate time for the FHWA to select alternates to replace candidates that decline their awards. Agencies are responsible for negotiations with their candidates concerning conditions of reinstatement and the candidates' commitments to return to work.

(c) Employing agencies are encouraged to publicize the availability of these fellowships throughout the agencies, to implement procedures for internal evaluation of applications, and to forward the applications to the FHWA Division office in their State.

(d) Employing agencies that choose to process their employees' applications are responsible for observing the cut-off date for the FHWA to receive applications. This date will be stipulated in the FHWA Notice announcing the program for each academic year.

§ 260.215 Equal Opportunity.

(a) Consistent with the provisions of the Civil Rights Act of 1964 and Title VI Assurances executed by each State, 23 U.S.C. 324, and 29 U.S.C. 794, no appli-

V 40244 DEC 18 75 XUM

cant, including otherwise qualified handicapped individuals, shall on the grounds of race, color, sex, national origin, or handicap, be excluded from participation in, be denied benefits of, or be otherwise subjected to discrimination under this program.

(b) In accordance with Executive Order 11141, no individual shall be denied the benefits of this program because of age.

(c) State agencies should make information on this program available to all eligible employees, including otherwise qualified handicapped individuals, so as to assure nondiscrimination on the grounds of race, color, sex, national origin, age, or handicap.

§ 260.217 Application Procedures.

(a) The FHWA Notices announcing the program each year and containing the application form may be obtained from FHWA regional and division offices, State highway agencies, metropolitan planning organizations, Governors' Highway Safety Representatives, and from colleges and universities. Forms may also be obtained from the National Highway Institute, HHI–3, Federal Highway Administration, Washington, D.C. 20590.

(b) In order to become a candidate, the applicant shall complete and forward the application form according to the instructions in the FHWA Notice announcing the program. The cut-off date for submitting the application stipulated in the Notice should be observed.

Subpart C—Highway Technology

§ 260.301 Purpose.

The purpose of this subpart is to establish the policy and eligibility requirements and selection criteria for the Federal Highway Administration (FHWA) Scholarship Program in Highway Technology as administered by the National Highway Institute (NHI) pursuant to sections 307(a), 315, 321 and 403 of title 23, United States Code, and sections 1.48 (b) and (h) of title 49, Code of Federal Regulations. This subpart also provides information relative to the application process.

§ 260.303 Definitions.

The following definitions shall apply for the purpose of this subpart:

(a) Candidate—One who has completed and submitted the necessary forms and documents in order to be considered for selection for a scholarship.

(b) Employing Agency—The agency for which the candidate works. This may be either a State or local highway/transportation agency or the Federal Highway Administration (FHWA).

(c) State highway/transportation agency—The agency with the responsibility for initiating and carrying forward a highway program, or public transportation program utilizing highways, at the State level.

(d) Local highway/transportation agency—The agency or the metropolitan planning organization with the responsibility for initiating and carrying forward a highway program, or public transportation program utilizing highways, at the local level, usually the city or county level.

(e) National Highway Institute (NHI)—The organization located within the FHWA responsible for the administration of the FHWA Scholarship Program in Highway Technology.

(f) Recipient—The successful candidate receiving a scholarship.

(g) Scholarship—The grant presented to the successful candidate to assist this candidate financially during the period of post-secondary study.

§ 260.305 Objectives.

(a) The objective of the Scholarship Program in Highway Technology is to assist State and local agencies and the FHWA in developing the expert manpower needed for the implementation of their programs and to assist in the development of more effective transportation programs at all levels of government.

(b) To meet its objective the program provides 9 to 12 months of full-time or up to 24 months of part-time post-secondary study in the field of highway transportation. The program for each year shall be announced by an FHWA Notice. This Notice will contain an application form and will announce the number of scholarship grants to be awarded and their value.

§ 260.307 Eligibility.

(a) Prior recipients of FHWA Scholarships are not eligible.

(b) Preference will be given to candidates who are presently employed by the FHWA and by State or local highway/transportation agencies. Candidates who are students with job commitments to work in the field of highway transportation for State and local highway/transportation agencies are eligible.

(c) Candidates shall submit evidence of acceptance, or probable acceptance, for study in programs that will enhance their contribution to their employers. Evidence of probable acceptance may be a letter from the department chairman or other school official.

(d) Candidates shall agree to pursue certain minimum study loads as determined by the FHWA and designated in the FHWA Notice announcing the program each year.

(e) Prior to final selection, a candidate who is an FHWA employee shall agree, in writing, to continue working for the FHWA for at least 3 years after completing the study period or to repay the grant or a pro rata amount of the grant. A candidate who is an employee of a State or local highway/transportation agency shall agree, in writing, to work in public service with a State or local highway/transportation agency for at least 3 years after completing the study period, or to repay the grant, or a pro rata amount of the grant.

(f) Candidates shall agree to respond to brief questionnaires designed to assist the NHI in program evaluation both during and following the study period.

(g) Concurrent with the FHWA grant, candidates may accept salary support from their employers. Candidates may also accept salary or wages for part-time work performed. However, acceptance of salary support and part-time salary or wages is subject to the terms of the non-profit criterion stipulated in Section 260.307(i) of this subpart. Funds from this grant shall not be used to support the student's work on research projects for which the institution is being paid Federal funds. Candidates shall not accept other types of scholarship or fellowship assistance with the exception of benefits under programs administered by the Veterans Administration (VA) subject to the regulations governing VA programs.

(h) Recipients of awards for full-time study shall agree to limit their part-time employment as stipulated in the FHWA Notice announcing the program.

(i) Candidates shall not profit financially from FHWA Scholarships. Where acceptance of the living stipend portion of the grant would result in a profit to the candidate, as determined by comparing the candidate's regular full-time salary with the candidate's part-time salary and employer salary support plus living stipend, the grant amount will be reduced accordingly, except in cases where a candidate must relocate and maintain two households. If a candidate must relocate and maintain two households in order to participate in the program, the candidate's part-time salary and employer salary support plus the living stipend may exceed the candidate's regular full-time salary by an amount not to exceed the cost of maintaining the second household.

(j) Candidates shall be citizens, or shall declare their intent to become citizens of the United States.

§ 260.309 Selection.

(a) Candidates shall be rated by a selection panel appointed by the Director of the NHI. Members of the panel shall represent the highway transportation interests of government, industry, and the academic community.

(b) Candidates, including otherwise qualified handicapped individuals, shall be rated without regard to their race, color, sex, national origin, age, or handicap.

(c) The main factors to be considered by the panel are given in priority order as follows:

(1) Academic and professional achievements.

(2) Candidate's potential to contribute to a Federal, State, or local highway program.

(3) Relevant experience.

(4) Relevance of a candidate's study program to the objectives of the scholarship program.

(d) Using ratings given by the selection panel, the Director of the NHI shall select candidates for awards and designate alternates.

(e) The FHWA may designate in the FHWA Notice announcing the program the maximum number of awards that will be made to employees of any one agency.

§ 260.311 Responsibilities of Educational Institutions.

(a) The college or university chosen by the scholarship recipient shall enter into an appropriate agreement with the FHWA providing for the administration of the grant by the college or university. The institution shall arrange with the recipient for the disbursement of the grant funds throughout the study period.

(b) The college or university chosen by the scholarship recipient shall designate a faculty advisor prior to the commitment of funds by the FHWA. The faculty advisor will be requested to submit reports of the recipient's study progress following completion of each study period. These reports are oriented toward total program evaluation. To assure the recipient's rights to privacy, the FHWA will obtain appropriate advance concurrences from the recipients.

§ 260.313 Responsibilities of Employing Agencies.

(a) A candidate's employing agency is responsible for furnishing statements concerning the relevancy of the candidate's study to agency requirements. The agency is encouraged to identify educational and training priorities and to provide back-up to support its priority candidates for this program. The employers' statements are highly relevant to the selection process.

(b) Employing agencies are encouraged to give favorable consideration to the requests of candidates for educational leave and salary support for the study period to facilitate the candidates' applications. Agency decisions involving salary support and educational leave that will affect the acceptance of awards by recipients should be made at the earliest possible date to provide adequate time for the FHWA to select alternates to replace candidates that decline their awards. Agencies are responsible for negotiations with their candidates concerning conditions of reinstatement and the candidates' commitments to return to work.

(c) Employing agencies are encouraged to publicize the availability of these scholarships throughout the agencies, to implement procedures for internal evaluation of applications, and to forward the applications to the FHWA Division office in their State.

(d) Employing agencies that choose to process their employees' applications are responsible for observing the cut-off date for the FHWA to receive applications. This date will be stipulated in the Notice announcing the program for each academic year.

§ 260.315 Equal Opportunity.

(a) Consistent with the provisions of the Civil Rights Act of 1964 and Title VI Assurances executed by each State, 23 U.S.C. 324, and 29 U.S.C. 794, no applicant, including otherwise qualified handicapped individuals, shall on the grounds of race, color, sex, national origin, or handicap, be excluded from participation in, be denied benefits of, or be otherwise subjected to discrimination under this program.

(b) In accordance with Executive Order 11141, no individual shall be denied benefits of this program because of age.

(c) State agencies should make information on this program available to all eligible employees, including otherwise qualified handicapped individuals, so as to assure nondiscrimination on the grounds of race, color, sex, national origin, age, or handicap.

§ 260.317 Application Procedures.

(a) The FHWA Notice announcing the program for each year and containing the application form may be obtained from FHWA regional and division offices, State highway agencies, metropolitan planning organizations, Governors' Highway Safety Representatives, and from colleges and universities. Forms may also be obtained from the National Highway Institute, HHI–3, Federal Highway Administration, Washington, D.C. 20590.

(b) In order to become a candidate, the applicant shall complete and forward the application form according to the instructions in the FHWA Notice announcing the program. The cut-off date for submitting the application stipulated in the Notice should be observed.

[FR Doc.75–34126 Filed 12–17–75;8:45 am]

Title 24—Housing and Urban Development

CHAPTER II—OFFICE OF THE ASSISTANT SECRETARY FOR HOUSING PRODUCTION AND MORTGAGE CREDIT—FEDERAL HOUSING COMMISSIONER (FEDERAL HOUSING ADMINISTRATION), DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R–75–364]

PART 200—INTRODUCTION

Delegations to Particular Positions

Pursuant to section 7(d), Department of Housing and Urban Development Act, 42 U.S.C. 3535(d), the Assistant Secretary-Commissioner is revising the delegations of authority under 24 CFR, subpart D. These revisions are necessary to implement section 8 of the U.S. Housing Act of 1937 and amendments to sections 235 and 236 of the National Housing Act as contained in Title II of the Housing and Community Development Act of 1974 in relation to the establishment of income ceilings. Because this amendment relates to agency management and personnel, comment and public procedure are unnecessary.

Accordingly, Part 200, subpart D of Title 24 is amended by:

1. Section 200.56 is amended by adding a new paragraph (l) to read as follows:

§ 200.56 Director, Office of Underwriting Standards.

* * * * * *

(l) To establish income ceilings for individual areas in the United States for "lower-income families" and "very low income families" as these terms are used for housing assistance under section 8 of the U.S. Housing Act of 1937, as amended; for families eligible for single-family mortgage assistance under section 235 of the National Housing Act, as amended; and for tenants eligible for occupancy in projects receiving multi-family mortgage assistance under section 236 of the National Housing Act, as amended; including establishing income ceilings higher or lower than 80 per centum of the median for individual areas on the basis of findings that such variations are necessary because of prevailing levels of construction costs, unusually high or low family incomes, or other factors.

2. Section 200.56d is amended by adding a new paragraph (c) to read as follows:

§ 200.56d Director, Economic and Market Analysis Division.

* * * * * *

(c) Under the general supervision of the Director, Office of Underwriting Standards, to establish income ceilings for individual areas in the United States for "lower-income families" and "very low income families" as these terms are used for housing assistance under section 8 of the U.S. Housing Act of 1937, as amended; for families eligible for single-family mortgage assistance under section 235 of the National Housing Act, as amended; and for tenants eligible for occupancy in projects receiving multi-family mortgage assistance under section 236 of the National Housing Act, as amended; including establishing income ceilings higher and lower than 80 per centum of the median for individual areas on the basis of findings that such variations are necessary because of prevailing levels of construction costs, unusually high or low family incomes, or other factors.

Effective date. This amendment is effective as of January 1, 1976.

DAVID S. COOK,
Assistant Secretary for Housing Production and Mortgage Credit — Federal Housing Commissioner.

[FR Doc.75–34098 Filed 12–17–75;8:45 am]

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 7392]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Advertising, etc., Activities

On September 11, 1971, a notice of proposed rule making with respect to the amendment of the Income Tax Regulations (26 CFR Part 1) relating to the advertising income of exempt organizations under section 513(c) of the Internal Revenue Code of 1954, as amended by section 121(c) of the Tax Reform Act of 1969 (83 Stat. 542), was published in the FEDERAL REGISTER (36 F.R. 18316).

The amendments to the regulations provide rules regarding the computation of unrelated business tax on exempt or-

V 40244 DEC 18 75 D XUM V

ganization from the sale of advertising in periodicals. In general the regulations allow an organization to reduce their advertising income from a periodical (i.e.—the amount by which gross advertising income exceeds direct advertising costs) by the excess of readership costs over circulation income attributable to such periodical. Where periodicals are furnished dues paying members of the organization without further charge, a portion of the dues must be allocated to the circulation income of the periodical. The notice of proposed rule making set forth seven factors to be used in making this allocation. The amendments adopted by this document simplify the allocation rule by reducing the factors to three (1) subscription price charged to nonmembers; (2) subscription price charged to members and; (3) pro rata allocation of membership receipts based upon cost.

The amendments also allow consolidation of two or more periodicals if such periodicals are published for the production of income. Rules are set forth to determine if a periodical is published for the production of income.

ADOPTION OF AMENDMENTS TO THE REGULATIONS

After consideration of all such relevant matter as was presented by interested persons regarding the rule proposed, the amendment of the Income Tax Regulations (26 CFR Part 1) is hereby adopted, subject to the changes set forth below:

Paragraph 1. Section 1.512 (a)–1 as set forth in paragraph 1 of the appendix of the notice of proposed rule making is changed by revising paragraphs (f) (4) and (5) to read as follows:

§ 1.512 (a)–1 *Definition.*

* * * * *

(f) Determination of unrelated business taxable income derived from sale of advertising in exempt organization periodical.

* * *

(4) *Allocable membership receipts.* The allocable membership receipts of an exempt organization periodical shall be determined in accordance with the following rules:

(i) *Subscription price charged to nonmembers.* If 20 percent or more of the total circulation of a periodical consist of sales to nonmembers, the subscription price charged to such nonmembers shall determine the price of the periodical for purposes of allocating membership receipts to the periodical.

(ii) *Subscription price to nonmembers.* If paragraph (f) (4) (i) of this section does not apply and if the membership dues from 20 percent or more of the members of an exempt organization are less than those received from the other members because the former members do not receive the periodical, the amount of the reduction in membership dues for a member not receiving the periodical shall determine the price of the periodical for purposes of allocating membership receipts to the periodical.

(iii) *Pro rata allocation of membership receipts.* Since it may generally be assumed that membership receipts and gross advertising income are equally available for all the exempt activities (including the periodical) of the organization, the share of membership receipts allocated to the periodical, where paragraphs (f) (4) (i) and (ii) of this section do not apply, shall be an amount equal to the organization's membership receipts multiplied by a fraction the numerator of which is the total periodical costs and the denominator of which is such costs plus the cost of other exempt activities of the organization. For example, assume that an exempt organization has total periodical costs of $30,000 and other exempt costs of $70,000. Further assume that the membership receipts of the organization are $60,000 and that paragraphs (f) (4) (i) and (ii) of this section do not apply. Under these circumstances $18,000 ($60,000 times $30,000/$100,000) is allocated to the periodical's circulation income.

(5) *Examples.* The rules set forth in paragraph (f) (4) of this section may be illustrated by the following examples. For purposes of these examples it is assumed that the exempt organization periodical contains advertising, and that the production and distribution of the readership content of the periodical is related to the organization's exempt purpose.

Example (1). U is an exempt scientific organization with 10,000 members who pay annual dues of $15 per year. One of U's activities is the publication of a monthly periodical which is distributed to all of its members. U also distributes 5,000 additional copies of its periodical to nonmember subscribers at a cost of $10 per year. Pursuant to paragraph (f) (4) (i) of this section, since the nonmember circulation of U's periodical represents 33⅓ percent of its total circulation the subscription price charged to nonmembers will be used to determine the portion of U's membership receipts allocable to the periodical. Thus, U's allocable membership receipts will be $100,000 ($10 times 10,000 members), and U's total circulation income for the periodical will be $150,000 ($100,000 from members plus $50,000 from sales to nonmembers).

Example (2). Assume the facts as stated in example (1), except that U sells only 500 copies of its periodical to nonmembers, at a price of $10 per year. Assume further that U's members may elect not to receive the periodical, in which case their annual dues are reduced from $15 per year to $6 per year, and that only 3,000 members elect to receive the periodical and pay the full dues of $15 per year. U's stated subscription price to members of $9 consistently results in an excess of total income (including gross advertising income) attributable to the periodical over total costs of the periodical. Since the 500 copies of the periodical distributed to nonmembers represents only 14 percent of the 3,500 copies distributed, pursuant to paragraph (f) (4) (i) of this section, the $10 subscription price charged to nonmembers will not be used in determining the portion of membership receipts allocable to the periodical. On the other hand, since 70 percent of the members elect not to receive the periodical and pay $9 less per year in dues, pursuant to paragraph (f) (4) (ii) of this section, such $9 price will be used in determining the subscription price charged to members. Thus, the allocable membership receipts will be $9 per member, or $27,000 ($9 times 3,000 copies) and U's total circulation income will be $32,000 ($27,000 plus $5,000).

Example (3). (a) W, an exempt trade association, has 800 members who pay annual dues of $50 per year. W publishes a monthly journal the editorial content and advertising of which are directed to the business interests of its own members. The journal is distributed to all of W's members and no receipts are derived from nonmembers.

(b) W has total receipts of $100,000 of which $40,000 ($50×800) are membership receipts and $60,000 are gross advertising income. W's total costs for the journal and other exempt activities is $100,000. W has total periodical costs of $76,000 of which $41,000 are direct advertising costs and $35,000 are readership costs.

(c) Paragraph (f) (4) (i) of this section will not apply since no copies are available to nonmembers. Therefore, the allocation of membership receipts shall be made in accordance with paragraph (f) (4) (iii) of this section. Based upon pro rata allocation of membership receipts (40,000) by a fraction the numerator of which is total periodical costs ($76,000) and the denominator of which is the total costs of the journal and the other exempt activities ($100,000), $30,400 ($76,000/$100,000 times $40,000) of membership receipts in circulation income.

(This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).)

WILLIAM E. WILLIAMS,
Acting Commissioner of Internal Revenue.

Approved: December 12, 1975.

WILLIAM M. GOLDSTEIN,
Deputy Assistant Secretary of the Treasury.

On September 11, 1971, a notice of proposed rule making with respect to the amendment of the Income Tax Regulations (26 CFR Part 1) relating to the advertising income of exempt organizations under section 513(c) of the Internal Revenue Code of 1954, as amended by section 121(c) of the Tax Reform Act of 1969 (83 Stat. 542), was published in the FEDERAL REGISTER (36 FR 18316).

The amendments to the regulations provide rules regarding the computation of unrelated business tax on exempt organization from the sale of advertising in periodicals. In general the regulations allow an organization to reduce their advertising income from a periodical (i.e., the amount by which gross advertising income exceeds direct advertising costs) by the excess of readership costs over circulation income attributable to such periodical. Where periodicals are furnished dues paying members of the organization without further charge, a portion of the dues must be allocated to the circulation income of the periodical. The notice of proposed rule making set forth seven factors to be used in making this allocation. The amendments adopted by this document simplify the allocation rule by reducing the factors to three (1) subscription price charged to nonmembers; (2) subscription price charged to members and; (3) pro rata allocation of membership receipts based upon cost.

The amendments also allow consolidation of two or more periodicals if such periodicals are published for the production of income. Rules are set forth to determine if a periodical is published for the production of income.

ADOPTION OF AMENDMENTS TO THE REGULATIONS

After consideration of all such relevant matter as was presented by interested persons regarding the rule proposed, the amendment of the Income Tax Regulations (26 CFR Part 1) is hereby adopted, subject to the changes set forth below:

PARAGRAPH 1. Section 1.512(a)–1 is amended to read as follows:

§ 1.512(a)–1 Definition.

(a) *In general.* Section 512 defines "unrelated business taxable income" as the gross income derived from any unrelated trade or business regularly carried on, less those deductions allowed by chapter 1 of the Code which are directly connected with the carrying on of such trade or business, subject to the modifications referred to in § 1.512(b)–1. To be deductible in computing unrelated business taxable income, expenses, depreciation and similar items not only must qualify as deductions allowed by chapter 1 of the Code but also must be directly connected with the carrying on of an unrelated trade or business activity. Except as provided in paragraphs (d) (2) and (f) of this section, to be "directly connected with" the conduct of an unrelated business activity for purposes of section 512, an item of deduction must have proximate and primary relationship to the carrying on of that business activity. In the case of an organization which derives gross income from the regular conduct of two or more unrelated business activities, unrelated business taxable income is the aggregate of gross income from all such unrelated business activities less the aggregate of the deductions allowed with respect to all such unrelated business activities.

(b) *Expenses attributable solely to unrelated business activities.* Expenses, depreciation, and similar items attributable solely to the conduct of unrelated business activities are proximately and primarily related to that business activity, and therefore qualify for deduction to the extent that they meet the requirements of section 162, section 167, or other relevant provisions of the Code, connected with the conduct of that activity and are deductible in computing unrelated business activities are directly connected with the conduct of that activity and are deductible in computing unrelated business taxable income if they otherwise qualify for deduction under the requirements of section 162. Similarly, depreciation of a building used entirely in the conduct of unrelated business activities would be an allowable deduction to the extent otherwise permitted by section 167.

(c) *Dual use of facilities or personnel.* Where facilities are used both to carry on exempt activities and to conduct unrelated trade or business activities, expenses, depreciation and similar items attributable to such facilities (as, for example, items of overhead), shall be allocated between the two uses on a reasonable basis. Similarly, where personnel are used both to carry on exempt activities and to conduct unrelated trade or business activities, expenses and similar items attributable to such personnel (as, for example, items of salary) shall be allocated between the two uses on a reasonable basis. The portion of any such item so allocated to the unrelated trade or business activity is proximately and primarily related to that business activity, and shall be allowable as a deduction in computing unrelated business taxable income in the manner and to the extent permitted by section 162, section 167, or other relevant provisions of the Code. Thus, for example, assume that X, an exempt organization subject to the provisions of section 511, pays its president a salary of $20,000 a year. X derives gross income from the conduct of unrelated trade or business activities. The president devotes approximately 10 percent of his time during the year to the unrelated business activity. For purposes of computing X's unrelated business taxable income, a deduction of $2,000 (10 percent of $20,000), would be allowable for the salary paid to its president.

(d) *Exploitation of exempt activities.*—(1) *In general. In certain cases,* gross income is derived from an unrelated trade or business activity which exploits an exempt activity. One example of such exploitation is the sale of advertising in a periodical of an exempt organization which contains editorial material related to the accomplishment of the organization's exempt purpose. Except as specified in subparagraph (2) of this paragraph and paragraph (f) of this section, in such cases, expenses, depreciation and similar items attributable to the conduct of the exempt activities are no deductible in computing unrelated business taxable income. Since such items are incident to an activity which is carried on in furtherance of the exempt purpose of the organization, they do not possess the necessary proximate and primary relationship to the unrelated trade or business activity and are therefore not directly connected with that business activity.

(2) *Allowable deductions.* Where an unrelated trade or business activity is of a kind carried on for profit by taxable organizations and where the exempt activity exploited by the business is a type of activity normally conducted by taxable organizations in pursuance of such business, expenses, depreciation, and similar items which are attributable to the exempt activity qualify as directly connected with the carrying on of the unrelated trade or business activity to the extent that:

(i) The aggregate of such items exceeds the income (if any) derived from or attributable to the exempt activity; and

(ii) The allocation of such excess to the unrelated trade or business activity does not result in a loss from such unrelated trade or business activity.

Under the rule of the preceding sentence, expenses, depreciation and similar items paid or incurred in the performance of an exempt activity must be allocated first to the exempt activity to the extent of the income derived from or attributable to the performance of that activity. Furthermore, such items are in no event allocable to the unrelated trade or business activity exploiting such exempt activity to the extent that their deduction would result in a loss carryover or carryback with respect to that trade or business activity. Similarly, they may not be taken into account in computing unrelated business taxable income attributable to any unrelated trade or business activity not exploiting the same exempt activity. See paragraph (f) of this section for the application of these rules to periodicals published by exempt organizations.

(e) *Example.* Paragraphs (a) through (d) of this section are illustrated by the following example:

Example. W is an exempt business league with a large membership. Under an arrangement with an advertising agency W regularly mails brochures, pamphlets and other advertising materials to its members, charging the agency an agreed amount per enclosure. The distribution of the advertising materials does not contribute importantly to the accomplishment of the purpose for which W is granted exemption. Accordingly, the payments made to W by the advertising agency constitute gross income from an unrelated trade or business activity. In computing W's unrelated business taxable income, the expenses attributable solely to the conduct of the business, or allocable to such business under the rule of paragraph (c) of this section, are allowable as deductions in accordance with the provisions of section 162. Such deductions include the costs of handling and mailing, the salaries of personnel used full-time in the unrelated business activity and an allocable portion of the salaries of personnel used both to carry on exempt activities and to conduct the unrelated business activity. However, costs of developing W's membership and carrying on its exempt activities are not deductible. Those costs are necessary to the maintenance of the intangible asset exploited in the unrelated business activity—W's membership—but are incurred primarily in connection with W's fundamental purpose as an exempt organization. As a consequence, they do not have proximate and primary relationship to the conduct of the unrelated business activity and do not qualify as directly connected with it.

(f) *Determination of unrelated business taxable income derived from sale of advertising in exempt organization periodicals.*—(1) *In general.* Under section 513 (relating to the definition of unrelated trade or business) and § 1.513–1, amounts realized by an exempt organization from the sale of advertising in a periodical constitute gross income from an unrelated trade or business activity involving the exploitation of an exempt activity, namely, the circulation and readership of the periodical developed through the production and distribution of the readership content of the periodical. Paragraph (d) of this section provides for the allowance of deductions attributable to the production and distribution of the readership content of the periodical. Thus, subject to the limitations of paragraph (d) (2) of this section, where the circulation and readership of an exempt organization periodical are utilized in connection with the sale of advertising in the periodical, expenses, depreciation, and similar items of deductions attributable to the production and distribution of the editorial or readership content of the periodical shall qualify as items of deductions directly connected with the unrelated advertising activity. Subparagraphs (2) through (6) of this paragraph provide rules for determining the amount of unrelated business taxable income attrib-

V 40 244 DEC 18 75 XUM

utable to the sale of advertising in exempt organization periodicals. Subparagraph (7) of this paragraph provides rules for determining when the unrelated business taxable income of two or more exempt organization periodicals may be determined on a consolidated basis.

(2) *Computation of unrelated business taxable income attributable to sale of advertising*—(i) *Excess advertising costs.* If the direct advertising costs of an exempt organization periodical (determined under subparagraph (6)(ii) of this paragraph) exceed gross advertising income (determined under subparagraph (3)(ii) of this paragraph), such excess shall be allowable as a deduction in determining unrelated business taxable income from any unrelated trade or business activity carried on by the organization.

(ii) *Excess advertising income.* If the gross advertising income of an exempt organization periodical exceeds direct advertising costs, paragraph (d)(2) of this section provides that items of deduction attributable to the production and distribution of the readership content of an exempt organization periodical shall qualify as items of deduction directly connected with unrelated advertising activity in computing the amount of unrelated business taxable income derived from the advertising activity to the extent that such items exceed the income derived from or attributable to such production and distribution, but only to the extent that such items do not result in a loss from such advertising activity. Furthermore, such items of deduction shall not qualify as directly connected with such advertising activity to the extent that their deduction would result in a loss carryback or carryover with respect to such advertising activity. Similarly, such items of deduction shall not be taken into account in computing unrelated business taxable income attributable to any unrelated trade or business activity other than such advertising activity. Thus—

(*a*) If the circulation income of the periodical (determined under subparagraph (3)(iii) of this paragraph) equals or exceeds the readership costs of such periodical (determined under subparagraph (6)(iii) of this paragraph), the unrelated business taxable income attributable to the periodical is the excess of the gross advertising income of the periodical over direct advertising costs; but

(*b*) If the readership costs of an exempt organization periodical exceed the circulation income of the periodical, the unrelated business taxable income is the excess, if any, of the total income attributable to the periodical (determined under subparagraph (3) of this paragraph) over the total periodical costs (as defined in subparagraph (6)(i) of this paragraph).

See subparagraph (7) of this paragraph for rules relating to the consolidation of two or more periodicals.

(iii) *Examples.* The application of this paragraph may be illustrated by the following examples. For purposes of these examples it is assumed that the production and distribution of the readership content of the periodical is related to the organization's exempt purpose.

Example (1). X, an exempt trade association, publishes a single periodical which carries advertising. During 1971, X realizes a total of $40,000 from the sale of advertising in the periodical (gross advertising income) and $60,000 from sales of the periodical to members and nonmembers (circulation income). The total periodical costs are $90,000 of which $50,000 is directly connected with the sale and publication of advertising (direct advertising costs) and $40,000 is attributable to the production and distribution of the readership content (readership costs). Since the direct advertising costs of the periodical ($50,000) exceed gross advertising income ($40,000), pursuant to subdivision (i) of this subparagraph, the unrelated business taxable income attributable to advertising is determined solely on the basis of the income and deductions directly connected with the production and sale of the advertising:

Gross advertising revenue	$40,000
Direct advertising costs	(50,000)
Loss attributable to advertising	(10,000)

X has realized a loss of $10,000 from its advertising activity. This loss is an allowable deduction in computing X's unrelated business taxable income derived from any other unrelated trade or business activity.

Example (2). Assume the facts as stated in example (1), except that the circulation income of X periodical is $100,000 instead of $60,000, and that of the total periodical costs, $25,000 are direct advertising costs, and $65,000 are readership costs. Since the circulation income ($100,000) exceeds the total readership costs ($65,000), pursuant to subdivision (ii)(*a*) of this subparagraph the unrelated business taxable income attributable to the advertising activity is $15,000, the excess of gross advertising income ($40,000) over direct advertising costs ($25,000).

Example (3). Assume the facts as stated in example (1), except that of the total periodical costs, $20,000 are direct advertising costs and $70,000 are readership costs. Since the readership costs of the periodical ($70,000), exceed the circulation income ($60,000), pursuant to subdivision (ii)(*b*) of this subparagraph the unrelated business taxable income attributable to advertising is the excess of the total income attributable to the periodical over the total periodical costs. Thus, X has unrelated business taxable income attributable to the advertising activity of $10,000 ($100,000 total income attributable to the periodical less $90,000 total periodical costs).

Example (4). Assume the facts as stated in example (1), except that the total periodical costs are $120,000 of which $30,000 are direct advertising costs and $90,000 are readership costs. Since the readership costs of the periodical ($90,000), exceed the circulation income ($60,000), pursuant to subdivision (ii)(*b*) of this subparagraph the unrelated business taxable income attributable to advertising is the excess, if any, of the total income attributable to the periodical over the total periodical costs. Since the total income of the periodical ($100,000) does not exceed the total periodical costs ($120,000), X has not derived any unrelated business taxable income from the advertising activity. Further, only $70,000 of the $90,000 of readership costs may be deducted in computing unrelated business taxable income since as provided in subdivision (ii) of this subparagraph, such costs may be deducted, to the extent they exceed circulation income, only to the extent they do not result in a loss from the advertising activity. Thus, there is no loss from such activity, and no amount may be deducted on this account in computing X's unrelated trade or business income derived from any other unrelated trade or business activity.

(3) *Income attributable to exempt organization periodicals*—(i) *In general.* For purposes of this paragraph the total income attributable to an exempt organization periodical is the sum of its gross advertising income and its circulation income.

(ii) *Gross advertising income.* The term "gross advertising income" means all amounts derived from the unrelated advertising activities of an exempt organization periodical (or for purposes of this paragraph in the case of a taxable organization, all amounts derived from the advertising activities of the taxable organization).

(iii) *Circulation income.* The term "circulation income" means the income attributable to the production, distribution or circulation of a periodical (other than gross advertising income) including all amounts realized from or attributable to the sale or distribution of the readership content of the periodical, such as amounts realized from charges made for reprinting or republishing articles and special items in the periodical and amounts realized from sales of back issues. Where the right to receive an exempt organization periodical is associated with membership or similar status in such organization for which dues, fees or other charges are received (hereinafter referred to as "membership receipts"), circulation income includes the portion of such membership receipts allocable to the periodical (hereinafter referred to as "allocable membership receipts"). Allowable membership receipts is the amount which would have been charged and paid if—

(*a*) The periodical was that of a taxable organization.

(*b*) The periodical was published for profit, and

(*c*) The member was an unrelated party dealing with the taxable organization at arm's length.

See subparagraph (4) of this paragraph for a discussion of the factors to be considered in determining allocable membership receipts of an exempt organization periodical under the standard described in the preceding sentence.

(4) *Allocable membership receipts.* The allocable membership receipts of an exempt organization periodical shall be determined in accordance with the following rules:

(i) *Subscription price charged to nonmembers.* If 20 percent or more of the total circulation of a periodical consist of sales to nonmembers, the subscription price charged to such nonmembers shall determine the price of the periodical for purposes of allocating membership receipts to the periodical.

(ii) *Subscription price to nonmembers.* If paragraph (f)(4)(i) of this section does not apply and if the membership dues from 20 percent or more of the members of an exempt organization are less than those received from the other members because the former members do not receive the periodical, the amount of the reduction in membership dues for a member not receiving the periodical shall determine the price of the periodical for purposes of allocating membership receipts to the periodical.

(iii) *Pro rata allocation of membership receipts.* Since it may generally be assumed that membership receipts and gross advertising income are equally available for all the exempt activities (including the periodical) of the organization, the share of membership receipts allocated to the periodical, where paragraphs (f)(4)(i) and (ii) of this section do not apply, shall be an amount equal to the organization's membership receipts multiplied by a fraction the numerator of which is the total periodical costs and the denominator of which is such costs plus the cost of other exempt activities of the organization. For example, assume that an exempt organization has total periodical costs of $30,000 and other exempt costs of $70,000. Further assume that the membership receipts of the organization are $60,000 and that paragraphs (f)(4)(i) and (ii) of this section do not apply. Under these circumstances $18,000 ($60,000 times $30,000/$100,000) is allocated to the periodical's circulation income.

(5) *Examples.* The rules set forth in paragraph (f)(4) of this section may be illustrated by the following examples. For purposes of these examples it is assumed that the exempt organization periodical contains advertising, and that the production and distribution of the readership content of the periodical is related to the organization's exempt purpose.

Example (1). U is an exempt scientific organization with 10,000 members who pay annual dues of $15 per year. One of U's activities is the publication of a monthly periodical which is distributed to all of its members. U also distributes 5,000 additional copies of its periodical to nonmember subscribers at a cost of $10 per year. Pursuant to paragraph (f)(4)(i) of this section, since the nonmember circulation of U's periodical represents 33⅓ percent of its total circulation the subscription price charged to nonmembers will be used to determine the portion of U's membership receipts allocable to the periodical. Thus, U's allocable membership receipts will be $100,000 ($10 times 10,000 members), and U's total circulation income for the periodical will be $150,000 ($100,000 from members plus $50,000 from sales to nonmembers).

Example (2). Assume the facts as stated in example (1), except that U sells only 500 copies of its periodical to nonmembers, at a price of $10 per year. Assume further that U's members may elect not to receive the periodical, in which case their annual dues are reduced from $15 per year to $6 per year, and that only 3,000 members elect to receive the periodical and pay the full dues of $15 per year. U's stated subscription price to members of $9 consistently results in an excess of total income (including gross advertising income) attributable to the periodical over total costs of the periodical. Since the 500 copies of the periodical distributed to nonmembers represents only 14 percent of the 3,500 copies distributed, pursuant to paragraph (f)(4)(i) of this section, the $10 subscription price charged to nonmembers will not be used in determining the portion of membership receipts allocable to the periodical. On the other hand, since 70 percent of the members elect not to receive the periodical and pay $9 less per year in dues, pursuant to paragraph (f)(4)(ii) of this section, such $9 price will be used in determining the subscription price charged to members. Thus, the allocable membership receipts will be $9 per member, or $27,000 ($9 times 3,000 copies) and U's total circulation income will be $32,000 ($27,000 plus $5,000).

Example (3). (a) W, an exempt trade association, has 800 members who pay annual dues of $50 per year. W publishes a monthly journal the editorial content and advertising of which are directed to the business interests of its own members. The journal is distributed to all of W's members and no receipts are derived from nonmembers.

(b) W has total receipts of $100,000 of which $40,000 ($50 x 800) are membership receipts and $60,000 are gross advertising income. W's total costs for the journal and other exempt activities is $100,000. W has total periodical costs of $76,000 of which $41,000 are direct advertising costs and $35,000 are readership costs.

(c) Paragraph (f)(4)(i) of this section will not apply since no copies are available to nonmembers. Therefore, the allocation of membership receipts shall be made in accordance with paragraph (f)(4)(iii) of this section. Based upon pro rata allocation of membership receipts ($40,000) by a fraction the numerator of which is total periodical costs ($76,000) and, the denominator of which is the total costs of the journal and the other exempt activities ($100,000), $30,400 ($76,000/$100,000 times $40,000) of membership receipts is circulation income.

(6) *Deductions attributable to exempt organization periodicals*—(i) *In general.* For purposes of this paragraph the term "total periodical costs" means the total deductions attributable to the periodical. For purposes of this paragraph the total periodical costs of an exempt organization periodical are the sum of the direct advertising costs of the periodical (determined under subdivision (ii) of this subparagraph) and the readership costs of the periodical (determined under subdivision (iii) of this subparagraph). Items of deduction properly attributable to exempt activities other than the publication of an exempt organization periodical may not be allocated to such periodical. Where items are attributable both to an exempt organization periodical and to other activities of an exempt organization, the allocation of such items must be made on a reasonable basis which fairly reflects the portion of such item properly attributable to each such activity. The method of allocation will vary with the nature of the item, but once adopted, a reasonable method of allocation with respect to an item must be used consistently. Thus, for example, salaries may generally be allocated among various activities on the basis of the time devoted to each activity; occupancy costs such as rent, heat and electricity ma ybe allocated on the basis of the portion of space devoted to each activity; and depreciation may be allocated on the basis of space occupied and the portion of the particular asset utilized in each activity. Allocations based on dollar receipts from various exempt activities will generally not be reasonable since such receipts are usually not an accurate reflection of the costs associated with activities carried on by exempt organizations.

(ii) *Direct advertising costs.* (*a*) The direct advertising costs of an exempt organization periodical include all expenses, depreciation, and similar items of deduction which are directly connected with the sale and publication of advertising as determined in accordance with paragraphs (a), (b), and (c) of this section. These items are allowable as deductions in the computation of unrelated business income of the organization for the taxable year to the extent they meet the requirements of section 162, section 167, or other relevant provisions of the Code. The items allowable as deductions under this subdivision do not include any items of deduction attributable to the production or distribution of the readership content of the periodical.

(*b*) The items allowable as deductions under this subdivision would include agency commissions and other direct selling costs, such as transportation and travel expenses, office salaries, promotion and research expenses, and direct office overhead directly connected with the sale of advertising lineage in the periodical. Also included would be other items of deduction commonly classified as advertising costs under standard account classification, such as art work and copy preparation, telephone, telegraph, postage, and similar costs directly connected with advertising.

(*c*) In addition to the items of deduction normally included in standard account classifications relating to advertising costs, it is also necessary to ascertain the portion of mechanical and distribution costs attributable to advertising lineage. For this purpose, the general account classifications of items includible in mechanical and distribution costs ordinarily employed in business-paper and consumer publication accounting provide a guide for the computation. Thus, the mechanical and distribution costs in such cases would include the portion of the costs and other expenses of composition, presswork, binding, mailing (including paper and wrappers used for mailing), and the bulk postage attributable to the advertising lineage of the publication. The portion of mechanical and distribution costs attributable to advertising lineage of the periodical will be determined on the basis of the ratio of advertising lineage to total lineage of the periodical, and the application of that ratio to the total mechanical and distribution costs of the periodical, where records are not kept in such a manner as to reflect more accurately the allocation of mechanical and distributions costs to advertising lineage of the periodical, and where there is no factor in the character of the periodical to indicate that such an allocation would be unreasonable.

(iii) *Readership costs.* The "readership costs" of an exempt organization periodical include expenses, depreciation or similar items which are directly connected with the production and distribution of the readership content of the

V 40 244 DEC 18 75 XUM

periodical and which would otherwise be allowable as deductions in determining unrelated business taxable income under section 512 and the regulations thereunder if such production and distribution constituted an unrelated trade or business activity. Thus, readership costs include all the items of deduction attributable to an exempt organization periodical which are not allocated to direct advertising costs under subdivision (ii) of this subparagraph, including the portion of such items attributable to the readership content of the periodical, as opposed to the advertising content, and the portion of mechanical and distribution costs which is not attributable to advertising lineage in the periodical.

(7) *Consolidation*—(i) *In general.* Where an exempt organization subject to unrelated business income tax under section 511 publishes two or more periodicals for the production of income, it may treat the gross income from all (but not less than all) of such periodicals and the items of deduction directly connected with such periodicals (including readership costs of such periodicals), on a consolidated basis as if such periodicals were one periodical in determining the amount of unrelated business taxable income derived from the sale of advertising in such periodical. Such treatment must, however, be followed consistently and once adopted shall be binding unless the consent of the Commissioner is obtained as provided in sections 446(e) and § 1.446–1(e).

(ii) *Production of income.* For purposes of this subparagraph, an exempt organization periodical is "published for the production of income" if—

(*a*) The organization generally receives gross advertising income from the periodical equal to at least 25 percent of the readership costs of such periodical, and

(*b*) The publication of such periodical is an activity engaged in for profit.

For purposes of the preceding sentence, the determination whether the publication of a periodical is an activity engaged in for profit is to be made by reference to objective standards taking into account all the facts and circumstances involved in each case. The facts and circumstances must indicate that the organization carries on the activity with the objective that the publication of the periodical will result in economic profit (without regard to tax consequences), although not necessarily in a particular year. Thus, an exempt organization periodical may be treated as having been published with such an objective even though in a particular year its total periodical costs exceed its total income. Similarly, if an exempt organization begins publishing a new periodical, the fact that the total periodical costs exceed the total income for the startup years because of a lack of advertising sales does not mean that the periodical was published without an objective of economic profit. The organization may establish that the activity was carried on with such an objective. This might be established by showing, for example, that there is a reasonable expectation that the total income, by reason of an increase in advertising sales, will exceed costs within a reasonable time. See § 1.183–2 for additional factors bearing on this determination.

(iii) *Example.* This subparagraph may be illustrated by the following example:

Example. Y, an exempt trade association, publishes three periodicals which it distributes to its members: a weekly newsletter, a monthly magazine, and quarterly journal. Both the monthly magazine and the quarterly journal contain advertising which accounts for gross advertising income equal to more than 25 percent of their respective readership costs. Similarly, the total income attributable to each such periodical has exceeded the total deductions attributable to each such periodical for substantially all the years they have been published. The newsletter carries no advertising and its annual subscription price is not intended to cover the cost of publication. The newsletter is a service of Y distributed to all of its members in an effort to keep them informed of changes occurring in the business world and is not engaged in for profit. Under these circumstances, Y may consolidate the income and deductions from the monthly and quarterly journals in computing its unrelated business taxable income, but may not consolidate the income and deductions attributable to the publication of the newsletter with the income and deductions of its other periodicals since the newsletter is not published for the production of income.

(g) *Foreign organizations*—(1) *In general.* The unrelated business taxable income of a foreign organization exempt from taxation under section 501(a) consists of:

(i) The organization's unrelated business taxable income which is derived from sources within the United States but which is not effectively connected with the conduct of a trade or business within the United States, plus

(ii) The organization's unrelated business taxable income effectively connected with the conduct of a trade or business within the United States (whether or not such income is derived from sources within the United States).

To determine whether income realized by a foreign organization is derived from sources within the United States or is effectively connected with the conduct of a trade or business within the United States, see part 1, subchapter N, chapter 1 of the Code (section 861 and following) and the regulations thereunder.

(2) *Effective dates.* Subparagraph (1) of this paragraph applies to taxable years beginning after December 31, 1969. For taxable years beginning on or before December 31, 1969, the unrelated business taxable income of a foreign organization exempt from taxation under section 501(a) consists of the organization's unrelated business taxable income which—

(i) For taxable years beginning after December 31, 1966, is effectively connected with the conduct of a trade or business within the United States, whether or not such income is derived from sources within the United States;

(ii) For taxable years beginning on or before December 31, 1966, is derived from sources within the United States.

(h) *Effective date.* Paragraphs (a) through (f) of this section are applicable with respect to taxable years beginning after December 12, 1967. However, if a taxpayer wishes to rely on the rules stated therein for taxable years beginning before December 13, 1967, he may do so.

PAR. 2. Section 1.513 is amended by revising section 513(c) and by adding an historical note. These amended and added provisions read as follows:

§ 1.513 Statutory provisions; unrelated trade or business.

SEC. 513 *Unrelated trade or business.* • • •

(c) *Advertising, etc., activities.* For purposes of this section, the term "trade or business" includes any activity which is carried on for the production of income from the sale of goods or the performance of services. For purposes of the preceding sentence, an activity does not lose identity as a trade or business merely because it is carried on within a larger aggregate of similar activities or within a larger complex of other endeavors which may, or may not, be related to the exempt purposes of the organization. Where an activity carried on for profit constitutes an unrelated trade or business no part of such trade or business shall be excluded from such classification merely because it does not result in profit.

[Sec. 513(c) as amended by sec. 121(c), Tax Reform Act 1969 (83 Stat. 542)]

PAR. 3. Section 1.513–1 is amended by revising paragraph (a), paragraph (b), and paragraph (f). These amended provisions read as follows:

§ 1.513–1 Definition of unrelated trade or business.

(a) *In general.* As used in section 512 the term "unrelated business taxable income" means the gross income derived by an organization from any unrelated trade or business regularly carried on by it, less the deductions and subject to the modifications provided in section 512. Section 513 specifies with certain exceptions that the phrase "unrelated trade or business" means, in the case of an organization subject to the tax imposed by section 511, any trade or business the conduct of which is not substantially related (aside from the need of such organization for income or funds or the use it makes of the profits derived) to the exercise or performance by such organization of its charitable, educational, or other purpose or function constituting the basis for its exemption under section 501 (or, in the case of an organization described in section 511(a)(2)(B), to the exercise or performance of any purpose or function described in section 501(c)(3)). (For certain exceptions from this definition, see paragraph (e) of this section. For a special definition of "unrelated trade or business" applicable to certain trusts, see section 513(b).) Therefore, unless one of the specific exceptions of section 512 or 513 is applicable, gross income of an exempt organization subject to the tax imposed by section 511 is includible in the computation of unrelated business taxable income if: (1) It is income from trade or business; (2) such trade or business is regularly carried on by the organization; and (3) the conduct of such trade or business is not substantially related (other than through the production of funds) to the organization's performance of its exempt functions.

(b) *Trade or business.* The primary objective of adoption of the unrelated business income tax was to eliminate a source of unfair competition by placing the unrelated business activities of certain exempt organizations upon the same tax basis as the nonexempt business endeavors with which they compete. On the other hand, where an activity does not possess the characteristics of a trade or business within the meaning of section 162, such as when an organization sends out low-cost articles incidental to the solicitation of charitable contributions, the unrelated business income tax does not apply since the organization is not in competition with taxable organizations. However, in general, any activity of a section 511 organization which is carried on for the production of income and which otherwise possesses the characteristics required to constitute "trade or business" within the meaning of section 162—and which, in addition, is not substantially related to the performance of exempt functions—presents sufficient likelihood of unfair competition to be within the policy of the tax. Accordingly, for purposes of section 513 the term "trade or business" has the same meaning it has in section 162, and generally includes any activity carried on for the production of income from the sale of goods or performance of services. Thus, the term "trade or business" in section 513 is not limited to integrated aggregates of assets, activities and good will which comprise businesses for the purposes of certain other provisions of the Internal Revenue Code. Activities of producing or distributing goods or performing services from which a particular amount of gross income is derived do not lose identity as trade or business merely because they are carried on within a larger aggregate of similar activities or within a larger complex of other endeavors which may, or may not, be related to the exempt purposes of the organization. Thus, for example, the regular sale of pharmaceutical supplies to the general public by a hospital pharmacy does not lose identity as trade or business merely because the pharmacy also furnishes supplies to the hospital and patients of the hospital in accordance with its exempt purposes or in compliance with the terms of section 513(a)(2). Similarly, activities of soliciting, selling, and publishing commercial advertising do not lose identity as a trade or business even though the advertising is published in an exempt organization periodical which contains editorial matter related to the exempt purposes of the organization. However, where an activity carried on for the production of income constitutes an unrelated trade or business, no part of such trade or business shall be excluded from such classification merely because it does not result in profit.

• • • • •

(f) *Special rule respecting publishing businesses prior to 1970.* For a special rule for taxable years beginning before January 1, 1970, with respect to publishing businesses carried on by an organization, see section 513(c) of the Code prior to its amendment by section 121(c) of the Tax Reform Act of 1969 (83 Stat. 542).

• • • • •

PAR. 4. Section 1.513–2 is amended by revising paragraph (c) to read as follows:

§ 1.513–2 Definition of unrelated trade or business applicable to taxable years beginning before December 13, 1967.

• • • • •

(c) *Special rules respecting publishing businesses.* For a special rule with respect to publishing businesses carried on by an organization, see section 513(c) of the Code prior to its amendment by section 121(c) of the Tax Reform Act of 1969 (83 Stat. 542).

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

[Order No. 635–75]

PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE

Office of Professional Responsibility

This order establishes within the Department of Justice an Office of Professional Responsibility to be headed by a Counsel on Professional Responsibility. The Counsel's function will be to ensure that Departmental employees continue to perform their duties in accord with the professional standards expected of the Nation's principal law enforcement agency. To this end, the Office of Professional Responsibility will serve as a special review and advisory body, reporting directly to the Attorney General or, in appropriate cases, to the Deputy Attorney General or the Solicitor General.

By virtue of the authority vested in me by 28 U.S.C. 509, 510, and 5 U.S.C. 301, Part 0 of Chapter I of Title 28, Code of Federal Regulations, is amended as follows:

§ 0.1 [Amended]

1. Section 0.1 of Subpart A is amended by deleting "Office of Special Review" and by substituting in its place "Office of Professional Responsibility."

2. The existing Subpart G–2 is deleted and the following new Subpart G–2 is inserted in its place:

Subpart G–2—Office of Professional Responsibility

§ 0.39 Organization.

The Office of Professional Responsibility shall be headed by a Counsel, appointed by the Attorney General. The Counsel shall be subject to the general supervision and direction of the Attorney General or, whenever appropriate, of the Deputy Attorney General or the Solicitor General.

§ 0.39a Functions.

The Counsel on Professional Responsibility shall:

(a) Receive and review any information or allegation presented to him concerning conduct by a Department employee that may be in violation of law, of Department regulations or orders, or of applicable standards of conduct. However, this provision does not preempt the primary responsibility of internal inspection units of the Department to receive such information or allegations and to conduct investigations.

(b) Make such preliminary inquiry as may be necessary to determine whether the matter should be referred to another official within the Department.

(c) Refer any matter that appears to warrant examination in the following manner:

(1) If the matter appears to involve a violation of law, to the head of the investigative agency having jurisdiction to investigate such violations;

(2) If the matter appears not to involve a violation of law, to the head of the office, division, bureau, or board to which the employee is assigned, or to the head of its internal inspection unit;

(3) If referral to the official indicated in paragraph (c) (1) or (2) would be inappropriate, to the Attorney General and the Deputy Attorney General or, if referral to both the Attorney General and the Deputy Attorney General would also be inappropriate, to whichever of them would be proper or to the Solicitor General.

(d) Recommend to the Attorney General, the Deputy Attorney General, or the Solicitor General what further action should be undertaken with regard to any matter referred to such official under paragraph (c)(3), including the assignment of any task force or individual to undertake the action recommended and any special arrangements that appear warranted.

(e) Undertake any investigation of a matter referred under paragraph (c)(3) that may be assigned by the Attorney General, the Deputy Attorney General, or the Solicitor General, or cooperate with any other organization, task force, or individual that may be assigned by such official to undertake the investigation.

(f) Submit to the Attorney General and the Deputy Attorney General or, if submission to both would be inappropriate, to whichever of them would be proper or to the Solicitor General:

(1) An immediate report concerning any matter referred under paragraph (c)(1) or (c)(2) that should be brought to the attention of a higher official;

(2) An immediate report concerning the adequacy of any investigation of a matter referred under paragraph (c), if the Counsel believes that a significant question exists as to the adequacy of such investigation;

(3) A monthly report summarizing all matters referred under paragraph (c) during the preceding month; and

V 40244 DEC 18 75 XUM

(4) An annual report, or a semi-annual report if the Counsel determines this to be necessary, reviewing and evaluating the activities of internal inspection units or, where there are no such units, the discharge of comparable duties within the Department.

(g) Submit recommendations to the Attorney General and the Deputy Attorney General on the need for changes in policies or procedures that become evident during the course of his inquiries.

(h) Undertake any other responsibilities assigned by the Attorney General, including duties relating to the improvement of the performance of the Department.

§ 0.39b Relationship to other departmental units.

(a) Primary responsibility for assuring the maintenance of the highest standards of professional responsibility by Department employees shall continue to rest with the heads of the offices, divisions, bureaus, and boards of the Department.

(b) Primary responsibility for investigating an allegation of unprofessional conduct that is lodged against an employee of the Department normally shall continue to rest with the head of the office, division, bureau, or board to which the employee is assigned, or with the head of its internal inspection unit, or, if the conduct appears to constitute a violation of law, with the head of the investigative or prosecutive agency having jurisdiction over the subject matter involved.

(c) The heads of the offices, divisions, bureaus, and boards shall provide information and assistance requested by the Counsel in connection with reviews or investigations conducted by the Counsel or by any other person assigned to conduct reviews or investigations and shall keep the Counsel informed of major investigations that they are conducting.

(d) Employees of the Department may be assigned to the Office of Professional Responsibility on a case-by-case basis to conduct such inquiries as may be warranted. However, no investigative personnel shall be assigned except under the specific direction of the Attorney General or the Deputy Attorney General and, in normal course, with the agreement of the head of the unit to which the investigative personnel are regularly assigned. Personnel assigned to the Office shall work under the direction of the Counsel.

§ 0.39c Committee on Professional Responsibility.

The Committee on Professional Responsibility shall consist of Department officials designated by the Attorney General and shall serve as an advisory body to the Counsel.

Dated: December 8, 1975.

EDWARD H. LEVI,
Attorney General.

[FR Doc.75-34124 Filed 12-17-75;8:45 am]

[Order No. 634-75]

PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE

Authorizations With Respect to Personnel and Certain Administrative Matters

This order makes two technical amendments to the Department of Justice organizational regulations.

By virtue of the authority vested in me by 28 U.S.C. 509, 510 and 5 U.S.C. 301, Part O of Chapter I of Title 28, Code of Federal Regulations, is amended as follows:

1. Section 0.76(g) of Subpart O is revised to read as follows:

§ 0.76 Specific functions.

* * * * *

(g) Settling and authorizing payment of employee claims under the Military and Civilian Employees' Claims Act of 1964, as amended (31 U.S.C. 240-243).

* * * * *

2. Section 0.150 of Subpart X is revised to read as follows:

§ 0.150 Collection of erroneous payments.

The Director of the Federal Bureau of Investigation for the FBI and the Assistant Attorney General for Administration for all other organizational units of the Department are authorized, in accordance with the regulations prescribed by the Attorney General under Section 5514(b) of Title 5, United States Code, to collect indebtedness resulting from erroneous payments to employees.

Dated: December 8, 1975.

EDWARD H. LEVI,
Attorney General.

[FR Doc.75-34125 Filed 12-17-75;8:45 am]

Title 38—Pensions, Bonuses, and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART 1—GENERAL PROVISIONS

Safeguarding Personal Information in Veterans Administration Records

On page 51204 of the FEDERAL REGISTER of November 4, 1975, there was published a notice of proposed regulatory development to add paragraphs (h), (i), and (j) to § 1.576, Title 38, Code of Federal Regulations. These paragraphs implement the provisions of section 552a(1), title 5, United States Code insofar as they affect Veterans Administration records stored with General Services Administration, now or in the future.

Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed regulation.

No written comments have been received and the proposed regulation is hereby adopted without change and is set forth below.

Effective date. This VA Regulation is effective September 27, 1975, the effective date of section 3, Pub. L. 93-579.

Approved: December 12, 1975.

By direction of the Administrator.

[SEAL] ODELL W. VAUGHN,
Deputy Administrator.

In § 1.576, paragraphs (h), (i) and (j) are added to read as follows:

§ 1.576 General policies, conditions of disclosure, accounting of certain disclosures, and definitions.

* * * * *

(h) The Veterans Administration will, for the purposes of 5 U.S.C. 552a, consider that it maintains any agency record which it deposits with the Administrator of General Services for storage, processing, and servicing in accordance with section 3103 of title 44, United States Code. Any such record will be considered subject to the provisions of § 1.575 series implementing 5 U.S.C. 552a and any other applicable Veterans Administration regulations. The Administrator of General Services is not authorized to disclose such a record except to the Veterans Administration, or under regulations established by the Veterans Administration which are not inconsistent with 5 U.S.C. 552a.

(i) The Veterans Administration will, for the purposes of 5 U.S.C. 552a, consider that a record is maintained by the National Archives of the United States if it pertains to an identifiable individual and was transferred to the National Archives prior to September 27, 1975, as a record which has sufficient historical or other value to warrant its continued preservation by the United States Government. Such records are not subject to the provisions of 5 U.S.C. 552a except that a statement generally describing such records (modeled after the requirements relating to records subject to subsections (e)(4)(A) through (G) of 5 U.S.C. 552a) will be published in the FEDERAL REGISTER.

(j) The Veterans Administration will also, for the purposes of 5 U.S.C. 552a, consider that a record is maintained by the National Archives of the United States if it pertains to an identifiable individual and is transferred to the National Archives on or after September 27, 1975, as a record which has sufficient historical or other value to warrant its continued preservation by the United States Government. Such records are exempt from the requirements of 5 U.S.C. 552a except subsections (e)(4)(A) through (G) and (e)(9) thereof.

[FR Doc.75-34169 Filed 12-17-75;8:45 am]

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

[FRL 468-5]

PART 55—ENERGY RELATED AUTHORITY

Miscellaneous Amendments

On April 28, 1975 (40 FR 18438), pursuant to section 119 of the Clean Air Act (42 U.S.C. 1857, et seq., as amended by Pub. L. 91-604, 84 Stat. 1676, and Pub. L. 93-319, 88 Stat. 246), the Administrator promulgated subpart A of Part 55 setting forth requirements for fuel burning sources eligible for compliance date extensions, temporary suspensions, and one year postponements.

To be eligible for a compliance date extension under the Energy Supply and Environmental Coordination Act of 1974 (ESECA), a source must be prohibited from using petroleum products or natural gas by reason of an order which is issued by the Federal Energy Administration (FEA) under section 2(a) of ESECA or it must have begun conversion as defined in § 55.04(b) to the use of coal as its primary energy source during the period beginning on September 15, 1973, and ending on March 15, 1974, and the source must convert to the use of coal as its primary energy source after September 15, 1973. Section 55.01(b) is revised to include the latter requirement for eligibility.

The requirements published in the April 28, 1975, FEDERAL REGISTER as Subpart A of Part 55 did not set forth a definition for the phrase "converts to the use of coal as its primary energy source." Section 55.02(j) is added to define a source which "converts to the use of coal as its primary energy source" as a source which used petroleum products or natural gas to provide more than 50 percent of its heat input for the two year period ending on September 15, 1973, and which actually converts thereafter to the use of coal as its "primary energy source" (as defined at 10 CFR 303.2 of FEA's regulations).

Congress clearly intended that only sources which actually convert to coal should be eligible for compliance date extensions under section 119(c) of the Clean Air Act. For this reason, the Administrator rejected at (40 FR 18438), a proposal to consider as a converted source any historical coal burner which is subject to compliance schedule(s) to convert to natural gas or petroleum products to comply with air pollution requirements and which is ordered by the Administrator of the Federal Energy Administration to continue burning coal under section 2 of ESECA. In such a case there would be no actual conversion. The definition promulgated herein would provide that a source is eligible for a compliance date extension only if an actual conversion is required by an FEA order.

Section 55.04(q) is added to provide that the Administrator may, on his own motion, postpone the submittal of the information required under § 55.04(a) or (b) if he finds that the State in which the source is located has submitted a plan revision to EPA for approval and such plan revision affects the source in question. This will relieve the source from having to commit itself to submitting a compliance schedule for an air pollution requirement which may not be in effect upon approval of the plan revision by EPA.

Section 55.04(a)(1)(i) is revised to delete the phrase "(before July 1, 1975)." This is simply an error since, in some cases, the source will not be able to convert to the burning of coal in compliance with all air pollution requirements until after July 1, 1975.

Section 55.04(e) is revised to provide specifically that the Administrator may set forth enforceable compliance schedules as part of any primary standard condition or regional limitation. This will allow EPA to effectively monitor the source's progress toward compliance with these requirements. Since a compliance date extension will be granted by definition in any case where the regional limitation applies, the compliance schedule for meeting regional limitation requirements should comply with the requirements set forth in § 55.04(a).

Section 55.04(a)(2)(i)(C) is revised to change "installation or process" to "installation of process." Section 55.04(n) is revised to change "(6)" to "(5)". These revisions are necessary to correct typographical or printing errors.

These rulemaking actions are effective on (date of promulgation) without proposal and the 30 day deferral of effectiveness of the promulgation. EPA believes that the changes being made to part 55 are either minor and non-controversial, or required by law, or both. In addition, the FEA coal conversion program is at a crucial stage of implementation, and to hold it up for a further round of public comment on the limited changes made by these regulations would be contrary to the Congressional intent to convert eligible plants rapidly from oil and gas use to coal use.

Accordingly, the Administrator finds that a pre-promulgation public comment period on these regulations would be "impracticable, unnecessary, or contrary to the public interest" within the meaning of 5 U.S.C. § 553(b)(B). Public comment is invited, however, for a period of 30 days following the promulgation of these rules. Interested persons may submit written comments (in duplicate) to the Division of Stationary Source Enforcement (EN-341), Environmental Protection Agency, 401 M Street, S.W., Washington, D.C. 20460, Attention: Mr. Richard D. Wilson, Director. Following the close of the comment period, EPA will publish a response to any substantive comments received, together with any amendments to these regulations which seem justified in the light of those comments.

These regulations are promulgated under the authority of sections 114, 119 and 301 of the Clean Air Act as amended (42 U.S.C. 1857 et seq.).

Dated: December 12, 1975.

JOHN QUARLES,
Acting Administrator.

Part 55 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

1. Section 55.01 is amended by revising paragraph (b)(1), deleting paragraph (b)(2) and renumbering paragraphs (b)(3) through (b)(5) to (b)(2) through (b)(4). As revised paragraph (b)(1) reads as follows:

§ 55.01 Applicability.

* * * * *

(b) The Administrator shall issue a compliance date extension to any fuel burning stationary source: (1) Which is eligible to apply for a compliance date extension because:

(i) Such source is prohibited from using petroleum products or natural gas by reason of an order which is issued under section 2(a) of the Energy Supply and Environmental Coordination Act of 1974 or such source began conversion as defined in § 55.04(b) to the use of coal as its primary energy source during the period beginning on September 15, 1973, and ending on March 15, 1974; and

(ii) Such source, on or after September 15, 1973, converts to the use of coal as its primary energy source;

* * * * *

2. Section 55.02 is amended by adding paragraph (j) as follows:

§ 55.02 Definitions.

* * * * *

(j) "Converts to the use of coal as its primary energy source" means to convert from the use of more than 50 percent heat input from petroleum products or natural gas over the two year period ending on September 15, 1973, to the use of coal as a primary energy source as defined by 10 CFR 303.2.

3. Section 55.04 is amended by deleting the phrase "(before July 1, 1975)" from paragraph (a)(1)(i), changing the phrase "installation or process" to "installation of process" in paragraph (a)(2)(i)(C), changing "(6)" to "(5)" in paragraph (n), revising the first sentence of paragraph (e) and adding a new paragraph (q). The revised first sentence of paragraph (e) and new paragraph (q) read as follows:

§ 55.04 Compliance date extensions.

* * * * *

(e) The Administrator shall set forth any necessary primary standard condition, regional limitation and any interim requirements (including enforceable compliance schedules to meet such requirements) which the Administrator determines are reasonable and practicable as conditions of any plan for compliance. * * *

* * * * *

(q) The Administrator may, on his own motion, postpone the date for submittal of the information required under paragraphs (a) or (b) of this section if the State in which a source required to make such submittal is located has submitted a plan revision under 40 CFR Part 51 to the Administrator for approval, such plan revision is presently being reviewed by the Administrator, and such plan revision would revise an air pollution requirement applicable to such source.

[FRL 470–4]

PART 61—NATIONAL EMISSION STANDARDS FOR HAZARDOUS AIR POLLUTANTS

Delegation of Authority to Washington Local Agencies

Pursuant to section 112(d) of the Clean Air Act, as amended, the Regional Administrator of Region X, Environmental Protection Agency (EPA), delegated to the State of Washington Department of Ecology on February 28, 1975, the authority to implement and enforce the program for national emission standards for hazardous air pollutants (NESHAPS). The delegation was announced in the FEDERAL REGISTER on April 1, 1975 (40 FR 14632). On April 25, 1975 (40 FR 18169) the Assistant Administrator for Air and Waste Management promulgated a change to 40 CFR 61.04, *Address*, to reflect the delegation to the State of Washington.

On September 22 and 23, 1975, the State Department of Ecology requested EPA's concurrence in the State's subdelegation of the NESHAPS program to four local air pollution control agencies. After reviewing the State's request, the Regional Administrator determined that the sub-delegations meet all the requirements outlined in EPA's delegation of February 28, 1975. Therefore, the Regional Administrator on October 15, 1975, concurred in the sub-delegations to the four local agencies listed below with the stipulation that all the conditions placed on the original delegation to the State shall also apply to the sub-delegations to the local agencies. EPA is today amending 40 CFR 61.04 to reflect the State's sub-delegations.

The amended § 61.04 provides that all reports, requests, applications, submittals and communications required pursuant to Part 61 which were previously to be sent to the Director of the State of Washington Department of Ecology (DOE) will now be sent to the Puget Sound Air Pollution Control Agency (PSAPCA), the Northwest Air Pollution Authority (NWAPA), the Spokane County Air Pollution Authority (SCAPA) or the Yakima County Clean Air Authority (YCCAA), as appropriate. It should be noted that the delegation to the YCCAA applies only to demolition projects containing asbestos. Other source categories located in Yakima County subject to the NESHAPS regulation should continue to address all correspondence to the Department of Ecology. The amended section is set forth below.

The Administrator finds good cause for foregoing prior public notice and for making this rulemaking effective immediately in that it is an administrative change and not one of substantive content. No additional substantive burdens are imposed on the parties affected. The delegations which are reflected by this administrative amendment were effective on September 22 to the YCCAA and September 23 to the other three agencies, and it serves no useful purpose to delay the technical change of the addition of the local agency addresses to the Code of Federal Regulations.

This rulemaking is effective immediately, and is issued under the authority of section 112 of the Clean Air Act, as amended. 42 U.S.C. 1857c–7.

Dated: December 15, 1975.

STANLEY W. LEGRO,
Assistant Administrator for Enforcement.

Part 61 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

1. In § 61.04, paragraph (b)(WW) is revised to read as follows:

§ 61.04 Address.

• • • • • •

(b) • • •

(WW)(i) Washington; State of Washington, Department of Ecology, Olympia, Washington 98504.

(ii) Northwest Air Pollution Authority, 207 Pioneer Building, Second and Pine Streets, Mount Vernon, Washington 98273.

(iii) Puget Sound Air Pollution Control Agency, 410 West Harrison Street, Seattle, Washington 98119.

(iv) Spokane County Air Pollution Control Authority, North 811 Jefferson, Spokane, Washington 99201.

(v) Yakima County Clean Air Authority, County Courthouse, Yakima, Washington 98901.

[FRL 463-2]

PART 85—CONTROL OF AIR POLLUTION FROM NEW MOTOR VEHICLES AND NEW MOTOR VEHICLE ENGINES

PART 86—CONTROL OF AIR POLLUTION FROM NEW MOTOR VEHICLES AND NEW MOTOR VEHICLE ENGINES; CERTIFICATION AND TEST PROCEDURES

Labeling and Importation of Catalyst Equipped Vehicles

On June 30, 1975 the Environmental Protection Agency's regulations with respect to the importation of catalyst-equipped motor vehicles were published in the FEDERAL REGISTER (40 FR 27448). A petition for reconsideration of the promulgated regulations was subsequently received by the Environmental Protection Agency (EPA) from General Motors (GM) in a letter dated August 13, 1975. In light of the comments made by GM in its petition and the need for a number of technical amendments, the Agency has elected to amend the regulations to incorporate certain changes.

The regulations promulgated June 30, 1975, deny importation, except as a bonded entry, to all motor vehicles certified with catalysts which are driven outside the United States, Canada and Mexico unless the vehicles are part of an internal control program (hereafter, catalyst control program) operated by a vehicle manufacturer, the Department of State, or the Department of Defense and approved by the Administrator. The basis for such action was that unleaded gasoline would not be generally available for use overseas and continued use of leaded gasoline would permanently impair the conversion efficiency of the catalyst. Under these conditions, the catalyst-equipped vehicle would be almost certain to exceed applicable Clean Air Act standards. The regulations included provisions which require the use of either a joint DOT/EPA or EPA doorpost label to identify catalyst-equipped vehicles in order to differentiate between those vehicles which require a bond as a condition for admission from those admissible without a bond.

In its petition, GM (1) states that the regulations are not cost-effective and therefore should be withdrawn, (2) submits several labeling alternatives (some of which were similar to prior GM submittals in response to the Notice of Proposed Rulemaking) and requests that one of these be used in lieu of the present regulatory alternatives, (3) states that an inflationary impact statement should have been issued by EPA in accordance with the President's Executive Order 11821, dated November 27, 1974, and (4) requests reconsideration of the regulations because it considers the regulations unrealistic in the type of control they envision automobile manufacturers have over individual importers.

Comments (1) and (4) of the GM petition have already been considered and rejected by the Agency in the Rulemaking process leading to the June 30, 1975 regulations. GM did not submit any new information or arguments in these areas. Comment (3) was rejected because these regulations did not fall under the purview of Executive Order 11821 in that this was not a major proposal for legislation, regulations or rules. In regard to comment (2), four additional labeling options were considered, one of which is recommended as an acceptable alternative for incorporation into the regulations.

The present regulations provide that either (1) a new label can be added to the driver's doorpost where it can be more easily seen by Customs inspectors or (2) the necessary information can be placed on the DOT label already on the doorpost. The new option will permit manufacturers to add the necessary catalyst information to the certification label under the hood. These options enable manufacturers to have maximum labeling flexibility while ameliorating any potential lead-time problems.

In addition, certain technical changes are included in these amendments to correct inadvertent omissions in the June 30, 1975 FEDERAL REGISTER publication of the final regulations. The omissions pertaining to the 1976 model year consisted of deletions in the certification and labeling sections caused by incorrect numbering of certain paragraphs and typographical deletions. There were also inadvertent omissions from the recodification of the 1977 model year certification regulations published in the June 30, 1975 FEDERAL REGISTER. It was the Agency's intent that the certification and labeling regulations have general applicability for future model years, and therefore, the Agency is reinserting the omitted sections into the regulations.

The Agency finds it is in the public interest and that good cause exists for making these regulations effective December 18, 1975, and without receiving public comment since: (1) the technical amendments only correct inadvertent omissions in the FEDERAL REGISTER and, (2) none of the substantive changes in any way invalidate labeling procedures currently used by manufacturers as prescribed by regulation for the 1976 model year. Rather the changes provide additional labeling flexibility with no additional burden placed on either the public or the regulated industry.

These amendments are issued under the authority of sections 203, 206(a), and 301(a) of the Clean Air Act, as amended (42 U.S.C. 1857f–1, 1857–5, 1857g(a)).

Dated: December 12, 1975.

JOHN QUARLES,
Acting Administrator.

Parts 85 and 86 of Chapter I, Title 40 of the Code of Federal Regulations are amended as follows:

1. In section 85.076–30, paragraph (a)(3) is redesignated paragraph (a)(4), a new paragraph (a)(3) is added; and paragraph (b)(2) is revised as set forth below:

§ 85.076–30 Certification.

(a) • • •

(3) One such certificate will be issued for each engine family and will certify compliance with no more than one set of applicable standards.

(4) Certificates issued for vehicles certified with catalytic converters shall be subject to the following term in addition to the terms in paragraph (a)(2) of this section: "Catalyst-equipped vehicles, otherwise covered by this certificate, which are driven outside the United States, Canada, and Mexico will be presumed to have been operated on leaded gasoline resulting in deactivation of the catalysts. If these vehicles are imported or offered for importation without retrofit of the catalyst, they will be considered not to be within the coverage of this certificate unless included in a catalyst control program operated by a manufacturer or a United States Government Agency and approved by the Administrator." Certificates for the 1976 model year which have been issued before the effective date of this subparagraph shall be subject to this term.

• • • • • •

(b) • • •

(2) The Administrator will proceed as in paragraph (a) of this section with respect to the vehicles belonging to an engine family all of which comply with one set of applicable standards.

• • • • • •

2. In section 85.076–35, paragraphs (a)(4)(v) and (c) are revised as follows:

§ 85.076–35 Labeling.

(a) • • •

(4) • • •

(v) The statement: "This Vehicle Conforms to U.S. E.P.A. Regulations Applicable to 1976 Model Year New Motor Vehicles" or "This Vehicle Conforms to U.S. E.P.A. Regulations Applicable to 1976 Model Year New Motor Vehicles, with the exception of the carbon monoxide standard for California," whichever is applicable.

• • • • • •

(c)(1) The manufacturer of any light duty motor vehicle subject to the standards prescribed in § 85.076–1 shall, in addition and subsequent to setting forth those statements on the label required by the Department of Transportation (DOT) pursuant to 49 CFR 567.4, set forth on the DOT label or on an additional label located in proximity to the DOT label and affixed as described in 49 CFR 567.4(b) the following information in the English language, lettered in block letters and numerals not less than three thirty-seconds of an inch high, of a color that contrasts with the background of the label: (i) The Heading: "Vehicle Emission Control Information"; (ii) The Statement: "This vehicle conforms to U.S. E.P.A. Regulations Applicable to 1976 Model Year New Motor Vehicles"; (iii) One of the following statements, as applicable, in letters and numerals not less than six thirty-seconds of an inch high and of a color that contrasts with the background of the label:

(A) For all vehicles certified as non-catalyst-equipped: "NON-CATALYST"

(B) For all vehicles certified as catalyst-equipped which are included in a manufacturer's catalyst control program for which approval has been given by the Administrator: "CATALYST—APPROVED FOR IMPORT"

(C) For all vehicles certified as catalyst-equipped which are not included in a manufacturer's catalyst control program for which prior approval has been given by the Administrator: "CATALYST"

(2) In lieu of selecting either of the labeling options of paragraph (c)(1) of this section, the manufacturer may add the information required by paragraph (c)(1)(iii) of this section to the label required by paragraph (a) of this section. The required information will be set forth in the manner prescribed by paragraph (c)(1)(iii).

3. In section 86.077–30, a new paragraph (a)(7) is added, and reads as follows:

§ 86.077–30 Certification.

(a) • • •

(7) Certificates issued for light duty vehicles or light duty trucks certified with catalytic converters shall be subject to the following term in addition to the term in paragraph (a)(2) of this section: "Catalyst-equipped vehicles, otherwise covered by this certificate, which are driven outside the United States, Canada, and Mexico will be presumed to have been operated on leaded gasoline resulting in deactivation of the catalysts. If these vehicles are imported or offered for importation without retrofit of the catalyst, they will be considered not to be within the coverage of this certificate unless included in a catalyst control program operated by a manufacturer or a United States Government Agency and approved by the Administrator."

• • • • • •

4. In section 86.077–35, paragraph (c) is added and reads as follows:

§ 86.077–35 Labeling.

• • • • • •

(c)(1) The manufacturer of any light duty vehicle or light duty truck subject to the standards prescribed in § 86.077–8 or § 86.077–9 shall, in addition and subsequent to setting forth those statements on the label required by the Department of Transportation (DOT) pursuant to 49 CFR 567.4, set forth on the DOT label or on an additional label located in proximity to the DOT label and affixed as described in 49 CFR 567.4(b) the following information in the English language, lettered in block letters and numerals not less than three thirty-seconds of an inch high, of a color that contrasts with the background of the label:

(i) The Heading: "Vehicle Emission Control Information"

(ii) The Statement: "This Vehicle Conforms to U.S. EPA Regulations Applicable to 1977 Model Year New Motor Vehicles"

(iii) One of the following statements, as applicable, in letters and numerals not less than six thirty-seconds of an inch high and of a color that contrasts with the background of the label:

(A) For all vehicles certified as non-catalyst-equipped: "NON-CATALYST"

(B) For all vehicles certified as catalyst-equipped which are included in a manufacturer's catalyst control program for which approval has been given by the Administrator: "CATALYST—APPROVED FOR IMPORT"

(C) For all vehicles certified as catalyst-equipped which are not included in a manufacturer's catalyst control program for which prior approval has been given by the Administrator: "CATALYST"

(2) In lieu of selecting either of the labeling options of paragraph (c)(1) of this section, the manufacturer may add the information required by paragraph (c)(1)(iii) of this section to the label required by paragraph (a) of this section. The required information will be set forth in the manner prescribed by paragraph (c)(1)(iii).

[FRL 469-7; PP5F1536/R71]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Glyphosate

On September 23, 1974, the Environmental Protection Agency (EPA) announced (39 FR 34098) that Monsanto Co., 800 N. Lindbergh Blvd., St. Louis MO 63116, had filed a pesticide petition (PP 5F1536). This petition proposed that 40 CFR 180 be amended by the establishment of tolerances for negligible residues of the herbicide glyphosate (*N*-(phos-

V40244 DEC 18 75 XUM

phonomethyl)-glycine) and its metabolite aminomethylphosphonic acid in or on the following raw agricultural commodities:

Commodity:	Parts per million
Grain crops	0.1 (N)
Grasses, forage	.2 (N)
Soybeans	.2 (N)
Soybeans, forage	.4
Soybeans, hay	.4

Forage grasses at 0.2 part per million (ppm)
Soybean forage and hay at 0.2 ppm.
Grain crops at 0.1 ppm.
Soybeans at 0.1 ppm.

Monsanto Co. subsequently amended the petition by: (1) increasing the proposed tolerance for residues in soybean forage and soybean hay from 0.2 to 0.4 ppm; and (2) increasing the proposed tolerance for negligible residues in soybeans from 0.1 to 0.2 ppm.

The data submitted in the petition and other relevant material have been evaluated, and the herbicide is considered to be useful for the purpose for which the tolerances are sought. There is no reasonable expectation of residues in eggs, meat, milk, or poultry as delineated in 40 CFR 180.6(a)(3). The tolerances established by amending 40 CFR 180 will protect the public health, and it has been concluded, therefore, that the tolerances should be established as set forth below.

Any person adversely affected by this regulation may, on or before January 19, 1976, file written objections with the Hearing Clerk, Environmental Protection Agency, Room 1019, East Tower, 401 M St. SW, Washington DC 20460. Such objections should be submitted in quintuplicate and should specify both the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective December 18, 1975, Part 180, Subpart C, is amended by adding the new § 180.364 as set forth below.

Dated: December 11, 1975.

JOHN B. RITCH, Jr.,
Acting Deputy Assistant Administrator for Pesticide Programs.

Section 408(d)(2) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(d)(2)).

Part 180, Subpart C, is amended by adding the new § 180.364 which establishes the following tolerances for combined residues of the herbicide glyphosate and its metabolite aminomethylphosphonic acid in or on raw agricultural commodities:

1. Soybean forage and hay at 0.4 part per million (ppm).

2. Forage grasses and soybeans at 0.2 ppm negligible residues (N).

3. Grain crops at 0.1 ppm (N).

§ 180.364 Glyphosate; tolerances for residues.

Tolerances are established for combined residues of the herbicide glyphosate (*N*-(phosphonomethyl) glycine) and its metabolite aminomethylphosphonic acide in or on the following raw agricultural commodities:

Commodity:	Parts per million
Grain crops	0.1 (N)
Grasses, forage	.2 (N)
Soybeans	.2 (N)
Soybeans, forage	.4
Soybeans, hay	.4

[FR Doc.75-34019 Filed 12-17-75;8:45 am]

[FRL 468-6; PP5F1621/R70]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Fluchloralin

On May 8, 1975, the Environmental Protection Agency (EPA) announced (40 FR 20129) that BASF Wyandotte Corp., 100 Cherry Hill Rd., PO Box 181, Parsippany NJ 07054, had filed a pesticide petition (PP5F1621). This petition proposed that 40 CFR 180 be amended by the establishment of a tolerance for negligible residues of the herbicide fluchloralin (*N* - (2-chloroethyl)-α,α,α-trifluoro-2,6-dinitro-*N*-propyl-*p*-toluidine), in or on the raw agricultural commodities cottonseed and soybeans at 0.05 part per million (ppm).

Temporary tolerances have been established previously for residues of fluchloralin on cottonseed and soybeans in connection with an experimental use permit issued to BASF Wyandotte. On February 26, 1974, the EPA gave notice (39 FR 7483) that BASF Wyandotte had been granted a temporary tolerance for negligible residues of the herbicide in or on cottonseed at 0.05 ppm. This temporary tolerance was subsequently extended for one year on March 21, 1975 (40 FR 12842) and will expire March 17, 1976. On February 10, 1975 (40 FR 6227), a temporary tolerance was established for negligible residues of fluchloralin in or on the raw agricultural commodity soybeans at 0.05 ppm which will expire February 4, 1976.

The data submitted in the petition and other relevant material have been evaluated, and the herbicide is considered to be useful for the purpose for which the tolerance is sought. There is no reasonable expectation of residues in eggs, meat, milk, or poultry as delineated in 40 CFR 180.6(a)(3). The tolerance established by amending 40 CFR 180 will protect the public health, and it has been concluded, therefore, that the tolerance should be established as set forth below.

Any person adversely affected by this regulation may, on or before January 19, 1976, file written objections with the Hearing Clerk, Environmental Protection Agency, Room 1019, East Tower, 401 M St. SW, Washington DC 20460. Such objections should be submitted in quintuplicate and should specify both the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective on December 18, 1975, Part 180, Subpart C, is amended by adding the new § 180.363 set forth below.

Dated: December 9, 1975.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

(Sec. 408(d)(2) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(d)(2)).)

Part 180, Subpart C, is amended by adding the new § 180.363 which establishes a tolerance of 0.05 part per million for negligible residues of the herbicide fluchloralin in or on the raw agricultural commodities cottonseed and soybeans, as follows:

§ 180.363 Fluchloralin; tolerances for residues.

Tolerances are established for negligible residues (N) of the herbicide fluchloralin (*N* - (2 - chloroethyl) - α,α,α - trifludro - 2,6 - dinitro - *N* - propyl - p-toluidine) in or on the following raw agricultural commodities:

Commodity	Parts per million
Cotton, seed	0.05 (N)
Soybeans	0.05 (N)

[FR Doc.75-34127 Filed 12-17-75;8:45 am]

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

APPENDIX—PUBLIC LAND ORDERS

[PUBLIC LAND ORDER 5560; (OR-1943)]

OREGON

Withdrawal of Lands for Construction of Forest Development Road; Partial Revocation of Public Land Order No. 4392

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subject to valid existing rights and to the provisions of existing withdrawals, the following described public lands are hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws, 30 U.S.C., Ch. 2, but not from leasing under the mineral leasing laws, nor the disposal of materials under the Act of July 31, 1947, as amended, 30 U.S.C. 601-604 (1970), and reserved for use of the Department of Agriculture for the construction of a forest development road and for the granting of easements for road rights-of-way as authorized by section 2 of the Act of October 13, 1964, 16 U.S.C. 532, 533 (1970):

WILLAMETTE MERIDIAN

CRESCENT CREEK ROAD

T. 24 S., R. 9 E.,
Sec. 4, SW¼NE¼ and SE¼NW¼.

A strip of land 66 feet in width, being 33 feet on each side of the centerline of Crescent Creek Road No. 2320 in and through the above subdivisions, beginning at about station 14+00 and ending at about 28+00 as shown on map filed by the Forest Service with the Bureau of Land Management, October 25, 1974. Containing 2.1 acres more or less in Klamath County.

2. Public Land Order No. 4392 of April 1, 1968, withdrawing lands for road purposes is hereby revoked so far as it affects the following described lands as shown on a map filed by the Forest Service on June 27, 1967:

WILLAMETTE MERIDIAN

CRESCENT CREEK ROAD

T. 24 S., R. 9 E.,
Sec. 4, SW¼NE¼ and SE¼NW¼.

A strip of land 66 feet in width, being 33 feet on each side of the centerline of that segment of Crescent Creek Road in the above subdivisions, being relocated in land described in paragraph 1, and shown on map referred to in paragraph 1. Containing 2.5 acres more or less in Klamath County.

3. The purpose of this order is to allow for the realignment and relocation of a segment of a forest development road and for the replacement of an unsafe road bridge located on the lands described in paragraph 2 of this order.

4. The withdrawal made by this order shall not preclude entries, dispositions, or leases under applicable public land laws, of any legal subdivision traversed by any forest development road constructed on any lands withdrawn by this order: Provided, that any such entry, disposition, or lease shall be subject to this order and to any road right-of-way easement over the lands issued by the Department of Agriculture.

JACK O. HORTON,
Assistant Secretary of the Interior.

DECEMBER 11, 1975.

[FR Doc.75-34117 Filed 12-17-75;8:45 am]

Title 45—Public Welfare

CHAPTER X—COMMUNITY SERVICES ADMINISTRATION

PART 1061—CHARACTER AND SCOPE OF SPECIFIC COMMUNITY ACTION PROGRAMS

CSA Policy Re Grants Funded Under Title X of the Public Works and Economic Development Act of 1965

On November 10, 1975 CSA published its rules on funding grants under Title X of the Public Works and Economic Development Act of 1965. The purpose of this filing is to correct an omission in the list of agencies/organizations whose projects were selected for funding and to delete two agencies from that list. The two agencies are to be deleted from Appendix A to subparts 1061.40-1-1061.40-9 because their projects are to be funded by another Federal agency and one agency is being added since it was inadvertently not included in Appendix A although funds have been reserved by Commerce for two of its projects. As a result of these actions, the Title X funds to be transferred to the Community Services Administration by the Department of Commerce will now total $63.9 million rather than the previously announced $64.6 million.

The provisions of this subpart issued under sec. 602, 78 Stat. 530; 42 U.S.C. 2942.

Effective: December 18, 1975.

BERT A. GALLEGOS,
Director.

In § 1061.40-1-§ 1061.40-9, Appendix A is amended as follows:

Delete: Passamaquoddy Indian Tribal Council, Pleasant Point, Perry, Maine 04667.

(a) Pleasant Point landscaping and shore reclamation	$283,992

Delete: Toledo Economic Planning Association, 1810 Madison Ave., Toledo, Ohio.

(a) Energy conservation through winterization	440,000

Add: Choanoke Area Development Association, Main and 3d Sts., Murfreesboro, N.C. 27855.

(a) Low-income housing	166,527
(b) Transportation	88,884

Title 50—Wildlife and Fisheries

CHAPTER I—FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 33—SPORT FISHING

Valentine National Wildlife Refuge

The following special regulation is issued and is effective on December 18, 1975.

§ 33.5 Special regulations; sport fishing for individual refuge areas.

NEBRASKA

VALENTINE NATIONAL WILDLIFE REFUGE

Sport fishing on the Valentine National Wildlife Refuge, Nebraska is permitted only on the areas designated by signs as open to fishing. These open areas comprising 2,457 acres of water on the refuge, are delineated on maps available at the refuge headquarters and from the office of the Area Manager, U.S. Fish & Wildlife Service, P.O. Box 250, Pierre, South Dakota 57501.

Sport fishing shall be in accordance with all applicable State regulations subject to the following special regulations:

(1) The open season for sport fishing on the refuge during daylight hours only, will be from January 1, 1976 through December 31, 1976.

(2) Hook and line, bow and arrow, and hand spear fishing only are permitted.

(3) Boats with or without electric-type outboard motors are permitted on lakes open to sport fishing in accordance with State boating regulations. Internal combustion type motors are prohibited.

(4) The use or possession of live minnows or fish for bait or the possession of any seine or net for capturing live minnows is prohibited. Dead minnows or parts thereof, may be used as bait.

The provisions of this special regulation supplement the regulations which govern sport fishing on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1976.

ROBERT M. ELLIS,
Refuge Manager, Fort Niobrara-Valentine Complex, Valentine, Nebraska.

NOVEMBER 25, 1975.

Title 7—Agriculture

CHAPTER VI—SOIL CONSERVATION SERVICE, DEPARTMENT OF AGRICULTURE

PART 631—GREAT PLAINS CONSERVATION PROGRAM

Correction

In FR Doc. 75-31088, published at page 53370 in the issue dated Tuesday, November 18, 1975, the following changes should be made:

1. In table of sections, in § 631.17, first line following "payments", delete "be-". In second line preceding "between", delete "ments".

2. In paragraph (b)(2) of § 631.25, fifth line from bottom of paragraph, delete "produced" and insert "producer".

3. In paragraph (e)(1) of § 631.25, seventh line, delete "or grants".

(Catalog of Federal Domestic Assistance Program No. 10.900 National Archives Reference Services.)

DECEMBER 9, 1975.

EDWARD E. THOMAS,
Acting Administrator.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Regulation 358]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period Dec. 19-25, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907. The quantity of Navel oranges so fixed was arrived at after consideration of the total available supply of Navel oranges, the quantity currently available for market, the fresh market demand for Navel oranges, Navel orange prices, and the relationship of season average returns to the parity price for Navel oranges.

V 40 244 DEC 18 75 XUM

§ 907.658 is added as set forth below:

§ 907.658 Navel Orange Regulation 358.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the respective quantities of Navel oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Navel orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Navel oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Navel oranges continues to be excellent with demand exceeding available supplies, which are limited largely because of maturity and weather. Prices f.o.b. averaged $4.25 a carton on a reported sales volume of 995 carlots last week, compared with an average f.o.b. price of $4.44 per carton and sales of 996 carlots a week earlier. Track and rolling supplies at 472 cars were up 56 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Navel oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on December 16, 1975.

(b) *Order.* (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period December 19, 1975, through December 25, 1975, are hereby fixed as follows:

(i) District 1: 705,000 cartons;

(ii) District 2: Unlimited movement;

(iii) District 3: 45,000 cartons."

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended: 7 U.S.C. 601–674)

Dated:

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 913—GRAPEFRUIT GROWN IN THE INTERIOR DISTRICT IN FLORIDA

Expenses and Rate of Assessment

This document authorizes expenses of $30,500 of the Interior Grapefruit Marketing Committee, under Marketing Order No. 913, for the 1975–76 fiscal period and fixes a rate of assessment of $0.005 per standard packed box of grapefruit handled in such period to be paid to the committee by each first handler as his pro rata share of such expenses.

On November 21, 1975, notice of proposed rulemaking was published in the FEDERAL REGISTER (40 FR 54252) regarding proposed expenses and the related rate of assessment for the period August 1, 1975, through July 31, 1976, pursuant to the marketing agreement, as amended, and Order No. 913, as amended (7 CFR Part 913), regulating the handling of grapefruit grown in the Interior District in Florida. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The notice provided that all written data, views, or arguments in connection with said proposals be submitted by December 10, 1975. None were received. After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Interior Grapefruit Marketing Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

§ 913.211 Expenses and rate of assessment.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Interior Grapefruit Marketing Committee during the period August 1, 1975, through July 31, 1976, will amount to $30,500.

(b) *Rate of Assessment.* The rate of assessment for said period, payable by each handler in accordance with § 913.31, is fixed at $0.005 per standard packed box of grapefruit.

(c) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of grapefruit are now being made, (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment herein fixed shall be applicable to all assessable grapefruit handled during the aforesaid period, and (3) such period began on August 1, 1975, and said rate of assessment will automatically apply to all such grapefruit bginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 15, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-34146 Filed 12-17-75;8:45 am]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE INTERIOR

National Park Service

[36 CFR Part 50]

NATIONAL CAPITAL PARKS REGULATIONS

Demonstrations and Special Events; Permit Requirements

By court direction, the Secretary of the Interior must now undertake to revise what has heretofore been designated as the "public gathering" permit regulations appearing in section 50.19 of the Code of Federal Regulations, Title 36, Part 50. Part 50 contains the regulations specifically applicable to park areas administered by National Capital Parks, National Park Service, in the District of Columbia and its environs. The Secretary now has under consideration the proposed complete revision, set forth below, of the provisions of 36 CFR 50.19. That proposed regulation constitutes the park-use permit system governing "demonstrations" and "special events" (as defined in the proposed regulation) sought to be concluded in National Capital Parks areas.

National Capital Parks park-use permit regulation, 36 CFR 50.19, has been the subject of extensive litigation in *A Quaker Action Group* v. *Morton*. The United States Court of Appeals for the District of Columbia Circuit entered the final decision in that case (in Appeal Nos. 73–2061 and 73–2190) on January 24, 1975 amended June 25, 1975. See 516 F. 2d 717 (1975). Pursuant to that final decision of the Court of Appeals, the United States District Court for the District of Columbia entered its order on mandate implementing the Court of Appeals decision, *A Quaker Action Group* v. *Kleppe*, Civ. No. 688–69 (D.D.C. Nov. 21, 1975). This order on mandate specifically requires that the Secretary amend the provisions of 36 CFR 50.19 in certain respects and provides a time framework for the Secretary's rulemaking proceedings. The present rulemaking proceedings are designed to carry out the Secretary's responsibilities under the District Court order on mandate.

Because this order on mandate is the essential basis for the present proposed revision of the park-use permit system, the relevant portions of that order are set out as follows:

Ordered: 1. That the 100/500 limitations on demonstrations on the sidewalk in front of the White House and in Lafayette Park contained in the August, 1967, memorandum of T. Sutton Jett and subsequently incorporated in the revised Regulations of the Department of the Interior are invalid and void as an unconstitutional infringement of the plaintiffs' rights to freedom of speech and to assemble peacefully and petition that Government for a redress of grievances.

2. That any limitation of less than 750/3000 on demonstrations on the sidewalk in front of the White House and in Lafayette Park is invalid and void as an unconstitutional infringement of plaintiffs' rights to freedom of speech and to assemble peaceably and petition the Government for a redress of grievances.

a. The Defendant Secretary of the Interior shall issue an amendment to the provisions of 36 CFR § 50.19 which shall provide for minimum limitations equal to or greater than 750/3000 on demonstrations on the sidewalk in front of the White House and in Lafayette Park respectively, and which shall supersede the Secretary's Notice published on September 6, 1973 at 38 F.R. 24218.

b. Such amendment shall make provision for a waiver procedure under which the minimum limitation applicable to Lafayette Park may be waived by the Secretary under appropriate standards, including a requirement that applicants make an adequate showing that their proposed demonstration had been planned and would be patrolled in such fashion as to render unlikely any substantial risk to the occupants or officers of the White House or adjoining office buildings. Provision may also be made therein of a requirement that applicants furnish more information for waiver requests than they must for ordinary permit applications, including information as to the capability of the sponsors to establish crowd control techniques and to supply emergency aid and facilities.

c. Once such a waiver procedure is established for Lafayette Park, as required by (b) above, and the Secretary's experience thereunder over a reasonable period of time indicates the practicability thereof, the Secretary shall by further amendment to 36 CFR § 50.19 consider the extension of a like waiver to the minimum limitation applicable to the White House sidewalk.

d. Pending the amendments to 36 CFR § 50.19 as provided in this Order, there shall be effective a limitation of 750/3000 on demonstrations on the sidewalk in front of the White House and in Lafayette Park respectively, unless the limitation shall be waived by the Secretary for good cause shown, and during this period if application is made for waiver and refused by the Secretary, the applicant may apply to this Court in this cause for a waiver.

3. That the permit requirement of 36 CFR § 50.19 does not confer impermissibly broad discretion on government officials to grant or deny permits in violation of First Amendment rights except as set forth in this paragraph and in paragraphs 1 and 2 of this Order. In order that the permit system of 36 CFR § 50.19 falls within limits imposed by the First Amendment, the Secretary shall, after appropriate rule-making proceedings, issue amendments to 35 CFR § 50.19 in accordance with this Order.

a. Such amendments shall define the activities subject to the permit requirement in terms which will ensure that the regulation does not impermissibly discriminate against First Amendment activities. Any distinctions upon which such definition is based must turn on security criteria rather than on free speech criteria.

b. Such amendments shall provide specific implementing standards for denial or withdrawal of an individual permit and shall provide for principled consideration under such standards by an official of responsible rank and function.

c. Such amendments shall remove the exemption from the permit requirement of "NPS events," and, if the Secretary determines to retain the designation "NPS events," shall prescribe express standards governing the grant or denial of such designations. Similar designations of events to receive preferential treatment under the permit system shall also be the subject of express standards and procedures as to grant or denial of such designations.

d. Such amendments shall provide that an application for a permit is to be deemed granted unless within 24 hours after submission a written statement of reasons for denial is furnished. The requirement that applications be submitted at least 48 hours in advance of public gatherings is valid.

e. The *per se* ban on continuous public gatherings lasting beyond 24 hours or beyond 7 consecutive days is illegal and void. However, the Secretary may require, and amendments to 36 CFR § 50.19 may provide, that any permit for a period beyond a specified duration is subject to displacement if other applicants seek a permit which does not admit of double occupancy.

f. The restrictions on rush hour public gatherings are valid.

g. The ban on the use of sound amplification system on the White House sidewalk is valid.

h. The requirement of marshals for simultaneous public gatherings in Lafayette Park and the White House sidewalk is valid.

4. That, in taking the actions directed by paragraphs 2 and 3 of this Order, the defendants shall consider those alternatives less restrictive of public gatherings suggested by the Court of Appeals, including a notice system instead of a permit system, the exemption of smaller gatherings from any requirements, waiver of rush hour provisions, and the strengthening of the White House fence

* * * * * *

A Quaker Action Group v. *Kleppe*, Civ. No. 688–69 (D.D.C., Nov. 21, 1975) *.* *.

In complying with the provisions of the above quoted court order on mandate, the Secretary has given due reflective consideration to the legitimate park value and the security concerns operative in the National Capital Parks areas. In this connection, attention is invited to the Secretary's "Prefatory Statement" which accompanied publication of the earlier 36 CFR 50.19 revision in proposed form on July 17, 1970 (35 FR 11485, et seq.). The Secretary's pertinent policy judgments and discussion with regard to park value and security concerns as contained therein are incorporated here by reference. The present proposed regulation set forth below is intended to comply with the requirements of the court order on mandate, accommodating the speech-related and associational interests involved, while yet protecting the legitimate park value and security concerns discussed in the Secretary's "Prefatory Statement" of July 17, 1970.

V 40244 DEC 18 75 XUM

The present proposed revision to 36 CFR 50.19 retains the park use permit system. It undertakes with more precision to define the speech-related, associational and recreational activities which are subject to the permit requirement under the regulation. Those activities requiring a permit are classified into two categories: one is termed "demonstrations" and the other "special events". The essential characteristic of both is that those activities have an effect, intent or propensity to draw a crowd of onlookers. By specifying this essential characteristic, the proposed regulation means to encompass by the permit requirements solely those forms of conduct which either by their purpose or nature are likely to draw persons into an area in greater numbers than ordinarily occur when casual use is made by park visitors or tourists in the particular park area.

This essential characteristic of the use of park areas for speech-related, associational, or recreational purposes affects the Park Service's planning and ability to maintain an effective level of protection in the particular park area. The proposed permit provisions set forth below are calculated to allow the Park Service sufficient notice and control over such speech-related, associational or recreational use of park areas, so as to insure that proper security precautions and augmentation of forces may be undertaken to meet contingencies as required by the circumstances. It is considered that this fully conforms to the court mandate that the Secretary's permit requirement distinctions turn on security rather than free-speech criteria.

The present proposed regulation, in distinguishing between "demonstrations" and "special events", seeks to achieve a better accommodation of speech-related (and connected associational) activities than is considered desirable for other associational activities. The term "demonstrations" encompasses activities which have as their primary purpose the communication or expression of views or grievances. The term "special events" is defined so as to encompass all other associational activities within the reach of the regulation, e.g. recreational (including entertainment) activities that have the indicated effect, intent or propensity to draw onlookers. The proposed regulation extends preferred treatment to speech-related (and connected associational) activities in a number of respects.

However, no distinction is made between demonstrations and special events, insofar as priority of access to park areas is concerned. Use of park land is on a first-come, first-served basis. The use of a particular park area will be granted in order of receipt of fully executed permit application forms. Also, there are certain annually recurring "national celebration" events which are listed in section (d)(1) of the proposed regulation. These special events are given use of the specific park sites for the dates listed. This priority of use is based strictly on the first-come, first-served basis. It is noted that these annually recurrent events are planned and budgeted for the same park areas and times year after year. This is considered to be in accord with the Court of Appeals expressed views. See 516 F. 2d at 729.

Demonstrations are otherwise given preferred treatment over special events in the following respects: Demonstrations are permitted in Lafayette Park and on the White House sidewalk, whereas special events are not. Demonstrations are permitted to continue in duration beyond a specified time period, unless another application seeks use of the area which does not admit of double occupancy. Special events are not permitted to continue beyond the specified period even though no other applicant has requested use of the area. Demonstration permit applications are deemed granted unless denied within 24 hours of receipt. But special events applications require that written permits be granted or denied within a reasonable time. Also, special events will not be permitted if the criteria outlined in section (e)(6) of the proposed regulation are not met. Those criteria are designed to reduce the total number of special events occurring on park lands so as to minimize the impact on park respurces and to assure that the proposed programs are not inconsistent with the purposes for which the park is established, can be permitted consistent with a reasonable allocation of the park budgetary resources, and are not duplicative of other events offered in the park or other nearby areas. No such requirements are imposed on demonstration activities.

It is considered that the preferential treatment accorded speech-related (and connected associational) activities, and the elimination of "NPS events" (thereby requiring permits for all activities subject to the regulation, including those presented by the National Park Service) meet the requirement of paragraph 3c of the District Court order on mandate.

With regard to Lafayette Park and the White House sidewalk, the proposed regulation adopts the limitation of 750 persons for the White House sidewalk and 3,000 persons for Lafayette Park. The 3,000 person limitation for Lafayette Park may be waived upon an adequate showing by the applicant that the proposed demonstration will be patrolled in such a fashion as to render unlikely any substantial risk to the occupants or officers of the White House or adjoining office buildings. In this connection the applicant seeking the waiver must provide certain information with regard to the number of demonstration marshals to be furnished, their training and experience, emergency crowd control techniques to be utilized and the type and amount of emergency aid and facilities to be furnished. The District Court order provides that upon implementation of the waiver procedure for Lafayette Park, if the practicality thereof is indicated by experience over a reasonable period of time, the Secretary must consider further amendment of 36 CFR 50.19, so as to extend the waiver provision to demonstrations on the White House sidewalk. This will be considered by the Secretary in further rulemaking proceedings at a later time.

The proposed regulation also provides express standards for the denial or revocation of permits as required by paragraph 3b of the District Court order. It allows denial of a demonstration or special event permit by the Director or his authorized delegate if the area requested has been or will be committed to another group; the activity will present a clear and present danger to the public safety, good order, or health; the activity proposed cannot reasonably be accommodated in the area requested (in which case an alternative area will be proposed); or the application proposes activities contrary to applicable laws or regulations. The regulation requires (section f) that revocation of a demonstration permit in advance of the conduct of the demonstration be personally approved by the Director, National Capital Parks, or in his absence or unavailability, by an authorized delegate of responsible rank and function. It further provides that such revocation must be based upon the standards contained in subsection (d). The regulation provides for revocation of a demonstration permit during the course of the demonstration by the ranking U.S. Park Police supervisory official in charge if continuation of the demonstration presents a clear and present danger to public safety, good order, or health, or for any violations of applicable law or regulation. Permits for special events are revocable at any time in the reasonable discretion of the Director or his delegate.

The proposed regulation retains the requirement that a permit for activities proposed for the White House area (Lafayette Park, the White House sidewalk and the Ellipse) must be filed so as to be received by the Director, National Capital Parks at least 48 hours in advance of the proposed activity. The proposed regulation extends this provision to all other park areas where a permit is required. In accord with paragraph 3d of the District Court order, the proposed regulation provides that demonstration applications will be deemed granted within 24 hours of receipt unless a written denial of the application is issued upon the approval of the Director. It also requires that applications be received during the hours from 8:00 am to 4:00 pm, Monday through Friday, except legal holidays. Applications will be immediately date-and-time stamped upon receipt and the time periods will begin from the stamped date and time. This provision for official receipt only during office hours is designed to permit the Park Service to properly process applications within the prescribed time period. The proposed regulation also provides that applications for special events will be processed with reasonable promptness. The 24-hour time limitation does not apply to applications for special events.

The provision in the current regulation prohibiting activities lasting beyond 24 hours or beyond seven consecutive days has been eliminated from the proposed regulation pursuant to the direction in paragraph 3c of the District Court order.

However, a provision has been included in the present proposed regulation limiting activities in the White House area to seven days, except that activities are permitted on the Ellipse for a period of three weeks. For all other park areas, the duration limitation is three weeks. This duration restriction applies to all special events. However, with respect to demonstration, the activity will be permitted to continue beyond the specified time periods, unless another application seeks a permit for use of the area which would not admit of double occupancy. The National Park Service will begin permitting activities under the revised duration restrictions immediately. However, with respect to those activities for which permits have already been granted and the activity planned in such a fashion that compliance with the duration limits would work an undue hardship, those activities will be permitted for the time periods and areas already authorized.

In accord with the provisions of paragraph 4 of the District Court order, the Department of the Interior together with representatives of the United States Secret Service has considered those alternatives less restrictive of public gatherings suggested by the Court of Appeals, including a notice system instead of a permit system, the exemption of smaller gatherings from any requirements, the strengthening of the White House fence and waiver of rush hour provisions. It has been determined that a notice system would not serve effectively to protect the legitimate park value and security concerns involved and in particular would create unreasonable burdens in coordinating simultaneous multiple demonstrations and special events activities. The exemption of smaller gatherings likewise was not considered feasible, because of the possibility that the proliferation of numerous simultaneous small gatherings would impart like burdens as one large gathering, and their overlapping with large gatherings would create myriad security and enforcement problems. Strengthening the White House fence was also considered. It was felt that a fence of sufficient character would amount to a solid wall which would create an undesirable garrison-type appearance and which would deprive visitors of a view of the White House.

It has been determined that the restrictions on activities during rush hour periods may be waived upon a showing that the proposed activity will not unreasonably interfere with rush hour traffic. This waiver provision is incorporated within § 50.19(e)(5) of the proposed regulation.

While it is the tentative judgment of the Secretary that these other methods do not afford sufficient control to provide protection to the operative park value and security interests in the area, the views of the public, in this regard are earnestly solicited, in the manner noted below, and will be given reflective consideration.

Submittal of Written Comments

Interested persons may participate in these rulemaking proceedings by submission of written comments to the Director, National Capital Parks, National Park Service, 1100 Ohio Drive, SW., Washington, D.C. 20242. All comments received on or before February 17, 1976, will be considered. The Service will attempt to acknowledge individual comments, but substantive responses to individual comments may not be provided. Comments received will be available for public inspection during normal business hours (8 am–4 pm, Mon.–Fri.) at the Director's Office, National Capital Parks, 1100 Ohio Drive, SW., Washington, D.C.

This notice of proposed rulemaking is issued under the authority of the Acts of August 25, 1916, (16 USC 1, et. seq.) and July 1, 1898, (8 D.C. Code 108, et. seq.) and all laws amendatory and supplementary thereto and pursuant to the order on mandate issued by the United States District Court for the District of Columbia in *A Quaker Action Group v. Kleppe*, Civ. No. 688–69 (D.D.C. Nov. 21, 1975).

Dated: December 12, 1975.

NATHANIEL P. REED,
Acting Secretary of the Interior.

Accordingly, it is hereby proposed to revise § 50.19 to read as follows.

§ 50.19 Demonstrations and special events.

(a) Definitions:

(1) The term "demonstrations" includes demonstrating, picketing, speechmaking, marching, holding of vigils and all other like forms of conduct which involve the communication or expression of views or grievances, engaged in by one or more persons, the conduct of which has the effect, intent or propensity to draw a crowd or onlookers. This term does not include casual park use by visitors or tourists which does not have an intent or propensity to attract a crowd or onlookers.

(2) The term "special events" includes sports events, pageants, celebrations, historical reenactments, regattas, entertainments, exhibitions, parades, fairs, festivals and similar events (including such events presented by the National Park Service), which are not demonstrations under (1) above, and which are engaged in by one or more persons, the conduct of which has the effect, intent or propensity to draw a crowd or onlookers. This term also does not include casual park use by visitors or tourists which does not have an intent or propensity to attract a crowd or onlookers.

(3) The term "national celebration events" means the annually recurring special events regularly scheduled by National Capital Parks, which are listed in (d)(1) below.

(4) The term "White House area" means all park areas, including sidewalks adjacent thereto, within these bounds: on the south, Constitution Avenue, NW.; on the north, H Street, NW.; on the east, 15th Street, NW.; and on the west, 17th Street, NW.

(5) The term "White House sidewalk" means the south sidewalk of Pennsylvania Avenue, NW., between East and West Executive Avenues, NW.

(6) The term "Lafayette Park" means the park areas, including sidewalks adjacent thereto, within these bounds: on the south, Pennsylvania Avenue, NW.; on the north, H Street, NW.; on the east, Madison Place, NW.; and on the west, Jackson Place, NW.

(7) The term "Ellipse" means the park areas, including sidewalks adjacent thereto, within these bounds: on the south, Constitution Avenue, NW.; on the north, E Street, NW.; on the west, 17th Street, NW.; and on the east, 15th Street, NW.

(8) The term "Kennedy Center" means the areas, under the administration of the National Park Service within the National Cultural Institution known as the Kennedy Center and the sidewalks immediately surrounding that National Institution.

(9) The term "Lincoln Memorial" means the park areas enclosed by Lincoln Memorial Circle roadway.

(10) The term "Jefferson Memorial" means the circular portion of the Jefferson Memorial enclosed by the outermost series of columns, and all portions on the same levels or above the base of those columns.

(11) The term "Washington Monument" means the structure known as the Washington Monument and all space extending ten feet from the paved area surrounding its base, and the sidewalk from that base extending to 15th Street, and ten feet on either side thereof.

(12) The term "Constitution Gardens" means the park area within these bounds: on the north, Constitution Avenue, NW.; on the south, the north reflecting pool walk extending westerly from 17th Street, NW. to Bacon Drive, NW.; on the east, 17th Street, NW.; and on the west, Bacon Drive, NW.

(13) The term "Director" means the Director, National Capital Parks, National Park Service, U.S. Department of the Interior, or his authorized representative.

(14) The term "other park areas" includes all areas, including sidewalks adjacent thereto, other than the White House area, administered by National Capital Parks.

(b) Demonstrations and special events may be held only pursuant to a permit issued in accordance with the provisions of this section, except that demonstrations may be held in the following park areas without an official permit, provided that the conduct of such demonstrations is reasonably consistent with the protection and use of the indicated park area and the other requirements of this section:

V 40244 DEC 18 75 XUM

(1) *Franklin Park.* Thirteenth Street, between I and K Streets, NW., for no more than 500 persons.

(2) *McPherson Square.* Fifteenth Street, between I and K Streets, NW., for no more than 500 persons.

(3) *U.S. Reservation No. 31.* West of 18th Street and south of H Street, NW., for no more than 100 persons.

(4) *Rock Creek and Potomac Parkway.* West of 23rd Street, south of P Street, NW., for no more than 1,000 persons.

(5) *U.S. Reservation No. 46.* North side of Pennsylvania Avenue, west of Eighth Street and south of D Street, SW., for no more than 25 persons.

(c) Permit applications shall be submitted to the Director, National Capital Parks, 1100 Ohio Drive, SW., Washington, D.C. 20242. Permit applications shall be submitted in writing on a form provided by the National Park Service so as to be received by the Director at least 48 hours in advance of any proposed demonstration or special event. Forms shall be received only during the hours of 8 a.m.–4 p.m., Monday through Friday, holidays excepted. All demonstration applications, except those seeking waiver of the numerical limitations applicable to Lafayette Park (e)(2), shall be deemed granted, subject to all limitations and restrictions applicable to said park, unless denied within 24 hours of receipt. However, where a permit has been granted, or is deemed to have been granted pursuant to this subsection, the Director may revoke that permit pursuant to section (f).

(1) *White House area:* No permit shall be issued authorizing demonstrations; except for the White House sidewalk, Lafayette Park and the Ellipse. No permit shall be issued authorizing special events, except for the Ellipse, and except for annual commemorative wreath-laying ceremonies relating to the status in Lafayette Park.

(2) *Other park areas:* No permit shall be issued authorizing demonstrations or special events in the following other park areas:

(i) The Washington Monument, except for the official annual commemorative Washington birthday ceremony.

(ii) The Kennedy Center.

(iii) The Lincoln Memorial, except for the official annual commemorative Lincoln birthday ceremony.

(iv) The Jefferson Memorial, except for the official annual commemorative Jefferson birthday ceremony.

(v) Constitution Gardens.

(d) Permit application for demonstrations and special events shall be processed in order of receipt, and the use of a particular area shall be allocated in order of receipt of fully executed applications, subject to the limitations set forth in this section, provided that a permit may be denied in writing upon the personal approval of the Director, or, in his absence or unavailability by an authorized delegate of responsible rank and function upon the following grounds:

(1) A fully executed prior application for the same time and place has been received, and a permit has been or will be granted on an "exclusive" use basis; provided, however, that the following national celebration events shall have priority use of the particular park area during the indicated period, as follows:

(i) *Christmas Pageant of Peace:* In the oval portion of the Ellipse only, during approximately the last three weeks in December.

(ii) *President's Cup Regatta:* In East Potomac Park for approximately two days during the first week in June.

(iii) *Cherry Blossom Festival:* In the Japanese Lantern area adjacent to the Tidal Basin and on the Ellipse and the Washington Monument Grounds adjacent to Constitution Avenue, NW., between 15th and 17th Streets, NW., for one day during the first two weeks in April.

(iv) Fourth of July Celebration: On the Washington Monument Grounds.

(v) Festival of American Folklife: In the areas bounded on the south by Independence Avenue, NW.; on the north by a line running adjacent to the south side of the Reflecting Pool between 17th Street, NW., and Lincoln Memorial Circle; on the east by 17th Street, NW.; on the west by Lincoln Memorial Circle and 23rd Street, NW., for two week period in approximately late June and early July.

(vi) Columbus Day Commemorative Wreath-Laying: At the Columbus statue on the Union Plaza on Columbus Day.

(2) It reasonably appears that the proposed demonstration or special event will present a clear and present danger to the public safety, good order, or health.

(3) The proposed demonstration or special event is of such a nature or duration that it cannot reasonably be accommodated in the particular area applied for; in that event, an alternate site, if available for the activity, shall be proposed by the Director to the applicant; in this connection, the Director shall reasonably take into account possible damage to the park, including trees, shrubbery, other plantings, park installations and statues.

(4) The application proposes activities contrary to any of the provisions of this section or other applicable law or regulation.

(e) Issuance of permits shall be subject to the following limitations:

(1) No more than 750 persons shall be permitted to conduct a demonstration on the White House sidewalk at any one time.

(2) No more than 3,000 persons shall be permitted to conduct a demonstration in Lafayette Park at any one time. The Director may waive the 3,000 person limitation for Lafayette Park upon a showing by the applicant that the proposed demonstration has been planned and will be patrolled in such a fashion so as to render unlikely any substantial risk to legitimate public interests in the area. In making a waiver determination the Director shall consider and the applicant shall furnish the following information at least 15 days in advance of the proposed demonstration.

(i) Number of marshals to be furnished.

(ii) The training these marshals have received including a brief summary of that training.

(iii) The experience of these marshals in crowd situations including a brief summary of those experiences.

(iv) The equipment to be furnished marshals including number of portable radios, power and frequency.

(v) The means by which marshals shall be identified.

(vi) A summary of proposed marshal functions including emergency contingency plans.

(vii) List of emergency facilities to be provided including first aid and sanitary facilities.

(3) No permit shall be issued for a demonstration on the White House sidewalk and in Lafayette Park at the same time, except under the following conditions:

(i) Any demonstrator overages above those specified in (e)(1–2) shall proceed to the Ellipse via 15th Street and/or 17th Street (or shall proceed to some other agreed-upon designated park site) and shall there conduct their demonstration activities; and

(ii) The organization, group, or other sponsor of such demonstration shall undertake in good faith all reasonable action—including the provision of sufficient marshals—to insure good order and self-discipline in carrying on such demonstration, including any necessary movements of persons, so that the numerical limitations prescribed in (e)(1–2) shall be observed at all times on the White House sidewalk and in Lafayette Park.

(4) No permit shall be issued authorizing demonstrations or special events in excess of the time periods below provided that these periods shall be extended for demonstrations only, unless another application requests use of the particular area and said application precludes double occupancy:

(i) White House area, except the Ellipse: Seven days.

(ii) The Ellipse and all other park areas: Three weeks.

(5) No demonstration or special event shall be permitted to be held between the hours of 7:00–9:30 a.m. and 4:00–6:30 p.m., except on Saturdays, Sundays, and legal holidays. If it shall be made to appear to the satisfaction of the Director that the holding of a particular demonstration or special event will not unreasonably interfere with rush-hour traffic, this requirement will be waived by the Director.

(6) No special event shall be permitted unless approved by the Director. In determining whether to approve a proposed special event, the Director shall consider and base his determination upon the following criteria:

(i) Whether the objectives and purposes of the proposed special event relate to and are within the basic mission and responsibilities of National Capital Parks, National Park Service.

(ii) Whether the park area requested is reasonably suited in terms of accessibility, size, and nature of the proposed special event.

(iii) Whether the proposed special event can be permitted within a reasonable budgetary allocation of National Park Service funds considering the event's public appeal, and the anticipated participation of the general public therein.

(iv) Whether the proposed event is duplicative of events previously offered in National Capital Parks areas or elsewhere in or about Washington, D.C.

(v) Whether the activities contemplated for the proposed special event are in conformity with all applicable laws and regulations.

(7) In connection with permitted demonstrations or special events, temporary structures (including speakers' stands, platforms, lecterns, chairs, portable sanitary facilities and press and news facilities) reasonably necessary for the conduct of the demonstration or special event shall be permitted, provided prior notice has been given to the Director, except that:

(i) No structures shall be permitted on the White House sidewalk.

(ii) All such temporary structures shall be erected in such a manner so as to cause the least possible damage to park property and basic park values and shall be removed as soon as practicable after the conclusion of the permitted demonstration or special event.

(iii) The Director may impose reasonable restrictions upon the temporary structures permitted, in the interest of protecting the park areas involved, traffic and public safety considerations, and other legitimate park value concerns.

(iv) Any structures utilized in a demonstration extending in duration beyond the time limitations specified in (e)(4) (i) and (ii) must upon 24 hours notice be capable of being removed and the site restored or the structure secured in such a fashion so as to not unreasonably interfere with use of the park area by other permittees authorized under this section.

(8) In connection with permitted demonstrations or special events, sound amplification equipment reasonably necessary for the conduct of the demonstration or special event shall be permitted, provided prior notice has been given to the Director, except that:

(i) No sound amplification equipment shall be used on the White House sidewalk, other than hand-portable sound amplification equipment which the Director determines, in the exercise of his judgment, is necessary for crowd-control purposes.

(ii) The Director reserves the right to limit the sound amplification equipment, so that it will not unreasonably disturb nonparticipating persons, or in the vicinity of, the area.

(9) Authorized permits may contain additional reasonable conditions and additional time limitations, consistent with this regulation, in the interest of protecting the park site, the use of nearby areas by other persons, and other legitimate park value concerns.

(f) A permit issued for a demonstration is revocable only upon a ground for which an application therefore would be subject to denial under (d) or (e)

V 40 244 DEC 18 75 XUM

above. Any such revocation, prior to the conduct of the demonstration, shall be in writing and shall be personally approved by the Director, or, in his absence or unavailability, by an authorized delegate of responsible rank and function. During the conduct of a demonstration, a permit may be revoked by the ranking U.S. Park Police supervisory official in charge if continuation of the event presents a clear and present danger to the public safety, good order or health or for any violations of applicable law or regulation. A permit issued for a special event is revocable, at any time, in the reasonable discretion of the Director or his authorized delegate.

Notice of Proposed Rulemaking

Correction

In FR Doc. 75-32607, appearing at page 56448 in the issue for Wednesday, December 3, 1975, make the following changes:

1. In the preamble, in the middle column on page 56448, in the first paragraph after the signature, correct the following:

a. In the 9th line change "§ 1.4" to read "§ 13.4".

b. In the last line, change "(8 FR 10927)" to read "(38 FR 10927)".

2. In the second paragraph after the signature in the preamble, in the sixth line, change "(7 FR 10946)" to read "(37 FR 10946)".

3. In the third paragraph after the signature, correct the following:

a. In the third line, after the word "before" insert the date "January 2, 1976".

b. In the tenth line, after the word "After" insert the date "January 1, 1976".

c. In the 13th line, after the word "after", insert the date "January 2, 1976".

[26 CFR Part 1]

ARBITRAGE BOND

Correction

On December 3, 1975, notice of proposed rule making under section 103(d) of the Internal Revenue Code of 1954, relating to arbitrage bonds, was published in the FEDERAL REGISTER (40 FR 56448). These proposed regulations are corrected by adding a new sentence between the second and third sentences in § 1.103-14(e)(2)(ii) (page 56450). This new sentence reads as follows: "Those proceeds of the prior issue which are invested in materially higher yield acquired obligations pursuant to the provisions of paragraph (d) of this section or § 1.103-13(b)(1)(ii) shall be the last proceeds which become transferred proceeds."

JAMES F. DRING,
Director, Legislation and Regulations Division.

Agricultural Marketing Service

[7 CFR Part 959]

ONIONS GROWN IN SOUTH TEXAS

Proposed Handling Regulation

This proposal, designed to promote orderly marketing of South Texas onions, would impose minimum grade, size and container standards and require inspection of fresh market shipments to keep undesirable onions from being shipped to consumers.

Consideration is being given to the issuance of a handling regulation, hereinafter set forth, which was recommended by the South Texas Onion Committee, established pursuant to Marketing Agreement No. 143 and Order No. 959, both as amended (7 CFR Part 959). This program regulates the handling of onions grown in designated counties in South Texas and is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

The recommendations of the committee reflect its appraisal of the expected volume and composition of the 1976 early spring crop of South Texas onions and of the marketing prospects for the shipping season which is expected to begin about March 8.

The proposed grade and size requirements are similar to last season's and are designed to prevent onions of poor quality or undesirable sizes from being distributed in fresh market channels.

Thus only onions that contain not more than 20 percent defects of U.S. No. 1 grade and are not packed or loaded on Sunday may be shipped from March 8 through May 8, 1976, similar to last season. However, this season in order to provide more orderly marketing from all districts, the inspection and container requirements are proposed to be extended through June 12, 1976.

The proposed container requirements should prevent the use of off-size or deceptive containers which could adversely affect the reputation and returns of South Texas onions. However, it would not preclude the use of containers customarily packed for the retail trade. One change of a minor nature would be the proposed increase in the long dimension of the 50-pound pack from 38½ to 39½ inches. The committee has been informed by handlers that the additional length would result in easier closure of the bags and greatly improve packing operations. The proposed prohibition on packaging and loading onions on Sunday is recommended to provide more orderly marketing by tailoring shipments from the production area more closely to the ability of receiving markets to accept marketings.

Exceptions are provided to certain of these requirements to recognize special situations in which such requirements would be inappropriate or unreasonable. Up to 100 pounds of onions may be handled, other than for resale, per day without regard to requirements of this section in order to avoid placing an unreasonable burden on persons handling noncommercial quantities of onions.

The proposals with respect to special purpose shipments are recommended to allow the shipment of onions for experimental purposes or the use of containers which have been the subject of test shipments during past seasons, and should encourage exports by allowing the use of containers required for such purposes. Shipments for relief or charity should be exempt from inspection and assessment requirements since no useful purpose would be served by regulating such shipments.

All persons who desire to submit written data, views, or arguments in connection with this proposal should file the same in duplicate with the Hearing Clerk, Room 112-A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than January 2, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

It is proposed to add § 959.316 to read as follows:

§ 959.316 Handling regulation.

During the period March 8-June 12, 1976, no handler may package or load onions on any Sunday, or handle any lot of onions grown in the production area, except red onions, unless such onions meet the assessment requirements of § 959.216 and the requirements of paragraphs (a), (b), (c) and (d) of this section, or unless such onions are handled in accordance with the provisions of paragraphs (e) or (f) of this section except the grade and size requirements of paragraphs (a) and (b) and the Sunday packaging prohibition shall terminate at 11:59 p.m. on May 8, 1976.

(a) *Grade requirements.* Not to exceed 20 percent defects of U.S. No. 1 grade. In percentage grade lots, tolerances for serious damage shall not exceed 10 percent including not more than 2 percent decay. Double the lot tolerance shall be

permitted in individual packages in percentage grade lots. Application of tolerances in U.S. onion standards shall apply to in-grade lots.

(b) *Size requirements.* (1) "Small" 1 to 2¼ inches in diameter, and limited to whites only;

(2) "Repacker"—1¾ to 3 inches in diameter, with 60 percent or more 2 inches in diameter or larger;

(3) "Medium"—2 to 3½ inches in diameter; or

(4) "Jumbo"—3 inches or larger in diameter.

(5) "Tolerances for size in the U.S. onion standards shall apply except that for 'repacker' and 'medium' sizes not more than 20 percent, by weight, of onions in any lot may be larger than the maximum diameter specified. Application of tolerances in the U.S. onion standards shall apply."

(c) *Container requirements.* (1) 25-pound bags, with an average net weight in any lot of not more than 27½ pounds per bag, and with outside dimensions not larger than 29 inches by 31 inches; or

(2) 50-pound bags, with an average net weight in any lot of not more than 55 pounds per bag, and with outside dimensions not larger than 33 inches by 39½ inches.

(3) These container requirements shall not be applicable to onions sold to Federal agencies.

(d) *Inspection.* (1) No handler may handle any onions regulated hereunder, except pursuant to paragraph (e) or (f)(3) of this section, unless an appropriate inspection certificate has been issued with respect thereto and the certificate is valid at the time of shipment.

(2) No handler may transport or cause the transportation by motor vehicle of any shipment of onions for which an inspection certificate is required unless each such shipment is accompanied by a copy of the inspection certificate applicable thereto or by documentary evidence on forms furnished by the committee identifying truck lots to which a valid inspection certificate is applicable and a copy of such inspection certificate or committee document, upon request, is surrendered to authorities designated by the committee.

(3) For purposes of operation under this part each inspection certificate or committee form required as evidence of inspection is hereby determined to be valid for a period not to exceed 72 hours following completion of inspection as shown on the certificate.

(e) *Minimum quantity exemption.* Any handler may handle, other than for resale, up to, but not to exceed 100 pounds of onions per day without regard to the requirements of this section, but this exemption shall not apply to any shipment or any portion thereof of over 100 pounds of onions.

(f) *Special purpose shipments and culls.* (1) Onions may be handled in containers customarily packed for the retail trade and in other designated special purpose containers as follows:

(i) Each handler desiring to make such shipments shall first apply to the committee for and obtain a Certificate of Privilege to make such shipments.

(ii) After obtaining an approved Certificate of Privilege, each handler may handle onions packed in 2, 3 or 5-pound containers customarily packed for the retail trade, 20-kilogram bags, or 50-pound cartons, if they meet the grade, size, and inspection requirements of paragraphs (a), (b) and (d) of this section and if they are handled in accordance with the reporting requirements established in paragraph (f)(2) of this section on such shipments: *Provided*, That shipments of 2, 3 and 5-pound containers shall not exceed 10 percent of a handler's total weekly onion shipments, and provided further that shipments of 50-pound cartons shall not exceed 10 percent of a handler's total weekly onion shipments of all onions allowed to be marketed under this section.

(iii) The average gross weight per lot of onions packed in master containers shall not exceed 115 percent of the designated net contents.

(iv) The average net weight per lot of 50-pound cartons shall not exceed 55 pounds.

(v) The average net weight per lot of 20-kilogram bags shall not exceed 22 kilograms, and with outside dimensions of such bags not greater than 32 inches by 36 inches.

(vi) 20-kilogram bags shall be conspicuously labeled with the words "FOR EXPORT ONLY" and shipments shall be only to points outside of the 48 contiguous States of the United States, the District of Columbia, Canada, or Mexico.

(2) *Reporting requirements for shipments in designated special purpose containers.* Each handler who handles shipments of onions in containers customarily packed for the retail trade and in other designated special purpose containers, shall report thereon to the committee, the inspection certificate numbers, the grade and size of onions packed, and the size of the containers in which such onions were handled. Such report, in accordance with § 959.80, shall be furnished to the committee in such manner, on such forms and at such times as it may prescribe. Also, each handler of such shipments of onions shall maintain records of such marketings, pursuant to § 959.80(c). Such reports shall be subject to review and audit by the committee to verify reports thereon.

(3) *Experimental shipments.* Upon approval of the committee, onions may be shipped in bulk bins with inside dimensions of 47 inches x 37½ inches x 36 inches deep and having a volume of 59,440 cubic inches, or similar containers. Each container shall have a new perforated 2-mil polyethylene liner. The use of bulk bins for expiremetal shipments would be authorized for the first time this season, provided certain safeguard and reporting requirements are met. Such bulk bins have been successfully used for other products, and this proposal would permit handlers to test the feasibility of such containers for commercial shipments. Such experimental shipments shall be exempt from paragraph (c) of this section but shall not exceed ten percent of a handler's total weekly onion shipments and shall be handled in accordance with safeguard provisions of § 959.54 and this paragraph. Also the receiver must agree to furnish the committee with a report on the arrival condition of each shipment. Further, upon approval of the committee onions may be shipped for other experimental purposes exempt from regulations issued pursuant to §§ 959.42, 959.52 and 959.60 provided they are handled in accordance with safeguard provisions of § 959.54.

(4) *Onions failing to meet requirements.* Onions failing to meet the grade, size, and container requirements of this section, and not exempted under paragraph (e) of this section, may be handled only pursuant to § 959.126. Culls may be handled pursuant to § 959.126(a)(1). Shipments for relief or charity may be handled without regard to inspection and assessment requirements.

(g) *Definitions.* "U.S. onion standards" mean the United States Standards for Grades of Bermuda-Granex-Grano Type Onions (§§ 51.3195-51.3209 of this title), or the United States Standards for Grades of Onions (Other Than Bermuda-Granex-Grano and Creole Types) (§§ 51.2830-51.2854 of this title), whichever is applicable to the particular variety, or variations thereof specified in this section. The term "U.S. No. 1" shall have the same meaning as set forth in these standards.

All other terms used in this section shall have the same meaning as when used in Marketing Agreement No. 143, as amended, and this part.

Dated: December 12, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-34089 Filed 12-17-75;8:45 am]

Farmers Home Administration

[7 CFR Part 1822]

[FmHA Instruction 444.1]

RURAL HOUSING LOANS AND GRANTS

Section 502 Rural Housing Loan Policies, Procedures and Authorizations

Notice is hereby given that the Farmers Home Administration (FmHA) has under consideration the addition of Exhibit G to Subpart A of Part 1822, Chapter XVIII, Title 7 of the Code of Federal Regulations (39 FR 44993; 40 FR 42178; 40 FR 42736). The proposed Exhibit G lists those areas which are eligible for FmHA financial assistance for housing as rural areas pursuant to section 520 of the Housing Act of 1949, as amended by section 511 of the Housing and Community Development Act of 1974 (P.L. 93-383), because they have populations in excess of 10,000 but not in excess of 20,000, are not located in a standard metropolitan statistical area, and have

V 40 244 DEC 18 75 XUM

a serious lack of mortgage credit as determined by the Secretary of Agriculture and the Secretary of Housing and Urban Development. The proposed Exhibit G also lists those areas which have populations in excess of 10,000 but not in excess of 20,000, are not located in a standard metropolitan statistical area, and which are not eligible for FmHA financial assistance for housing as rural areas pursuant to section 520 of the Housing Act of 1949, as amended, because they have been determined to be effectively utilizing the mortgage insurance programs of the Federal Housing Administration (FHA) in the Department of Housing and Urban Development (HUD) and accordingly do not have a serious lack of mortgage credit. Since the determinations required represented a highly subjective judgment, the criteria established to make that judgment were set so as to include on the eligible list all communities where any questions concerning the effectiveness of HUD/FHA programs existed. Therefore, the inclusion of a community on the list does not necessarily represent a definitive judgment by HUD as to the effectiveness of HUD/FHA mortgage insurance programs there.

Interested persons are invited to submit written comments, suggestions or objections regarding this proposed Exhibit G on or before January 19, 1976, to the Office of the Chief, Directives Management Branch, Farmers Home Administration, Department of Agriculture, Room 6316, South Building, Washington, D.C. 20250. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Chief, Directives Management Branch, Farmers Home Administration, during regular business hours (8:15 a.m.—4:45 p.m.).

As proposed, Exhibit G reads as follows:

EXHIBIT G—RURAL AREAS OF 10,000 TO 20,000 POPULATION

1. *Purpose.* This Exhibit G lists those areas which are eligible for FmHA programs as rural areas which have populations in excess of 10,000 but not in excess of 20,000, are not located in a Standard Metropolitan Statistical Area (SMSA) and have a serious lack of mortgage credit as determined by the Secretary of Agriculture and the Secretary of Housing and Urban Development. The Exhibit G also lists those areas which have populations in excess of 10,000 but not in excess of 20,000, are not located in an SMSA, and have been determined to be effectively utilizing the mortgage insurance programs of the Federal Housing Administration and accordingly do not have a serious lack of mortgage credit. These areas are not rural areas eligible for FmHA housing programs. State Directors are authorized to identify by list and maps the eligible areas in appropriate State regulations in accordance with this Exhibit.

2. *Eligible areas.* The areas eligible for FmHA assistance by State are:

ARKANSAS
Camden, Magnolia, Paragould, Russellville, Searcy, Stuttgart

ACTION

[45 CFR Part 1223]

DOMESTIC PROGRAMS

Standards of Evaluation

Notice is hereby given that the Director, ACTION proposes to amend Chapter XII, Title 45, Code of Federal Regulations to add a new Part 1223. Pursuant to Section 416(b) and 420 of the Domestic Volunteer Service Act of 1973, Public Law 93-113, 84 Stat. 394, 412 and 414, these proposed regulations establish general standards for evaluation of program and project effectiveness in achieving the objectives of the Act.

Inquiries may be addressed and comments and views concerning the proposed new part may be submitted to ACTION, 806 Connecticut Avenue, N.W., Washington, D.C. 20525. All comments received on or before February 2, 1976 will be considered. All comments in response to this proposal will be available for public inspection during normal business hours at the foregoing address.

It is therefore proposed to add a new Part 1223 to Chapter XII of Title 45 of the Code of Federal Regulations as follows:

PART 1223—STANDARDS OF EVALUATION

Sec.
1223.1-1 Introduction.
1223.1-2 Applicability.
1223.1-3 Policy.

AUTHORITY: Sec. 416(b) and 420 of Pub. L. 93-113, 87 Stat. 412 and 414.

§ 1223.1 Introduction.

Section 416 (a) of the Domestic Volunteer Service Act of 1973 (the Act), Pub. L. 93-113, 87 Stat. 394 and 412 provides that the Director of the Agency is

V 40 244 DEC 18 75 XUM

responsible for (1) evaluating the impact and effectiveness of all programs authorized by the Act; (2) their effectiveness in achieving stated goals in general and in relation to their cost; (3) their impact on related programs; and (4) their structure and mechanisms for delivery of services. Section 416(b) of the Act states that "the Director shall develop and publish general standards for evaluation of program and project effectiveness in achieving the objectives of this Act."

§ 1223.1–2 Applicability.

This part shall apply to all programs and projects authorized under Titles I, II and III of the Act.

§ 1223.1–3 Policy.

ACTION programs will be evaluated in terms of:

(a) Effectiveness in achieving stated goals. Among the factors which may be examined are:

(1) Performance as related to: (i) The specific, measurable objectives established;

(ii) Time periods specified for meeting the specified objectives;

(iii) The ACTION goals or legislative mission statements established.

(2) Differences among activity areas as to achievement of objectives.

(b) Dollar costs relative to goals and objectives achieved, and/or services produced. Among the factors whih may be examined are:

(1) Dollar cost by area of program emphasis;

(2) Average cost of ACTION administration for the respective programs;

(3) Estimated average dollar amount of matching funds and dollar value of services/supplies provided through the sponsor for the activity;

(4) Market value of the total sponsor services/supplies resulting from volunteer activity;

(i) By project or program

(ii) By area of emphasis

(iii) By type of services/supplies for which grants were made (average for each).

(c) Impact (effect) on related, non-Agency goals. Among the factors which may be examined are:

(1) Actual impact vs. specified impact objectives with respect to effect on volunteers, sponsors, clients and community;

(2) Differences among areas of emphasis, and among projects or programs as to impact;

(3) Types of secondary activities performed as an outcome of ACTION programs;

(4) Project interaction with other Federal and local programs;

(5) Community resource mobilization: total full-time and part-time volunteers generated (where applicable), by area of emphasis and by category of grant amount;

(6) Total tangible resources generated, by area of emphasis and by category of grant amount;

(7) Institutionalization: extent to which the sponsors and/or other entities have become new local centers of initiative as a result of activity.

(d) The appropriateness of the structure and mechanism for the delivery of services. Among the factors which may be examined are:

(1) Sponsor's own overall emphasis and scope aside from ACTION project or program, or number of sponsors for each type of emphasis;

(2) Areas of emphasis: (i) Number of volunteers and/or other benefits generated by elements of the standard ACTION typology by project and program emphasis;

(ii) Degree of poverty involvement, by project or program and by area of emphasis.

(3) Target community: (i) Definition of limits

(ii) Demographics

(iii) Nature and extent of poverty problem being address.

(4) Organizational structure and procedures (narrative);

(5) ACTION staff involvement: tasks performed by ACTION Headquarters, Regional Office and State Program Office with respect to project or program and estimated time spent;

(6) Effectiveness of the ACTION monitoring/information system at Headquarters and in the Region.

(e) The degree to which the program has undertaken or is undertaking to build upon programmatic strengths and correct programmatic weaknesses. Among the factors which may be examined are:

(1) Extent and nature of deficiencies with respect to achievement of these objectives;

(2) Differences among areas of emphasis, and among projects or programs, as to achievement of overall objectives;

(3) Realistic steps which can be taken in future efforts to avoid these deficiencies;

(4) Extent and nature of impact deficiencies and possible corrective action which can be taken for future funding;

Both programs and projects will be evaluated against these standards to determine how well the purposes of the Domestic Volunteer Service Act of 1973 are being met. The opinions of program and project participants, including clients, volunteers, sponsors as well as ACTION staff, will be obtained and used in the course of such evaluations.

Issued at Washington, D.C. on December 15, 1975.

JOHN L. GANLEY,
Deputy Director.

COMMODITY FUTURES TRADING COMMISSION

[17 CFR Part 155]

DUAL TRADING BY FLOOR BROKERS AND FUTURES COMMISSION MERCHANTS

Request for Comments

The Commodity Futures Trading Commission ("Commission") announced on December 12, 1975, that it is proposing to adopt, by January 21, 1976, regulations that would require all contract markets that wish to continue to permit dual trading after June 30, 1976, by floor brokers and futures commission merchants ("FCM's") to adopt and obtain Commission approval of certain rules to regulate dual trading.

In addition, the Commission is proposing for adoption, subject to review of comments received as a result of this notice and further study of the issue, a regulation that would ban dual trading by floor brokers after January 16, 1977, on any contract market that has not submitted by that date a plan which provides for the development of a method for recording to permit reconstruction of the sequence of futures transactions executed on the contract market. Furthermore, this proposed regulation would prohibit dual trading by floor brokers on a contract market after April 17, 1977, or such later date as the Commission may determine in connection with a particular plan, unless a plan of that contract market for recording to permit reconstruction of the sequence of futures transactions has been declared effective by the Commission.

BACKGROUND

Paragraphs (1) and (2) of section 4j of the Commodity Exchange Act, as amended ("Act"), 7 U.S.C. § 6j (1) and (2), direct the Commission to determine whether the practice generally known as dual trading may continue; that is, (1) whether floor brokers may trade for their own account or any account in which they have trading discretion and also execute a customer's order for commodity futures contracts and (2) whether FCM's may trade for their own account or any proprietary account.[1] Section 4j further states that if the Commission decides to permit dual trading, it shall determine the terms, conditions and circumstances under which dual trading

[1] Section 4j was added to the Act in 1974 by section 203 of the Commodity Futures Trading Commission Act of 1974, Pub. L. No. 93–463, 88 Stat. 1389, 1396. Section 4j(1) states:

The Commission shall [by January 21, 1976] . . . make a determination, after notice and opportunity for hearing, whether or not a floor broker may trade for his own account or any account in which such broker has trading discretion, and also execute a customer's order for future delivery and, if the Commission determines that such trades and such executions shall be permitted, the Commission shall further determine the terms, conditions, and circumstances under which such trades and such executions shall be conducted. . . .

Section 4j(2) states:

The Commission shall [by January 21, 1976] . . . make a determination, after notice and opportunity for hearing, whether or not a futures commission merchant may trade for its own account or any proprietary account, as defined by the Commission, and if the Commission determines that such trades shall be permitted, the Commission shall further determine the terms, conditions, and circumstances under which such trades shall be conducted. . . .

The term "proprietary account" as used in the proposed regulation is defined in § 1.3y of the regulations under the Act.

may occur. The section also provides that the Commission shall, at a minimum, consider the effect on liquidity of the market place in any determination it shall make and that the Commission may make separate determinations for different contract markets, *i.e.*, on a pit-by-pit basis.

The legislative history of section 4j contains discussions both of the possible conflict of interests inherent in dual trading and of the arguments in favor of dual trading—that it promotes liquidity in the market place and expertise among floor brokers.[2] However, Congress evidently concluded that it did not have sufficient evidence to determine whether dual trading should be banned or, if not banned, under what terms and conditions it should be permitted to continue. Congress delegated those determinations to the Commission.

Following the establishment of the Commission, the staff began an internal review of the question of dual trading; that review is continuing. In addition, the Commission's Advisory Committee on Market Regulation has considered this question and made a series of recommendations for Commission consideration to the effect that the Commission recognize that dual trading is necessary to provide liquidity in the market place and that dual trading promotes expertise among floor brokers. The Advisory Committee further recommended, however, that regulation was needed to control potential abuses of dual trading. The Advisory Committee also suggested that a study be conducted of time stamping mechanisms, or other systems, that would permit more precise recording of the time of execution of trades. Furthermore, the Committee recommended that a study be made of the effect on liquidity of dual trading.

DISCUSSION OF PROPOSED REGULATIONS 155.1 AND 155.2

Proposed regulation 155.2 would require all contract markets that wish to continue to permit dual trading (as that term is defined in proposed regulation 155.1)[3] by floor brokers and FCM's after June 30, 1976, to obtain Commission approval of contract market rules[4] which are intended to prevent the abuses which may arise from the possible conflict of interests inherent in dual trading.

Although the Commission is continuing its study of dual trading, and although the extent of the actual abuses of dual trading by floor brokers cannot be determined until some adequate method of reconstructing the sequence of floor trades is implemented, the Commission believes that, because of the possible conflict of interests which is inherent in dual trading, such trading should be permitted only if it is subject to a regulatory program which includes certain minimum standards set forth in proposed regulation 155.2.[5] To some extent the standards are a codification of principles of agency law.[6] Certain of the activities proscribed by proposed regulation 155.2, such as prearranged trading and other illegal noncompetitive trading, are violations of the Act and the regulations issued thereunder.

Although some contract markets have rules meeting the standards set forth in the Commission's proposal, one purpose of the proposed Commission regulation is to assure that basic minimum safeguards are provided by every contract market.[7] The Commission requests comment on whether the standards contained in the proposed regulations are appropriate, whether alternative standards are appropriate, and—especially—what additional safeguards should be considered.[8]

DISCUSSION OF PROPOSED REGULATION 155.3

Proposed regulation 155.3 is aimed at floor brokers. Paragraph (a) of the proposed regulation would prohibit dual trading by floor brokers after January 16, 1977, in any commodity with respect to which the contract market has not submitted to the Commission a plan which would provide a mechanism for recording transaction data, either by time stamping or otherwise, to enable the sequence of the execution of transactions on the floor to be reconstructed. Such plan may take into consideration the differences in activity of trading in each commodity. In addition, proposed regulation 155.3(b) would ban dual trading on a contract market after April 17, 1977, or such later date as the Commission may determine in connection with a particular plan, unless a plan of that contract market, as described above, has been declared in effect by the Commission.

The importance of transaction timing was stressed in the legislative history of section 4j. While Congress did not itself impose a time stamping requirement—in effect delegating a decision on that issue to the Commission—section 4g of the Act was strengthened in 1974 to permit the Commission to require daily trading records to include "such information as the Commission shall prescribe by rule."[9]

In addition, the problem of detecting dual trading abuses was discussed at some length in a recent report of the Comptroller General:

. . . Since timing information is not required on a broker's personal trades, the abusive practice of a broker's trading for his own account while he has a customer's order in

[2] *See Hearings on Small Business Problems Involved in the Marketing of Grain and Other Commodities Before the Subcomm. on Special Small Business Problems of the House Permanent Select Comm. on Small Business*, 93d Cong., 1st Sess. (July 25, 26; September 18, 25, 26; October 2, 3, and 4, 1973); *Hearings on the Review of Commodity Exchange Act and Discussion of Possible Changes Before the House Comm. on Agriculture*, 93d Cong., 1st Sess. (October 16, 17, 18, and 24, 1973); *Hearings on H.R. 11955 Before the House Comm. on Agriculture*, 93d Cong., 2d Sess. (January 23, 24, 29, 30, and 31, 1974); and *Hearings on S. 2485, S. 2578, S. 2837 and H.R. 13113 Before the Senate Comm. on Agriculture and Forestry*, 93d Cong., 2d Sess. (May 13, 14, 15, 16, 17, 20, 21, and 22, 1974).

[3] The definition of dual trading with respect to a floor broker is limited to the situation in which the floor broker trades for himself on the same day in which he trades for another person in the same commodity for future delivery. This provision is not included in the definition of dual trading with respect to FCM's because an FCM, as defined in section 2(a) of the Act, is by its very nature continuously soliciting customers' orders.

[4] The rules adopted by each contract market must be submitted to the Commission for approval pursuant to section 5a(12) of the Act. 7 U.S.C. § 7a(12). Contract markets may set terms and conditions more restrictive than those specified in the proposed regulation.

[5] Many of the proposed standards were adopted from the recommendations of the Commission's Advisory Committee on Market Regulation.

[6] When a floor broker, an FCM, or an associated person of an FCM executes, or causes the execution of, an order, he is acting as an agent. *See* Meyer, *The Law of Stockbrokers and Stock Exchanges* 249–253, 282 (1931). As such, he owes certain duties to his principal, which are, in general, fiduciary in nature. *See* W. Seavey, *Law of Agency* 4, 243–248 (West 1964). Under basic principles of agency law, an agent's own interests must not conflict with those of his principal. *Id.* at 243–246. For example, an agent may not, in general, compete with his principal. *Id.* at 246. No proof of actual injury to the principal is normally required to establish that the agent has violated his duty; the mere potential for abuse is often sufficient. *See* 3 Loss, *Securities Regulation* 1501 (2d ed. 1961). These principles of agency law have been held to apply specifically to the commodities industry. For instance, it has been held that a member of a commodity exchange holding the power to direct futures trading in a customer's account is a fiduciary. A violation of that duty, fiduciary or otherwise, may be fraudulent conduct actionable under section 4b of the Act. Douglas Steen, 21 A.D. 1076 (1962). Similarly, it has been indicated that an FCM may be regarded as a fiduciary with respect to his relationship with customers. Hecht v. Harris, Upham & Co., 283 F. Supp. 417 (N.D. Cal. 1968).

[7] Concern has been expressed regarding potential abuses that may arise from the allocation by FCM's and floor brokers of previously-executed transactions among accounts over which they have trading discretion. The Commission directs interested parties to § 1.35(a–1) of its regulations, which contains safeguards against such abuses.

[8] The Commission will shortly propose a rule adopting similar standards for transactions by futures commission merchants who are not members of any contract market and their associated persons.

[9] The Conference Report to H.R. 13113, the bill which became the Commodity Futures Trading Commission Act of 1974, stated: If, for example, the Commission determines that it needs the time of each trade made on the exchanges and the identification of the traders involved in each trade, it can require that a record be kept of this information and that it be reported to the Commission by the clearinghouse and contract market.

S. Rep. No. 93–1194, 93d Cong., 2d Sess. 42 (1974).

V 40 244 DEC 18 75 XUM

hand is virtually impossible to detect because the time sequence of the broker's trades cannot be determined from the records. This omission bears heavily on the question of whether or not dual trading—trading by brokers, both for customers and for their own accounts—should be prohibited or restricted, which was a matter of concern in congressional hearings in 1973 and 1974 and which was discussed in our interim report. Neither CEA [a predecessor agency of the Commission] nor the commodity futures trading industry knows the extent of dual trading abuses, and neither can know in the absence of timing information.[10]

The Commission believes that a system which would permit the reconstruction of the sequence of the execution of transactions is an important element of a regulatory program to deter and to detect the possible abuses presented by dual trading. Without such a system the effectiveness of certain aspects of proposed regulation 155.2 is limited.[11]

Because of the complex and controversial issues involved in the area covered by proposed regulation 155.3, the Commission has established a 90-day period during which contract markets, floor brokers and other interested persons may submit written comments.[12] During this period, the Commission intends to continue its study of dual trading, including its effect on liquidity. In this regard, the Commission requests that comments specifically address the question of liquidity, utilizing factual data where appropriate.

The Commission urges that in responding to proposed regulation 155.3, each contract market advise the Commission as to the feasibility of undertaking a co-operative effort involving all contract markets, working in conjunction with the Commission, to develop suitable mechanisms, devices or other methods designed to record the sequence of the execution of transactions on the exchange floor. The Commission particularly requests each contract market to comment upon whether its present procedures and systems can be modified so as to permit the reconstruction of the sequence of transactions on its trading floor, and whether, as an alternative to banning dual trading by floor brokers, some other form of regulation would be more appropriate if an effective method of reconstructing the sequence of transactions on the floor is not implemented. Finally, the Commission requests specific comment respecting possible alternatives to proposed regulation 155.3 which would provide an adequate method of enforcing the standards with respect to floor brokers set forth in proposed regulation 155.2.

In consideration of the foregoing, the Commission hereby proposes to amend 17 CFR Chapter I by adding a new part 155 as follows:

Part 155—Standards Regarding Dual Trading

Sec.
155.1 Definitions.
155.2 Trading standards.
155.3 Transaction sequence plans.

AUTHORITY: Secs. 4b, 4g, 4j, and 8a of the Commodity Exchange Act, as amended (7 U.S.C. 6b, 6g, 6j and 12a)

§ 155.1 Definitions.

(a) *Dual Trading or Dual Trade*—(1) With respect to any floor broker these terms mean trading in a commodity for future delivery for any account in which such floor broker has an interest or over which he has discretionary authority on the same day in which such floor broker trades for another person in the same commodity for future delivery, except that these terms do not include any transaction to liquidate any position that results from an error made while attempting to execute an order for another person; (2) with respect to any futures commission merchant or associated person thereof, these terms means trading for any account of the futures commission merchant, any proprietary account of the futures commission merchant, or any account of any associated person, officer, partner, or employee of the futures commission merchant, their spouses or minor dependents living in the same household, except that these terms do not include any transaction to liquidate any position that results from an error made while attempting to have executed an order for another person.

§ 155.2 Trading standards.

(a) After June 30, 1976, no member of a contract market acting as a floor broker or acting as a futures commission merchant, and no associated person of such a futures commission merchant, shall dual trade, and no contract market shall permit any member acting as a floor broker or acting as a futures commission merchant or any associated person of such a futures commission merchant to dual trade, unless such dual trading is conducted in conformity with a set of rules adopted by the contract market and submitted to and approved by the Commission in accordance with the provisions of paragraph (b) of this section.

(b) The set of rules adopted by a contract market and submitted to the Commission for approval as provided in paragraph (a) of this section shall at a minimum:

(1) *Floor Brokers*—With respect to each member of the contract market acting as a floor broker:

(i) Prohibit such member from executing any transaction for his own account, or for any account in which he has an interest, while holding an order of another person in the same commodity for future delivery which is executable at the market price, except that such member may take into his own account, and subsequently liquidate, any position that results from an error made while attempting to execute an order for another person.

(ii) Prohibit such member from executing any transaction for any account in which he has discretionary authority, except that an order for such an account may be placed with another member for execution.

(iii) Prohibit such member from disclosing at any time that he is holding an order of another person, or from divulging, or taking the other side of, for any purpose, except in conformity with contract market rules approved by the Commission, any order revealed to him by reason of his relationship with such other person.

(iv) Prohibit such member from making any purchase or sale which has been directly or indirectly prearranged.

(v) Require that every execution of a transaction on the floor by such member be immediately confirmed with the opposite floor broker or floor trader; such confirmation shall identify price, quantity and respective clearing members.

(vi) Require that, in executing an order of another person, such member use due diligence to execute that order at the best possible price or prices available on the floor of the contract market.

(2) *Futures Commission Merchants*—With respect to each member of the contract market acting as a futures commission merchant:

(i) Prohibit such member, its associated persons, officers, partners, and employees from disclosing at any time that an order of another person is being held by such member, its associated persons, officers, partners, or employees, or from divulging, or knowingly taking the other side of, for any purpose, except in conformity with contract market rules approved by the Commission, any order revealed to such member, its associated persons, officers, partners, or employees by reason of their relationship with such other person.

(ii) Require such member to establish procedures to assure, to the extent possible, that with respect to each office or branch office, each order received from another person which is executable at or near the market price is transmitted to the floor of the contract market before such member transmits to the floor of the contract market any order in the same commodity for future delivery for the account of such member, any proprietary account of such member, or any account of any of its associated persons, officers, partners, employees or their spouses or minor dependents living in the same household, and require such member to otherwise use due diligence in handling each order received from another person so as to enable each such order to be executed at the best possible price or prices available on the contract market.

(iii) Prohibit the associated persons, officers, partners and employees of such member from acting in collusion to circumvent the requirements of paragraph (b)(2)(ii) of this § 155.2.

(iv) Require such member to establish a compliance program which shall (A) to the extent possible, assure that the handling of orders for its proprietary accounts and for all accounts on its books of its associated persons, officers, partners, employees and their spouses and minor dependents living in the same household is in compliance with contract market rules adopted in accordance with paragraph (b)(2) of this § 155.2, and (B) either prohibit its associated persons, officers, partners, employees and their spouses and minor dependents living in the same household from having accounts with other futures commission merchants or, in the alternative, require that the establishment of such accounts be approved by a designated person or persons in a supervisory capacity and that confirmation of all transactions in such accounts be transmitted to a designated person or persons in a supervisory capacity to assure, to the extent possible, compliance with the Act, the regulations thereunder and contract market rules adopted in accordance with paragraph (b)(2) of this § 155.2

(v) Prohibit such member from handling the accounts of any other member's associated persons, officers, partners, employees or their spouses or minor dependents living in the same household, without the written approval of such other member and without submitting to such other member copies of all confirmations and statements rendered to such associated persons, officers, partners, employees and their spouses and minor dependents living in the same household.

(3) Require that a record be established and maintained of all changes in price for futures transactions executed on the floor of the contract market. This record shall include the time of all changes in price to the nearest ten seconds.

§ 155.3 Transaction sequence plans.

(a) After January 16, 1977, no member of a contract market acting as a floor broker shall dual trade, and no contract market shall permit any member acting as a floor broker to dual trade, unless such contract market has submitted to the Commission a plan, with a timetable for implementation, which provides for the development, as soon as practicable, of a method, through time stamping or otherwise, for recording the sequence of futures transactions executed on the contract market. This method must, at a minimum, be designed to permit the reconstruction of the sequence of futures transactions on the contract market in those commodities for future delivery in which dual trading is not prohibited by contract market rules and must include the identities of the persons executing such transactions, and of the clearing members and customers of such clearing members in such transactions. The plan submitted by a contract market must provide that, pending the development of the method for reconstruction of the sequence of futures transactions, continued improvements will be made in recordkeeping to improve the tracing of the handling of customers' orders.

(b) After April 17, 1977, or such later date as the Commission by order shall determine with respect to a particular plan, no member of a contract market acting as a floor broker shall dual trade, and no contract market shall permit any member acting as a floor broker to dual trade, unless a plan, as described in paragraph (a) of this § 155.3, has been adopted by the contract market and declared in effect by the Commission upon such terms and conditions as the Commission may by order prescribe.

* * * * *

The Commission is holding a hearing through written submission on the merits of the proposed regulations. Interested persons are invited to express their views and comments on whether the foregoing proposed regulations should be adopted either in the form proposed or as modified in some respect. Written statements of views and comments should be submitted to the Commodity Futures Trading Commission, 1120 Connecticut Avenue, NW., Washington, D.C. 20036, Attn. Secretariat. All statements regarding proposed regulations 155.1 and 155.2 received on or before January 12, 1976, will be considered by the Commission before taking action on those proposed regulations. All statements regarding proposed regulation 155.3 received on or before March 12, 1976, will be considered by the Commission before taking action on that proposed regulation. In addition, any person may request the opportunity to express his views at an oral hearing; if the Commission should conclude that an oral presentation will be of value, it will, by subsequent notice, set the time and place of that hearing. All such communications will be available for public inspection.

Issued in Washington, D.C. this 12th day of December 1975.

By the Commission.

WILLIAM T. BAGLEY,
Chairman, Commodity Futures Trading Commission.

[FR Doc.75-34087 Filed 12-17-75;8:45 am]

---

[10] Comptroller General of the United States, *Report to the Congress on Improvements Needed in Regulation of Commodity Futures Trading* (June 24, 1975) (CCH Commodity Futures Law Rep., Extra Edition Number 6, p. 19 (July 8, 1975)).

[11] As amended by section 407 of the Commodity Futures Trading Commission Act of 1974, section 5a(8) of the Act requires each contract market to enforce all of its rules approved by the Commission which relate to trading requirements. Therefore, a contract market would have a statutory obligation to enforce any rules adopted pursuant to proposed regulation 155.2.

[12] The comment period for proposed regulation 155.1 and 155.2 is 30 days.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

[FRL 470-1]

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

South Carolina: Legal Authority

On May 31, 1972 (37 FR 10842), the Administrator approved most of the South Carolina plan to attain and maintain the national ambient air quality standards in that State. Specifically disapproved at that time was the plan's provisions for the public availability of emission data. On October 28, 1972 (37 FR 23085), the Administrator, at the request of the Governor of South Carolina, delegated to the State the legal authority needed to determine and make public the compliance status of air pollution sources, including the authority to require owners or operators of stationary sources to install, maintain and operate emission monitoring devices, to keep records of and report the information thus obtained, and to release to the public such emission data correlated with any applicable emission standards or regulations. On October 15, 1975, Governor James B. Edwards submitted to the Agency as a plan revision the Pollution Control Act of South Carolina as amended, most recently by Act No. 395 of the 1975 General Assembly; transmitted an opinion of the State's Attorney General that the Pollution Control Act of South Carolina as now amended satisfies the requirements of 40 CFR 51.10(e), 51.11(a)(5), and 51.11(a)(6); and requested that the Agency withdraw its delegation of legal authority as set forth at 40 CFR 52.2124(c). The purpose of the present notice is to solicit public comment on the State of South Carolina's revised legal authority to carry out the provisions of the Clean Air Act and the Agency's implementing regulations.

In an opinion rendered on September 19, 1975, to the South Carolina Department of Health and Environmental Control, the South Carolina Attorney General cited the following portions of the amended Pollution Control Act of South Carolina to support his contention that the legislation now meets all pertinent requirements of 40 CFR Part 51:

§ 9 [The Board of Environmental Health and Control may] (10) require to be submitted to it and consider for approval plans for disposal systems or sources or any parts thereof and inspect the construction thereto for compliance with approved plans; (20) conduct investigations of conditions in the air or waters of the State to determine whether or not standards are being contravened and the origin of materials which are causing the polluted conditions; (22) require the owner or operator of any source or disposal system to establish and maintain such operational records; make reports; install, use, and maintain monitoring equipment or methods; sample and analyze emissions or discharges in accordance with prescribed methods, at locations, intervals, and procedures as the Board shall prescribe; and provide such other information as the Board reasonably may require; (23.1) enter at all times in or upon any property, public or private, for the purpose of inspecting and investigating conditions relating to pollution or the possible pollution of the environment of the State. . . .

§ 30 Any records, reports or information obtained under any provision of this Act shall be available to the public. Upon a showing satisfactory to the Department by any person that records, reports or information, or particular parts thereof, other than effluent or emission data, if made public, would divulge methods or processes entitled to protection as trade secrets of such person, the Department shall consider such records, report or information or particular portion thereof confidential in the administration of this act.

Copies of the materials submitted by South Carolina may be examined during normal business hours at the following locations:
Public Information Reference Unit,
Library Systems Branch,
Environmental Protection Agency,
401 M Street, SW.
Washington, D.C. 20460.

V 40244 DEC 18 75 XUM

Air Programs Branch, Environmental Protection Agency, Region IV, 1421 Peachtree Street, NE., Atlanta, Georgia 30309.
Bureau of Air Quality Control, Department of Health & Environmental Control, 2600 Bull Street, Columbia, South Carolina 29201.

Interested persons are urged to submit written comments on the present plan revision. To be considered, such comments must be received on or before January 19, 1976, and should be addressed to John Eagles at the Atlanta address given above. If the Administrator determines, on the basis of information and views available to him, that the present revision satisfies the requirements of 40 CFR 51.10(e), 51.11(a)(5) and 51.11(a)(6), he will revoke his disapproval of the South Carolina plan at 40 CFR 52.2124 (a) and (b) as well as the delegation of authority set forth at 40 CFR 52.2124(c).

(Section 110(a) of the Clean Air Act (42 U.S.C. 1857c-5(a)))

Dated: December 11, 1975.

JACK E. LAVAN,
Regional Administrator, Region IV.

DEPARTMENT OF LABOR

Office of the Secretary of Labor

[29 CFR Part 60]

IMMIGRATION; IMMIGRANT LABOR CERTIFICATIONS

Modification of Schedule B Definition

Section 212(a)(14), of the Immigration and Nationality Act, 79 Stat. 911, 8 USCA 1182, provides the statutory authority for the Secretary of Labor to make determinations regarding the immigration of alien workers into the United States. An alien who seeks to immigrate for the purpose of employment is ineligible to receive a visa and is excluded from admission into the United States unless the Secretary of Labor has certified that qualified United States workers are not available and that the alien's employment will not adversely affect wages and working conditions of the workers in the United States similarly employed. To facilitate the labor certification procedure the Secretary of Labor has defined various occupational categories to serve as guidelines for occupational qualification requirements.

Notice is hereby given that the Secretary of Labor proposes to modify the definition of *Household Domestic Service Workers* at 29 CFR 60.7. Under the current regulation an alien seeking certification as a household domestic service worker must document one year's full time paid experience in performing those tasks incident to the maintenance of private households. This experience can only have been acquired as a result of employment in private households.

The proposed regulation would provide that the one year's documented paid experience may be acquired in public or private institutions or establishments as well as in private households. It would provide, however, that the tasks performed in the public or private institutions or establishments be equivalent to those tasks normally associated with the maintenance of a private household.

Inquiries may be addressed, and data, views, and arguments may be submitted until January 19, 1976, to the Assistant Secretary for Employment and Training, Department of Labor, Attention: William B. Lewis, Room 8000, 6th and D Streets, NW., Washington, D.C. 20213.

In consideration of the foregoing, it is proposed to modify 29 CFR Part 60.7 to read as follows:

§ 60.7 Schedules.

. . . . . .

SCHEDULE B

. . . . . .

OCCUPATIONAL DEFINITIONS

. . . . . .

Household Domestic Service Workers

Perform a variety of tasks in private households, including activities such as cleaning, dusting, washing, ironing, making beds, maintaining clothes, marketing, cooking, serving food, and caring for children or disabled persons: Provided, however, that noncertification under this category shall apply only to these workers who have had less than one year of documented full-time paid experience in the work to be performed, working on a live-in or live-out basis in private households, or in public or private institutions or establishments where the worker has performed tasks equivalent to tasks normally associated with the maintenance of a private household.

Signed at Washington, D.C. this 12th day of December, 1975.

WILLIAM H. KOLBERG,
Assistant Secretary for Employment and Training.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[Order No. 151 (Rev. 1)]

ASSISTANT COMMISSIONER (EMPLOYEE PLANS AND EXEMPT ORGANIZATIONS), ET AL.

Delegation of Authority

1. Pursuant to authority vested in the Commissioner of Internal Revenue by section 6103(g) of the Internal Revenue Code of 1954 and Treasury Department Order No. 150-37, dated March 17, 1955, there is hereby delegated to the Assistant Commissioner (Employee Plans and Exempt Organizations), the Service Center Directors and the District Directors of the Key Districts for Employee Plans and Exempt Organizations matters the authority to furnish the Department of Labor or the Pension Benefit Guaranty Corporation:

(a) upon specific written request, the information specified in 26 CFR 420.6103(g)-1, 2, 3(c)(1), and 3(c)(2), and

(b) without application or written request, the information specified in 26 CFR 420.6103(g)-3(a)(2).

2. The authority delegated to the Assistant Commissioner (Employee Plans and Exempt Organizations) in paragraph 1 may be redelegated but not below Branch Chiefs, Employee Plans Division.

3. The authority delegated to the Service Center Directors in paragraph 1 may be redelegated but not below Section Chiefs, in Service Centers.

4. The authority delegated District Directors of the Key Districts in paragraph 1(a) may be redelegated but not below Chiefs, Technical Staffs, Employee Plans and Exempt Organizations Divisions.

5. The authority delegated to District Directors of the Key Districts in paragraph 1(b) may be redelegated but not below Chiefs, Service Units, Employee Plans and Exempt Organizations Divisions.

6. Delegation Order No. 151, issued June 25, 1975, is hereby superseded.

Date of issue: December 3, 1975.

Effective date: December 3, 1975.

DONALD C. ALEXANDER,
Commissioner.

[Order No. 4 (Rev. 3)]

ASSISTANT COMMISSIONER AND DIRECTOR, INTERNAL SECURITY DIVISION

Delegation of Authority

1(a). The authorities granted to the Commissioner of Internal Revenue by 26 CFR 301.7602-1(b), 301.7603-1, 301.7604-1 and 301.7605-1(a) to issue summonses; to set the time and place for appearance; to serve summonses; to take testimony under oath of the person summoned; to receive and examine books, papers, records or other data produced in compliance with the summons; and to enforce summonses, are delegated to the officers and employees of the Internal Revenue Service specified in paragraphs 1(b), 1(c) and 1(d) of this Order and subject to the limitations stated in paragraphs 1(b), 1(c), 1(d) and 6 of this Order.

(b) The authorities to issue summonses and to perform the other functions related thereto specified in paragraph 1(a) of this Order, are delegated to the following officers and employees, provided that the authority to issue a summons in which the proper name or names of the taxpayer or taxpayers is not identified because unknown or unidentifiable (hereinafter called a "John Doe" summons) may be exercised only by said officers and employees and by them only after obtaining pre-issuance legal review by Regional Counsel or the Chief Counsel in the case of Inspection and International Operations.

(1) Inspection: Assistant Commissioner and Director, Internal Security Division.

(2) District Intelligence: Chief of Division.

(3) International Operations: Director and Chiefs of Divisions.

(4) District Collection Activity: Chief of Division.

(5) District Audit: Chief of Division.

(6) District Employee Plans and Exempt Organizations: Chief of Division.

(c) The authorities to issue summonses except "John Doe" summonses, and to perform other functions related thereto specified in paragraph 1(a) of this Order, are delegated to the following officers and employees:

(1) Inspection: Regional Inspectors and Assistant Regional Inspectors (Internal Security) and Chief, Investigations Branch.

(2) District Intelligence: Assistant Chief of Division; Chiefs of Branches, and Group Managers.

(3) International Operations: Assistant Director; Chiefs of Branches; Case Managers; and Group Managers.

(4) District Collection Activity: Assistant Chief of Division; Chiefs of Field Branches and Office Branches; Chief, Special Procedures Staff and Group Managers.

(5) District Audit: Chiefs of Examination Branches; Case Managers and Group Managers.

(6) District Employee Plans and Exempt Organizations: Group Managers.

(d) The authority to issue summonses except "John Doe" summonses and to perform the other functions related thereto specified in paragraph 1(a) of this Order is delegated to the following officers and employees except that in the instance of a summons to a third party witness, the issuing officers' case manager, group manager, or any supervisory official above that level, has in advance personally authorized the issuance of the summons. Such authorization shall be manifested by the signature of the authorizing officer on the face of the original and all copies of the summons or by a statement on the face of the original and all copies of the summons, signed by the issuing officer, that he had prior authorization to issue said summons and stating the name and title of the authorizing official and the date of authorization.

(1) International Operations: Internal Revenue Agents; Attorneys, Estate Tax; Estate Tax Examiners; Special Agents; Revenue Service and Assistant Revenue Service Representatives; Tax

V 40 244 DEC 18 75 XUM

Auditors; and Revenue Officers, GS–9 and above.

(2) District Intelligence: Special Agents.

(3) District Collection: Revenue Officers, GS–9 and above.

(4) District Audit: Internal Revenue Agents; Tax Auditors; Attorneys, Estate Tax; and Estate Tax Examiners.

(5) District Employee Plans and Exempt Organizations: Internal Revenue Agents; Tax Law Specialists; and Tax Auditors.

(e) Each of the officers and employees referred to in paragraphs 1(b), 1(c) and 1(d) of this Order may serve a summons whether it is issued by him or another official.

2. Each of the officers and employees referred to in paragraphs 1(b), 1(c) and 1(d) of this Order, authorized to issue summonses, is delegated the authority under 26 CFR 301.7602–1(b) to designate any other officer or employee of the Internal Revenue Service referred to in paragraph 4(b) of this Order, as the individual before whom a person summoned pursuant to § 7602 of the Internal Revenue Code shall appear. Any such other officer or employee of the Internal Revenue Service when so designated in a summons is authorized to take testimony under oath of the person summoned and to receive and examine books, papers, records or other data produced in compliance with the summons.

3. Internal Security Inspectors are delegated the authority under 26 CFR 301.7603–1 to serve summonses issued in accordance with this Order by any of the officers and employees of the Inspection Service referred to in paragraphs 1(b)(1) and 1(c)(1) of this Order even though Internal Security Inspectors do not have the authority to issue summonses.

4(a). The authorities granted to the Commissioner of Internal Revenue by 26 CFR 307.7602–1(a), and 301.7605–1(a) to examine books, papers, records, or other data, to take testimony under oath and to set the time and place of examination are delegated to the officers and employees of the Internal Revenue Service specified in paragraphs 4(b), 4(c), and 4(d) of this Order and subject to the limitations stated in paragraphs 4(c) and 6 of this Order.

(b) General Designations (1) Inspection: Assistant Commissioner; Director, Internal Security Division; Director, Internal Audit Division; Regional Inspectors; Internal Auditors, and Internal Security Inspectors.

(2) District Intelligence: Chief and Assistant Chief of Division; Chiefs of Branches; Group Managers, and Special Agents.

(3) International Operations: Director; Assistant Director; Chief of Divisions and Branches; Special Agents; Case Managers; Group Managers; Internal Revenue Agents; Attorneys, Estate Tax; Estate Tax Examiners; Revenue Service and Assistant Revenue Service Representatives; Tax Auditors; and Revenue Officers.

(4) District Collection Activity: Chief and Assistant Chief of Division; Chiefs of Field Branches and Office Branches; Chiefs, Special Procedures Staffs; Group Managers and Revenue Officers.

(5) District Audit: Chief of Division; Chiefs of Examination Branches; Conferees; Case Managers; Group Managers; Internal Revenue Agents; Tax Auditors; Attorneys, Estate Tax; and Estate Tax Examiners.

(6) Regional and District Employee Plans and Exempt Organizations: Conferees; Chief of Division; Chief of Examination Branch; Chief, Technical Staff; Group Managers; Internal Revenue Agents; Tax Law Specialists; and Tax Auditors.

(7) Service Center: Chief, Audit Division; Chief, Intelligence Staff; Revenue Agents; Tax Auditors and Special Agents.

(c) District Directors, Service Center Directors, Regional Inspectors, the Chief of Investigation Branch, and the Director of International Operations may redelegate the authority under 4(a) of this Order to aides or trainees, respectively, for the positions of revenue agent, tax law specialist, revenue officer, internal auditor, internal security inspector, and special agent, provided that each such aide or trainee shall exercise said authority only under the direct supervision, respectively, as applicable of a revenue agent, tax law specialist, revenue officer, special agent, internal auditor or internal security inspector.

(d) District Directors may redelegate the authority under 4(a) of this Order to Revenue Representatives and Office Collection Representatives.

5. Under the authority granted to the Commissioner of Internal Revenue by 26 CFR 301.7622–1, the officers and employees of the Internal Revenue Service referred to in paragraphs 1(b), 1(c), 1(d) and 4(b) and 4(c) of this Order are designated to administer oaths and affirmations and to certify to such papers as may be necessary under the internal revenue laws and regulations *except* that the authority to certify shall not be construed as applying to those papers or documents the certification of which is authorized by separate order or directive. Revenue Representatives and Office Collection Representatives referred to in paragraph 4(d) of this Order are not designated to administer oaths or to perform the other functions mentioned in this paragraph.

6. The authority delegated herein may not be redelegated except as provided in paragraphs 4(c) and 4(d).

7. This Order supersedes Delegation Order No. 4 (Rev. 2), issued April 30, 1973, and Delegation Order No. 37 (Revised), issued September 3, 1957.

Date of issue: November 24, 1975.

Effective date: December 24, 1975.

DONALD C. ALEXANDER,
Commissioner.

Office of the Secretary

POLYMETHYL METHACRYLATE OF PELLET, POWDER, FLAKE, GRANULAR OR SIMILAR FORMS FROM JAPAN

Antidumping Withholding of Appraisement Notice

Information was received on May 16, 1975, from E. I. du Pont de Nemours, alleging that polymethyl methacrylate polymers from Japan were being sold in the United States at less than fair value thereby causing injury to, or the likelihood of injury to, or the prevention of establishment of an industry in the United States, within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 *et seq.*) (referred to in this notice as "the Act"). On the basis of this information and subsequent preliminary investigation by the Customs Service, an "Antidumping Proceeding Notice" was published in the FEDERAL REGISTER of June 16, 1975 (40 FR 25497). An "Amendment of Antidumping Proceeding Notice" limiting the class or kind of merchandise under consideration to polymethyl methacrylate of pellet, powder, flake, granular or similar forms from Japan was published in the FEDERAL REGISTER of June 23, 1975 (40 FR 26264).

TENTATIVE DETERMINATION OF SALES AT LESS THAN FAIR VALUE

On the basis of the information developed in Customs' investigation and for the reasons noted below, pursuant to section 201(b) of the Act (19 U.S.C. 160 (b)), I hereby determine that there are reasonable grounds to believe or suspect that the purchase price of polymethyl methacrylate of pellet, powder, flake, granular or similar forms, from Japan is less, or is likely to be less, than the fair value, and thereby the foreign market value, of such or similar merchandise.

STATEMENT OF REASONS

The reasons and bases for the above tentative determination are as follows:

a. *Scope of the Investigation*—It appears that all, or virtually all, imports of the subject merchandise from Japan were manufactured by either Mitsubishi Rayon Co., Ltd., or Asahi Chemical Industry Co., Ltd., both of Tokyo, Japan. Therefore, the investigation was limited to these two manufacturers.

b. *Basis of Comparison*—For the purpose of considering whether the merchandise in question is being, or is likely to be, sold at less than fair value within the meaning of the Act, the proper basis of comparison appears to be between purchase price and the home market price of such or similar merchandise. Purchase price, as defined in section 203 of the Act (19 U.S.C. 162), was used since all export sales appear to be made to non-related Japanese trading companies. Home market price, as defined in § 153.3, Customs Regulations, (19 CFR 153.3), was used since such or similar merchandise appears to be sold in the home market in sufficient quantities to provide a basis of comparison for fair value purposes.

c. *Purchase Price*—For the purpose of this tentative determination of sales at less than fair value, adjustments have been made on the following bases. In accordance with § 153.31(b), Customs Regulations, (19 CFR 153.31(b)), pricing information was obtained concerning imports of polymethyl methacrylate from Japan during the 6-month period January 1, 1975, through June 30, 1975.

In the import transactions, all of the merchandise was purchased, or agreed to be purchased, prior to the time of exportation by the persons by whom or for whose account it was purchased, within the meaning of section 203 of the Act. The purchase price has been calculated on the basis of the ex go-down, Japanese port, packed price to the United States. Deductions have been made for inland freight, export selling expenses and packing with respect to both manufacturers. A deduction has been made for a royalty payment for merchandise sold by Asahi Chemical Industry Co., Ltd.

d. *Home Market Price*—For the purposes of this tentative determination of sales at less than fair value, adjustments have been made on the following bases. The home market price has been calculated on the basis of the delivered, net, packed price to the distributor. Adjustments have been made for credit expense, transportation, technical service expenses shown to be directly related to the sales in question, and packing costs, as appropriate, for merchandise sold by both manufacturers, in accordance with section 153.8, Customs Regulations (19 CFR 153.8). Adjustments for credit expenses relate to discounted promissory notes used for payment in the home market. Adjustments for technical services relate to travel expenses, salaries, and materials of technicians in providing technical services to home market purchasers and are directly related to sales in the home market. With respect to sales by Asahi Chemical Industry Co., Ltd., further adjustments for differences in circumstances of sales have been made for freely offered discounts and rebates of merchandise, for certain sales aids provided for the benefit of purchasers in later sales, and for royalty payments for merchandise. With respect to sales by Mitsubishi Rayon Co., Ltd., further adjustments for differences in circumstances of sales have been made for certain advertising and sales aid expenses incurred for the benefit of purchasers in later sales.

Adjustments for differences in circumstances of sales in accordance with § 153.8, Customs Regulations, (19 CFR 153.8), for warehousing costs for inventory purposes, salesmen's salaries, interest on inventory, and research and development expenses were claimed by counsel for both manufacturers. These expenses do not bear a direct relationship to the sales under consideration and no adjustment has been allowed for these expenses. Further adjustments for certain technical service expenses, including that for the supply of molds and technical brochures to purchasers in the home market, have not been allowed, but may be granted subsequently, if it is shown that these expenses are directly related to the sales under consideration.

Adjustments to the home market price, in purchase price situations, are allowed only for circumstances of sale which bear a direct relationship to the sales under consideration. Accordingly, warehousing costs for inventory purposes are not an allowable adjustment, since these expenses must be borne regardless of whether particular sales are made.

Salesmen's salaries, unlike commissions, are also not an allowable adjustment to home market price, since they too must be paid by the company irrespective of whether sales are made.

Adjustments for technical services rendered by a foreign company in its home market for purchasers of its product may be allowable if shown to be directly related to the sales under consideration. Technical services rendered to customers in the foreign market for advice on items, such as usage or application of the product sold is an allowable adjustment and is granted to the extent to which the specific direct costs of the services rendered are documented. The documentation submitted in the instant case relates to the salaries, fringe benefits, travel expenses, and material expenses of the technicians employed for rendering technical services. These expenses have been allowed.

e. *Result of Fair Value Comparison.*—Using the above criteria, preliminary analysis suggests that purchase price probably will be lower than the home market price of such or similar merchandise. Comparisons were made on approximately 95 percent of all polymethyl methacrylate sold in the United States during the period of investigation. Margins were tentatively found, ranging from 17–40 percent, on 100 percent of sales compared. The weighted average margin tentatively appears to be between 17–25 percent.

Accordingly, Customs Officers are being directed to withhold appraisement of polymethyl methacrylate of pellet, powder, flake, granular or similar forms, from Japan in accordance with section 153.48, Customs Regulations, (19 CFR 153.48).

In accordance with §§ 153.32(b) and 153.37, Customs Regulations (19 CFR 153.32(b), 153.37), interested persons may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any request that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 1301 Constitution Avenue, NW., Washington, D.C. 20229, in time to be received by his office on or before December 29, 1975. Such request must be accompanied by a statement outlining the issues wished to be discussed.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received by his office on or before January 19, 1976.

This notice, which is published pursuant to § 153.34(b), Customs Regulations (19 CFR 153.34(b)), shall become effective upon publication in the FEDERAL REGISTER. It shall cease to be effective at the expiration of 6 months from the date of this publication, unless previously revoked.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

DECEMBER 15, 1975.

Department of the Navy

CHIEF OF NAVAL OPERATIONS EXECUTIVE PANEL ADVISORY COMMITTEE

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. App. I), notice is hereby given that the Chief of Naval Operations Executive Panel Advisory Committee will hold a closed meeting on January 21–22, 1976, at the Pentagon, Washington, D.C. The sessions will commence at 9:00 a.m. and terminate at 5:30 p.m. daily.

The agenda will consist of matters required by Executive Order to be kept secret in the interest of national defense, including a current intelligence political-military assessment, briefings on significant intelligence highlights, and discussions on naval missions, policy and strategy, ship acquisition, systems development, specialized technology, and long-range Navy plans. Accordingly, the Secretary of the Navy has determined in writing that the public interest requires that all sessions of the meeting be closed to the public because they will be concerned with matters listed in Section 552(b)(1) of Title 5, United States Code.

Dated: December 10, 1975.

LARRY G. PARKS,
Captain, JAGC, U.S. Navy, Assistant Judge Advocate General (Civil Law).

NEW MEXICO

Notice of Applications

DECEMBER 11, 1975.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), El Paso Natural Gas Company has applied for five 4½ inch natural gas pipeline rights-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 19 S., R. 32 E.,
Sec. 15, SW¼SW¼;
Sec. 22, NW¼NW¼.
T. 19 S., R. 33 E.,
Sec. 13, W½NW¼ and NW¼SW¼.
T. 19 S., R. 34 E.,
Sec. 4, S½SW¼ and SW¼SE¼.

These pipelines will convey natural gas across 1.597 miles of national resource lands in Lea County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the applications should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, PO Box 1397, Roswell, NM 88201.

T. 29 N., R. 113 W.,
Sec. 28.

The pipeline will convey natural gas from the Tip Top #F-44X-28G well in sec. 28, T. 29 N., R. 113 W., to an existing gathering system in sec 6, T. 28 N., R. 113 W., Sublette County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1869, Rock Springs, Wyoming 82901.

PHILIP C. HAMILTON,
Chief, Branch of Lands and Minerals Operations.

[Wyoming 53190]

WYOMING

Notice of Application

DECEMBER 11, 1975.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), Northwest Pipeline Corporation has applied for a natural gas pipeline right-of-way across the following lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 28 N., R. 113 W.,
Sec. 6.
T. 29 N., R 113 W.,
Sec. 28;
Sec. 33.

The pipeline will be an extension to the Big Piney Gathering System in Sublette County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1869, Rock Springs, Wyoming 82901.

PHILIP C. HAMILTON,
Chief, Branch of Lands and Minerals Operations.

IDAHO

Hearing on Proposed Withdrawal of Public Lands

DECEMBER 11, 1975.

Notice is hereby given that a public hearing will be held at 9:30 a.m., Tuesday, February 10, 1976, at the Washington Water Power auditorium, at the corner of 5th Street and Lakeside Avenue to Coeur d'Alene, Idaho. The hearing pertains to the requests by the Forest Service (Idaho 5782, Idaho 4966) for the withdrawal from all location and entry under the mining laws, but not the mineral leasing laws, of the lands described hereafter for use by the Forest Service as botanical, scenic and recreation areas as set forth in notices of withdrawal published in the FEDERAL REGISTER on August 29 and May 11, 1972.

The lands involved are described as follows:

BOISE MERIDIAN

COEUR D'ALENE RIVER—MCPHERSON'S RANCH TO JORDAN CAMPGROUND

T. 52 N., R. 2 E.,
Sec. 1, lots 1 and 2.
T. 52 N., R. 3 E.,
Sec. 6, lots 2, 3 and 4, SW¼NE¼ and those portions of E½SE¼NW¼, NE¼SW¼ outside HES 804.
T. 53 N., R. 2 E.,
Sec. 36, S½SE¼NE¼, E½SE¼.
T. 53 N., R. 3 E.,
Sec. 16, W½NW¼;
Sec. 17, E½E½NE¼, N½NW¼NE¼NE¼, S½NW¼SE¼NE¼, SW¼SE¼NE¼, W½NE¼, E½SE¼NW¼, E½SW¼, E½SW¼SW¼, S½SW¼SW¼SW¼, NW¼SE¼, NW¼SW¼SE¼;
Sec. 19, E½NE¼, SE¼NW¼NE¼, SW¼NE¼, E½SW¼, SE¼;
Sec. 20, W½NE¼NW¼, NW¼NW¼, N½SW¼NW¼;
Sec. 30, NE¼, S½SW¼, W½SE¼, W½E½SE¼;
Sec. 31, N½NW¼NE¼, W½.

The areas described total 1,867.17 acres.

REVETT LAKE RECREATION AREA

T. 49 N., R. 5 E.,
Sec. 25, lots 1 and 2, SE¼NE¼NW¼SE¼, S½NW¼SE¼, SW¼SE¼, SE¼SE¼NE¼SW¼, NE¼NE¼SE¼SW¼, S½NE¼SE¼SW¼, SE¼SE¼SW¼;
Sec. 36, lots 1 and 2, N½NW¼NE¼, SE¼NW¼NE¼, E½SW¼NW¼NE¼, NW¼SW¼NW¼NE¼, E½NE¼NE¼NW¼.
T. 49 N., R. 6E.,
Sec. 30, lots 4 and 5, N½NE¼NW¼NE¼, SW¼NE¼NW¼NE¼, SE¼NW¼NW¼NE¼, SW½NW¼NE¼, NW¼SE¼NW¼NE¼, E½SE¼NE¼NW¼, SW¼SW¼NE¼NW¼, SE¼SE¼NW¼NW¼, E½SW¼NW¼, SE¼NW¼SW¼NW¼, E½SW¼SW¼NW¼, NE¼NE¼SE¼NW¼, W½NE¼SE¼NW¼, NW¼SE¼NW¼, N½SW¼SE¼NW¼, SW¼SW¼SE¼NW¼;
Sec. 31, lot 1.

The areas described total 443.31 acres.

GLIDDEN LAKES RECREATION AREA

T. 48 N., R. 6 E.,
Sec. 7, lot 1, S½NE¼SW¼SE¼, SE¼SW¼SE¼;
Sec. 8, lots 4, 5 and 6;
Sec. 17, lots 2 and 3, NW¼NW¼, NW¼SW¼NW¼, W½NE¼SW¼NW¼, NW¼SW¼SW¼NW¼;
Sec. 18, lot 1, E½NW¼NE¼, NE¼SW¼NE¼, N½SE¼NE¼, N½S½SE¼NE¼.

The areas described total 368.09 acres.

SETTLERS GROVE OF ANCIENT CEDAR

T. 50 N., R. 5 E.,
Sec. 4, NW¼NE¼ of lot 1, NW¼ of lot 1, SW¼SW¼ of lot 1, N½SW¼ of lot 1, SE¼NE¼ of lot 2, SE¼ of lot 2, NE¼SW¼NE¼, NW¼SE¼SW¼NE¼, E½NW¼SW¼NE¼, SW¼NW¼SW¼NE¼, SW¼SW¼NE¼, E½SE¼SE¼NW¼, SW¼ SE¼SE¼NW¼, SE¼SW¼SE¼NW¼, NW¼NE¼SW¼, NE¼NE¼SW¼, S½NE¼NW¼SW¼, SE¼NW¼NW¼SW¼, NE¼SW¼NW¼SW¼, N½SE¼NW¼SW¼, W½NW¼NW¼SE¼.
T. 51 N., R. 5 E.,
Sec. 33, S½SE¼NE¼SE¼, SE¼SW¼NE¼SE¼, NE¼SE¼SE¼, E½NW¼SE¼SE¼, W½SE¼SE¼SE¼, SW¼SE¼SE¼, NE¼SE¼SE¼SE¼;
Sec. 34, SW¼NW¼SW¼, NW¼SW¼SW¼, S½NW¼NW¼SW¼.

The areas described total 183.47 acres, more or less.

All of the above areas aggregate 2,862.04 acres more or less in Shoshone County.

The hearing will be open to attendance of opponents to the withdrawal who may state their views and to proponents of the withdrawal who may explain its purpose, intent and extent and to all interested persons who desire to be heard on the subject. Those who desire to be heard in person at the hearing and those who desire to submit written statements should file notice thereof not later than January 19, 1976, with the State Director, Bureau of Land Management, P.O. Box 042, Boise, Idaho 83724.

RICHARD H. PETRIE,
Acting State Director.

[NM 27129, 27130, 27131, 27132, 27133, 27136 and 27137]

NEW MEXICO

Notice of Applications

DECEMBER 10, 1975.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), El Paso Natural Gas Company has applied for six 4½ inch and one 6⅝ inch natural gas pipeline rights-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 26 N., R. 12 W.,
Sec. 21, W½NW¼;
Sec. 33, SE¼NW¼, N½SE¼ and SE¼SE¼;
Sec. 34, W½SW¼ and SE¼ SW¼.
T. 31 N., R. 10 W.,
Sec. 20, lots 1 and 15;
Sec. 21, lot 4.

These pipelines will convey natural gas across 1.791 miles of national resource lands in San Juan County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the applications should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, 3550 Pan American Freeway, NE, Albuquerque, New Mexico 87107.

FRED E. PADILLA,
Chief, Branch of Lands and Minerals Operations.

Fish and Wildlife Service

ENDANGERED SPECIES PERMIT

Notice of Receipt of Application

Notice is hereby given that the following application for a permit is deemed to have been received under section 10 of the Endangered Species Act of 1973 (P.L. 93-205).

Applicant: San Diego Zoological Garden, Post Office Box 551, San Diego, California 92112; Clyde A. Hill, Curator of Mammals.

DEPARTMENT OF THE INTERIOR
U.S. FISH AND WILDLIFE SERVICE
FEDERAL FISH AND WILDLIFE LICENSE/PERMIT APPLICATION

1. APPLICATION FOR (Check one only)
☐ IMPORT OR EXPORT LICENSE ☒ PERMIT

2. BRIEF DESCRIPTION OF ACTIVITY FOR WHICH REQUESTED LICENSE OR PERMIT IS NEEDED:
Import two (2) male and one (1) female Crowned mongoose lemur (Lemur mongoz coronatus) endangered species for breeding in captivity.
Export one (1) male and one (1) female Red ruffed lemur, Varecia variegatus ruber, endangered species for breeding in

3. APPLICANT: (Name, complete address and phone number of individual, business, agency, or institution for which permit is requested)
San Diego Zoological Garden
P. O. Box 551
San Diego, California 92112
Phone: 714-234-5151

4. IF "APPLICANT" IS AN INDIVIDUAL, COMPLETE THE FOLLOWING:
☐ MR. ☐ MRS. ☐ MISS ☐ MS. | HEIGHT | WEIGHT
DATE OF BIRTH | COLOR HAIR | COLOR EYES
PHONE NUMBER WHERE EMPLOYED | SOCIAL SECURITY NUMBER
OCCUPATION

4a. IF "APPLICANT" IS A BUSINESS CORPORATION, PUBLIC AGENCY, OR INSTITUTION, COMPLETE THE FOLLOWING:
EXPLAIN TYPE OR KIND OF BUSINESS, AGENCY, OR INSTITUTION:
Public Zoo - Wildlife exhibition research programs in addition to educational and related activities.

ANY BUSINESS, AGENCY, OR INSTITUTIONAL AFFILIATION HAVING TO DO WITH THE WILDLIFE TO BE COVERED BY THIS LICENSE/PERMIT
NAME, TITLE, AND PHONE NUMBER OF PRESIDENT, PRINCIPAL OFFICER, DIRECTOR, ETC. Clyde A. Hill, Curator of Mammals 714-234-5151
IF "APPLICANT" IS A CORPORATION, INDICATE STATE IN WHICH INCORPORATED

5. LOCATION WHERE PROPOSED ACTIVITY IS TO BE CONDUCTED
Import from Cologne, West Germany
Export from San Diego, CA

7. DO YOU HOLD ANY CURRENTLY VALID FEDERAL FISH AND WILDLIFE LICENSE OR PERMIT? ☒ YES ☐ NO
(If yes, list license or permit number) Marine Mammal 669, ES409, ES136, 1962-10 (Under 1944 law issued 62) Scientific coll.1-SC-169 K.C. Lint

8. IF REQUIRED BY ANY STATE OR FOREIGN GOVERNMENT, DO YOU HAVE THEIR APPROVAL TO CONDUCT THE ACTIVITY YOU PROPOSE? ☐ YES ☐ NO
(If yes, list jurisdictions and type of document(s))
Not required

9. CERTIFIED CHECK OR MONEY ORDER (If applicable) PAYABLE TO THE U.S. FISH AND WILDLIFE SERVICE ENCLOSED IN AMOUNT OF
$ Not required

10. DESIRED EFFECTIVE DATE
ASAP

11. DURATION NEEDED
Until terminated

12. ATTACHMENTS. THE SPECIFIC INFORMATION REQUIRED FOR THE TYPE OF LICENSE/PERMIT REQUESTED (See 50 CFR 13.12) MUST BE ATTACHED. IT CONSTITUTES AN INTEGRAL PART OF THIS APPLICATION. LIST SECTIONS OF 50 CFR UNDER WHICH ATTACHMENTS ARE PROVIDED.

CERTIFICATION
I HEREBY CERTIFY THAT I HAVE READ AND AM FAMILIAR WITH THE REGULATIONS CONTAINED IN TITLE 50, PART 13, OF THE CODE OF FEDERAL REGULATIONS AND THE OTHER APPLICABLE PARTS IN SUBCHAPTER B OF CHAPTER I OF TITLE 50, AND I FURTHER CERTIFY THAT THE INFORMATION SUBMITTED IN THIS APPLICATION FOR A LICENSE/PERMIT IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE AND BELIEF. I UNDERSTAND THAT ANY FALSE STATEMENT HEREIN MAY SUBJECT ME TO THE CRIMINAL PENALTIES OF 18 U.S.C. 1001.
SIGNATURE (In ink) Clyde A. Hill | DATE 30 October 1975

V 40 244 DEC 18 75 5 XUM

OCTOBER 30, 1975.

DIRECTOR (FWS/LE), U.S. FISH AND WILDLIFE SERVICE, U.S. DEPARTMENT OF THE INTERIOR,
P.O. Box 19183,
Washington, D.C. 20036.

DEAR SIR: The San Diego Zoological Garden requests an endangered species permit to import two male and one female crowned mongoose lemur and a permit to export one male and one female red ruffed lemur. Both permits are for the purpose of an animal exchange between the zoo in Cologne, Germany and the San Diego Zoo.

1. Common and scientific names of the species or subspecies, number, age, and sex of the wildlife to be covered in the permit.

The Cologne Zoo has two male (born in 1975 at that institution) and a female (born there in 1973) crowned mongoose lemur *Lemur mongoz coronatus*. Those three animals can be exchanged for a male and a female red ruffed lemur *Varecia variegatus ruber* born at the San Diego Zoo. The male was born on 20 May 1973, the female 8 May 1974.

2. Copy of the contract or other agreement under which such wildlife is to be imported, showing the country of origin, name and address of the seller or consignor, date of the contract, number and weight (if available), and description of the wildlife.

Attached are photocopies of letters from Uta Hick dated 26 September 1975 concerning the exchange and Dr. Ernst Kullman, director of the Cologne Zoo dated 28 September 1975. Data to fulfill this section are contained in these letters.

3. A full statement of justification for the permit including details of the project or other plans for utilization of the wildlife in relation to zoological, educational, scientific, or propagational purposes as appropriate and the planned disposition of the wildlife upon termination of the project.

In 1963 the San Diego Zoo began negotiations with the Malagasy Government to import primates and other fauna from the island of Madagascar. The main motive behind this importation was to establish a breeding nucleus of a number of species in order to study their basic reproductive biology and to impart the message of wildlife conservation to the three million visitors that come to the San Diego Zoo each year. We were impressed with the fact that only one fifteenth of the forest remained in Madagascar and it was disappearing at a fast rate.

We believe in the premise that wildlife can best be saved in its native environment and captive breeding is a secondary line of defense. Nevertheless, a captive breeding program is sometimes the only answer. When conditions indicate an extensive captive breeding program may be necessary in the future, it is wise to establish the proper husbandry techniques needed for each species before the wild population reaches a critical level. We thought at the time, and still do, that some of the animals of Madagascar might be doomed unless they were saved by captive breeding. We therefore made preparations to obtain and work with various lemuroids.

The Malagasy Government agreed to our plan and it designated the San Diego Zoo as a depository for their protected wildlife. The Malagasy Government requested a member of the zoo staff to present its case in Tananarive and I did so in 1965. Following the meeting the government gave us permits for the genera *Lemur Varecia, Propithecus, Indri* and later *Microvebus*. The permits were given to us on a tax exempt basis, a waiver which I uderstand is seldom given. The permits were also coordinated with the International Union for the Conservation of Nature and they are available for examination. Other than those I personally collected in 1965 lemurs have trickled into our institution by ones and twos. Our animals are pets confiscated by the game department and then shipped to us.

Our program for these primates has been highly successful and a most intriguing experience. In *Lemur catta* we have had 51 births and five infant deaths. Only one adult has died in the past 10 years. By careful management we have increased our twin birth ratio to more than 36 percent. In 1965 we imported a trio of *Lemur macaco*, all are still alive. Eleven have been born, two infants died and there were two stillbirths. Our *Varecia variegatus* (for many years considered to also be in the genus *Lemur*) have produced 27 infants of which eight died. All eight infants died because the social behavior of this aberrant species was not known. We now know successful birth and rearing of the young can take place only if no other adult or juvenile females are present. Ten *Varecia variegatus ruber* have been born, the first litter of three was a long and difficult birth and none survived but all subsequent infants have. We have made the most amazing observations on the *Varecia* lemurs. Unlike their very close relatives in the genus *Lemur*, ruffed lemur babies are raised in a nest like birds rather than carried about in the normal primate fashion. This unusual maternal-infant behavior has been a most important discovery and vital to the successful rearing of this species. The incompatibility of females at birth time is also highly significant.

We wish to continue our projects of learning the basic techniques of keeping and rearing the True Lemurs in captivity. The Cologne Zoo has also been a world leader in breeding and studying several species of *Lemur*. They have successfully bred and raised the black and white *Varecia variegatus* and thus should have no difficulty with subspecies *ruber*. They have bred the rare crowned mongoose lemur and we would like to establish the first breeding nucleus in the New World. We believe we have the necessary expertise to handle such a project and we also believe the Cologne Zoo will have no difficulty with the pair of lemurs we wish to send them.

4. A description and the address of the institution or other facility where the wildlife will be used or maintained.

The crowned mongoose lemurs will be held at the San Diego Zoo. This institution is owned by the City of San Diego but is managed and operated by a California non-profit corporation known as the Zoological Society of San Diego. The postal address is: San Diego Zoo, Box 551, San Diego, California 92112, telephone: 714-234-5151. "The Cologne Zoo was established in 1860. It is a pleasant zoo park by the Rhine, with many fine new buildings." (*Zoos of the World*, James Fisher, published for The American Museum of Natural History, The Natural History Press, Garden City, New York, 1967, page 238). The postal address is Zoologischer Garten Köln, 5 Köln 60, Reichier Strausse 1973, Köln, West Germany.

5. A statement that at the time of application the wildlife to be imported is still in the wild, was born in captivity or has been removed from the wild.

As documented in the letters of Uta Hick and Dr. Ernst Kullman, the mongoose lemurs were born in the Cologne Zoo. The red ruffed lemurs to be sent to the Cologne Zoo were born in the San Diego Zoo.

6. A resume of the applicant's attempts to obtain the wildlife to be imported from sources which would not cause the death or removal of additional animals from the wild.

All the animals in this exchange were born in captivity, thus will not be a drain on the natural population of wild lemurs.

7. (i) A complete description, including photographs or diagrams, of the area and facilities in which the wildlife will be housed.

The Cologne Zoo recently finished a new exhibit building which they call The Lemur House. Rather than take up much space in the application describing this building and its workings we have, instead, enclosed some publications concerning this facility. In their excellent journal *Freunde Des Kölner Zoo* an article was published containing many photographs showing the Lemur House, please refer to "Der Neubau Des Lemurehauses" by Kurt Meywald.

The San Diego Zoo enclosure, see enclosed drawings, is basically an open air exhibit. The floor, two side walls and the back wall are smooth cement covered with epoxy. The front and top is a screen of electric weld wire allowing sunlight and free circulation of air. The cage contains resting shelves, a wooden climbing tree plus miscellaneous climbing and recreational apparatus. The rear of the cage opens into a shelter/bedroom containing a draft proof, sleeping shelf having an electrically heated floor which is thermostatically controlled. These enclosures have been operable since 1960 and have been proven effective. They have given us outstanding reproductive and longevity records for many species of primates, especially the more delicate kinds.

(ii) A brief résumé of the technical expertise available, including any experience the applicant or his personnel have had in propagating the species or closely related species to be imported.

Some of the material required for this section has already been recorded in section 3 of this application. In addition, we have enclosed personnel résumés of San Diego Zoo mammal curators and veterinarians who will be working with the species. Also please examine the following enclosures: Zoo *Köln, Lemurenhaus Eroffnet!* Please especially study the color photographs of the various species of lemurs and other primates kept in the Cologne Zoo. The primates are in magnificent condition. Also Heft 4, 16 Jahrgang of *Zeitschrift Des Kölner Zoo* by Uta Hick which has a color photograph of a white-fronted lemur on the cover. This journal points out the excellence of their primate care and gives insight to their scientific and literary expertise. A fine 13 page article on lemur behavior, feeding techniques, etc. by Uta Hick entitled "Das erste Jahr in neuen Lemurenhaus" appeared in Heft 4, 17 Jahrgang, *Zeitschrift Des Kölner Zoo* is enclosed. Another article by Uta Hick concerning Cologne's lemur breeding program is included which is entitled "Einige Beobachtungen zur Fortpflanzund und Jugendentiwicklung von *Lemur catta, Lemur mongoz mongoz, Lemur mongoz coronatus und Lemur fulvus albifrons*". The well illustrated 11 page article appeared in Heft 3, 13 Jahrgang, *Freunde Des Kölner Zoo* and it has, as do the other cited articles, a summary in English and all photographs are captioned in English as well as German. General notes on the Cologne lemur collection appeared in Heft 2, 10 Jahrgang, *Zeitschrift Des Kölner Zoo* by Uta Hick, entitled "Aus der Kölner Lemuren-Sammlung". Three more references are enclosed which deal with other rare and delicate primate species to demonstrate an across-the-board excellence in primate husbandry.

A paper on the breeding and husbandry of the red-backed saki and white-nosed saki again illustrates in color the superior condition of their animals. It is titled "Erstmalig gelungene Zucht eines Bartsakis" again written by Uta Hick and published in *Freunde Des Köner Zoo*, Heft 2, 11 Jahrgang. Cologne is also well known for their fine colony of rare and delicate Douc langurs and another 10 page article by Uta Hick "Zucht un Haltung von Kleiderafen" appeared in Heft 3, 13 Jahrgang, *Freunde Des Kölner Zoo* summarizes their experience with the species. Last, there is an 11 page scientific paper in English by Uta Hick, "Breeding and Maintenance of Douc Langurs at Cologne Zoo". The aforementioned literature should not only illustrate the facility but the expertise of the Cologne Zoo staff. In addition, Uta Hick's letter of 21 October 1975 states she has worked with lemurs since 1964 and more than 60% of the lemurs in the Cologne collection were born in the Cologne Zoo.

(iv) A detailed description of the type, size and construction of the container: Arrangements for feeding, watering, and otherwise caring for the wildlife in transit: and the arrangements for caring for the wildlife on importation into the United States.

The lemurs will be air transported on Lufthansa Airline via polar flight between Los Angeles and Frankfurt. Cologne is only a short distance from Frankfurt and that leg of the trip will be made by zoo truck. Transportation from and to Los Angeles will be made by zoo truck driven by an experienced primate keeper. The shipping crates will exceed the minimum standards required by the International Air Transport Association (IATA). Feeding and watering facilities are built into the crates. At Los Angeles the lemurs will be met by our customs house broker, James G. Wiley Company, 5315 West 102nd Street, P.O. Box 90008, Airport Station, Los Angeles, California 90009. This company is well experienced with animal needs and has been our broker for many years. The San Diego Zoo has met the registration standards for HEW effective 11 October 1975.

I hereby certify that I have read and am familiar with the regulations contained in Title 50, Part 13, of the Code of Federal Regulations and the other applicable parts in Subchapter B of Chapter I, Title 50, and I further certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement hereon may subject me to the criminal penalties of 18 U.S.C. 1001.

Sincerely,

CLYDE A. HILL,
Curator of Mammals.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), U.S. Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. All relevant comments received within 30 days of the date of publication will be considered.

Dated: December 3, 1975.

C. R. BAVIN,
Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service.

Office of Hearings and Appeals

[Docket No. M 76-31]

HARLAN CENTRAL COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. § 861(c) (1970), Harlan Central Coal Company has filed a petition to modify the application of 30 CFR 77.1605(k) to its D-1 Mine, Totz, Kentucky.

30 CFR 77.1605(k) provides:

Berms or guards shall be provided on the outer bank of elevated roadways.

In support of its petition, Petitioner states:

1. Petitioner's access road which is the subject of the petition is approximately 1 mile in length. The road is narrow due to the steep slopes of the mountains. The outer banks are fill material and will not support guard rails.

2. The use of berms would eliminate many possible passing areas for coal trucks and cars thus creating a hazard from loaded coal trucks.

3. The access road is maintained with graders and by pushing mud and snow over the outer edge of the road. Through fall, winter, and spring, frequent freezes and thaws occur which, if berms are installed, would create near impossible travel conditions.

4. Access roads without berms can be maintained by use of gravel, salt and grading equipment whereas they cannot be safely maintained with berms.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before January 19, 1976. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: December 11, 1975.

DAVID TORBETT,
Acting Director, Office of Hearings and Appeals.

[Docket No. M 76-29]

HELVETIA COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. § 861(c) (1970), Helvetia Coal Company has filed a petition to modify the application of 30 CFR 75.1101-8(b) to its Lucerne Nos. 6, 8 and 9 Mines, Indiana, Pennsylvania.

30 CFR 75.1101-8(b) provides:

Two or more branch lines, at least one of which shall be above the top belt and one between the top and bottom belt, shall be installed in each sprinkler system to provide a uniform discharge of water to the belt surface.

In support of its petition, Petitioner states: 1. Petitioner presently utilizes a foam generator system authorized by section 75.-1101-5 at Lucerne No. 6 and Lucerne No. 8 Mines. Lucerne No. 9 is just being developed and is not yet in production. Petitioner proposes to install a sprinkler system authorized by section 75.1101-6 at those mines and at Lucerne No. 9, but with a modification from the specific requirements of section 75.1101-8(b) as discussed below.

2. Petitioner requests modification of section 75.1101-8(b) to permit the use of a single line as part of its sprinkler system at main and secondary belt conveyor drives at the above-captioned mines.

3. The proposed modification will both improve existing systems and guarantee no less than the same measure of protection afforded the miners by use of the dual branch lines because:

(a) The single branch line will be installed with nozzles at 8 foot intervals at or above the plane of the top belt and offset to the side, allowing water to be released onto the top and bottom surfaces of the top belt and top surface of the bottom belt;

(b) A single-line system installed in this fashion performs the purpose intended by the regulations. The preliminary report of the research team studying the efficiency of the single-line system under MESA's Technical Support Group concluded that a single-line sprinkler system of the type proposed by Petitioner is as efficient for safety purposes as the branch line system.

4. Petitioner's proposed system will meet requirements of sections 75.1101-8(c), (d) and (e), and thereby improve reliability while providing no less than the same protection afforded miners by use of the dual branch system.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before January 19, 1976. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: December 11, 1975.

DAVID TORBETT,
Acting Director, Office of Hearings and Appeals.

DEC 18 75 V40 I244 D XUM

[Docket No. M 76-32]

ISLAND CREEK COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. § 961(c) (1970), Island Creek Coal Company has filed a petition to modify the application of 30 CFR 75.1405 to its Guyan No. 4 Mine, Logan County, West Virginia.

30 CFR 75.1405 provides:

All haulage equipment acquired by an operator of a coal mine on or after March 30, 1971, shall be equipped with automatic couplers which couple by impact and uncouple without the necessity of persons going between the ends of such equipment. All haulage equipment without automatic couplers in use in a mine on March 30, 1970, shall also be so equipped within 4 years after March 30, 1970.

To be read in conjunction with section 75.1405 is 30 CFR 75.1405-1 which provides:

The requirement of 75.1405 with respect to automatic couplers applies only to track haulage cars which are regularly coupled and uncoupled.

In support of its petition, Petitioner states: 1. Petitioner's mine employs a track coal haulage system, but all cars are handled as a unit. The only time cars are coupled or uncoupled is at the section loading point and at the dump area on the surface. Cars are not regularly coupled or uncoupled except in these instances.

2. Track haulage cars used for transporting supplies in Petitioner's mines are not regularly coupled and uncoupled as the majority of all supply trips are coupled before entering the mine and not uncoupled prior to returning from said trip. Supplies are unloaded directly from the cars while on track.

3. Petitioner has designed semi-automatic, lever operated-type couplers for use on its track equipment which enables the miner to couple or uncouple said cars without physically positioning himself between vehicles. Said system, furthermore, allows closer and more accessible inspection of coupling parts than possible with automatic couplers which would aid in the prevention of coupling failure. A copy of a schematic drawing of said system is attached hereto, as Exhibit A,[1] and made a part hereof.

4. Petitioner states that its training program and safety record regarding its coupling system has been excellent in the subject mine.

5. Because of the foregoing facts, installation of automatic couplers on all equipment used on track in Petitioner's aforementioned mine would diminish safety and, in fact, create hazards or the risk of hazards not now present.

6. Furthermore, the alternative method proposed by Petitioner will at all times guarantee the same, or a greater degree of protection as afforded by 30 CFR 75.1405.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before January 19, 1976. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: December 11, 1975.

DAVID TORBETT,
Acting Director,
Office of Hearings and Appeals.

[FR Doc.75-34122 Filed 12-17-75;8:45 am]

[1] Exhibit A is available for inspection at the address contained in the last paragraph of the notice.

[Docket No. M 76-30]

ROCHESTER & PITTSBURGH COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. § 861 (c) (1970), Rochester & Pittsburgh Coal Company has filed a petition to modify the application of 30 CFR 75.1101-8(b) to the following mines located in Indiana County, Pennsylvania.

30 CFR 75.1101-8(b) provides:

Two or more branch lines, at least one of which shall be above the top belt and one between the top and bottom belt, shall be installed in each sprinkler system to provide a uniform discharge of water to the belt surface.

In support of its petition, Petitioner states:

1. Petitioner presently utilizes deluge-type, water spray, foam generator and dry chemical systems to control fire at main and secondary belt conveyor drives authorized by 30 CFR section 75.1101 *et seq.* in its Emilie, Jane and Margaret mines. Petitioner proposes to install a sprinkler system authorized by section 75.1101-6 in those mines and in its Uring mines, now under construction, but with a modification from the specific requirements of section 75.1101-8 (b) as discussed below.

2. Petitioner requests modification of section 75.1101-8(b) to permit the use of a single line as part of its sprinkler system at main and secondary belt conveyor drives at the above-captioned mines.

3. The proposed modification will both improve existing systems and guarantee no less than the same measure of protection afforded the miners by use of the dual branch lines because:

(a) The single branch line will be installed with nozzles at 8 foot intervals at or above the plane of the top belt and offset to the side, allowing water to be released onto the top and bottom surfaces of the top belt and top surface of the bottom belt;

(b) A single-line system installed in this fashion performs the purpose intended by the regulations. The preliminary report of the research team studying the efficiency of the single-line system under MESA's Technical Support Group concluded that a single-line sprinkler system of the type proposed by Petitioner is as efficient for safety purposes as the branch line system.

4. Petitioner's proposed system will meet requirements of sections 75.1101-8 (c), (d) and (e), and thereby improve reliability while providing no less than the same protection afforded miners by use of the dual branch system.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before December 19, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: December 11, 1975.

DAVID TORBETT,
Acting Director, Office of Hearings and Appeals.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

[Notice of Designation Number A273]

IOWA

Designation of Emergency Areas

The Secretary of Agriculture has determined that farming, ranching, or aquaculture operations have been substantially affected in Story County, Iowa, as a result of excessive rainfall May 27 through June 26, accompanied by high winds, hail, and lightning; and severe flooding June 26 and 27, 1975.

Therefore, the Secretary has designated this area as eligible for Emergency loans pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Public Law 94-68, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Robert D. Ray that such designation be made.

Applications for Emergency loans must be received by this Department no later than February 2, 1976, for physical losses and September 1, 1976, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 9th day of December, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[FR Doc.75-34091 Filed 12-17-75;8:45 am]

[Notice of Designation Number A274]

WISCONSIN

Designation of Emergency Areas

The Secretary of Agriculture has determined that farming, ranching, or aquaculture operations have been substantially affected in Marathon County, Wisconsin, as a result of a drought occurring on June 30, 1975, through August 20, 1975; excessive rainfall on September 1, 1975, through September 20, 1975.

Therefore, the Secretary has designated this area as eligible for Emergency loans pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Public Law 94-68, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Patrick J. Lucey that such designation be made.

Applications for Emergency loans must be received by this Department no later than February 2, 1976, for physical losses and September 3, 1976, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 9th day of December, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

Forest Service

FREMONT NATIONAL FOREST GRAZING ADVISORY BOARD

Meeting

The Fremont National Forest Grazing Advisory Board will meet at 1:00 p.m. on January 21, 1976 in the Fremont Forest Supervisor's Office, 34 North D Street, Lakeview, Oregon. The purpose of this meeting is to discuss the 1975 Grazing Report, problems, budgeting, review of proposed manual amendments, the 10-year program, and other items as needed.

The meeting will be open to the public. Persons who wish to attend should notify Phil Lee, P.O. Box 551, Lakeview, Oregon 97630, Telephone 947-2151. Written statements may be filed with the grazing board before or after the meeting.

ERNEST B. PRICE, JR.,
Acting Forest Supervisor.

DECEMBER 22, 1975.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

IMPORTERS' TEXTILE ADVISORY COMMITTEE

Public Meeting

The Importers' Textile Advisory Committee will meet at 10:30 a.m. on February 5, 1976, in Room 6802, Department of Commerce, 14th & Constitution Avenue NW., Washington, D.C. 20230.

The Committee, which is comprised of 20 members, was established by the Secretary of Commerce on August 13, 1963 to advise U.S. Government officials of the effects on import markets of cotton, wool and man-made fiber textile agreements.

The agenda for the meeting is as follows:

1. Review of import trends.
2. Implementation of textile agreements.
3. Report on conditions in the domestic market.
4. Other business.

A limited number of seats will be available to the public. The public will be permitted to file written statements with the Committee before or after the meeting. To the extent time is available at the end of the meeting, the presentation of oral statements will be allowed.

Copies of the minutes of the meeting will be made available on written request addressed to the DIBA Freedom of Information Officer, Freedom of Information Control Desk, Room 3100, U.S. Department of Commerce, Washington, D.C. 20230.

Further information concerning the Committee may be obtained from Arthur Garel, Director, Office of Textiles, U.S. Department of Commerce, Washington, D.C. 20230, telephone 202-967-5078.

Dated: December 15, 1975.

ALAN POLANSKY,
Deputy Assistant Secretary for Resources and Trade Assistance.

National Bureau of Standards

FEDERAL INFORMATION PROCESSING STANDARDS COORDINATING AND ADVISORY COMMITTEE

Notice of Meeting

Pursuant to the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. III, 1973), notice is hereby given that the Federal Information Processing Standards Coordinating and Advisory Committee (FIPSCAC) will hold a meeting from 9:00 a.m. to 1:00 p.m. on Thursday, January 29, 1976, in Dining Room C, Administration Building, of the National Bureau of Standards, in Gaithersburg, Maryland.

The purpose of the meeting is to review the actions of the Federal Information Processing Standards (FIPS) Task Groups and to consider other matters relating to Federal Information Processing Standards.

The public will be permitted to attend, to file written statements, and, to the extent time permits, to present oral statements. Persons planning to attend should notify Robert E. Rountree, Jr., Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, D.C. 20234 (phone 301-921-3157).

Dated: December 12, 1975.

JOHN D. HOFFMAN,
Acting Director.

VOLUNTARY PRODUCT STANDARD

Action on Proposed Withdrawal

In accordance with § 10.12 of the Department's "Procedures for the Development of Voluntary Product Standards" (15 CFR Part 10, as revised; 35 FR 8349 dated May 28, 1970), notice is hereby given of the withdrawal of Voluntary Product Standard PS 33-70, "Polytetrafluoroethylene (PTFE) Plastic-Lined Steel Pipe and Fittings."

This withdrawal action is being taken for the reason that the product is covered by American Society for Testing and Materials' ASTM F 432-75, "Polytetrafluoroethylene (PTFE) Plastic-Lined Ferrous Metal Pipe and Fittings." and the continued duplication of this standard is inappropriate. This action is taken in furtherance of the Department's announced intentions as set forth in the public notice appearing in the FEDERAL REGISTER of October 20, 1975 (40 FR 48959) to withdraw this standard.

The effective date for the withdrawal of this standard will be February 17, 1976. This withdrawal action terminates the authority to refer to this standard as a voluntary standard developed under the Department of Commerce procedures.

Dated: December 12, 1975.

JOHN D. HOFFMAN,
Acting Director.

Office of the Secretary

REFRIGERATORS, COMBINATION REFRIGERATOR-FREEZERS, AND FREEZERS

Voluntary Energy Conservation; Testing and Labeling

By notice published in the FEDERAL REGISTER August 25, 1975 (40 FR 37063), the Department of Commerce announced its intention to issue a completed Appendix A to each of the following three Specifications: Voluntary Energy Conservation Specification No. 2-75, for Refrigerators; Voluntary Energy Conservation Specification No. 3-75, for Combination Refrigerator-Freezers; and Voluntary Energy Conservation Specification No. 4-75, for Freezers.

Interested parties were afforded an opportunity until September 24, 1975, to submit to the Assistant Secretary for Science and Technology written comments and suggestions relative to the proposed Appendix A to each Specification. Only two comments were received in response to the August 25, 1975, notice. These were revised energy values submitted by the Association of Home Appliance Manufacturers on behalf of the manufacturers who are members of the Association, and a copy of the values for energy consumption submitted by Amana Refrigeration, Inc. This correspondence and an analysis of the comments contained in it are available for public inspection at the Central Reference and Records Inspection Facility, Room 7068, Main Commerce Building, 14th Street between Constitution Avenue and E Street NW., Washington, D.C. 20230.

Based on the data submitted, the proposed Appendix A to each of the three cited Specifications has been modified. The resulting final Appendix A's are hereby issued. In accordance with the

V40244 DEC 18 75 XUM

notice published in the FEDERAL REGISTER on August 1, 1975 (40 FR 32415), each Specification will become fully operational on January 19, 1976. Manufacturers, however, may indicate their intent to become participants in the Program with respect to these Specifications at any time.

Potential participants are advised that an amendment to Specifications 2–75, 3–75, and 4–75 has been proposed in the FEDERAL REGISTER October 7, 1975 (40 FR 46337).

Issued: November 28, 1975.

BETSY ANCKER-JOHNSON, Ph.D.,
Assistant Secretary for Science and Technology.

The final Appendix A to each Specification is as follows:

VOLUNTARY ENERGY CONSERVATION SPECIFICATION NO. 2–75, FOR REFRIGERATORS

Appendix A: Total refrigerated volume and cost of energy ranges

Rated total refrigerated volume in cubic feet	Ranges of total refrigerated volume in cubic feet	Ranges [1] of cost of energy in dollars per month at a rate of 4¢ per kilowatt-hour for models with			
		Manual defrost		Automatic defrost	
		Minimum	Maximum	Minimum	Maximum
Less than 2.5	3.5 and less	1.10	2.00		
2.5 to 3.4	1.5 to 4.5	1.10	2.70		
3.5 to 4.4	2.5 to 5.5	1.10	2.70		
4.5 to 5.4	3.5 to 6.5	1.40	2.70		
5.5 to 6.4	4.5 to 7.5	1.40	2.70		
6.5 to 7.4	5.5 to 8.5	1.40	2.90		
7.5 to 8.4	6.5 to 9.5	1.80	2.90		
8.5 to 9.4	7.5 to 10.5	1.80	2.40		
9.5 to 10.4	8.5 to 11.5	1.80	2.40		
10.5 to 11.4	9.5 to 12.5	1.80	2.40		
11.5 to 12.4	10.5 to 13.5	1.80	2.60		
12.5 to 13.4	11.5 to 14.5	1.80	2.90		
13.5 to 14.4	12.5 to 15.5	1.80	2.80		
14.5 to 15.4	13.5 to 16.5	1.80	2.80		
15.5 to 16.4	14.5 to 17.5				
16.5 and over	15.5 and over				

[1] Cost of energy ranges include both the lowest values obtainable with anti-sweat heaters at their lowest energy consuming condition and the highest values obtainable with anti-sweat heaters at their highest energy consuming condition, for those models that have anti-sweat heater switches.

VOLUNTARY ENERGY CONSERVATION SPECIFICATION NO. 3–75, FOR COMBINATION REFRIGERATOR-FREEZERS

Appendix A: Total refrigerated volume and cost of energy ranges

Rated total refrigerated volume in cubic feet	Ranges of total refrigerated volume in cubic feet	Ranges [1] of cost of energy in dollars per month at a rate of 4¢ per kilowatt-hour for models with			
		Partial Automatic defrost		Automatic defrost	
		Minimum	Maximum	Minimum	Maximum
Less than 10.5	11.5 and less	3.20	4.40		
10.5 to 11.4	9.5 to 12.5	3.00	4.40	5.20	6.20
11.5 to 12.4	10.5 to 13.5	3.00	4.40	5.20	6.80
12.5 to 13.4	11.5 to 14.5	3.00	4.80	4.60	6.80
13.5 to 14.4	12.5 to 15.5	3.20	4.80	4.60	6.80
14.5 to 15.4	13.5 to 16.5	2.20	4.80	3.50	7.80
15.5 to 16.4	14.5 to 17.5	2.20	3.20	3.50	8.30

REFRIGERATORS, COMBINATION REFRIGERATOR-FREEZERS, AND FREEZERS

Amendments to Labeling Specifications

By notice published in the FEDERAL REGISTER October 7, 1975 (40 FR 46337), the Department of Commerce announced its intention to amend Voluntary Energy Conservation Specifications Nos. 2–75, 3–75, and 4–75, for refrigerators, combination refrigerator-freezers, and freezers, respectively, which were published in, the FEDERAL REGISTER of August 1, 1975 (40 FR 32415), in accordance with the Procedures for a Voluntary Labeling Program for Household Appliances and Equipment to Effect Energy Conservation, 15 CFR Part 9. The proposed amendments to the three labeling specifications were made in accordance with Section 10.0 of each Specification.

These proposed amendments consist of minor changes to the figures and modifications to sections 5.1.6 and 5.2.2 in each of the three Specifications. The first proposed amendment is a change in the design of labels for refrigerators, combination refrigerator-freezers, and freezers having anti-sweat heater switches and is intended to produce improved label clarity and readability by making the effect of anti-sweat heater switches more evident and by clarifying the use of the terms "on" and "off". The second proposed amendment is a corresponding change in section 5.1.6 intended to clarify the use of the words "on" and "off" for the anti-sweat heater switches. The third proposed amendment is the addition of several notes to the label drawings and is intended to clarify the printing instructions. The fourth proposed amendment is a change in section 5.2.2 providing manufacturers with optional locations for attaching labels to the units.

Interested parties were afforded until November 6, 1975, to submit to the Assistant Secretary for Science and Technology written comments or suggestions relative to the proposed amendments.

Comments in response to the publication of the proposed amendments were received from four sources and were reviewed and analyzed within the Department. An analysis of the comments received has been prepared. A copy of this analysis; as well as copies of the comments received, is filed in the Central Reference and Records Inspection Facility, Room 7068, Main Commerce Building, 14th Street between Constitution Avenue and E Street NW., Washington, D.C. 20230, and is available for public inspection at that location.

Accordingly, the Specifications Nos. 2–75, 3–75 and 4–75, for refrigerators, combination refrigerator-freezers, and freezers, respectively (40 FR 32415), are amended as set forth below. These amendments remain as proposed in the notice published in the FEDERAL REGISTER October 7, 1975 (40 FR 46337).

As an aid to locating and further describing the changes in the design of the labels, two minor additions have been made to the text of the description of the changes in the design of the labels as the description appeared at Item 1 in the notice on the proposed amendments (40 FR 46337). In Item 1.a., the phrase "in the cost of energy section" has been inserted following the phrase "with the Power Saver switch off" to distinguish the latter from the same phrase appearing in the energy consumption section. A new Item 1.e. has been added to describe certain minor clarifying changes in the wording of the note.

The effect of the changes in the design of the labels as described by Items 1 and 3 below is shown in the amended Figure 3 of Energy Conservation Specification No. 3–75, for Combination Refrigerator-Freezers. Because the changes in the other figures referred to are identical to the changes shown, good cause is found that publication of the other amended figures is unnecessary. *Effective date.* These amendments shall become effective January 19, 1976.

Issued: December 12, 1975.

BETSY ANCKER-JOHNSON,
Assistant Secretary for Science and Technology.

1. On the label designs shown in Figures 3, 5, and 7 of each of the three Specifications:

a. The phrase "with the Power Saver switch off" in the cost of energy section is changed to "with Power Saver switch on" and relocated, its type made heavier and changed to capital letters, and its color changed to Pantone Super Warm Red.

b. For the word "NOTE" and the cost of energy value in the note, the type size is increased.

c. For the value of the energy consumption with the Power Saver switch on, the color is changed to Pantone Super Warm Red.

d. In the second sentence of the note, in the column headings in the cost table, and in the energy consumption section, the term "off" is substituted for "on" and the term "on" substituted for "off," so that the terms are employed to indicate that the anti-sweat heater is activated with the Power Saver switch in the "off" position.

e. The first sentence of the note is changed to read, "This model has a Power Saver (anti-sweat heater) switch which you can turn off and on." The introductory clause of the second sentence is changed to read "When it is in the off position," and the second word thereafter is changed from "unit" to "model."

2. In section 5.1.6 of each of the three Specifications, the first sentence is revised to read:

In cases where a manufacturer labels his anti-sweat heater switch with nomenclature such as "Economizer" or "Power Economizer," this nomenclature may be substituted for the term "Power Saver" in the note on the label, in the column heading in the cost table, in the line reading "WITH POWER SAVER SWITCH ON," and in the explanations of energy consumption and cost of energy.

The third sentence of Section 5.1.6 is deleted.

3. On Figures 1, 3, 4, 5, 6, and 7 of each of the three Specifications, additional notes describing type sizes and directions regarding color have been placed around the label drawing. These notes and directions are not part of the label design.

4. Section 5.2.2 of each of the three Specifications is revised to read as follows:

V40244 DEC 18 75 XUM

a. For Specification 2–75:

The labels specified in 5.1.4 and 5.1.5 shall be attached either to the inside of the refrigerator compartment door or to the outside of the refrigerator. If attached to the inside of the refrigerator compartment door, the labels shall not be obscured by overhanging shelves or protrusions when viewed from a standing position. If attached to the outside of the refrigerator, the labels shall be positioned on the front near the top of the unit, except that for units less than four feet high the labels may as an option be positioned on the top near the front of the unit.

b. For Specification 3–75:

The labels specified in 5.1.4 and 5.1.5 shall be attached either to the inside of the refrigerator compartment door or to the outside of the combination refrigerator-freezer. If attached to the inside of the refrigerator compartment door, the labels shall not be obscured by overhanging shelves or protrusions when viewed from a standing position. If attached to the outside of the combination refrigerator-freezer, the labels shall be positioned on the front near tthe top of the unit, except that for units less than four feet high the labels may as an option be positioned on the top near the front of the unit.

c. For Specification 4–75:

The labels specified in 5.1.4 and 5.1.5 shall for upright freezers be attached either to the inside of the freezer compartment door or to the outside of the upright freezer. If attached to the inside of the freezer compartment door, the labels shall not be obscured by overhanging shelves or protrusions when viewed from a standing position. If attached to the outside of the upright freezer, the labels shall be positioned on the front near the top of the unit, except that for units less than four feet high the labels may as an option be positioned on the top near the front of the unit. The labels specified in 5.1.4 and 5.1.5 shall for chest-type freezers be attached either to the inside of the freezer compartment lid, provided that the lid opens 75° or more, or to the outside of the chest-type freezer. If attached to the outside of the chest-type freezer, the labels shall be positioned either on the top near the front of the unit or on the front near the top of the unit.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. 75N–0320; DESI No. 6514]

COMBINATION COUGH PREPARATION CONTAINING DIMETHOXANATE HYDROCHLORIDE

Withdrawal of Approval of New Drug Application

A notice (DESI 6514; Docket No. FDC–D–537 (now Docket No. 75N–0320)) was published in the FEDERAL REGISTER of February 9, 1973 (38 FR 4006), in which the Commissioner of Food and Drugs offered an opportunity for hearing on his proposal to withdraw approval of the new drug application described below for Cothera Compound. The basis of the proposed action was that there is a lack of substantial evidence that the combination product is effective for its claimed use for the relief of cough. The notice further stated that, in lieu of requesting a hearing, the holder of the new drug application could file a notice of intent to reformulate and relabel the product. The holder of the new drug application neither requested a hearing nor expressed intent to reformulate the product. The product is no longer marketed by the firm. On December 14, 1973 (38 FR 34481), a notice was published in the FEDERAL REGISTER stating that products that contain an antitussive agent and one or more of certain other drugs that were subject to review in the OTC Study were exempt from further implementation procedures pending conclusions pursuant to the OTC Study of such drug entities. In effect, this exempted Cothera Compound pending such conclusions. However, in that no data concerning dimethoxanate hydrochloride were submitted for consideration in the OTC Study, the exemption no longer applies to that product and this notice withdraws approval of the new drug application for it.

Cothera Compound, containing dimethoxanate hydrochloride, isothipendyl hydrochloride, phenylephrine hydrochloride, acetaminophen, ammonium chloride, sodium citrate, and chloroform; formerly marketed by Ayerst Laboratories, Division of American Home Products Corp., 685 Third Ave., New York, NY 10017 (NDA 11–706).

All drug products that are identical, related, or similar to the drug product named above, not the subject of an approved new drug application, are covered by the new drug application reviewed and are subject to this notice (21 CFR 310.6). Any person who wishes to determine whether a specific product is covered by this notice should write the Food and Drug Administration, Bureau of Drugs, Division of Drug Labeling Compliance, (HFD–310), 5600 Fishers Lane, Rockville, MD 20852.

The holder of the new drug application did not file a notice of intent to reformulate and relabel the product as provided by the notice of February 9, 1973. Neither the holder of the application nor any other person filed a written appearance of election as provided by said notice. The failure to file such an appearance constitutes an election by such persons not to avail themselves of the opportunity for a hearing.

The Director of the Bureau of Drugs, under the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended (21 U.S.C. 355)), and under authority delegated to him (21 CFR 2.121), finds that on the basis of new information before him with respect to the drug product, evaluated together with the evidence available to him when the application was approved, there is a lack of substantial evidence that the drug product will have the effects it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

Therefore, pursuant to the foregoing finding, approval of new drug application No. 11–706 and all amendments and supplements applying thereto is withdrawn effective December 29, 1975.

Shipment in interstate commerce of the above product or any identical, related, or similar product, not the subject of an approved new drug application, will then be unlawful.

Dated: December 11, 1975.

J. RICHARD CROUT,
Director, Bureau of Drugs.

[FR Doc.75–34085 Filed 12–17–75;8:45 am]

[Docket No. 75N–0321; DESI NO. 5213]

COUGH PREPARATION CONTAINING DIMETHOXANATE HYDROCHLORIDE

Notice of Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Application

A notice (DESI 5213) was published in the FEDERAL REGISTER of April 20, 1972 (37 FR 7827), in which the Food and Drug Administration announced its conclusions that the drug product described below is less than effective (probably effective) for the temporary relief of cough, and that additional evidence is required to establish its effectiveness. No data concerning effectiveness were received and the product has been reclassified as lacking substantial evidence of effectiveness. This notice proposes to withdraw approval of the new drug application. The holder of the new drug application no longer markets the product. Persons wishing to request a hearing must do so by January 19, 1976.

Cothera Syrup containing dimethoxanate hydrochloride; formerly marketed by Ayerst Laboratories, Division of American Home Products Corp., 685 Third Ave., New York, NY 10017 (NDA 11–174).

On the basis of all of the data and information available to him, the Director of the Bureau of Drugs is unaware of any adequate and well-controlled clinical investigation, conducted by experts qualified by scientific training and experience, meeting the requirements of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and 21 CFR 314.111(a)(5), demonstrating the effectiveness of the drug.

Therefore, notice is given to the holder(s) of the new drug application(s) and to all other interested persons that the Director of the Bureau of Drugs proposes to issue an order under section 505 (e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)), withdrawing approval of the new drug application(s) (or if indicated above, those parts of the application(s) providing for the drug product(s) listed above) and all amendments and supplements thereto on the ground that new information before him with respect to the drug product(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug product(s) will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

In addition to the holder(s) of the new drug application(s) specifically named above, this notice of opportunity for hearing applies to all persons who manufacture or distributes a drug product which is identical, related, or similar to a drug product named above, as defined in 21 CFR 310.6. It is the responsibility of every drug manufacturer or distributor to review this notice of opportunity for hearing to determine whether it covers any drug product he manufactures or distributes. Any person may request an opinion of the applicability of this notice to a specific drug product he manufactures or distributes that may be identical, related, or similar to a drug product named in this notice by writing to the Food and Drug Administration, Bureau of Drugs, Division of Drug Labeling Compliance (HFD–310), 5600 Fishers Lane, Rockville, MD 20852.

In addition to the ground(s) for the proposed withdrawal of approval stated above, this notice of opportunity for hearing encompasses all issues relating to the legal status of the drug products subject to it (including identical, related, or similar drug products as defined in 21 CFR 310.6) e.g., any contention that any such product is not a new drug because it is generally recognized as safe and effective within the meaning of section 201(p) of the act or because it is exempt from part or all of the new drug provisions of the act pursuant to the exemption for products marketed prior to June 25, 1938, contained in section 201 (p) of the act, or pursuant to section 107(c) of the Drug Amendments of 1962; or for any other reason.

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Parts 310, 314), the applicant(s) and all other persons subject to this notice pursuant to 21 CFR 310.6 are hereby given an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn and an opportunity to raise, for administrative determination, all issues relating to the legal status of a drug product named above and of all identical, related, or similar drug products.

If an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 elects to avail himself of the opportunity for a hearing, he shall file (1) on or before January 19, 1976, a written notice of appearance and request for hearing, and (2) on or before February 17, 1976, the data, information, and analyses on which he relies to justify a hearing, as specified in 21 CFR 314.200. Any other interested person may also submit comments on this notice. The procedures and requirements governing this notice of opportunity for hearing, a notice of appearance and request for hearing, a submission of data, information, and analyses to justify a hearing, other comments, and a grant or denial of hearing, are contained in 21 CFR 314.200.

The failure of an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 to file timely written appearance and request for hearing as required by 21 CFR 314.200 constitutes an election by such person not to avail himself of the opportunity for a hearing concerning the action proposed with respect to such drug product and a waiver of any contentions concerning the legal status of any such drug product. Any such drug product may not thereafter lawfully be marketed, and the Food and Drug Administration will initiate appropriate regulatory action to remove such drug products from the market. Any new drug product marketed without an approved NDA is subject to regulatory action at any time.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. If it conclusively appears from the face of the data, information, and factual analyses in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, or when a request for hearing is not made in the required format or with the required analyses, the Commissioner will enter summary judgment against the person(s) who requests the hearing, making findings and conclusions, denying a hearing.

All submissions pursuant to this notice shall be filed in quintuplicate with the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852.

All submissions pursuant to this notice, except for data and information prohibited from public disclosure pursuant to 21 U.S.C. 331(j) or 18 U.S.C. 1905, may be seen in the office of the Hearing Clerk Monday through Friday from 9 a.m. to 4 p.m., except on Federal legal holidays.

V 40 244 DEC 18 75 XUM

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052–1053, as amended (21 U.S.C. 355)), and under authority delegated to the Director of the Bureau of Drugs (21 CFR 2.121).

Dated: December 11, 1975.

J. RICHARD CROUT,
Director, Bureau of Drugs.

Office of Education

NATIONAL ADVISORY COUNCIL ON INDIAN EDUCATION

Meeting

Notice is hereby given, pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (P.L. 92–463), that the next meeting of the Full Council of the National Advisory Council on Indian Education will be held January 15, 16, 17, 18, 1976, at the Holiday Inn-Downtown, 1000 East 6th Street, Reno, Nevada 89502.

The National Advisory Council on Indian Education is established under Section 442 of the Indian Education Act (P.L. 92–318, Title IV, 20 U.S.C. 1221g). The Council, among other things, is directed to:

(1) Advise the Commissioner of Education with respect to the administration (including the development of regulations and of administrative practices and policies) of any program in which Indian children or adults participate, or from which they can benefit, including sections 241aa to 241ff and 887c of this title and with respect to adequate funding thereof;

(2) Review applications for assistance under sections 241aa to 241ff, 887c, and 1211a of this title, and make recommendations to the Commissioner with respect to their approval;

(3) Evaluate programs and projects carried out under any program of the Department of Health, Education and Welfare in which Indian children or adults can participate, or from which they can benefit, and disseminate the results of such evaluations;

(4) Provide technical assistance to local educational agencies and to Indian educational agencies, institutions, and organizations to assist them in improving the education of Indian children;

(5) Assist the Commissioner in developing criteria and regulations for the administration and evaluation of grants made under section 241bb (b) of this title; and

(6) To submit to the Congress no later than March 31 of each year a report on its activities, which shall include any recommendations it may deem necessary for the improvement of Federal education programs in which Indian children and adults participate, or from which they can benefit, which report shall include statement of the National Advisory Council's recommendations to the Commissioner with respect to the funding of any such programs.

The meetings on January 15, 16, 17, 18, 1976, will be open to the public beginning at 9:00 A.M. These meetings will be held at the Holiday Inn-Downtown. The proposed agenda includes:

January 15, 1976

(1) Committee Discussions

January 16, 17, 18, 1976

(1) Executive Director's Report
(2) Planning future NACIE activities
(3) Regular Council Business
(4) Committee Reports

Records shall be kept of all Council proceedings (and shall be available for public inspection) at the Office of the National Advisory Council on Indian Education located at 425 13th Street NW., Suite 326, Washington, D.C. 20004.

Signed at Washington, D.C., on December 12, 1975.

LINCOLN C. WHITE,
Executive Director, NACIE.

[FR Doc.75-34115 Filed 12-17-75;8:45 am]

THE NATIONAL ADVISORY COUNCIL ON EXTENSION AND CONTINUING EDUCATION

Notice of Public Meeting of the Federal Programs Evaluation Committee

Notice is hereby given, pursuant to the Federal Advisory Committee Act, Pub. L. 92–463, that a meeting of the Federal Programs Evaluation Committee of the National Advisory Council on Extension and Continuing Education, that was to be held on December 16, 1975, has been rescheduled to meet on January 7, 1976, in the Council Office, 425 13th St. NW., Suite 529, Washington, D.C. The meeting will begin at 9:00 a.m. and adjourn at 4:30 p.m.

The National Advisory Council on Extension and Continuing Education is authorized under Pub. L. 89–329. The Council is directed to advise the Commissioner of Education in the preparation of general regulations and with respect to policy matters arising in the administration of Title I, and to report annually to the President on the administration and effectiveness of all federally supported extension and continuing education programs, including community service programs.

The meeting of the Federal Programs Evaluation Committee will be open to the public, but because of the limited space available in the Council office, anyone wishing to attend the meeting should inform the Council's staff office (376–8888) no later than December 31, 1975. The purpose of the meeting will be to review all Office of Education programs having extension and community service components. All records of Council proceedings are available for public inspection at the Council's staff office, located in Suite 529, 425 13th St. NW., Washington, D.C.

JAMES A. TURMAN,
Executive Director.

DECEMBER 16, 1975.

Office of the Secretary

OFFICE OF BILINGUAL EDUCATION

Statement of Organization, Functions, and Delegations of Authority

Part 2 of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health, Education, and Welfare concerns the Office of Education. The citation to the functional statement for this office concerning the Office of Education, which is an element of the Education Division, is 40 FR 19515, 5/5/75, as amended.

The functional statement is further amended to attain the purposes of the Bilingual Education Act (Title VII of the Elementary and Secondary Education Act of 1965 as amended by Section 105 of the Education Amendments of 1974). The following new statements are inserted immediately after the statement following the heading, Office of the Commissioner, Office of Career Education:

Office of Bilingual Education. The Office of Bilingual Education provides national leadership in development and administration of the policies of bilingual education of the Federal Government and provides for the coordination of the various programs which, in part or in whole, address themselves to the needs of persons of limited English speaking ability. The Office is responsible for administration of a program of assistance to develop and carry out bilingual education projects designed to meet the educational needs of students who have difficulty speaking and understanding instruction in the English language, and for administration of a bilingual education training program designed to strengthen bilingual-bicultural education programs by supporting training for teachers and trainers of teachers.

Division of Bilingual Education Program Development. Administers supportive grant activities at centers, State educational agencies, local educational agencies, and institutions of higher education which affect bilingual education programs. Provides national direction for the development of effective materials, practices and techniques used in bilingual education programs. Provides technical assistance to centers, State educational agencies, local educational agencies and institutions of higher education providing services for the development and dissemination of instructional materials and equipment suitable for use in bilingual education programs. Maintains appropriate operational systems for receipt and technical review of applications submitted for supportive and developmental activities. Directs long-range planning for programs of equal educational opportunity which allow equal participation by students of limited English-speaking ability.

Division of Bilingual Education Elementary and Secondary Programs. Administers demonstration programs and awards funds to local educational agencies, State educational agencies and institutions of higher education for the support of projects designed to meet the special educational needs of students with limited English-speaking ability. Provides professional leadership, direction, and guidance in the stimulation, development, evaluation, and monitoring of projects in State and local educational agencies and institutions of higher education.

Division of Bilingual Education Postsecondary Programs. Administers and coordinates all bilingual education training activities supervised by institutions of higher education excluding those under Part J of the Vocational Education Act of 1963, as amended by the Education Amendments of 1974. Assists in establishment, operation and improvement of training programs for personnel preparing to participate in programs of bilingual education and auxiliary and supplementary training programs. Provides financial assistnce to institutions of higher education for training programs in bilingual education.

Dated: December 11, 1975.

JOHN OTTINA,
Assistant Secretary for Administration and Management.

REVIEW PANEL ON NEW DRUG REGULATION

Meeting

Notice is hereby given, pursuant to Pub. L. 92–463, that the Review Panel on New Drug Regulation, established pursuant to 42 USC 217 a. by the Secretary of Health, Education, and Welfare, on February 21, 1975, will meet on Sunday, January 18, 1976, at 9:15 a.m. and Monday, January 19, 1976, at 8:30 a.m. in Room 5051 of the Department of Health, Education and Welfare's North Building, 330 Independence Avenue SW., Washington, D.C. The Review Panel will consider matters pertaining to its study of existing policies and procedures for the regulation of new drugs by the Food and Drug Administration. The meeting is open to the public.

The Review Panel will not meet on January 5 and 6, 1976, as originally scheduled.

Further information on the Review Panel may be obtained from Dr. Lionel M. Bernstein, Executive Secretary, Review Panel on New Drug Regulation, Room 4617, HEW North Building, 330 Independence Avenue SW., Washington, D.C. 20201, telephone (202) 245–7510.

LIONEL M. BERNSTEIN, M.D.,
Executive Secretary,
Review Panel on New Drug Regulation.

DECEMBER 11, 1975.

SOCIAL SECURITY ADMINISTRATION

Statement of Organization, Functions and Delegations of Authority

Correction

In FR Doc. 75-32398 appearing at page 55885 in the issue for Tuesday, December 2, 1975, on page 55886 in the first column under *Sec. 4-05-20*, paragraph (D)(2), the fourth line now reading "assure effective and economical in man—" should have read "assure effective and economical operations in man—".

Social Security Administration

ADDITIONAL DELEGATIONS OF AUTHORITY

Determinations Concerning the Appointment of Representative Payees for Individuals Entitled to Benefits Under Title II of the Social Security Act, as Amended

Section 205(b) of the Social Security Act, as amended (the Act), confers upon the Secretary of Health, Education, and Welfare (the Secretary) authority to make findings of fact and decisions as to the rights of individuals applying for payments under title II of the Act. Section 205(j) of the Act further confers upon the Secretary authority to certify payment to a relative of any applicant entitled to benefits under title II, or to some other person, if the interest of the applicant would be served thereby. The Secretary has delegated authority to perform these functions to the Commissioner of Social Security (the Commissioner), with authority to redelegate (33 FR 5836, dated April 16, 1968). From time-to-time, the Commissioner has redelegated these authorities to appropriate subordinate positions in the Social Security Administration (SSA), or has modified such redelegations.

Notice is hereby given that the Commissioner has redelegated the following authority, under section 205(j) of the Act, to the additional SSA positions enumerated below:

I. Authority to make final determinations as to whether payments to individuals entitled to benefits under title II of the Act should be certified for payment to representative payees; and

II. Authority to make final determinations as to who should be appointed to serve as representative payees on behalf of individuals entitled to benefits under title II of the Act, including authority to determine whether or not to continue the appointment of a particular representative payee.

Delegates	*Scope of authority*
A. Claims representatives and field representatives, district and branch offices, Office of Program Operations.	A. and B. Cases within the jurisdiction of district and branch offices, Office of Program Operations.
B. All district and branch office positions in the direct line of supervision over the positions specified in item A. above.	Do.

These additional redelegations are effective as of the date that this notice is published in the FEDERAL REGISTER. Further redelegations may not be made.

Dated: December 12, 1975.

JAMES B. CARDWELL,
Commissioner of Social Security.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

RADIO TECHNICAL COMMISSION FOR AERONAUTICS, EXECUTIVE COMMITTEE

Meeting

Notice is hereby given of a meeting of the Radio Technical Commission for Aeronautics (RTCA) Executive Committ-

V40244 DEC 18 75 XUM

tee, which is being utilized as an advisory committee within the meaning of the Federal Advisory Committee Act, 5 U.S.C. Appendix I. It is to be held January 23, 1976, in RTCA Conference Room 261, 1717 H Street NW., Washington, D.C., commencing at 9:30 a.m. Agenda items include:

1. Approval of the Minutes of the October 17, 1975, meeting.
2. Special Committee Activities Report for October–December 1975.
3. Chairman's Report on RTCA administration and activities including FAA Sponsorship of RTCA.
4. Appointment of an ad hoc group for nomination and selection of a new RTCA Chairman.
5. Appointment of an ad hoc group to plan a future work program for RTCA.
6. Report on the status of the proposed RTCA Rotational Internship Program.
7. Report of the MPS/MOC Informal Group's activities.

The meetings of the RTCA Executive Committee are open to the public, subject to limitations of space available. Subject to time being available, any member of the public may present oral statements at the meeting, or may submit written statements to the RTCA Secretariat. Requests to receive additional information or to be heard should be made by contacting the RTCA Secretariat, Suite 655, 1717 H Street NW., Washington, D.C. 20006, telephone (202 296-0484.

Issued in Washington, D.C., on December 12, 1975.

EDGAR A. POST,
Designated Officer.

Federal Railroad Administration

RAILROAD OPERATING RULES ADVISORY COMMITTEE

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770) notice is hereby given that the Railroad Operating Rules Advisory Committee will meet on Monday, January 19 and Tuesday, January 20, 1976 in Jacksonville, Florida, at the Jacksonville Hilton Hotel, 565 South Main Street.

The Committee was established to provide advice to the Federal Railroad Administration (FRA) concerning solutions to problem areas involving the operating rules of the nation's railroads.

This meeting is being held in Jacksonville, Florida in keeping with the FRA's policy of scheduling Advisory Committee meetings at locations throughout the country so as to facilitate public participation by railroad labor and management personnel and other interested persons. The agenda for this meeting will include the discussion of the top two "leading causes of train accidents attributed to negligence of employees" as stated by the National Transportation Safety Board in its special study entitled "Train Accidents Attributed to the 'Negligence of Employees'" (NTSB–RSS–72–1). These two causes are identified as (1) failure to secure by handbrake including failure to set handbrakes on sufficient number of cars, and (2) absence of man on or at leading car being pushed. These two causes were chosen for further study at the November meeting of the Committee. In addition to these topics the Committee will also review material related to railroad operating rules training programs, and continue its study of the training issue.

The entire meeting will be open to the public. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so. Under a procedure established by the Committee, persons submitting written statements are requested to provide 15 copies to provide distribution to each of the Committee members. Members of the public who wish to make prepared oral presentations should inform the Office of the Chief Counsel, Federal Railroad Administration, (202) 426-8220 at least 5 days prior to the meeting if possible and reasonable provision will be made for their appearance on the agenda. The public will also be provided the opportunity to participate in the Committee discussions during the meeting.

Minutes of the meeting will be made available for public inspection and duplication during regular business hours in the Office of the Chief Counsel, Federal Railroad Administration, Room 5101, Nassif Building, 400 Seventh Street, S.W., Washington, D.C.

Issued in Washington, D.C. on December 12, 1975.

BRUCE M. FLOHR,
Deputy Administrator
Committee Chairman.

Office of the Secretary

ADVISORY COMMITTEE ON TRANSPORTATION-RELATED SIGNS AND SYMBOLS

Notice of Renewal

Notice is hereby given that the Advisory Committee on Transportation-Related Signs and Symbols is being renewed. The Assistant Secretary of Transportation for Environment, Safety, and Consumer Affairs is sponsor of the Committee, which consists of 22 experts on the development and use of symbol signs drawn from Government agencies, the transportation industry, and the fields of graphic arts and industrial design. The Committee makes recommendations for the development of a comprehensive system of transportation-related, passenger/pedestrian-oriented symbol signs to meet U.S. needs in domestic and international transportation.

The Secretary of Transportation has determined that formation and operation of the Advisory Committee on Transportation-Related Signs and Symbols are necessary in the public interest in connection with the performance of duties imposed on the Department of Transportation by law. Meetings of the Committee will be open to the public.

Issued in Washington, D.C., December 10, 1975.

WILLIAM R. MEYERS,
Executive Director, Advisory Committee on Transportation-Related Signs and Symbols.

[FR Doc.75-34128 Filed 12-17-75;8:45 am]

CIVIL AERONAUTICS BOARD

[Docket 28545]

DELTA AIR LINES, INC.

Proposed Approval of Application for Disclaimer of Jurisdiction

Application of Delta Air Lines, Inc. for disclaimer of jurisdiction, approval under section 408 of the Federal Aviation Act of 1958, as amended, or for an exemption under section 416 thereof and motion to withhold information from public disclosure, Docket 28545.

Notice is hereby given, pursuant to the statutory requirements of section 408(b) of the Federal Aviation Act of 1958, as amended, that the Civil Aeronautics Board intends to issue the attached order. Interested persons are hereby afforded until December 23, 1975, within which to file comments or request a hearing with respect to the action proposed in the order.

Dated at Washington, D.C., December 15, 1975.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

ORDER APPROVING TRANSACTION AND GRANTING MOTION

Delta Air Lines, Inc. (Delta), requests that the Board disclaim jurisdiction over or, in the alternative, approve without hearing, pursuant to the third proviso of section 408(b) of the Federal Aviation Act of 1958, as amended (the Act), or grant an exemption from section 408 pursuant to section 416(b) of the Act, with respect to a sales transaction as more fully described below.

Delta has also filed a motion to withhold from public disclosure the purchase agreement and supporting agreements relating to the transaction being considered herein.[1]

Delta is a certificated air carrier holding domestic, international, and overseas authorizations. It has entered into a purchase agreement with FBA Aircraft, S.A. (FBA), pursuant to which Delta will sell to FBA 21 DC-8-51 aircraft and 19 JT3D-1 spare engines, FBA is a corporation organized under the laws of Panama and is engaged primarily as a broker/dealer of used aircraft and conducts business largely outside the United States.

The purchase agreement establishes *inter alia*, prices for the aircraft and engines, delivery and payment schedules, maintenance status of aircraft and engines at time of delivery, and certain guarantees to Delta in the event of default on the purchase agreement by FBA. Included in these guarantees is a separate guarantee by Frederick B. Ayer (Mr. Ayer) and Pan Ayer, S.A. (Pan Ayer), and a pledge by Frederick B. Ayer II (Mr. Ayer II) of nonvoting common stock of FBA and Pan Ayer. Mr. Ayer is president and a member of the board of directors of FBA and is chief operating officer and chairman of the board of directors of Pan Ayer. Mr. Ayer also owns all of the stock of Frederick B. Ayer and Associates, Inc. (Associates), and Universal Trading Corporation, Delaware and Panama corporations, respectively, both engaged in aircraft leasing. Through Associates he has 50 percent control of Mackey International Airlines, Inc., an air commuter operating pursuant to the exemption of Part 298 of the Board's Economic Regulations and specific large-aircraft exemptions.[2] Mr. Ayer II owns approximately 92 percent of the nonvoting common stock of Pan Ayer and all of the nonvoting common stock of FBA. Pan Ayer is another Panamanian corporation engaged as an aircraft broker/dealer outside the United States.

In support of the application, Delta asserts that it, on the one hand, and FBA and Pan Ayer, on the other, have no officer or directors in common nor do the companies own or exercise any control over any other company involved in the transaction; that the sale is being made as part of Delta's fleet standardization and modernization program which will increase efficiency and reduce costs; that each of the aircraft and spare engines will be surplus to Delta's needs by the scheduled delivery date; that the purchase agreement is the result of an arm's-length bargaining; that the securities and guarantees described above are normal for a transaction of the type being considered herein; that Delta will obtain certain *nonvoting* stock of Pan Ayer and FBA only upon default under the pledge agreement; and that should Delta obtain the stock, it would be unable to exercise any control over Pan Ayer or FBA. The applicant states further that the contemplated sale does not involve a substantial portion of Delta's properties within the meaning of section 408;[3] that the percentages of aircraft, lift capacity, and market value of aircraft are less than those prescribed in Part 299 of the Board's Economic Regulations, although the number of aircraft exceeds the limit (10 aircraft) therein; that the transaction and accompanying guarantee and pledge are consistent with the provisions of section 408(b) of the Act; and that prompt approval by the Board is necessary since any delay might mean the transaction could not be consummated.

No objections to this application or requests for a hearing have been received.

Notice of intent to dispose of this application without a hearing has been published in the Federal Register, and a copy of such notice has been furnished by the Board to the Attorney General not later than the day following the date of such publication, both in accordance with the requirements of section 408(b) of the Act.

Upon consideration of the above, it is concluded that Delta is an air carrier, that FBA is a phase of aeronautics, that the aircraft involved in the contemplated transaction constitute a substantial part of the properties of Delta, all within the meaning of section 408 of the Act,[4] and that the transaction is therefore subject to section 408 of the Act. However, it is further concluded that the above-described transaction will not affect the control of an air carrier directly engaged in the operation of aircraft in air transportation or tend to unreasonably restrain trade, substantially lessen competition, or create a monopoly. This sale agreement was entered into after arm's-length bargaining and there appear to be no interlocking or control relationships between Delta, on the one hand, and FBA or Pan Ayer, on the other. Furthermore, no person disclosing a substantial interest in the proceeding is currently requesting a hearing, and it is concluded that the public interest does not require a hearing. It does not appear that Delta will be hindered in performing its certificate obligations since the aircraft involved in the transaction will be surplus to Delta's needs at the time of disposal.[5]

Therefore, it is found that the transaction should be approved without a hearing pursuant to the third proviso of section 408(b) of the Act and that, except to the extent specifically granted herein, the application should be dismissed.

We shall grant Delta's motion to withhold the purchase agreement and supporting agreements from public disclosure. Disclosure of the agreements would impair FBA's ability to resell the aircraft and could therefore cause a termination of the agreement, to Delta's disadvantage. Further, in the event of termination of the purchase agreement for any reason, disclosure of the agreements could impair Delta's ability to negotiate a new sale for the aircraft remaining in its possession. Disclosure of such information at this time would serve no public interest. In such circumstances we find, pursuant to section 1104 of the Act, that disclosure of such information at this time would be adverse to Delta's interests and it is not required in the interests of the public. Accordingly, we shall grant confidential treatment to the purchase agreement and the supplemental agreements.

ACCORDINGLY, IT IS ORDERED THAT:

1. The application for approval of the sale transaction described herein be and it hereby is approved;

2. The motion of Delta to withhold the purchase agreement and supporting agreements as set out in footnote 1, *supra*, from public disclosure be and it hereby is granted; and

3. To the extent not specifically granted herein, all requests in docket 28545 be and they hereby are dismissed.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

[SEAL] ——— ———,
Secretary.

[FR Doc.75-34143 Filed 12-17-75;8:45 am]

[1] These documents include a purchase agreement; a guarantee by Fred B. Ayer and Pan Ayer, S.A.; a pledge agreement by Fred B. Ayer II; and a letter concerning deposits into an escrow fund. The latter three documents are considered by Delta to be part of the purchase agreement itself.

[2] This control relationship was authorized by the Board in *Frederick B. Ayer et al., Control Relationships*, order 75-7-84, July 17, 1975.

[3] The aircraft constitute 11 percent of Delta's total aircraft, 10.75 percent of Delta's overall lift capacity, and 1.5 percent of the market value of Delta's aircraft.

[4] The Board has repeatedly reaffirmed the 10 percent rule of thumb in determining substantiality in acting on aircraft lease or sales transactions; *i.e.*, it has held that it will disclaim jurisdiction when the equipment being leased or sold involves *less than 10* percent of the carrier's fleet in terms of market value, lift capacity, *and* number of aircraft. See *Sterling Airways A/S and Overseas National Airways, Inc., Dry-Lease Transaction*, order 75-9-80, Sept. 23, 1975, and specifically n. 2 therein.

[5] A primary objective of sec. 408 of the Act is to insure that by disposing of aircraft an air carrier does not impair its ability to perform its certificate obligations. (Cf. order 70-5-111, May 21, 1970.)

[Order 75-12-55; Docket 26494, Agreement C.A.B. 25549, R-1 through R-6, Agreement C.A.B. 25571]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

North/Central Pacific Air Fares

DECEMBER 12, 1975.

Agreements adopted by the Joint Traffic Conferences of the International Air Transport Association relating to North/Central Pacific air fares.

Agreements have been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of the Joint Traffic Conferences of the International Air Transport Association (IATA). The agreements, adopted at the 1975 Composite Passenger Traffic Conference held at Cannes during October, would close fares in the North/Central Pacific through March 31, 1976.[1]

In essence, the agreements readopt, with a 3 percent general increase, presently effective North/Central Pacific fares, which in turn generally reflect IATA fares in effect prior to April 1, 1975.[2] In addition, the agreements establish new 30/120 day excursion fares from U.S. points to most major Asian destinations at levels $20 to $49 above presently existing non IATA long duration excursion fares; incorporate and increase by 3 percent present group 30/40 GIT fares specified in yen from Japanese points to U.S. destinations and established outside of IATA by intercarrier agreement and approved by the Board,[3] and amend present rules governing group 10 GIT fares to permit individual return travel from the last stopover point in Asia.

The purpose of this order is to establish dates for the submission of carrier justification in support of the subject agreement and comments from other interested persons. The carrier justification should include historical data for the calendar year ending December 31, 1975 for total Pacific services, based upon the carriers' experience as reported to the Board in Form 41 reports for the first 3

[1] Previous agreements attempting to close fares in this area and outlined in procedural Order 75-10-8, dated October 1, 1975, were declared defeated by IATA in a transmittal to the Board dated October 28, 1975. In addition, Appendix A sets forth a comparison of present and proposed fares in selected U.S.-Asia markets.

[2] Order 75-3-100, dated March 26, 1975, acted upon an IATA-proposed North/Central Pacific fare structure for effect April 1, 1975. In that order, the Board, *inter alia*, disapproved all North/Central Pacific normal economy fares to/from U.S. points, all promotional fares to/from Alaskan points and a 3 percent currency surcharge on sales of U.S.-originating passenger fares.

[3] See Order 75-9-106, September 29, 1975, which approved the replacement of Contract Bulk Inclusive Tour fares from Japan with GIT fares for minimum size groups of 40 to Hawaii and 30 to Alaska and the continental United States.

V40244 DEC 18 75 XUM

quarters of 1975 and an estimate of 4th quarter 1975 performance. The data should then be adjusted to exclude charter and cargo operations as well as intra Pacific passenger operations so as to establish the present economic status of passenger services in the area covered by the subject agreements.' The carriers will also be expected to include a forecast for the year ending December 31, 1976, both including and excluding the increased fares for which approval is sought. Finally, although Northwest Airlines, Inc. is not a party to the IATA agreements, we will nevertheless expect it to provide data comparable to that requested above.

' A suggested format is shown in Appendix B, which should also be used to set forth historical and forecast information relating to traffic and capacity.

In addition, we request the North/Central Pacific carriers to address several outstanding questions of fare structure in this market, *i.e.*, continuation of a number of promotional fares at discounts in excess of 50 percent, the relatively high yields from Alaska-Far East fares compared with that from fares to/from other United States gateways, and the rationale behind the open return provision proposed for the group 10 GIT fares.

Accordingly, IT IS ORDERED THAT:

1. All United States air carrier members of the International Air Transport Association shall file within ten days after the date of service of this order, full documentation and economic justification, as described above, in support of the subject agreements;

2. Northwest Airlines, Inc. shall file within ten days after the date of service of this order, data similar to that required of the IATA carriers;

3. Comments and/or objections from interested persons shall be submitted within seventeen days after the date of service of this order; and

4. Tariffs implementing the subject agreements shall not be filed in advance of Board action on the subject agreements.

This order will be published in the FEDERAL REGISTER.

JAMES L. DEEGAN,
Chief, Passenger and Cargo Rates Division, Bureau of Economics.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

TOURIST ENTERPRISES CORP., "ORBIS"

Notice of Reassignment of Proceeding

Correction

In FR Doc. 75-33710 appearing at page 58169 in the issue for Monday, December 15, 1975 in the second line of the first paragraph, the reference, "d/b/a Polish Travel Bureau" should have read "d/b/a Orbis Polish Travel Bureau".

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

TERMINATING BILATERAL COTTON TEXTILE AGREEMENT OF MARCH 15, 1967, AS AMENDED AND EXTENDED, BETWEEN THE GOVERNMENTS OF THE UNITED STATES AND THE POLISH PEOPLE'S REPUBLIC

Levels of Restraint

DECEMBER 11, 1975.

On February 25, 1975, there was published in the FEDERAL REGISTER (40 F.R. 8120) a letter dated February 20, 1975 from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs, establishing levels of restraint applicable to certain specified categories of cotton textiles and cotton textile products, produced or manufactured in Poland and exported to the United States during the twelve-month period which began on March 1, 1975. The purpose of this notice is to announce that, inasmuch as notes have been exchanged establishing a new bilateral cotton textile agreement, the Governments of the United States and the Polish People's Republic have agreed to terminate the Bilateral Cotton Textile Agreement of March 15, 1967, as amended and extended.

Accordingly, there is published below a letter of December 11, 1975 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs cancelling the directive of February 20, 1975.

Effective date: December 11, 1975.

ALAN POLANSKY,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance, U.S. Department of Commerce.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

December 11, 1975.

Commissioner of Customs, Department of the Treasury, Washington, D.C. 20229:

DEAR MR. COMMISSIONER: This directive cancels and supersedes, effective on December 11, 1975, the directive of February 20, 1975 from the Chairman of the Committee for the Implementation of Textile Agreements which directed you to prohibit, effective on March 1, 1975 and for the twelve-month period extending through February 29, 1976, entry into the United States for consumption and withdrawal from warehouse for consumption of certain cotton textiles and cotton textile products, produced or manufactured in Poland, in excess of certain specified levels of restraint.

The actions taken with respect to the Government of the Polish People's Republic and with respect to imports of cotton textiles and cotton textile products from Poland have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the

V40244 DEC 18 75 XUM

implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

ALAN POLANSKY,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance, U.S. Department of Commerce.

[FR Doc.75-34111 Filed 12-17-75;8:45 am]

COMMODITY FUTURES TRADING COMMISSION

DEFINITION OF BONA FIDE HEDGING TRANSACTIONS OR POSITIONS

Notice of Public Hearing

Commencing at 10:00 a.m. on Thursday, January 8, 1976, the Commodity Futures Trading Commission ("Commission") will receive oral and written testimony from interested persons concerning the definition of the terms "bona fide hedging transactions or positions" in Section 4a(3) of the Commodity Exchange Act ("Act"), 7 U.S.C. § 6a, as amended by Section 404 of the Commodity Futures Trading Commission Act of 1974 ("CFTC Act"), Pub. L. No. 93-463, 88 Stat. 1389, 1413. Interested persons may participate in that hearing, which will be held at: The Federal Building, 26 Federal Plaza, Conference Room 2705 (27th Floor), New York, New York.

BACKGROUND

Section 4a of the Act authorizes the Commission to establish limits on the trading and position of any person under contracts of sale for future delivery on or subject to the rules of any contract market. That section provides, however, that those limits shall not "apply to transactions or positions which are shown to be bona fide hedging transactions or positions as such terms . . . [are] defined by the Commission. . . ."

On Monday, August 18, 1975, the Commission published notice in the FEDERAL REGISTER seeking comment on an appropriate definition for the terms "bona fide hedging transactions or positions." *See* 40 F.R. 34627. In response to the Commission's announcement, nearly 100 comments were received from exchanges, traders, dealers, producers, and other interested persons. Subsequently, the Commission published notice in the FEDERAL REGISTER on Friday, October 17, 1975, which stated:

> In response to . . . . [the August 18] release, the Commission has received approximately 100 comments and, as of the date of this release, was still receiving comments. While many of the comments stress the same issues, numerous areas were raised which the Commission had not previously considered but which the Commission believes deserve due consideration. For that reason, the Commission has determined that it will be unable to promulgate a new definition of bona fide hedging transactions or positions prior to October 18, 1975. However, the Commission has determined to adopt § 1.3(z) of the present regulations under the Commodity Exchange Act with minor changes as an interim definition of bona fide hedging transactions and positions. That interim definition will remain effective until such time as a new definition is promulgated by the Commission.[1]

The Commission's announcement of October 17, 1975, also stated that the Commission had appointed an Advisory Committee on the Economic Role of Contract Markets which would be considering the definition of "bona fide hedging transactions or positions." The Commission's Advisory Committee has discussed these terms and will be holding further meetings to discuss this topic. In addition, members of the Advisory Committee may participate in the hearing on January 8, 1976.

The Commission particularly desires information on hedging needs and practices in the newly-regulated commodities, and how such practices and needs should be reflected in an effective hedging definition. Comment is also sought with regard to hedging practices and needs in the newly-approved futures contracts in Treasury bills and mortgage-backed certificates guaranteed by the Government National Mortgage Association.

Anticipatory hedging is another concept on which comment is desired. The Commission would like specific examples of how anticipatory hedging might apply to purchases and sales of commodities and to sales of their products and by-products, along with explanation of how such anticipatory hedging would reduce business risks.

The Commission also seeks comment and information on how international commodity and futures markets are arbitraged, and how such arbitrage transactions contribute to reduction in commercial business risks.

Interested persons should also refer to the Commission's FEDERAL REGISTER notice of August 18, 1975, 40 FR 34627, for a list of the general areas in which the Commission wishes comment. The Commission and its staff may question commentators more specifically at the conclusion of their prepared testimony.

Persons interested in participating in the Commission's hearing should contact Dennis Avery, Commodity Futures Trading Commission, 1120 Connecticut Avenue, NW., Washington, D.C. 20036, (202) 254-6289, before December 30, 1975. In addition, persons wishing to appear at the Commission's hearing should forward an outline of their proposed testimony to Mr. Avery by January 4, 1976. Oral presentations will be limited to 15 minutes.

Dated: December 12, 1975.

WILLIAM T. BAGLEY,
Chairman, Commodity Futures Trading Commission.

[FR Doc.75-34086 Filed 12-17-75;8:45 am]

[1] 40 FR 48688. In addition, the Commission's October 17 announcement stated that public hearings could be held on an appropriate definition for that term.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 469-8; OPP-180059]

ARIZONA

Issuance of a Specific Exemption To Use DEF as a Defoliant Harvest Aid

Pursuant to the provisions of section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), notice is hereby given that the Environmental Protection Agency has granted a specific exemption to the State of Arizona (hereafter referred to as the "Applicant") to use DEF (S,S,S-tributylphosphorotrithioate) as a defoliant harvest aid on okra located in Pinal County, Arizona. This exemption was granted in accordance with, and is subject to, the provisions of 40 CFR Part 166, issued December 3, 1973 (38 FR 33303), which prescribes requirements for exemption of Federal and State agencies for use of pesticides under emergency conditions.

This notice contains a summary of certain information set forth in the application. For more detailed information, interested parties are referred to the application on file with the Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St., S.W., Room E-315, Washington, D.C. 20460.

According to the Applicant, the State of Arizona produces 80 percent of the Nation's okra seed on 100 acres located in Pinal County, Arizona; these acres must be defoliated before frost occurs to provide uniform drying of the okra seed, thereby preventing pod shattering. Without this exemption allowing the use of DEF defoliant as a harvest aid, the losses would amount to one-half the crop; the economic loss potential would be approximately $48,000. The Applicant proposed to apply by air 225 pounds A.I. of the DEF on the 100 acres to defoliate the crop. The Applicant requested that the application be made as soon as possible, in view of the fact that there was imminent danger of frost conditions. No adverse effects on man or the environment are anticipated as a result of the requested use pattern, which is similar to that for cotton.

After reviewing the application and other available information, EPA has determined that (a) an emergency situation does exist in Arizona; (b) there is no pesticide presently registered and available for use to control the okra seed situation in Arizona; (c) there are no alternative methods of control, taking into account the efficacy and hazard; (d) significant economic problems may result if the okra seed are not desiccated; and (e) the time available for action to mitigate the problems posed is insufficient for a pesticide to be registered for this use. Accordingly, the Applicant has been granted a specific exemption to use the pesticide noted above until December 1, 1975, to the extent and in the manner set forth in the application. The specific exemption is also subject to the following conditions:

1. The treated acreage of okra shall not exceed one hundred (100) acres;
2. The treated okra is to be used only for seed;
3. The rate of application of DEF shall be 2.25 pounds A.I. per acre;
4. A pesticide product labeled for use on cotton, a closely related use pattern, shall be applied;
5. The Applicant must supervise aerial applications to minimize drift to non-target areas. The pesticide must be kept out of lakes, streams, and ponds. The pesticide is not to be applied where runoff is likely to occur;
6. The Applicant must follow any more stringent requirements imposed by State law or regulation or applied by the State pesticide regulatory authority; and
7. The Applicant is reminded of the reporting requirements of § 166.5 of the amended FIFRA.

It should be noted that if the Administrator determines that the Applicant is not complying with the requirements set forth or if such action is necessary to protect man or the environment, the exemption shall be immediately withdrawn.

Dated: December 12, 1975.

JOHN B. RITCH, Jr.,
Acting Deputy Assistant Administrator for Pesticide Programs.

[FRL 470-7; PP5G1576/T22]

AMERICAN CYANAMID CO.

Notice of Extension of Temporary Tolerance; Difenzoquat Methylsulfate (1,2-dimethyl-3,5-diphenyl - 1*H* - pyrazolium methyl sulfate)

On May 8, 1975, the Environmental Protection Agency (EPA) announced (40 FR 20128) that, in response to a pesticide petition (PP 5G1576) submitted by American Cyanamid Co., P.O. Box 400, Princeton, N.J. 08540, temporary tolerances had been established for residues of the herbicide difenzoquat methylsulfate (1,2-dimethyl-3,5-diphenyl-1*H*-pyrazolium methyl sulfate) in or on the following raw agricultural commodities: 1. Wheat straw at 20 parts per million (ppm).

2. Wheat grain, and the meat, fat, and meat byproducts of cattle, goats, hogs, horses, and sheep at 0.05 ppm (negligible residues).

American Cyanamid Co. has requested a one-year extension of these temporary tolerances to permit continued testing to obtain additional data and to permit the marketing of the above raw agricultural commodities treated in accordance with an experimental use permit that is being issued concurrently under the Federal Insecticide, Fungicide, and Rodenticide Act.

Based on the data submitted in the petition and other relevant material, it is concluded that the extension of the temporary tolerances will protect the public health. The temporary tolerances are being extended, therefore, on condition that the herbicide be used in accordance with the experimental use permit with the following provisions:

1. The total amount of the active herbicide to be used must not exceed the quantity authorized by the experimental use permit.
2. American Cyanamid Co. must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The company must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

These temporary tolerances expire December 15, 1976. Residues not in excess of these temporary tolerances remaining in or on the raw agricultural commodities listed above will not be considered to be actionable if the herbicide is legally applied during the term of and in accordance with the provisions of the experimental use permit and temporary tolerances. These temporary tolerances may be revoked if the experimental use permit is revoked or if any scientific data or experience with this herbicide indicate such revocation is necessary to protect the public health.

Dater: December 15, 1975.

JOHN B. RITCH, JR.,
Director, Registration Division.

Section 408(j) of the Federal Food, Drug, and Cosmetic Act [21 U.S.C. 436a(j)].

[FRL 470-5; PP4G1453/T21]

AMERICAN CYANAMID CO.

Notice of Reextension of Temporary Tolerance; Difenzoquat Methylsulfate (1,2-Dimethyl-3,5-Diphenyl - 1H - Pyrazolium Methylsulfate)

On May 15, 1975, the Environmental Protection Agency (EPA) announced (39 FR 17346) that, in response to a pesticide petition (PP 4G1453) submitted by American Cyanamid Co., P.O. Box 400, Princeton NJ 08540, temporary tolerances had been established for residues of the herbicide difenzoquat methylsulfate (1,2-dimethyl-3,5-diphenyl-1*H*-pyrazolium methylsulfate) in or on the raw agricultural commodities listed below: Barley straw at 0.5 part per million (ppm).

Barley grain and the meat, fat, and meat byproducts of cattle, goats, hogs, horses, and sheep at 0.05 ppm (negligible residues).

These temporary tolerances were to have expired on May 8, 1975.

On January 31, 1975, the EPA announced (40 FR 4676) that, in response to a request by the petitioner, the Agency had granted a one-year extension of the temporary tolerances for negligible residues in the meat, fat, and meat byproducts of cattle, goats, hogs, horses, and sheep at 0.05 ppm and the establishment of higher levels of 20 ppm in or on barley straw and 0.2 ppm in or on barley grain. These temporary tolerances are to expire on January 24, 1976. American Cyanamid Co. has requested a further one-year extension of these temporary tolerances to permit continued testing to obtain additional data and to permit the marketing of barley treated in accordance with an experimental use permit that is being issued concurrently under the Federal Insecticide, Fungicide, and Rodenticide Act.

Based on the data submitted in the petition and other relevant material, it is concluded that the reextension of the temporary tolerances will protect the public health. The temporary tolerances are being renewed, therefore, on condition that the herbicide be used in accordance with the experimental use permit with the following provisions.

1. The total amount of the active ingredient to be used must not exceed the quantity authorized by the experimental use permit.
2. The American Cyanamid Co. must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The company must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

These temporary tolerances expire December 15, 1976. Residues not in excess of these temporary tolerances remaining in or on the raw agricultural commodities listed above will not be considered to be actionable if the herbicide is legally applied during the term and in accordance with the provisions of the experimental use permit and temporary tolerances. These temporary tolerances may be revoked if the experimental use permit is revoked or if any scientific data or experience with this herbicide indicate such revocation is necessary to protect the public health.

Dated: December 15, 1975.

[FRL 470-6; PP4G1470/T8A]

CHEVRON CHEMICAL CO.

Notice of Renewal of Temporary Tolerance; Diquat (6,7-Dihydrodipyrido (1,2-a:2',1'-c)Pyraziiinium)

On September 9, 1975, the Environmental Protection Agency (EPA) gave notice (40 FR 41833) that, in response to a request by the Chevron Chemical Co., 940 Hensley St., Richmond CA 94804, it had granted a one-year renewal of a temporary tolerance for negligible residues of the herbicide and plant regulator diquat (6,7-dihydrodipyrido (1,2-a:2',1,-c) pyraziiinium) derived from application of the dibromide salt and calculated as the cation in or on the raw agricultural commodity potatoes at 0.2 part per million (ppm). Both this temporary tolerance and the experimental use permit, which was renewed concurrently, were to have expired September 2, 1976.

V 401244 DEC 18 75 XUM

The petitioner has subsequently requested that the temporary tolerance be extended for forty-nine days to permit continued testing to obtain additional data and to permit the marketing of potatoes treated in accordance with the experimental use permit that is being extended concurrently under the Federal Insecticide, Fungicide, and Rodenticide Act.

Based on the data submitted in the petition and other relevant material, it is concluded that the extension of the temporary tolerance will protect the public health. The temporary tolerance is being extended, therefore, on condition that the pesticide be used in accordance with the experimental use permit with the following provisions:

1. The total amount of the active herbicide and plant regulator to be used must not exceed the quantity authorized by the experimental use permit which was issued September 2, 1975.

2. Chevron Chemical Co., must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The company must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

This temporary tolerance expires October 21, 1976. Residues not in excess of this temporary tolerance remaining in or on the raw agricultural commodity potatoes after the expiration of this tolerance will not be considered to be actionable if the pesticide is legally applied during the term and in accordance with the provisions of the experimental use permit and temporary tolerance. This temporary tolerance may be revoked if the experimental use permit is revoked or if any scientific data or experience with this herbicide indicate such revocation is necessary to protect the public health.

ELANCO PRODUCTS CO.

Issuance of Experimental Use Permit

Pursuant to section 5 of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), an experimental use permit has been issued to Elanco Products Company, Indianapolis, Indiana 46206. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

This experimental use permit (No. 1471-EUP-49) allows the use of 520 pounds of the herbicide tebuthiuron against various grasses and weeds in sugarcane. A total of approximately 400 acres is involved; the program is authorized only in Louisiana and Texas. The experimental use permit is effective from November 26, 1975, to November 26, 1976. A temporary tolerance for residues of the active ingredient in or on sugarcane has been established.

Interested parties wishing to review the experimental use permit are referred to Room E-315, Registration Division (WH-567), Office of Pesticide Programs, EPA, 401 M St. SW., Washington, D.C. 20460. It is suggested that such interested persons call 202/755-4851 before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday.

Dated: December 15, 1975.

FEDERAL ENERGY ADMINISTRATION

OIL SHALE CORPORATION

Notice of Consent Order

I. INTRODUCTION

Pursuant to 10 CFR § 205.197(c), the Federal Energy Administration (FEA) hereby gives notice of a Consent Order which, on October 31, 1975, was executed between The Oil Shale Corporation (TOSCO) and the FEA. In accordance with that section, the FEA will receive comments with respect to this Consent Order. Although this Consent Order has been signed and tentatively accepted by the FEA, the FEA may, based upon comments received, withdraw its acceptance and, if appropriate, attempt to negotiate an alternative order.

II. THE CONSENT ORDER

The Oil Shale Corporation, located at 10100 Santa Monica Boulevard, Los Angeles, California 90067, is a firm engaged in the refining and resale of petroleum products. It has two refining subsidiaries, Toscopetro and Lion Oil, located in California and Arkansas, respectively.

On August 25, 1975, the FEA issued a Notice of Probable Violation (NOPV) to TOSCO alleging, in part, that the FEA had reason to believe TOSCO's practice of treating its refining subsidiaries, Lion Oil and Toscopetro, as independent entities with respect to the measurement and allocation of costs, was in violation of 10 CFR § 212.83. The NOPV alleged that the FEA pricing regulations require the measurement and allocation of costs on a single firm basis.

In concluding this compliance proceeding and in resolution of the issues raised in the August 25, 1975 NOPV, the FEA and TOSCO entered into a Consent Order on October 31, 1975, the significant terms of which are that:

(1) TOSCO shall immediately cease its separate pricing practices and begin treating the entire firm, including Lion Oil and Toscopetro, as a single pricing entity under FEA regulations;

(2) TOSCO shall make cash refunds and price rollbacks to various Lion Oil and Toscopetro customers on a pro-rata basis totaling $1,831,021.80 to gasoline purchasers, $376,427.09 to No. 2 oil purchasers, and $469,626.98 to purchasers of general refinery products;

(3) TOSCO shall pay a total of $187,688.67 in interest payments on the refunds due to customers, assessed from the period November 1, 1974 to June 30, 1975 at an annual rate of 6 percent and after July 1, 1975 at an annual rate of 9 percent;

(4) TOSCO shall notify refund recipients that the amounts refunded shall be deemed a reduction in the recipients' product costs for purposes of their own compliance with FEA regulations and to assure that an appropriate portion of the benefits of the TOSCO refunds be received by downstream purchasers;

(5) Since the refunds do not represent the recoupment of costs by the combined firm in excess of actual combined costs

incurred, but rather, an allegedly improper manner of allocating cost recoupment between the two refining subsidiaries, TOSCO may credit the refunds made under this Consent Order to the costs available for recovery in the months of greatest overrecovery for each respective product;

(6) TOSCO shall pay to the U.S. Treasury the amount of $162,000.00 in compromise of civil penalties pursuant to 10 CFR § 205.202(c)(2); and

(7) The provisions of 10 CFR § 205.197, including the publication of this Notice, are applicable to the Consent Order.

The FEA has determined that the public interests required immediate implementation of the Consent Order. Therefore the provisions of the Consent Order relating to restitution were implemented on the date of its execution, October 31, 1975. However, the actions already taken to implement this order are subject to modification if the FEA determines that such modification is necessary after the receipt of public comments.

III. SUBMISSION OF WRITTEN COMMENTS

Interested persons are invited to comment on this Consent Order by submitting such comments in writing to: Mr. William C. Arntz, Regional Administrator, Region IX, Federal Energy Administration, 111 Pine Street, San Francisco, California 94111. Copies of this Consent Order may be received free of charge by written request to this same address or by calling (415) 556-7216.

Comments should be identified on the outside of the envelope and on documents submitted with the designation "Comments on TOSCO Consent Order." All comments received by 4:30 p.m. p.d.t. on the 30th calendar day following publication of this notice will be considered by the FEA in evaluating the Consent Order. Any information or data which, in the opinion of the person furnishing it, is confidential must be identified as such and submitted in accordance with the procedures outlined in 10 CFR § 205.9(f).

Issued in Washington, D.C., December 12, 1975.

MICHAEL F. BUTLER,
General Counsel.

[FR Doc.75-34063 Filed 12-15-75;9:25 am]

FEDERAL POWER COMMISSION

[Docket No. CP76-164]

ALABAMA GAS CORP.

Notice of Application

DECEMBER 10, 1975.

Take notice that on November 19, 1975, Alabama Gas Corporation (Applicant), 1918 North First Avenue, Birmingham, Alabama 35295, filed in Docket No. CP76-164 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale of liquefied natural gas (LNG) to South Carolina Electric and Gas Company (South Carolina), within the contemplation of Section 2.68 of the Commission's General Policy and Interpretations (18 CFR 2.68), to assist South Carolina in commencing its own LNG plant operations and in protecting its high priority customers, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that South Carolina is now in the process of completing a LNG storage plant located in Charleston, South Carolina, but that the liquefaction facility will not be completed for use during the 1975-76 winter heating season. It is said that because South Carolina's liquefaction facility has not been completed, South Carolina projects a deficiency in its gas supply for the 1975-76 winter heating season of approximately 80,000 Mcf of gas. In order to assist South Carolina in meeting its high-priority requirements during the 1975-76 heating season and to provide South Carolina with necessary quantities of LNG for cooling of South Carolina's LNG storage facility before its operation may begin, Applicant requests authorization to make a sale to South Carolina of 165,000 Mcf of LNG. It is stated that such sale will be made pursuant to the terms of a November 17, 1975, agreement which provides that Applicant will deliver 55,000 Mcf of LNG during November and December 1975, and Applicant will make its best effort to deliver 55,000 Mcf in January and 55,000 Mcf in February, 1976. Based upon a stated cost of service per Mcf of $1.80 plus a commodity cost as of October 16, 1975, of 58.793 cents per Mcf, Applicant will charge South Carolina $2.38793 per Mcf of gas sold under the instant proposal. Applicant estimates that it presently has available sufficient LNG volumes to make the proposed sale to South Carolina without interfering with its present system operations and without jeopardizing service to its own high-priority customers. Applicant states that South Carolina will transport the LNG by truck from Applicant's peak-shaving LNG plants located in Pinson and Coosada, Alabama, to Charleston, South Carolina.

Applicant states that because it and South Carolina are now and, after expiration of the proposed sales, will continue to be engaged strictly in intrastate operations, Applicant requests a certificate subject to the following conditions:

1. The certificate shall be limited to authorization of the sale proposed herein;

2. The Commission shall waive any accounting and other requirements generally applicable to a "natural-gas company" for the term of the certificate and with respect to this sale, except for the volumes sold and charges made for such volumes;

3. The Commission shall indicate that all of the facilities and operations and related activities of Applicant and South Carolina are and will continue to be exempt from Commission regulations, and the non-jurisdictional status of the existing sales, operations and facilities of Applicant and South Carolina will not be rendered jurisdictional or otherwise affected by Commission regulation by reason of any certificate issued for the proposed sales; and

4. The Commission shall indicate that upon the requested abandonment becoming effective, Applicant and South Carolina will not be considered as natural-gas companies within the meaning of the Natural Gas Act.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 22, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary

[FR Doc.75-34030 Filed 12-17-75;8:45 am]

[Docket Nos. E-7775 and ER76-321]

APPALACHIAN POWER CO.

Filing of Proposed Rate Increase

DECEMBER 10, 1975.

Take notice that Appalachian Power Company (Appalachian) on November 26, 1975, filed with the Commission a letter dated November 25, 1975, addressed to the Mayor of the City of Martinsville, Virginia (Martinsville), in which Appalachian notified Martinsville of its intention to serve Martinsville on and after January 1, 1976, on a day-to-day basis. Appalachian states that it advised Martinsville that the rates, terms and conditions of such day-to-day service would be as set forth in Appalachian's F.P.C. Rate Schedule No. 27 as theretofore amended and as further amended by the November 25, 1975, letter and by the two (2) Supplements attached to the November 25, 1975, letter. The first of those Supplements incorporates Appalachian's "Rate Schedule WS" presently the subject of proceedings in Docket No. E-7775; the second would replace the fuel adjustment clause of Rate Schedule

V 40 244 DEC 18 75 XUM

WS by a filing identical with that made in Docket No. ER76–24.

Appalachian has requested an effective date of January 1, 1976.

Appalachian states that Martinsville would have paid increased charges of approximately $165,550, or 7.03%, had the rates and charges proposed been in effect during calendar year 1974. Appalachian also states that it has served the materials tendered both on Martinsville and on the State Corporation Commission of the Commonwealth of Virginia.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 19, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75–34031 Filed 12–17–75;8:45 am]

[Rate Schedule Nos. 12, *et al.*]

ATLANTIC RICHFIELD CO., ET AL.

Rate Change Filings Pursuant to Commission's Opinion No. 699–H

DECEMBER 10, 1975.

Take notice that the producers listed in the Appendix attached hereto have filed proposed increased rates to the applicable new gas national ceiling based on the interpretation of vintaging concepts set forth by the Commission in its Opinion No. 699–H, issued December 4, 1974. Pursuant to Opinion No. 699–H the rates, if accepted, will become effective as of the date of filing.

The information relevant to each of these sales is listed in the Appendix.

Any person desiring to be heard or to make any protest with reference to said filings should on or before December 23, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). A protest will not serve to make the protestant a party to the proceeding. Any party wishing to become a party to a proceeding must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76–324]

BOSTON EDISON CO.

Tariff Change

DECEMBER 10, 1975.

Take notice that Boston Edison Company, on December 2, 1975, tendered for filing proposed changes in its FPC Electric Rate Schedule, No. 44, for service to the Braintree Municipal Light Department of Braintree, Massachusetts. That rate schedule now provides that the fuel clause applicable to Edison's partial requirements service to Braintree shall be whatever fuel clause is from time to time applicable in Edison's General Service for Resale Rate for All Requirements Service. The proposed changes would continue until March 31, 1976, the date Edison's service to Braintree terminates, the fuel clause currently applicable to that service regardless of any changes Edison makes in its fuel clause for all requirements service.

The proposed changes were agreed to by both Edison and Braintree and are intended for their mutual benefit. The changes were made because Edison will have to modify the fuel clause in its rate for all requirements service to conform to the requirements of Order No. 517. Both Edison and Braintree believe that the revisions to their basic rate and fuel clause necessary to comply with the requirements of Order No. 517 would create undue burden. Edison, supported by Braintree, included in its filing a request for waiver of the requirements of Order No. 517 for the remaining term of its service to Braintree.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 22, 1975. Protests will be considered by the Commission in determining the appropriate actions to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER 76–329]

CENTRAL VERMONT PUBLIC SERVICE CORP.

Fuel Clause Filing

DECEMBER 10, 1975.

Take notice that Central Vermont Public Service Corporation on December 2, 1975, tendered for filing amendments to its wholesale electric tariff to bring its fuel cost adjustment clause into compliance with Commission Order No. 517. Central Vermont requests that the proposed changes be allowed to become effective on January 1, 1976.

The company states that copies of this filing have been mailed to its wholesale customers affected by the filing.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 22, 1975. Protests will be considered by the Commission in determining the appropriate actions to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP76–161]

CITY OF FALFURRIAS, TEXAS, AND NATURAL GAS PIPELINE COMPANY OF AMERICA

Notice of Application

DECEMBER 10, 1975.

Take notice that on November 13, 1975, the City of Falfurrias, Texas (Applicant), Falfurrias, Texas 78355, filed in Docket No. CP76–161 an application pursuant to Section 7(a) of the Natural Gas Act for an order directing Natural Gas Pipeline Company of American (Respondent) to sell natural gas to Applicant for resale and distribution for residential and small commercial use, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that it is a municipality engaged in the local distribution of natural gas to the public. It is stated that Applicant has been receiving natural gas from Mobil Oil Corporation (Mobil) as successor in interest to La Gloria Oil and Gas Company at the residue outlet of Mobil's La Gloria gas processing plant. Such deliveries are said to be made pursuant to short-term contracts which have expired, and the wells providing such supply have depleted with the exception of one well. The production from the one remaining well as alleged to have declined to the point where volumes produced can no longer supply the needs of Applicant and are continuing to decline. Applicant states that all other attempts to obtain natural gas service from interstate and intrastate sources have been unsuccessful.

Applicant requests that the Commission order Respondent to provide natural gas to Applicant for its small commercial and residential customers, which are estimated to require 201,000 Mcf of natural gas at 14.65 psia per year for the next three years. The estimated daily maximum delivery is 1,200 Mcf of gas and the average daily quantity is 500 Mcf, all at 14.65 psia. Applicant further states that Respondent is currently receiving deliveries of natural gas at the residue outlet of the La Gloria gas processing plant; therefore, there would be no need for Respondent to construct any facilities since Applicant is said to have taken delivery off the return residue line running from the plant to leases in the immediate vicinity.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 22, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 156.9). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP75–106 and Docket No. RP75–105]

COLUMBIA GAS TRANSMISSION CORP. AND COLUMBIA GULF TRANSMISSION CO.

Further Extension of Procedural Dates

DECEMBER 10, 1975.

On November 18, 1975, Columbia Gas Transmission Corporation and Columbia Gulf Transmission Company filed a motion to further extend the procedural dates fixed by order issued July 14, 1976, as most recently modified by notice issued October 30, 1975, in the above-designated matter.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Intervenor Testimony, January 12, 1976.
Service of Company Rebuttal, January 26, 1976.
Hearing, February 10, 1976 (10 a.m., e.s.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.75–34047 Filed 12–17–75;8:45 am]

[Docket No. RP75–8 (PGA No. 76–1)]

COMMERCIAL PIPELINE CO., INC.

Notice of Filing

DECEMBER 10, 1975.

Take notice that on November 20, 1975, Commercial Pipeline Company, Inc. (Commercial), filed Eighth Revised Sheet No. 3A to its FPC Gas Tariff, First Revised Volume No. 1 to effect a PGA increase of 2.03¢ per Mcf or $6,083 annually.

The increase would track a rate increase by Commercial's sole supplier, Cities Service Gas Company which became effective on November 23, 1975. Commercial requests waiver of the prior notice requirement to permit the PGA increase to become effective on November 23, 1975.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 19, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER76–320]

CONNECTICUT LIGHT & POWER CO.

Filing of Rate Schedule

DECEMBER 10, 1975.

Take notice that The Connecticut Light and Power Company (CL&P) on December 2, 1975, tendered for filing proposed changes in its FPC Electric Tariff Resale Service Rate R–2. CL&P proposes to amend its fuel adjustment clause, to adjust its demand charges in its tariff, and to make other minor modifications in the present tariff.

CL&P states that the purpose of the proposed rates is to recover its increased costs of service, in particular the capacity costs associated with its ownership interest in the nuclear generating unit known as Millstone Unit 2, which is expected to begin commercial operation during December, 1975, and to reflect higher depreciation rates and the Company's adoption for ratemaking purposes of the accounting procedures relating to interperiod allocations of income taxes promulgated by Commission Order 530.

CL&P requests an effective date of January 1, 1976.

CL&P states that copies of the filing were served upon its jurisdictional customers and the Connecticut Public Utilities Control Authority.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 22, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76–223]

DUKE POWER CO.

Notice of Filing

DECEMBER 11, 1975.

Take notice that on November 6, 1975, Duke Power Company (Company) tendered for filing a supplement to the Company's Electric Power Contract with the City of Monroe, North Carolina. This contract is on file with the Commission and has been designated "Duke Power Company Rate Schedule FPC No. 238".

The documents submitted with this filing are Exhibit A–2, Delivery Point No. 1, dated October 30, 1975, and Exhibit A, Delivery Point No. 3, dated February 7, 1974. The Company states that Exhibit A–2, Delivery Point No. 1 provides for termination of this point of delivery. Exhibit A, Delivery Point No. 3, provides for a new point of delivery. The Company

V 40 244 DEC 18 75 XUM

states that these changes were made at the request of the customer. The Company requests that these documents become effective on December 19, 1975.

The Company states that copies of the Exhibits have been served on the City of Monroe, North Carolina.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protest should be filed on or before December 22, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34036 Filed 12-17-75;8:45 am]

[Docket No. E-9267]

ELECTRIC ENERGY, INC.

Order Terminating Proceeding

DECEMBER 10, 1975.

On February 18, 1975, Electric Energy, Inc. (EEI), tendered for filing (1) Modification No. 11 [1] to its Contract No. AT-(40-1)-1312 ("Contract") with the Energy Research and Development Administration (ERDA), the successor to the Atomic Energy Commission and (2) Amendment No. 5 [2] to its Interim Supplemental and Surplus Power Agreement ("Agreement") with its Sponsors.[3]

EEI was formed in 1950 for the purpose of selling electric energy to a gaseous diffusion uranium enrichment facility which the United States Atomic Energy Commission, ERDA's predecessor agency, constructed and which ERDA now operates at Paducah, Kentucky. Because of the magnitude of the power needs of the Paducah facility EEI was organized by a group of electric utilities.[4]

EEI constructed and operates a 1,000 MW generating station at Joppa, Illinois. Modification 11 to the Contract provides for the delivery of 735 NW of power to ERDA from the Joppa facility from April 1, 1975 through December 31, 1989, except for the months of June through September, 1975, 1976 and 1977, when only 235 MW is to be delivered.

The tendered agreements result in additional charges to ERDA of $64,976 and to the Sponsors of $860,442, for the twelve month period ending March 31, 1976. The agreements also change the allocation arrangement of power and energy from the previous method by which ERDA had the right to the first 735 MW from the Joppa plant with the remainder being available to the Sponsors to a plan under which ERDA and the Sponsors have an equal right to specific percentages of the Joppa Plant output. Under the new agreement, ERDA benefits from non-operating income of EEI, an item previously used to decrease charges to the Sponsors.

The new agreement also provides for additional services to be made available to ERDA, such as economy energy, additional power and make-up power, which may be beneficial to ERDA in that the opportunity to purchase energy at a lower cost than that produced at the Joppa Plant was not provided under the previous agreement.

Also included within the terms of Modification 11 is a provision for ERDA to pay a surcharge during the period August 1, 1980 through December 31, 1989. The surcharge to be paid by ERDA, calculated as the product of 735 MW multiplied by 0.7 mills/kwh multiplied by the number of hours in the month for which billing is taken place, amounts to $25.9 million.

EEI contends that such surcharge constitutes satisfaction of and compliance with the requirements of the preceding agreement which provides that there shall be a "partial reimbursement for costs incurred by the Sponsoring Companies" resulting from the cancellation and subsequent reinstatement of 500 MW of power by ERDA in the middle 1960's. The company states further that the surcharge provision was arrived at and agreed to through negotiations between the parties.

By our Order, issued April 27, 1975, both Modification 11 to the Contract and Amendment 5 to the Agreement were accepted for filing and permitted to become effective, as proposed, on April 1, 1975.[5] With regard to the surcharge provision, however, we instituted an investigation [6] pursuant to the authority vested in us under Section 206 of the Federal Power Act.

The Commission Staff and EEI are the only parties to this proceeding. On October 14, 1975, the Staff filed a letter stating that no issue exists which would warrant the service of Staff's testimony and that, therefore, no Staff evidence would be served. Consequently, on October 28, 1975, EEI filed a Motion to Terminate the Section 206 investigation. In support of its motion and as an exhibit attached thereto, EEI introduced a letter in which ERDA states its belief that EEI should be allowed to implement Modification 11 including the surcharge provision.

Notice of EEI's Motion to Terminate was issued on November 19, 1975 with protests or petitions to intervene due on or before November 24, 1975. No protests or petitions have been received.

Upon consideration of EEI's Motion and further review of the surcharge provision contained in Modification 11, we are of the opinion that no purpose would be served by further proceedings in this docket and that it would be in the public interest to terminate the proceeding. Accordingly, we conclude that good cause exists to grant EEI's Motion of October 28, 1975.

The Commission finds. Good cause exists to grant EEI's Motion of October 28, 1975 and, consequently, to terminate the Section 206 investigation initiated by our Order of April 23, 1975, in this docket.

The Commission orders. (A) EEI's Motion of October 28, 1975, requesting termination of the Section 206 investigation initiated by our Order of April 23, 1975, in this Docket is hereby granted.

(B) The Section 206 investigation initiated by our Order of April 25, 1975, in this Docket is hereby terminated.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. RP76-45]

EL PASO NATURAL GAS CO.

Proposed Changes in FPC Gas Tariff

DECEMBER 10, 1975.

Take notice that El Paso Natural Gas Company (El Paso), on December 1, 1975, tendered for filing proposed changes in special Rate Schedule F-2 to its FPC Gas Tariff, Third Revised Volume No. 2. The proposed changes would increase revenues from a field sale in Dewey County, Oklahoma, to Michigan Wisconsin Pipeline Company under El Paso's Rate Schedule F-2 by $56,887, based on an estimated sales volume for the twelve-month period succeeding the proposed effective date of January 1, 1976.

El Paso states that this filing is being made to reflect an increase in rate pursuant to Section 2.56a of the Federal Power Commission's General Policy and Interpretations and in accordance with Article XI of said Rate Schedule F-2.

In connection with the instant notice of change, El Paso also tendered for filing and acceptance Original Sheet No. 1-D.1 to its FPC Gas Tariff, Third Revised Volume No. 2. El Paso states that said tariff sheet is a Statement of Rates sheet applicable to special Rate Schedules F-1, F-2 and F-3. El Paso further states that the purpose of such tariff sheet is to include on the Statement of Rates tariff sheet in El Paso's Third Revised Volume No. 2 tariff those rate schedules for which there is presently no tariff sheet reflecting the sales rates applicable to such rate schedules.

Any person desiring to be heard or to make any protest with reference to this filing should, on or before December 23, 1975, file with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations Under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. RP72-155 and RP75-39 (PGA76-1)]

EL PASO NATURAL GAS CO.

Further Extension of Procedural Dates

DECEMBER 10, 1975.

On November 26, 1975, Texas International Petroleum Corporation filed a motion to extend the procedural dates fixed by order issued September 30, 1975, as most recently modified by order issued November 14, 1975, in the above-designated proceeding.

On December 5, 1975, El Paso Natural Gas Company filed a response to the above motion stating that it does not oppose the extension of procedural dates but will oppose any further extension of time.

Upon consideration, notice is hereby given that the procedural dates in the above proceeding are modified as follows:

Service of El Paso's Testimony, January 8, 1976.
Service of Staff and Intervenor Testimony, February 12, 1976.
Service of Company Rebuttal, February 26, 1976.
Hearing, March 9, 1976 (10 a.m., e.s.t.).

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-318]

FLORIDA POWER CO.

Interconnection Filing

DECEMBER 10, 1975.

Take notice that on December 1, 1975, Florida Power Corporation ("Florida Power") tendered for filing an Interconnection Agreement ("Agreement") between Florida Power and the City of Lakeland, Florida, entered into on October 22, 1975. The Agreement provides for the following interconnection services: emergency energy, short-term firm capacity and energy, economy energy and long-term firm capacity and energy. Florida Power asks that the Agreement, in accordance with its terms, be permitted to become effective on January 1, 1976.

Any person desiring to be heard or to make any protest with reference to said filing should, on or before December 19, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (19 CFR 1.8 or 1.10).

All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The documents filed by Florida Power are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34068 Filed 12-17-75;8:45 am]

[Docket No. ER76-322]

ILLINOIS POWER CO.

Proposed Rate Schedule Changes

DECEMBER 10, 1975.

Take notice that on December 1, 1975, Illinois Power Company (Illinois) tendered for filing with the Commission an amendment to each of the agreements between Illinois and nine electric cooperative associations for purchase of power. Each of these agreements became effective January 1, 1973 and are designated as the following rate schedules:

Rate schedule	*Electric cooperative*
FPC No. 52	Clinton County Electric Cooperative, Inc.
FPC No. 53	Corn Belt Electric Cooperative, Inc.
FPC No. 54	Farmers Mutual Electric Co.
FPC No. 55	Illinois Valley Electric Cooperative, Inc.
FPC No. 56	McDonough Power Cooperative
FPC No. 57	Monroe County Electric Cooperative, Inc.
FPC No. 58	Southwestern Electric Cooperative, Inc.
FPC No. 59	Tri-County Electric Cooperative, Inc.
FPC No. 60	Western Illinois Power Cooperative, Inc.

According to Illinois, the proposed changes are being made to conform the fuel adjustment clause contained in each of the agreements to FPC Order No. 517. The proposed effective date for these changes is January 1, 1976.

Illinois states that the proposed changes are being filed as an alternative to the request previously filed by the nine electric cooperative customers in Docket No. ER76-189 for a one year extension of the effective date of a conforming fuel clause in the aforementioned rate schedules to January 1, 1977. Illinois had concurred in cooperatives' requested waiver. Illinois states that the revised fuel clause tendered in the instant filing is intended to conform with Order No. 517 in the event the Commission declines to grant the requested one year waiver.

Copies of the instant filing have been served by Illinois upon each of the nine electric cooperative customers.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commissions' Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 19, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP75-110]

LAWRENCEBURG GAS TRANSMISSION CORP.

Change in Rate

DECEMBER 10, 1975.

Take notice that on November 17, 1975, Lawrenceburg Gas Transmission Corporation (Lawrenceburg), Post Office Box 960, Cincinnati, Ohio 45201, filed in Docket No. RP75-110 a notice of change in rate pursuant to Section 4 of the Natural Gas Act consisting of Original Sheet Nos. 9 through 12 and 21 of Lawrenceburg's Gas Tariff, First Revised Volume No. 1, to set forth a plan for the curtailment of deliveries of natural gas, all as more fully set forth in the notice of change in rate on file with the Commission and open to public inspection.

Lawrenceburg states that the proposed gas tariff sheets incorporate a *pro rata* type curtailment plan under which Lawrenceburg will allocate its available gas supply that it receives from its sole supplier, Texas Gas Transmission Corporation (Texas Gas), to its two wholesale customers, Lawrenceburg Gas Company (Lawrenceburg Gas) and The Cincinnati Gas & Electric Company (Cincinnati). The proposed plan is said to establish seasonal entitlements for each of Lawrenceburg's two customers, the total of which is equal to Lawrenceburg's seasonal entitlements from Texas Gas. The entitlements of each customer are based on the past four-year average year purchased volumes. When Lawrenceburg's gas supply is inadequate to meet its customers' seasonal entitlements, it

[1] Designated, "Rate Schedule FPC No. 3, Supplement No. 9".
[2] Designated, "Rate Schedule FPC No. 4, Supplement No. 20".
[3] EEI's Sponsors are Union Electric Company, Illinois Power Company, Kentucky Utilities Company, and Central Illinois Public Service Company.
[4] EEI was organized by Union Electric Company, Central Illinois Public Service Company, Illinois Power Company, Kentucky Utilities Company, and Middle South Utilities Company. They held 40%, 20%, 20%, 10% and 10% of EEI's stock, respectively. Kentucky Utilities has since acquired all of the shares held by Middle South Utilities Company.

[Docket No. RP76-44]

NORTHERN NATURAL GAS CO.

Proposed Changes in FPC Gas Tariff

DECEMBER 10, 1975.

Take notice that Northern Natural Gas Company (Northern), on December 1, 1975, tendered for filing proposed changes in special Rate Schedule F-2 to its FPC Gas Tariff, Third Revised Volume No. 2. The proposed changes would increase revenues from a field sale in Dewey County, Oklahoma, to Michigan Wisconsin Pipeline Company under Northern's Rate Schedule F-2 by $56,887, based on an estimated sales volume for the twelve-month period succeeding the proposed effective date of January 1, 1976.

Northern states that this filing is being made to reflect an increase in rate pursuant to Section 2.56a of the Federal Power Commission's General Policy and Interpretations and in accordance with Article XI of said Rate Schedule F-2.

In connection with the instant notice of change, Northern also tendered for filing and acceptance Original Sheet No. 1-D.1 to its FPC Gas Tariff, Third Revised Volume No. 2. Northern states that said tariff sheet is a Statement of Rates sheet applicable to special Rate Schedules F-1, F-2 and F-3. Northern further states that the purpose of such tariff sheet is to include on the Statement of Rates tariff sheet in Northern's Third Revised Volume No. 2 tariff those rate schedules for which there is presently no tariff sheet reflecting the sales rates applicable to such rate schedules.

Any person desiring to be heard or to make any protest with reference to this filing should, on or before December 23, 1975, file with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations Under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. RP76-47]

NORTHERN NATURAL GAS CO.

Proposed Changes in FPC Gas Tariff

DECEMBER 10, 1975.

Take notice that Northern Natural Gas Company (Northern), on December 1, 1975, tendered for filing proposed changes in special Rate Schedule F-2 to its FPC Gas Tariff, Third Revised Volume No. 2. The proposed changes would increase revenues from a field sale in Dewey County, Oklahoma, to Michigan Wisconsin Pipeline Company under Northern's Rate Schedule F-2 by $56,887, based on an estimated sales volume for the twelve-month period succeeding the proposed effective date of January 1, 1976.

Northern states that this filing is being made to reflect an increase in rate pursuant to Section 2.56a of the Federal Power Commission's General Policy and Interpretations and in accordance with Article XI of said Rate Schedule F-2.

In connection with the instant notice of change, Northern also tendered for filing and acceptance Original Sheet No. 1-D.1 to its FPC Gas Tariff, Third Revised Volume No. 2. Northern states that said tariff sheet is a Statement of Rates sheet applicable to special Rate Schedules F-1, F-2 and F-3. Northern further states that the purpose of such tariff sheet is to include on the Statement of Rates tariff sheet in Northern's Third Revised Volume No. 2 tariff those rate schedules for which there is presently no tariff sheet reflecting the sales rates applicable to such rate schedules.

Any person desiring to be heard or to make any protest with reference to this filing should, on or before December 23, 1975, file with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations Under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP76-48]

NORTHERN NATURAL GAS CO.

Proposed Changes in FPC Gas Tariff

DECEMBER 10, 1975.

Take notice that Northern Natural Gas Company (Northern), on December 1, 1975, tendered for filing proposed changes in special Rate Schedule F-2 to its FPC Gas Tariff, Third Revised Volume No. 2. The proposed changes would increase revenues from a field sale in Dewey County, Oklahoma, to Michigan Wisconsin Pipeline Company under Northern's Rate Schedule F-2 by $56,887, based on an estimated sales volume for the twelve-month period succeeding the proposed effective date of January 1, 1976.

Northern states that this filing is being made to reflect an increase in rate pursuant to Section 2.56a of the Federal Power Commission's General Policy and Interpretations and in accordance with Article XI of said Rate Schedule F-2.

In connection with the instant notice of change, Northern also tendered for filing and acceptance Original Sheet No. 1-D.1 to its FPC Gas Tariff, Third Revised Volume No. 2. Northern states that said tariff sheet is a Statement of Rates sheet applicable to special Rate Schedules F-1, F-2 and F-3. Northern further states that the purpose of such tariff sheet is to include on the Statement of Rates tariff sheet in Northern's Third Revised Volume No. 2 tariff those rate schedules for which there is presently no tariff sheet reflecting the sales rates applicable to such rate schedules.

Any person desiring to be heard or to make any protest with reference to this filing should, on or before December 23, 1975, file with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations Under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

V40244 DEC 18 75 XUM

would invoke curtailment on a pro rata basis by the application of a percentage to the seasonal entitlement volumes.

A provision is provided in the proposed plan for penalties in the event a buyer exceeds his authorized seasonal quantity entitlement. The actual assessed penalties would be limited by the penalty charges incurred by Lawrenceburg from its supplier. Also included is a provision for exemption from curtailment to protect high priority loads whereby additional curtailment would be assigned to one buyer in order to protect the other buyer.

A provision is included to take care of the "Credit Allowances as a Result of Curtailment" that Lawrenceburg may receive from its supplier. This allowance would be assigned to each buyer on the basis that each buyer's curtailment was below his seasonal quantity entitlements. No penalty charges or credit allowances would accrue to buyers unless penalty charges or credit allowances are realized by Lawrenceburg from Texas Gas.

In explaining the reason for the proposed plan, Lawrenceburg notes that it presently does not have a curtailment plan due to the fact that it was rendering wholesale natural gas service to only two wholesale customers, one on a "firm service basis" and one on an "excess service basis"; and giving consideration to the anticipated minor curtailment from its supplier, Texas Gas, a curtailment plan for Lawrenceburg was unnecessary since it could asign all curtailment volumes from Texas Gas to its "excess service basis" customer, Cincinnati. This could be done contractually by means of its applicable Rate Schedule EX-1 and its service agreement with Cincinnati without a filed curtailment plan. Because of the deepening curtailment by Texas Gas, Lawrenceburg says that it now finds that it will be unable to meet the high priority loads of Cincinnati. Lawrenceburg, therefore, on June 23, 1975, filed in Docket No. CP75-370 for a certificate of public convenience and necessity pursuant to Section 7(c) of the Natural Gas Act, authorizing the continuation of a sale for resale to Cincinnati on a firm rather than an excess basis. Receipt of authorization for the change in service on October 31, 1975, is said to require the introduction of a curtailment plan to allocate the available gas supply from Texas Gas to Lawrenceburg's two wholesale customers on an equitable basis.

In order to facilitate the change from "excess service" to "firm service" to Cincinnati and to effectuate a curtailment plan, Lawrenceburg's firm service customer, Lawrenceburg Gas, is said to have agreed to assign some of its contract demand and annual volumes to Cincinnati. Lawrenceburg Gas' contract demand volume of 15,000 Mcf would be reduced to 12,000 Mcf to conform approximately to its historical maximum day purchase, with 3,000 Mcf assigned to Cincinnati. The annual quantity entitlement by seasons of Lawrenceburg from Texas Gas would be allocated between Lawrenceburg Gas and Cincinnati on the basis of a historical four-year average year basis. Lawrenceburg says that it has elected to use a *pro rata* type curtailment plan rather than the Commission policy plan set forth in Section 2.78 of the Commission's General Policy and Interpretations (18 CFR 2.78) considered by Lawrenceburg and its customers to be the most equitable plan for Lawrenceburg.

Any person desiring to be heard or to make any protest with reference to said notice of change in rate should on or before December 22, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-316]

LOUISIANA POWER & LIGHT CO.

Notice of Filing

DECEMBER 10, 1975.

Take notice that on December 2, 1975, Louisiana Power & Light Company (LP&L) tendered for filing a proposed service agreement with the City of Vidalia, Louisiana. LP&L states that the purpose of the new agreement is to increase contract quantities and to relocate and increase the capacity of the substation serving Vidalia. LP&L states further that the proposed filing is intended to supersede its FPC Rate Schedule No. 41 with Vidalia and that no change in rates are involved.

A copy of the filing has been served upon Vidalia.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 22, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP72-149 PGA76-4a]

MISSISSIPPI RIVER TRANSMISSION CORP.

Proposed Change in Rates

DECEMBER 10, 1975.

Take notice that Mississippi River Transmission Corporation ("Mississippi") on December 4, 1975, submitted for filing Substitute Alternate Thirty-Sixth Revised Sheet No. 3A and Substitute Alternate Thirty-Seventh Revised Sheet No. 3A to its FPC Gas Tariff, First Revised Volume No. 1 to become effective December 15, 1975 and January 1, 1976, respectively. Such tariff sheets which are filed pursuant to the provisions of Mississippi's purchased gas cost adjustment clause substitute any and all previous tariff sheets filed to become effective on the aforementioned dates.

Mississippi submitted schedules containing computations supporting the rate changes to be effective December 15, 1975 and January 1, 1976. Mississippi states that copies of its filing were served on Mississippi's jurisdictional customers and the State Commissions of Arkansas, Illinois and Missouri.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 23, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene unless such petition has previously been filed. Copies of the filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34043 Filed 12-17-75;8:45 am]

[Docket No. ER76-287]

MIDDLE SOUTH SERVICES, INC. ALABAMA POWER & LIGHT CO.

Rate Schedule Change

DECEMBER 10, 1975.

Take notice that on November 24, 1975, Middle South Services, Inc. (MSS) tendered for filing a letter agreement dated November 3, 1975 between MSS, as agent for Arkansas Power & Light Company (AP&L), and Southwestern Electric Power Company (SWEPCO) amending Schedule RE, a supplement to the Interconnection Agreement between AP&L and SWEPCO which is on file with the Commission as Supplement No. 10 to Rate Schedule FPC No. AP&L 20. Schedule RE provides for replacement energy transactions between the systems of the two companies. Also filed with the Commission was a Certificate of Concurrence dated November 13, 1975 by SWEPCO.

MSS states that the change being made in the proposed amendatory letter agreement is in the add-on portion of the rate when energy being supplied by the seller is purchased from another supplier and passes through the seller's system to the buyer. According to MSS, the rate for each kilowatt hour is the same rate previously accepted for filing under Schedule ES of the same Interconnection Agreement.

The effective date for the proposed change is January 1, 1976.

MSS states that copies of the filing are being sent to AP&L and SWEPCO.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 22, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Project No. 2301]

MONTANA POWER CO.

Issuance of Annual License

DECEMBER 10, 1975.

On December 23, 1968, the Montana Power Company, Licensee for Mystic Lake Project No. 2301, located in Stillwater County, Montana, on West Rosebud Creek and Mystic Lake, filed an application for a new license under the Federal Power Act and Commission Regulations thereunder. Licensee also made a supplemental filing pursuant to Commission Order No. 384 on December 23, 1969, and a supplemental filing pursuant to Commission Order No. 415 on October 29, 1970.

The license for Project No. 2301 was issued effective December 1, 1961, for a period ending December 31, 1969. Since the original date of expiration, the project has been under annual license. In order to authorize the continued operation and maintenance of the project pursuant to the Federal Power Act, pending completion of Commission action on Licensee's application, it is appropriate to The Montana Power Company for continued operation and maintenance of Project No. 2301.

Take notice that an annual license is issued to The Montana Power Company (Licensee) under the Federal Power Act for the period January 1, 1976, to December 31, 1976, or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Mystic Lake Project No. 2301, subject to the terms and conditions of its present license.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-46]

MONTAUP ELECTRIC CO.

Order Denying Application for Rehearing

DECEMBER 10, 1975.

By order issued August 29, 1975, in the instant proceeding, we, *inter alia*, accepted for filing and suspended for one month, or until October 1, 1975, Montaup Electric Company's (Montaup) proposed increased rates filed herein. By order issued November 3, 1975, we granted certain Applications for Rehearing filed by Intervenors[1] herein to the extent that we amended our order of August 29 by providing for a suspension of the proposed increased rates for five months, or until February 1, 1976.

Montaup, on November 14, 1975, filed an Application for Rehearing of our November 3, 1975, order, seeking further modification of the suspension period to permit its proposed rates to become effective January 1, 1976. In support of its Application, Montaup states that its Canal No. 2 generating unit will become commercially operational on or before December 31, 1975, and that if it is not permitted to charge rates based on the inclusion of that unit in rate base for the month of January, it will lose $338,147 in after tax earnings. Montaup also relies on the possibility of additional losses in the event Canal No. 2 goes into service on December 1, 1975 and on its need for outside financing for its construction program for the years 1975-1987.

We believe that, except for the maximum period set by the Federal Power Act, the length of the suspension period we may order under Section 205(e) of the Act is a matter entrusted to our discretion.[2] Nothing contained in Montaup's Application for Rehearing persuades us that we should suspend its proposed rates for less than the maximum period permitted by statute. As we stated in our August 29, 1975 order, these rates have not been shown to be just and reasonable. Any loss which Montaup alleges is predicated on collection of rates which, therefore, may not be just and reasonable and may be subject to reduction after hearing and decision. The allegation of a loss of revenues, therefore, is not persuasive that we should permit these rates to become effective before the end of the five month suspension period. Accordingly, we shall deny Montaup's Application for Rehearing.

The Commission finds. Montaup's Application for Rehearing raises no new issues of fact or law not previously considered, or, considered herein, to justify granting rehearing.

The Commission orders. (A) Montaup's Application for Rehearing is hereby denied.

(B) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission. Commissioner Watt not participating.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34050 Filed 12-17-75;8:45 am]

[Project No. 2207]

MOSINEE PAPER CO.

Issuance of Annual License

DECEMBER 10, 1975.

On December 26, 1974, Mosinee Paper Company, Licensee for Mosinee Project No. 2207, located on the Wisconsin River near Mosinee, Wisconsin, filed an application for a new license under the Federal Power Act and Commission Regulations thereunder.

The license for Project No. 2207 was issued effective January 1, 1938, for a period ending December 31, 1974. Since the original date of expiration, the project has been under annual license. In order to authorize the continued operation and maintenance of the project pursuant to the Federal Power Act, pending completion of Commission action on Licensee's application, it is appropriate and in the public interest to issue an annual license to Mosinee Paper Company for continued operation and maintenance of Project No. 2207.

Take notice that an annual license is issued to Mosinee Paper Company (Licensee), for the period January 1, 1976 to December 31, 1976, or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of Mosinee Project No. 2207, subject to the terms and conditions of its present license.

KENNETH F. PLUMB,
Secretary.

NEW BEDFORD GAS & EDISON LIGHT CO.

Notice of Filing

DECEMBER 10, 1975.

Take notice that on December 1, 1975, the New Bedford Gas and Edison Light Company (New Bedford) tendered for filing a change in its rate schedule governing the determination of carrying charges on certain 345KV transmission facilities. New Bedford requests an effective date of January 1, 1976.

New Bedford states that copies of this filing have been mailed to it customers.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 19, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket Nos. E-9136 and E-9140]

NEW ENGLAND POWER CO.

Notice of Compliance Filing

DECEMBER 8, 1975.

Take notice that November 21, 1975, New England Power Company (NEPCO), in compliance with ordering paragraph B of the Commisison's order of August 5, 1975 and paragraph D of its order of December 3, 1975, filed revised tariff sheets effective for the period June 1, 1975 through August 1, 1975 reflecting reduced rates consistent with the Commission's orders. According to NEPCO, refunds with interest at nine percent per annum are being made to reflect the reduced rates. NEPCO states that these refunds are subject to final adjudication pending the outcome of NEPCO's appeal of the Commission's refund orders to the United States Court of Appeals For the First Circuit.

According to NEPCO, its present tariff sheets, made effective as of August 2, 1975 by the Commission's order of October 3, 1975 reflect an approximate $13 million annual reduction in the rate contained in previously filed tariff sheets which they superceded. NEPCO believes that these currently effective tariff sheets are in full compliance with the Commission's orders of August 5 and October 3, 1975. Hence, no superceding tariff sheets are being filed, it states.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 22, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

NEW ENGLAND POWER CO.

Compliance Filing

DECEMBER 10, 1975.

Take notice that on November 19, 1975 New England Power Company (NEPCO) tendered for filing a request for an effective date of December 20, 1974 for its unit sales contracts with Montaup Electric Company, New Bedford Gas and Electric Company, Bangor Hydro Electric Company and Vermont Electric Power Company relative to the output of NEPCO's Brayton Point No. 4 Unit. In conjunction with its request, NEPCO agrees that the rates charged under the contracts shall be subject to refund as of the effective date, pending final disposition of the above-referenced docket.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 22, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

OHIO POWER CO.

Proposed Change in Rates and Charges

DECEMBER 10, 1975.

Take notice that Ohio Power Company (OPCO), on December 2, 1975 tendered for filing proposed Supplement to the Facilities and Operating Agreement dated as of May 1, 1967 between the Dayton Power and Light Company and Ohio Power Company. The proposed changes, which OPCO states have been agreed to by the Dayton Power and Light Company, would increase revenues from jurisdictional sales and service by $1,671,434, based on the 12-month period ending September 30, 1975.

OPCO states that the filing is intended to be a revision to the proposed changes in its tariff tendered for filing on September 5, 1975, which was subsequently stated to be deficient in a letter of September 19, 1975 from the Secretary. OPCO requests an effective date of January 1, 1976.

OPCO states that copies of the filing were served upon The Dayton Power and Light Company and the Public Utilities Commission of Ohio.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 19, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

OKLAHOMA GAS & ELECTRIC CO.

Supplement to Rate Schedule

DECEMBER 10, 1975.

Take notice that on November 24, 1975, Oklahoma Gas and Electric Company (OG&E) tendered for filing a Letter Agreement dated November 3, 1975, between it and Middle South Services, Inc., as Agent for Arkansas Power and Light Company. This agreement amends Schedule RE, Replacement Energy, which is designated as Supplement No. 13 to OG&E's Rate Schedule FPC No. 12A. OG&E states the change being made is the add-on portion of the rate when being supplied by the Seller is purchased from another supplier and passes through Seller's system to the Buyer.

OG&E requests an effective date of January 1, 1976, for this Agreement.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 22, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,

[Docket No. ER76-289]

OKLAHOMA GAS & ELECTRIC CO.

Supplement to Agreement

DECEMBER 10, 1975.

Take notice that on November 24, 1975, Oklahoma Gas and Electric Company (OG&E) tendered for filing a Letter Agreement, dated November 3, 1975, between it and Kansas Gas and Electric Company. This Agreement amends Schedule RE, Replacement Energy, which is designated as Supplement No. 13 to OG&E's Rate Schedule FPC No. 32. OG&E states the change being made is the add-on portion of the rate when energy being supplied by the Seller is purchased from another supplier and passes through the Seller's system to the Buyer.

OG&E requests an effective date of January 1, 1976, for this Agreement.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 22, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER 76-319]

PACIFIC GAS & ELECTRIC CO.

Proposed Changes in Rates and Charges

DECEMBER 10, 1975.

Take notice that on December 2, 1975, Pacific Gas and Electric Company (PGandE) tendered for filing a notice of change in the fuel cost adjustment provision applicable to rate schedules under its FPC Electric Tariffs, Original Volumes Nos. 1 and 2. The proposed effective date for such change is January 1, 1976.

PGandE states that the principal reason for the proposed change for which notice is given herein is to conform the fuel cost adjustment provision in PGandE's tariff to Section 35.14 of the Commission's Regulations under the Federal Power Act, as amended by Opinion No. 517.

Copies of the filing were served upon PGandE's jurisdictional customers, the California Public Utilities Commission and the Public Service Commission of Nevada.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 22, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34026 Filed 12-17-75;8:45 am]

[Project No. 1273]

PAROWAN CITY

Issuance of Annual License

DECEMBER 10, 1975.

On May 22, 1975, Parowan City, Licensee for Center Creek Project No. 1273, located on Center Creek near Parowan City, Utah, filed an application for a new license under the Federal Power Act and Commission Regulations thereunder.

The license for Project No. 1273 was issued effective July 19, 1935, for a period ending December 31, 1974. Since the original date of expiration, the project has been under annual license. In order to authorize the continued operation and maintenance of the project, pending completion of Commission action on Licensee's application, it is appropriate and in the public interest to issue an annual license to Parowan City for continued operation and maintenance of Project No. 1273.

Take notice that an annual license is issued to Parowan City (Licensee) under the Federal Power Act for the period January 1, 1976, to December 31, 1976, unless during that period a new license for the project is issued, for the continued operation and maintenance of Center Creek Project No. 1273, subject to the terms and conditions of its present license.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34054 Filed 12-17-75;8:45 am]

[Docket No. ER76-301]

PENNSYLVANIA ELECTRIC CO.

Rate Change

DECEMBER 10, 1975.

Take notice that on November 26, 1975, Pennsylvania Electric Company (Penelec) tendered for filing an increased rate "RP" for Penelec's all-requirements wholesale service at primary voltage to six Pennsylvania municipal customers (the Boroughs of Berlin, East Conemaugh, Girard, Hooversville, Smethport and Summerhil) and to six investor-owned utilities (Rockingham Light, Heat & Power Company, Waterford Electric Light Company, Wellsborough Electric Company, Windber Electric Corporation, and West Penn Power Company). Penelec also tendered for filing increased rates for partial requirements and wheeling service to Allegheny Electric Cooperative, Inc. (Allegheny). Penelec filed a revised fuel cost adjustment clause for its all-requirements service and its partial requirements service to Allegheny to conform with Order No. 517 issued November 13, 1974.

Penelec states that on the basis of the 12 months ended June 30, 1976 (Period II), the proposed rates would produce $1,854,542 in additional revenues from its all-requirements customers, or a 42.7 percent increase, and $7,557,472 in additional revenues from Allegheny, or a 68.7 percent increase.

V40I244 DEC 18 75 XUM

Penelec states that the proposed rates are intended to recover sharp increases in cost over the 1972 costs underlying the present all-requirements wholesale rates, and the 1971 cost used to derive rates for service to Allegheny. In requesting a December 27, 1975 effective date, Penelec states that the increase is overdue and that without immediate rate relief it will not be able to meet coverage requirements to issue bonds by mid-1976.

Copies of the filing were served upon the affected jurisdictional customers and the Pennsylvania Public Utility Commission. Any persons desiring to be heard or to make any protest with reference to said filing should, on or before December 22, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 C.F.R. 1.8 or 1.10).

All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The documents filed by Penelec are on file with the Commission and available for public inspection.

[Project No. 2516]

POTOMAC EDISON CO.

Issuance of Annual License

DECEMBER 10, 1975.

On September 28, 1973, the Potomac Edison Company, Licensee for Dam No. 4 Project No. 2516, located in Berkeley County, West Virginia on the Potomac River near the town of Shepherdstown, filed an application for a new license under the Federal Power Act and Commission regulations thereunder. The Applicant filed a motion requesting Commission permission to file late on October 15, 1973.

The license for Project No. 2516 was issued effective January 1, 1969, for a period ending December 31, 1973. Since the original date of expiration, the project has been under annual license. In order to authorize the continued operation and maintenance of the project pending completion of Commission action on Licensee's application, it is appropriate and in the public interest to issue an annual license to The Potomac Edison Company for continued operation and maintenance of Project No. 2516.

Take notice that an annual license is issued to The Potomac Edison Company (Licensee) for the period January 1, 1976 to December 31, 1976, or until the issuance of a new license for the project, for the continued operation and maintenance of the Dam No. 4 Project No. 2516, subject to the terms and conditions of its present license.

KENNETH F. PLUMB,
Secretary.

[Project No. 2517]

POTOMAC EDISON CO.

Issuance of Annual License

DECEMBER 10, 1975.

On September 28, 1973, The Potomac Edison Company, Licensee for Dam No. 5 Project No. 2517, located in Berkeley County, West Virginia on the Potomac River, near the Town of Hedgesville, filed an application for a new license under the Federal Power Act and Commission Regulations thereunder. The Applicant filed a motion requesting Commission permission to file late on October 15, 1973.

The license for Project No. 2517 was issued effective January 1, 1969, for a period ending December 31, 1973. Since the original date of expiration, the project has been under annual license. In order to authorize the continued operation and maintenance of the project pending completion of Commission action on Licensee's application, it is appropriate and in the public interest to issue an annual license to The Potomac Edison Company for continued operation and maintenance of Project No. 2517.

Take notice that an annual license is issued to The Potomac Edison Company (Licensee), for the period January 1, 1976, to December 31, 1976, or until the issuance of a new license for the project, for the continued operation and maintenance of the Dam No. 5 Project No. 2517, subject to the terms and conditions of its present license.

[Docket No. RI76-71]

P. S. & G., INC.

Petition for Special Relief

DECEMBER 10, 1975.

Take notice that on November 21, 1975, P. S. & G., Incorporated (Petitioner), 1804 Chamber of Commerce Building, Houston, Texas 77004, filed a petition for special relief in Docket No. RI76-71, pursuant to Section 2.76 of the Commission's General Policy and Interpretations. Petitioner is seeking a rate of 92.5¢ per Mcf for the sale of natural gas to Texas Gas Transmission Corporation from certain wells in the Monroe Field, Louisiana. Petitioner further states that it has now reached the point of economic limit on said properties and without relief it will be forced to abandon the properties.

Any person desiring to be heard or to make any protest with reference to said petition should on or before December 29, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34053 Filed 12-17-75;8:45 am]

[Docket Nos. E-9007 and E-9054]

TAMPA ELECTRIC CO.

Order Accepting Proposed Amendment and Terminating Proceedings

DECEMBER 10, 1975.

On September 4, 1974, Tampa Electric Company (Tampa) tendered for filing in Docket No. E-9007 as an Initial Rate Schedule an Agreement for Interchange Service between Tampa and City of Lakeland (Lakeland). Notice of this filing was issued on September 21, 1974, with protests and/or petitions to intervene due on or before October 18, 1974. No response was received.

On October 7, 1974, Tampa tendered for filing in Docket No. E-9054 an amendment to the original agreement which provides for increased rates for all the service schedules in the original agreement. Notice of this filing was issued on October 17, 1974, with protests and/or petitions to intervene due on or before October 24, 1974. No response was received.

Deficiency letters dated October 16, 1974, November 4, 1974, and December 26, 1974, were issued by the Secretary of the Federal Power Commission with respect to Tampa's initial and amended Agreements. Tampa, in response to those letters, submitted supplemental data on various occasions and completed its filing on April 2, 1975.

By order issued April 30, 1975, in Docket Nos. E-9007 and E-9054, the Commission suspended the amendment to Tampa's interconnection agreement with Lakeland for one day and set the matter for hearing under Section 205 of the Federal Power Act. The Commission found the energy charge included in Tampa's amended emergency, scheduled and surplus interchange service schedules to be in question. A conference was held at the Commission on June 19, 1975, attended by Staff, including Staff Counsel, and representatives of Tampa. Pursuant to that discussion, on September 17, 1975, Tampa submitted additional information in support of the proposed energy charge.

On September 23, 1975, Tampa filed a motion to terminate proceedings in the above-referenced dockets. In support of its motion Tampa states that following the conference of June 19, 1975, supplemental information was submitted to the Commission Staff which, Tampa believes, satisfies the Staff that no issues remain to be resolved. Notice of this motion was issued on October 2, 1975, with comments, protests, or petitions to intervene due on or before October 15, 1975. No responses were received, and Staff has filed no objection to Tampa's motion and supporting statements.

Our review of Tampa's motion indicates that sufficient justification has been shown to support the energy charge, and the adder included therein, of Tampa's proposed amendment with Lakeland, and that it would be in the public interest to accept the subject amendment and to terminate this proceeding.

The Commission finds. Good cause exists to accept the proposed amendment to Tampa's interconnection agreement with Lakeland, and to terminate the proceedings relating thereto.

The Commission orders. (A) Tampa's proposed amendment to its interconnection agreement with Lakeland is hereby accepted.

(B) Tampa's motion filed September 23, 1975, is hereby granted.

(C) The proceedings instituted by order issued April 30, 1975, in Docket Nos. E-9007 and E-9054 are hereby terminated.

(D) The Secretary shall cause prompt publication of this order in the Federal Register.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. RP75-56]

TEXAS GAS PIPE LINE CORP.

Further Extension of Procedural Dates

DECEMBER 10, 1975.

On December 9, 1975, Staff Counsel filed a motion to extend the procedural dates fixed by order issued March 7, 1975, as most recently modified by notice issued November 17, 1975, in the above-designated proceeding.

Upon consideration, notice is hereby given that the procedural dates in the above proceeding are modified as follows:

Service of Company Rebuttal, February 16, 1976.
Hearing, March 8, 1976 (10 a.m., e.s.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34056 Filed 12-17-75;8:45 am]

[Docket No. CP76-162]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Notice of Application

DECEMBER 10, 1975.

Take notice that on November 17, 1975, Transcontinental Gas Pipe Line Corporation (Applicant), Box 1396, Houston, Texas 77001, filed in Docket No. CP76-162 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to transport natural gas for Delmarva Power & Light Company (Delmarva), an existing distribution customer of Applicant, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant seeks authorization to transport, on an interruptible basis, for Delmarva during the period December 1, 1975, through April 30, 1976, by displacement, the gasified equivalent of approximately 300,000 Mcf of gas in liquid form (LNG) which, Applicant states, Delmarva has stored in the tank of Algonquin LNG, Inc. (Algonquin LNG), at Providence, Rhode Island.

The application indicates that Algonquin LNG will gasify Delmarva's LNG and deliver the same by displacement to its affiliate, Algonquin Gas Transmission Company (Algonquin Gas), which will transport and deliver equivalent quantities of gas by displacement to its supplier, Texas Eastern Transmission Corporation (Texas Eastern). Further, it is indicated that Texas Eastern will in turn transport and deliver equivalent quantities of gas by displacement to Applicant. Applicant states that all such deliveries will be on a thermal equivalent basis. Applicant in turn, it is stated, will then transport and deliver by displacement to its CD-3 customer, Delmarva, volumes of gas equivalent on an Mcf basis to those received from Texas Eastern.

Applicant, Algonquin Gas, Texas Eastern, and Delmarva have entered into an agreement, dated September 26, 1975, providing for the proposed arrangement. The application indicates that Algonquin Gas will effectuate deliveries to Texas Eastern by reducing its purchases from Texas Eastern; Texas Eastern will make deliveries to Applicant at mutually agreeable existing exchange points with Applicant in the New Jersey-Pennsylvania area; and Applicant will make deliveries to Delmarva at existing points of delivery to that customer. It is stated that no additional facilities are required to carry out the proposed arrangements. Further, Applicant states, none of the parties, including Applicant, are obligated to transport, on a best efforts basis, more than 10 billion Btu of gas per day to Delmarva.

It is alleged that Delmarva is experiencing substantial curtailment in deliveries of contract demand volumes from Applicant due to the shortage of flowing gas supplies on Applicant's system. Further, it is alleged that the additional gas to be made available by means of the instant proposal will help offset these curtailments under Applicant's Rate Schedule CD-3.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 22, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-34029 Filed 12-17-75;8:45 am]

[Docket No. E-8867]

WISCONSIN PUBLIC SERVICE CORP.

Order Granting in Part and Denying in Part Application for Rehearing and Amending Prior Order

DECEMBER 9, 1975.

On November 10, 1975, Wisconsin Public Service Corporation (WPSC) filed an application for rehearing of the Commission's Order Approving Settlement Agreement With Conditions, issued October 21, 1975, in the above-captioned docket.

We required that the following language be incorporated into the existing service contracts between WPSC and its Customers as a condition to our approval of the settlement:

"WPSC and each of the Customers hereby agree that, notwithstanding any provision to the contrary in the Service Contract between WPSC and the Customer, the Customer may purchase less than its full requirements and shall have the right to interconnect in a manner where it could take any of its requirements from another supplier or deliver to other buyers. In the event that the Customer purchases less than its full requirements or so interconnects, the Customer will provide WPSC with at least two years' prior written notice and the Company and the Customer shall enter into an amended contract with amended rates as may be appropriate under the circumstances. In the event

V40244 DEC 18 75 XUM

that an amended contract and/or amended rates are executed by the parties, WPSC will submit to the Federal Power Commission the proposed amendments."

WPSC requests that the following language be added to that condition:

"If the parties are unable to reach mutual agreement, WPSC will file with the Federal Power Commission an appropriate schedule of rates and terms for such proposed new service and such schedule shall become effective therefor in accordance with the provisions of Section 205 of the Federal Power Act."

In our suspension order in this proceeding, issued August 23, 1974, we reserved the Customers' rights to raise the *Mobile-Sierra*[1] doctrine as to their existing service agreements and rate schedules. We believe that the Customers' contractual rights should not be compromised by this Commission's imposition of a settlement condition. Accordingly, we shall preserve the Customers' existing contractual rights and disallow that portion of WPSC's proposed language which would recognize any new filing as one contractually authorized and thus permitted under Section 205 of the Federal Power Act. If after the Customer has interconnected with WPSC, and WPSC and the Customer have failed to agree on an amended contract with amended rates as may be appropriate under the circumstances, then WPSC may file an appropriate schedule of rates and terms for such proposed service. At that time, we can decide any issue which may be raised with respect to *Mobile-Sierra*.

Accordingly, we will amend our prior order to add the following language as a condition thereof:

"If the parties are unable to reach mutual agreement, WPSC will file with the Federal Power Commission an appropriate schedule of rates and terms for such proposed new service."

WPSC further requests in its application for rehearing that the Commission modify the timetable in ordering paragraphs (C) and (D) at mimeo p. 9 of the October 21, 1975, order to permit WPSC 30 days from the issuance of this order to file the amended rate schedules and amendments to service agreements. We will grant this request.

On November 10, 1975, WPSC separately filed a motion for stay of our Order Approving Settlement Agreement With Conditions issued October 21, 1975, pending final disposition of WPSC's application for rehearing. We have granted stay of our October 21, 1975, order pending action on WPSC's application for rehearing by separate order issued herein on November 21, 1975.

The Commission finds: Good cause exists to grant in part and deny in part rehearing and amend our October 21, 1975, Order Approving Settlement Agreement With Conditions in Docket No. E-8867 as ordered *infra*.

[1] *United Gas Pipe Line Co.* v. *Mobile Gas Service Corp.*, 350 U.S. 332 (1956); *F.P.C.* v. *Sierra Pacific Power Co.*, 350 U.S. 348 (1956).

The Commission orders: (A) Except as hereinafter ordered, WPSC's application for rehearing is hereby denied.

(B) The contract language specified at mimeo p. 6 of our October 21, 1975, order is hereby revised to provide as follows:

"WPSC and each of the Customers hereby agree that, notwithstanding any provision to the contrary in the Service Contract between WPSC and the Customer, the Customer may purchase less than its full requirements and shall have the right to interconnect in a manner where it could take any of its requirements from another supplier or deliver to other buyers. In the event that the Customer purchases less than its full requirements or so interconnects, the Customer will provide WPSC with at least two years' prior written notice and the Company and the Customer shall enter into an amended contract with amended rates as may be appropriate under the circumstances. In the event that an amended contract and/or amended rates are executed by the parties, WPSC will submit to the Federal Power Commission the proposed amendments. If the parties are unable to reach mutual greement, WPSC will file with the Federal Power Commission an appropriate schedule of rates and terms for such proposed new service."

(C) Our October 21, 1975, order is hereby modified with respect to ordering paragraphs (C) and (D) at mimeo p. 9 to allow 30 days from the issuance of this order for WPSC to file the amended rate schedules and the amendments to service contracts with the revised substiturte contract language specified in this order.

(D) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc. 75-34046 Filed 12-17-75;8:45 am]

FEDERAL TRADE COMMISSION

HARMSCO, INC.

Request for Comments

Invitation to Comment on Application of Harmsco, Inc. for Waiver Pursuant to Section 102(c) of Magnuson-Moss Warranty Act, 15 U.S.C. 2302(c).

Section 102(c) of the Magnuson-Moss Warranty Act, 15 U.S.C. 2302(c), provides that no warrantor of a consumer product may condition performance under a written warranty on the consumer using any article or service which is identified by brand, trade or corporate name. (This prohibition does not apply to articles or services which are provided without charge under the terms of the warranty).

Under a further provision of Section 102(c) of the Act, the Commission may waive the prohibition upon application by a warrantor. The Act further requires the Commission to notify the public of an application for waiver and to invite public comment on it.

Harmsco, Inc., a manufacturer of swimming pool filters and filter cartridges seeks a waiver of § 102(c). The proposed written warranty of Harmsco contains the following provision:

"This guarantee is void if filter cartridges produced by any manufacturer other than Harmsco, Inc. are used in this filter."

The Magnuson-Moss Act provides that the Commission may waive the prohibition of § 102(c) "if—

(1) The warrantor satisfies the Commission that the warranted product will function properly only if the article or service so identified is used in connection with the warranted product, and

(2) The Commission finds that such a waiver is in the public interest."

The Commission invites interested persons to direct their comments to the question of whether the statutory standards have been met by Harmsco.

Harmsco's application and the documents submitted in support of the application are available for public inspection and copying at the Office of Legal & Public Records, Room 130, Federal Trade Commission, Washington, D.C. All comments filed by interested persons will be considered by the Commission before making a decision on the application.

All interested persons are given notice of the opportunity to present written views and arguments with respect to the application. The public record will remain open for comment until February 17, 1976. All comments should be identified as "Comment on Harmsco Application," and should be delivered no later than that date to: Secretary, Federal Trade Commission, Room 172, 6th Street and Pennsylvania Avenue, NW., Washington, D.C. 20580.

Issued: December 18, 1975.

By direction of the Commission.

CHARLES A. TOBIN, *Secretary.*

[FR Doc.75-34082 Filed 12-17-75;8:45 am]

INTERNATIONAL TRADE COMMISSION

[337-TA-12]

CERTAIN COMPONENTS OF AUTOMATIC TOBACCO LEAF GRADERS

Notice and Order Terminating the Investigation

Based upon the receipt of a complaint filed by AMF, Inc., the United States International Trade Commission (formerly the United States Tariff Commission) initiated a preliminary inquiry (docket number 337-L-76) under section 337 of the Tariff Act of 1930, as amended (88 Stat. 2053), as to whether there exists unfair methods of competition or unfair acts in the importation or sale of tobacco leaf graders covered by United States Letters Patent 3,750,882. Notice of initiation of this preliminary inquiry was published in the FEDERAL REGISTER on September 25, 1974 (39 FR 34483). In the FEDERAL REGISTER of June 4, 1975 (40 FR 24056), notice was given that the preliminary inquiry was to be conducted as an investigation (docket number 337-TA-12).

Subsequent to initiation of the preliminary inquiry, a settlement agreement and consent judgment (C.A. No. 74-0506 R, E.D. Va., April 28, 1975) were entered into between AMF, Inc. (the complainant), Technical Development Corporation (the foreign manufacturer of the subject components), Universal Leaf Tobacco Company (the domestic purchaser of the subject components), and MacTavish Machine Manufacturing Company which agreement and consent judgment cover the patent in issue. On April 30, 1975, AMF, Inc., filed with the Commission a request to terminate the above-captioned investigation along with accompanying consents of Universal Leaf Tobacco Company, Technical Development Corporation and MacTavish Machine Manufacturing Company, dated April 21, April 18, and April 23, 1975, respectively.

The United States International Trade Commission determines as a result of the request and accompanying consents to terminate, the June 4, 1975, submission of Technical Development Company and MacTavish Machine Manufacturing Company, all evidence available to the Commission and the submission of the Commission investigative attorney, that there is no violation of section 337, Tariff Act of 1930, as amended. No finding has been made by the Commission whether there were any violations of section 337 prior to the execution of the settlement agreement and consent judgment. Therefore, the Commission hereby gives notice of and orders the termination of the above-captioned investigation.

This notice and termination shall become effective December 29, 1975, unless objection and request for reconsideration of this action is filed by any interested person within the aforesaid 10-day period. Any objection and request for reconsideration shall be accompanied by a statement setting forth the facts relied upon in support of such objection and request and shall be served on the other parties to this investigation. Notice of receipt of objection and request for reconsideration will be published in the FEDERAL REGISTER.

By order of the Commission.

Issued: December 12, 1975.

[SEAL] KENNETH R. MASON, *Secretary.*

[FR Doc.75-34158 Filed 12-17-75;8:45 am]

[337-TA-8]

PIEZOELECTRIC CERAMIC 10.7 MHz ELECTRIC WAVE FILTERS

Notice and Order Terminating the Investigation

Based upon the receipt of a complaint filed by the Vernitron Corporation, the United States International Trade Commission (formerly the United States Tariff Commission) initiated a preliminary inquiry under section 337 of the Tariff Act of 1930, as amended (88 Stat. 2053) (docket number 337-L-68), as to whether there exists unfair methods of competition or unfair acts in the importation or sale of the electric wave filters covered by United States Letters Patents 3,659,123 and 3,676,724. Notice of initiation of this preliminary inquiry was published in the FEDERAL REGISTER on November 30, 1973 (38 FR 33127). In the FEDERAL REGISTER of June 4, 1975 (40 FR 24056), notice was given that the preliminary inquiry was to be conducted as an investigation (docket number 337-TA-8).

Subsequent to initiation of the preliminary inquiry, sublicensing agreements were entered into between Murata Manufacturing Company (an exclusive licensee of Vernitron Corp.) and Taiyo-Yuden Company, Ltd., and Toko, Inc. (the foreign manufacturers of the subject electric filters) which cover the patents in issue. Vernitron Corporation filed a request with the Commission, on April 1, 1975, to terminate the above-captioned investigation. On March 26, 1975, and April 16, 1975, respectfully, Toko, Inc., with Toko America, Inc., and Taiyo-Yuden Company, Ltd., also filed requests to terminate the investigation.

The United States International Trade Commission determines as a result of these requests to terminate, the evidence in the record and the submission of the Commission investigative attorney, that there is no violation of section 337, Tariff Act of 1930, as amended. No finding has been made by the Commission whether there were any violations of section 337 prior to the execution of the sublicensing agreements. Therefore, the Commission hereby gives notice of and orders the termination of the above-captioned investigation.

This notice and termination shall become effective December 29, 1975, unless objection and request for reconsideration of this action is filed by any interested person within the aforesaid 10-day period. Any objection and request for reconsideration shall be accompanied by a statement setting forth the facts relied upon in support of such objection and request and shall be served on the other parties to this investigation. Notice of receipt of objection and request for reconsideration will be published in the FEDERAL REGISTER.

By Order of the Commission.

Issued: December 12, 1975.

[SEAL] KENNETH R. MASON, *Secretary.*

[FR Doc.75-34157 Filed 12-17-75;8:45 am]

NATIONAL COMMUNICATIONS SYSTEM

TELECOMMUNICATIONS: CODING AND MODULATION REQUIREMENTS FOR NONDIVERSITY 2400 BIT/SECOND MODEMS

Proposed Federal Standard 1005

The Administrator of the General Services Administration (GSA) is responsible, under the provisions of the Federal Property and Administrative Services Act of 1949, as amended, for the Federal Standardization Program. On 14 August 1972, the National Communications System (NCS)[1] was designated by the Administrator, GSA, as the responsible agent for the development of Federal standards for NCS interoperability and the computer-communication interface. The Federal Telecommunication Standards Committee (FTSC) was established under the administration of NCS to accomplish this mission. This proposed Federal standard is one of a series of Federal standards on telecommunications presently under development.

Prior to submission of the final endosement of the proposed Federal standard to the Office of Telecommunications Policy (OTP), Executive Office of the President, and GSA, it is essential that proper consideration be given to the needs and views of industry, the public, and state and local governments. The purpose of this Notice is to solicit such views.

Interested parties may submit their comments to the Office of Technology and Standards, National Communications System, Washington, D.C. 20305. All comments should be submitted by 20 February 1976.

JAMES M. ROCKWELL, *Major General, USA, Vice Manager, National Communications System.*

MAURICE W. ROCHE, *Director, Correspondence and Directives, OASD (Comptroller).*

DECEMBER 15, 1975.

NCS PROJECT 75-53/1 PROPOSED FED STD 1005
NOVEMBER 25, 1975

PROPOSED FEDERAL STANDARD

Telecommunications: Coding and Modulation Requirements for Nondiversity 2400 Bit Second Modems

This draft of November 25, 1975, prepared by the National Communications System, has not been approved and is subject to modification.

DO NOT USE PRIOR TO APPROVAL

1. General Information

1.1 Scope. This standard establishes the coding and modulation requirements for 2400 bit/second modems owned or leased by the Federal Government for use over analog tranamission channels other than those derived from high-frequency radio facilities.

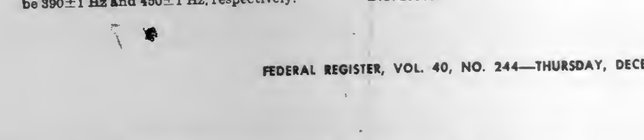
1.2 Purpose. The purpose of this standard is to facilitate interoperability between telecommunication facilities and systems of the Federal Government.

1.3 Application. This standard shall be used by all Federal agencies in the design and procurement of nondiversity 2400 bit/second modems for use with nominal 4 KHz channels derived from either switched networks or dedicated lines. Typically, such channels are derived from frequency division multiplex equipment associated with microwave, cable, and satellite transmission systems. The requirements of this standard become effective 1 July 1976.

[1] DoD Directive 5100.41 "Arrangements for Discharge of Executive Agent Responsibilities for the NCS"—filed as part of original document.

V 40244 DEC 18 75 XUM

2. Requirements



2.1 .2400 Bit/second Operation

2.1.1 The transmit carrier frequency shall be 1800 ±1 Hz.

2.1.2 The data stream to be modulated is divided into pairs of consecutive bits (dibits). Each dibit is encoded as a phase change of the 1800 Hz carrier relative to the phase of the carrier during transmission of the immediately preceding dibit as indicated below.

DIBIT	PHASE CHANGE
00	+ 45°
01	+ 135°
11	+225°
10	+ 315°

The phase change is the actual phase shift in the transition region from the end of one following signaling element as illustrated signaling element to the beginning of the below.

At the demodulator, the dibits are decoded and the bits are reassembled in the correct order. The left-hand digit of the dibit is the one occurring first in the data stream as it enters the modulator portion of the modem.

2.1.3 Synchronization

2.1.3.1 During the interval between Request to Send (RS) indication from an associated Data Terminal Equipment (DTE) and the modem responding with a Clear to Send (CS) indication, synchronization signals will be generated by the transmitting modem to properly condition the receiving modem(s). Unless a scrambler is utilized, continuous 225° phase changes (dibit 11) shall be transmitted for the duration of the synchronization period.

2.1.3.2 Modems capable of 2-wire, half-duplex operation shall have the ability to delay Clear to Send (CS) indication for a period of at least 140 ms following the receipt of Request to Send (RS) indication. During 2-wire, half-duplex operation using the above delay, modems shall also withhold Receiver Ready (RR) indication after the end of each modem transmission for a period of 110±20 ms to protect against the effect of line echoes.

2.1.4 The data signaling rate shall be 2400 bit/second±0.01 percent.

2.2 1200 Bit/second Operation (Optional).

2.2.1 1200 bit/second data rate operation will be achieved, when available, by treating each binary 1 bit as a "11" dibit and each binary 0 bit as a "00" dibit while utilizing the 2400 bit/second method of operation. This capability, when available, shall be switch selectable by a front panel control.

2.2.2 The data signaling rate shall be 1200 bit/second±0.01 percent.

2.2.3 All other characteristics shall be as specified for 2400 bit/second operation.

2.3 Secondary Channel (Optional).

2.3.1 Secondary channel modulation rate shall not exceed 150 baud.

2.3.2 Characteristic frequencies of the binary 1 (mark) and binary 0 (space) shall be 390±1 Hz and 450±1 Hz, respectively.

2.3.3 When simultaneous transmission of the primary channel and secondary channel occur in the same direction, the secondary channel shall be 6±0.6dB lower in power level than the primary channel.

2.4 Scrambler (Optional)

2.4.1 When utilized, digital input signals will be encoded in the modem prior to modulation of the 1800 Hz carrier. Similarly, demodulated signals will be decoded by an inverse process at the distant modem.

2.4.2 The encoder and decoder shall be capable of being bypassed by switch selection.

2.5 General Characteristics

2.5.1 The input and output impedance of the modem to the analog line shall be 600±60 ohms balanced.

2.5.2 The output level of the modulator shall be adjustable from −15 dBm to 0 dBm in no greater than 1 dB steps. Output level shall not be adjustable by operating personnel.

2.5.3 The demodulator shall have an input sensitivity adjustable to −42±3dBm and −32±3dBm. When the above-stated input sensitivities are used, the input level dynamic range shall be at least 30 dB above the input sensitivity.

2.5.4 A fixed compromise equalizer shall either be incorporated into the receiver or be switchable between the receiver and transmitter. The characteristics of this equalizer are dependent upon system application.

3. Changes. When a Federal agency considers that this standard does not provide for its essential needs, a statement citing inadequacies shall be sent in duplicate to the General Services Administration, Federal Supply Service, Washington, D.C. 20406, in accordance with provisions of Federal Property Management Regulations 41 CFR 101-29.3. The General Services Administration will determine the appropriate action to be taken and will notify the agency.

Preparing Activity:

National Communications System, Office of Technology and Standards, Washington, D.C. 20305.

This document is available from the General Services Administration (GSA), acting as agent for the Superintendent of Documents. A copy for bidding and contracting purposes is available from GSA Business Services Centers. Washington, D.C. 20407 for __ cents each

NATIONAL TRANSPORTATION SAFETY BOARD

[N-AR 75-37]

ACCIDENT REPORT; RESPONSES TO RECOMMENDATIONS

Notice of Availability and Receipt

Aviation Accident Report. The National Transportation Safety Board announces the release of its report on a Western Airlines accident at Casper, Wyoming, which occurred March 31, 1975. The report, No. NTSB-AAR-75-15, was made public December 10. The Board determines that the probable cause was the failure of the pilot-in-command to exercise good judgment when he failed to execute a missed approach and continued a nonprecision approach to a landing without adequately assessing the aircraft's position relative to the runway threshold. Contributing to the accident were the excessive height and speed at which he crossed the approach end of the runway and the failure of other flight crewmembers to provide him with required callouts. As a result of the investigation of this accident, the Board issued on November 23 safety recommendation A-75-84 to the Federal Aviation Administration (40 FR 55394). The recommendation is reproduced in the report.

Responses to Safety Recommendations. During the past week, the Safety Board received the following replies from addressees of earlier recommendations:

From the U.S. Coast Guard, letter of November 23 re recommendations M-75-6 through 8. These recommendations were contained in marine casualty report No. USCG/NTSB-MAR-75-2, released March 12, 1975, concerning entanglement of the submersible JOHNSON SEA LINK with submerged wreckage off Key West, Florida, June 17, 1973. With reference to M-75-6, the Coast Guard has joined the Office of the Oceanographer of the Navy in funding a survey of worldwide submersible search and rescue capabilities, the survey to receive wide distribution. Re M-75-7, the Coast Guard concurs that an underwater television unit and descending line attachment would be beneficial to submersible search and rescue operations, and is seriously considering acquiring such a device. The Coast Guard will continue to monitor the level of activity of civilian submersibles to determine whether acquisition is justifiable. Re M-75-8, a research and development program to develop the capability for civilian submersible rescue operations is under review, according to the Coast Guard. Should this program be initiated, appropriate coordination with the Navy will be affected.

From the Federal Railroad Administration, letter of December 5 re recommendations R-75-36 through 38, issued in Board report NTSB-RAR-75-8 concerning the collision of two Penn Central commuter trains at Botanical Garden Station in New York City, January 2, 1975. (See 40 FR 34202 and 40 FR 39563.) Re recommendation R-75-36, FRA published an advance notice of proposed rulemaking May 2, 1975, at 40 FR 19209, and is now reviewing comments. A copy of the proposed rule is attached to FRA's letter. Re R-75-37, FRA indicates that the question of minimum physical standards and periodic physical examinations of all crewmembers is presently under discussion by the Railroad Operating Rules Advisory Committee. Concerning R-75-38, FRA is presently conducting research to determine standards for rail passenger vehicle crashworthiness as well as crash injury protection for passengers, the research to serve as a basis for the consideration of future regulations.

From the Federal Railroad Administration, letter of December 8 regarding recommendation R-75-17 and operation of the E-60-CP locomotives built by General Electric Company for Amtrak on the Northeast Corridor operation. (See 40 FR 56984.) FRA states that it does "not take exception to Amtrak's indicated plan to place the E-60 locomotives in revenue service at maximum speed of 85 m.p.h. with the overspeed set at 87 m.p.h. on Class 6 track. We also agreed with Amtrak's recommendation that speeds would possibly be increased to 95 m.p.h. as confidence is gained in the wear characteristics of the teflon plate modification." FRA will continue to monitor the operation and further testing performed by Amtrak in conjunction with the E-60 locomotive.

From the Materials Transportation Bureau, letter of December 1, 1975, re recommendations P-75-14 and 15 which the Safety Board issued after investigating the October 13, 1975, blast at the El Paso Gas Company facility in Goldsmith, Texas. Recommendation P-75-15; issued November 14, was reported at 40 FR 54030. Recommendation P-75-14, issued the same day to the Interstate Natural Gas Association of America and to the American Petroleum Institute, recommended that these two organizations advise their member companies who operate similar gas processing plants to locate any areas of potential liquid accumulation and internal corrosion within their facilities and to take necessary remedial action to prevent similar accidents from occurring. MTB concurs with these recommendations, stating, "These recommendations support our efforts to encourage operators to take the actions necessary to prevent the occurrence of similar accidents."

The aviation accident report is available to the general public; single copies may be obtained without charge. A $4.00 user-service charge will be made for each recommendation response, in addition to a charge of 10¢ per page for reproduction. All requests must be in writing, identified by report and/or recommendation number and date of this FEDERAL REGISTER notice. Address inquiries to: Publications Unit, National Transportation Safety Board, Washington, D.C. 20594.

Multiple copies of the accident report may be purchased from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151.

(Secs. 304(a)(2) and 307 of the Independent Safety Board Act of 1974 (Pub. L. 93-633, 88 Stat. 2169, 2172 (49 U.S.C. 1903, 1906)))

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-321]

GEORGIA POWER CO. AND OGLETHORPE ELECTRIC MEMBERSHIP CORP.

Notice of Proposed Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of amendment to Facility Operating License No. DPR-57 issued to Georgia Power Company & Oglethorpe Electric Membership Corporation for operation of the Edwin I. Hatch Nuclear Plant Unit 1 located in Appling County, Georgia.

This amendment would revise the Technical Specifications to add requirements that would limit the period of time operation can be continued with immovable control rods that could have control rod mechanism collect housing failures.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By January 19, 1976, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of this amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 and to G. F. Trowbridge, Esquire, Shaw, Pittman, Potts and Trowbridge, Barr Building, 910 17th Street, NW., Washington, D.C. 20006, attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to these actions, see the Commission's letter to Georgia Power Company & Oglethorpe Electric Membership Corporation dated September 23, 1975 and the attached proposed Technical Specifications and the Safety Evaluation by the Commission's staff dated September 23, 1975 and Georgia Power Company's letter dated October 13, 1975, which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Appling County Public Library, Parker Street, Baxley, Georgia 31513. This license amendment and the Safety Evaluation may be inspected at the above locations and a copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 8th day of December 1975.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch No. 3, Division of Reactor Licensing.

SECURITIES AND EXCHANGE COMMISSION

[Rel. No. 9079; (811-1023)]

ATLAS SMALL BUSINESS INVESTMENT CORP.

Filing of Application

DECEMBER 11, 1975.

Notice is hereby given that Atlas Small Business Investment Corporation, 1808

V40244 DEC 18 75 XUM

Main Street, Kansas City, Missouri 64108, ("Applicant" or "Atlas"), a Missouri corporation registered as a nondiversified, closed-end, management investment company under the Investment Company Act of 1940 (the "Act") and licensed to operate as a small business investment company under the Small Business Investment Act of 1958, filed an application on June 11, 1974 and amendments thereto on November 1, 1974 and November 10, 1975, pursuant to Section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Section 3(c)(1) excepts from the definition of an "investment company", as such term is used in the Act, any issuer whose outstanding securities (other than short-term paper) are beneficially owned by not more than one hundred persons and which is not making and does not presently propose to make a public offering of its securities. For the purposes of Section 3(c)(1), beneficial ownership by a company is deemed to be beneficial ownership by one person unless such company owns 10 percent or more of the outstanding voting securities of the issuer. In the latter case the shareholders of the company which owns such outstanding voting securities of the issuer are deemed to be the beneficial owners of the issuer's securities.

Rule 3c-2 of the Commission, promulgated pursuant to Section 3(c), provides, however, in pertinent part, that for the purpose of Section 3(c)(1) of the Act, beneficial ownership by a company owning 10 per cent or more of the outstanding voting securities of any issuer which is a small business investment company licensed to operate under the Small Business Investment Act of 1958 shall be deemed to be beneficial ownership by one person if and so long as the value of all securities of small business investment companies owned by such company does not exceed 5 per cent of the value of its total assets.

Applicant has 15,275 shares of capital stock issued and outstanding which are owned beneficially by 16 persons. Oppenheimer Industries, Inc. ("Oppenheimer") owns beneficially 11,869 shares or 77.7% of the outstanding voting securities of Applicant and has 925 stockholders. Oppenheimer's interest in Applicant is its only interest in a small business investment company.

The Board of Directors of Applicant valued Atlas' common stock at $9.34 per share as of fiscal year end March 31, 1975. Based upon this valuation, Oppenheimer's interest in Atlas on the same date was worth $110,856 or only 4.35% of the value of its total investments ($2,544,050) excluding other assets. The value of Oppenheimer's interest in Atlas' common stock ($110,856) is less than 1% of the value of its total assets, valued as of the end of Oppenheimer's latest fiscal year (January 31, 1975) as being in excess of $15 million. Applicant represents that it is not making and has not presently proposed to make a public offering of its securities.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the effectiveness of the order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than January 5, 1976, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or, in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the matter will be issued as of course following such date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

It is ordered that the Secretary of the Commission shall send a copy of this notice by certified mail to the Associate Administrator for Investment, Investment Division, Small Business Administration, Washington, D.C. 20416.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

CANADIAN JAVELIN, LTD.

Notice of Suspension of Trading

DECEMBER 12, 1975.

The common stock of Canadian Javelin, Ltd. being traded on the American Stock Exchange pursuant to provisions of the Securities Exchange Act of 1934 and all other securities of Canadian Javelin, Ltd. being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchange and otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to Section 12(k) of the Securities Exchange Act of 1934, trading in such securities on the above mentioned exchange and otherwise than on a national securities exchange is suspended, for the period from December 15, 1975 through December 24, 1975.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[File No. 500-1]

EQUITY FUNDING CORPORATION OF AMERICA

Notice of Suspension of Trading

DECEMBER 12, 1975.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, warrants to purchase the stock, 9½% debentures due 1990, 5½% convertible subordinated debentures due 1991, and all other securities of Equity Funding Corporation of America being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to Section 12(k) of the Securities Exchange Act of 1934, trading in such securities otherwise than on a national securities exchange is suspended, for the period from December 13, 1975 through December 22, 1975.

By the Commission.

GAC CORP. AND GAC PROPERTIES CREDIT INC.

Notice of Suspension of Trading

DECEMBER 9, 1975.

The common stock of GAC Corporation being traded on the New York Stock Exchange, Midwest Stock Exchange, Pacific Coast Stock Exchange, PBW Stock Exchange and Boston Stock Exchange, the voting preference $1.00 series stock of GAC Corporation being traded on the PBW Stock Exchange, the convertible preferred $1.06 cumulative stock of GAC Corporation being traded on the New York Stock Exchange and PBW Stock Exchange, the preferred $6.50 series cumulative stock of GAC Corporation being traded on the PBW Stock Exchange, the 5⅞% convertible subordinated debentures due 1994 of GAC Corporation being traded on the New York Stock Exchange; the 11% senior debentures due 1977 of GAC Properties Credit Incorporated being traded on the New York Stock Exchange pursuant to provisions of the Securities Exchange Act of 1934 and all other securities of GAC Corporation and GAC Properties Credit Incorporated being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchanges and otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to Section 12(k) of the Securities Exchange Act of 1934, trading in such securities on the above mentioned exchange and otherwise than on a national securities exchange is suspended, for the period from 4:10 p.m. (EST) on December 9, 1975 through midnight (EST) on December 18, 1975.

By the Commission.

Secretary.

[FR Doc.75-34106 Filed 12-17-75;8:45 am]

[File No. 81-192]

RCA INTERNATIONAL DEVELOPMENT CORP.

Application and Opportunity for Hearing

DECEMBER 9, 1975.

Notice is hereby given that RCA International Development Corporation ("Applicant") has filed an application pursuant to Section 12(h) of the Securities Exchange Act of 1934, as amended (the "1934 Act"), for a finding that an exemption from the requirement to file reports pursuant to Section 13 of the 1934 Act would not be inconsistent with the public interest or the protection of investors.

Section 12(b) of the 1934 Act provides that an issuer may register securities on a national exchange by filing a registration statement with both the exchange and the Securities and Exchange Commission (the "Commisison"), which registration statement contains information as to the issuer and any person directly or indirectly controlling or controlled by the issuer as the Commisison may require for the protection of investors or in the public interest.

Section 13 of the 1934 Act requires that issuers of securities registered pursuant to Section 12 must file certain periodic reports with the Commission for the protection of investors and to insure fair dealing in the security.

Section 12(h) of the 1934 Act empowers the Commission to exempt, in whole, or in part, any issuer or class of issuers from the registration or periodic reporting provisions under Sections 12 and 13, if the Commission finds, by reason of the number of public investors, amount of trading interest in the securities, the nature and extent of the activities of the issuer, income or assets of the issuer or otherwise, that such exemption is not inconsistent with the public interest or the protection of investors.

The Applicant states in part:

1. Applicant, a Delaware corporation, is a wholly-owned subsidiary of RCA Corporation ("RCA"), a diversified company with numerous subsidiaries. Applicant operates as an overseas financing vehicle for RCA and its subsidiaries.

2. In 1968, Applicant issued $50 million principal amount of 5% Guaranteed Sinking Fund Debentures due 1988 (the "Debentures") to foreign investors.

3. The Debentures are convertible into shares of RCA common stock and are unconditionally guaranteed as to payment of principal, interest, premium, if any, and all required sinking fund payments.

4. The Debentures were offered abroad to foreign nationals in accordance with procedures designed to prevent the sale of the Debentures in the United States or its territories or to nationals or residents thereof.

5. The Debentures are listed on the New York Stock Exchange and are registered pursuant to Section 12(b) of the 1934 Act.

6. Since Applicant's Debentures were listed on the New York Stock Exchange in 1968, there has hardly been any trading in the Debentures.

In the absence of an exemption, Applicant is required to file certain periodic reports with the Commission pursuant to Section 13 of the 1934 Act because the Debentures are registered with the Commission and listed on the New York Stock Exchange.

Accordingly, Applicant believes that the exemption order requested by it is appropriate in view of the fact that a trading market in its Debentures is unlikely to become significant and that since the Debentures are guaranteed by and convertible into common stock of RCA, it is the 1934 Act Reports of RCA and not those of Applicant in which Debentureholders and investors would be primarily interested.

For a more detailed statement of the information presented, all persons are referred to said application which is on file in the offices of the Commission at 500 North Capitol Street, Washington, D.C.

Notice is further given that any interested person not later than January 2, 1975, may submit to the Commission in writing his views or any substantial facts bearing on this application or the desirability of a hearing thereon. Any such communication or request should be addressed to: Secretary, Securities and Exchange Commission, 500 North Capitol Street, NW., Washington, D.C. 20549 and should state briefly the nature of the interest of the person submitting such information or requesting the hearing, the reason for such request, and the issues of fact and law raised by the application which he desires to controvert. At any time after said date, an order granting the application in whole or in part may be issued upon request or upon the Commission's own motion.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

SEC REPORT COORDINATING GROUP (ADVISORY)

Public Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, Public Law 92-463, 86 Stat. 770, the Securities and Exchange Commission announces a public advisory committee meeting.

The Commission's Report Coordinating Group (Advisory), will hold a meeting on January 12, 1976 at 1735 K St. NW., Third Floor Conference Room, Washington, D.C. The meeting will commence at 10:00 a.m. local time and will be for the purpose of discussing the FOCUS Report of financial and operational information and the development of simplified trading forms, registration forms and assessment procedures.

The Group's meetings are open to the public. Any interested person may attend and appear before or file statements with the advisory committee. Said statements, if in written form, may be filed before or after the meeting. Oral statements shall be made at the time and in the manner permitted to the Report Coordinating Group.

The Report Coordinating Group was formed to assist the Commission in developing a coherent, industry-wide, coordinated reporting system. In carrying out this objective, the Report Coordinating Group is to review all reports, forms and similar materials required of broker-dealers by the Commission, the self-regulatory community and others. The Group is advising the Commission on such matters as eliminating unnecessary duplication in reporting, reducing reporting requirements where feasible, and implementing the FOCUS Report of financial and operational information. (Securities Exchange Act Release No. 10612; Securities Exchange Act Release No. 10959; Securities Exchange Act Release No. 11140; Securities Exchange Act Release No. 11149; Securities Exchange Act Release No. 11748).

Information concerning the meeting, including the procedures for submitting statements to the Group, may be obtained by contacting: Mr. Daniel J. Piliero II, Secretary, SEC Report Co-

TRANSJERSEY BANCORP

Notice of Suspension of Trading

DECEMBER 12, 1975.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock of Transjersey Bancorp being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to Section 12(k) of the Securities Exchange Act of 1934, trading in such securities otherwise than on a national securities exchange is suspended, for the period from December 14, 1975 through December 23, 1975.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

DEPARTMENT OF LABOR

Bureau of Labor Statistics

BUSINESS RESEARCH ADVISORY COUNCIL'S COMMITTEE ON OCCUPATIONAL SAFETY AND HEALTH STATISTICS

Meeting

The BRAC Committee on Occupational Safety and Health Statistics will meet at 10:00 a.m., January 15, 1976, at the New Department of Labor Building, 200 Constitution Avenue NW., Washington, D.C., Room N4437 A, B, and C. The agenda for the meeting is as follows:

1. Report on Bureau responsibilities for occupational safety and health statistics after 4 years
2. Annual survey (a) Report on the results of the 1974 Survey of Occupational Injuries and Illnesses
   (b) Status of the 1975 Survey of Occupational Injuries and Illnesses
3. Recordability guidelines
4. Research activities (a) Insurance company of North America project results
   (b) Proposed projects
   (c) Supplementary Data Systems
5. State statistical program (a) Status of State statistical grants and State plans

This meeting is open to the public. It is suggested that persons planning to attend this meeting as observers contact Kenneth G. Van Auken, Executive Secretary, Business Research Advisory Council on (Area Code 202) 523-1559.

Signed at Washington, D.C. this 11th day of December 1975.

JULIUS SHISKIN,
Commissioner of Labor Statistics.

Occupational Safety and Health Administration

OREGON STATE STANDARDS

Notice of Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter called the Act) by which the Assistant Regional Directors for Occupational Safety and Health (hereinafter called the Assistant Regional Director) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18 (c) of the Act and 29 CFR Part 1902. On December 28, 1972, notice was published in the FEDERAL REGISTER (37 FR 28628) of the approval of the Oregon plan and the adoption of Subpart D to Part 1952 containing the decision. The notice of Approval of Revised Developmental Schedule was further published on April 1, 1974, in the FEDERAL REGISTER (39 FR 11881).

The Oregon plan provides for the adoption of Federal standards as State standards after comments and/or public hearing. Section 1952.108 of Subpart D sets forth the State's schedule for the adoption of Federal standards. By letter dated December 31, 1974, from Keith Wilson, Chairman, Workmen's Compensation Board, to James W. Lake, Assistant Regional Director, and incorporated as part of the plan, the State submitted State standards comparable to 29 CFR Part 1910 Subpart B, 29 CFR Parts 1915, 1916, and 1917. These standards, which are contained in Oregon Safety Code for Places of Employment, were promulgated after public comment requested on November 1, 1974, and resolution adopted by Workmen's Compensation Board on November 20, 1974, pursuant to the Department of State's Administrative Rules Bulletin, Vol. 14, No. 9, dated November 1, 1974.

2. *Decision.* Having reviewed the State submission in comparison with the Federal standards, it has been determined that the State standards are identical to the Federal standards and they are hereby approved.

3. *Location of supplement for inspection and copying.* A copy of the standards supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Assistant Regional Director, Occupational Safety and Health Administration, Room 6048, 909 First Avenue, Federal Office Building, Seattle, Washington 98174; Workmen's Compensation Board, Labor and Industries Building, Room 204, Salem, Oregon 97310; and the Technical Data Center, Room N-3620, 200 Constitution Avenue NW., Washington, D.C. 20210.

4. *Public participation.* Under § 1953.2 (c) of this chapter, the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplement to the Oregon State plan as a proposed change and making the Assistant Regional Director's approval effective upon publication for the following reasons:

1. The standards are identical to the Federal standards and are therefore deemed to be at least as effective.

2. The standards were adopted in accordance with the procedural requirements of State law and further participation would be unnecessary.

This decision is effective December 18, 1975.

(Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667)).

Signed at Seattle, Washington, this 21st day of February 1975.

JAMES W. LAKE,
Assistant Regional Director.

Office of the Secretary

[TA-W-363]

MODA CONTRACTING CORP.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On November 28, 1975, the Department of Labor received a petition filed under Section 221(a) of the Trade Act of 1974 ("the Act") by the Amalgamated Clothing Workers of America on behalf of the workers and former workers of Moda Contracting Corporation, Division of Petrocelli, Inc., New York, New York (TA-W-363). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's suits, sportcoats, and trousers produced by Moda Contracting Corporation or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Acting Director, Office of Trade Adjustment Assistance, at the address shown below; not later than December 29, 1975.

The petition filed in this case is available for inspection at the Office of the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd St. and Constitution Ave. NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 28th day of November 1975.

MARVIN M. FOOKS,
Acting Director, Office of Trade Adjustment Assistance.

INTERSTATE COMMERCE COMMISSION

[Notice No. 100]

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

DECEMBER 12, 1975.

The following applications are governed by Special Rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) (as amended, 49 FR 37215) published in the FEDERAL REGISTER issue of August 26, 1975, effective September 15, 1975, further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. *Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the* FEDERAL REGISTER *of a notice that the proceeding has been assigned for oral hearing.*

Evidence respecting how equipment is expected to be returned to an origin point, as well as other data relating to operational feasibility (including the need for dead-head operations), must be presented as part of an applicant's initial evidentiary presentation (either at oral hearing or in its opening verified statement under the modified procedure) with respect to all applications filed on or after December 1, 1973.

If an applicant states in its initial evidentiary presentation that empty or partially empty vehicle movements will result upon a grant of its application, applicant will be expected (1) to specify the extent of such empty operations, by mileages and the number of vehicles, that would be incurred, and (2) to designate where such empty vehicle operations will be conducted.

Each applicant (except as otherwise specifically noted) states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 531 (Sub-No. 325), filed November 17, 1975. Applicant: YOUNGER BROTHERS, INC., P.O. Box 14048, 4904 Griggs Rd., Houston, Tex. 77021. Applicant's representative: Wray E. Hughes (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, (1) from the plantsite and facilities of Witco Chemical located at or near Houston, Tex., to points in the United States (except Alaska and Hawaii); (2) from the plantsite of Argus Chemical Corp. located at or near Taft, La., to points in the United States (except Alaska and Hawaii); and (3) from the plantsite of Halby Chemical Corp. (Division of Argus Chemical Corp.) located at or near Taft, La., to points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either New Orleans, La. or Houston, Tex.

No. MC 11207 (Sub-No. 361), filed November 20, 1975. Applicant: DEATON, INC., 317 Avenue W, P.O. Box 938, Birmingham, Ala. 35201. Applicant's representative: Kim D. Mann, 702 World Center Building, 918 Sixteenth St., N.W., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Roofing and building materials*, from the plantsite and facilities of Bird and Son, Inc., Charleston, S.C., to points in Alabama and Florida (points west of the Apalachicola River).

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Charleston, S.C. or Birmingham, Ala.

No. MC 11220 (Sub-No. 145), filed November 3, 1975. Applicant: GORDONS TRANSPORTS, INC., 185 W. McLemore Avenue, P.O. Box 59, Memphis, Tenn. 38101. Applicant's representative: Jay C. Miner (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), Between Dallas, Tex. and Kansas City, Mo.: From Dallas, Tex. over U.S. Highway 75 to junction U.S. Highway 69, thence over U.S. Highways 69 and 75 to Atoka, Okla., thence over U.S. Highway 69 to junction Interstate Highway 44 (Will Rogers Turnpike), thence over Interstate Highway 44 to junction U.S. Highway 166, thence over U.S. Highway 166 to junction Kansas Highway 26, thence over Kansas Highway 26 to junction U.S. Highway 69, thence over U.S. Highway 69, to Kansas City, Mo. and return over the same route, serving no intermediate points, as an alternate route for operating convenience only, in connection with applicant's authorized regular route operations.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Memphis, Tenn. or Washington, D.C.

No. MC 18535 (Sub-No. 64), filed November 10, 1975. Applicant: HICKLIN MOTOR LINE, INC., P.O. Box 377, U.S. Highway No. 601, St. Matthews, S.C. 29135. Applicant's representative: Lawrence M. Gressette, Jr., P.O. Box 346, 203 Railroad Avenue, N.W., St. Matthews, S.C. 29135. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Sponge iron pellets, metal briquettes and oxide fines*, in controlled-flow dump vehicles, between points in South Carolina on the one hand, and, on the other, points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana,

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

Kentucky, Maine, Maryland, Massachusetts, Michigan, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia and Wisconsin; and (2) *compressed scrap motor vehicles and/or shredded vehicle scrap metal*, (a) between points in South Carolina on the one hand, and, on the other, points in Richmond County, Ga.; and (b) between Wilmington, N.C., and 25 miles thereof and points in Richmond County, Ga.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Columbia, S.C.

No. MC 30837 (Sub-No. 470), filed Nov. 14, 1975. Applicant: KENOSHA AUTO TRANSPORT CORPORATION, 4200 39th Avenue, Kenosha, Wis. 53140. Applicant's representative: Paul F. Sullivan, 711 Washington Building, Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Buses and ambulances*, in driveaway service, from Mayfield and Montgomery, Pa., to points in the United States (including Alaska, but excluding Hawaii); and (2) *ambulances*, in driveaway service, from Tulare, Calif.; Sturgis, Mich.; Athens, N.Y.; and Sherman, Tex., to points in the United States (including Alaska, but excluding Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Chicago, Ill.

No. MC 51146 (Sub-No. 452), filed November 12, 1975. Applicant: SCHNEIDER TRANSPORT, INC., 2661 South Broadway, Green Bay, Wis. 54304. Applicant's representative: Neil A. DuJardin, P.O. Box 2298, Green Bay, Wis. 54306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Novelty ice cream products, and water ices* (except in bulk), in mechanically-refrigerated trailers, from Richland Center, Wis., to points in North Dakota, South Dakota, Nebraska, Kansas, Oklahoma and Texas and all points east thereof (except points in Wisconsin).

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 52793 (Sub-No. 21), filed November 3, 1975. Applicant: BEKINS VAN LINES CO., 333 South Center Street, Hillside, Ill. 60662. Applicant's representative: Warren N. Grossman, Suite 825, 606 South Olive Street, Los Angeles, Calif. 90014. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) (a) *New furniture*, uncrated, *new furnishings*, uncrated, and *new appliances*, uncrated, and *accessories and parts*, incidental to the commodities described herein which are shipped in the same vehicle and at the same time with such commodities; (b) *new store and office fixtures*, uncrated, and *accessories and parts*, incidental thereto which are shipped in the same vehicle and at the same time with the commodities described herein; and (c) *new kitchen and institutional fixtures and equipment*, uncrated, and *accessories and parts*, incidental thereto which are shipped in the same vehicle at the same time with the commodities described herein; and (2) (a) between points in California, Oregon and Washington; and (b) between points in California, Oregon and Washington, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Los Angeles, Calif., or Chicago, Ill.

No. MC 52917 (Sub-No. 64), filed November 17, 1975. Applicant: CHESAPEAKE MOTOR LINES, INC., 6748 Dorsey Road, Baltimore, Md. 21227. Applicant's representative: Charles E. Creager, 1329 Pennsylvania Avenue, P.O. Box 1417, Hagerstown, Md. 21740. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Foods and foodstuffs*, in vehicles equipped with temperature control, and (2) *related advertising paraphernalia materials, equipment and supplies*, used in the preparation and serving of foods in restaurants, cafeteria, hotels, or commissaries, in mixed shipments with the commodities named in (1), between points in Frederick, Anne Arundel, Howard, Prince Georges, Washington and Baltimore Counties, Md.; points in Delaware; New Jersey; Baltimore, Md.; and the District of Columbia; and New York, N.Y.; and points in Nassau, Suffolk, and Westchester Counties, N.Y.; points in Virginia on and east of U.S. Interstate Route 95; points in Stafford, Prince William, and Fairfax Counties, Va. west of U.S. Interstate Route 95; and points in Pennsylvania east of the Susquehanna River.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 58885 (Sub-No. 29), (Correction), filed October 20, 1975, published in the FEDERAL REGISTER issue of November 20, 1975, and republished as corrected this issue. Applicant: ATLANTA MOTOR LINES, INC., P.O. Box 345, Conley, Ga. 30027. Applicant's repersentative: Paul M. Daniell, P.O. Box 872, Atlanta, Ga. 30301.

NOTE.—The purpose of this correction is to indicate the correct zip code for applicant's representative, the rest of the application remains the same as previously noticed.

No. MC 78228 (Sub-No. 54), filed November 14, 1975. Applicant: J. MILLER EXPRESS, INC., 152 Wabash Street, Pittsburgh, Pa. 15220. Applicant's representative: Henry M. Wick, Jr., 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Spent carbon*, in dump vehicles, from points in the United States (except Alaska and Hawaii), to Catlettsburg, Ky.; Neville Island, Pa.; and Bayport, Tex.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Pittsburgh, Pa.

No. MC 83835 (Sub-No. 125), filed November 20, 1975. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Tex. 75222. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Building, Dallas, Tex. 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foam board, insulation, insulated foam board panels, and cold storage insulated panels*, from Dallas, Tex., to points in the United States east of a line beginning at the mouth of the Mississippi River, and extending along the Mississippi River to its junction with the eastern boundary of Itasca County, Minn., thence northward along the eastern boundaries of Itasca and Koochiching Counties, Minn., to the International Boundary line between the United States and Canada.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. MC 106603 (Sub-No. 144), filed November 13, 1975. Applicant: DIRECT TRANSIT LINES, INC., 200 Colrain Street, S.W., Grand Rapids, Mich. 49508. Applicants' representative: Martin J. Leavitt, 22375 Hagerty Road, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clay and clay products* (except in bulk), from points in Pulaski County, Ill., to points in Indiana, Iowa, Kentucky, Michigan, Missouri, New York, Ohio, Pennsylvania, Tennessee, West Virginia and Wisconsin.

NOTE.—Applicant holds contract carrier authority in MC 46240 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Chicago, Ill. or Washington, D.C.

No. MC 107107 (Sub-No. 445), filed November 17, 1975. Applicant: ALTERMAN TRANSPORT LINES, INC., 12805 N.W. 42nd Avenue (LeJeune Road), Opa Locka, Fla. 33054. Applicant's representative: Ford W. Sewell, 12805 N.W. 42nd Avenue, Opa Locka, Fla. 33054. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except commodities in bulk), in vehicles equipped with mechanical refrigeration, from Pittsburgh, Pa., and its Commercial Zone, to points in Alabama, Florida, Georgia, North Carolina and South Carolina.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Pittsburgh, Pa.

No. MC 107323 (Sub-No. 48), filed November 12, 1975. Applicant: GILLILAND TRANSFER COMPANY, 7180 West 48th Street, Fremont, Mich. 49412. Applicant's representative: Donald B. Levine, 39 South LaSalle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except commodities in bulk), from Fremont, Mich., to points in Wisconsin on and south of a line beginning at the Minnesota-Wisconsin state line and extending along U.S. Highway 12 to junction Wisconsin Highway 29, thence along Wisconsin Highway 29 to junction U.S. Highway 45, and on and west of a line extending from the junction of Wisconsin Highway 29 and U.S. Highway 45, thence along U.S. Highway 45 to the junction of U.S. Highway 41, thence along U.S. Highway 41 to the junction of Illinois-Wisconsin state line; and to points in Minnesota on and east and south of a line beginning at the Iowa-Minnesota state line and extending along U.S. Highway 50 to Worthington, Minn., thence along Minnesota Highway 60 to Windom, Minn., thence along U.S. Highway 71 to Wilmar, Minn., thence along Minnesota Highway 23 to St. Cloud, Minn., thence along U.S. Highway 10 to St. Paul, Minn., and thence along U.S. Highway 12 to the Minnesota-Wisconsin state line.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Detroit, Mich.

No. MC 107993 (Sub-No. 43), filed November 12, 1975. Applicant: J. J. WILLIS TRUCKING COMPANY, a Corporation, P.O. Box 5328, Terminal Station, Dallas, Tex. 75222. Applicant's representative: J. G. Dail, Jr., 1111 E St., N.W., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foam board, insulation, insulated gypsum foam board panels, insulated panels, and insulated building sections*, from the plantsite of Panel-Era, Inc., at Dallas, Tex., to points in Arkansas, Arizona, California, Colorado, Louisiana, Kansas, Mississippi, Missouri, New Mexico, Oklahoma, Utah, and Wyoming.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. MC 108341 (Sub-No. 39), filed November 14, 1975. Applicant: MOSS TRUCKING COMPANY, INC., P.O. Box 8409, Charlotte, N.C. 28208. Applicant's representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, and machinery parts, street sweepers, road construction machinery, contractor's equipment, vehicles, tractors, articles requiring special equipment, and parts, implements, attachments, accessories and supplies therefor*, from the facilities of Athey Products Corporation, at or near Wake Forest, N.C., to points in the United States in and east of Minnesota, Iowa, Missouri, Arkansas and Louisiana.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Raleigh, N.C.

No. MC 109397 (Sub-No. 323), filed November 10, 1975. Applicant: TRI-STATE MOTOR TRANSIT CO., P.O. Box 113, Bus. Rte I-44 East, Joplin, Mo. 64801. Applicant's representative: A. N. Jacobs (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel, iron and steel articles, and wire products*, from points in Washington and California, to points in the United States and Canada, through, but not limited to, the ports of entry on the International Boundary line between the United States and Canada located at Washington, including Alaska, but excluding Hawaii; and (2) *materials, equipment and supplies* (except commodities in bulk), used in the manufacture and distribution of the commodities described in (1) above, from points in the United States, including Alaska, but excluding Hawaii, to points in Washington and California.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Los Angeles or San Francisco, Calif.

No. MC 111310 (Sub-No. 15), filed November 17, 1975. Applicant: BEER TRANSIT, INC., P.O. Box 338, Hartland, Wis. 53029. Applicant's representative: Wayne W. Wilson, 329 West Wilson St., Madison, Wis. 53703. NOTE.—If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 134922 (Sub-No. 152), filed November 20, 1975. Applicant: B. J. McADAMS, INC., Route 6, Box 15, North Little Rock, Ark. 72118. Applicant's representative: Bob McAdams (same address as applicant). Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: *Rubber articles and compounds* (except commodities in bulk and those which because of size or weight require the use of special equipment), from Frazer and Conshohocken, Pa., to Carson City and Reno, Nev.; Portland, Oreg.; and points in California.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif., or Little Rock, Ark.

No. MC 135634 (Sub-No. 5), filed November 17, 1975. Applicant: JOSEPH M. HANEY, SR., doing business as J. M. HANEY TRUCKING COMPANY, 4754 Mahoning Avenue, Youngstown, Ohio 44515. Applicant's representative: Abraham A. Diamond, 29 South LaSalle Street, Suite 454, Chicago, Ill. 60603. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Automotive parts, accessories, equipment, and supplies* (except commodities in bulk, and those requiring special equipment), from the facilities of Midas-International Corp., at Chicago, Ill., to points in New York, Pennsylvania, and West Virginia, under contract with Midas International Corp.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 135982 (Sub-No. 10), filed November 6, 1975. Applicant: S. L. HARRIS, doing business as P.B.I., P.O. Box 7130, Longview, Tex. 75601. Applicant's representative: Bernard H. English, 6270 Firth Road, Fort Worth, Tex. 76116. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Trailers, semi-trailers, trailer chassis* (other than those designed to be drawn by passenger automobiles), and *parts and equipment and accessories therefor*, in initial movements, (a) from the plantsite and storage facilities of Great Dane Trailers, Inc., at or near Brazil, Ind., to points in the United States (including Alaska, but excluding Hawaii); (b) from the plantsite and storage facilities of Arrow Trailers, Inc., at or near Memphis, Tenn., to points in the United States (including Alaska, but excluding Hawaii); and (c) from the plantsite and storage facilities of Great Dane Trailers, Inc., at or near Savannah, Ga., to points in the United States (including Alaska, but excluding Hawaii); and (2) *trailers, semi-trailers, trailer chassis* (other than those designed to be drawn by passenger automobiles), and *parts and equipment and accessories therefor*, in secondary movements, between points in the United States (including Alaska, but excluding Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Savannah or Atlanta, Ga.

No. MC 136246 (Sub-No. 9), filed November 10, 1975. Applicant: GEORGE BROS., INC., P.O. Box 492, Sutton, Nebr. 68979. Applicant's representative: Marshall D. Becker, 530 Univac Bldg., Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fertilizer solutions*, in bulk, in tank vehicles, from the terminal site of Agrico Chemical Company, located at or near Falls City, Nebr., to points in Iowa, Kansas, and Missouri.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Tulsa, Okla., or Omaha, Nebr.

No. MC 136343 (Sub-No. 58) (Amendment), filed October 14, 1975, published in the FEDERAL REGISTER issue of October 31, 1975, republished as amended this issue. Applicant: MILTON TRANSPORTATION, INC., P.O. Box 355, Milton, Pa. 17847. Applicant's representative: George A. Olsen, 69 Tonnele Ave., Jersey City, N.J. 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Printing paper and paper products*, from the facilities of Watervliet Paper Company, Inc., located at Watervliet and Sodus, Mich., to points in Pennsylvania, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, Maryland, Delaware, Virginia, North Carolina, South Carolina, Florida, Alabama, Kentucky, Georgia, Mississippi, Louisiana, Tennessee, West Virginia, and the District of Columbia; (2) *equipment, materials, and supplies* used or useful in the manufacture of printing paper and paper products from the above named states to the facilities of Watervliet Paper Company, Inc., at Watervliet and Sodus, Mich., restricted to the transportation of shipments originating at the specified origins destined to the designated destinations.

NOTE.—The purpose of this republication is to broaden the requested authority in this proceeding. If a hearing is deemed necessary, the applicant requests it be held at either New York, N.Y. or Washington, D.C.

No. MC 136464 (Sub-No. 17), filed November 12, 1975. Applicant: CAROLINA-WESTERN EXPRESS, INC., 650 Eastwood Drive, Gastonia, N.C. 20760. Applicant's representative: Eric Meierhoefer, 303 N. Frederick Avenue, Gaithersburg, Md. 20760. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Zippers, thread, binding, braid, lace, tape, webbing, and ribbon*, (a) from Port Hueneme and Los Angeles, Calif., to Morton, Miss.; Stanley, N.C., and Mechlenburg County, N.C.; (b) between Dallas, Tex., on the one hand, and, on the other, Port Hueneme and Los Angeles, Calif.; Morton, Miss.; Stanley, N.C., and Mechlenburg County, N.C.; and (c) between Morton, Miss., on the one hand, and, on the other, Stanley, N.C., and Mechlenburg County, N.C.; and (2) *hand and/or machine sewing aides, and materials and supplies* used in the manufacture and sale of zippers, thread, binding, braid, lace, tape, webbing, and ribbon, when moving in mixed loads with those commodities in (1) above, between Stanley, N.C., and Mechlenburg County, N.C.; Morton, Miss.; Dallas, Tex., and Port Hueneme and Los Angeles, Calif.; restricted to shipments moving between the facilities utilized by Talon Division of Textron, under a continuing contract or contracts with Talon Division of Textron, Inc., of Meadville, Pa.

NOTE.—Applicant holds common carrier authority in MC 128635 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Charlotte, N.C., or Washington, D.C.

No. MC 136560 (Sub-No. 4), filed November 10, 1975. Applicant: KEITH PADDOCK & SONS, INC., Routes 17 and 36, Jasper, N.Y. 14855. Applicant's representative: S. Michael Richards, 44 North Avenue, P.O. Box 225, Webster, N.Y. 14580. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Feed and feed ingredients*, from Kennedy, N.Y., to points in Bradford, Clinton, Columbia, Lycoming, Potter, Sullivan, Tioga Counties, Pa., under a continuing contract or contracts with Agway, Inc., Feed Division, Syracuse, N.Y.; and (2) *animal and poultry feed*, from points in Chemung County, N.Y., to points in Bradford, Lackawana, Pike Potter, Sullivan, Susquehanna, Tioga, Wayne, and Wyoming Counties, Pa., under a continuing contract or contracts with Ralston Purina Company.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Harrisburg, Pa., or Syracuse, N.Y.

No. MC 136605 (Sub-No. 8), filed November 17, 1975. Applicant: DAVIS BROS. DIST., INC., 2024 Trade Street, P.O. Box 1027, Missoula, Mont. 59801. Applicant's representative: W. E. Seliski (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Barite* (except commodities in bulk, in tank vehicles), from the facilities of Montana Barite Co., at or near Missoula, Mont., to points in and west of Ohio, Kentucky, Tennessee, Arkansas, and Texas (except Alaska and Hawaii).

NOTE.—Applicant holds contract carrier authority in MC 127349 Sub 2, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Missoula, Billings, or Helena, Mont.

No. MC 136828 (Sub-No. 4), filed November 17, 1975. Applicant: COX & SHAY, INC., P.O. Drawer O, Pinson, Ala. 35126. Applicant's representative: R. Connor Wiggins, Jr., Suite 909–100 North Main Bldg., Memphis, Tenn. 38103. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Transformers, rectifiers, electrostatic precipitators, circuit breakers, power distribution and transmission equipment, materials, and supplies*, from Helena, Ala., to points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala., or Atlanta, Ga.

No. MC 138109 (Sub-No. 1), filed November 14, 1975. Applicant: RAY J. FORNEY, P.O. Box 257, Ashton, Ill. 51006. Applicant's representative: E. Stephen Heisley, Suite 805, 666 11th St., NW., Washington, D.C. 20001. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Such merchandise* as is dealt in by wholesale, retail, and chain grocery stores and food processors; and (2) *equipment, materials, and supplies*, used in the operation and business of such stores (except commodities in bulk), between the plantsites and warehouse facilities of Crest Foods, Inc., at or near Ashton and Forreston, Ill., on the one hand, and, on the other, points in the United States in and west of Montana, Wyoming, Colorado, New Mexico, Texas, Arkansas, and Louisiana (except Alaska and Hawaii), restricted to a transportation service to be performed under a continuing contract or contracts with Crest Foods, Inc., at Ashton, Ill.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 138752 (Sub-No. 4), filed November 17, 1975. Applicant: BEAUFERD SCHMIDT, P.O. Box 107, 521 N. 81 By-Pass, McPherson, Kans. 67460. Applicant's representative: Eugene W. Hiatt, 308 Casson Building, 603 Topeka Blvd., Topeka, Kans. 66603. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Polyurethane foam*, between Newton, Kans., on the one hand, and, on

V 40 0244
DEC 18 75
XUM

the other, Tulsa, Edmond, Guthrie, Lawton, Chickasha, and Muskogee, Okla.; Gainsville, Amarillo, Arlington, and Houston, Tex.; Little Rock, Fort Smith, and Siloam Springs, Ark.; Neosho, Mo.; Council Bluffs, Iowa, and Lincoln, Nebr., under a continuing contract or contracts with Future Foam, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Wichita or Topeka, Kans.

No. MC 138789 (Sub-No. 5), filed November 10, 1975. Applicant: U & R EXPRESS, INC., P.O. Box 2369, White City, Oreg. 97501. Applicant's representative: Lawrence V. Smart, Jr., 419 NW. 23rd Avenue, Portland, Oreg. 97210. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Wood residuals*, from points in Lemhi County, Idaho, to Missoula, Mont., under a continuing contract or contracts, with Evans Products Co.

NOTE.—Applicant holds common carrier authority in MC 135592 Sub 2, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Missoula, Mont.

No. MC 138902 (Sub-No. 3), filed November 14, 1975. Applicant: ERB TRANSPORTATION COMPANY, INC., P.O. Box 65, Crozet, Va. 22932. Applicant's representative: Harry C. Ames, Jr., Suite 805 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, between the plantsites of the Morton Frozen Foods Division, ITT Continental Baking Company, Inc., at or near Crozet, Va., and Russellville, Ark.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 139305 (Sub-No. 2), filed November 12, 1975. Applicant: LONNY RAYE CUMMINGS, doing business as AMERICAN MACHINERY MART, 10438 S.E. 23rd St., Bellevue, Wash. 98004. Applicant's representative: David S. White, 307 Blanchard, Seattle, Wash. 98121. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Conveyor equipment and conveyor components*, (1) between Chico, Calif., and Danville, Ky.; and (2) between Chico, Calif., and points in Montana and Wyoming, under a continuing contract or contracts with Rexnord, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Seattle, Wash., Portland, Oregon, or San Francisco, Calif.

No. MC 139495 (Sub-No. 102) (Procedural correction), filed October 16, 1975, published in the FEDERAL REGISTER issue of November 13, 1975, and republished this issue. Applicant: NATIONAL CARRIERS, INC., 1501 East 8th Street, P.O. Box 1358, Liberal, Kans. 67901. Applicant's representative: Herbert Alan Dubin, Suite 1030, 1819 H Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except frozen and except in bulk), from the plantsite and storage facilities utilized by Ragu Foods, Inc., at or near Merced, Calif., to points in Montana, Wyoming, Colorado, New Mexico, Texas, Arizona, Utah, Idaho, Washington, Oregon, and Nevada.

NOTE.—This republication indicates that this matter was not determined by scheduled hearings as previously noticed, and that the period for the filing of protest is extended to 30 days from the date this notice appears in the FEDERAL REGISTER. Applicant holds contract carrier authority in MC 133106 and Subs thereunder, therefore dual operations may be involved.

No. MC 139495 (Sub-No. 111), filed Nov. 14, 1975. Applicant: NATIONAL CARRIERS, INC., 1501 East 8th St., P.O. Box 1358, Liberal, Kans. 67901. Applicant's representative: Herbert Alan Dubin, 1819 H St. NW., Suite 1030, Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Drugs, medicines, toilet preparations, disinfectants, candy, confectionery, beverage preparations, anti-acid mints, tooth brushes, chewing gum, chewing gum base, store display racks or stands, and packaging materials*, in mechanically-refrigerated vehicles, (1) from Lititz, Pa., to Elk Grove Village and Rockford, Ill., and points in Washington, Oregon, California, Nevada, Utah, Idaho, Arizona, New Mexico, Colorado, Nebraska, Kansas, Oklahoma, Texas, Iowa (except points in that part of Iowa east of U.S. Highway 59), and Missouri (except points in that part of Missouri on and east of U.S. Highway 65); (2) from Elk Grove Village and Rockford, Ill., to points in Washington, Oregon, California, Nevada, Utah, Idaho, Arizona, New Mexico, Colorado, Nebraska, Kansas, Oklahoma, Texas, Iowa (except points in that part of Iowa east of U.S. Highway 59), Missouri (except points in that part of Missouri on and east of U.S. Highway 65); and (3) from the plantsites and storage facilities of Warner-Lambert Company, at or near Long Island City, N.Y., and North Bergen, N.J., to Columbus, Ohio; Elk Grove Village and Rockford, Ill.; Arlington, Tex.; Anaheim, Calif.; and Milwaukee, Oreg.; (B) *diagnostic products, medicines, drugs, sunglasses, and dental supplies and materials*, in vehicles equipped with mechanical refrigeration, from the facilities used by Warner-Lambert Company, at or near Morris Plains, N.J., to Peoria, Ill.; Dallas, Tex.; and Los Angeles, Calif.; (C) *sunglasses*, from Chelsea, Mass., to the destination points named in (B) above; (D) *dental supplies and materials*, from Philadelphia, Pa., to the destination points named in (B) above; and (E) *personal care products*, from the facilities of Warner-Lambert Company, at or near Anaheim, Calif., to South Brunswick, N.J.; Atlanta, Ga.; Elk Grove Village, Ill.; and Grand Prairie, Tex.

NOTE.—Applicant holds contract carrier authority in MC 133106 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 139495 (Sub-No. 112), filed November 12, 1975. Applicant: NATIONAL CARRIERS, INC., 1501 East 8th Street, P.O. Box 1358, Liberal, Kans. 67901. Applicant's representative: Herbert Alan Dubin, 1819 H Street NW., Suite 1030, Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pet foods*, from the facilities utilized by Hi-Life Packing Company located at or near Chicago, Ill., and Hamilton, Mich., to points in New Jersey, New York, Pennsylvania, Massachusetts, Connecticut, Mississippi, Louisiana, Arkansas, Texas, Kansas, and Tennessee.

Wilson, 329 West Wilson Street, Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wrecked, damaged, disabled, inoperative, stolen, repossessed, used, abandoned vehicles, and replacement vehicles, and parts and equipment therefor*, between points in Wisconsin on and south of State Highway 33, and on and east of Interstate Highway 90, on the one hand, and, on the other, points in Minnesota, Iowa, Illinois, Indiana, Ohio, and Michigan.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Milwaukee or Madison, Wis.

No. MC 141514, filed November 6, 1975. Applicant: WILLIAM H. BURGENER, doing business as BURGENER CONTRACT CARRIERS, RFD #3, Box 485, Merrill, Wis. 54452. Applicant's representative: Edward Solie, Executive Building, Suite 100, 4513 Vernon Blvd., Madison, Wis. 53705. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Oils and greases, lubricants, fuel additives, hydraulic fluids, and roof and driveway coatings or sealers*, in containers, from the plantsite or warehouse facilities of Schaeffer Manufacturing Company located at or near St. Louis, Mo., to points in (a) the Upper Peninsula of Michigan; (b) to points in and north of Big Stone, Swift, Kandiyohi, Meeker, Wright, Anoka, and Chisago Counties, Minn.; and (c) points in and north of Crawford, Richland, Sauk, Columbia, Dodge, Washington, and Ozaukee Counties, Wis., under a continuing contract or contracts with Schaeffer Manufacturing Company of St. Louis, Mo.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Madison, Wis.

No. MC 141522, filed November 17, 1975. Applicant: NORTH WEST COMMERCIAL HAULING, LTD., 10608 169th Street, Edmonton, Alberta, Canada T5P 3X6. Applicant's representative: Ray F. Koby, 314 Montana Building, Great Falls, Mont. 59401. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Used construction equipment*, between ports of entry on the International Boundary line between the United States and Canada located at or near Alexandria Bay and Niagara Falls, N.Y.; Sault Ste. Marie, Mich.; Noyes, Minn.; Sweetgrass, Mont., and Blaine, Wash., on the one hand, and, on the other, points in Alabama, Arkansas, California, Colorado, Florida, Georgia, Idaho, Illinois, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Missouri, Montana, New York, Ohio, Oregon, Tennessee, Virginia, and Washington, restricted to traffic moving in foreign commerce originating at or destined to points in Alberta and British Columbia, Canada, under a continuing contract with North West Commercial Sales, Ltd.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at any city in Montana.

No. MC 141527, filed November 17, 1975. Applicant: D. & D. LUMBER COMPANY, INC., 2146 Amity Hill Road, Statesville, N.C. 28677. Applicant's repersentative: Theodore Polydoroff, Suite 600, 1250 Connecticut Ave. NW., Washington, D.C. 20037. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *New furniture and furniture parts*, from Taylorsville, N.C., to points in California, under a continuing contract or contracts with Lewittes Furniture Enterprises, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 141541, filed November 20, 1975. Applicant: SUPERTRANS, INC., P.O. Box 82, Pompton Plains, N.J. 07444. Applicant's representative: George A. Olsen, 69 Tonnele Ave., Jersey City, N.J. 07306. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Home furnishings, portable buildings, materials, equipment and supplies*, used in the manufacture and sale of the foregoing commodities (except commodities in bulk), between Fairfield and Paterson, N.J., on the one hand, and, on the other, points in Massachusetts, Pennsylvania, Ohio, Illinois, Georgia, Florida, Alabama, Mississippi, Texas, New York, and California, under a continuing contract or contracts with Designex, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at New York, N.Y., or Newark, N.J.

PASSENGER APPLICATIONS

No. MC 2832 (Sub-No. 12), filed June 3, 1975. Applicant: THE KELLEY TRANSIT COMPANY; INC., 30 Railroad Square, Torrington, Conn. 06790. Applicant's representative: Thomas A. Kelley, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage* in the same vehicle with passengers, in special and round trip operations, (a) beginning and ending at points in Litchfield County, Conn., and extending to Boston, Fall River, Foxboro, Gloucester, Hyannis, New Bedford, Newburyport, Orleans, Plymouth, Provincetown, Salem, Springfield, Sturbridge, and West Springfield, Mass., and Newport and Providence, R.I.; and (b) beginning and ending at points in Litchfield County, Conn., and extending to Westfield, Easthampton, South Deerfield, Greenfield, Northfied, Shelburne Falls, North Adams, Williamstown, Pittsfield, Lenox, Great Barrington, Sheffield, and Hancock, Mass., and New Lebanon, Green River, and Hillsdale, N.Y.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Hartford, Conn., or Springfield, Mass.

No. MC 141496, filed October 30, 1975. Applicant: COLUMBIA STAGE LINES, LTD., 4972 Still Creek Avenue, Burnaby, British Columbia V5C 4E4 Canada. Applicant's representative: George H. Hart, 1100 IBM Building, Seattle, Wash. 98101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage and personal effects*, in round-trip charter operations, beginning and ending at ports of entry on the International Boundary line between the United States and Canada located in Washington, and extending to points in Washington, Oregon, California, Nevada, and Arizona.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Seattle, Wash., or Vancouver, British Columbia, Canada.

BROKER APPLICATION

No. MC 130352, filed November 12, 1975. Applicant: TESA COMPANY, INC., P.O. Box 4217, Parkersburg, W. Va. 26101. Applicant's representative: Gerald DeBarr (same address as applicant). Authority sought to engage in operation, in interstate or foreign commerce, as a *broker* at Parkersburg, W. Va., to sell or offer to sell the transportation of *Coal, asphalt, slag, gravel, red dog, sand, limestone, and ashes* in bulk, in dump vehicles, by common carriers between points in Ritchie, Randolph, Barbour, Taylor, Harrison, Lewis, Gilmer, Upshur, Wood, Pleasants, Jackson, Mason Counties, W. Va., and points in Washington, Athens, Galia, Meigs Counties, Ohio.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Charleston, or Parkersburg, W. Va.

FREIGHT FORWARDER APPLICATIONS

No. FF 283 (Sub-No. 3), filed November 12, 1975. Applicant: SMYTH WORLDWIDE MOVERS, INC., 314 108th Street NE., Bellevue, Wash. 98009. Applicant's representative: Alan F. Wohlstetter, 1700 K Street NW., Washington, D.C. 20006. Authority sought to engage in operation, in interstate commerce, as a *freight forwarder*, through use of the facilities of common carriers by rail, motor, water, and express, in the transportation of (a) *Used household goods and unaccompanied baggage*, and (b) *used automobiles*, between points in the United States including Alaksa, restricted in (b) above to the transportation of export and import traffic.

NOTE.—Applicant states that the purpose of this instant application is to add Alaska to the authority it already holds in FF-283, (Sub-No. 1) and that it will surrender said authority for cancellation upon grant of this application. If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. FF 478, filed November 11, 1975. Applicant: BRINKE TRANSPORTATION CORPORATION, 1095 E. 21st Street, Hialeah, Fla. 33013. Applicant's representative: J. Raymond Clark, 600 New Hampshire Ave NW., Washington, D.C. 20037. Authority sought to engage in operation, in interstate commerce, as a *freight forwarder*, through use of the facilities of common carriers by rail, motor vehicle, water, and express, in the transportation of *General commodities*, between points in Dade County, Fla., on the one hand, and, on the other, points in Georgia, Illinois, Indiana, Kentucky, Louisiana, Maryland, New Jersey, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, and Texas.

NOTE.—If a hearing is demed necessary, the applicant requests it be held at either Miami, Fla., or Washington, D.C.

By the Commission.

[Notice No. 933]

ASSIGNMENT OF HEARINGS

DECEMBER 15, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 140016 Sub 4, Transportation Services Inc, now being assigned February 18, 1976, (3 days) at Reno, Nevada, in a hearing room to be later designated.

MC 130329, Victor F. Gamboa, dba Vic's Tour, now being assigned February 23, 1976, (2 days) at San Francisco, California, in a hearing room to be later designated.

MC 107012 Sub 218, North American Van Lines, Inc., now being assigned February 25, 1976, (3 days) at San Francisco, California, in a hearing room to be later designated.

MC 2890 Sub 50, American Buslines, Inc., MC 89037 Sub 8, now being assigned March 1, 1976, (1 week) at San Francisco, California, in a hearing room to be later designated.

MC 133689 Sub 63, Overland Express, Inc., now assigned January 13, 1976, at St. Paul, Minn., will be held in Court Room 2, Federal Building & U.S. Courthouse, 316 North Robert Street.

MC 114052 (Sub-No. 6), Catencamp Transfer & Storage, Inc., now assigned January 14, 1976, at St. Paul, Minn., will be held in Court Room 2, Federal Building & U.S. Courthouse, 316 North Robert Street.

MC 118202 Sub 50, Schultz Transit, Inc., now assigned January 15, 1976, at St. Paul, Minn., will be held in Court Room 2, Federal Building & U.S. Courthouse, 316 North Robert Street.

MC 95920 Sub 41, Santry Trucking Company, now assigned January 16, 1976, at St. Paul, Minn., will be held in Court Room 2, Federal Building & U.S. Courthouse, 316 North Robert Street.

AB 7 Sub 8, Chicago, Milwaukee, St. Paul, and Pacific Railroad Company Abandonment between St. Clair Junction and St. Clair, in Freeborn and Blue Earth Counties, Minnesota, now assigned January 19, 1976, at Albert Lea, Minn., will be held in The Multi-Purpose Room, 2nd Floor, City Center, 221 East Clark Street.

[EX PARTE NO. MC-43]

B. F. WALKER, INC., ET AL.

Lease and Interchange of Vehicles by Motor Carriers; Waiver

At a session of the INTERSTATE COMMERCE COMMISSION, Motor Carrier Leasing Board, held at its office in Washington, D.C., on the 10th day of December, 1975.

It appearing, That a petition has been filed by B. F. Walker, Inc., (MC-74321 and numerous subs) and Noble Transport, Inc., as the operator (by virtue of temporary authority pursuant to MC-F-12573) of the rights of Ashworth Transfer, Inc., (MC-1872 and various subs), under common control, for waiver of paragraphs (a)(3) and (c) of section 1057.4 of the Lease and Interchange of Vehicles Regulations (49 CFR 1057), concerning equipment leased between petitioners;

It further appearing, That petitioners have a jointly administered program applying the same standards of inspection and maintenance to equipment in accordance with the motor carrier safety regulations of the U.S. Department of Transportation;

It further appearing, That that Department offers no objection to granting the petition, although operations will continue to be monitored by that agency;

It is ordered, That waiver of paragraphs (a)(3) and (c) of section 1057.4, be, and, it is hereby granted provided that the equipment is inspected on the day it is to be leased and found to meet the requirement of the motor carrier safety regulations of the U.S. Department of Transportation and that petitioners remain in satisfactory compliance with those regulations and under common control.

By the Commission, Motor Carrier Leasing Board.

[AB 72]

SACRAMENTO NORTHERN RAILWAY

Abandonment Between Sutter and Tarke, in Sutter County, California

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available to the public upon request; and

It appearing, That no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321, *et seq.*; and good cause appearing therefor:

It is ordered, That applicant be, and it is hereby, directed to publish the appended notice in a newspaper of general circulation in Sutter County, Calif., on or before December 30, 1975, and certify to the Commission that this has been accomplished.

And it is further ordered, That notice of this finding shall be given to the general public by depositing a copy of this order and the attached notice in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and by delivering a copy of the notice to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER as notice to interested persons.

Dated at Washington, D.C., this 5th day of December, 1975.

By the Commission, Commissioner Brown.

[SEAL] ROBERT L. OSWALD, *Secretary.*

SACRAMENTO NORTHERN RAILWAY ABANDONMENT BETWEEN SUTTER AND TARKE, IN SUTTER COUNTY, CALIFORNIA

The Interstate Commerce Commission hereby gives notice that by order dated December 5, 1975, it has been determined that the proposed abandonment by the Sacramento Northern Railway of its line of railroad between Sutter and Tarke, a distance of 4.842 miles, all in Sutter County, Calif., if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, *et seq.*, and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental impacts of the proposed action are considered insignificant because area environmental quality will only be degraded slightly due to increased air pollution and energy consumption resulting from a small diversion of rail traffic to motor carrier transport upon abandonment. Lack of

V 40 244 DEC 18 75 XUM

direct rail service may impede local developmental efforts, however, local highways are capable of handling the additional trucking needed to transport the diverted traffic. Even though rail service will be discontinued at one station, Tarke, Calif., the applicant will continue to maintain rail service at Sutter, Calif. There are no identifiable plans or land use policies in the tributary territory which are dependent upon continued rail service, nor have governmental units expressed an interest in utilizing this right-of-way for recreational purposes should this abandonment be authorized. There will be no effect on historic sites or recreational areas.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-7966.

Interested persons may comment on this matter by filing their statements in writing with the Intertsate Commerce Commission, Washington, D.C., 20423, on or before January 14, 1976.

This negative environmental determination shall become final unless good and sufficient reason demonstrating why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

ROBERT L. OSWALD,
Secretary.

[Notice No. 142]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

DECEMBER 11, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to Sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 C.F.R. Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before December 31, 1975. Pursuant to Section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-76144. By order entered December 11, 1975 the Motor Carrier Board approved the transfer to Louis G. Hannum, Inc., Pitman, N.J., of the operating rights set forth in Certificate No. MC-140551, issued July 25, 1975, to Louis G. Hannum, Jr., Pitman, N.J., authorizing the transportation of such merchandise, as is dealt in by wholesale and retail department stores, between Philadelphia, Pa., on the one hand, and, on the other, Camden, N.J., and points in that part of New Jersey within 30 miles of Camden. Franklin A. Wurman, 1400 Two Girard Plaza, Philadelphia, Pa. 19102, attorney for applicants.

[SEAL] ROBERT L. OSWALD,
Secretary.

PART II:

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Housing Production and Mortgage Credit—Federal Housing Commissioner (Federal Housing Administration)

■

MOBILE HOME CONSTRUCTION AND SAFETY STANDARDS

V 40 244 DEC 18 75 XUM

Title 24—Housing and Urban Development

CHAPTER II—OFFICE OF ASSISTANT SECRETARY FOR HOUSING PRODUCTION AND MORTGAGE CREDIT—FEDERAL HOUSING COMMISSIONER (FEDERAL HOUSING ADMINISTRATION), DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R75-340]

PART 280—MOBILE HOME CONSTRUCTION AND SAFETY STANDARDS

On June 25, 1975, the Department of Housing and Urban Development proposed Federal mobile home construction and safety standards (40 FR 26930); and on September 2, 1975, (40 FR 40261) published the final rule in the FEDERAL REGISTER pursuant to the requirements of the National Mobile Home Construction and Safety Standards Act of 1974 (Title VI of Pub. L. 93-383, U.S.C. 5401 et seq.). On September 10, 1975, corrections to § 280.305 were published at 40 FR 42007.

On November 11, 1975, the Department published corrections and proposed amendments to the final rule as published on September 2, 1975, (40 FR 52706).

Eighteen comments from consumers, manufacturers, suppliers, trade associations and government agencies were received in response to the proposed rulemaking. In addition, the National Mobile Home Advisory Council met on December 3, 1975, to discuss the November 11, 1975, proposed amendments. At its meeting, the Council also considered recommended revisions to other sections of the standard as published on September 2, 1975. Since the council did not arrive at a consensus, any reference to recommendations made by the council herein are based on HUD's understanding of the views of the majority of the Council members. A summary of the significant issues discussed by the Council follows.

NATIONAL MOBILE HOME ADVISORY COUNCIL

1. The Council considered the elimination of the "Quick Disconnect" device as proposed in the November 11, 1975, amendments. For purposes of assuring proper installation when connecting fuel gas piping between sections of expandable or multiple mobile homes, the consensus view of the Council was to retain the device as required in the September 2, 1975, Final Rule.

2. The Council considered oil safety controls required by § 280.707(f) and whether these controls should be required on all fuel burning appliances in the form of a thermal cutoff switch with a specific location required for the switch. The majority view of the Council was that the requirement for such controls is redundant when considering other operational controls on the furnace. Discussion also indicated that if such a device was to be required, it should be a part of the furnace listing. The apparent Council minority view was to extend the control requirements to all fuel burning appliances.

3. The Council discussed the proposed amendment to § 280.305(a) which permitted finished flooring up to ⅛" in thickness to be placed under load bearing walls. HUD determined from the Council discussion that additional clarification of the section was needed to resolve the question of whether the ⅛" finished flooring could be compressed from a greater thickness to ⅛" thickness under load bearing walls or if the finished flooring permitted was to be ⅛" uncompressed.

4. The Council discussed having the manufacturer make provisions for heat tape which is used to prevent freezing of exposed plumbing, piping and fixtures. Although in HUD's view there was no clear consensus on this issue, the view most prevalent was to have the manufacturer provide a receptacle outlet for heat tape and clearly specify in his instructions that if a heat tape was used to prevent freezing, it should be listed for use in mobile homes.

5. The Council discussed other provisions relating to installation including gas supply and electrical connections. The consensus view of the Council was that when there are items related to utility hook-up or connection, said connection should be left to local installation, due to the wide variance in requirements by the utilities and local enforcement programs.

THE STANDARD

After carefully considering the written comments received and issues raised by the Advisory Council, and following Departmental discussions with other Federal and state agencies, amendments to the final rule are being made by HUD.

In order to assist in the use of the standards, the final rule as published on September 2, with corrections made in the September 10, and November 11 FEDERAL REGISTER publications, and with amendments promulgated today, is published consolidated and complete herein.

The following is a discussion, by subpart, of the substantive amendments made to the final rule. Where the amendments were due to comments received, this is so indicated. Otherwise, the amendments are adopted as proposed in notice of proposed rulemaking of November 11, 1975.

Subpart A. General. 1. Section 280.1 is revised to add a new paragraph (b). The purpose of this subsection is to make clear that, to the extent possible, the Federal Mobile Home Construction and Safety Standards are written as performance requirements in preference to specification requirements. The subsection also makes it clear that: (1) Whenever specific requirements are used in the Standard, they are used because at this time, this is the best available means of identifying the desired performance and; (2) the use of specifications is not intended to prohibit the utilization of any material, piece of equipment, or system which does not meet the precise specifications but which upon evaluation provides equivalent or superior performance.

2. Section 280.1 is revised to add a new paragraph (c) which establishes a mechanism for the issuance of interpretative bulletins. The purpose of the bulletins would be to clarify the meaning of the various sections of the standard, and to assist in the enforcement of the standard.

The Department received comments requesting that a comment period be provided prior to the issuance of any interpretative bulletins. In order for HUD to make interpretations on a timely basis, a comment period for interpretative bulletins may not always be provided. The Department contemplates that the interpretative bulletins will reflect a wide range of determinations, some of which may indeed deserve publication and opportunity for comment. It is the Department's present intent to provide for a comment period in such cases.

The Department also received comments requesting that the availability of materials be given consideration prior to issuance of an interpretative bulletin. HUD anticipates that its bulletins will describe generic attributes and not specifically name a particular material, and in doing so will endeavor to authorize the use of materials which are in fact in production and available.

3. Section 280.6 is amended by changing the minimum size of the letters and numbers used in the serial numbering of mobile homes from ½ inch to ⅜ inch in height.

Subpart B. Planning Considerations. 1. Section 280.102(a) is amended to permit a maximum of 5 square feet of a recessed entry to be included when determining the gross floor area. Section 280.111 is amended to exclude the recessed entry way from the 5 feet minimum clear horizontal room dimension requirement. These changes permit the area encompassed by a standard door swing in a typical recessed entry to be included when determining the gross floor area.

2. Section 280.105(d)(2) is amended to permit the clear height requirement for exterior sliding glass doors to be reduced from 74" to 72" in height.

3. In order to make the language of § 280.404(a) consistent with § 280.106(a), the words "or approved device" are added to permit an alternate means of egress from bedrooms.

Subpart C. Fire Safety. 1. As stated in the preamble to the November 11 notice of proposed rulemaking, § 280.208(b) has been revised to clarify the requirements for the specific location of the smoke detector. The detector is now permitted to be located along the hallway space between the living area and the first bedroom. The prior reference to location between the living area and the bedroom door has been deleted. Based upon recommendations from the National Bureau of Standards, the following revisions have also been made:

(a) An exception to the above requirement has been included which permits the detector to be located on the living area side whenever a door is placed

in the hallway space between the living and bedroom areas.

(b) The detector, when practicable, is to be located between the living area and the air return intake.

(c) The architectural planning of a mobile home shall not isolate a smoke detector so as to impair its effectiveness.

HUD has determined the above revisions necessary to assure adequate response time and proper operation of the smoke detector so as to provide sufficient warning in case of fire to sleeping occupants.

2. The definition of "interior finish" has been moved from § 280.302(a)(9) to § 280.202(a)(2) and all appropriate subheadings renumbered.

3. The requirement for "firestopping" in § 280.206(a) is amended to establish a minimum firestop of 1 inch nominal lumber, or its equivalent, for mobile homes.

Subpart D. Body and Frame Requirements. 1. The definition of "diagonal tie" in § 280.302(a)(4) is amended to indicate that while its primary purpose is to resist horizontal forces, the tie may also be used to resist vertical forces.

2. Section 280.304 is amended to clarify that each individual wood member need not be marked as having a moisture content of 19% or less. Instead, the moisture content may be measured at the time of installation. (At the time of installation, each individual member shall not have a moisture content exceeding 19%.)

3. Section 280.305(a) as amended permits "uncompressed" finished flooring of up to ⅛ inch thickness under load bearing walls. This change is made in response to the Advisory Council recommendations to clarify HUD's intent with respect to this section.

Subpart E. Testing. 1. Since roof truss spacing varies in mobile homes, § 280.402(b)(1) is amended by deleting the 24 inch minimum length requirement for sheathing used in truss testing. The amended section requires that when plywood strip sheathing is used, it be at least of sufficient length to cover the top chords of the trusses being tested at the designated design spacing.

2. Section 280.402(b)(1) is revised to permit an alternate method of bracing the bottom chord of trusses being tested. This revision provides the manufacturer a choice of test methods.

3. Section 280.402(d)(3) limits the equivalent load in lieu of failure to a factor of safety (2.50) times the design live load plus the dead load.

4. Section 280.403(c)(4) is revised by changing the water resistance test to the appropriate ASTM Test Standard (ASTM E-547). This revision is made because the test standard previously referenced was a static test and required an exception for cycle testing. The ASTM Test Standard now referenced is a cyclic test, and does not alter the test procedures previously described.

5. Section 280.403(c) is amended to require production line testing of prime windows and sliding glass doors, in addition to the prototype testing required by the Standards. Production testing and the criteria for the tests to be used were recommended by the industry. The industry suggested, and the regulations provide, that the production units tested meet the prototype requirements, except with respect to the test level for water resistance, where a lower level of testing was recommended. HUD believes that production testing to the level proposed by the industry will result in better quality windows by reducing leakage and energy losses. However, HUD has some concern about the proposed level of testing suggested by the industry for water resistance. Accordingly, HUD will monitor the results of the production unit testing and, based on the experience gained and future research, may establish more stringent tests to demonstrate the performance of prime windows and sliding glass doors.

6. Section 280.403(i) incorporates into the window certification program the specific production line test requirements for prime windows and sliding glass doors. The testing frequency will be initially established by the agency certifying that the windows comply with the standard. Based on the results of HUD monitoring of the window certification program and planned research, HUD may establish the produtcion unit testing frequencies.

Subpart F. Thermal Protection. 1. Section 280.504(b) has been amended to conform to the language of § 1423.080(b) as published in the FEDERAL REGISTER on June 25, 1975, (40 FR 26944). This modification is necessary because the required language was inadvertently omitted from the final rule as published.

2. Based on recommendations from the special National Fire Protection Association Energy Task Force on Mobile Homes, the following revisions have been made:

(a) The format for representing transmission heat loss coefficients in § 280.506(a) has been revised, but the substantive requirements of the section remain unchanged.

(b) The table providing specific minimum levels of thermal insulation by climatic zone has been deleted to avoid misinterpretation of its use and meaning.

To assure uniform heat transmission in the mobile home, § 280.506(b) has been changed to require that the cavities in in exterior walls, floors and ceiling be provided with thermal insulation.

Subpart G. Plumbing Systems. 1. This revision incorporates the Advisory Council prevalent views for piping protection against freezing. Section 280.603(b)(4) has been revised to require the manufacturer to provide in his written Installation Instructions the method(s) to be used to prevent freezing of exposed piping and fixtures. The manufacturer is to specify in his instructions that when heat tape is used for this purpose, it shall be listed for use in mobile homes. In any case, a receptacle outlet for heat tape shall be installed on each mobile home by the manufacturer and be conveniently located for its use.

2. The requirements for drainage have been moved from § 280.603(b)(5). The words "complete gravity" have been deleted from the section. Drainage of all supply piping would still be required, but such drainage would not have to be achieved by the use of an absolute gravity system. The section has been relocated since the requirement for drainage is general and not limited to freezing.

3. Sections 280.114(b) and 280.607(b)(3) are amended to use the "bathroom floor level" to establish the datum plane from which the height of the shower compartment is to be measured.

4. In response to comments from the industry after September 2, HUD on its initiative, has amended § 280.609(a) to require the manufacturer to include in his written instructions that the mobile home has been designed for an inlet water pressure of 80 PSI and to state that when the mobile home is to be installed in areas where the water pressure exceeds 80 PSI, a pressure reducing valve should be installed. This revision is made by HUD to assure proper operation of the water piping system.

5. In § 280.610(c)(1) the requirement for a "permanent marker" for the drain outlet has been deleted.

Subpart H. Heating and Cooling Systems. 1. Section 280.705(a) is amended to clarify the responsibility of the manufacturer with respect to the gas supply system. This revision requires the manufacturer to design the gas piping system in accordance with the pressures listed in § 280.705(a). The manufacturer is now required to provide in his written installation instructions, the pressure range for safe operation of the piping system.

2. Section 280.705(c) remains unchanged from the section as presented in the September 2 final rule so as to require a "quick-disconnect device" for expandable or multiple unit mobile homes. (The November 11, 1975, FEDERAL REGISTER publication proposed an amendment which would have deleted the "quick-disconnect device".)

3. Section 280.705(d) is revised to provide additional design criteria to be used when sizing gas piping by the table(s) method. HUD is providing this criteria to assure uniform application of the tables.

4. Section 280.705(j) is amended to permit the location for all gas supply connections to be within 24 inches of the left (road) sidewall. This revision enables a manufacturer to standardize the location of the gas supply connection for all gas systems.

5. Section 280.705(1)(3) has been amended to indicate that shut-off valves are to be accessible in order to allow servicing of the appliance and removal of its components, and for shut off in case of emergency.

6. HUD has determined that the requirement for oil safety controls in § 280.707(f) of the September 2, 1975, final rule is redundant. The Department has therefore deleted the requirement for the following reasons:

V 4 0 2 4 4 DEC 18 75 5 XUM

(a) Adequate safety controls are presently provided in oil fired furnaces,

(b) Equipment redesign has eliminated previous melting point problems,

(c) There may be adverse effects to furnace operation and durability associated with indiscriminate power interruption to the circulatory air blower, and

(d) The primary goal in the event of any fire is to remove all occupants from the mobile home, rather than encourage the occupant to remain in a burning unit, while attempting to cut off oil flow in case of a furnace fire.

The deletion of this requirement is also consistent with the majority view of the Advisory Council as perceived by HUD.

7. Section 280.708(a)(1) has been amended to require listing of termination fittings and moisture lint exhaust duct systems for gas clothes dryers only.

8. Section 280.709(e)(5) requires that when a furnace can only be used with a specific coil and the coil has a limited listing, the installation must be in accordance with that listing. This requirement would not prevent heatng and cooling equipment manufacturers from having their product listed for use in equipment manufactured by others.

9. In accordance comments received from the industry, § 280.709(g)(1) has been amended to require that the termination device and spark arrester be included in the listing of factory built chimneys. The specific requirements for the spark arrester indicated in § 280.709 (g)(1)(vii) have therefore been deleted since these specifications are already included in the listing.

This revision is made to be consistent with requirements for residential spark arresters used on factory built chimneys.

Subpart I. Electrical Systems. 1. Section 280.803(1)(2) as amended deletes the requirement that the manufacturer install conductors in the electric service raceway which goes to the underside of the mobile home. Instead, it requires that the manufacturer provide in his written installation instructions the proper service conductor sizes and the proper size of the junction box to be installed at the underside of the mobile home.

2. Section 280.806(d)(9) is amended to make clear that the use of receptacle outlet(s) which are integral with the light fixture over the bathroom basin satisfies the requirement for a receptable outlet adjacent to the bathroom basin.

Subpart J. Transportation. 1. Section 280.904(b)(5) is revised to delete the reference to the SAE Handbook, and now permits the mobile home manufacturer to use in his design evaluation the allowable stresses recommended by the spring assembly manufacturer.

All of the amendments which in the Department's judgment will have a significant impact on the final rule, as published, have been described above. The Department is presently considering comments submitted by interested parties on specific equipment and installations which may be the subject of interpretative bulletins as described in the preceding discussion on Subpart A.

The amendments to the final rule do not affect the Environmental Impact Statement for the Federal Mobile Home Construction and Safety Standards which was prepared and submitted to the Council on Environmental Quality. It is available for inspection and copying according to Department rules and regulations during regular business hours at the address below.

The amendments to the final rule do not affect the Economic Impact Statement assessing the impact of the Federal Mobile Home Construction and Safety Standards on the economy, the labor force, competition, and material and energy supplies which was prepared and submitted to the Council on Wage and Price Stability. This Statement is available for inspection and copying according to the rules and regulations of the Department during regular business hours in Room 10245, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C.

FUTURE AMENDMENTS TO THE STANDARD

HUD believes that the proportion of mobile homes and other manufactured housing in the total housing inventory will continue to increase. HUD also expects that future innovation in design, materials, construction methods, equipment components, subsystems, and also new methods of testing and evaluation may make some aspects of the initial Federal mobile home standards obsolete or inadequate.

Recognizing these factors, HUD expects and plans that the standards will evolve in an orderly fashion to meet changing needs and conditions, as have voluntary and state standards in the past.

The office of Mobile Home Standards will have an engineering staff to work on amendments to the standards and to propose and utilize research to support such amendments.

HUD invites comment or other communication at any time from any member of the public or any organization regarding the Federal mobile home standards and possible amendments to those standards.

In consideration of the comments received and pursuant to the authority contained in sections 604 and 625 of the National Mobile Home Construction and Safety Standards Act of 1974 (42 U.S.C. 5403 and 5425), 88 Stat. 701 and 714, Part 280 of 24 CFR is amended and corrected as follows.

Effective date. These regulations are effective June 15, 1976.

DAVID M. DEWILDE,
Deputy Assistant Secretary-Commissioner for Housing Production and Mortgage Credit.

Introduction. The following regulations are in substantial measure based on the Standard for Mobile Homes NFPA 501B–1974/ANSI A119.1–1975 and particularly on sections B, C, D, and E of that standard. In addition, parts of these regulations are derived from state standards, enforcing agency standards, interpretation manuals and trade association standards.

Subpart A—General

Sec.
280.1 Scope.
280.2 Definitions.
280.3 Acceptance of plans.
280.4 Incorporation by reference.
280.5 Data plate.
280.6 Serial number.

Subpart B—Planning Considerations

280.101 Scope.
280.102 Definitions.
280.103 Light and ventilation.
280.104 Ceiling heights.
280.105 Exit facilities; exterior doors.
280.106 Exit facilities; egress windows.
280.107 Interior privacy.
280.108 Interior passage.
280.109 Space planning.
280.110 Room requirements.
280.111 Minimum room dimensions.
280.112 Toilet compartments.
280.113 Hallways.
280.114 Glass and glazed openings.

Subpart C—Fire Safety

280.201 Scope.
280.202 Definitions.
280.203 Flame spread limitations and combustibility.
280.204 Kitchen cabinet protection.
280.205 Carpeting.
280.206 Firestopping.
280.207 Requirements for foam plastic thermal insulating materials.
280.208 Mobile home fire detection equipment.

Subpart D—Body and Frame Construction Requirements

280.301 Scope.
280.302 Definitions.
280.303 General requirements.
280.304 Materials.
280.305 Structural design requirements.
280.306 Windstorm protection.
280.307 Resistance to elements and use.

Subpart E—Testing

280.401 Structural load tests.
280.402 Test procedures for roof trusses.
280.403 Standard for windows and sliding glass doors used in mobile homes.
280.404 Standard for egress windows for use in mobile homes.
280.405 Standard for swinging exterior passage doors for use in mobile homes.

Subpart F—Thermal Protection

280.501 Scope.
280.502 Definitions.
280.503 Materials.
280.504 Condensation control (vapor barriers).
280.505 Air infiltration.
280.506 Heat loss.
280.507 Comfort heat gain.
280.508 Heat loss, heat gain and cooling load calculations.
280.509 Criteria in absence of specific criteria.
280.510 Heat loss certificate.
280.511 Comfort cooling certificate and information.

Subpart G—Plumbing Systems

280.601 Scope.
280.602 Definitions.
280.603 General requirements.
280.604 Materials.

Sec.
280.605 Joints and connection.
280.606 Traps and cleanouts.
280.607 Plumbing fixtures.
280.608 Hangers and supports.
280.609 Water distribution systems.
280.610 Drainage systems.
280.611 Vents and venting.
280.612 Tests and inspection.

Subpart H—Heating, Cooling and Fuel Burning Systems

280.701 Scope.
280.702 Definitions.
Sec.
280.703 Minimum standards.
280.704 Fuel supply systems.
280.705 Gas piping systems.
280.706 Oil piping systems.
280.707 Heat producing appliances.
280.708 Clothes dryers.
280.709 Installation of appliances.
280.710 Ventilating, ventilation and combustion air.
280.711 Instructions.
280.712 Marking.
280.713 Accessibility.
280.714 Appliances, cooling.
280.715 Circulating air systems.

Subpart I—Electrical Systems

280.801 Scope.
280.802 Definitions.
280.803 Power supply.
280.804 Disconnecting means and branch-circuit protective equipment.
280.805 Branch circuits required.
280.806 Receptacle outlets.
280.807 Fixtures and appliances.
280.808 Wiring methods and materials.
280.809 Grounding.
280.810 Electrical testing.
280.811 Calculations.
280.812 Wiring of expandable units and dual units.
280.813 Outdoor outlets, fixtures, air conditioning equipment, etc.
280.814 Painting of wiring.
280.815 Polarization.
280.816 Examination of equipment for safety.

Subpart J—Transportation

280.901 Scope.
280.902 Definitions.
